THE AMERICAN CREED

"I believe in the United States of America and the principles of freedom, justice, equality and humanity upon which it was founded and for which American Patriots have given their lives and fortunes.

"I believe it is my duty towards my country to love it; to support its constitution; to obey its laws; and to defend it against all enemies."

Any erroneous reflection upon the character or reputation of any person, company or corporation which may appear in these columns will be gladly corrected upon its being brought to the attention of the management.

"BOOST OR MOVE."

SEEK DIRECT LINE TO LUBBOCK.

The Sudan Chamber of Commerce is taking steps to lay before the directors of the State Telephone Company a petition from the business interests of Sudan for a direct wire between Sudan and Lubbock.

This is a wise move on the part of the Chamber, and should be seconded and backed up by every business interest in Sudan. The volume of business between Sudan and Lubbock has reached the point where it would seem that a direct wire is an actual necessity, and if secured, will prove a valued addition to our business facilities. It would seem that when the situation here is fully explained to the officials of the company, they should be induced to grant the concession.

BLACK GOLD.

The oil industry in America is a huge thing, yet it had its beginnings in a very small way in Pennsylvania 70 years ago. It was at Titusville on August 25, 1859, that Edward L. Drake sank a well 69 feet and struck oil. That was how the blooming thing got started in this country and now the petroleum production of the nation is perhaps the major item in our wealth. Yet they say that Drake died in the poorhouse. Well, some folks have owned oil stock and done the same thing since.

The death of a Methodist pastor at the age of 95 years to refute the old saying that the good die

THE ROAD ALOFT.

Some 216 cities have now established themselves on the "air map" as aircraft manufacturing or operations centers. Every day planes fly 80,000 miles with passengers, mail and express between these cities, which are linked by 30,000 miles of established airways. Mail planes alone fly 50,000 miles daily across 41 of the 48 states, northward into Canada and south into Mexico, Central and South America. The budding aviation industry is growing so fast that it is difficult to keep track of its progress.

TOO MUCH WORRY.

The latest reformer says people work too hard. They do not, but they worry too much over the work they do. It is the brain strain and not physical exertion that wears them down. Business men who refuse to lose appetite or sleep over reverses, seldom find it necessary to take treatment at sanitoriums.

In Florida, instead of fleeing to the cyclone cellar when a hurricane ambles along, they board up the windows. It is reported that the ostrich when pursued sticks his head in the sand, imagining himself safe.

There's a Wyoming town that has a ball team made up of nine brothers. When mother blows the dinner horn there are nine home runs.

In these days of the benzine buggy everybody is rushing to get somewhere and are just as anxious to get back after they get there.

Always give the other fellow the benefit of the doubt.

SITTING IN JUDGMENT IS A SERIOUS MATTER.

(Williamsport (Pa.) Grit.)

"If the trading in stocks and bonds as now carried on in the ordinary way is immoral, then the church should declare against it."

These are the words of Bishop James Cannon, Jr., whose activities on behalf of federal prohibition have drawn down on his head more or less criticism. They are uttered in defense of the bishop's own operations in the stock market.

With Bishop Cannon and his financial dealings we have no quarrel. Whether or not he plays the stock market is his own business. Those who take him to task for such operations are merely meddlers.

But we can take exception to his implied inference that a declaration by the church would make stock market dealings either right or wrong, depending upon the opinion expressed.

There has been during recent years far too much of an inclination upon the part of certain church leaders to pass judgment upon this, or that, or the other thing then seek to compel others to abide by such judgment usually issued in the name of the church.

This effort on the part of certain religious leaders to regulate the moral, the social, even the business life of the people is doing the church incalculable harm. And it is spreading a spirit of intolerance and bigotry that is certain to arise and plague our nation at some later day.

Stock market gambling, along with a lot of other things we Americans do, is neither definitely right nor definitely wrong just because a ukase of one church says so. Church leaders have no authority to sit in judgment upon our actions.

KIWANIS NOTES

Our Meeting Place.

Boys, we are now up against a hard proposition. Evidently our town is getting too prosperous. Buildings all full. Houses all full. And if we can't find a new luncheon hall, Stomachs All Empty! Can't some of you offer some suggestions?

Our Entertainment.

And another thing—our programs are certainly fine. But what do you think of the Kiwanis Club owning its own piano? The Methodist Church is letting us use their piano now, but wouldn't it be better to own our own?

This Week.

Sam Beecroft and John Cooper sell me that all the good programs haven't been given yet. That this town is full of talent. That this week will be the program of programs. Come out and let's all be the judge as to the merits of the program!

Attendance.

Our attendance this past month was 67 per cent against 49 per cent the month before. How does that look? And I am sure we can make it still better this month. Come on out. How about another Ladies' Night?

