

ALL STRIKES ARE CONDEMNED AS MERE "INDUSTRIAL BARBARISM"

Nation-Wide "Red" Plot Nipped in Bud by Arrest of 500 Radicals

PLANNED TO OBSERVE ANNIVERSARY OF RUSS GOVERNMENT BY RIOTS

(By The Associated Press.)

Over 350 alleged radicals, who are said to have plotted violent demonstrations throughout the country today in commemoration of the second anniversary of the Russian Soviet government, were in the hands of federal authorities today awaiting deportation or such action as may be taken against them.

About 500 men and women are suspected of being implicated in the plot and were seized last night in a series of swift raids in fourteen cities.

WASHINGTON, Nov. 8.—The deportation of all aliens engaged in "Red" activities has been determined upon by the Department of Justice, Attorney General Palmer announced today.

Details of the widespread cleanup last night and today show that over 200 have been arrested in eighteen cities. Attorney General Palmer has asked the justice department to deport everyone of the alleged radicals.

Included in the material and literature seized in last night's raids were quantities of articles used in making bombs, a complete counterfeiting plant, a large supply of counterfeit bank notes and thousands of pieces of literature described as being of the most inflammatory nature and scores of red flags, rifles and revolvers.

Agents of the Department of Justice and the Bureau of Immigration have been collecting evidence as to these particular cases for two months, Palmer said. Practically all of those who have been arrested were Russians.

I. W. W. INVOLVED, DEPARTMENT SAYS.

CHICAGO, Nov. 8.—Activity in planning the nationwide celebration of the second anniversary of the anniversary of the establishment of the soviet government of Russia was curtailed by raids on alleged radicals in many cities by the Federal Department of Justice.

Operations were centered in Chicago, operatives of the bureau here today said. Over 200 prisoners were taken in the Chicago district and at the same time other hundreds were arrested elsewhere.

Most of the prisoners were arrested at their homes. Circulars, pamphlets and letters were seized which gave details of the proposed celebrations and tended to show that they were distributed from the headquarters of the Industrial Workers of the World here, operatives said.

CISCO WORRIED ABOUT ITS FUEL

CISCO, Nov. 8.—Looking forward to a possible gas shortage here many citizens have tried to provide coal and wood for emergency heating and cooking. Local coal dealers say that it is almost impossible to secure shipments of coal, even before the coal strike. One car of coal was received in this city this week and a great rush prevailed.

The wood industry here is a thing of the past. Dealers who used to furnish wood for heating and cooking say that since the coming of the oil boom and the increased wages the wood industry has passed. Wood is bringing as much as twelve and fifteen dollars per load. Should the gas supply fail during the coming winter the question of fuel will be a serious one for Cisco city.

Poe Building Space Is Taken Early in Game

The storeroom of the Poe building, now under construction, which faces Main street, has been leased to Robinson brothers, who are now operating a wholesale meat market in this city. They will open a grocery store and meat market, with special built-in fixtures and the most modern equipment of a city store.

The storeroom on the corner of Marston street and the alley, in the same building, has been leased to the Poe Shoe company of El Paso. Ed Poe, who will head the concern, expects to bring his family here soon and make his home in this city. He has been in the shoe business a good many years and is said to be a very solid and substantial business man.

The Poe building will occupy 75

REMNANTS OF ONCE PROUD AND MIGHTY GERMAN BATTLE FLEET, ONLY A HANDFUL OF THIRD-CLASS WARSHIPS REMAIN

Remnants of the German fleet in Kiel Harbor. Of the once proud and mighty German battle fleet, rated second in the world in 1914, there remains today but an insignificant fraction. This picture, which has just been received from Germany, shows the handful of third-class warships that the Germans still have in their possession. And even these they may have to give up, as the allies now propose to punish them for destroying the bulk of their fleet in Scapa Flow by taking the remainder of their sailing ships away.

Humble's No. 1 State Land Is Worth 60 Bbls.

Humble Oil & Refining company has a sixty barrel well on its State Land strip, No. 1, which was drilled to 2,140 feet and shot from 3,420 to 3,440 with eighty quarts of nitro. Because of its position with regard to the Norwood of the Texas Pacific and the J. M. Turner of the Magnolia, this holding was expected to show strongly. It has yet to bring in a big boy.

Through an Eastland scouting office, Leon Oil company's Allen No. 8 was reported a 2,000 barrel completion Friday. The well has had a fishing job for weeks and is now shut down for orders at 3,250 feet. Casing is being pulled and the operation may be abandoned. It has never been a producer.

The strength of Root, Hupp and Duff's Eli Perkins No. 2 was estimated at 3,900 barrels. The well is drilling line at 3,352 feet and making 1,500 barrels.

COLUMBUS, O., Nov. 8.—Voters have sustained the Legislature in ratifying the national prohibition amendment by a majority of 859 according to complete unofficial returns.

