NUMBER 39

ALABAMA TOWNS UNDER FLOOD OF WATERS

Many Alabama Counties and Cities
Suffer From Greatest Flood Disaster
in Recent Years. Many Lives
Lost and Property Damage Great.
Went Stalks in Wake of Waters.

Montgomery, Ala., March 18.—Lieutenant John F. Gill, army scout pilot, reported upon his return from a flight westward to the Mississippi line today that an area ten times greater than that inundated by Pea River and its tributaries in south Alabama, is under backwater from the Alabama river in the counties of Louisa, Dallas, Wilcox, Monroe and Clarke.

Troy, Ala., March 14.—Four thousand persons, the entire population of Etba, at the confluence of the Pea River and White creek Ala., are threatened with death by the sudden inundation of their town.

Broadcasting a radio appeal last night, Governor Bibb Graves of Alabama expressed fear that failure of steady rescue would mean "all will be dead."

Since then nothing definite from the town has been received. Meanwhile, citizens throughout this section of Alabama moved to aid the flooded town, and at Montgomery Governor Graves acted, ordering two companies of Alabama national guard to the scene to aid in rescue work.

Montgomery, Ala., March 14.—Governor Bibb Graves tonight received the following telegrams from Enterprise, Ala.:

"Water in Etba 15 deep on square. Rising fast. People in distress, no one saved yet. Water so swift boats cannot reach them. Asking for your help if possible."
(Signed) P. S. Searcy."

NATIONAL GUARD BASE, near Etba, Ala., March 15.—Rescue workers reported to a correspondent of the Birmingham Age-Herald tonight that five persons, including three white men, are known to be dead and two others are missing in the flood-stricken town of Etba.

The two reported missing are Mayor R. L. Copper and Chief of Police Russ Paul.

The known dead are Benjamin Lee, 95, and two unidentified white men.

The two negroes lost their lives when they fell from a building where they had taken refuge.

In addition, two negroes were reported to have drowned near Andalusia, and three white men were reported missing near Troy, after their canoe capsized. George Gripe, 21, was believed to have drowned when he fell from a railroad trestle near Dothan.

Troy, Ala., March 15.—Rescue workers tonight estimated that 500 persons had been rescued from Etba and 100 were still marooned in the town.

Their rescue efforts were being carried on chiefly on the outskirts, swift currents and eddies in the heart of the flooded town making it difficult to man the small craft there.

Advises received from the rescue workers did not mention the remainder of the town's approximately 4,000 population, but it is believed the others were saved by other means. Parties or were higher ground out of the reach of the flood water.

Enterprise, Ala., March 17.—Mortal law has been declared at Etba and Geneva in the South Alabama flood zone under order of Col. W. E. Parsons, Alabama national guard. Ten persons are known to be dead at Etba and two at Geneva, according to a check by an Associated Press staff correspondent.

Montgomery, Ala., March 17.—Declaring that the suffering of 15,000 Alabama flood refugees is acute, Gov. Bibb Graves tonight issued a statement appealing for a minimum relief fund of \$250,000. He said all funds would be turned over to the American Red Cross.

Montgomery, Ala., March 17.—South Alabama's flood waters slowly were receding today, and the task of rescue forces became one of an emergency relief for some 15,000 homeless in a flood zone embracing seven counties. The official death list stood at twelve.

The national guard relief base at Etba today reported to Governor Bibb Graves that all refugees were fed in the Etba-Geneva flood sector in the southeast area and attention was given acute situations in the region of Brewton, Garland, and other communities in the southwestern corner of the state.

Evacuation of nearly 3,000 persons had been completed at Etba by the national guard and Col. W. E. Parsons was relieved of duty at rescue camps in that vicinity.

LADIES OF CHURCH OF CHRIST IN BIBLE STUDY

The ladies met with Mrs. C. A. Daniels, Tuesday, with eight present. We had a very good lesson and lots of interest. We had two new members and expect more when conditions are more favorable.

The class will meet with Mrs. J. A. Hutto next Tuesday, the 24th. All are invited to come. Reporter.

Legislature Takes Leave of Capital

But Governor Moody Will Call the Extra Session to Meet About April 15th.

AUSTIN, March 14.—Winding up a regular session of 66 days, the 41st legislature, which took leave of Austin this afternoon, is confronted 30 days hence with an extraordinary session in which it will find itself compelled again to go over much ground covered in the period just closed.

Forced to consider appropriation bills, the legislators will face the necessity of financing the highway department for the next two years; enacting some kind of legislation in an effort to rescue the penitentiary system from its assertedly chaotic and disconnected form, regulating public utilities and caring for other public exigencies.

Governor Moody, invited to address the two houses before adjournment, told the members that he would call them back after an interim of about 20 days, or on April 15.

With adjournment set for 12 o'clock noon, the hands of the clock were turned back to permit the enrolling room to complete bills it was working on so the speaker of the house and lieutenant governor could sign them. Although the hands of the legislative clock, pointed to the hour of 12 when sine die adjournment came, it actually was 1:50 p. m.

Thinks Gov. Moody "Cooked His Goose"

(The Southwest Plainsman.)

Governor Moody surely "cooked his goose" with the Panhandle folks when he vetoed the bill which would have prevented the further prosecution of the settlers of this area by the attorney general and the interests which have instigated the numerous suits against land owners of this section. With the attorney general acting as the prosecutors of these suits, it was a foregone conclusion that he would pronounce the bill unconstitutional if given an opportunity and it was an absurd proceeding to submit it to that department for an opinion. The bill had passed both houses of the legislature by big majorities and Governor Moody might have showed that he had a proper sense of right and justice by signing it and allowing the courts to decide its constitutionality in a test case. If he was unconstitutional for the state to quiet the titles of these men who paid for a duly signed and legal transfer from the state, isn't it quite as unconstitutional for the state to renege its own deed and take back that land after accepting taxes on it from the occupants for twenty-five or thirty years?

New Texas Cavalry Regiment Planned

SAN ANTONIO, Texas, March 14.—Reorganization of the Texas cavalry under war department orders calling for formation of a new national guard cavalry regiment, the 154th, with headquarters here, were revealed Tuesday.

Major Louis S. Davidson, Dallas, now brigade executive, will be colonel of the new regiment, and Major Calvin S. Garwood, Houston, now commanding fifty-six machine gun squadron, lieutenant colonel.

Brig. Gen. Jacob Wolters, Houston, commander 156th cavalry brigade, and Major Davidson have just conferred here with Col. P. W. Conbusier, regular army senior instructor for the Texas cavalry, regarding the reorganization and allocation of units.

Johnson Impeachment Trial Nearing End

OKLAHOMA CITY, March 17.—The end of Governor Henry S. Johnson's impeachment trial was in sight tonight as Oklahoma awaited the final moves of the opposing forces.

Prospects of an early termination of the trial, which has lasted through five weeks of testimony, caused a quickening of interest, and senate galleries, almost deserted last week after the suspended chief executive had concluded his stay on the witness stand, were expected to be crowded tomorrow.

Carolina Tornado Kills Eight Persons

GREENVILLE, S. C., March 13.—A tornado swooped down on the Six Mile community in Pickens county early tonight, killing eight persons, injuring a large number, and doing much property damage, according to word received here.

Telephone wires were down and only very meagre reports were available.

We hear of a crook, believed to be in England, who is wanted in Chicago. It's amazing that they should want any more in that city.—Punch.

Highway Funds Total Set at \$15,350,000

AUSTIN, March 15.—When members of the highway commission met here next week to let contracts they will discover the department is far from shabby and down at the heels, that prospects for financing improvements are encouraging; all this despite the fact that the forty-first legislature failed to levy a 4-cent gasoline tax and fix the automobile license fee.

