Attractive Foyer Makes Pleasant Introduction

BY EDNA MILES

THE foyer offers guests the first impression of a home. It can be bright and attractive or a sort of catch-all for umbrellas, wraps, toys and the clutter of family mail.

Since it does offer that important first impression, it's up to the homemaker to turn the foyer into a small but special room.

An ideal floor is one that's tough, colorful and easy to keep clean. Here, you can combine two or more colors and even use brass inserts for true elegance.

A swish of the mop with special cleaning product, designed especially for such flooring, just once over the surface will make the floor come clean without rinsing.

Lavish use of green plants not only looks pretty, it creates an outdoor air that helps to make the foyer look larger. This theme can be carried out in wallpaper and in light and airy furniture groups.

Green plants, airy furniture and a sturdy tile floor combine to make a foyer attractive and easy to clean.

Check your coverage.

Many people carry "just a little" insurance just to ease their minds.

But insurance should really INSURE. In case of disaster, you want more than, say, a fifth enough or half enough to rebuild your house or pay off a damage suit or meet some other loss.

Many people forget that it would cost much more to replace their home and furnishings if they had a fire. Many people forget they may be sued for perhaps tens of thousands of dollars if they kill or injure someone with their car. Many people carry too little liability insurance.

Don't be half safe. Be completely safe with the right America Fore policies.

New Air Conditioner Is Small, Easy to Install

BY EDNA MILES

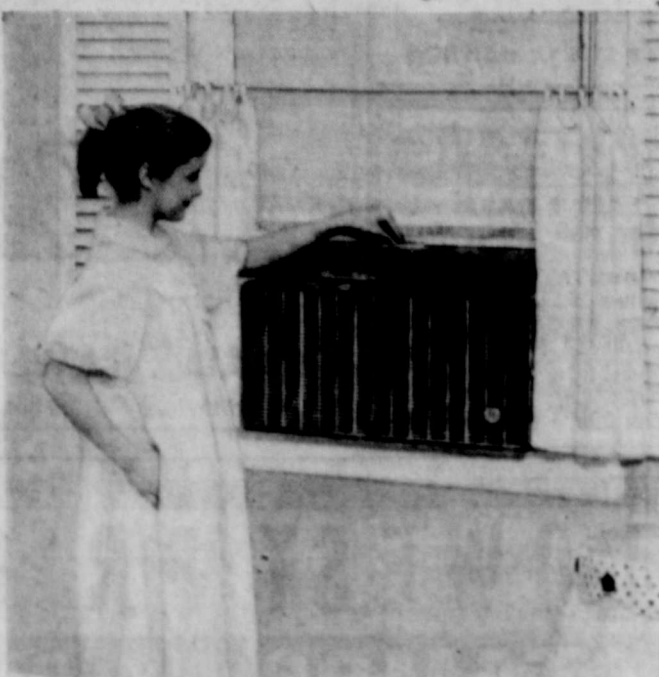

THIS is the time of year when the homemaker begins to think about buying an air conditioner. That is, she thinks about it if she's foresighted.

For the truth is, summer has a way of sneaking up on us. There's a stretch in which there seems no need to worry about hot weather wardrobes or air conditioning. And suddenly, the first hot day is with us and finds us unprepared.

One of the newest of the 1958 room air conditioners is only 13 inches high and deep. It's about half the size of previous one-horsepower models.

It comes with all of the required installation accessories and the only tools of his own that the man of the house need supply are screwdriver and saw. Anyone who can handle these can install the air conditioner in a lower sash in a half-hour, according to the manufacturer.

The nutria cabinet has been given modern straight-line styling to harmonize with furnishings in any room. Its shallow depth permits even hang of drapes.

New air conditioner, only 13 inches high and deep, permits drapes to hang freely. It's easy to install, too.

Miss Dolores Warden Will Become Bride of Don Vann of Fort Worth

The approaching marriage of Miss Dolores Warden to J. Don Vann of Fort Worth was announced Saturday afternoon when her aunts, Mrs. T. E. Warden and Mrs. T. J. Wharton entertained with a tea at the Woman's Club in Eastland.

Miss Warden is the daughter of Bill Warden of Fort Worth and Mr. Vann is the son of Mr. and Mrs. J. R. Vann of Fort Worth.

Mrs. E. R. Townsend greeted the guests at the door, where they were received by the hostesses and presented to the honoree, Mrs. Vann and Mrs. Frank Hardesty of Decatur, mother and sister of the groom-to-be.