WHY WE'RE LATE. No Change In Big Coal Strike Over Nation

CHICAGO, Nov. 8.—There was little change in the general conditions surrounding the coal strike today.

It is apparent that the public is evidently holding in abeyance further appeals for coal, pending the hearing of the federal injunction proceedings.

No considerable betterment of the amount of coal brought to the surface was reported, although Alabama and West Virginia production is said to have improved slightly.

ALL HOSTILITY BETWEEN U. S. - JAPAN IS OVER

TOKIO, Nov. 8.—Conciliatory and dignified in its nature, Japan's reply to the American note of last September complaining of a lack of co-operation by Japanese troops in the operation of the trans-Siberian railway, is believed to have removed any danger of serious complications between the United States and Japan over the railway.

In effect the reply is a ratification of the agreement arranged at Vladivostok by United States Ambassador Roland Harris and the general in command of the Japanese forces in eastern Siberia and commits Japan to full co-operation in the future.

Under the circumstances, it is considered unlikely that the United States will further pursue the matter.

EX-SCHOOL SUPT. AT ABILENE DIES AT 53.

ABILENE, Nov. 8.—The funeral of J. S. Smith, who died Thursday night at the home of his daughter, Mrs. M. A. Jenkins, D. D., was held this morning from the family residence in this city, conducted by the Rev. M. A. Jenkins, D. D.

Mr. Smith, who was 53 years old, served Taylor county as county superintendent for three terms, and was widely known in school circles throughout the state. He recently entered business at Cadde and was stricken with typhoid fever, from which he died. Two sons and five daughters survive him. He was born in South Carolina and came to Abilene in 1897.

General Oil Has 4,000-Barrel Well

FORT WORTH, Nov. 8.—The General Oil Company has 3,400 to 4,000 barrel well in the Wichita Falls field, according to an announcement here today. The well extends the field a mile northwest.

Special Leased Well.

AUSTIN, Nov. 8.—The gross production tax of 1 1/2 per cent imposed on companies in Texas netted \$500,000 during the quarter ending October 31, according to preliminary figures obtained in the Comptroller's department.

There are between 2,000 and 2,500 oil companies operating in Texas, and out of this number only about 150 are delinquent. These are among the smaller companies and they are subject not only to a penalty of 10 per cent of the amount of the tax, but also of forfeiture of their permits to do business in the State.

Following is the value of the oil produced during the past quarter and the taxes paid by several of the leading oil companies:

Gulf Production, Houston, value of oil, \$4,951,755, taxes paid, \$74,876; Magnolia Petroleum Company, Dallas, value of oil \$4,036,170, taxes paid, \$60,542; Prairie Oil & Gas company, Independence, Kans., value of oil, \$1,419,518, tax, \$21,292; Texas Pacific Coal & Oil company, Thurber, value

\$2,270,983, tax \$33,106; Texas Company, Houston, value \$5,457,747, tax, \$81,866; Humble Oil & Refining company, Houston, value \$3,037,970, tax, \$45,567.

LITTLE ROCK, Ark., Nov. 8.—Posses from Magnolia and Eldorado, Ark., are closing in on a densely wooded area, in which it is believed Jordan Jamison, a negro who yesterday shot and killed Sheriff B. F. Greer, is hiding.

The sheriff had been called to the home of the negro to arrest him for wife beating, and the officer was shot and killed when he arrived.

TIME FOR CONGRESS TO ACT, SAYS REPORT OF SENATE COMMITTEE

(By The Associated Press.)

WASHINGTON, Nov. 8.—Characterizing all strikes as "industrial barbarism" and declaring "there is no place in this country either for industrial despotism or labor despots," the Senate committee authorized to investigate the steel strike today presented its report covering hearings in Washington and Pittsburg.

Criticism of both workers and employers in the controversy which resulted in at least a partial disruption of the steel industry is contained in the report of the committee.

The committee's main conclusion, concurred in by all members, is expressed in this statement:

"The public has the right to demand that capital shall not arrogate to itself the right to determine in its own way those industrial questions and it is the same as to labor and the duty is on Congress to provide some way of adjusting the difficulties."

As a permanent preventive against strikes, which the committee concedes "are apparently the only way for labor to secure even just demands in employers refusing to grant them," it is recommended that Congress authorize the establishment of some such mediation agency with well defined powers such as the recently dissolved war labor board possessed.

"This board should have the power of compulsory investigation," the report adds, "but not to the extent of compulsory arbitration."

"A just decision of the board would be endorsed by the public," the report goes on to say. "There's good sense enough in the American people to bring about an adjustment of these difficulties."

The committee members were fairly unanimous in the report, leaving open the points on which they could not agree. The report is signed Kenyon, chairman; Sterling, Phipps, Republicans, and McKellar and Walsh, Democrats.

