

SEE WHAT I MEAN?

By RAY SWINDELL
Times Editor

It's a changing world. Today the youngsters think of satellites and isomeric elements and making Buck Rogers a reality instead of a dream, as was the case when we were in knickerbockers. Today there is television and the scores of other things that are preceded by the word "tele".

What this country needs to do is go back to the days of crayfish fishing, the simplified game of postoffice, and tin-can shinny. By doing so, it might succeed in obtaining a little relaxation, a thing so needed.

The worries were few in the days when you would swipe a slab of bacon from the icebox, tie a string on it and drop it into a creek and catch a crayfish. We think it might be good for us to go back to those crayfish fishing days.

There was nothing like catching a dozen large crayfish, yanking their tails off and frying them, and perhaps cutting their heads open looking for pearls.

One lesson was learned during those days. Now as you are older and are conscious of the slings and arrows of outrageous fortune, you realize how the fish felt. He was merely out for food, as you are today.

And the things you have to undergo to obtain that food can sometimes get the best of you. But, in the unforgotten words of Longfellow, "Life is real! Life is earnest! And the grave is not its goal!"

As this is being written, no new coach at Ranger College has been named. There were some indications that a new one would be selected Monday afternoon. The field has been narrowed down to two men.

The board of regents had better act soon and get the man here if he is expected to field a good grid team and a good game team for next year.

We received more information today through the mails about Mrs. Jeanne Hale, the 1957 Mrs. Texas, who was born in Ranger about 1925.

This information comes from Mrs. Carl Heinlein of Hamlen, Texas. Mrs. Heinlein states in her letter that Mrs. Hale's mother was the former Edith Cornelius.

We appreciate the information that Mrs. Heinlein supplied us.

Would like to call your attention to the fact that this is public school week. You should visit the local school and see how they operate.

There seems to be a lot of talk about the issue of the world depriving man of his freedom. That may be the case on the far side of the world but when one speaks of the issue in this country, there is not much basis for it.

True, there may be a lack of freedom, but it is not from the issue. There is no freedom of press, there is no freedom of worship, there is no freedom from fear, and one could go on and on.

But this can not be blamed on an issue. It is a fault of society, of conformity, and of tradition. The masses about think like us, act like us, "be" like us or you are not a member of "us."

And if you refuse to conform, you lose your freedom. As you can see, this leads us back to the editor who wrote about the caterpillar on his desk. That boy could write.

Local Guard Unit Enters Rifle Tourney Finals

The local National Guard unit, 448th Armored Field Artillery, will compete against Company F, 112th Armored Cavalry Regiment for top honors in the National Rifle Association rifle tournament. Warrant Officer Jess Cole of the local unit said the firing would be March 16. A representative of the association will witness the firing.

The local unit defeated the 36th MP Company of San Antonio in the semi-final round. They fire 3,589 out of a possible 5,600.

Skeleton Found Near Cisco Is Unidentified

The Eastland County Sheriff's office this morning was planning a full fledged investigation of a skeleton of a man found late Monday on the I. J. Pence farm about 30 yards from a county road and hidden by weeds, while he was out in the pasture with his dog. Actually it was his dog who discovered the skeleton.

BACK FROM THE "TRIP"—Airman Donald G. Farrell, 23-year-old volunteer, smiles in the staff car which took him to the hospital at Randolph Air Force Base, Tex., for a medical checkup. Farrell of the Bronx, N.Y., spent seven days in a sealed chamber designed to be used as a space cabin on a flight to the moon. The only effects of his voyage, Farrell said, were a surprising loss of four pounds and the fact that "I'm a little tired." Cake was a welcome-back gift.

Two Point Defeat Takes Olden Out of Cage Race

A fighting Olden Hornet team saw their hopes for a regional basketball title fade with just 20 seconds left on the clock Friday afternoon as Centennial scored a 54-52 victory over the Eastland County fivepiece in the Regional 2-B cage tournament at Brownwood.

The Hornets, behind most of the game, got themselves a two point advantage with less than a minute and a half to go, but two quick field goals by Hank Hunter—the last a beautiful jump shot from the sidcourt with 30 seconds left to play—ended the bid-district champions' 1958 season.

