Mr. Virgil Moore seems to be quite displeased over a supposed injustice done to his fair city of Eastland.

In the Eastland Telegram column, Moore About Eastland, he comments on a recent article in "West Texas Today." He says the magazine had a wonderful story about Lake Leon, but "the only thing we found wrong with the story is that it mentions Ranger every other word and doesn't say one thing about Eastland."

Now isn't that a shame. He goes on to say that the story "in all probability was written by Rip Galloway, manager of the Ranger Chamber of Commerce."

Mr. Moore just doesn't realize Rip's talent as a writer and maybe he doesn't have in mind that the truth is what hurts!

Just a note to straighten out a recent matter here. We reported in a recent issue of The Times about a recent car-bicycle accident which sent a 10-year old Ranger boy to the hospital. At the end of the story we stated that Ranger police since the accident happened outside the city limits, they had not investigated the accident and couldn't identify the driver of the car.

We contacted the highway patrol, and even they couldn't identify the driver to us.

Mrs. Budde Vinson, mother of the injured boy, says that since then several people have called wanting to know if the whole deal was hit-and-run. IT WAS NOT HIT-AND-RUN.

The driver stopped, rendered aid, took the boy to the hospital, and stayed there until he thought he was going to be all right.

We still don't know the name of the driver, and we're not going to try to find out very hard.

The American Aggregate Company is carrying out quite an expansion program here. They've already added one new giant kiln and expect to add four more before the program is completed. Officials report the payroll will be doubled.

Eastland better get on the ball if they want to keep up with Ranger!

The recent Elvis Presley fad seems to be slackening off somewhat. He never was popular in our mind. His background isn't what one could call good, and the things he represents and stands for might be considered immoral by some.

Now, now, girls! Don't hang me in effigy yet!

Back in Hereford Elvis made a personal appearance in Amarillo, 48 miles away, and was lucky to come out of the deal alive. One girl, while getting her hero's autograph, accidentally touched him and fainted. She drew a big crowd of people who wanted to see where Elvis had touched her. What happened to Davy Crockett, anyway?

A weather forecast up north: Sheets of rain, blankets of snow—very bad weather. Come to think of it, worse than raining cats and dogs is when it's hailing cats.

We noticed last year that quite a few Hereford athletes seem attracted to playing football at Cisco Junior College.

What's Cisco got that Ranger hasn't? Ranger Junior College doesn't seem to have a hard time walloping Cisco.

L. B. "Big" Russell, former Little All America at Hardin Simmons, used to be head football coach at Cisco Junior College. Russell is now mentoring the Hereford Whitefeats.

Maybe that's why all Hereford football players get scholarships at Cisco Junior College.

Lou Beal Gets Wheel Chair

Lou Beal will be presented with a wheel chair Sunday night at 7:30 p.m. in the New Hope Baptist Church.

Rev. Jack Taylor, pastor of the church, expressed his appreciation to all those who contributed to the fund. He said those not having an opportunity to give may contact Mr. and Mrs. D. W. Boone, Mr. and Mrs. A. N. Bradford, or the Rev. Jackie Taylor.

Most Spots In Area Report More Than Two-Inch Total

Raging torrents of water enveloped Ranger late Friday and early Saturday following a prodigious rain storm accompanied by angry bolts of lightning and mighty blasts of thunder.

More than two inches fell on the city, the first rainfall of any substantiality since April 30 when over four inches fell, but neighboring Eastland received only a light sprinkle. The water level at Lake Leon was reported average and definitely not up.

The rain came in sheets—exhausting itself two hours

after it had begun at 5 p.m. Friday. Downtown gutters were running full, and fields lay engulfed in water.

The peanut crop in the Ranger area is expected to flourish after the welcome rain. The cotton planted in this area is also expected to greatly benefit. The corn crop was already badly damaged but the part of the crop which has survived is expected to reach out and grab new life.

No immediate damage to life or property directly resulting from the storm was reported.

Electricity to Ranger citizens was hampered only momentarily for a few brief moments during the storm.

Ranger police reported Saturday that no major accidents were blamed on the storm.

North of Ranger in the Caddo and Lacasa territories inhabitants reported that the rain was coming down so hard that one couldn't see to drive. Reports varied from one inch west of Ranger to 2.20 on the east side. Ranger Country Club measured 1.61 inches.

Several motorists were noted stopped on the highways approaching Ranger, but none reported serious trouble. Most resumed after the storm slackened off.

