SUDAN, LAMB COUNTY, TEXAS, THURSDAY, MARCH 20, 1930

NUMBER 36

Sudan Yard and Garden Contest Interests Our People

People of City Will Enter Beautification Program Enthusiastically

Is Present Report.

The purpose of this contest is to improve and beautify our home grounds through the planting of trees, vines, shrubs and flowers so that living will be more enjoyable and our property values will increase.

Each yard to be inspected by the judging committee three times. No entry fee. Contest to end October 1st, 1930.

Class 1. I agree to hire only manual labor in improving my home grounds, outside of help from members of my immediate family.

Class 2. I agree that all work of improving my home grounds will be done by myself or members of my immediate family.

Suggested Prizes

Class 1. First prize, \$15.00.
Class 2. First prize, \$15.00.

Numerous other prizes in each class (donated by hardware and implement merchants).

Entries to be judged on the following basis:

- I. Attractiveness.
 1. General impressions.
 2. Details.
 - Lawn (5) planting of trees, shrubs, vines and flowers (5) Features (5).
- II. Livability.
 1. Protection from sun, wind and dust
 2. Facilities for rest, re-planting
 3. Practicability as to acreation, etc.
 4. Improvements and improvements.
- III. Condition, maintenance, range (in regard to care, work, etc.)

Class 1. New trees, shrubs, flowers, and vines

Class 2. Lawn

Class 3. Selection of plants

Class 4. Permanence of planting

Class 5. Unpleasantly features eliminated

Total score

The above plans, as outlined by those in charge of the campaign, speak for themselves, but The News would like to enlarge on the objectives and call the attention of the citizens of Sudan to a few points which it deems important

"DRY ICE" WELLS IN COLORADO OIL FIELDS

SALT LAKE CITY, March 15.—Dry ice wells capable of producing a trainload of ice a day are the oil fields' latest freaks.

Instead of fuel gas these wells produce carbon dioxide, the substance from which dry ice is made. The gas is compressed until it becomes a white solid at 109 degrees below zero.

In the oil fields nature supplies carbon dioxide already compressed.

The discovery was made by the Continental Oil Company in Colorado and reported to the American Institute of Mining and Metallurgical Engineers by Prof. F. E. Hintze of the University of Utah's geology department.

"In North Park, Jackson county," he reports, "oil has been produced on a small scale along with a large volume of gas that is chiefly carbon dioxide. This gas expands when it comes from the well and produces such low temperatures that the oil is frozen and appears as a snow.

"It is recovered when the temperature rises and the frozen carbon dioxide evaporates. If contaminated tests of the refrigerating properties are successful, the wells are sufficiently large to produce a trainload of dry ice per day."

NOTICE OF ELECTION FOR MAYOR AND COMMISSION

By order of the Mayor and Commission of the City of Sudan, Texas, notice is hereby given that an election will be held in the City Hall on first Tuesday in April, 1930, for the purpose of electing a Mayor and two Commissioners.

F. E. Miller is hereby appointed Election Manager of said election.

F. Z. PAYNE, Secretary.

COME BACK AND GET THE BALANCE OF THEM

Mrs. W. F. Lynch wishes The News to give a message to the unknown parties who took some turkeys from her poultry yard one night last week. Mrs. Lynch says these parties must have made a mistake because they took her gobblers. Now the hens are restless and missing Tom, so she invites the gentleman or gentlemen to come and get the others so the family can be united and happy.

in connection with this move. The average householder these days has a keen eye for harmony and beauty. The day is past when only matters of utility had weight. In days past, when life was a battle for sustenance, perhaps harmony and beauty of surroundings were often lost sight of. But in this advanced age, when men and women have the time and means to indulge their desire for these phases of life, ugliness and squalor have no place in our scheme of life.

The city beautiful is the attractive city, the desirable city. It is the place where men and women of culture and discrimination wish to locate, and establish permanent homes. And this is the class of people which Sudan is anxious to secure as citizens. Sudan already is peopled by a class of citizenship having the desire to create permanent and attractive habitations. Her development has been wonderful. Perhaps, as we have said, in the past the exigencies of life in a new country have served to distract their attention from the more aesthetic side, but that time is now past, and her citizens are awake to the fact that mere material affairs are not all of life.

Many Sudan citizens, even under the handicap of a scarcity of water, have beautified their premises greatly. But now that this handicap is removed, and our city has an abundant supply of water, this development should be largely increased and our little city should be made to literally "blossom as the rose."

This can be done—it will be done. Those of our citizens who have the permanent good of Sudan at heart are behind the move, and we are convinced the people generally will gladly cooperate.

Let's make Sudan the City Beautiful of the Plains. It will be easy, once started.

Sudan's Annual Spring Clean-up Campaign is due to start, and the move of the City Beautiful backers is timely and appropriate at this time. Let's all get behind the movement and push it to success.

WHOLE COMMUNITY A DAY OFF IN TIME

GRAND JUNCTION, Colorado, March 15.—Coates Creek, a little village 40 miles south of here, has been off its calendar, and nobody seems to know how long the situation has existed.

Roy King, a resident of Coates Creek, came to Grand Junction the other day and discovered that it was Thursday all over the world while it was believed to be Wednesday in Coates Creek.

Unable to believe that his village could be a day off in its calculation, King bet 50 cents he was being kidded, was convinced of his error and lost his bet.

Before he went back to Coates Creek he said his fellow residents had celebrated Christmas and New Year's a day late.

The Monday previous, he said, the school house was closed because everybody in the little community was observing Sunday.

HOME DEMONSTRATION NOTES

All Home Demonstration Club women who are going to enter the yard or garden contest should see that their names and addresses are in the home demonstration agent's office by March 31st. The names must be here so the judges may begin the scoring. Let's have one or more contestants in each of these contests from each club.

Mr. R. R. Reppert, Extension Entomologist, from College Station, will be in Amherst to discuss "Garden Insect Control" March 22nd, at 2 o'clock. He will speak at Amherst school house. The lecture will be illustrated by chalk drawings. All women are invited to hear him.