WACO POLICE FIND LARGE SUM ON FOREIGNER

WACO, Nov. 8.—A man, presumably a foreigner, probably a Pole, was arrested here yesterday by the local police and is being held for federal officers. From his person were taken drafts for \$34,000, several diamonds and a few hundred dollars.

YOUNG POLLARD NEAR DOOR OF DEATH TODAY

L. Roe Pollard, a twenty year lad who was shot by an unknown assailant shortly after midnight Friday morning, was reported very low today by attending physicians his condition is a matter of hours.

L. C. Gordon, who was a local officer shortly after the shooting, waived preliminary hearing before Judge J. E. T. Peters yesterday afternoon and was remanded without bail. He was taken to Eastland last night and lodged in the county jail.

Gordon talked frankly of the affair to detectives yesterday. He persistently says that he has no recollection of the tragedy, that he did not own a gun and has no idea where he could have gotten one. He states that his last recollection of the events of the night was when he left a dance hall. A satisfactory motive for the killing has not been established.

ARANSAS PASS WISHES TO TRANSPORT "JOY WATER"

Special to The Times. AUSTIN, Nov. 8.—The first request for permit to transport liquor over a railroad under the Deam law was received yesterday from the San Antonio and Aransas Pass railway. The blanks were mailed and the permit will probably soon be granted.

FAILED TO MAKE REPORT, FINED \$500 AND JAILED

WAXAHACHIE, Nov. 8.—Because he failed to make a report showing receipts and disbursements of funds for the Orville independent school district, E. F. Ballard was yesterday fined \$500 and given thirty days in the county jail.

OPPORTUNITY in shop netting monthly. Go Apply Ranger Co., 121 N. 3d.

WOOD FOR... Also check and tent space. W. R. Hodges Estate, 500 Main st.

POR SALE... Passenger; Page six-cylinder... Reference furnished.

WOOD FOR... KINDLING WOOD for sale by the truck load. Give us your order. C. P. Hall, the Home Outfitter, Pine St.

## PAIR SAVED WITH THEFTS

Raynes of the local police returned yesterday from San Antonio, bringing under arrest H. W. Dawson and M. Dawson, who are wanted in this county for theft of oil well casing. The two Dawsons were indicted time ago by the Eastland county jury, along with a number of others. They were teamsters here before moving to San Antonio. The arrests follow a series of other arrests made by the Ranger police force and special agents of several big oil companies. At least a dozen men are now awaiting trial for alleged grand larceny in connection with wholesale looting of oil well casing. Their cases are set for the sixth week of district court at Eastland, which will be in the early part of December. The big companies have co-operated with the local police in every way possible, spending time, effort and money to run down the alleged thieves. Their interest has not stopped with the arrest of the alleged culprits; they intend to see that every lawful means is used in securing their conviction. As the chief special agent for one of the large companies operating here said, "The big companies have made Ranger and Eastland county, and we wish to secure the co-operation of the law-abiding people of the county in suppressing such wholesale thievery as has been going on in the past. The solution of the whole matter lies in putting the 'fence' out of business. If dishonest teamsters have no way of disposing of stolen goods, they will not be tempted to steal. The city should have some way to exercise close supervision over all outfits dealing in oil well casing and supplies. In this manner the receivers of stolen property would be apprehended, while the honest concerns would welcome such supervision, for they hate dishonesty in business as much as anybody."