Tuesday at 12:15.

F. E. MILLER, Sec.

THEY "LIVE AT HOME AND BOARD AT THE SAME PLACE"

In a drive through Lamb county, Sunday, the News force had the pleasure of a visit to the home of Mr. and Mrs. W. M. Jiant, situated 10 miles southwest of Sudan.

Mr. Jiant is one farmer of the old school who has made good in Lamb county. There are no tractors on his farm, no motor trucks, but plenty of up-to-date farm machinery. However, all these machines are propelled by husky mules; and here we will state that in his barn lot we saw some as fine specimens of the long-eared hybrids as can be found this side of—or even in—Missouri, the famed home of the mule. Mr. Jiant says his mules fill the place of the tractor with perfect satisfaction, to him at least, as they never break down, run out of fuel or stick in the mud.

On this farm of two labores we saw much very fine feed and cotton, beautiful milch cows, and we mustn't fail to mention his splendid hogs, of which he is fattening six fine specimens. He has 25 or 30 young shoats which he is running on a sudan grass pasture, on which they are thriving as well as though on clover.

But this farm is not entirely devoted to field crops and the larger livestock. Noting some very fine fowls, we inquired about them. "You'll have to ask the old lady about them," replied Mr. Jiant, so we did. Mrs. Jiant has between 400 and 500 beautiful white Leghorn pullets, many of them coming into laying, and says she hopes to increase her flock to 1000 next season.

And sharing equally with the poultry in Mrs. Jiant's affections is her garden, of which she is justly proud, for from the time the first "garden sass" arrives in the spring from that time on there is always an abundance of fruits and vegetables of every description. Truly it can be said of this estimable family that they "live at home and board at the same place."

Incidentally, the News family feasted Sunday evening on a luscious 50-pound watermelon from this same garden, which these kindly friends placed in our car.

The Jiant family are typical of many others in Lamb county, and as opportunity offers, The News hopes to present to its readers a review of some of them, showing to the world what can be done in Lamb county, the garden spot of the Plains.

STOLEN TOBACCO FOUND IN FIELD NEAR MULESHOE

The sheriff's department found about \$50.00 worth of stolen tobacco in a wheat field west of town Monday. Three young men were arrested charged with the theft, and are now being held in the county jail for further investigation. The goods were stolen from a traveling man's car at Clovis several days ago, it is said—Muleshoe Journal.

WRONG SIDE OF THE LEDGER

A minister consented to preach during his vacation in the country at an Episcopal church. When he arrived at the church on Sunday morning, the sexton welcomed him and said: "Do you wish to wear a surplice, sir?" "Why, man," replied the minister "I am a Methodist. What do I know about surplices? All I know about is deficits."—The New Outlook.

An old-fashioned marriage is one that lasts at least until they get to Niagara Falls.—Judge.

Honest Values

that assure DEPENDABLE TRANSPORTATION!

The Chevrolet Red "O.K. That Counts" Tag Protects Your Used Car Purchase.

Every reconditioned car we offer for sale is identified by means of the Chevrolet red "O.K. that Counts" tag. This tag is the purchaser's assurance that the car to which it is attached has been gone over carefully by expert mechanics—that it has been thoroughly reconditioned—and that the price is based on the car's actual ability to render service.

Due to the overwhelming popularity of the new Chevrolet Six, we have on hand at this time an unusually large group of these "O.K.'d" cars. Come in! You are certain to find the car you want—at a price that will save you money. Make a small down payment and drive your car away!

TOWN AND COUNTY

Thursday, Oct. 3.

Miss Mattie Ruth Kyser, who has been visiting her sister, Mrs. Dudley Kent, returned to her home in Bula, Thursday.

Mrs. T. A. Askew, Lucile Askew, A. B. Askew, Muri Askew, Mrs. Charley Whitwell, Waurina Whitwell and Bill Whitwell attended the Fair at Lubbock Wednesday of last week. While there they visited with Mrs. J. R. Stratton.

Wanda Potts, Pauline Dent, Ann King, Vanda Young, Veda Young, Nina Coanougher, Jimmie Carpenter, Lenora Payne, Ernest Williamson, H. B. King, Jack Lenderman, Paul Gene King, and Charley Vereen were among the large number who attended the Fair at Lubbock Wednesday.

The B. Y. P. U. has been organized at the grammar school building and is now ready for work. Everyone is cordially invited to attend on each Sunday evening at 7:30. From the very smallest to the very largest, there is a place for you. Let your face be seen Sunday evening.

Mr. R. E. Duckworth and his dairy judging team, Coleman Terrell, Noel Lumpkin, Jack Lenderman and Donald Robertson, attended the Fair at Lubbock Thursday.