Friday, W. Gregory Hatcher, gate treasurer, announced the highway department funds now total \$15,350,000, this accruing after seven months' operation under the 2-cent gas tax. This is after deducting the one-fourth for the public schools. Immediately some persons would argue that the outstanding warrants greatly would deplete the \$15,000,000, but Hatcher showed that these warrants amount to but \$446,000. The commission is scheduled to let contracts Monday and Tuesday for work costing \$2,500,000. The 2-cent gas tax has been in force since Sept. 1.

Scientists, according to a news item, are working with the ameba in an attempt to discover some of the secrets of man, but so far as we are able to remember at the moment, we have never confided in one.—New York Evening Post.

"The next war will be infinitely more complicated." Yes, the Ports have a hard gear shift now.—Portland Express.

Entries Coming In Rapidly to Second Annual Panhandle-Plains Dairy Show, To Be Held at Plainview, April 2 to 5.

PLAINVIEW, March 19.—Entries in the Second Annual Panhandle-Plains Dairy Show at Plainview, April 2-5, are beginning to be received by Manager Maury Hopkins.

E. W. Hester of O'Donnell, prominent Dawson county Jersey breeder, was among the first to send in his entries. Hester is a director of the Texas Panhandle-Plains Dairy Show Association. He will have five head of stock, but says they will be hard stuff to beat.

W. W. Evans, Dawson county agent writes in that his county will have twenty-five head of registered Jersey cattle, the pick of three hundred and twenty animals of that breed in his county. In addition to the animals he will have a stock-judging team made up from the county 4-H agricultural club boys. His breeders, who will have entries, include besides Hester mentioned above, J. M. Peterson, Ed Price, J. W. Braswell, Fred Hughes, J. B. Burkett, R. R. White, and J. E. Dohman of Lamesa. He estimates that a large crowd of dairy enthusiasts from that county will be in attendance at the show, and that local interest is running high.

Mrs. Sam Sealing of Hale Center, and her neighbor M. P. Routzahn were the first to send in their entries from Hale county. R. M. Millhollin, county agent of Hale county, will have more than seventy-five head of cattle in the show.

Bob Anclin, secretary of the Tulla Chamber of Commerce, says that Swisher county will have seventy-five head of pure bred Jerseys in the show, and that a big delegation headed by their band will make a day of it in Plainview during the show.

R. C. Nicholl, S. J. Payne, Joe Vanchan, and other pioneer breeders of Swisher county will have entries among others.

Amarillo will have a big delegation at the show. The Manufacturers and Jobbers Association indicated several months ago their intention of running a special train.

A vocational agricultural judging team is promised from Seminole under the leadership of R. F. McFatrige, Gaines county agent.

Amarilloans Killed In Airplane Crash

Capt. Harold Dunwoody and Robert Pool Die as Plane Plunges 300 Feet to Ground.

AMARILLO, March 14.—Crashing 300 feet in an airplane, Robert C. Pool, business man, and Capt. Harold G. Dunwoody of the Amarillo police department, were instantly killed shortly after 2:30 o'clock yesterday afternoon, near the English-Bivins Airport, two miles north of the city. Both the victims were widely known. Pool was in the dairy and creamery business, and was the owner of Pool's Creamery, northeast of the city. Capt. Dunwoody was the ranking member of the traffic squad of the city's police department.

The plane, owned by Pool, crashed to the ground about 200 yards east of the English field. Both men were dead when witnesses reached the crumpled ship. The bodies of both Pool and Dunwoody were badly torn and crushed.

A college president says the young man's most difficult problem is choosing the right girl to marry. Which proves that the prey has funny ideas as to who does the choosing.—San Diego Union.

"Russia," says a report, "is in the grip of an epidemic of tekehajohyt." First aid in this ailment calls for wrapping the patient warmly and sending for the proof-reader.—Detroit News.

You Can't Get Into Jail at Clovis Now

CLOVIS, N. M., March 15.—Curry county has a unique jail situation at present.

You can get neither in nor out of it. Not from any physical condition of the jail itself, but because the jail is under quarantine.

The inmate, held in the county jail in default of a bond of \$10,000 in connection with his conviction on a charge of an attempt to commit rape, has developed scarlet fever.

Nine or ten other prisoners in the jail are tied up by the quarantine, which restriction prevents them from being arraigned in court, or even securing their freedom in the event it should fall to their lot to be turned loose.

How long the quarantine will be sustained depends upon whether or not the disease spreads to other prisoners. If the condition continues for any length of time it may be necessary to care for new prisoners in jails of adjoining counties, as the city has no adequate place for them, and will not have until the new city hall is completed.

Hold-Up Victim Kills Assailant

GALVESTON, March 17.—A negro identified as Robert Barksdale, about 25, was killed here early today when he and a companion attempted to rob A. Flores, owner of a butcher shop.

The negroes, thought by police to have been involved in several hold-ups during the past few weeks, entered the shop and asked for meat.

Flores started to comply with the order, and as he did, Barksdale pulled a pistol and ordered him to stick up his hands. Instead, Flores grabbed a large butcher knife, turned and shouted, "Shoot!" The negro did, but missed and Flores, a large man, grabbed the negro's hand, holding it upward and at the same time stabbing him in the chest and abdomen.

The wounded negro called to his companion for aid, but the latter fled. A neighbor saw the second bandit and gave chase, but lost him.

Insane Hospital Ward Completed

AUSTIN, March 15.—The new ward for white women at the Wichita Falls State Hospital now is ready for occupancy. R. B. Walthall, chairman of the board of control, announced Friday. It will take from the county jails of Texas virtually all insane white women who have been awaiting entrance to state institutions, he said. It will accommodate 185 women and cost \$125,000.

Work on a ward for white men at the Terrell State Hospital will be started soon, he said. The legislature just adjourned voted \$125,000 emergency appropriation for this purpose. Facilities of the two new wards virtually will empty jails of insane white persons, Walthall said.

A WORD ON ADVERTISING

Brownfield (Terry County) Herald. The writer recently had a conversation with a member of a local firm that is one of our largest advertisers concerning their advertising, just to see what they thought about the matter. This was Mr. Bruce Knight, of the firm of Hudgens & Knight, and he was quite free to express his opinion without hesitancy.

At the beginning, let us say that this firm has long since given up the idea that they are "just doing advertising to help out the local paper," but are doing extensive advertising because they firmly believe that it is paying them dividends in their business.

Mr. Knight said: "Two years ago when we started to using large copy, we had some misgivings, but decided to give advertising an extensive and fair trial. Since that time, our business has increased three fold, and of course we give to our advertising a very large share of the credit for the increase. We are now doing a large annual business with people we considered clear out of our trade territory at that time. We consider advertising just as much a part of our business now as we do the goods in our shelves." Asked if he dreaded to prepare copy each week, he replied, "Well, we have quite a time getting it up in original shape occasionally, but on the whole, we kinda like working up copy for the ads."

Coming as this does from an advertiser that spends between \$1200 and \$1500 per year with the local newspaper alone, it should have its effect on the advertiser who either pretends he does not believe in advertising, or does not believe it is about to break Wall street if his bill goes over two or three dollars per month. While this firm see to it that they are getting all the advertising that their bills call for, if the publisher has complied with same, there is never a word of complaint, and the bill is paid pronto.

It is always correct to say that the war is over in China if you specify which war.—Dallas News.

Gold Deposit Found In Panhandle Sand

Alamogordo Man Has One Thousand Acres Said to Contain Precious Metal.

ALAMOGORDO, March 17.—The Texas Panhandle, long noted for its agricultural possibilities and oil production, may yet yield gold, according to local citizens and mining experts from the Rocky Mountain region.

A discovery of gold in sands, found two miles south of Alamogordo several months ago, may lead to the development of a placer mining project, according to R. Burton Haviland and James J. Gully of Denver, Colo., who were in Denver Thursday to get samples of the earth said to contain the precious metal.

The sand will be tested in Colorado laboratories to determine whether or not the gold content will justify mining operations. J. H. McCracken of Amarillo, also interested in the project, came to Alamogordo with the Colorado men.