At Ranger Junior College

Construction Work On Dorm Nears End

Construction work on W. P. Newell Hall, new boys dormitory at Ranger Junior College, is slated to reach its completion by August 1, college president Dr. Price Ashton said Friday.

But the \$147,000 structure will be only one of two new buildings on the college campus when the fall term commences. Ashton said that work on a new cafeteria to be constructed at the corner of Cooper and Sinclair streets is slated to begin in about 30 days.

The two-story white brick building was begun in March. Lowest bid on the building was \$147,000, but construction costs have been cut lower for several reasons, Ashton said.

The building will be 32 feet wide and 160 feet long. It will have 82 rooms with three beds in each room. The structure is complete with central heating and is constructed where air conditioning may be installed easily, but Dr. Ashton said that the air conditioning would not be put in now because summer school enrollment doesn't merit it.

The floor will be covered with battleship linoleum. Entrances will be on the east and west.

Construction costs of the cafeteria will be approximately the same as the dormitory. The cafeteria probably won't be fully completed by the time school starts but will be in operation anyway, Ashton said. He expects the building to be completed about 15 days after school starts.

The dining hall will be 25 feet wide, 110 feet long, and will have accommodations for 350 people. It will be a one story structure and (Continued on Page Two)

Bombers Sink Bums; Giants Retain Lead

The Yankees mercifully "moderated" de' Bums' Thursday night. But they failed to gain ground on the league-leading Giants, winners over the Indians.

The bombarding Bronx Bombers zeroed in their bomb sights to pulverize the Dodgers, 17-1, while the Giants quelled a last inning rally to stop the Indians, 10-8.

Thursday night's results failed to change the season standings. The Giants remain in first place and the Yankees in second. The Giants nudged the Yankees out of first place with a hard earned 5-3 win Monday night.

The Indians had one moment of bliss in the initial frames, with the Giants, but it was only briefly. They took a two run lead in the bottom of the first when with one out Teddy Neely singled. He reached third on an error by Giant catcher David Lockwood. Charley De Lee Santos singled behind him and batted on Lockwood's second error of the inning.

The Giants were held scoreless in their half of the first, but the Indians couldn't count in the second and lost their lead in the top of the second canto. Dean Richey smashed a lead-off double. Johnny Camacho fanned, but Chuck Garrett singled Richey home. Garrett scored when Denny Ewing drew life on third baseman Butch Owens' error.

The Indians were not to score again until the bottom of the sixth, but the Giants added to their total to build a substantial lead. They counted three in the third to build a 5-2 lead at the end of three. Lockwood walked to lead off, Carol Jowers singled, and Ronnie Hinds followed with another hit to fill the sacks. Lock-

wood was out at home on D. Hartman's grounder, but one scored on Richey's walk. Roland Goodwin fanned. Then two scored when Chuck Garrett's grounder was a boot.

To this lead the Giants added four more in the fourth. John Nicholson walked. Lockwood was safe on an error. Carol Jowers doubled for a pair, and Ronnie Hinds struck out. Hartman was out, but Dean Richey's double was good for another run. Goodwin walked, Richey scored when Garrett was safe on an error.

The Giants rounded out their final total of 10 runs with a lone tally in the sixth. Richey walked to lead off but Goodwin hit into a double play. Chuck Garrett singled and went around on an error. He scored when Johnny Merritt was safe on another Indian error.

The Indians came close in the bottom of the sixth but couldn't find it within themselves to overcome the strong lead built up by the Giants. Six big tallies scored for the Indians to wind up the final score of 10-8.

The Yankees' victory was ruthless. They allowed the Dodgers to score a run in only one inning, the fifth. They scored at least two runs in every inning they batted. Bomber hurler Charles Fageon allowed the Tribe only a pair of singles, while his teammates supported him with nine base raps.

The first of the Yank barrage came in the first. Four runs scored on only two hits, but the Bums were guilty of four miscues afield which aided the Yankees greatly.

The situation was duplicated in the second, four more runs cross-

ing on only two hits, but this time the Indians committed only three errors.

The barrage finally slackened off somewhat in the third, as the Dodgers allowed the Yanks only two runs this time, but the victors pounded out the customary two base hits per inning.

But the Yankees got back into the groove in the fourth and issued forth with their greatest single inning run output of the game. Five runs scored this time to make the score 15-0, but the Bombers were still stuck on only two base hits per inning.

It was in the fifth inning that the Bums finally broke the ice. The tally all came about as the direct result of a series of errors and a base on balls.

However, the Yankees duplicated this tally and added another to boot in their half of the fifth stanza.

The game was over and the high flying Bronx Bombers had squeaked past the Flagship Bums.