It was close all the way with Centennial leading 22-19 at the end of the first period, 31-27 at halftime and 46-33 at the end of three quarters. Facing the deficit of 13 points going into the final

session, Coach Gene Wods charges showed them how Olden plays basketball.

Faced by Eddie Munn and Jack Hilliard, who got six and five points respectively in the period, Olden pulled the score to 46-44 as the amazed Centennial team tried to rally its defense. Then J. T. Horn stole the ball and scored on a fast break to make it 50-48 moments later. Jerry Colburn then hit a shot from the floor to give the Hornets their only lead of the game, 52-50, with less than a minute and a half to play. Hunter broke the game open then, scoring his two fast field goals.

Munn got scoring honors for

the game with 24 points. Hilliard had 16, Horn netted eight and Colburn and Gary Woods each had two.

Olden got just two free throws in the entire game while Centennial had 12. That was the difference between the two teams. The Hornets actually got three more field goals than their opponents, but didn't connect on all the great throws they got. Only three fouls were called against Centennial in the entire game. For Olden Hilliard fouled out, Munn ended the game with four fouls and Horn had three.

Centennial was to play Wall at 9:45 Saturday morning.

Program on Farm Electrification Set For Tonight

The monthly meeting of the County Ag Workers will be held at the Texas Electric Conference Room in Eastland tonight at 7:30 p.m.

The program will be on Farm Electrification. Electrical service to farms in the past, along with progress made in recent years, will be discussed.

On the modern farm, machinery and automatic equipment designed to save time and labor have taken over many of the jobs which have previously been a burden to the farmer. Electricity has played a big part in this process of farm mechanization and promises many new advances.

Everyone interested in agriculture, including farmers, poultrymen, dairymen and ranchers, are invited to attend the meeting.

Thursday Orchard Field Day Slated

Those in Eastland and adjoining counties interested in either a home or a commercial orchard are invited to attend the annual Orchard Field Day to be held at Carbon, Thursday, according to County Agent J. M. Coomer.

The morning session will begin at 10 o'clock in the high school auditorium there. After lunch in the school cafeteria the afternoon session will be at the A. P. Broiles orchard, three miles southwest of Carbon, with a pruning and orchard plowing demonstration.

Some of the outstanding horticultural men in the state will be on the program according to Coomer, who arranged the affair with the help of his horticultural committee. Included on the all day affair will be T. E. Denman and J. V. Laird of Stephenville. Denman with the agricultural experiment station there, has done research work on varieties and fertilizers for many years. Laird, horticultural instructor at Tarkenton College, has a large orchard of his own and has wide experience selling tree ripe fruit to supermarkets in Fort Worth, Abilene and elsewhere.

B. G. Hancock, horticulturist for the A & M College Extension Service, will discuss a spray program. U. A. Randolph, of the Montague Experiment Station in Montague County, has done research work in grapes for more than 20 years and is considered one of the best grape men in the state. J. W. Foster Jr., Weatherford insecticide and agricultural chemical dealer, will show and discuss new insecticides.

Service Pin Presented To Rangr Man

Thomas L. Browning, an assistant operator in the Ranger Central Fractionation Plant of Lone Star Producing Company, has been awarded a service pin for 15 years with the company, according to W. A. Robinson, District Superintendent for the company's gasoline department.

A native of Deadmans, Browning joined Lone Star on January 3, 1943. He is a member of American Legion.

He is married to the former Ruth Whitefield of Lingleville, and the couple have nine children.

Black Completes Training Course At Beaver Dam

Harvey Black of Ranger Boat Company, has been qualified as a factory trained outboard mechanic, following completion of a training course at the Beaver Dam, Wisconsin, service school of the Kiekhafer Corporation, manufacturer of Mercury outboard motors.

The course included daily instruction periods, supplemented by actual bench practice, blackboard sessions, group discussions and examinations. Subjects covered in addition to 1958 model features were recommended disassembly and re-assembly methods on the 22, 45 and 70 horsepower Mercury units which are new in the line for next year.

Special emphasis in the course is given to the latest techniques developed in servicing customer motors and to information on the revolutionary new safety and engineering features for 1958 such as the automatic transmission for outboards, single lever remote controls, hydraulic Dyna-shock absorbers, fixed jet carburetion.

Black's attendance at the service school was in anticipation of a substantial increase in purchases of outboard motors in this area during the 1958 boating season.