Sand containing gold in small quantities is thought to cover from 640 to 1,000 acres of land in the southern part of Gray county, taking in portions of ranches owned by W. J. Hall, Alamogordo merchant, and F. R. McCracken, local banker. The gold content of the sand assayed recently showed to be worth from \$2.54 to \$3.20 per ton of earth. Should the sand yield as much as \$1.25 worth of gold per ton, the area may be mined profitably, Haviland said.

"Of course, the mine will be purely a steam shovel affair," the Denver man said. "The gold has been found on the surface and it is not expected that a lode or bonanza will develop. Shafts will be sunk to determine the depth of the sand."

Booze Raids Yield Surprising Results

On last Thursday, the erstwhile peaceful cities of Littlefield and Sudan were treated to a typical "booze raid" when federal officers closed in on three alleged liquor joints, one in Littlefield, one in Sudan and the third at the residence of Bill Wharton eight miles north of Littlefield.

The raid was conducted by Federal Prohibition Agents L. H. Tyson, and J. M. Bacon, Commissioner Pearson, Deputy Sheriff O. B. Conley, and City Patrolman George Eubanks. The officers are said to have made purchases at each place before staging the raids.

Officers reported, according to the Lubbock Journal, the following arrests: Bill Wharton, Vernon Herman, W. R. Atkinson, and Roy Campbell.

According to reports, Bill Herman, wealthy property owner and former prominent rodeo star, is charged with being the owner of the three places raided.

Specially built basements, trap doors, hidden cavities, secret panels, electric hairpin locks, installed at a cost of thousands of dollars, were revealed by the raids, it is said.

The raid at Sudan was made on a filling station on the south side of town, recently erected. Here Bill Herman was arrested, also John and W. R. Atkinson.

All the parties were carried before United States Commissioner Leonard L. Pearson, who fixed Bill Herman's bond at \$1,000 and the others' at \$750 each.

Lee Bible Killed in Speed Trial at Datona

Car swerved into Sand Dune, Killing Driver and Charles Traub, a News Camera Reel Man

OCEAN SPEEDWAY, DAYTONA BEACH, Fla., March 13.—Lee Bible, 42-year-old Daytona Beach garage mechanic, rode to a spectacular death today in the 36-cylinder racing car with which he was attempting to break the world's automobile speed record of 231 miles an hour. Speeding at more than three miles a minute, the machine got beyond his control and crashed into the sand dunes, striking and killing also Charles Traub, a news reel camera man.

The accident, one of the most tragic in the history of beach racing, occurred just after Bible had crossed the measured mile course at a speed of 222 miles an hour and was witnessed by a crowd of approximately 20,000 spectators, who lined the sand dunes for miles.

Legion Head Plans Four Days in Texas

PARIS, Texas, March 14.—Paul V. McNutt, national commander of the American Legion, will spend four days in Texas, April 12-15, when he comes to the state to attend a joint convention of the first and fourth Divisions at Dallas, April 14, it was announced here today by Col. Rufus D. Scott, Jr., state commander.

Cities on McNutt's tentative schedule for Texas include Denison, Paris, Wichita Falls, Amarillo and Dallas.

A rabbit's foot may be lucky, but its original owner wasn't.—Arkansas Gazette.

THE AMERICAN CREED

"I believe in the United States of America and the principles of freedom, justice, equality and humanity upon which it was founded and for which American Patriots have given their lives and fortunes.

"I believe it is my duty towards my country to love it; to support its constitution; to obey its laws; and to defend it against all enemies."

Any erroneous reflection upon the character or reputation of any person, company or corporation which may appear in these columns will be gladly corrected upon its being brought to the attention of the management.

"BOOST OR MOVE."

THE CLEAN-UP MOVEMENT.

Now that our city authorities have taken the initiative in a campaign for a general clean-up of the city, The News feels that it will not be amiss to impress upon our citizens the great importance of this movement.

It has been said that "cleanliness is next to godliness." It is the conviction of this writer that without a goodly measure of cleanliness there can be very little godliness. A really dirty individual is an offense to the community. The same can be said of premises. A filthy yard and grounds is an insult to the town. It is poor encouragement for one citizen who has kept his premises clean and attractive, to look over the division fence and see the premises of his neighbor harboring filth and disorder. But the force of example is great. Usually in time the careless and slovenly individual is shamed into some semblance of cleanliness, and as he observes others around him striving for a higher plane, a spirit of emulation is aroused. If not, then he is impossible, and the town would be blessed in his absence.

So don't be discouraged if your neighbor is a little backward in entering the clean-up campaign, but you set him the example and, take it from us, if he is not utterly set in slith, eventually he will follow.

DEEP PLOWING.

Is deep plowing to be the solution of more than one farm problem in West Texas? It would seem so, if recent experiments of this nature have any meaning.

Of recent years the experiment stations and agricultural agents of the Plains country have been urging deep plowing as a remedy for land blowing, and also as a measure for conserving moisture in the soil. These authorities assert that the subsoil of the Plains lands, being of a clay composition, will not blow; and further, that this subsoil is rich in all the elements of plant food, as much so as the loose, sandy surface soil.

If these contentions are borne out in extensive experiments now being conducted, West Texas is likely to experience a radical revolution in agricultural methods, with incalculable advance in crop production.

The Plains country has the soil and the climate. It remains only to develop the proper farming methods in order to make of our country a greater paradise—if possible—than it now is.

CHICKEN THIEVES.

The chicken thief is usually considered an unimportant sort of criminal—a character for comic stories and cartoons, but nothing more. However, his depredations are serious enough, in some parts of the country, to put him into the class of major law breakers.

In Ohio, for instance, farm organization leaders estimate that chickens worth a million dollars are stolen each year. Some are taken by young boys who are looking for excitement. Some are snatched by tramps and such folk, but most of them are stolen by regular bands of thieves who tour the rural communities in trucks, steal 50 or 100 chickens in a night, and speed away to a city to market them.

As a result, Ohio farmers are seeking a law requiring complete bills of sale for transfers of poultry. The old joke is a joke no longer. A chicken thief is a nery piece of humanity.

CHURCHES

A reader inquires as to the number of churches in the United States, and the number of denominations. There were in 1926, 231,983 churches of all denominations. They had a membership of 54,624,976. These represented 91 distinct denominations, and 144 members of minor denominations. These figures include various related bodies as one denomination.

For instance, the various separate bodies of Presbyterians and Methodists are grouped as two denominations. If each individual branch of these denominations is counted separately the number of denominations will total nearly 200. The expense of these churches exceeded \$214,000,000 annually.

THE NEW SEASON.

Spring is just around the corner and thoughts naturally turn to that which is new. With this view, the local merchants are presenting a fine array of all that is newest and most stylish in spring merchandise.

Local stores are filled with fresh, new stock—bought right and sold right. They offer a great assortment of real values and splendid selections.

Sudan merchants sell the kind of merchandise that pleases, and give the kind of service that satisfies.

THE NEW POSTAGE STAMPS.

Postage stamps will appear shortly with the name of the state where sold appearing on them. Stamps purchased Texas postoffices will be marked "Texas" and those sold in California will be marked "California."

ifornia," and so on. It is a move to curb postal robbers. Officials believe that it will make the sale of stolen stamps extremely difficult. A Texas stamp, however, will carry a letter mailed in Maine.

NOW COMES THE WEDDING MARCH.

Now that Col. Lindbergh and John Coolidge are safely engaged, and the public has the details, we have only the love affairs of the Prince of Wales to worry over, says an exchange.

What's the matter with the millions of other young folks in this world, the so-called "common people," without whom there wouldn't be much going?

A LONGER RANGE.

Down near the South Pole Commander Byrd has named a chain of icy mountains the Rockefeller Range. As a matter of fact, the Rockefeller range is from Poll to Poll. Ask the automobile man. The world is a link of filling stations.

THIS TAXING BUSINESS.

Uncle Sam is an amiable old fellow. He not only accepts your income tax with a smile, but he will send an expert to figure out how much you owe. Most tax gatherers are not so considerate.