Pappy O'Daniel Has God's Ten Commandments As His Platform

(Editor's Note: This is the first in a series of articles written for this newspaper by the six candidates for governor. Others will be printed as they are received from the candidates.)

The Ten Commandments cover all of man's activities of today. They are the rules of God. They are His Law, and obedience to God's Law is insurance against negligence, sins of omission and commission, against crime, bearing false tales, and thus assures honesty, common decency and human dignity for those who work, play and live by the ten rules laid down by the Giver of all that is good in this world. There can be no better political platform than adherence to the rule of God says Texas' former Governor and a United States Senator, W. Lee O'Daniel.

This is the thought back of the W. Lee O'Daniel platform—the Ten Commandments.

There are political issues to be presented to the people, so it is that W. Lee O'Daniel charts his campaign course to cover these different issues and to make his position clear and understandable upon each and every one.

O'Daniel attacks the fallacy of overlooking responsibility in public officials. He charges that blankets will not put one member of the State Land Board in prison and in the next move elect another member of that same board to high office. He asserts that it is the responsibility of the Attorney General, a member of that board, to protect the state's interests and to detect criminal practices and abuses of state officials, especially

those who sit with him on official boards and commissions.

O'Daniel is opposed to the desegregation of our public schools. He says he will use every lawful tool at the command of the sovereign state to prevent desegregation. "There will be no Desegregation when I am Governor", O'Daniel has been saying from every political stump in the state since and including his opening rally in Waco, May 12.

O'Daniel was the first to espouse a workable water supply and conservation program. His program is the composite of suggestions by engineers both in and out of government. All of his consultants are familiar with the Texas situation. Thousands of small dams to impound the waters of Texas streams so as to give wide distribution to all sections of the state; and tap big rivers in adjoining states and deliver by conduit the precious water to our heavy population centers, that rushes by to be lost in the Gulf of Mexico.

O'Daniel stands for increased old age survival pensions. He is urging the payment of \$85 per month for each aged citizen, the equal of the pension paid by Colorado.

He is campaigning for the soldiers bonus and says he will give the people of Texas the opportunity to reward their service people for the sacrifices they have made on the battle fields of the world.

O'Daniel is advocating a new tax program, which he says will make a saving to all, especially those who come within the income bracket from \$29,000 down to the non-taxable level.

"I now seek re-election for a second term and feel better qualified than ever to represent your interest faithfully and well.

"I do not have a lot of cam-

Vandalism Causes Closing Of Pool Here

City Manager Lester Crossley reported Saturday that Ranger Municipal Swimming Pool will be closed for at least a week.

Crossley said the action was due to some vandals Friday afternoon while the pool was in operation. The draining process was begun Friday afternoon. After the pool has been drained, it must be completely cleaned, Crossley said. Then it must be filled.

All this time will probably add up to more than a week, the city manager added.

Study The Men Compare Their Records

Both candidates for County Attorney have compiled past records in the office. Earl Conner, Jr., has been publicly taking great pride in his record and promising the voters to continue to work, if elected, in the same manner as before. At the same time his supporters are charging that the present County Attorney does nothing and is inactive in the performance of his duties. Here are the facts concerning the past records of the two men. Earl Conner, Jr., seeking a 6th term, paid to the County Treasurer \$13,280.03 during his 10 years in the office, for fees received for the prosecution of criminal cases. This averaged \$1,328.00 per year. Joe Nuessle, seeking a 3rd term, paid in \$18,563.75 during his 4 1/2 years in office from the same source, averaging \$4,125.27 per year, or **OVER THREE TIMES** as much as Conner. These figures are on record in the County Auditor's office, and based on the same fee scale in effect prior to an increase in September, 1955.

According to the Criminal Minutes of the 91st and 88th District Courts, Conner tried an average of 27 cases per year, and Nuessle an average of 33, despite the fact that the county's population decreased approximately 25% between 1940 and 1950, and the number of crimes proportionately. The lower courts show the same picture, particularly the County Court where Conner tried an average of **EIGHT (8)** cases per year, as shown by the Criminal Minutes, Volume 2, pages 88-166, and Nuessle tried an average of **SIXTY-FOUR (64)** such cases per year, according to Volume 3, pages 419 to 425, and Volume 4, pages 1 to 281, of the Criminal Minutes.