Mr. and Mrs. Dudley Kent are the proud parents of a fine nine-pound baby girl, which was born

Thursday, Oct. 3.

Mrs. R. H. Kyzer of Beulah is visiting her daughter, Mrs. Dudley Kent, this week.

The Dramatic Club of Sudan high school met Thursday. They chose the characters for a small one-act play to be given soon on chapel morning. Every one will be cordially invited to see "The Hoot Owl," a very snappy little play, full of fun and laughter. It will be free. The time will be definitely set, soon.

Mr. James Allridge visited in Plainview Saturday.

Cecil Tucker visited friends and relatives in Fairview last weekend. Cecil is attending school in Sudan this year.

Mr. and Mrs. Louis Cox of Plainview visited Mr. and Mrs. F. W. Dent, Sunday.

Mr. and Mrs. Alton Lumpkin were shopping in Lubbock Saturday. While there they attended the Fair.

Martin Shuttlesworth, Donald Robertson, Pauline Dent, Ann King and Lenora Payne motored to Am-

You Get 42c for Cream at the

ROY COWAN, Mgr.

herst Sunday afternoon.

Miss Mattie Ruth Kyser of Bula is visiting her sister, Mrs. Dudley Kent.

Mr. and Mrs. Charley Whitwell, son Bill and daughter Waurina were visiting friends in Anton Sunday.

Elmer Cail and Paul Hauser are visiting in Sudan. They will probably be here for some time. They are from eastern Oklahoma.

Mr. J. M. Carruth and daughters visited Mrs. J. T. Davis at Fairview Sunday.

Lawrence McCrory and Melvin Robertson, Misses Lillie Mae Carruth and Velma Findley attended the Fair at Lubbock Saturday night.

Mrs. W. A. Elmore of Circleback visited Mrs. Dudley Kent recently.

Mr. and Mrs. C. W. Elmore of Muleshoe were in Sudan Saturday. While here they visited Mr. and Mrs. Dudley Kent.

Miss Lucile Jordan visited her home in Lubbock over the weekend. She had as her guest Miss Louise Kirk. They were accompanied home by Miss Jordan's mother.

Mr. E. H. Nichols, who has been transacting business in Limestone county the past six weeks, returned home Monday.

Roy Cowan visited in Lubbock Sunday.

Mr. Lawrence Hicks from Texas Tech was visiting in Sudan Sunday.

Miss Elsie Carpenter and Miss Mildred Hunt, accompanied by Frank Burns and Dan Hodges of Crosbyton, were in Lubbock Monday night.

Miss Rita B. West entertained her friends with a slumber party at her home last Friday night. Those present were Charlsie Vereen, Anna Jewel Shuttlesworth, Leona Slaughter, Marie Walker, Elsie Carpenter and Mildred Hunt. A delightful time was reported by all.

Roy Cowan, manager of the Sudan Produce Co., spent Sunday with his parents, Mr. and Mrs. T. B. Cowan, at Tahoka.

Mrs. J. C. Barron and Mrs. W. N. McNeely and daughter Mary Will, Mr. and Mrs. D. P. Keith and children, Mrs. H. H. Weimhold and children attended the Lubbock Fair Friday.

Mr. and Mrs. Charles Langston and little daughter Martha Jean, left Sunday for Turkey, where they will put on a subscription campaign.

Mr. and Mrs. D. R. Tucker and small son spent Saturday and Sunday in Lubbock visiting old friends. They also attended the Fair.

J. A. Hutto has returned from the sanitarium at Lubbock, greatly improved in health. His many friends are rejoiced to see his face on our streets again, after a serious illness of two or three weeks.

Elbert Jernagin of Sweetwater this week installed in the J. C. Cooper grocery store, an up-to-date meat market. Mr. Jernagin is an experienced meat man, and will give the public efficient service.

Mr. H. W. Galbreath of Amarillo, of the Foxworth-Galbreath Lumber Company, was in Sudan Monday looking after the interests of his company and visiting with friends. Mr. Galbreath is well impressed with conditions in this part of the Plains country, and sees a bright future for Sudan and community.

F. M. Jones, T. M. Young and A. E. Mann, all living south of town, were at the gin in Sudan Tuesday, waiting their turns with cotton to be ginned. The boys all seemed in fine fettle, and when asked by a representative of The News how much cotton they expected to harvest, replied with broad smiles, "From one-third to one-half bale to the acre."

Mr. and Mrs. Vestas Patterson and brother, Glenn Patterson, who spent the week-end in Dawson, Texas, and Dallas, with relatives and friends, returned home Tuesday evening.