Visitation Of Local Schools Being Urged

Supt. of Schools G. B. Rush today issued an invitation to one and all to visit Ranger schools during Texas' annual Public Schools Week, March 3-7.

The Ranger Independent School District superintendent pointed out that as in the past local schools will run on regular schedules during the week. "Doing this," Rush said, "We feel we give local patrons a better chance to see just what we are doing than we would if we offered special programs."

Rush said citizens are welcomed in any classrooms during the school day and said they should feel welcome to inspect any part of the schools in which they might be interested.

In issuing a proclamation declaring this to be Public Schools Week Gov. Price Daniel made the following statement:

"Public Schools Week in Texas is a special time set aside each year in which to place increased emphasis on our public schools. Parent visitation is encouraged, and the citizens of our communities are urged to take an active interest in the school systems and to cooperate with the respective school boards, superintendents, principals and teachers in an effort to make Texas public schools the finest in the Nation."

"Today, more than ever before, the importance of our schools is being realized by an awakened Nation. Education, both in scientific and liberal arts fields, has taken on a new perspective. However, with all the rush to train scientists and place satellites in outer space, it is important to remember that our public schools will furnish our leaders of tomorrow with the basic human, moral and spiritual foundations necessary for more advanced training and knowledge."

Prize Money For County Livestock Show Is Listed at More Than \$1000

More than \$1,000 in cash prizes will be awarded to the owners of the winning animals at the annual Eastland County Livestock Show at the Eastland airport March 28 and 29, Bob Presley of Cluse, president of the County Livestock Raisers Association, has announced.

Only the FFA and the 4-H Club boys and girls from over the county exhibiting animals will receive cash premiums as the adults exhibit for ribbons only.

Presley expressed thanks to the business and professional people, civic groups and others from all over the county who look and to the show catalogue. He explained that this was the only source of revenue for the show. He further thanked the various committees in the various towns who solicited and collected for the show.

C. M. McCain of Eastland, general superintendent of the show, has announced that all animals not showing sufficient quality or finish to merit exhibition will be turned back and not allowed to show by the FFA or 4-H committees. This is in line with the policy established last year to free only quality and undervalued animals off of the show ground.

A showmanship award of \$100 will be awarded to the boy or girl who does the best job of showing his or her animal.

The opening of the fall auction will be held at the Eastland Auction barn the night of April 1.

RANGERS FINISH IN CELLAR

Showing its championship form in unmistakable fashion, Cameron State of Lawton, Okla., sewed up the Pioneer Conference basketball title last week with a pair of decisive victories to close a 22 game undefeated season—the first in the eight-year history of the conference.

Led by its lanky Negro center, Homer Watkins, and its superb play-making guard, Bud Sabnaunt, Cameron blasted second-place Tarleton, 84-38, at Lawton Tuesday, then added a neat 72-61 victory at San Angelo to finish with an 8-0 loop record.

The champion Aggies are in their first season as members of the Pioneer Conference. They will be in action again this weekend as hosts for the Region 11 tournament of the NJCAA, prelude to the national championship finals.

Arlington State's Rebels also finished stoutly to supplant San Angelo in third place. The Rebs paired a 93-45 win over Ranger with a closing 75-71 victory at Tarleton State for a 4-4 conference record. Tarleton's Pioneers already had clinched second place in final standings.

San Angelo held its third spot in season standings by virtue of a 92-74 victory Tuesday night over Schreiner Institute at San Angelo.

Guard Bragg Stockton of Tarleton State was held to a total of 18 points in two games for the week, but easily won individual scoring honors for the season with a 20.1 point average for 21 games.

Runner-up was Watkins of champion Cameron State, while Danny McCormack of Arlington State moved to third spot by way of two 21-point spurges during the week.

Congress Spotlights Peanuts at Luncheon

Peanuts were spotlighted in Congress today in a unique manner. Instead of debating peanut legislation, Southern Senators and Congressmen gathered in the Speaker's Dining Room for a peanut buffet luncheon.

There was peanut soup, peanut butter and crackers, peanut-folium with hot biscuits, peanut-rolled sweet potatoes, peanut cake and coffee; plus plenty of salted peanuts, roasted peanuts and peanut candy.