It should be added that Earl Conner "kept his dockets clean" because according to Volume 2, pages 8 to 15, of the Criminal Minutes of the 91st District Court, Mr. Conner **DISMISSED 332 FELONY CASES**, then pending on **GRAND JURY INDICTMENTS**, on December 30, 1946, alone, his last day in office. 253 of which were filed during his 5 terms. Joe Nuessle has dismissed only 46 felony cases that were filed while he has been in office and has only 23 cases pending in the District Court in which arrests have been made and are ready for trial.

This all shows which candidate has really served the people of Eastland County. Let's re-elect the able young veteran of War II, who has led our county back to a position of prominence in law enforcement, where it belongs, by performing an outstanding job.

Magnified a Thousand Times—

... is the common conception that it makes no difference, so why worry? The fact that a loaf of bread is taxed about 70 times has little outward criticism from the masses as we resolve ourselves into the complacent attitude that we can do nothing about it. But we should! It isn't Communism, nor Segregation, nor unpredictable Russia that are our greatest threats to survival, but taxes. If you happen to be a common laborer or one of thousands of small business men, better wake up!

Quick Flowering Annuals Grow Fast in Warm Soil

Zinnias Do Best When Sown Where They Are to Grow.

Spring never has enough hours for all the garden tasks to be completed; no matter how early the start you made, summer may arrive with some garden space unfilled. What can be done?

The answer can be found in quick growing annual flowers. There is a large selection of lovely ones which will grow and bloom from seed in 30 to 40 days.

While the advantages of early planting cannot be disputed, there is some consolation for the late seed sower. Plants grow much faster when the soil is warm, and flowers come quicker from seed sown in the garden than they do from seedlings which have been transplanted and suffered the set-back which this always entails.

The following annuals will germinate in warm soil in 5 to 10 days and produce their first flowers in five to six weeks: Sweet alyssum, white and violet; calendula, calliopis, celosia, centaurea, cosmos, dianthus, marigold, nasturtium, nicotiana, annual phlox, portulaca and zinnia.

None of the other fast growers will do well in shade. All need well drained soil. Among them are flowers of every color and various heights and sizes. The best way to select the kinds you will grow is to decide on the height, color and size of flower you would like to see in

each location, and choose the variety which will produce that kind of plant.

For sowing in the garden the soil should be stirred to a depth of six inches. The surface soil should be very fine, so that the particles are no larger than the seed to be sown. Four pounds of balanced commercial plant food should be spread for each 100 square feet, and spaded under.

Seeds of growing annuals to produce color masses is often broadcast, fine seed being mixed with dry sand to spread it.

Soil used to cover seed is most important. If your soil contains much clay and is inclined to form a crust under the sun's heat, it will pay to prepare a special covering soil. A mixture of half peat moss and half sand is excellent; or peat moss alone may be used. Cover lightly and firm.

When single plants or a small group are desired, growing among other plants, a shallow hole may be dug with a trowel. Mix plant food in the soil in the bottom of the hole, cover this with fresh soil on which the seed are sown. Sow three seeds in each spot where you want a plant to grow, cover and firm. When the seedlings appear select the best one in each location and remove the others at an early stage of growth, being careful not to disturb the roots of the chosen specimen.

Christian Science

Humanity's need for effective prayer will be emphasized at Christian Science services Sunday.

Keynoting the lesson - sermon entitled "Sacrament" is the Golden Text from Psalms (19:14): "Let the words of my mouth, and the meditation of my heart, be acceptable in thy sight, O Lord, my strength, and my redeemer."

The importance of earnest prayer to God is brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, which will include the following (4:3-9): "What we most need is the prayer of fervent desire for growth in grace, expressed in patience, meekness, love, and good deeds. To keep the commandments of our Master and follow his example, is our proper debt to him and the only worthy evidence of our gratitude for all that he has done."

First Baptist Announcements

The schedule of Lord's Day activities for the First Baptist Church begins with the Sunday school at 9:45 a.m. under the general direction of L. C. Stephens, superintendent. The church has a full corps of trained workers, and each age group has a place in the Sunday school. TOO MANY POLITICIANS, NOT ENOUGH STATESMEN

Many of our politicians lack moral and spiritual courage.

Our founding Fathers had it and by its application built a powerful, great, and honest nation.

God has given us the courage to push aside our stupid mistakes. Let us, we the people use it.

The mistakes of our politicians have led all of us into national and international decay. We are being taxed to death for a useless purpose.

The give away program and silk hat diplomacy should have disappeared forever when the first atom bomb exploded over Japan bringing a Godless nation to its knees. This was God's will.

Since then, we have had nothing but conversation, lost our boys in Korea, and our politicians are leading us into economic slavery.

Send a spokesman for we, the people, to Washington and find out where we are being led.