RUBY MASHBURN, Home Demonstration Agent.

OLD FASHIONED BOX SUPPER AT FRIENDSHIP

There will be given an old-fashioned box supper at Friendship church on Tuesday night, March 25. Proceeds of this supper will be applied on upkeep of the church building.

The people of Friendship community extend a cordial invitation to all people to attend this supper, and Ed Ray says the candidates especially are invited, and adds the hint that if they know their best interests they'd better show up.

PLAN FOR WEST TEXAS C. OF C. CONVENTION

STAMFORD, Texas, March 15.—Work of arranging details of the program of the twelfth annual convention of the West Texas Chamber of Commerce, to be held in Abilene May 29 to 31, will be started March 17, when W. B. Hamilton, Wichita Falls, president of the regional organization; D. A. Bandeen, Stamford, general manager, and J. E. T. Peters, Cisco, recently appointed convention manager of the body, will hold a conference in Abilene with the convention committee of the chamber of commerce of that city.

Following the Abilene meeting, a complete program for the convention will be announced, Mr. Bandeen says. Several new features will be included on the three-day program, and he adds a special effort will be made to make the business sessions of the convention interesting to the general public.

OUR COUNTRY'S OFFICIAL FLOWER

Somebody in this country can always manage to spoil things for his 199,999,999 brethren. Here, after the nation has spent months working itself into a fever over the selection of a national flower—and after the great majority have happily settled on the wild rose—some impertinent person rises to inquire, "Which wild rose?"

Rushing to consult horticultural authorities, the ordinary citizen is confronted by a regular army of wild roses. Did he vote for the sweetbriar, the scented eglantine, the dog rose or the damask? It is safe to say that he doesn't know and that it probably would have made little difference if he had. Maybe it shouldn't make any difference now, but it undoubtedly will. What a lot of muddy water one inquiring mind can stir up in the clear pools of contentment!—Southwest Plainsman.

MORE PRIZES FOR 4-H BOYS AND GIRLS

CHICAGO, Ill.—A week's visit to the agricultural capital of the world, its premier livestock show and the Ninth National Boys and Girls' 4-H Club Congress in December will be the reward received by the champion live stock club members in 14 middle west, northwestern and southern states, according to a report from the national committee of Boys and Girls' Club Work.

Winners of these awards will be selected from club members enrolled in the baby beef, swine or sheep projects in the various states. The prizes are offered to the boy or girl club member making the most outstanding project record in the state. Previous winners of a trip to the National Club Congress are not eligible to compete in this contest.

States in which club members are eligible to compete for these awards are: Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, Texas, Washington and Wyoming.

NOTICE OF ELECTION FOR COUNTY SCHOOL TRUSTEES

State of Texas,
County of Lamb,
To All Whom This May Concern:
By virtue of authority vested in me by law, I hereby order and notice is hereby given, that there shall be an election held on Saturday, the 5th day of April, A. D., 1930, by the qualified voters of each Commissioner's Precinct in said County, at the voting district in and for each School District in said County, for the purpose of electing one County School Trustee in and for each Commissioner's Precinct and one County School Trustee at large.

SIMON D. HAY,
County Judge, Lamb County, Texas.

NEW MEXICO COUNTY BARS 1928 BOLTERS

CARLSBAD, N. M., Mar. 13.—The Democratic central committee of Eddy county, N. M., at a meeting yesterday unanimously voted to refuse to place on the ticket the name of anyone who did not vote for Al Smith in the last election.

Eddy was the only county in New Mexico to go democratic in the 1928 election.

A DASTROUS FARM FIRE.

E. E. Herring, of the Bethel community, southwest of this city, and who reported the loss of several horses two weeks ago by apparent poisoning, now reports the total loss of his barn and contents Wednesday noon of last week.

It is believed that the structure caught fire from the burning of trash nearby.

Besides the building, recently built, his loss covered 6,000 bushels of feed, 200 bushels of ear corn, one colt, and the injury of several hogs.

No insurance was carried on any of the property at the time.—Dimmitt News.

Some Features of Panhandle-Plains Dairy Show

Attorney General Bobbitt will be one of the distinguished visitors to the Third Annual Texas Panhandle-Plains Dairy Show, April 7-10.

A Dairy Products Short Course will be held on Wednesday, the 9th, at the Chamber of Commerce offices, directed by K. M. Renner of Texas Technological College.

The Amarillo Manufacturers and Jobbers Association will send a special train to the Dairy Show in addition to contributing \$100 in premiums.

Two hundred people will attend from Littlefield with a thirty-piece band.

Floyd county will have two judging teams at the show, one from Lockney directed by D. Turner, and one from Floydada directed by O. T. Williams.

Two new buildings will be ready for the Third Annual Show. One would be the first farm machinery exhibit show on the Plains.

A pure Food Show at the City Auditorium will help entertain the ladies.

Wheeler county will send a large delegation to the show. The Snamrock Chamber of Commerce is sponsoring the trip.

A Dairy Short Course at Lamesa under the supervision of W. W. Evans, county agent, will precede the show at Plainview.

Terry county and Collingsworth county will probably be represented with a county herd this year at the show.

A two-day herd improvement school will be held at Canyon on March 28-29.

Briscoe county will be represented by a number of entries and a large group of farmers, according to W. M. Gourley, vocational agricultural teacher.

Lamb and Castro counties plan a special day at the show.

Swisher county will storm the show one day, and will again capture the majority of the prizes, according to R. C. Nichol, prominent Jersey breeder.

PROBE SUGGESTED OF FEE TO JUDGES

AUSTIN, March 15.—According to Representative G. L. Cox, thousands of dollars are due various counties in Texas from county judges who have collected a fee of \$3 for every criminal case they have dismissed without trial.

"It would be well for legislators to clean up in their home court-houses before inaugurating any more reforms in the capitol, he said.