Mrs. Jerry A. Myrick of Fort Worth, cousin of the honoree, presided at the register table and registered more than 100 guests. The table, laid with a white cloth, contained a miniature tree bearing pink bags and the white bride's book. Light was furnished by a single taper in a silver holder.

Mrs. Jim T. Warden, cousin of the honoree, and Mrs. Robert C. Vann, sister-in-law of the groom-to-be, served at the refreshment table. Miss Warden's chosen colors of pink and silver were carried out in all appointments.

The table was covered with a pale pink net cloth over taffeta and wedding bells were applied on the cloth with white and pink seed pearls. Pale pink tapers in silver candelabra burned on each side of the centerpiece of pink mixed flowers in a crystal and silver epergne. A gilt butterfly and love bird bore pink streamers revealing the wedding date, June 12, and the couple's names. Pale pink tea napkins also bore the inscription "Dolores and Don, June 12th". Nuts, pink mints, pale pink cake squares decorated with pink rose buds, and tea were served from silver appointments.

Miss Jana Weaver of Houston furnished appropriate music during the tea period. An arrangement of long stemmed pink roses decorated the piano.

The honoree wore an original sheath dress of pale pink silk faille with satin trim and Chantilly lace bodice. Her shoes were of matching pink satin and she wore an orchid corsage.

Other members of the house party were Misses James Ward of Monahan, Joel Fowler of Denton, Donald Kinnaird Jr., of Texas, Allen D. Dabney of Eastland and Miss Bernice Kay Allen of Denton.

Pride, A Virtue Priceless Yet Free

By Lucretia Fairbatter

A priceless thing is pride, so essential to the attainment of worthy attitudes and to the achievement of worthwhile objectives. Driving from Gorman to Ranger Monday morning for the fourth time, I had a yen to straighten out Highway 571, the farm to market road. But lest, I, as other fools, should find the hardtop non-flexible, I have decided to let the commissioner take the curves out. After all he put them in.

The roadside has grown more lovely each morning. Plum thickets in the fence rows bursting in flower. Redbuds waving clusters of pink, rose and burgundy. Bar ditches and shoulders are not too badly littered. This could indicate who has or who hasn't been traveling through. The twenty-mile ride does call to mind that the highways are ours to keep good and beautiful.

"Good and beautiful" H'm. Sounds like a slogan. Keep good and beautiful physically, spiritually and even (or also) politically. Cultivation of pride in things that are ours, not just mine, could restore for us a lost treasure. The adventurer, the dreamer and the go-getter have thrilled to the term, lost treasure, since the days of the Spanish galleon.

But no skin-diving would be necessary to find the lost treasure, patriotism. A pride inspired by love of country, whether it be the highways, the wide open spaces, the highest peaks of the great divide or the City on the Potomac, the country is ours.

Pride has a double meaning, but the kind that will send only the highest and best to the halls of Congress, or the seats in the legislature, or places on local boards is according to both Webster and Winston "the highest and best." Pride. Priceless, yet free.

Take time out to read Burlington's April 10th "As It Looks From Here." Congress and the administration are doing some thinking. Our representatives in helping to charter the course of foreign policy are having a most difficult time. To explode or not to explode? Meaning bombs. How great is their responsibility? They must consider the "eyes of the world" and the "eyes of their constituents," and most of all they must determine what is best, what is right.

Could right and best be one and the same thing? Constructive criticism is needed.

DEATH COMES SUDDENLY TO MRS. GOFORTH

Mrs. Marion C. Goforth, 71, passed away Sunday morning at 7 o'clock. Her death was sudden. When she was stricken she was carried to Ranger General Hospital, where the attending physician pronounced her dead upon arrival. Born in 1887 at Cameron, Texas, Mrs. Goforth had been a resident of Ranger for about 15 years.

Survivors include her husband, one son, Hershel L. Barnes; three daughters, Mrs. John Brashier of Weatherford, Mrs. Ray Blackstock of Weatherford and Mrs. G. C. May of Kenai, Alaska. Also three brothers, Ellwood Williams of Ivan, Texas, J. W. Williams of Dallas, Carol Williams of Dallas, and two sisters, Nannie Gandy of Lubbock and Mrs. J. L. Glenn of Breckenridge.

There are 7 grandchildren and 4 great grandchildren. The deceased was a member of the Second Baptist Church. Funeral services will be held at the Second Baptist Church Friday, April 11th at 2 p.m. Interment will follow at the Caddo Cemetery. Killingsworth Funeral Home is in charge of arrangements.

Ranger Firm Marks 37th Anniversary

The Ranger Furniture Exchange is marking its 37th year of continuous business at the same location. The observance is a week long sale April 4 through April 12th.