One auto manufacturer says people have no excuse for walking these days. Maybe the drivers are taking this fellow seriously, and doing their best to reduce the walking nuisance.

Thinking is the hardest work there is, according to Henry Ford. Only a comparative few would be given a five-day work week on this account.

Now that spring is nearly here, the papers are talking about the early bird, the first robin and the putting out of the trees.

It is said that the government engraving bureau is working long hours printing the new short paper money.

It's a daring insurance company that includes Mexican politicians among its policy holders.

One thing the postoffice department likes about Col. Lindbergh is that he is always on time.

Fifty years ago citizens did not know how their respective town looked from an airplane.

A western editor has packed up and left town. He referred to a bazaar as a buzzard.

The spring poets are already sharpening their pencils for the open season.

**Husky
Baby
Chicks**

Your baby chicks represent your future poultry profits.

They deserve and should receive at the start every care and attention.

Every baby chick you are able to save today means more profit for you next fall.

How to Raise Poultry
By Dr. L. D. LeGear, V. S.
St. Louis, Mo.
Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirteen years of consecutive practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Well known poultry breeder. Frequent author and lecturer.

Let a Little Sunshine In

It is the sun which has brought life to this earth. Without its light and heat we should be a frozen mass. It is the sun which has made it possible for us to live and prosper. Let us be truly deserving of its rays.

The ancients of many races worshipped the sun as a god. For centuries it has been used as a symbol of purification, and even in Christian churches today we find our children singing, "Let a Little Sunshine In." Until comparatively recently, however, it was not suspected that there was any real basis, in fact, for all this symbolic reverence for the sun.

Now, science tells us that the ultra-violet rays of the sun perform at least two very important services for humanity and for animal life generally. First, in harmful germ life cannot survive in the presence of these rays and certain chemical processes necessary for proper physical development cannot proceed without them. Perhaps the most important service rendered in this way is the aid given to the growth of bony structures inside the body. This is particularly important to poultry, reusers.

We hear a lot about vitamins these days. No one seems to know just what they are, but quite a lot is known about what they do and that is the important thing. Of the four known vitamins, vitamin D is the one needed to transform certain mineral elements of food into bone and eggshell. This important vitamin is manufactured right in the bodies of fowls by the direct action of the violet rays of sunshine.

This is one reason why I am always insisting on open front poultry houses and plenty of range space for fowls. Every possible means should be employed to expose their bodies to the helpful action of sunlight. Of course, this does not mean that they may not seek shade on extremely hot days. Too much of anything is not good. Even in the shade, in some cases, the ultra-violet rays can reach the fowls in sufficient measure to continue their good work. Chicks that get plenty of sunlight will not develop "leg disease" or rickets, and soft shell eggs will be rare among hens of whom the same thing is true.

Not the least of my reasons for so ardently sponsoring the open front type of house previously mentioned in this article is the antagonism of sunlight to unwelcome bacteria. Here again we find the ultra-violet rays responsible. They can penetrate many substances which will not admit other light rays, but they cannot go through ordinary window glass, consequently, if it should become necessary to close up any part of the front wall space ordinarily intended to be left open, use a glass substitute over a portion, and thin white muslin or cheesecloth over the balance. This will admit the ultra-violet ray and considerable fresh air.

Before going very far with inclosing hen houses, however, it is well to remember that the less hen are pampered, the better off they will be. Pity for fowls merely because they are cold is pity misplaced. Cold, fresh air that has been purified by sunlight is always preferable to the warm, stagnant air usually found in a closed house. Besides, it must never be forgotten that the closer a house comes to being inclosed on all sides, the more it is excluding the indispensable elements that only sunshine can provide in full measure. It should also be remembered that there is less sunshine in winter than at any other time, so all the more reason for taking the fullest possible advantage of what is available.

Finally, we must not overlook the fact that, without sunshine, all of the food products so necessary for bodily development and egg production would be valueless if not non-existent. It is quite plain, therefore, that the value of plain, everyday sunshine is something we cannot afford to take for granted. It is a big, important subject and for that reason I shall be glad to go further into it with any poultry-raiser sufficiently interested to write me in care of this newspaper.

Glycerine Mixture Stops Constipation

The simple mixture of glycerine, buckthorn bark, saline, etc. (Adleriga) acts on BOTH upper and lower bowel and relieves constipation in TWO hours! Brings out old waste matter you never thought was in your system. Don't waste time with pills or remedies which clean only PART of the bowels, but let Adleriga give stomach and bowels a REAL cleaning and see how good you feel. —H. G. Ramby, Druggist.

THE LA WMAKERS

Speaker Longworth thinks that no special session of congress will be either necessary or advisable. He says that the farm relief problem should be disposed of early in the short session and that the reapportionment bill should be passed at the same gathering. He is might optimistic. He ought to know congress by this time, but if he can put these measures across without a month of debate he will have to use his gavel a whole lot.

CUTTING Lubricating Costs

Our volume of sales on Conoco Amalie Oils is growing larger each month, and there is a reason for this growth.

Our customers are buying these oils time after time and they are telling their neighbors about the lubricating satisfaction they are getting.

In this way the news is spreading that the CONTINENTAL OIL COMPANY is the one to go to for cheaper lubricating values.

Tests are proving that tractor owners are getting more hours of running on Conoco Amalie Oils, and are holding up a better pressure on their indicators than with any oil they have ever used.

Car owners are finding their oil looks better and has a better body when drained from their car after a THOUSAND MILES OF RUNNING than other oils they had used after five hundred miles of running.

The proof is there before their eyes that by using Conoco Amalie Oils they are CUTTING THEIR LUBRICATING COSTS.

If you are not using this oil you are losing money

Mr. and Mrs. L. C. Crump announce the birth of a baby boy on the 18th.

Purine Chick Startina "Raises More Baby Chicks Boyd Feed Store.

Born to Mr. and Mrs. G. D. Neal of the Circleback community, on the 18th, a boy.

Judge Gay returned the latter part of last week from a visit and business trip to McKinney.

Mr. and Mrs. H. P. West are building a new house on their farm 3 miles west of Sudan.

Miss Runnels has as her guest this week, her mother, Mrs. Runnels of Prairie Hill.

H. C. Holt, who has been confined to his home for the past two weeks on account of illness, is able to be out again.

Mr. and Mrs. C. M. Crawford and little daughter Charlie Rae, spent last week-end with Mr. and Mrs. Robinson at Goodland.

Mrs. H. H. Bush returned Tuesday from Dallas. She also visited her mother at Gainesville while away.

R. A. Thompson and M. P. Smith of Muleshoe were attending to business in Sudan Tuesday.

Rev. C. R. Hooton made the round trip to Lubbock Tuesday.

Mrs. C. R. Hooton and son Billie, and Mrs. Everheart attended the Woman's Missionary Society at Amherst Tuesday.

Purine Chick Startina "Raises More Baby Chicks Boyd Feed Store.

Mr. and Mrs. L. E. Slate were business visitors in Lubbock Tuesday.

Mr. and Mrs. Emery Horn who are visiting at the J. B. Findley home, spent Sunday at Hale Center visiting her sister, Mrs. Levi Howard and family.

Mrs. C. M. Furneaux and little son, Junior, returned to their home in Sudan after spending several months in Dallas visiting with her parents.

Messrs. Billie Martin and Elmo Mitchell were visitors in Lubbock Sunday. They were guests of Miss Leona Couch.

Jack Poust, who is employed at the Sudan Drug, spent Sunday in Littlefield with his parents.

Mr. and Mrs. Dent and daughter, Miss Pauline, spent Sunday in Clovis and Portales, N. M.

Phyfer Ramby and Shortie Hamilton visited with the latter's parents in Lubbock, Sunday.

Hugh Wingo, who is attending the Tech at Lubbock, spent the week-end with his parents, Mr. and Mrs. J. B. Wingo.

Purine Chick Startina "Raises More Baby Chicks Boyd Feed Store.