FOR SALE—125 M. Johnson yearling White Leghorn Hens. Price \$1.00 each, or \$90.00 per hundred. Mrs. R. E. Luttrell, 7 miles northwest of Sudan.

The woman doesn't always pay and pay. Sometimes she charges and charges.—Arizona Producer.

Few women are color blind, except in the matter of distinguishing red and green color lights.—Florence (Ala.) Herald.

Future archaeologists can trace our development of styles by the migration of the vaccination mark.—Brooklyn Eagle.

FARM NOTES

D. A. ADAM, County Agent

J. E. Hamilton, Anton, who has been doing some breeding work in Milking Shorthorns, purchased this week at Lubbock from Frank Scofield, two more cows, one heifer and a herd bull of the highest quality, and each individual has a high milk record behind it. Mr. Hamilton is anxious to serve this section with better Milking Shorthorns, and invites any interested to visit his place 2-2 miles northwest of Anton and see his cattle.

E. Tomes, Amherst, planted his maize this year with the two-row skip one method, with cow peas in this blank row, and harvesting finds that he has a slightly higher yield and much better quality where he followed this practice than where he followed the conventional thirty-six inch row.

E. C. Cundiff and County Agent D. A. Adam attended the first Guernsey bull sale to be held in the Panhandle at the Tri-State Fair in Amarillo last week. Mr. Cundiff purchased one of the finest Guernsey bulls offered for sale to head his herd. Mr. Cundiff says that good bulls are the cheapest way to get production into one's herd, and substantiates this by buying the one he did at Amarillo.

At this time of the year the county agent has many calls to poultry flocks, to see after various ailments, which can be avoided by following the old rule that one ounce of prevention is better than a pound of cure. For the prevention of colds and roup, and to get poultry in good condition for winter laying, the county agent advises the following procedure: Worm the entire flock, with some good standard wormer, which will do the work, vaccinate with Mixed Bacterin Avain for the prevention of roup, etc., clean up around the premises to get rid of insects such as mites, lice, etc., and put the flock on a good laying ration. During the past few days several requests have been made for a good laying ration which will include the use of home grown feeds and skim milk. The following is one which will do this: 100 lbs. ground grain sorghums, 100 lbs. ground oats, 100 lbs. wheat bran, 100 lbs. wheat middling or shorts, and feeding this with all the skim milk that poultry will clean up. If skim milk is not available, use 100 lbs. bone meal in its place, mixed into above ration. For best laying results, keep this before flock at all times.

A good dairy ration to use is: 60 lbs. ground grain sorghums heads, 20 lbs. bran, 20 lbs. cotton seed meal, 50 lbs. ground alfalfa hay, all mixed and fed in the proportion of 11-2 pounds to each 2-2 pounds milk produced. Where no pasture is available ground hegari or kaffir bundles should be used for roughness. Where the farms have their feed in bundles to mix above rations, it is best, and more utilization will be gotten to de-head bundles and use the heads in the above ration, and use butts for roughness.

Our Neighbors

Levelland

(Hockley County Herald.)

The city election held Monday for the purpose of voting on water and sewerage extension bonds in the sum of \$87,000 carried by a majority of almost four to one.

B. M. Whiteker, manager of the Agricultural department of the West Texas Chamber of Commerce, was here Wednesday and on looking over the situation in this county, wired the office of the Federal Bureau at Fort Worth to send 1500 cotton pickers to this county at once.

With the ginning season just beginning, the four Levelland gins had ginned 1456 bales of cotton up to quitting time last night, Thursday, Oct. 3.

Advices from Lehman today state that storage tanks are being erected at the Continental well on the Slaughter tract and that the pumps will likely be started today.

About 1400 pounds of seed cotton was stolen from Mrs. S. A. Berry, a widow lady living about seven miles east of town Tuesday night. T. R. Childs, a farmer living northeast of town, also lost about 1000 pounds in a similar manner.

Dr. A. M. Chambers, who has been located here for the past eighteen months with offices at the Pool Drug Store, has recently been tendered a Civil Service appointment and notified to report at Fort Duchesne, Utah. He has been assigned to the Uintah and Ouray Indian Agencies.

A young couple whom it is alleged put up at local hotels as man and wife, were arrested Wednesday afternoon by the sheriff's department. After spending the night in jail, they were taken before Justice Graham, and on paying a fine of \$34.50 each, were released.

The Cobleland Community Fair which was held at the school building in that locality Saturday morning of last week, was largely attended and was pronounced a striking illustration of the progress which diversification of farm products has made during the past few years in Hockley county.

Dimmitt.

(Castro County News.)

The Hart school orchestra, recently organized, now has a membership of fourteen, and others are expected to enroll in the near future.