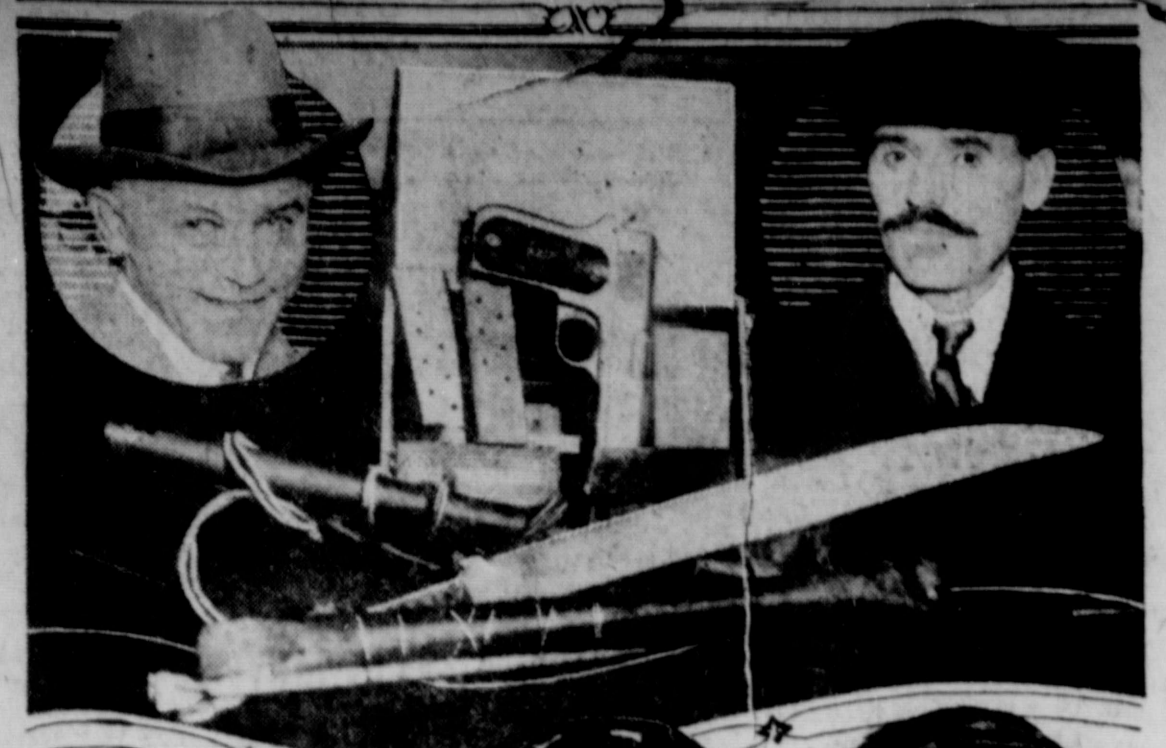

## Order Materials for Roads Early

Special to The Times. WASHINGTON, Nov. 8.—While the expenditures during 1919 for hard surface highways, according to estimates of the Bureau of Public Roads of the United States Department of Agriculture, will set a new record with a total of \$138,000,000, this figure is small in comparison with the estimated available total for 1920 of \$633,000,000, the spending of which promises to be dependent chiefly on the quantity of materials the present limited railway facilities can transport. The items entering into next year's estimate are: Brought forward from unfinished work, 1919 contracts, \$165,000,000; funds available from state and county taxes and federal aid, \$273,000,000; one-fifth state and county bond issues not before available, \$50,000,000; one-third unexpended balance of state and county bond issues previously available, \$45,000,000; available from new bond issues to be voted on in the fall of 1919 and spring of 1920, \$100,000,000. Unless the available open-top cars, many of which normally lie idle in the late winter, are utilized in that slack season the work which can be done will necessarily be curtailed for lack of materials. The total for 1920 is more than four times the amount that has been expended during any previous year for like purposes. Therefore there must be a tremendous increase not only in the material supplies and shipping facilities but also in the labor supply, and an enlargement of contractors' organizations. First of all, according to Thomas H. McDonald, chief of the Bureau of Public Roads, the attention of all state, county and city road-building interests should be directed toward overcoming this car shortage. To this end it is recommended that the shipping of materials begin earlier than usual. The first step in accomplishing this, Mr. McDonald points out, is to place under contract in December and January as a mileage of roads as possible. It has been customary to wait until contractors' organizations were to begin work before starting a shipment of material. Under these conditions many thousands of open-top cars lie idle during the latter part of February, all of March and the earlier part of April. During the past spring the number of open-top cars that were idle totaled more than 250,000. This, of course, was partly unavoidable owing to the late date at which work got under way, following the signing of the armistice. By awarding contracts as early as possible, contractors will be able to ascertain their material requirements at different points, and so will be in position to place orders dependent on rail transportation a considerable time in advance. While the placing of material in storage, which may result from such a course, involves some expense, it

## DROP IN LUMBER

Buy direct from the mills. J. M. Higman, manager of the Ranger Material Supply Co., announces they are now prepared to fill orders promptly for lumber and building material to be delivered direct from cars, they have many carloads on route from California, Oregon and Louisiana. This method of purchasing means a tremendous saving to the consumer. Prices in Ranger: No. 1 clear Redwood siding, \$40.00 Louisiana Pine Dimension, \$35.00 Louisiana Pine Shiplap, \$45.00 Oregon Pine Dimension, \$35.00 Louisiana Pine Floor, \$55.00 up Oregon Pine Floor, \$45.00 SEE HIGMAN OR ROBINSON 225 Office, Room 4, Roper Building Pine and Marston Streets

## ARREST OF ALIEN REDS IN CLEVELAND ON NATION WIDE BOMB PLOT

Reds arrested in Cleveland. Left to right above: Theodore Leovar and Steve Matejka. Below: Mrs. Matejka and George Zaeder. Center: Part of material seized at time of arrests. In the foreground is a loaded bomb; immediately behind this is a knife. The black bar partially hidden by the knife is an unfinished bomb. In the background is shown a box containing an automatic revolver and shell cases. The recent arrest, in Cleveland, Ohio, of a group of anarchists, who were caught with explosives and deadly weapons in their possession, throws new light on a nation-wide bomb plot which had for its object the murder of hundreds of officials and other notables and the overturning of the government. Four of the Reds who were arrested, together with some of the deadly weapons found in their possession, are shown in the accompanying layout.