Mr. and Mrs. Martin, who recently moved from White Flat to their place 14 miles northwest of Sudan, are the proud parents of a girl born on the 19th.

Mrs. E. C. McSpadden of Dallas is visiting her parents, Dr. and Mrs. G. A. Foote, this week.

Miss Johnnie Bess Richards of Lubbock visited her aunt, Mrs. J. P. Robertson, and family several days this week.

Mrs. Veach Payne and little son of Littlefield are visiting Grandmother Payne and two children, Elmore and Leonard, this week.

Mr. and Mrs. L. T. Hunt and children returned from Rule, the latter part of last week, where they were called to be at the bedside of Mr. Hunt's father, B. C. Hunt, who was suffering from high blood pressure. They report Mr. Hunt much improved.

Mrs. L. F. Hargrove and little daughter Dorothy Anne, and Mrs. White and little son of Littlefield were visiting friends in Sudan Saturday. Mr. and Mrs. Hargrove were residents of Sudan for two years, Mr. Hargrove being manager of the Magnolia Oil station. He is now manager of the station at Littlefield.

Mrs. Maurice Small motored to Littlefield Friday and spent the day with her sister, Mrs. C. M. Traylor. Mr. Small, Mrs. H. H. Weimhold and children, Frances, Forrest and George, and Miss Dorinda Bond, drove down in the evening and attended the concert. Miss Bond, Forrest and Mr. Small participated in the concert.

Mrs. H. D. Smith received a pleasant surprise Tuesday afternoon when a number of neighbors and friends gathered at her home, showering her with many nice gifts. A pleasant hour of music and games was followed by delicious coffee, sandwiches and cakes. Mrs. Smith is leaving Sudan.

Mr. and Mrs. W. M. Willingham are doing some improving on their place south of town. They have piped water into the house and are getting ready to go into the poultry business right. Mrs. Willingham placed an order for two hundred Buff Orpington baby chicks to come

off April 4th. Mr. and Mrs. Willingham are progressive farmers and we are sure they will make good in the chicken business.

THE FAIR STORE

A new business institution in Sudan, and one that without a doubt will command a liberal patronage from the Sudan public, is the Fair Store, operated by Mr. Ed Aryan.

This store has recently opened in the G. C. Holden building, and an inspection of their stock will really surprise one, as the house carries a line that would be a credit to a much larger city than Sudan. Everything is carefully selected, and calculated to appeal to a discriminating patronage. The personnel of the establishment is made up of polite and accommodating sales people, and a visit will, we have no doubt, always result in a pleased customer.

The Fair is asking a share of your patronage, with the assurance of an earnest effort to please you.

Luncheon Club Banquets Wives Of Members

The Sudan Luncheon Club, in regular meeting March 15, in the new dining room of the town, the Palace Cafe, held the outstanding club banquet of the season. Eighty plates were served, including those for the wives of members. Guests of the occasion, other than the ladies, included Messrs. Gridgith and Sherrod of Lubbock and Wes Campbell and Eli Perkins of Amherst, the latter gentlemen having some fame as old-time fiddlers and guitar pickers.

The principal addresses of the evening were made by B. Sherrod, past president of Lubbock Chamber of Commerce, on good roads and community co-operation, and Dean Leidigh of Texas Technological College. The Dean spoke at length on the agricultural possibilities of the Western Plains, stating that Santa Fe records disclose the fact that Sudan is the largest local shipping point between Clovis and Lubbock. P. E. Boesen, in his usual happy style, gave a short resume of development of Sudan for the past ten years, and expressed his pleasure at knowing the town of Sudan to be his home.

The social feature of a dinner for 40 homemakers of Sudan was an exceptional one, as few towns of the size have a meeting place for such an occasion. The town is to be congratulated for having Mr. Vinson as a citizen and for having the formal opening of his hall, the Palace Cafe, for the use of such an occasion.

The archeologists have secured the assistance of a railroad time-table expert, and it is thought that the mysterious inscriptions on the Maya temples, tombs, and monuments of Central America will soon be deciphered.—Minneapolis Journal.

Among the cities that are shooting up is Chicago.—American Lumberman.

ORDINANCE NO. 14.

AN ORDINANCE PROHIBITING THE KEEPING OF ANY LIVE HOG, OR HOGS, HEREAFTER, OR THE RUNNING AT LARGE ANY CHICKENS, OR OTHER FOWLS WITHIN THE LIMITS OF THE CITY OF SUDAN, TEXAS, AND PROVIDING A PENALTY FOR THE VIOLATION THEREOF.

BE IT ORDAINED BY THE CITY COMMISSION, OF THE CITY OF SUDAN, TEXAS:

SECTION 1. That it shall, on and after April 1st, 1929, be unlawful for any person, company or corporation to keep, at any time, within the City of Sudan, any hog, or hogs, or pigs, or, between the first day of April, of this year, or any succeeding year, and the first day of November of the same year, to permit, or allow, any chickens, hens, roosters, geese, ganders, ducks, doves, turkeys, pigeons, or any other domestic fowls of any description or character to run at large within the corporate limits of the City of Sudan.

Section 2. Any person who shall violate this Ordinance, shall be deemed to be guilty of a misdemeanor, and, upon conviction in the Corporate Court of said City, shall be punished by a fine, in any sum not less than One (\$1.00) Dollar, nor more than Fifty (\$50.00) Dollars.

Section 3. An emergency is hereby declared, and this Ordinance shall be in full force and effect immediately after the publication of same, according to law, in one issue of the Sudan News.

AND IT IS SO ORDERED.

Passed and approved, this 11th day of March, A. D. 1929, at a regular meeting of the City Commission of the City of Sudan, Texas.

J. W. BARRON, Mayor.
W. W. Carpenter, Secretary.

Just Like An Ostrich

A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that constipation is throwing poisons into your bloodstream and weakening your whole constitution. Remove the constipated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts naturally and easily, which you can get at H. G. Ramby Drug Store.

Lamb County Leads In Cotton Delivery

Lamb county members of the Farm Bureau will be interested to know that this county has delivered nearly 6000 bales of cotton to their association this season, and that our district No. 12 is leading the whole state in the amount of cotton delivered this season.

The Farm Bureau gin at Littlefield, with 3,500 bales ginned, is still leading all the Bureau gins in the state, and gaining more each week, as most of the gins have closed for the season.

Neuces county, in south Texas, is the only county in Texas that has delivered more bales of cotton than Lamb county to the association this season. Of course, they made something like twice as much cotton as we did, and they have one of the best field men in the state to help them deliver it. Lamb county, being on the South Plains, and producing such a large per cent of late maturing snap-cotton, it will always be necessary for them to be strong supporters of co-operative marketing of their crop, therefore it seems that Lamb county members have stood the test of time and reverses, to the extent that they will be stronger supporters of co-operative marketing of cotton in the future than in the past.

Farm Bureau Meeting Called

Lamb county members of the Farm Bureau Cotton Association, and all others interested, are urged to attend a membership meeting in Littlefield Tuesday, March 26, at 2:30 p. m., in the Palace Theatre building.

The director of this district, Mr. M. S. Hudson, of Hale Center, will be present to tell us something about how the cotton is being handled, and about how much has been sold to date, etc.

Mrs. M. S. Hudson, the only woman director of the Farm Bureau Federation, will also be there to tell us something of the Farm Bureau, and what it is doing as a national movement, or anything else she may have in mind. There may be other noted speakers present and every effort will be made to have an interesting program for those who come.

Everyone who is interested in the movement is urged to attend this meeting, so as to secure a good audience, for Lamb county is generally there when it comes to meetings of this kind.

The Chicago Undertakers' association says that a funeral costs less than half as much in Chicago as it does in New York. Mass production certainly does cut down the high cost of dying.—Chicago Tribune.

OUR BIRD FRIENDS

Feeding the birds in winter is a fine act. It is inconsequential to most of us, but nevertheless well worth the little effort it requires, for it brings a rare pleasure. The birds are at the mercy of the elements. Certainly no one would deny them a little feed the need so badly in the winter, when the cold blasts engulf them.