Sponsors were three peanut area Congressmen: Watkins Abbitt (D., Va.), E. L. Forrester (D., Ga.) and W. R. Poage (D., Tex.).

Guests were Senators and Congressmen from the peanut producing States of Virginia, North Carolina, Georgia, Florida, Alabama, Texas and Oklahoma.

More than 200,000 Southern farmers grow peanuts. The value of the crop averages close to \$200,000,000. With more than 100 peanut shelling mills in the producing areas, peanuts account for a lot of employment and are a vital economic factor to growers, shellers, banks and other business interests in the South.

While it was said that the event had nothing to do with politics, it could have been intended as subtle defiance to Republican charges that the Truman administration spent more on the peanut price support program than it did on the development of missiles. That charge was launched by Presidential Assistant Sherman Adams in Minneapolis on January 20 and has been repeated many times by other Republican leaders.

Freshly-washed clothes dry clean in an **ELECTRIC** Clothes Dryer

Why wash dirt out of clothes only to have dirt blown back into them while they're drying on the line? With an Electric Dryer, your freshly-washed clothes stay clean, protected from airborne dirt and other clothesline hazards, such as romping pets and children at play. Your clothes are safe, too, from sun-fading and wind-whipping when dried in clean, gentle electric heat. And you're spared all the back-breaking work of lifting, stooping and stretching to hang up heavy wet clothes.

See your favorite appliance dealer soon for a time-saving, work-saving Electric Dryer. Live Better . . . Electrically!

Dallas Building To Have Chapel On Top Floor

A sanctuary high above the city for individual prayer and meditation will be included in the public service facilities of the new Southland Center main tower, now under construction in Dallas.

This place of worship is the highest located within a building in America," said Ben H. Carpenter, executive vice president of Southland Life Insurance Company. The company owns Southland Center which also includes the new 28-story Sheraton - Dallas luxury hotel.

Dan C. Williams, Southland Life's president and well known Southwestern religious leader, conceived the idea for a place of prayer in the building plans.

"The Chapel will, of course, be entirely non-denominational and will be available for anyone seeking a moment of peace in a busy day," said Mr. Williams. The Chapel, complete with altar, will have stained leaded glass windows, a vaulted, timbered ceiling, and will be large enough to accommodate 25 persons.

It can be reached either by express elevator from the ground floor level or by escalator from the 41st floor which is the public observation area. Southland Center will begin operations in early 1959.

If Wannie Kanady of Nimrod lives to be 10 he will likely always' member the calf scramble at the matinee Houston Rodeo Feb. 23rd. Thousands of people cheered his efforts to catch a calf. Unfortunately he dropped his halter at

ter he caught the calf. The calf finally got away. However, "for his efforts a Houston business man will see that Wannie gets a beef calf.

Jimmy Johnson, husky 180-pound Scranton 4-H boy was in the Houston calf scramble also. He was the first one to catch, hold, butter and lead his calf across the finish line. There were 20 boys and 10 calves in the scramble.

Both boys will get a certificate for \$125 toward the purchase of a beef calf. Both boys now plan to get a registered Hereford heifer calf as a start of a beef herd for later years. The rules call for 12-14 to show their animals at the

1959 show. This fulfills their obligation. They must make monthly reports after getting their calf.

The boys picked up sea shells along the waterfront at Galveston early Monday morning. They saw the terrific traffic along the Gulf Freeway from Houston to Galveston and were impressed with the number of cars backed up behind a wreck. They were much interested in seeing both a highway and a railroad drawbridge in operation to let a tugboat and some barges through on the Galveston Causeway. A casual look was given to the tall San Jacinto monument to commemorate the "licking" Gen. Sam Houston and his group gave the Mexican General Santa Anna 122 years ago to set Texas up for

independence. The boys, however, were disappointed not being able to go onto the old Battleship Texas anchored nearby. No one is admitted on Monday. The old ship was being freshly painted.

A Brown County boy from Zenon rode with the group into Houston. He was Joseph Wade who was also entered in the calf scramble. Joseph also caught his calf.

A lamb blocking demonstration was held recently in rear of the Tin Top feed store in Ranger with Keith McDonald, feed store owner and former agricultural teacher, in charge. He blocked one lamb that belonged to Johnny Bob King of that city. King, Gary Hames, Pat Jameson, Alex Brasher,

Charles Best and Leo Hale blocked the other one.