## WOMAN HELPS HER THEATER-MANAGER HUSBAND IN WORK

Lady Butt, the wife of England's most prominent theatrical manager, is herself an amateur actress of no mean ability. Her husband is head of a syndicate that controls a circuit of theaters in England and Scotland, and Lady Butt is his confident and assistant in business. She has appeared in several amateur productions and through her work in these she is becoming as well known to the people in front of the footlights as she is to those behind them.

will be small compared to the loss that will result if contractors are not in a position to go ahead with the work because of lack of materials. In view of the experience of 1917 and the greatly increased program for next year, it seems probable, according to the Bureau of Public Roads, that contracts which are not awarded during the winter months will have little opportunity for being supplied with materials which require rail transportation.

## COTTON GINNINGS.

WASHINGTON, Nov. 8.—Cotton ginned prior to November 1 amounted to 6,273,866 running bales, including 70,584 round bales, 14,081 bales of American-Egyptian cotton, and 3,296 bales of Sea Island cotton, the census bureau announced today.

C. M. Collins, Pastor

## "Education Is Unrest Cause"

DALLAS, Nov. 8.—Education is the cause of the present widespread unrest among workers, Dr. A. B. Wolfe, professor of economics at the University of Texas, asserted recently in an address here on "Democracy and Industrial Unrest." "The attitude of capital is that of power, authority, prestige and command," Dr. Wolfe said. "At its best this attitude characterizes that of the benevolent feudal lord; at its worst it characterizes that of the slave driver. This attitude has been tradition of the dominant class in all eras. Only when modified by fear of consequences, or by sympathy (which is always in inverse ratio to proximity) are these instincts prevented from generating lasting tyranny."

Compromise, Dr. Wolfe said, is the only way out of present difficulties between capital and labor, but he admitted he knew no way to force a compromise.

## MAKING PLANS

Special Leased Wire. FORT WORTH, Nov. 8.—A manufacturing concern, the largest of its kind in the Southwest and by far the most important addition to Fort Worth's industrial assets since the erection of the packing houses many years ago, is to be established here. Construction on the buildings, to be devoted to the manufacture of drilling and fishing tools, will begin next week, according to announcement made yesterday by the Chamber of Commerce. All work preparatory to the actual building has been completed. A site of more than a quarter of a mile in length has been purchased and storage tanks, accommodating twenty cars, have been laid. Steel and other building material is already on the ground and complete machinery is en route from northern and eastern markets. The project will comprise an expenditure of \$350,000 for building and equipment. The company will be known as the Fort Worth Drilling Tool Company.

of Dallas  
will speak at the church. Please be early for a seat. All welcome.

## You're Out West! Grow With the Country

No man ever got anywhere who was satisfied to let "well-enough" alone. Don't sit around Ranger like the fossils at the village store. There are opportunities here for everybody—just "strike out" after them and you can make them yours. Look around you and see the hundreds of folks who came here almost penniless and by investing in real estate and developing their holdings have become independent today. Why, MAN, you're "Out West" now—"Grow with the country. Let us start you out with one or two of these bargains:  
A BUSINESS LOCATION—Lots on Main street and every other street, 25-ft. to 150-ft. frontage; which owners will sell, or lease, or build on for you.  
A HOTEL—20 rooms, fireproof, in the heart of Ranger's business district. Clearing about \$750 per month. Ample insurance. Requires \$2,500 to handle. We have many others.  
A RESTAURANT—Near McCleskey hotel. Clearing about \$2,000 per month and good for more. Selling at a sacrifice. Look over our list of other restaurants.  
A CLOTHING STORE—Best location available; excellent stock and lease. Doing big business. Price is right.  
A STORE ROOM—20x50, well located and reasonable rent; also spaces 16x20, 20x40, 25x40, 20x100, and many others.  
TRACKAGE—From 50 feet square to 50 acres, and in the choicest locations.  
HOMES—Ranging from \$1,500 to \$35,000 and from shacks to bungalows and mansions. Something for everybody.  
Here's success—we are with you.  
CRAVEN-MAROWITZ REALTY CO.  
121 South Austin  
Half Block South of McCleskey Hotel

