SPIRITUAL SYNOPSIS

THE SIMPLICITY OF THE BIBLE Thomas F. Shropshire Minister, Church of Christ

There are many things in our modern way of living which are rather complicated. And it seems that the further we advance, the more complicated things become. It is refreshing, in the midst of all of these things, to contemplate something which is not complicat-We have reference to the Bi - God's revelation to man. It is true that there are some deep things in the Bible which dakes a great amount of study to understand. But on the whole, the Bible is the very essence of simplicity. There are some very simsple rules to follow, which if applied, makes the Bible very easy

The Bible was written by in-spired men. Not the kind of inspired men. Not the kind of in-spiration we talk about people having today, but the kind of in-spiration we read about in the New Testament, in II Peter 1:1 where Peter said, "For the prophe-cy came not in old time by the will of man; but holy men. of God spake as they were moved by the Holy Ghost."

The Bible contains the record of certain events and statements of both evil and good people as well as of God and of Christ. In reading the Bible, we must take into consideration who is doing the speaking and who is being ad dressed. Too, we must take into onsideration the age or dispensation of time the particular part of the Bible we are reading applies

The part of the Bible which applies to all of us in this dispensa-tion of time may be divided into three classifications: the facts, the commands and the promises. The facts are to be believed, the commands are to be obeyed and the promises are to be enjoyed. The facts of the Bible are set forth in simple terms and may be easily understood. The commands are simple enough for anyone to inderstand what to do to obey that we may easily ascertain what we will receive upon complying with the conditions given in connection with them.

Kay Massegee, the injured woman's sister-in-law, said Mrs. Ketchum had been to Midland to visit friends and we will be the conditions given in connection with them. nection with them. unless we make it so.

Agricultural, **Chemical Meet Set February 22**

The West Texas Chamber of Commerce will sponsor the First Tarleton Agricultural Chemical Conference at Stephenville Feb. 22, R. V. Galloway, manager of the Ranger Chamber of Commerce, said here today.

The conference will be held in the auditorium of the Agricul-ture building. Registration will begin at 9 a.m. There is no regis-

tration fee.
Galloway said that some may attend from here but no definite decision has been made.

Among the speakers to deliver messages at the conference will be Ralph L. Schwartz, survey supervisor USDA Soil Conservation Service, Abilene; J. B. Payne, Service, Abilene; J. B. Payne, areas supervisor vocational agriculture, Texas Education Agency, Stephenville; Dr. D. R. King and Dr. D. F. Martin, both professors on Entomology, A&M College of Texas and the welcome address will be given by Dr. E. J. Howell, president, Tarleton State College.