Even the noisy chattering of a flock of half-starved sparrows as they content for the morsels beneath their wings brings a bit of joy to their patron. A few bread crumbs or any table scraps or scraps of the festive board. Their cheerful chirps and twitters more than repay one for the slight effort of feeding them.

Our Neighbors

Littlefield

(Lamb County Leader.)
Looking forward to securing a total annual budget of \$4,000, the Littlefield Chamber of Commerce last Monday launched a membership campaign which is being carried on in excellent manner. 88 new memberships having been added to date, with a large number yet unsolicited, the most of whom it is believed will be come members. This brings the total membership up to nearly 100, and it is thought there will be at least 75 more obtained.

Members of the agriculture classes have made arrangements to secure good seed for their various plant projects. After some discussion of profitable sources of good seed a large majority of the class decided to take advantage of the offer made by the Lubbock experiment station.

At a session of the quarterly conference of the Methodist church held here Sunday afternoon, the building committee was reorganized and it was agreed that the work of church construction would be continued. Some time ago the basement foundation was laid and it is now planned to finish the work then started.

At a meeting of the Littlefield school board held Thursday night of last week, considerable discussion prevailed over the present crowded condition of the high school and a way of remedy. It was stated that additional rooms will be required to handle the pupils. A committee was appointed to officially view the present crowded scholastic condition and make proper recommendations for remedy.

The Littlefield Lodge of Odd Fellows is making active preparations to attend the meeting of the South Plains association to be held in Lubbock April 24.

That Littlefield will be supplied with natural gas within the next 60 days, is the report current on the streets this week.

Amherst

(Amherst Argus.)

Through the efforts of J. E. Smith, agricultural teacher, several fine Jersey cows have been placed with farmers in this vicinity recently.

The one act comedy drama entitled "Bridesmaids Blues," is to be presented by students of the Amherst high school in the near future.

That Lamb county is settling at a very rapid clip, and especially north of the sand hills west of Earthen, is evidenced by information obtained this week from the Halsell Farms Co. that 357 1/2 acres of land has been sold by the company near Earthen since January 1 of this year.

Some 20 citizens of Amherst and vicinity signed a contract with the Cadmean Chataqua company the past fall for their entire program to be presented in Amherst some time in the early spring, and the first number will be presented on April 5 at the high school.

A. B. Short of Lubbock started work Wednesday auditing the city books, covering the past two years' administration.

Rev. Hembree conducted a meeting at Piedon from Thursday of last week until Sunday night. Several additions to the church were had.

On Wednesday, March 6, at 7:30 p. m., Mary Russell became the bride of Mr. Elbert Mullin. The ceremony was performed at Oton, with Rev. Hornell, pastor of the Methodist church there, officiating.

The people of Amherst Independent School District will elect four trustees, on Saturday, April 6.

The feeding course, conducted by J. E. Smith, agricultural teacher of the Amherst high school, is gaining in interest among the farmers each week.

Muleshoe

(Muleshoe Journal.)

The interscholastic league meet for Bailey county will be held in Muleshoe on Friday and Saturday of this week. Preparations have been made for making the event one of the best and biggest of its kind in this part of the country. All schools in Bailey county are expected to be represented and arrangements have been made for the entertainment of a large delegation.

Deputy Game Warden M. W. Dickenson has recently received a shipment of quail from the state department to be distributed over this section. It was announced this morning. The birds were shipped from South-west Texas.

The revival which opened Sunday at the Baptist church is being well attended, considering the fact that the weather has been very disagreeable for the past several days. Rev. Hulon Coffman, state evangelist, of Fort Worth, is conducting the services.

People of Muleshoe and vicinity were shocked last Tuesday morning to hear of the death of Mr. D. A. Dodson, who passed away at Lovington, N. M., Monday night. Mr. Dodson had recently disposed of his property here and moved with his wife to Lovington. He had been afflicted for some time with heart trouble, but seldom complained and few people were aware of the fact that he was not in the best of health.

T. E. Scully and an associate, officials of the Transcontinental Air Transport, spent Tuesday in Farmer

A Great Discovery

When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of inestimable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to insure that these dreadful germs do not infect a wound, is to wash the wound, however small, thoroughly with Borozone, the modern antiseptic. You can get Liquid Borozone, in a bottle to fit your needs and taste, from H. G. Ramby Drug Store

county selecting locations for the large beacon lights that will be placed through the county along the T. A. T. route. These lights will be used to furnish illumination for night flying which is soon to be inaugurated over the route between New York and Los Angeles. Locations for three large lights were made in this county.

Word has just been received here of the marriage of Miss Audrey Stoker to Mr. John H. Fisker of Fillmore, Calif. Miss Stoker is well known here, having been in the employ of Judge Wm. G. Kennedy for a number of months. She has a host of friends here who wish for her a life full of happiness.

Farm Relief Battle Lines Being Drawn

Leaders of Farm Relief Pressing White House to Include Pet Ideas In Program.

WASHINGTON, March 14.—Battle lines are already being drawn for the farm relief fight scheduled to start April 15th, when congress will convene in special session. Several factions of would-be farm relievers are mobilizing forces behind their pet measures.

Since it is a foregone conclusion that President Hoover's suggestions will be followed, to the letter by the overwhelmingly republican congress, preliminary maneuvering has for its objective the capture of White House and agriculture department support.

Some of the factions, whose efforts in this direction seem predestined to failure, are preparing to make at least the gesture of a struggle for their proposals when the farm relief bill reaches the house and senate floors.

Democrats will again bring forward the equalization fee provision of the old McNary-Haugen bill, according to Senator Harrison (Dem.), Mississippi. He has promised that the minority party will make an effort to redeem the campaign pledge of Alfred E. Smith to stand by the equalization fee principle—surplus crop disposal by the government with consequent losses charged to the farmers benefited.

Mr. Hoover obviously cannot approve the equalization fee. Former President Coolidge vetoed the McNary-Haugen bill twice because of this provision, and his successor is pledged to carry on Coolidge policies. It seems apparent that the democratic fight therefore can produce little more than a sham battle.

Senator Brookhart (Rep.), Iowa, will lead another minority fight for what is known as the cost-of-production principle. He will try to insert in the farm bill a provision authorizing the government to compute the average cost of production for each farm product and bid that cost, plus a fair profit, for the farmers' surplus crops. This would automatically raise the price of all farm products to the government level.

Senator Borah (Rep.), Idaho, submitted his marketing bill to Secretary of Agriculture Hyde Wednesday. This measure, designed to protect the interests of shippers of agricultural products, will probably win the approval of Mr. Hoover and be incorporated in the majority program.

Senator McNary (Rep.), Oregon, and Representative Haugen (Rep.), Iowa, chairmen of the senate and house agriculture committees, will again be the nominal authors of the farm relief bill which will be fashioned after the measure introduced by McNary, but not acted upon at the short session.

This bill would set up a federal farm board with \$300,000,000 at its disposal to encourage co-operatives and assist agriculture, and a stabilization corporation to buy surplus crops and hold them off the market until demand warrants their sale.

TO MEET COMPETITION

More than a million dollars a month will be spent this year to advertise Lucky Strike cigarettes. Who has not seen the slogan, "It's Toasted?" This is one of the largest appropriations for advertising for 1929.

One would think if any article could be sold without advertising it would be cigarettes. But to meet competition, the American Tobacco Company will spend this year \$12,300,000 to advertise one brand of its cigarettes.

This great corporation believes that "it pays to advertise"—and the keenness of the competition the more necessary the advertisement, his is as true of small business as it is of great.

WHO ASKED HIM?