## The McNelly-Williams Concrete Construction Company

WE BUILD IMMEDIATELY IN  
RANGER, DE LEON, EASTLAND, CISCO, BRECKENRIDGE  
Reinforced Concrete Buildings—Factories, Warehouses, Hotels, Office Buildings  
STEEL WAREHOUSES AND FACTORIES  
First—Our concrete buildings are stronger more durable.  
Second—Can be built in one-half the time required for other construction.  
Third—An absolutely fireproof structure and sanitary and germproof.  
Fourth—Saving of fuel due to dead air chamber space in walls, also "bone dry" structure.  
Fifth—A building free from vibration, adding to comfort and life of structure.  
Sixth—Saving in upkeep; the exposed surfaces are natural gray, saving in paint, etc.  
Seventh—Minimum insurance.  
Eighth—Attainment of graceful lines and good design at no added cost, owing to flexibility of the material while in the plastic state.  
Ninth—A great saving in total cost by doing away entirely with forms in construction.  
Tenth—The materials necessary in this construction are readily procurable, saving time in delivery of material.  
Eleventh—A lighter structure, hollow wall, great strength, placing reinforced cement at points of tension and compression.  
Twelfth—Can be built at less cost than any buildings of similar construction.  
LET US FIGURE WITH YOU. WE CAN SAVE YOU TIME AND MONEY.  
OFFICE 202-204 PINE STREET

**Richland Spgs. Raising Bonus for First Well**

Special to The Times.

**RICHLAND SPRINGS, Nov. 8.**—J. R. McAtoo is the first on the list with a donation for the first oil well to be brought in in this locality, having contributed a \$1,000. Concerning the donation, he said:

"Believing as I do in the future of Richland Springs, and particularly in our prospective oil development, I feel safe in subscribing \$1,000 to this fund."

Richland Springs is humming with prosperity. J. D. Miller, president of the First State Bank, says that business has increased over 50 per cent and that on top of a three years' drought.

J. W. Kavanaugh brought 150 bales of cotton to town the other day, for which the lint alone sold for an average price of \$204.37 cents a bale. The seed from this little bunch of fleece will average from \$25 to \$30 a bale. Who said hard times in Texas?

Gins are running day and night and even at this cannot keep up with the supply.

Gregory Davenport is at Corpus Christi organizing a bunch of cotton pickers and wool choppers for the Richland Springs community.

G. R. Lane from near Richland Springs is a good San Saba county booster. He says that he has a piece of land, which is very fertile, having produced in one stalk a school teacher county judge, soldier in the Cuban War, captain in the World War, and editor of The San Saba News. He says when this unusual species of vegetation first sprouted it had all the earmarks of a Republican but with proper environment a real live Democrat was the product at harvesting time, and he said, that this is popularly known as "Billy Smith."

**Gregory Will Aid in Red River Oil Land Suit**

**WASHINGTON, Nov. 5.**—Former Attorney General Thomas Watt Gregory has been retained by Texas oil land owners to assist in the defense in the Oklahoma suit to gain title to millions of dollars worth of Red River Valley oil land.

Gregory participated in a conference between Texas attorneys and the Department of Justice here yesterday.

**Literary Program at M. E. Church**

A literary program will be given by the young people of the Methodist church Tuesday evening, Nov. 11, at 8 o'clock. Previously the young people have been meeting at the church each Tuesday evening to spend a social hour. A friendly community spirit has been developed which speaks well of what the church is doing to welcome the increasing population of Ranger. A plan is on foot to organize a permanent society at the initial meeting next Tuesday evening, which will be of much educational value to the young folks of the church. The program will consist of vocal and instrumental music readings and one number of interest is a debate, "Resolved, That Baking Powder is more useful than talcum powder." Affirmative, Capt. H. L. Post, Mr. Hale, Mr. Moody, Mr. Moore, Miss Godfrey, Miss Wilkerson, Nerragive, Captain, Miss M. Lovickson, Miss Texen, Miss Hansard, Mr. Jennings, Mr. Thomas Mr. Castle. Everybody is cordially invited to attend.

**Church Services**

**CHRISTIAN SCIENCE.** Christian Science church services will be held at 11 a. m. Sunday in Elks' club, above Marston street on Main.

**FIRST PRESBYTERIAN.** Public worship Sunday morning at 11 o'clock and evening at 7 o'clock. Morning theme "Enthusiasm," evening theme, "November 11, 1918." Charles M. Collins, minister.

**FIRST CHRISTIAN.** First Christian church services will be held Sunday at the Opera House, on Pine street, beginning at 10 a. m. The Rev. Williams of Dallas will preach. A large attendance is expected.

**CATHOLIC CHURCH.** Mass will be held at 8 a. m. in the new church, located in the Blockwell addition, three blocks from the Prairie Oil and Gas company offices.

**AUTOMOBILES**

**FORDS, DODGE, BUICKS.** We buy and sell these three cars and keep them in new and used touring and roadsters, and make delivery any time. Have a large assortment on hand now. Special prices to dealers in quantity lots.

