When you give your heart to a boy -

You're in for some trouble - when your heart belongs to a boy. Boys don't like soap. Boys scuff up their shoes. Boys make too much noise when they're home - and when they go off to school, leave a house that is far too still.

You're in for a world of happiness, too when your heart belongs to a boy. The kind of happiness that erases tears, shuts out loneliness, rubs away all kinds of achee and pains.

Small wonder mothers love their little boys o very, very much.

One of these days your boy will be starting off to school in his shiny new shoes and fresh clean shirt. And he'll start learning all the things he needs to know to make him the kind of man you want him to grow up to be.

One of the most important lessons for your son to learn is the meaning of thrift and the value of a regular savings program. And that's what the U. S. Treasury's School Savings Program will teach him.

By the purchase of 10¢ and 25¢ Savings

Stamps in their schools, children are investing in U. S. Savings Bonds on the installment plan. And, as you know, Savings Bonds are one of the best investments that any of us can make.

Is your child's school participating in this important program? Why not speak to your principal, school superintendent or P.T.A. group about it?

BEFORE AND AFTER -

From Floor Gazing to Star Gazing

No housewife ever has to be told how important a good kitchen floor covering is. Many a housewife has begged - literally on bended kneeded to be a new floor as she scrubbed the dingy, outmoded old floor.

But maybe you didn't realize what damage an outdated floor covering can do to your kitchen's decorative scheme. The small photo shows how old fashioned floor covering can spoil the effect of an

to shows how old fashioned floor covering can spoil the effect of an otherwise modern decor. The sink, the cabinets, the stove - all of the equipment - is soundly up-to-date. The equipment is well set off by tasteful wallpaper. But the whole effect is spoiled by the clutter underfoot which makes the kitchen look its size and distracts the eye from the modern equipment.

Below, you see what a modern floor covering can do all by itself.

floor covering can do all by itself.

The only substantial change from
the eld kitchen is a new floor covering - inlaid line

Gold Seal "Starway" pattern by Congoleum Nairn Inc. But what a difference! The little kitchen now looks serene and spacious. The light floor looks larger and cleaner, fitting the fine modern equipment. The smart wallpaper shows to full effect, relieved of the competition of a busy floor covering. Once again, a change of floor covering has shown the decorative importance of what's underfoot.

Gold Seal "Starway" linoleum is available in various combinations t almost any color scheme. In this case, the neutral gray background of the linoleum goes well with the pale gray cabinets, and the yellow, charcoal and red of the star pattern harmonize with the yellow counter, top and red accents of the wallpaper.