Fire of undetermined origin destroyed the Dimmitt Bakery Wednesday morning at 3:30, and practically all contents of the building. The Kemp-Cone Chevrolet, occupying the brick building adjacent on the north, suffered considerable damage from water and handling of parts and equipment, all of which were removed to the street.

Work has been going on steadily at the city water well. A Kimball-Kroch centrifugal pump of 150-gallon capacity was placed on the well Thursday.

A large number of members of the Vocational Agriculture class left last Saturday morning in the school bus for a visit to the Tri-State Fair at Amarillo.

At the next meeting of the directors of the Chamber of Commerce of Castro county, plans for the formation of a night school for farmers of the county will be taken up.

Abe Nichols, foreman of the brick-laying crew on the new high school building, is confined to his room for several days this week as the result of a fall from the second story of the new structure Tuesday.

The Odd Jobs

Now that Fall is here, there will be plenty of odd jobs to be done about the place.

If you want—

- To paint or redecorate,
- To remodel your house,
- To put on storm sash,
- To have the roof fixed,
- To build a new garage,
- To fix the chimney,
- To lay a new oak floor—

you'll find this yard the best place to get your lumber and other materials.

And remember that we are here to serve your lumber needs with an ample stock.

STANDARD RECIPES

That May Be Used by Women in Food Preservation.

By Ruby Mashburn, County Home Dem. Agent.

Bread and Butter Pickles.

- 25 large cucumbers.
- 12 Onions (white-medium).
- 1-2 cup salt.
- 1 pt. vinegar.
- 2 cups sugar.
- 2 tsp. mustard seed (white).
- 2 tsp. ginger.
- 2 tsp. tumeric powder.

Let unpeeled cucumbers stand in water over night. Then slice cucumbers and onions and place in pan with the salt (no water). Let stand one hour, then rinse off salt, add vinegar, sugar, mustard seed, ginger and tumeric powder. Boil all ingredients until peel turns yellow (about 40 minutes). Pack pickles solid in sterilized jars and allow to stand 10 days before using.

Use small glass jars, 1 pint or 1-2 pint, for pickles.

Sliced Cucumber Relish (Sweet).

- 12 large cucumbers sliced thin.
- 1-2 qts. onions sliced thin.
- 2 tsp. salt.
- 2-1-2 tsp. tumeric.
- 1 red pepper chopped fine, or 1-2 tsp. cayenne.
- 1 qt. vinegar.
- 4 cups sugar.

1 tsp. grated nutmeg, 4 sticks cinnamon 1 inch long.

Sprinkle salt over unpeeled cucumbers and onions and let stand 1 hour. Drain well, place in kettle with sugar, vinegar, spices and bring all to boil, dissolving sugar well, and boil hard until slices glisten, usually about 30 minutes. Count from boiling point. Seal in sterilized jars. Use 1-2 or 1 pint containers for this relish.

Mustard Pickles.

- Vegetables.
- 1 pint whole small cucumbers.
- 1 pint sliced cucumbers.
- 1 pint small whole onions.
- 1 cup string beans.
- 3 green sweet peppers.
- 3 red sweet peppers.
- 1 pint green fig tomatoes or 1 pint coufliflower.

Dressing

- 1 quart vinegar.
- 4 tablespoons flour.
- 1 cup sugar.
- 3 teaspoons powdered mustard.
- 1-2 teaspoon tumeric.
- 1 tablespoon celery seed.

Cut all vegetables before measuring—tomatoes into halves, cucumbers into slices, string beans into 1-1-2 inch lengths, diagonally or on the bias, and chop peppers. All vegetables should be tender, and the whole cucumber not longer than 2-1-2 inches. Put all vegetables into brine over night, then freshen in clear water for 2 hours.

Let these vegetables stand in liquor of one-half vinegar and one-half water for 15 minutes, then scald in same liquid.

Green Tomato Pickles.

- 1 pk. green tomatoes, sliced thin.
- 4 onions sliced thin.
- 1 cup salt.
- 1-2 ounce cloves.
- 1-2 ounce allspice berries.
- 1-2 ounce peppercorns.
- 1-2 cup brown mustard seed.
- 1 pound brown sugar.
- 4 green peppers finely chopped.
- Cider vinegar.

Sprinkle alternate layers of tomatoes and onions with salt, and let stand over night. In the morning drain, and put in enamel-lined preserving kettle, adding remaining ingredients, and enough vinegar to cover all. Heat gradually to boiling point and boil one-half hour. Pour while hot into sterilized glass jars, using small containers, as pint or 1-2 pint glasses.