**JOHN GLADISH,** Weatherford, Texas.

**17—LEGAL NOTICES**

**DISSOLUTION OF PARTNERSHIP** Cisco, Texas, Nov. 5, 1919—I hereby give notice that I have dissolved partnership with the firm of Cunningham, Keller & Burden and will not be responsible for any accounts. W. A. CUNNINGHAM.

**WANTED TO RENT**

**WANTED**—To rent, hotel furnished or will run it on commission. By man and wife. Reference furnished. Ad. P. O. Box 1759.

# NEW TOWN LEERAY

STEPHENS COUNTY

## New Railroad Cisco & Northeastern Ry

THROUGH THE HEART OF THE STEPHENS COUNTY OIL FIELD

## Grand Opening

BUSINESS AND RESIDENCE

# Town Lot Sale Monday, Nov. 10th

Sale Begins at 10 o'clock Sharp. All lots tagged with the lot and block number, price and terms. No lots sold before opening sale day. No lots reserved—first come first served.

Stephens County was organized in 1876, and the Cisco and Northeastern Railroad, now building from Cisco to Caddo, will be the first railroad to build into the county. LEERAY will be the first railroad town in Stephens County, although only 43 years in getting there the town of LEERAY will build more and better in the next six months than it would in all that 43 years.

**WHY? Because LEERAY is in a natural location for a good-sized City and here goes to prove it.** The location for LEERAY is a naturally perfect townsite, not a bad spot on it, good HARD mesquite land with perfect drainage, no ravines, rock hills or SAND BEDS; to see the townsite of LEERAY is to fall in love with its beautiful location. LEERAY is located the right distance for other towns in the vicinity, being located on what is known as the Thorp Ranch, just across the Eastland County line in Stephens County, 12 miles northeast of Cisco, 12 miles North of Eastland, 16 miles Northwest of Ranger, 16 miles South of Breckenridge, 12 miles Southwest of Parks Field and 24 miles Southwest of Caddo, the terminus of the Cisco and Northeastern Railroad. LEERAY is also on one of the main permanent highways to be built to the Eastland County line out of the recently voted \$4,500,000 good roads bond issue, this highway will be continued by Stephens County from LEERAY to Breckenridge in a short time as the Citizens of Stephens County now have a petition before the County Commissioners' Court for a \$3,000,000 good roads bond issue, besides being situated in the very best farming and stock raising section of Stephens County, which alone would insure LEERAY making a splendid town for all lines of business as well as a good place to live and invest your money. LEERAY is fast becoming the very heart of the Stephens County oil field, that is where the famous Thorp shallow oil well district and only about 11-2 miles from the big Sammies well.

## Assured Water Supply

LEERAY has what is considered by the oldest residents in that part of the County the best water supply in this part of Texas, several wells now being on the townsite that are considered inexhaustible, having been repeatedly tested with large pumps, these wells range about 200 feet deep with water coming to within five or six feet of the surface. These wells can be had anywhere on the townsite which insures an abundant supply of good pure drinking water for all who come to live in LEERAY.

LEERAY will have an abundant supply of natural gas for all purposes as the Texas Company is now laying a large sized line across the townsite property which will be available at once, as arrangements have been made with them for running their mains on the principal streets of LEERAY.

**Directions for Getting to LEERAY: Take auto from Ranger, Eastland or Cisco to Leeray by way of Gunsight**

**TERMS OF SALE**

One-third cash, balance in three and six months, or one-third cash, balance in six monthly payments; 5 per cent discount for all cash.

"DOLLAR WILD, PLEASURE MAD"

I am not among those who regard the present as the most degenerate days in our country's history. There have been too many evidences of noble sacrifice and high spiritual purposes in recent years to warrant such a conclusion. Nevertheless our country faces a crisis, which ought to fill all thoughtful men with alarm. There seems to be everywhere a breaking away from the proven principles of all civilized order and a disposition to embrace new doctrines of socialistic tendency that can mean nothing but disaster. There never was such a disregard for constituted authority, never so much need for productive work and so little being done, never such extravagant expenditure of money for the luxuries of life and never such riotous pursuit of pleasure.

The situation is really more alarming than one would suspect. People in cities who live solely to satiate their appetites, to be entertained and to give nothing genuine and enduring to the world are non-producers. They are subsisting off the toil and products of hard workers. They are setting an example for the hardworkers to emulate when opportunity presents. They are being envied. Their riches and their ease, brought about by devious ways in which they are shrewd and good at bargaining, are a thorn in the side of the folks who really produce. The day of the drone must come to an end, or the nation will be engulfed, as was Rome. Money after all is only a medium of exchange. If the products of the soil are restricted the purchasing power of money will be nil.

