## THE ROAD TOLL OR THE TOLL ROAD

By Lucretia Fairbetter

Tomorrow, April 23rd, the Texas Traffic Safety Council under chairmanship of Governor Price Daniel and with the aid of all Mayors, Chiefs of Police, Sheriffs and Prosecuting Attorneys, will launch a statewide traffic safety campaign.

To make this first in the history of Texas campaign, all Texans should pledge themselves to make history by observing road and street safety laws and courtesy regulations.

The Road Toll will cost a million times over what the Toll Road costs. Life cannot be measured in dollars and cents.

Toll Roads and Controlled Access Highways are being greatly increased in mileage to speed up travel and transportation to decrease traffic hazards and to facilitate safety for the driver and pedestrian.

Such adages as the following, although familiar to most, continue to be wise counsel: "Keep your humanity when you get behind the wheel. Be a person not a pig."

"Be bright. Dim your lights."

"If you drink, don't drive."

"If you drive, don't drink."

The highest toll by far is paid by the passenger car. In 1957 there were 150,000 more non-fatal vehicle accidents than in 1956.

However, because of the efforts of some there were 1500 less vehicles featuring fatal accidents. In personal injury accidents, 80 percent of the automobiles involved were passenger cars.

Governor Daniel is determined to cut the traffic death rate in Texas by at least 10 percent for 1958. His minimum goal will be the saving of 254 lives.

Governor will be on a statewide broadcast tomorrow at 9:30 a.m., outlining the safety program.

Seventy-five hundred pedestrians walked right into death in 1957. They were saving time, following the fellow in front, crossing without looking, standing or playing in a danger zone, or doing one of many other careless things.

The Toll Road can only slightly lessen the Road Toll. The driver and the pedestrian must be of themselves, safety conscious.

When the "Pooh, Pooh!" flashes through one's mind, it is time to remember the warnings are not merely to save the life, you are sure of, your own, but to save the lives you may take. The lives you may take because you "take time."

Parents, who do not see to it that their children know traffic safety and that the children have learned to abide by the laws, are of themselves potential killers.

Any child who can learn to drive, can learn that the car is not a toy.

Any parent who refuses to observe warnings, laws and regulations, risks the peril of facing a (Continued on Page Four)

## Hi! Golfers Come In Third

High School Golfers came in third at Brownwood last Saturday. Players with their scores are Lee King with 164, Wayne Jowers with 195, Gary Bradshaw with 161 and Tommy Warford with 157.

Boone Yarbrough said the boys were a bit off their game. Just one of those days and the rain had fallen through part of the round, but he is proud of their showing. Bradshaw has played golf about five months only. Warford tied for medalist honors but was defeated on second hole of play-off.

## Plans For Mystery Farm Contest Told

Readers of the Times will have the chance to prove their knowledge of farms in this area with the publication of a new "Mystery Farm" feature starting next Tuesday.

Aerial photos were taken of 52 farms in the area served by this newspaper and one picture will be published each week, along with an invitation to readers to "guess whose farm." The pictures were

taken by the Zekan-Robbins Company of Harlan, Iowa, specialists in this kind of low-altitude farm photography, and this newspaper arranged to have the photos snapped in different parts of the area so that every farmer in Eastland County has an equal chance of having his farm picture published.

Nobody knows whose farms were photographed, not even the photographers. The editor is relying up-

on the readers for identification, and those recognizing the "mystery farm of the week" should notify this newspaper immediately.

In order to make the contest more fun, the names of those guessing the farm correctly, and the person who first correctly identifies the farm will receive two passes to the Majestic Theatre in Eastland.

The operator of the mystery farm will receive a beautiful mounted enlargement of the original photo, if he will call at the newspaper office. This photo is free with the compliments of this newspaper, sponsors of the contest. Farm operators who recognize their farms in the newspaper series should come to the office at the first opportunity so that they can make positive identification and get their free picture.

Recognizing aerial photos is tricky business and the photographers further complicated it by taking the shots at random, and a few from the back side of the farms so that the contest will be more interesting and require more skill. The pilot flew about 300 miles back and forth across the trade area while taking the photos with professional aerial photo equipment.