College Teachers Attend Meeting In San Antonio

Four instructors of Ranger College attended the convention of the Texas Junior College Teachers' Association in San Antonio February 28, and March 1.

They were Miss Vivian Simmons of the business department, Mrs. R. L. Hamrick of the English and foreign language departments, Mr. H. A. Lotzpeich of the music department, and Mr. George Alford of the speech department.

The convention theme was "Raising the Prestige of Junior College Teachers." Dr. S. V. Martorana, chief, state and regional organization, U. S. Office of Education, gave the keynote address at the first general session Friday afternoon.

On Friday morning there was an open house and morning coffee at San Antonio Junior College. Sectional meetings were held Friday afternoon and Saturday morning.

Mrs. R. L. Hamrick was elected program chairman of the English division for the 1959 convention, and George Alford was elected chairman of the speech division.

Also making the trip to San Antonio were Mrs. George Alford and Mr. and Mrs. J. J. Evans, parents of Mrs. Lotzpeich, visiting here from Windsor, Colorado.

Airman Injured Seriously In County Crash

Airman Thomas McClain, 20, of Carswell Air Force Base, has been transferred to the Dyess Air Force Base hospital following an accident last Friday four miles southwest of Cisco on Farm-Market Road 569.

McClain's condition was listed as serious. He was a passenger in a 1951 Chevrolet driven by Delbert Lee Gardner, 21, of Route 4, Cisco. The Gardner car failed to make a right hand curve and overturned. Gardner was not injured.

Donald Jack Lowrance, 19, of Route 2 Eastland, who was injured in another county accident Friday morning, was released from Eastland Memorial Hospital Saturday.

Highway Patrolmen stationed in Eastland investigated both accidents.

Independents Down Santo

The Ranger independent care team bombarded Santo here 66-39 to gain the number one slot in the independent league.

James Tull led the local crew in the scoring department with 26 points. Ronnie Devoever came in second for the victors with 20 points. Sid Williams topped Santo with 22 marks.

This week the Ranger five will meet Gordon.

"Ain't it Wonderful!"

Once upon a time there was a farmer named Brown who raised corn. He had a neighbor named Smith who raised chickens, but no corn.

Now, Brown needed help on his farm, so he employed Smith one day each week, paying him \$5 a day in cash. Smith then bought five bushels of corn at \$1 a bushel from Brown for his egg-laying hens.

One day chicken-raiser Smith told corn-farmer Brown that the cost of everything was going up, so he'd have to get \$6 a day for his work. Replied Brown: "Everything I use is costing more, so I'll have to get \$6 for five bushels of corn."

After a while chicken-raiser Smith told farmer Brown that, with everything still going up, he'd have to get \$7.50 for a day's work. Whereupon corn-raiser Brown allowed as how everything he used was costing more, so he'd just have to get \$7.50 for five bushels of corn.

Both Brown and Smith were so pleased over the idea of \$7.50 for a day's work and \$7.50 for five bushels of corn that they both exclaimed: "Happy days are here again."

By and by, chicken-raiser Smith told corn-raiser Brown that everything had gone up still more, so he just couldn't hire out for less than \$10 a day. Brown said that seemed fair to him, but since everything he used was going up too, he'd have to get \$10 for five bushels of corn, which was agreeable with Smith.

Smith told his wife: "Ain't it wonderful... \$10 for a day's work?"

Brown told his wife: "Ain't it wonderful... \$10 for five bushels of corn."

That's the way inflation works. It gives us the pleasant but dangerous feeling that everything's wonderful, while it eats away at our pocketbook and savings, our insurance and pensions... and everything else of value.

The critical world situation may make it necessary for our government to increase annual defense spending by several billion dollars, which would add to the inflationary spiral.

But we can help check this inflation if, individually and collectively, we cease demanding federal aid, assistance and benefits for OUR special projects and programs. We can urge our government to economize, not to spend and spend and spend.

You and I should write our Senators, Congressmen and the President of the United States and say:

"Appropriate and spend whatever's necessary for the defense of our country, but let's cut out non-essential appropriations and expenditures... including the special aids, benefits and services for MY group and MY community."

If each of us did that, we could in truth and in fact then say:

"Ain't It Wonderful."

President