Never before in the history of America was there such a condition obtaining. More people must earn their way. They must produce as well as consume. The energy of the race must be directed to channels worth while. Pleasure must be earned by the sweat of the brow and not be the dominant feature of life. The world at large must get a more sound view of life, what it means, and what it brings. The forgotten principles of life must be called back into vogue. Our fellow-men must be remembered. Class must go. Those in need must be provided for. Those who are enjoying all the luxuries and pleasures of life without producing must be made to share the heat of the day. Life holds most to him who helps the other fellow. Those who live voluptuous lives are always dissatisfied. They seek something that they can't find. Yet if they would turn and retrace their steps, live according to the divine laws, and practice the Golden Rule, soon the blight of the Silver rule would be dissipated, their lives would be blessed and they would be contented, cheerful people.

When he asserted that there is

SHE IS NEW YORK'S FIRST WOMAN JUDGE

Mrs. Jean H. Norris.

Mrs. Jean H. Norris recently became the first woman magistrate of New York. Mrs. Norris has been assigned to duty in the woman's court upon the recommendation of Mayor Hylan, who gave her a temporary appointment to fill the vacancy caused by the illness of Magistrate Matthew P. Green. Mrs. Norris is a widow who has been practicing law in New York for the last ten years and she is president of the Woman Lawyers' association a national organization.

a maddening waste of money on luxuries and a general tendency toward the pursuit of pleasures. The American people are reeling in the intoxication of pleasures and luxuries. They are actually blighting themselves and their lives in order to get out of the world all that the world can offer them, when, as a matter of fact, they fail to regard the divine law that they must contribute something real and lasting to it if it is to rock on undisturbed. They fail to appreciate the loss the world sustained when Rome went down. They do not take into consideration why Rome fell. Rome wore itself out with pleasures. Its fall was foreseen. No race can be hardy and endure which gives itself over to voluptuousness.

The situation is really more alarming than one would suspect. People in cities who live solely to satiate their appetites, to be entertained and to give nothing genuine and enduring to the world are non-producers. They are subsisting off the toil and products of hard workers. They are setting an example for the hardworkers to emulate when opportunity presents. They are being envied. Their riches and their ease, brought about by devious ways in which they are shrewd and good at bargaining, are a thorn in the side of the folks who really produce. The day of the drone must come to an end, or the nation will be engulfed, as was Rome. Money after all is only a medium of exchange. If the products of the soil are restricted the purchasing power of money will be nil.

Never before in the history of America was there such a condition obtaining. More people must earn their way. They must produce as well as consume. The energy of the race must be directed to channels worth while. Pleasure must be earned by the sweat of the brow and not be the dominant feature of life. The world at large must get a more sound view of life, what it means, and what it brings. The forgotten principles of life must be called back into vogue. Our fellow-men must be remembered. Class must go. Those in need must be provided for. Those who are enjoying all the luxuries and pleasures of life without producing must be made to share the heat of the day. Life holds most to him who helps the other fellow. Those who live voluptuous lives are always dissatisfied. They seek something that they can't find. Yet if they would turn and retrace their steps, live according to the divine laws, and practice the Golden Rule, soon the blight of the Silver rule would be dissipated, their lives would be blessed and they would be contented, cheerful people.

This department is modern and can weld anything, any time, anywhere.

SMOKING POWDER IN WORLD WAR?

St. Louis Post Dispatch: That protean pest, the doubting Thomas, appears to drop a skeptical tablet into the Pershing cup. Where and when was Pershing at the front, queries Representative Sherwood of Ohio. He asks official information from the house military committee, his request being predicated on the testimony of soldiers who have told him they never saw or heard of Pershing in the red melee. Page Pershing! And while about it call Foch and Haig, Cadorna, Diaz and call Von Hindenburg, too. For the doughboy was not the only fighting man who failed to see his general leading the charge with flashing sword, according to the tactics of legend and lithography. Polu and Tommy Atkins, Italians and Germans and all the rest, were all sent into zrips with death by orders issued miles and miles away. Yet each of these commanders had served his day at the front. The only "armet knights of the world were the Hohenzollern half dozen. The Captain Pershing of a Filipino day was seen often and disconcertingly at the front. But the Moro witnesses to his

department under fire are not in a position to file a report with the house military committee except by ouija board or medium. The Moros who mixed it up with Pershing are mostly dead. The Ohio representative who questions Pershingism is himself a warrior. A brigadier general in the Civil war, he recounts the number of officers of that rank who fell in battle; neither were they seen at the front, yet the valor of the Lees and Grants never needed a congressional certificate.

BAPTIST MINISTER HEADS NEW OIL CONCERN

Special to The Times. FORT WORTH, Nov. 8.—A. C. Gustavus, a Baptist minister and formerly pastor of the South Side Baptist Church of Ft. Worth, has been elected president of the Triple Oil & Gas company, which has been reorganized. Rev. Gustavus was also connected with the business department of the Baptist Seminary here at one time. The Triple company has acreage in block 61, west of Burk Burnett, on which drilling contracts have been let.