"I have an opinion from the Attorney General that county judges can not legally retain the \$3 merely for dismissing a case and the county judges might as well be called on to return the money illegally retained. They can save themselves much trouble and possibly serious embarrassment by doing so before action is taken by the state.

"It has been the custom in many counties for judges to permit these cases to rest on the docket for some time, and without doing anything except write 'dismissed' they collect \$3. It is morally wrong as well as legally improper. Action will be taken to compel the repayment of this money, the aggregate of which will be large and which will involve judges who have retired."

VISITING AUTOISTS GIVEN 25 DAYS TAX FREEDOM

AUSTIN, March 15.—Motorists visiting Texas will have twenty-five days to tour the state without being required to purchase a visitor's license. Where a visitor's license is obtained, it gives the purchaser the privilege of remaining in the state 120 days. This was brought about Friday when the house, on motion of Mr. Hubbard, concurred in the senate amendments to his bill which originally provided twenty free days. The house amended it to accord sixty days, the senate reduced it to twenty-five days and there it stands as a law.

The bill accords to commercial vehicles crossing the border the same privileges as given border cars that of five visits a month and not more than five days each. However, cars in border cities, such as Texarkana, can cross the state line at will without incurring fee liability in the second state.

P. T. A. COUNTY COUNCIL To Be Held at Oton, Saturday, March 29, 2:00 p. m.

PROGRAM
Business Session.
Report of State P. T. A. Convention.—Mr. R. E. McCaskell
Home Service Department
—Mrs. Lester LaGrange
The Value of the P. T. A. Council in the County
—Supt. Jackson, Amherst
Address.—Mrs. Griggs, State V.-Pres.
Reading.—Miss Marjorie Walters
Reading.—Mrs. T. A. White.
Dist. Secretary.
Saxophone Quartette.—Misses Mangum, Bartlett, Kennedy, Bell.
Story.—Mrs. S. D. Hay

GAS SERVICE BEGUN AT LITTLEFIELD

Littlefield citizens who had fore-sight to have their homes piped during the past month are now enjoying the pleasures and benefits of gas service, according to H. S. Brown, local manager, who stated that gas was turned into the city mains and service begun last Thursday, March 6.

Nearly 40 connections have already been made to Littlefield homes, and about 65 others made deposit on meters for connections to be made this week.

A service department is to be installed by the West Texas Gas Co. and prompt connections, adjustments and repairs will be made.

Littlefield will also be headquarters for handling the gas service at Anton, Levelland, Amherst and Sudan.—Littlefield Leader.

UNITED STATES DAILY PRINTS MOODY PROTEST

AUSTIN, March 14.—Gov. Dar Moody's vigorous disapproval of the government's plan of cutting down refinery operations to reduce surplus stores of oil and gasoline, has aroused keen interest in Washington, according to indications here.

His letter to Secretary Ray Lyman Wilbur of the Interior Department said a more constructive plan would be for the federal government to discourage importation of millions of barrels of foreign petroleum in duty-free competition with American oil.

His letter was reproduced in full on the front page of "The United States Daily," Washington publication devoted to official government proceedings.

CANARIES SING BASS.

CHICAGO, March 13.—The 200 canaries in Aughan's seed store sang bass today after a rubbish fire in the basement, Battalion Chief Frank Oswald declared in his report. Smoke caused the change in key, the fire chief supposed.

COTTON GROWERS FACE BIG LOSS BY RAISING ANOTHER BIG CROP

Price Sure to be Low Unless Acreage Is Reduced Is Opinion of Leading Authorities.

It has never been the policy of The News to tell our good farmer friends what they should or should not plant, but we believe the following article will be of interest to our farmer readers who have not yet made up their minds to reduce the cotton acreage this spring. We hope it will be read and taken seriously by all our good farmer readers who are now planning their crops for the coming spring. The article follows:

"Cotton farmers of the South-land will invite a loss of one billion dollars through overproduction in 1930 if they plant more than forty million acres of cotton this spring. This loss will be a repetition of the 1926 disaster.

"This prediction was made to about 300 bankers, business men and agriculturists gathered in a conference at Dallas, only a few days ago.

"The forecast, with suggestions for defeating the possibility of its realization through acreage reduction, was voiced by speakers representing the Federal Farm Board, the Federal Reserve Bank and the American Cotton Co-operative Association. In contrast

with the 1929 crop a reduction of at least 6,000,000 acres was urged by every speaker.

"The cotton price problem was asserted to be the chief concern of every cotton farmer in the cotton producing section of the country, since for every dollar of new wealth invested 50 cents must come from the soil, and chiefly from cotton in Texas, where 15,000,000 acres were planted last year.

"Bankers were warned not to lend money for crop production purposes to farmers who were not prepared to raise their own feed and food crops at home as a part of the plan to cut the cotton acreage.

"It was shown by comparative figures that a smaller crop from smaller acreage was more valuable to the farmers in actual cash returns than a large crop on more acres.

"The comparison was made in 1923 and 1925 crop price ranges, the later year's production of 18,000,000 bales selling for less than one billion dollars, involving a loss that year of \$600,000,000, and by virtue of the heavy carry-over of \$400,000,000 on the next year's crop."

ECHOES FROM SCHOOL PLATEAU

The coming week-end will bring some exciting scenes to our little hill. The Lamb County session of the University Interscholastic League will meet on our campus at 9:30 Friday morning opening a two-day session. Look over the pages of the Sudan News of last week and you will find the complete program. All debates and declamations will be held in the Methodist church, beginning at 9:30 Friday. Watch for playground ball, volley ball, tennis for both boys and girls on Friday. All Friday events will be complete on Saturday, events such as spelling, arithmetic, picture memory, etc.

Three schools are planning entry in a school exhibit contest. These schools are Spring Lake, Amherst and Sudan. All events of Friday will be free, but on Saturday there will be an admission fee of 25c for adults and 15c for pupils except contestants. These fees are necessary to pay running expenses of the county meet.

Enrollments continue to grow. On Tuesday of this week the section heaviest load of the year was brought in on the buses when the total load brought in numbered 424 pupils. Approach of Spring makes it necessary that a careful watch be maintained to try to keep up of grammar school building as far as possible for grammar school pupils.