W. R. Hearst has matched Mr. Durant's \$25,000 by a similar prize to be awarded to the person who can produce the best plan for upsetting the prohibition law. And when you come to think of it, just who asked Mr. Durant or Editor Hearst to settle the prohibition question? Perhaps if they look around a bit they can find a few problems of their own and leave the settlement of governmental affairs to the government. After all, after March 4, Herbert Hoover might have a few ideas to suggest. It is our guess that the dry forces need have no fear for an early repeal of the law.

FOR ECONOMICAL TRANSPORTATION

A Quarter Million

NEW SIX CYLINDER CHEVROLETS on the road since JAN. 1st

To satisfy the overwhelming public demand for the new Chevrolet Six, the Chevrolet Motor Company has accomplished one of the most remarkable industrial achievements of all time. In less than three months after the first Chevrolet Six was delivered to the public, the Chevrolet factories are producing 6,000 cars a day. As a result, more than a quarter-million new Chevrolet Sixes have been delivered to date—and this tremendous popularity is increasing every day! If you have not yet seen and driven this remarkable car—come in for a demonstration!

News of Texas
Told in Brief

AUSTIN.—Within two weeks hearings will be held in West Texas towns for the purpose of determining the amount of reimbursement due cotton farmers for losses incurred by the pink boll worm in the regulated area. Announcement on this effect was made Thursday by Representative Carl Rountree of Lamona.

SHERMAN.—D. R. Vaughan, Sheriff, former tax collector here, who has been in active charge of the Harlem state prison since January 18, has been named permanent manager of that institution.

WACO.—Favorable conditions in all industries of the Southwest and predictions of an active period in agriculture and shipping were reported here Thursday by executives of all railroads in this territory at the twentieth meeting of the Southwest Shippers' Advisory Board.

PARIS.—Three years of litigation over the estate of the late William J. McDonald, 81, retired Paris capitalist, ended with the announcement of an agreement whereby Texas University will receive about \$1,000,000 for an astronomical observatory, and heirs contesting the will are to receive the balance, estimated at \$370,000. Nephews and cousins of McDonald had contested the will on the ground that he was of unsound mind when it was made.

PLAINVIEW.—To stop fake advertising scheme solicitors and other unworthy subscriptions which are presented to Plainview business men almost daily, the Plainview Retail Merchants' Credit Association is undertaking to sign up every merchant in the city to pledge that they will not subscribe to any advertising proposition or solicitation that is not first approved by the association officials.

BROWNWOOD.—The case with which two unmasked young men held up and robbed the First National bank here of between \$5,000 and \$5,000 led officers to believe the offenders were experienced and probably had cleverly concealed their trail.

PORT WORTH.—The first auction of polled Hereford cattle held here in three years saw \$7 head sold at an average of \$468 today at the Southwestern Exposition and Fat Stock Show. The 29 bulls in the lot sold at \$79 a head more than at Des Moines, Iowa, a month ago.

DODSONVILLE.—Banking is a paying proposition in northwest Texas, stockholders in the First National Bank of Dodsonville will testify. Since 1921, the bank has declared 29 per cent dividends annually on its capital stock of \$25,000, according to its cashier.

AMARILLO.—Lee Miller was appointed captain of traffic in the Amarillo police department by Chief of Police H. L. Galtner yesterday. He succeeds H. G. Dunwoody, who was killed Wednesday afternoon in an airplane crash.

MEMPHIS.—The Memphis Democrat will say in its issue of Friday, March 15, that Governor Dan Moody will be a candidate for the state legislature when his term of office as governor expires.

LITTLEFIELD.—Official count of collector's records of the county show 2,438 bell tax receipts issued to Lamb county this year, 1927 of which were from Littlefield.

AMARILLO.—Edson and Carl Esche, 9 and 13, died of life in D. I. last Thursday for Mexico to take part in the revolution. Amarillo police halted their journey Friday, however, when advised by the look presents that the revolution would have to get along without them. The boys were sent back.

SWEETWATER.—Despite inclement weather caused by the third rain of the week which totaled .51 inch, the first annual Farmers' Short Course was attended by 1,000 people at the morning and afternoon sessions and heard four speakers of repute discuss general problems of interest both to the farmer and the business man.

EL PASO.—Charged with violating the federal law against exportation of arms and ammunition, Mrs. Margaret Mohr of El Paso was arrested on the international bridge between this city and Juarez. Customs officers confiscated her automobile in which they reported more than 2,000 rounds of rifle ammunition was found.

AUSTIN.—J. T. Robison, land commissioner, will open bids on oil and gas leases in university lands, which had been advertised for sale on Jan. 2 and stopped by court proceedings, next Tuesday, he announced Friday.

CORNICANA.—W. P. Colquitt, 65, brother of former Governor O. B. Colquitt, died at his home here Thursday night.

Every once in awhile we read of some smart young man who wants to show off before his best girl and if possible give her such a thrill that she will scream for him to quit. About the last one to grace the pages of the dailies was a young silly who wanted to demonstrate how close he could hold a match to a dynamite cap without danger to himself. But he got it closer than he thought, and as a result he has no fingers on that hand and a great hole in his abdomen.

Echoes of The
Educational System

Work is progressing so rapidly and everybody so busy this week that there is little to state. We are making too much history to be able to give out much.

Growth of the system continues. Our enrollment has reached 743. We expect in another week to report the centenary mark between 700 and 800. The largest load ever hauled in on Sudan school busses to the present was Tuesday of this week when 340 pupils were carried from the rural portions of the district into school. Of the new pupils reported two are in high school, one of them coming to us from Abernathy, and the other from Canyon. They come from good schools and should easily make their work with us.

The pupils and teachers of the entire system wish to take this means of thanking the county commissioner, Mr. Daniels, for his services in having a "slow signal" stretched across the highway in front of the school buildings. To W. G. McGlamory go our thanks, too, for the good danger signals placed on the roadside, as we are told that he painted these signs for us, and that Mr. Daniels had them put in place at appropriate warnings. We should like to ask a question of the town, however. What are we to do when it becomes necessary to add another building to the school property? It will then be too late to add to the grounds, and our grounds are already too small for baseball or football together with other activities. This school is growing and next year will be larger than it is now, and the need of equipment and grounds will be greater.

Our track and field events for the county meet are causing us some embarrassment. Javelins ordered did not prove good. Canes ordered for jumping and vaulting have never arrived. Some other difficulties common to those far removed from a source of supply have had to be overcome, but except for some of these flaws we are feeling fairly well about our chances. Certainly we have phenomenal contestants, but we shall merely do all we can, and smile if we lose.

Our section of the Lamb County Band report a great concert last Friday evening. They state that they had an audience of over 400, and although they divided proceeds with the picture show of the place, they made more money for their trip to El Paso than they had made in both performances at Amherst and Sudan. This surely speaks well for Littlefield. We have two other events coming for this band in Sudan and we expect to improve this condition. These programs are being given in the attempt to pay the expenses of our school boys and their band partners to El Paso at a date set by West Texas officials.

Visiting still seems to be the order of the week-end for our faculty. Last week-end Miss Jackson spent the time with her parents, visiting Lamona and Lubbock. Miss Thomas also spent the week-end in Lubbock while Mrs. Wells ran down Sunday to take her brother George Wilkins back to the Tech. He has been visiting his home folks between winter and spring terms at the college. Mr. and Mrs. Talbott, accompanied by Mrs. Loyd were in Lubbock Saturday.

Mrs. T. J. Runnels of Prairie Hill visited her daughter, Miss Evelyn Runnels, over week-end. We were glad to have the mother of our Spanish teacher with us at that time, and Miss Runnels has not been grouchy this whole week.

We learn that Mrs. Elmore and her husband made a trip to a hospital in Lubbock Sunday and that Mrs. Elmore was dismissed from treatment there. Her sinus trouble seems to be healed entirely.

The senior economics class has been having some valuable addresses by different citizens recently. Among them are the addresses of the following: Two addresses by Mr. P. E. Boesen on Banking and Credit; one by Mr. Wilkins on the Federal Reserve system; with addresses by Messrs. W. W. Carpenter and J. A. Hutto yet to come. The latter are to be on municipal organizations.