SORE GUMS—Pyorrhea

Heal your gums and save your teeth. It's simple. Just get a bottle of Leta's Pyorrhea Remedy and follow directions. Don't delay; do it now. Leta's is always guaranteed. H. G. Ramby Drug Store.

More Than 1,200,000 Chevrolet 6's This Year

DETROIT, Oct. 7.—The Chevrolet Motor Company announced here today that more than 1,200,000 of the new six cylinder Chevrolet cars have been placed on the road since the first of the year.

This achievement accomplished in little over nine months, is three times the best showing of any manufacturer of six cylinder cars in a calendar year and tops Chevrolet's record total for the entire year of 1928.

It is now certain that six cylinder production will set a world record this year, surpassing for the first time in the history of the industry the output of four cylinder cars. This leadership of the sixes will come about chiefly because of Chevrolet's record showing this year.

Chevrolet factory officials declare that the dominating reason back of the leadership of the six is the public preference for the advantages which this type of construction affords. They point out too that the influence of great volume production, which has enabled the industry to get six cylinder prices down to the lowest on record has made it possible for Chevrolet through maximum volume to offer six cylinder performance at a price that formerly brought only a four.

With a new yearly record already assured, Chevrolet factories are continuing on the biggest Fall production program ever undertaken by the company. Nine assembly plants and seven large manufacturing plants are facing the busiest final quarter that Chevrolet has ever known.

The Fall factory program was made necessary, it was explained, to bring production up to the level of the demand and make possible quicker deliveries to owners.

THE COW AND HER KINGDOM.

(By Malcolm R. Patterson, ex-Governor of Tennessee, in The Cattleman's Magazine)

The cow is an uncrowned queen without a scepter, and her kingdom is all the land between the seas. Her motto is service, and she always gives more than she receives. When the children are well she makes them better, and they grow and flourish with her constant benefactions. When they are sick and wasted, she raises them up and starts them right again. Her milk is the one perfect food for young and old. It holds every element to sustain and strengthen life. The cow works for all humanity without a complaint, and was never known to strike for higher wages. All she wants in exchange for the myriad blessings that she confers is enough to eat and a place to lie down at night. The cow is a lady among all the four-footed creatures, a lady that doesn't need fine clothes or powder or a lip stick to set off her infinite charms. She is a thorough democrat in her habits and opinions. She gives to men and women and children of all races and creeds, is kind to all, and favors none above the rest. She is dainty, too, in her tastes. She would rather die before she would feed on flesh. Her feed is the clover, and the grain and succulent things of the vegetable world, the grass with which God carpets the earth in living green as it springs fresh from the heart of nature.

The cow is domestic. She loves home. She knows the place where she lives, and is faithful to it.

If she must wander away for feed when the shadows begin to lengthen in the evening, she will be standing at the gate asking for admission and the chance to yield her rich burden which she has stored in daylight hours. The cow is the poor man's chief reliance, his tried and trusted friend. She is true to him when all the world is cold. The cow does not seek strange society or run after the rich, as some of her two-legged sisters do. That is not her ambition. She has higher and different conceptions of life.

Her concern is to help all humanity, and the man who lives in a cabin with seven tow-headed poverty, is as much the recipient of her bounty as the rich man with three automobiles, two dogs and four servants, without one child to disturb his sleep or bring a smile of joy to his starving soul. I believe that a cow loves a poor man best, for he needs her most.

If all the cows in the world should die or dry up tomorrow, it would bring untold calamity upon mankind. We could get along better without railroads, the banks of the cotton crop, for the cow's milk is the life of the world.

and finally perish. May we honor and praise her as she deserves. I hope that as we advance in knowledge, when we cease to be cruel and selfish, we will quit murdering and eating cows that have given us strength and comfort and saved our babies' lives. When this happy day comes, I should like to see a large fund collected to build an "Old Cow's Home," surrounded by luscious pastures and running water where these old and tried friends could pass their remaining days and die in peace.

In the fullness of age and the thought of duty well done, as they bow their knees in reverence for the last time, and settle down for the last repose, may they pass easily and naturally into a better and fairer land, where the grass is forever green, and neither flies nor tiger man can molest them or make them afraid.

ECHOES FROM SCHOOL PLATEAU

The Office.

The office reports 674 pupils in school at the opening of Tuesday morning of this week, running far above last year's enrollment at this time. The truck loads are now this week due to perfect cotton picking weather. The load of Tuesday was exactly 30 per cent light.

Due to opinion of school board that they are not responsible for putting sick or injured children home from school, and the fact that over 3,000 miles was driven last year without any pay for car expenses, the custom of taking children home when sick or injured has been discontinued for the present. This will remain in force until further arrangements have been made for caring for this feature of work.