The high school classes feel that they are in a fair way to have a party to report. The seniors have asked permission to place a trophy case in the entrance to the new building. They expect to receive the support of the board in this matter as they will be aiding materially to the appearance of the building and putting no one to extra cost.

The sophomores played their class play in the Garden Theater last Thursday night. They played to a packed house and received much applause for the way they put on their play. Mrs. Wilkins coached the play and Miss Taylor coached the musical part of the program. After all expenses of the play were met the class had funds on hand to spend a little, so they made arrangements for a theatre party on Thursday night of this week. On that occasion every sophomore is expected to be at the Garden Theater at 7:30 in the evening. One other thing the sophomores have done this week is to present Miss Evelyn Taylor, as a evidence of their support and co-sisting of a pin in the form of a harp. The presentation was at a class meeting Monday morning.

Another and last feature of team work evidenced in the school this week is a joint play to pay for an additional encyclopedia by the junior and sophomore classes. The sophomores have completed their part of the payment sending in a check for half the cost of the encyclopedia. This week from the proceeds of their play the juniors will present their play April 17, after which time their payment will be made, paying for the encyclopedia without cost to the school board. The three sets of upper classes are thus making splendid approaches toward putting back into the school many of the features that were lost in January. The only class not participating in this improvement is the freshman and this not due to their unwillingness, but to their inability. The only avenue for money making for any of the classes is the use of the stage of the Garden Theater.

The school is very glad to note that work of building has begun on the new school building. Mr. Newton has this week erected a small building for headquarters for himself while he is doing the plumbing of the construction work. Mr. Newton was the plumber of the former building and knows well what to do in the present instance. Sampson Construction Company is at work. The rubbish of the old building is cleared away now. Forms have been set for completion of the foundation and work is ready as soon as material is delivered.

The high winds of this week with the sand storms have been hard on our school. There is insufficient room for all pupils to be in the buildings at playtime, so it has meant staying out doors regardless of how high the wind is. We are simply looking forward to the day when the winds will cease some of their hard blowing for spring. The snow of Tuesday drove us into the house to huddle together until time for work despite crowded conditions. The low-est temperature of the early portion of the week was Tuesday morning when the thermometer registered 27 degrees Fahrenheit.

The sophomores report a visitor for the last week, another sophomore from Clovis, Miss. Johnnie Margaret Taylor. Miss Taylor is a sister of Miss Evelyn Taylor, one of our faculty, and was visiting her sister and Neal Wilkins. The sophomores of this school claimed her, however, since she is also one of that group. A number of our pupils and teachers attended the Lamb County Singing Convention at Lumm's Chapel last Sunday. All report lots to eat, a great day, and some wonderful singing. This association will meet in Sudan the third Sunday in September. At that time we hope to have our new auditorium ready for occupancy and by means of it hope to be able to seat comfortably 1,000 people.

Mr. G. G. Herren, our grammar school principal was called to Hasbrell to the bedside of his father last week-end, leaving school at noon to hurry home. He reports his father very frail and is uneasy about him.

The ladies of the Baptist church and the girls of the home economics class are going to help in taking care of visitors at the track meet Friday and Saturday. Their aid will be needed and appreciated.

Tuesday of this week the high school teachers met in conference and ordered a collection of new books for our high school use. The seniors report that through special arrangements with Mr. Chesher they expect to present their class play on two successive nights.

Two more weeks after this and the race for class graduation will be almost at an end. Those who are passing then will hardly fall except through carelessness. Those who are failing will have an uphill struggle to bring up their work this year. Let us, seniors, make a strong pull to be in the select circle when the next two weeks roll by.

ROCKY FORD CLUB.

The Rocky Ford Club met with Mrs. H. R. Fisher at 2:00 p. m. The subject discussed was Color Lines in the Home.

Mrs. D. H. Bryant, Mrs. Leber Mixon and Mrs. W. T. Fisher visited the club.

The club will meet March 24 at Mrs. Petermin's. New members are welcomed.

County Council meets first Saturday in each month.

Reporter.

POUND MASTER APPOINTED.

J. M. Durham has been appointed Pound Master, and will take up any horses, mules or cattle of any kind running at large. Owners of stock should take due notice and be care full to not allow their stock at large.

Mr. and Mrs. Ves Terry are spending their vacation in Anadarko, Okla., with their relatives.

THE AMERICAN CREED

"I believe in the United States of America and the principles of freedom, justice, equality and humanity upon which it was founded and for which American Patriots have given their lives and fortunes.
"I believe it is my duty towards my country to love it; to support its constitution; to obey its laws; and to defend it against all enemies."

Any erroneous reflection upon the character or reputation of any person, company or corporation which may appear in these columns will be gladly corrected upon its being brought to the attention of the management.

"BOOST OR MOVE"

WILL FARMERS REDUCE COTTON ACREAGE?

The Federal Farm Board, in its efforts to raise and stabilize the price of cotton, is working under the handicap of over-production. The cotton surplus now is said to be larger than for several years past. With a normal crop in 1930 this surplus will be still further increased.

The board is unanimous in advice to cotton growers that the acreage this year MUST be reduced if the marketing act is to function as intended. Bankers, merchants, cotton factors, all unite in stressing this point. There is too much cotton in the world. The supply must be reduced.

But with all the logical reasoning, all the sane advice, the problem yet remains squarely up to the cotton grower himself. Will he reduce acreage? Or will he reason thus: "If others reduce acreage thus causing a short crop, the price will rise, and this will be my time to cash in on a BIG crop." Here is the "meat in the coconut." Here is the one reason why it seems a superhuman task to secure reduction of acreage. It is a pronounced trait of human nature for any man to take advantage of a situation that promises gain to himself. Nor does he often stop to consider that in so doing he may be going directly against his own best interests. The acquisitive impulse is strong in humanity, particularly in this hard-boiled commercial age when competition is so keen.

