

THE DRIVER'S SEAT

The driver who drinks even one drop then takes his car down a way should be called "the death of the party."

Alcohol slows down reflexes the way efficient brakes slow down a car—with this difference, a driver controls his brakes, but alcohol controls the driver.

Take a look, for a moment, at some figures that show what reflexes really mean. They mean, of course, the difference between life and death, but these national safety council data on "stopping distance" give a new sharpness to this meaning:

A car going 20 miles per hour travels 52 feet between the time a driver sees the danger, applies the brakes, and brings it to a stop. A driver's "thinking distance" at 60 mph—that is, the time it takes him to see danger and apply brakes—is 66 feet, and the car itself, going at a mile-a-minute speed, will travel 336 feet before being stopped by average brakes.

At 70 miles an hour—the speed at which so many reflex-fuzzy drivers travel after bending an elbow—the "thinking distance" is 77 feet, and the stopping distance 332 feet, with good brakes, and 445 with "passable" brakes.

There is no way to laugh off these facts. Nor is there any way to laugh off the tragic results caused by ignoring them.

Put it this way: if you're going 70 miles an hour you will cover more ground than the length of a football field before you can stop your car. And this holds true only when your reflexes are normally keen and efficient.

A driver whose mind is fuzzy with alcohol will take far more time to see danger and stop his car—if, indeed, he stops it at all before hitting a train, an embankment, or another car.

Danger signals—such as a pedestrian suddenly stepping into the street, or an automobile cutting recklessly out of its proper lane—don't register automatically in a befuddled brain. There must be a dual process of recognition and transmission. This may take only a few seconds, but these few seconds are generally the difference between life and death on the highway.

Obviously, the ritual of "one for the road" can be a prelude to disaster. It is often the choice between taking a drink and taking a life.

Police Are Busy Over Weekend

Ranger city police were "busy as bees" over the weekend. According to the blotter of the chief, some seven persons were "incarcerated in durance vile" and a number of traffic tickets were issued.

L. L. Briccoll, white, male, Ohio, was arrested early Sunday morning and charged with speeding. He was released after posting a \$10 bond.

About 6:50 p.m. Sunday "little Mexico" opened up. Five Mexicans were arrested for being drunk and disorderly. They were Lewis Martinez, Manuel Gomez, Louis Gomez, Joe Gomez and a man named Vasque, first name unlearned. All five men were fined \$15.70 and paid their fines with the exception of Lewis Martinez, who has elected to work out the amount.

C. K. Clark, white, Ranger, was arrested for speeding Sunday night and released after posting a \$10 bond.

R. B. Sizemore, white, 24, and Jackie Paul Trotter, white, 29, both of Amarillo, were arrested at 3:40 a.m. Monday and charged with being drunk. Both men were fined \$15.70.

Pioneer Conference Licking Its Wounds

ARLINGTON — Pioneer conference football contenders will get a partial line on the shape of the pennant race this week as three loop members meet today making their second or third 1956 appearances in PC circles.

San Angelo's undefeated Rams, 1955 champions and favorites to repeat, Saturday will visit Victoria, 20-0 victors over Schreiner institute last week. At Corpus Christi Saturday, visiting Schreiner will try Del Mar, which last week battled Arlington state's Rebels to a 7-7 tie. And on Thursday Arlington state will entertain Paris, which whipped Ranger 20-7, and tied Tarleton state, 13-13, on consecutive week ends.

Other non-conference action pits Ranger against McMurry "B" at Ranger and Tarleton state against power-packed Kilgore at Kilgore.

Last week's conference haul against outside opposition was one victory, two ties, and two defeats. San Angelo took its second victory, 27-0, at the expense of the Texas Tech Rangers. Arlington state played its first tie game in five years under Coach Claude Gilstrap in the

7-7 crusher with Del Mar. And Tarleton state could do no better than a 13-13 tie with Paris. Making its first 1956 start, Schreiner bowed to Victoria, 20-0, with two ball-losing fumbles and a pair of pass interceptions avoiding a fairly consistent attack.

Ranger found the Tyler Apaches too large an order, 0-40, to absorb its second loss in two starts.

Dog Poisoner Moves To New Spot Sunday

R. F. Lockwood, local cafe owner and agent for the Greyhound bus lines, is the latest victim of Ranger's sadist.

Lockwood once had a small Boston terrier bulldog, for a pet — he doesn't have it now, the dog is dead.

