I tried playing basketball, running, and jumping, having not done so since my school days. I discovered that a man in his thirties just doesn't do those things too much too often. So I stick to hiking and mountain climbing whenever I find the time.

RELIGIOUS BELIEFS: Have always believed in G o d and Jesus Christ. Also have always believed in the freedom of

worship as one of our Great American Heritages as held forth in our Constitution, and given to us by our founding fathers. We are all children of God. Although many of us including myself have at various periods of our lives become less than frequent church goers, it would be a much better world if all of us attended the Church of our choice regularly and participated in God's work bringing love and understanding into our lives and providing for our spiritual needs. I come from a Christian family and attended church every Sunday until as an adult my occupation as a geologist kept me on the job often on Sundays at various and increasing periods of time with less than frequent attendance. Recently, I reaffirmed my belief in God and Christ again with baptism and church attendance. This is my confession before God and you. It has absolutely nothing to do with my running for public office but since I am, you, the voters, are entitled to know about my religious beliefs.