But this instinct must be repressed if the present unsatisfactory situation is to be bettered. The News does not presume to offer advice to the cotton grower—simply is endeavoring to stress the advice already given by the Federal Farm Board and to point out to each individual the cold fact that the problem of acreage reduction is squarely up to HIM—not to your neighbor, Mr. Cotton Grower—not up to the farmers of other sections—but squarely up to YOU. Will YOU reduce acreage? Or will you reason as above quoted? If you, and others of your calling, will accept the question as a purely personal one, and let your course be determined as though the price of cotton depended entirely on YOUR individual action, then perhaps the situation may be changed and cotton growing be again among the gainful occupations.

Mr. Cotton Grower, the matter is up to YOU—your individually.

A VITAL ASSET.

A Chicago mail order house with retail stores throughout the country will spend 6 million dollars in local newspaper advertising in 1930, double the amount spent last year.

"We have real confidence in the ability of the local newspaper advertising to bring us a marked increase in sales," says the manager. "Good newspaper advertising used consistently becomes a vital asset to any merchant, either independent or chain."

The merchant who thinks he can get along without advertising might as well take the count to begin with and make room for his progressive neighbors. Just now, while the year is young, is the time for every merchant to hit harder for business. The merchant who uses truthful, consistent advertising will win the race this year.

Fifty million miles of telephone wire stretched all over the United States. Think of it!

Admiral Byrd will soon be back, sighing, no doubt for more poles to conquer.

The festival of Spring is on and the messengers have come to tell us so.

Property values in Sudan are dependent upon community contentment.

Speaking of states, every one likes to live in a state of contentment.

When some people speak their minds they have very little to say.

Words are peculiar things. They seldom fail us when we're angry.

Alexander Legge doesn't have what we'd call a soft job.

About the last subject of any interest to others is yourself.

Easter and Spring are big events of the near future.

Will Mr. Coolidge "choose" to run again in 1932?

People are turning from jazz to "sweet" music.

The trombone player slides his way into fame.

Fussing any over your income tax returns?

The baseball fans are getting restless.

PROGRESS FOR THE SCHOOLS.

(Fort Worth Star-Telegram.)

What may be termed a revolutionary step forward in public school administration in Texas was accomplished Tuesday in Austin when the Senate passed finally the bill changing the term of county school superintendents from two to four years. The effect of such a change is immediately to differentiate the office of county superintendent from the other offices of the county, which are filled each two years. This simple differentiation may have the effect, as is the purpose of the bill, of making the office of county superintendent less "political" than the other county offices. The measure, sponsored by Senator Margie Neal of Panola county, the only woman member of the upper house of the legislature, has been strongly endorsed by organizations and individuals supporting the idea of subordinating political to educational consideration in public school administration.

Two other bills yet to be acted upon make up the reform program which thus achieves the first stage. One of them would similarly extend the terms of office of county school trustees. The third would make it a matter of local referendum whether the county superintendent should be elected or appointed by the county trustees. The first two are in clear sequence to the mandate of the legislature contained in the constitutional amendment adopted in 1928, which directed the legislature to fix the terms of officers of public schools and higher educational institutions at not more than six years. The third is a compromise effort to get around the opposition which has developed in numerous bills proposing to remove county superintendents from the category of elective officers, by invoking the principle of local option. This last bill also is approved by teachers' organizations and others devoted to school improvement.

Observers at Austin consider the chance remote that all three will find enactment in the present session, and even agree that the chance of the Neal bill which was passed by the senate Tuesday is small. This is due entirely to the exigencies of the closing period of a special session, when matters which legislators usually consider of greater moment are calling for attention. But it is certain that they will be revived at the beginning of the next regular session, with prospects good for enactment.

A TIMELY REMINDER.

(Fort Worth Star-Telegram)

The summary made by R. Cantu Lara, the Mexican Consul, of the amazing expansion of communication facilities between his country and Texas comes as a revelation to most of us, going our separate ways, dimly aware of the Rio Grande and the country south of it. It is a picture of highways along which commerce must march to friendly conquest by road, by rail, by air. It is more than that. It is a timely reminder that this is the day when great fortunes are to be built, on both sides of the border, by men with vision who see the possibilities in development.

Mr. Lara has called attention to the missing link in progress—the comparatively sparse settlement on the territory on the Mexican side between the Rio Grande and Monterey. Texas is building up to the river. The Magic Valley is no longer a dream; it has become an agricultural reality. In the wake of its successful irrigation development has come, of course, industry and wealth. Southwest Texas—beyond San Antonio—is rapidly becoming a thickly settled country.

Not all of the development south of the river need come from the Mexican side. Logically, most of it should. Mexico is a rich country, and it can be made a prosperous country. It is certainly the land of opportunity—not for tomorrow, but for today. Road and rail development has already progressed far. Clear-visioned commerce, taking advantage of it, will bridge the gap and join Southwest Texas to Mexico in bonds of mutual advantage.

SURGEONS' BIDS WANTED.

(Mueshoe Journal)

While there can be no reasonable objection to the custom of calling for bids on any contract involving a large amount, the habit many business and professional men have of chasing bids on small quantities of printed matter is sometimes exasperating to printers.

In many cases bids are asked on jobs amounting to only a few dollars, where securing the proposals must cost more in time and trouble than any possible saving would repay.

According to a story now being widely published, one printer got weary of bidding on trivial jobs, and when a surgeon asked for bids on a small quantity of letterheads, and also requested that the type form be left standing, so that he might have the benefit of cheaper rates for future orders, the printer wrote the surgeon this letter:

"Am in the market for bids on one surgical operation for appendicitis. One, two or five men incision—win or without ether—also with or without nurse. If appendix is found to be sound, want quotations to include putting back same and canceling order. If removed, successful bidder is expected to hold incision open for about sixty days as I expect to be in the market for an operation for gall stones at that time and want to save extra cost of cutting."

STAYING AWAY FROM TROUBLE.