Discounts from 10 to 40 percent are being made on nationally advertised furniture and furnishings, which represent some fifty-old major manufacturers.

Ranger Furniture Exchange bears the original name, given to the business by the late Colonel Brashier when he founded it in 1921, some 13 years after he and his wife, the late Chaney Brashier, with their son Felton, arrived in Ranger from Waldren, Arkansas. Floor space has been quintupled and the store has become one of the finest in the area west of the Dallas - Fort Worth metropolitan center.

The business has continued to be a family affair, but it is not solely a heritage. Felton Brashier Sr. purchased half of the store in 1925. Felton Brashier Jr., bought in as a full partner in 1948. There are many attractively arranged, eye-catching centers in the several departments. Brashier has arranged a display of carpeting where one can readily select choice of color and nap. He gives 24-hour delivery with installation service. A number of the nice homes in surrounding towns have used his sample selection service.

Some shoppers will no doubt find that she or he cannot leave without a lamp to match a new suite of furniture. And that lamp will be the 38-inch high beauty with the shimmering blue sapphire base.

Policies which might be termed good selling cards are no carrying charge, service of all items sold, and exchange of old for new.

Through the years both father and son have continued active in civic affairs. Wives of the two accept the privilege of alternating as organists at the First Baptist Church.

Mothers Club Push Plans For Downbeat Apr. 26

The Mothers Club of Teen Town under leadership of Mrs. David Pickrell is pushing forward with their plans for Teen Town Town Invitation Downbeat, scheduled to be held at the National Guard Armory April 26.

THE TEDDY BEARS—Left to Right, Ricky Johnson, Mike Sanders, Tommy Joyner, Teddie Neeley, Terry Townzen, Joe Barker and Billy Patton.

Teddy Bears Octet Set To Make Records

The "Teddy Bears," increasingly popular performers, are vocalizing nightly getting set to make a record. They anticipate recording "Did You Cry?", "Believe What You Say" and an original composition, "I'm Lonely."

Several novel variety features are in the making, some of which will be included in their future bookings. Teddie Neeley is on the springboard as leader, but he insists "some one has to lead and it just happened to be me." All the boys are on their toes, ready for the spring. That's why we are all in on the first note.

Sometimes the harmony boys are a quintet with Mike, Tom, Teddie, Terry and Joe. At other times David Webb, not shown in the above picture, comes in to make a sextet. Ricky keeps the singers on the beat with the snare. Billy, without premeditation or any kind of meditation, can steal the show. He knows his guitar. Maxine Vandegriff has appeared with the boys on occasion as guest pianist.

Conservation Practices In Full Swing In County

By E. E. McAlister
Soil Conservation Service
Tillers of the soil enjoy working crumbly friable soil in good tilth. It is disheartening to have to work soil that is cloddy and run together. Good tilth is of major importance to the back yard gardener as well as the large scale farmer.

Maintaining good soil tilth is one of our most serious soil management problems in this area. Soil management at this season is of utmost importance in building good tilth. The chief causes of the accelerated breakdown of the structure of our soils are plowing when the soil is either too wet or too dry, compaction by grazing when the land is wet, and cropping systems which return too little plant residue to the land.

The plastic soils found in the North Central Prairie Land Resource Area have an inherent nature causing them to "puddle" especially if they are worked when wet. More over they are prone to become hard and cloddy when dry, due to the cohesive tendencies found in these soils. Plowing these soils when they are wet breaks down their natural aggregation, and plowing when too dry turns up great clods which are difficult to break down for a seed bed. Plowing dry also causes the finer particles in the soil to sift to the bottom of the furrow which is a partial cause of slow tilth. Proper timing of all tillage operations is of utmost importance to encourage natural granulation in the soil. Grazing cropland fields while the land is wet is a major cause

of much soil puddling in this vicinity. Compaction by livestock hoofs on wet soil has about the same effect as plowing too wet. Many soils even on native grasslands of this area show "hoof pans" resulting from wet grazing. A good litter of grass residue on a grassland will do much to cushion livestock trampling. The stability of soil structure can only be built up and maintained with cropping systems which return large amounts of plant residue to the land. Best results are obtained from plant residue if legumes are used in the rotation or nitrogen fertilizer is used for the specific purpose of decomposing starchy plant residue. The maximum potential plant

CRUMBLY OR CLODDY—Crumbly soil is in good tilth and a pleasure to work. Cloddy soil is hard to work and restricts plant growth. Good management makes soil crumbly easy to work and allows maximum plant growth.