J. C. Dykes, from Texas A. & M. College, and Roy E. Box, vocational teacher of Littlefield high school, were visitors in the office this week. Mr. Dykes came as an inspector. Mr. Box, being a former pupil of Mr. Wilkins, came to visit him. The report of Mr. Dykes will be made officially to the school board; therefore we had no opinion from them.

Beginning next Monday, October 14, the school will have only 30 minutes intermission at noon. This plan will continue indefinitely, but will surely last until farm children finish assisting in harvesting crops. By this means children will have some time to assist in crops after they get home in the afternoon. This will not detract from any lesson work, but will merely take off playtime. All children living too far from school to go home and get back in 30 minutes, will be expected to carry their lunches to school.

Senior Class.

This class has enrolled a new member this week, Calvin Harvey of Oklahoma, whose parents are moving to Sudan in the near future.

Senior rings have been ordered and will be here by the last of this month. They have also placed their orders for Commencement invitations, etc. This is beginning to make them feel that they are really seniors.

Junior Class.

Last Wednesday a group of junior girls, chaperoned by Mrs. Hunt, motored over to Lubbock for the Fair. All report a splendid outing, and a great deal of pleasure.

Donald Robertson and Noel Lumpkin, two junior boys, are absent from school this week, attending the National Dairy Show at St. Louis. These boys are two of a team that represents Texas at this show. We are hoping they win

other honors for their school and state.

The juniors have ordered their class pins this week, and expect to be wearing them early in November.

Charlie Vereen, a member of the junior class, was absent from school last week due to illness.

Sophomore Class.

If we sophomores have done any special work this year it has been in first year Spanish, where we work together with a few juniors. Our girls are now studying vegetables in our home economics classes, learning to prepare and serve them. With our vegetables we are learning how to make good muffins to eat with them.

Freshman Class.

We had our new pupil this week, Marjorie Alderson, from Stamford. Her father is opening a new dry goods establishment in Sudan, and she has come here to make this her home, too.

The freshmen are well-represented on the football team. Their men there are Nolan and Arnold Nuttall, Douglass Herren, J. W. Weldon, O. B. Workman, Arnold Long and Charlie Carruth.

Most all the freshmen attended the Lubbock Fair last week, and all report both pleasure and profit by it.

Nearly half of our class are absent this week in the cotton fields.

Grammar School.

Here, as usually happens in this school, is the big increase in enrollment. We have already reached our 500 mark. We expect to go to 600, but wonder where they can be placed when that number of pupils enroll in this school.

Most of our injured pupils are getting back in shape for work again.

We have one teacher on the sick list at present, Mrs. Jewell Griffiths, who has missed several days from school. Mrs. Peachey is working in her place in her absence.

We are getting most of our books in now, except our seventh grade arithmetics. Mr. Herron teaches that subject and we feel that we are doing well, even without the books.

We want to thank Mr. Wilkins for some very nice dictionaries ordered for each section of the sixth and seventh grades. They are a great deal of help to us. The primary pupils, too, are thankful to Mr. Wilkins for records ordered for their phonograph. Last winter Mrs. Wilkins furnished every record we used. Since she is not in school this year it left us very much handicapped.

The Pep Squad.

This club is busy learning new yells and in perfecting the old ones. We hope to be able to help the football boys beat Olton one week from Friday. By that time we all expect to have our jackets and caps.

We shall not attend the game Friday at Tahoka as it is too far to make the trip in an afternoon, but we shall be thoroughly ready for Olton. The Sudan Band has stated that they will help us against Olton and other teams that play here in the future. If we just had a grandstand and athletic park as other schools and towns have, we should feel so much encouraged. If we had that, maybe our friends in town would attend the games too. We girls worked hard last Friday for one and one-half hours in town trying to sell tickets to help the boys make their expenses. We sold ten tickets at 25c each, bringing in \$2.50 to add to the revenue of the boys. We feel that our boys deserve better backing. It is true that they are light, averaging only 138 pounds to the man, and that they are also possibly the youngest team on the Plains, but do they not need even more encouragement when at their age and strength, they undertake to uphold the dignity and name of the town against men who average several years older, and from 20 to 45 pounds larger to the man?

We do not mean this as a condemnation of our dandy little town, and we do feel that the citizens in town back us to a higher degree than our friends out in the country, but, we hope to make you realize what it means to us to have support, confidence and backing from our home folks.

Home Economics News Letter.

Last week, we had practice in the art of making cakes. We made two, one angel food cake and one sponge cake, which we offered for sale at the football game, and they went like they were GOOD. We are planning to sell cakes again and make money to furnish our department with some of the smaller and cheaper essentials. We hope to sell great lots of cookies, too.