(Amarillo Daily News)

Dispatches from Chicago report that while the final steps were taken by which the city government was to get a loan from business men so that it could meet its payroll, a considerable number of high city officials were basking in the warm sunlight of a Florida winter resort, keeping in touch with developments at home by wire.

Now voters are notoriously of short memory. But we have a hunch some of Chicago's citizens—especially those who are on the city payroll, and hence had to wait a couple of months for their money—may remember that when the next election rolls around, those officials who ran off to Florida while their government at home floundered around thru bankruptcy can hardly be sad to have commended themselves to the electorate. It wouldn't be surprising if the electorate should hold it against them.

STILL GOING UP.

(Amarillo Daily News)

And still the casualties due to automobile traffic go up! Figures compiled by the Travelers Insurance Company from 37 states show that approximately 1,000 people were killed by automobiles last year—an increase of more than 11 per cent over the figures for 1928.

"On the basis of last year's total number of motor vehicle deaths," says a bulletin issued by the company, "at least two persons out of each 10,000 of the country's population were killed in such mishaps. Two hundred persons out of each 10,000, or a rate of one out of each 50 persons, were injured, 60 or one 200 being hurt seriously."

These figures speak for themselves. If they fail to stir the country to concerted action it can only be because we are shock-proof.

Will Rogers has added a herd of goats to his California ranch. Well, Will always was a "kiddier."

The Literary Digest is spending another million dollars on a wet and dry poll of the country.

The gold strike in Alaska may be a hot tip but in a temperature of 40 below it is a cold trail.

The question of the hour is what all the radio announcers did before they quit working.

St. Patrick was a gentleman.

We read that things are normal again in China. It seems rather a pity, just when the rest of the world is talking of peace.—Humorist.

Henry Ford says woman's place is in the home. But her refusal to stay there has appreciably increased the demand for Henry's product.—Florence Herald.

Evils tend to cure themselves; and as cars get lower and trucks bigger, it's only a question of time until we can scoot under them.—Akron Beacon-Journal.

A Hungarian's inability to go to sleep for the last fifteen years is blamed on the war. But didn't sexophones come in big about that time, too?—Dallas News.

ONE THIMBLEFUL - A DAY'S FEED FOR ONE CHICK!

THINK OF IT! One tiny thimbleful... all the feed a chick can put in its little crop in one day. On this tiny bit it must live... grow... build bones... build muscles... start feathers. Think of the job feed has to do!

They must depend on feed for so many things! They get them all in Purina Chick Startena (mash) or Purina All-Mash Startena Chow... 12 different ingredients in every thimbleful. Cod-liver oil... dried buttermilk... alfalfa flour... granulated meat... these and eight others are there!

These 12 ingredients... think how carefully they must be mixed to make every thimbleful alike. Purina Startena and All-Mash Startena Chow are mixed over and over again... 960 times just to be thorough! You will find the same care taken with Baby Chick Chow (scratch)... to be fed with Startena until your chicks are six weeks old... and with Purina Growena (mash) and Purina Intermediate Hen Chow (scratch)... to be fed from then on until the pullets are laying at 16 weeks.

How little feed a chick eats... just one thimbleful a day... yet how important it is... how much depends on it... the chick's very life... its growth... what the pullets will do for you next fall and winter when eggs are sure to be worth good money. You can afford to feed only the best... Purina Poultry Chows.

FRIENDSHIP NEWS

Miss Eunice Moore is spending the week-end with Miss Alma Ruth and Miss Ida Rene Crain while here parents are visiting in Abilene.

Mr. and Mrs. Howard Harvel visited friends and relatives near Circleback Sunday.

Mr. and Mrs. L. R. Capps and son Junior spent Sunday with Mr. and Mrs. Martin.

Miss Allene Scogins spent Saturday night with Miss Elenor Ray. Miss Dorothy DeLoach spent Saturday with Misses Hazel and Inza Capps.

Lawrence Hicks, who is attending Tech College, spent the week-end with his parents, Mr. and Mrs. J. S. Hicks.

Mr. and Mrs. E. N. Ray attended the singing convention at Lumm's Chapel Sunday.

Grover Crain spent the week-end with Calvin Harvey.

Mrs. J. S. Hicks had as her guests this week, her sister, Mrs. Blanton Collins of Dallas, and her brother, Ben Wilks, and niece, Stella Faye Wilks of Amarillo.

Mr. and Mrs. Wood Cumby and sons of Jayton visited their daughter, Mrs. Will Gregory, the week-end.

M. B. Sims left Sunday for Levelland, after spending the week with his parents.

Mr. and Mrs. Harvey Groner, Calvin, Lurline, Mattie Ola, Mildred and Norma Ruth attended the play at Circleback Friday night. All reported a splendid time.

Those spending Sunday with Melvin and Allene Scogins were: Eunice Moore, Ethel Alexander, Elta Mae Ray, Alma Ruth and Ida Rene Crain, Billie Lee Bowling, Lonnie Horn and Alvin Webb.

The ladies of Friendship met at the home of Mrs. Will Boyd to discuss a plan to feed the Band boys at the box supper. Refreshments of hot chocolate, coffee, cream and cake were served to the following: Mesdames H. W. Horn, A. Crain, E. Bussey, E. Parmer, J. W. Withrow, E. Thompson, Ira Bussey, H. Roberts, A. J. Hicks, T. J. Stanley, R. Bills, E. N. Ray, W. DeLoach, A. R. Scogins, A. Whiteacker, and the hostess, Mrs. Boyd.

Reporter.

MEETING OF W. M. S.

The W. M. S. met with Mrs. McGahey Monday for Bible Study, with twelve present. You who are not taking this study are missing something really worth while.

Next Monday we meet with Mrs. A. C. Findley for a general program and social hour. All who have a birthday in March, be there. First Monday is business day.

Reporter.

Mr. Gaston Patterson's name comes to The News for announcement as a candidate for County Tax Collector. Mr. Patterson's announcement reached us too late for us to have anything to say as to his fitness for the office, but this will appear next week.