Thursday will be the last day of school work this week. Friday and Saturday will be university interscholastic meet days at Olton. School busses are to be provided for the use of contestants. These busses will leave town at certain hours already stated by the contestants and will carry contestants only.

Mr. Wilkins, accompanied by George Wilkins, spent the day last Friday in a study of two problems in New Mexico. They made a careful survey of the municipal gymnasium of the Texico school system and then made a survey of the Clovis high school system. Mr. Wilkins reports great good in the understanding of what other schools of the West Plains are doing. Mr. Wilkins expects to make a study of one other system this year, and prefers that of Plainview.

Mrs. Elmore was treated to a bridal shower in the home economic department last Friday. The following teachers attended the shower: Mr. Talbott, Mesdames Francis Talbott, Newton, Grissom, Wilkins, Wells, McMillan and Boyd, Misses Bond, Runnels, Ware and Thomas, and several of the ladies of the town. Mrs. Runnels was the only out of town visitor. A number of splendid presents were presented to Mrs. Elmore, presents that Mrs. Elmore says she can find useful in her new home.

The Sophomores. SHE KNEW HER BIBLE "Do you attend Sunday school regularly?" the minister asked of little Muriel. "Oh, yes, sir." "And do you know your Bible?" "Sure, I can tell you everything that's in it. There's sister's beau's photograph, ma' recipe for face cream, a lock of my hair when I was a baby, and the ticket for pa's watch."

Robber Used Church
Tower For His Home

SWEETWATER, Texas, March 14.—Sweetwater, like all western cities, has been accustomed to Paris styles for years. But now it claims to be the only one in the southwest to have a counterpart of Victor Hugo's hunchback of Notre Dame. The First Christian church here takes the place of the age-old French cathedral, and Carl Foster, who gives Gullies as his home, is the man who has been making the church steepie his abode for four days and nights.

Foster's capture by the Rev. Irye L. Townsend, pastor and world war veteran, with the aid of the police, once more brought peace to the minds of frightened women of this city. Foster, confessed burglar and escaped prisoner, had been making nightly forages over the city since his escape from the county jail, had robbed homes and twice successfully dodged a fusillade of shots from policemen who saw him and gave chase in fruitless endeavors to capture him.

Foster, in jail here on a burglary charge, made his escape last Thursday night, with the aid of a trusty. He then went to the home of Judge V. W. Beall, where he stole \$43, a watch, and clothing, and ate supper from the ice box. Thirty minutes later he was nearly caught by an unsuspecting policeman, who found him loitering about a car and inquired what he was doing. He ran, evaded shots and escaped capture. He was seen by another officer the next night and again made his escape amid a volley of pistol shots.

Monday afternoon, Mrs. P. M. Northern, janitress of the church, thought she heard a noise upstairs. She investigated and in a small room leading to the bell tower she found a lighted stove, cigarette stubs and a partly empty bottle of wine. She was so frightened she locked herself in another room of the church until the Missionary Society met, when she informed the women of her discovery.

The women informed the pastor, Mr. Townsend. Armed with a pistol, Townsend, with C. L. Reid, a member of the church board, went up into the cupola and found Foster. Officers were called and he scrambled down from his hiding place. He was searched and a \$20 bill and a wrist watch, part of the loot from the Beall home, recovered.

At the county jail, Foster was asked why he had not left town. He said he was afraid all the roads were blocked and that he could not get away.

Many Interested
In Deep Plowing

(Terry County Herald.) Roy Davis, county agent, along with J. L. Cline, called by Tuesday morning for the writer, and carried us out a mile west of the city where a deep plowing test is under way. After the test was made in Gaines county last year, and it was found that it not only stopped sand blowing and having to replant two or three times, but increased the yield two fold, the idea at once became very popular with our progressive farmers, for they could see an increase of 50 per cent in the value of their property for sale purposes. The Herald has been persistently advocating breaking of land also and turning up the clay since we have been a resident of the county and were informed that our subsoil was more of a real soil than just mere clay.

The plot of land undergoing the deep plowing test is in the Arthur Sawyer field on the main highway, and will be 10 acres in extent. The small city tractor they were using Tuesday morning was entirely too small for the big Avery brush plow which was cutting some 15 inches and going to a depth, rule measure, of 14 inches. So, Wednesday morning, one of the big county tractors was put on and the plow sucked two inches deeper.

The local chamber of commerce, the county commissioners and others invited the commissioners of both Dawson and Gaines counties as well as some interested parties from Lubbock to be their guests Wednesday for the demonstration. A luncheon was served the guests at the noon hour.

Roy Davis, county agent, said, "I try not to be too enthusiastic over the proposition, but I can't help believe that it is or will be the salvation of the future farming interests of this section." He admits that he was rather doubtful of the plan until the test in Gaines county last year was brought to a successful conclusion. He is even of the opinion that if the method still runs true to form for the next few years, the large land holders here will not sell their holdings until the farms have been broken to a good depth, unless the buyer would agree to do it himself. For in the first place the land owner would figure that with deep breaking the land would not only not blow away, but would prove so satisfactory with the buyer that he would stay with it and pay for it.

RAISING THE ANTE

A certain national association was holding its convention in Washington and wanted to be photographed on the White House lawn with Mr. Coolidge. That was arranged, and finally the appointed hour came. "Now, Mr. President," said Sanders, the secretary "these people thoroughly understand from me that you are not going to be called on for a speech." "Well," ejaculated the President, "if they didn't understand from what you said, I'll amplify it by saying nothing."—Farm Journal.

The tariff riles the farmer. It goes against his grain.—Dayton Journal.

Doctors Disagree When children are irritable and peevish, grind their teeth, and sleep restlessly, have diarrhea, and disturbances, lack of appetite, and have itching eyes, nose and throats, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children have worms. The fact is that worms, if not removed, will yield, in a great majority of cases, to a few doses of White's Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, for this harmless, old fashioned remedy, you can get at the... H. G. Ramby Drug Store

WANT ADS

WANTED.—A salesman or saleswoman who is absolutely honest, who is industrious, who stands high in his or her community. For such person we have a very attractive proposition, with one of the strongest, old line legal reserve life insurance companies in America. In reply, state age and business connections for past two years. Write General Agent, Box 1194, Lubbock, Texas. 3-7-27

IF YOU want Chinese Elms or any other good kinds of nursery stock that does well in this country send your order to Dalton Nursery, Rt. 2, Plainview, Texas, 11 miles southeast. See J. H. White, 2 miles north of Sudan.

FOR SALE.—Several incubators with capacity from 100 to 350. All in good condition. Weinhold's Commercial Hatchery, Sudan, Texas.

FOR SALE.—1,400 chick capacity brooder, complete, used three months and is now in good condition. Apply at The Sudan News office.

CHINESE ELMs Fruit trees evergreens, shrubbery, roses, etc. Write for price list, or call at the Nursery at 13th and Avenue L, Lubbock. BAKER BROS., J. W. Simmons, Manager, Box 2246

NEW CHINESE ELM, fastest growing tree for New Mexico, Arizona and West Texas. Special price, 3 to 4 foot trees, \$4 per dozen. Five-foot trees 75c each, delivered parcel post. Order from this ad. Write for prices. Other acclimated fruit shade and ornamentals. Also hardy vegetable plants suitable to Western climate. Twenty years in Plainview. PLAINVIEW NURSERY, Box 1027, Plainview, Texas.

FOR THE SICK ROOM

Real necessities are here waiting to brighten some sick-room in Sudan. Pure drugs mean a speedy recovery. Our drugs and preparations are fresh, pure and reliable. Make this your family drug store.

SUDAN DRUG STORE

Nature's First Law

Most always, when you want to buy. The price, it seems, is set too high. But when you try to sell, some day, "Your price is high," you hear them say. No matter what your point of view, The other fellow has his, too. It's up to you to use your head. Not take too serious what is said. The First National Bank gives this advice: Whenever you buy or sell, think twice.