Fish Taking Hook In Clear Water at Leon

Fishermen and fisherwomen had a bit of luck Sunday following Saturday's wind beating at Lake Leon. Information has reached the Times by relay through the Chamber of Commerce from Ed Richardson to the effect that fish took the bait near the banks of the lake where the water has at last begun to clear.

Boone Yarbrough and Jack Halls caught 8 bass weighing from 2 to 4 pounds. They were using spinning equipment. C. C. and Coater Nelson and John Forbes of Smyer hauled in 3 yellow cat weighing 8-lbs, 12-lbs, and 15-lbs. They also caught

channel cat weighing 3-4-lb. to 4 1/2-lbs. The Nelson and Forbes party were using minnow bait on bank hooks and throw-lines. Mr. and Mrs. A. C. Hoover of Cisco got a string of 15 crappie tipping the scales from 1/2 to 2 1/2 pounds. Richardson explained that the Lake waters have not cleared, only the water off the bank. The Game and Fish Commission of Texas states that crappie fishing is picking up in major impoundments.

White bass runs continue on all major streams. A heavy black bass spawn can be expected when the waters reach a temperature of 59 degrees if there are no stable drawdowns on the lakes. There are many large bass in all Texas lakes, most of which are now ripe. The waters at the present time carry considerable food for baby fish. This has been washed in by recent rains. Minnows are getting fairly plentiful.

Owen-Allsup Win Downbeat Sputnik Dance

Butch Owen and Sandra Allsup are the winners of the Ranger Teen Town Sputnik Dance in which they participated Friday at the WBAP-TV Downbeat. Names were announced on the Monday Downbeat hour. Both Sandra and Butch are winners of the new Speedel Photo-ident bracelets.

This couple will be judged along with winners of other groups for the top performers. A set of records most popular with teenagers will be presented to the winning couple. Butch is the son of Mr. and Mrs. Maurice Owen and Sandra is the daughter of Mr. and Mrs. David Allsup.

These with the other dancers deserve a hand and Mr. and Mrs. Homer Perry merit an extra "Thank you" for their overtime added to regular hours, in readying the group for Downbeat. Editor's Note: The Times regrets that Butch Owen's name was not listed with other dancers in a recent issue of the paper. Somehow, somewhere, we dropped that important line.

Attractive Foyer Makes Pleasant Introduction

BY EDNA MILES

THE foyer offers guests the first impression of a home. It can be bright and attractive or a sort of catch-all for umbrellas, wraps, toys and the clutter of family mail.

Since it does offer that important first impression, it's up to the homemaker to turn the foyer into a small but special room. An ideal floor is one that's tough, colorful and easy to keep clean. Here, you can combine two or more colors and even use brass inserts for true elegance.

A swish of the mop with special cleaning product, designed especially for such flooring, just once over the surface will make the floor come clean without rinsing.

Lavish use of green plants not only looks pretty, it creates an outdoor air that helps to make the foyer look larger. This theme can be carried out in wallpaper and in light and airy furniture groups.

Green plants, airy furniture and a sturdy tile floor combine to make a foyer attractive and easy to clean.

Check your coverage.

Many people carry "just a little" insurance just to ease their minds.

But insurance should really INSURE. In case of disaster, you want more than, say, a fifth enough or half enough to rebuild your house or pay off a damage suit or meet some other loss.

Many people forget that it would cost much more to replace their home and furnishings if they had a fire. Many people forget they may be sued for perhaps tens of thousands of dollars if they kill or injure someone with their car. Many people carry too little liability insurance.

Don't be half safe. Be completely safe with the right America Fore policies.

New Air Conditioner Is Small, Easy to Install

BY EDNA MILES

THIS is the time of year when the homemaker begins to think about buying an air conditioner. That is, she thinks about it if she's foresighted.

For the truth is, summer has a way of sneaking up on us. There's a stretch in which there seems no need to worry about hot weather wardrobes or air conditioning. And suddenly, the first hot day is with us and finds us unprepared.

One of the newest of the 1958 room air conditioners is only 13 inches high and deep. It's about half the size of previous one-horsepower models.

It comes with all of the required installation accessories and the only tools of his own that the man of the house need supply are screwdriver and saw. Anyone who can handle these can install the air conditioner in a lower sash in a half-hour, according to the manufacturer.

The nutria cabinet has been given modern straight-line styling to harmonize with furnishings in any room. Its shallow depth permits even hang of draperies.

New air conditioner, only 13 inches high and deep, permits drapes to hang freely. It's easy to install, too.