The ideal naval conference would be one in which each nation was allowed to designate the class of ships it wanted everybody to scrap; this would result in total disarmament.—New York Times.

MRS. SUSIE C. ROWE FOR COUNTY SUPERINTENDENT

I take this opportunity of announcing to the voters of Lamb county that I am a candidate for nomination to the office of County School Superintendent of Lamb County, Texas.

I am a native Texan, being born and reared, and having spent my entire life in West Texas, and for the last 20 years have resided on the Plains. From actual experience I understand the life, conditions and problems confronting the citizens of West Texas.

In regard to my qualifications, I have attended Simmons University at Abilene, Texas, have taken work in Texas Technological College at Lubbock, Texas, and hold a permanent First Grade Certificate.

I began teaching in the year 1910, and among my other experiences as a teacher have served as Principal of three rural schools, and have taught seven years in the Littlefield schools. I am familiar with the school laws of Texas, and, from actual experience I am thoroughly familiar with all the work and problems of both the rural schools and the large independent districts of Lamb county. I have given more service to the schools of Lamb county than any other teacher in the county except Prof. H. P. Webb of Olton.

As a reference in regard to my qualifications and ability as a teacher and my understanding of the school problems in general, I would refer all to the School Board and to Professor B. M. Harrison, Superintendent of the Littlefield Independent School District, and to all patrons of said school, who have had children coming under my personal supervision during the seven years of my service in the school.

I wish to say to the voters of this county that on account of my long experience in the schools of West Texas and Lamb county in particular, I believe I can render the citizens of Lamb county better and more efficient services as their County Superintendent than any other person who will ask for election to this office.

If elected to this office, I will discharge all the duties of such office, in such manner as I believe to be for the best interest of the schools and school children of Lamb county.

I wish to thank all voters of the county for a careful consideration of my candidacy for this office, and all support given me for this office will be greatly appreciated.

MRS. SUSIE C. ROWE.

LADIES' BIBLE CLASS.

The ladies of the Church of Christ met at the usual hour Monday afternoon for Bible Study at the home of Mrs. Daniel.

There were seventeen present. We were so glad to have with us nine of the Amherst Ladies' Bible Class. An interesting lesson was discussed. Hope they can meet with us again.

Next Monday we meet with Mrs. Foster. Let every one try to come.

It Costs So Little To Do So Much

Household worries fade away when electricity is put to work. Sweeping, cleaning, laundering, cooking, and scores of other tasks are done easier with electric equipment.

The modern home is finding new uses for electricity each day. The modern home manager has proven to her entire satisfaction that electricity is the most effective service in her employ—and the cheapest.

Texas Utilities Co.

R. E. McCASKILL, Manager. Littlefield, Texas.

TOWN AND COUNTY

Mrs. C. C. Miller and daughter from Los Angeles, Calif., and Mrs. W. W. Shrum from San Angelo are visiting their mother, Mrs. Ollie Lucas.

Mr. and Mrs. Hugh Brewster and little daughter were in Lubbock the first of the week where the latter underwent a throat examination, and it was found necessary to remove the tonsils. They returned home the same day where the child will be treated before the operation can be performed.

Mr. and Mrs. S. D. Hay and two children, accompanied by Mrs. J. P. Robertson are spending a few days in Central Texas. Mr. Robertson is attending to business matters in Kansas City.

Phiefer Ramby, who is engaged in the Federal Tire business at Las Vegas, New Mexico, spent Sunday with his parents, Mr. and Mrs. H. G. Ramby.

Mr. and Mrs. J. P. Earnest and his mother of Lubbock left Thursday for Hot Springs for the benefit of Mr. Earnest's health.

Jack Foust, who is employed with the Maytag people at Plainview, spent Sunday with his wife, who is manager of the Fair Store at this place.

Annie Lynch, who is attending Draughen's Business College at Lubbock, spent the week-end with her parents, Mr. and Mrs. W. F. Lynch.

Mrs. Doak of Snyder, Okla., is visiting Mr. and Mrs. F. M. Farria.

Mr. and Mrs. Copeland and son, Archie, and wife of Memphis are guests of their daughter and sister, Mrs. Porter Earnest and husband.

Mrs. Porter Earnest and Don Broyles were visiting friends in Clovis, N. M., Monday.

The small son of Mr. and Mrs. H. E. Fowler, southwest of town, is recovering from a spell of pneumonia. Mr. and Mrs. Fowler recently moved there from Amherst.

Miss Faye Foote of Lubbock spent the week-end with her parents, Dr. and Mrs. G. A. Foote.

Mr. Tipton, manager of the John Deere Implement Co., has moved his family from Amarillo and they have moved to the property formerly occupied by Mr. and Mrs. Ves Terry.

Mrs. C. J. Poore is confined to her bed, but is somewhat improved at this time.

Mr. and Mrs. Carl Willingham who are both teaching in Lubbock, spent the week end with the latter's parents, Mr. and Mrs. C. C. Willingham and family.

Dr. Foote reports the following births: To Mr. and Mrs. J. J. DeShazo, 4 miles west, a boy on the 5th; to Mr. and Mrs. Forgyson, a girl on the 6th; to Mr. and Mrs. V. C. Weaver, Bula, a girl on the 17th; to Mr. and Mrs. L. L. Lynch, 4 miles north, a boy on the 18th.

Born to Mr. and Mrs. Maurice Small on the 16th, a fine boy. Mrs. Small is in the Lubbock Sanitarium and she and the baby are doing nicely. The baby has been christened George Maurice, and Mr. Small says it resembles its daddy. Poor little fellow!

Mr. A. E. Ketchum, better known as Dad Ketchum, was visiting with friends in Sudan for a short time Tuesday. Mr. Ketchum was in the cafe business in Sudan for a number of years and has many friends here who enjoyed his visit. He returned to his home in Farwell the same day, where he states he is enjoying a nice business.

Mr. and Mrs. Buster Hamilton and Miss Velma Fiedlev and Melvin Robertson were in Lubbock Sunday visiting relatives and friends.