In publishing the series of farm photos, this newspaper is recognizing (Continued On Page Four)

## Church Collapses In Tornadic Winds

Tiffin Road Church of God of Prophecy received damage amounting to major loss in high winds of early Sunday morning. One wall collapsed in the high velocity caused by the low pressure that brought tornadic winds to many areas of the State.

Uprooted trees have been seen on several lawns and streets and some TV aerials in this vicinity are damaged.

### Diet! But Eat A Good Breakfast

One of the most serious danger spots in our American health picture is the neglected breakfast, according to Elmo Roper, who made a nation-wide study of eating habits. Skipping breakfast seems to be associated with a fear of being overweight. In one survey 55% of the women who were concerned about their weight did not eat a good breakfast. Skipping breakfast is not a good way to diet. It has been demonstrated by research at a Midwestern medical school that breakfast-skippers on a weight reducing program were less efficient in the late morning hours and experienced disagreeable hunger pangs. Breakfast is an important part of an effective weight reduction plan. An adequate breakfast should provide one-fourth of the daily caloric requirements and protein allowance. Here is a 400-calorie breakfast that provides approximately one-fourth of the commonly prescribed reducing diet of 1500 calories and helps maintain efficiency in the late morning hours.

**400-Calorie Breakfast**  
 Orange juice (1/2 cup) Sugar (1 teaspoon)  
 Corn Flakes (1 ounce) Bread, enriched, toasted (2 slices)  
 Milk, skim (1 cup) Butter (1 teaspoon)

Obesity is a medical problem. Weight reduction should always be under a doctor's supervision.

Check your coverage.

Many people carry "just a little" insurance just to ease their minds.

But insurance should really INSURE. In case of disaster, you want more than, say, a fifth enough or half enough to rebuild your house or pay off a damage suit or meet some other loss.

Many people forget that it would cost much more to replace their home and furnishings if they had a fire. Many people forget they may be sued for perhaps tens of thousands of dollars if they kill or injure someone with their car. Many people carry too little liability insurance.

Don't be half safe. Be completely safe with the right America Fore policies.

## Letters To Editor

Editor of The Ranger Times  
Dear Sir:  
I see by the papers that since the unemployment situation is becoming more grave and concerning as the days roll by, that "like" the way to curb the threatened recession is for the people to spend more money. He suggests they should buy the things they really need, but not to spend things they think they need. Statistics show that most people have been doing just that very thing for the last 15 years. Fact is most people have just about bought about everything they can buy with the money and credit they possess. In order to carry out Mr. E. H. Kallemeine's advice, the thought comes up, "buy more with what?"

For the last 15 years, the spenders have been steadily doing just what Mr. E. H. Kallemeine suggests. Therein lies the reason for the general condition of the country today. This "keeping up with the Joneses" is alright for a spell, but, even the "saving up for a rainy day" might not be as impressive at the moment, it offers much more security in the end.

Each individual is responsible for his own prosperity, and in order to prosper you just have to take in more than you put out. It's as simple as that. Our "Giverment" might profit a bit from this thought about prosperity by cutting out a lot of the surplus foreign aid, pork barrel water aids and other wasteful spending under the guise of helping unemployment. After all, following the splendid advice of Ben Franklin about Economy offers the best social security for all concerned in good times or bad. As 'ole Ben sagely said, "Best save up for a rainy day."

Respectfully yours,  
P. B. Abworth

## The Road Toll—

(Continued from Page One)  
scene that cannot be blotted out of his memory.

The old cry, "They're too young to drive." And youth comes back with, "Just look at that, he ought not to be allowed on the road. I bet he's eighty-five."

The truth for me is my children drive better than I do. They were schooled by their father with, "Drive right or not at all." And he meant what he said.

There are so many do's and don'ts. But everyone should see that the car he drives is properly serviced and checked for safety at intervals.

High School safety driving courses, that give a knowledge of how to take care of the car and how to drive with courtesy, should greatly help to reduce traffic accident loss in life and material damage.

Begin today and join the campaign tomorrow for Statewide Traffic Safety. Drive on the Toll Road but Don't wind up in or add to the Road Toll.

## Local Band—

(Continued from Page One)  
in hand competition. The orchestra judging panel will be Eric Soranin, San Antonio; Dean Lowman, Commerce; Alan Richardson, Denton, and Albert Gillis, Austin.

The meet not only will include band and orchestra competition, but also student conducting, sight reading and solo and ensemble performances.