The Home Economics Club will meet at the eighth period next Tuesday. We thank any and all visitors, who would like to attend these meetings, to be present, and invite you by this letter to come. One of our girls, Nannie Dell Burrow, has announced officially to Mr. Talbot that he is going to change her name. We do not know why, but suspect it is only because three names make it too long.

Dramatic Club.

This club is being sponsored by Miss Jordan. It and the Music Department of the school will put on, next Monday, the first chapel program of the year. We want everyone to attend this program and see if it is not better than any that may come after it. Our club expects to promote several other programs in chapel throughout the year, but we want our parents and friends to see this one. This is the first club of its kind ever to be organized in the Sudan high school. At present its membership is about 40. Its officers are as follows: Lucille Askew, president; Mildred Hunt, vice-president; Ora Preston, secretary-treasurer; Nannie Lee, reporter.

Debating Club.

This is our first debating club in the local school. Miss Creighton is its sponsor. The club was organized Tuesday night of this week. We hope to develop in this club some talent that will enable us to win county honors on the inter-scholastic league.

Its officers are: Martin Shuttlesworth, president; R. J. Purcell, vice-president; Nannie Lee, secretary-treasurer. No reporter was elected, but this matter will be attended to at the next meeting.

Recital.

Miss Jordan will present her class in a recital in costume at the high school auditorium Friday night of next week, October 18. A two-act play, The Hoot Owl, will be presented at that time. The public is invited to attend without admission fee. We promise you plenty of fun and entertainment.

Teachers' Institute.

The next session of the Lamb County Teachers' Institute will be with our school Friday and Saturday, December 6 and 7. A full program will be announced in due time. Suffice it to state here that it is hoped to have Dr. Pierle in a moving picture production showing effects of pathological conditions of the teeth. Dr. P. W. Horn of Tech College is also expected then. In addition to these men it is planned to have two or three other strong educators present.

Football.

Well, we showed Spring Lake last week that we had some "come-back" to us. At a former meeting this year they had beaten us 20-0. Last Friday they did well to make a 6-6 tie, making their score in the last half. Our little men are working hard under our little coach, Jas. Aldredge, and bid fair to have the makings of a real team yet.

This week we go over to Tahoka and undertake to beat that team on its home grounds. The best Littlefield could do with them at the Lubbock Fair was to lead them 13-0. We hope to do better.

High Quality Electrical Equipment For the Home

Electric Cookers—electric heaters—heating pads—electric whippers—vacuum cleaners—washing machines—toasters—waffle irons—innnumerable other objects, all designed to save time and trouble and produce a maximum of efficient work at a minimum of cost.

Standing at the Crossroads 50 Years Hence.

Stand at a crossroad some week-end, see the families go speeding by—away to the big city. Then learn a lesson. If you have vision, or in you flows the least drop of the blood of the prophets you will know that you are witnessing part of one small scene in a great tragedy, namely—the passing of the small town in America. You may personalize the action, if you wish. The crossroads at which you stand is Sudan fifty years hence. Deserted! Every home gone, every business house, every mark of the town as it stands today—gone! Town property again farm land. Streets plowed up. Your investment here gone—all gone.

Don't say this is a pessimistic or cynical thought. It will happen right here in Sudan, and will happen in other small towns, unless the citizens of this community and all such communities, learn the true meaning of loyal home-town support. Every thinking person knows our town survives, prospers and grows in proportion to the support its business institutions receive. Buying in the big city is suicide for your home town. You undermine your own investment here. Local business houses have just as good merchandise—prices are just as low—and they are here every day to make good on every sale or transaction.

Now we leave you to your own imagination. When you pass the next crossroad, en route to the city for a car, for repairs or accessories, think of that crossroad as your town at no distant date—so wiped out, partly through your present disloyalty.

Hutto Chevrolet Co. a Lamb County Institution

The Hutto Chevrolet Company is an established business of Lamb county. Every member of the concern earns his living and spends his money in this community. Every dollar earned by this institution and every dollar earned by its employes goes to swell the volume of business of this community. When you spend a dollar here you know it STAYS IN THE COMMUNITY, to be circulated and kept in circulation here. But when your dollar is spent with some transient concern, that is here today and gone tomorrow, you don't know where it goes—but you do know it has left THIS community.

The Hutto Chevrolet Company, since its founding three years ago, has moved consistently toward the point where it would be prepared to meet EVERY need of the motorist. Month by month and year by year its expansion has been gradual but steady. Machinery and appliances have been added as the needs developed, until now the company feels it is in position to meet the motor needs of Lamb and adjoining counties with perfect confidence in its ability to render efficient service.

Hutto Chevrolet Company has two plants in Sudan, which are listed below, together with the personnel of each, and the lines of service rendered by each.