Sunday, about 1 p.m., as was the usual routine, he took his dog along as he went to the post office. According to Lockwood, the dog frisked along at his side and playfully ran ahead and back toward him as he took his time in walking the one block from his business establishment to the post office.

The dog, Lockwood said, did not pick up anything on the way down the street, nothing was nibbled, nor was any prowling indulged in.

Upon arrival at the local government building, Lockwood entered, leaving the pet outside — as was his custom. He returned in

no less than three minutes — the canine was in convulsions upon the lawn of the post office. Rushed, by him, to a veterinarian, the pet was dead in 25 minutes.

With the rash of dog poisoning that has been going on around the city, Rangerites are advised to keep their pets on leash, or at home, until something is done regarding the sadistic person that is the cause for alarm.

In the case of small children, it is advisable not to let them on the ground, until either city police or county authorities do something about the wholesale poisonings — personally, we would feel rather badly should we have to write a toddler's obituary because such a fiend is on the loose.

Remember, it is your pet and your child that is in danger — do what you can — and hope for the best.

Court Approves Budget; Hospital Debated Again

Eastland county commissioners "batted around" the county hospital issue all morning long Monday, then voted to call a joint meeting of the Court and the Hospital Board. Then Monday afternoon they dug into the county budget hearing, and approved a \$355,504.10 budget for the coming year.

The hospital issue — which crops up like weeds in a cotton patch every so often — came up this time over a county patient submitted to Ranger General Hospital from Cisco. But the issue quickly spread to take in the entire operation of the hospital, and one commissioner said he felt it would be a pretty good idea to lease the county hospital "to them for \$1 a year" before the discussion ended.

J. B. (Tip) Arther finally suggested the joint meeting, and B. M. Bennett of Gorman quickly agreed with him. "Now's the time to get in or out," Bennett asserted.

J. E. McCandless of Cisco started the discussion, asking, "Just what is our responsibility to that hospital and just what is their responsibility to us?" He got no answer.

He tried to answer the question himself, but admitted he couldn't. He said he understood it was up to the county to maintain the hospital building and pay insurance on it, and that he thought that when a county patient was submitted to the hospital the county shouldn't have to say the same as everybody else. He pointed out that the county pays a flat fee of \$200 a month to the hospital now.

Henry Carter, Rising Star, admitted the county probably used the hospital "too much" for an "old folks home," but said he thought something would have to be worked out.

Presently the Hospital Board is half appointed by the commission and half appointed by the City of Ranger. It is actually a joint city-county hospital, although Ranger pays none of the operating costs.

Budget Approved
The \$355,504.10 budget sub-

mitted by County Auditor C. H. O'Brien was approved without change by commissioners.

O'Brien pointed out that he had, as in the past, estimated tax collections at only 80 percent, but actually they usually run above 90 percent.

Total collections are estimated at \$321,152.02. The beginning balance will be \$322,270.07 and the ending balance \$297,818.00.

Has outstanding debts of \$345,294.50. A breakdown reveals courthouse bonds total \$68,000 (the courthouse will be paid for

in 1964); road and bridge bonds, \$163,000; 1952 Series G. road and bridge bonds \$48,000; Precinct 1 warrants, \$12,000; Precinct 2 warrants, \$18,044.50; Precinct 3 warrants, \$25,000; and Precinct 4 warrants, \$22,000.

Estimated assessed taxes were \$168,949 and estimated collections, \$134,350.

Buy Bonds
Commissioners also approved the purchase of \$10,000 in Gorman School bonds out of the Permanent School Fund Securities in that fund will not total \$70,000.

It's Hot Here, And There, Too

E. L. Cline, our neighbor to the north, in Furnas county, Nebraska, seems to be complaining of the same ailments that are affecting Rangerites. His paper, The Times-Tribune of Beaver City, Neb., reports no rain the past week and for five days the temperature ranged from 90 to 95 degrees. However, the nights did cool off quite a bit in that the mercury hit a 49-to-55 degree range.

Ranger is not the only place that is hot and dry—it would seem.

HITS and MISSES
 By ED JOHNSON

When one has been away from old friends, if only for a short time, there is a heart-warming feel as they clasp your hand and with the old smile lighting up their features, make life seem all the happier. Such was the occasion last Friday night when a number of Jack county people were in Bulldog stadium to witness the Tiger-Bulldog game. To our longtime, true-blue friends, the McGees—Leigh, Mable Claire, Mike, and while we did not see her, to speak to the titan-haired head majorette of the Tiger band, Sara Jane, our good friend, through smooth sailing or stormy weather, Rev. Charles Vaughn, it made things appear as though we had never been separated—even a few short months. Russ Jones, our good photographer friend, was down from the North, also. It was good to see them—and may we see more of you soon—if not sooner.

TEXAS TEXANS—
 Something that few, if any other major institutes of higher learning within the borders of the Lone Star State can lay claim to: Every player on the University of Texas 1956 football roster is a Texan. Only five out-of-staters have appeared on Longhorn squads in the past decade.

THE BIG STEP—

While it was intended to be in fun, it now appears that it was more than a little on the malicious side . . . as I learned Sunday afternoon in taking the same step myself. "During this program we're doing everything we can to get drivers to watch out for you boys and girls in traffic," he said. "We're also urging your parents to teach you safe traffic practices. "But none of these efforts will keep you safe if you don't get on the ball yourselves."

"Young people must learn that automobiles move fast and that anyone who happens to get in a car's path is likely to get hurt," he said.

"Boys and girls often think that, because they can see a car coming, the driver of the car can also see them," McFadden said. "Sometimes the driver doesn't see them, or if he does, he may not be able to stop his car in time to avoid hitting them. So smart boys and girls take no chances."

"Playing in the street, running out into the street after a ball or other toy, crossing in mid-block or at intersections against the light are all things that place children in danger," he said.

He advised boys and girls to strictly observe the following rules if they want to stay safe in traffic.

1. Obey all traffic officers, school patrol leaders, and traffic signs and signals.
2. Obey the rules learned in school and at home about crossing streets and playing only in safe places.
3. If there are no sidewalks, walk on the left side of the road facing traffic. Never use roller skates, tricycles, wagons or scooters in the street or road.
4. When riding a bicycle in traffic, (a) ride with, not against, traffic, and keep to the far right; (b) do not weave or stunt; (c) do not carry passengers; (d) never

Open Hearings On Ray Bill Soon

WASHINGTON, D.C. — A public hearing on the proposed regulations to implement Public Law 519 (the Ray Bill) covering all previously uninspected vessels carrying more than six passengers for hire will be held by the full committee of the Merchant Marine council of the U. S. Coast Guard here next month.

Scheduled for 9:30 a.m. Oct. 16 in the department of commerce auditorium, the hearing is open to anyone interested in the new regulations which the Coast Guard claims will affect more than 8000 party fishing motor boats, excursion sailboats and ferry barges. Copies of the proposed regulations, as prepared by the Coast Guard with the assistance of its civilian Motor Boat and Yacht Advisory panel, are available by writing: Commandant, U. S. Coast Guard headquarters, Washington 25, D. C.

Preparation Week Is Underway at First Baptist

Sunday school "Preparation Week" is well under way at the First Baptist church. The study course, "The Pull of the People" is being taught Tuesday and Wednesday evenings at 7:15 p.m. adjournment at 8:45.

The elementary training union department, under the direction of Mrs. Tommie Huling is providing for the children in this age group. Wednesday evening will be observed with choir rehearsal at 6:30 and the "study course" at 7:15. The pastor will teach the closing chapters and the hour of prayer and inspiration will be observed at 8 p.m. in the main auditorium.

The nursery is open for the bed babies. This week of study and preparation is of extreme importance to the officers, teachers and class members.

There are four laws used by Southern Baptist Sunday schools that have produced the greatest Sunday school system in the land, they are: First, the law of ratio, one worker to 10 members. It just figures that ratio in the 33,000 plus churches in the S.B.C.

Second, new units, new classes and departments sufficient for growth. It has been found that a class will be at 88 saturation point in a few weeks. Third, the size of the class, small numbers from five in the beginner to an average of 25 in the adult departments.

Fourth, that of grading, proper age groups in each class and a wider span for departments in smaller cities and villages. A place for everyone in Sunday school has been a slogan for over 50 years.