Mrs. Elmer Lloyd and two children of Amherst were in Sudan Tuesday visiting friends.

Mr. and Mrs. Jack Foust were in Lubbock Sunday visiting friends.

The Baptist ladies are to serve plate lunch at Rev. McGahey's home and will have sandwiches on the ground at the tract meet Friday.

Eugene West spent the week-end at Sudan the past week.

Mr. C. A. Wilkins was elected at Spring Lake as Superintendent and Vocational Agriculture teacher. The present superintendent, Mr. Carl G. Clift, is a candidate for County Superintendent of Lamb county.

Several people from Sudan attended the Plateau Singing Convention last Sunday, which was held at Lumm's Chapel. Every person from Sudan reports a good time. The singing was very good.

Miss Johnnie Margaret Taylor of Clovis, New Mexico, spent the past week-end in Sudan with her sister, Miss Evelyn Taylor. Johnnie Margaret visited in the Sudan schools while here. Her visit was enjoyed and all hope she may find it convenient to repeat her visit.

Mr. G. G. Herren was called away last Friday because of the sickness of his father. When Mr. Herren left his father to return to Sudan the latter was still in a critical condition.

Mr. and Mrs. B. W. Knoll of Claene, Texas, were in Sudan last Sunday visiting with Mr. and Mrs. W. I. Wilkins.

Mr. and Mrs. John F. Taylor were in Sudan last Saturday and Sunday, passing through on their way to and from the Plateau Singing Convention.

Mr. and Mrs. C. A. Wilkins and Miss Lily spent Saturday night with Mr. and Mrs. W. I. Wilkins.

The members of the school faculty have completed their extension course from Tech College. The final examination was given last Monday night. The teachers all report that they were very glad indeed that the course is completed, although they say it was interesting. They are busy preparing for the track meet to be held here this week.

Miss Allie Sue Cooke is in Lubbock taking treatment. She had a serious illness and has had to be away from her work. During her illness she was with her mother in Sudan.

Both the faculty and the student body of Sudan schools are working extremely hard on the preparation for the track meet. Each person seems to have a very important part in the meet. They are expecting to have a good meet this year.

The young son of Mr. and Mrs. F. B. Talbot is ill. At last reports he was believed improving.

The September meeting of the Plateau Singing Convention will be held in Sudan this year.

Mrs. B. F. Carpenter and daughter of Slaton are visiting Mr. and Mrs. W. W. Carpenter and family.

Mrs. L. T. Hunt and daughters, Margaret and Mildred, visited in Sudan the past week. Mildred will remain there with relatives for the next six weeks.

Mr. and Mrs. Arthur Milburn of Clovis, accompanied by the latter's sister, passed through Sudan Wednesday on their way home from points south.

SORE BLEEDING GUMS
Only one bottle Leto's Piorrhea Remedy is needed to convince anyone. No matter how bad your case, get a bottle, use as directed, and if you are not satisfied druggists will return your money.—H. G. Ramby Drug Store.

Some of those crooning radio singers out to be "given the air."

Dollar wheat has become a reality.

FARM NOTES

D. A. ADAM, County Agent

Lamb County Baby Beef Club boys made a fine record on the 28 head of heaves fed out during the winter. These calves were sold on the market at Fort Worth, and brought an average of 12¢ per pound, bringing in a net total of \$2,106.40, and consumed an average of one ton of head to the calf, and with the average price of head at \$18.00 per ton, the consumed \$448.00 worth of head at market price, but when this head stuff was put through the calves it returned \$492.00, an increase of \$201.20 for the 28 ton consumed. These calves cost \$54.2 per head, this price including interest, making a total investment of \$1,457.20. So here we come to the same old story—market you feed stuff through live stock on foot.

Culling demonstrations have been held on the J. H. Hartness and P. W. Penner farms during the past week.

A terracing demonstration was completed on the B. J. McGee farm at Amherst.

Robert L. May, a dairy demonstrator cooperating with the county agent, had two cows in his herd that produced 59 pounds of butter fat during the month of January, and the lowest cow produced 32 pounds according to figures that were obtained through the Cow-test-by-Mail Association.

ures that were obtained through the Cow-test-by-Mail Association.

R. E. McQuatters, Littlefield imported a fine Gamboe Knight bred bull for his dairy herd, and this individual will go into a bull circle in the near future.

Begin now for your control of poultry parasites, mites, b'ug bugs etc. Paint your houses with some good disinfectant, such as cresote dip, carbolicum, and use some good disinfectant to destroy breeding places of stick-tight fleas.

Those farmers in the county wanting certified grain sorghum seed for this year's crop can place their order with the county agent, and he will order it for you or will assist you in any way in getting the seed that you want.

Married Woman Fears Gas—Eats Only Baby Food

"For 3 years I ate only baby food, everything else formed gas. Now, thanks to Adlerika, I eat anything and enjoy life."—Mrs. M. Gunn.

Just ONE spoonful Adlerika relieves all GAS so you can eat and sleep better. Acts on BOTH upper and lower bowel removing poison, you never knew were there, and which caused your stomach trouble. No matter what you have trouble stomach and bowels, Adlerika will surprise you!—H. G. Ramby, Druggist.

FRIENDSHIP HOME DEMONSTRATION CLUB

Mrs. E. N. Ray was hostess to the Friendship Home Demonstration Club Friday afternoon, March 14th.

We had an interesting discussion of various topics also a demonstration of paper stucco for ornamental purposes.

The next meeting will be at Friendship church Friday afternoon, March 28th, at 2 o'clock. Will ask all members to be present if possible. Visitors are welcome. Miss Mashburn will be with us on that date.

Reporter.
If you feel like taking a flyer in Wall Street, take along a parachute.

PROF. L. D. ROCHELLE FOR COUNTY SUPERINTENDENT

The Sudan News is authorized to announce the candidacy of Prof. L. D. Rochelle for the office of County Superintendent of Lamb county, subject to the action of the Democratic party in the July Primaries.

Mr. Rochelle is well qualified for the office which will be automatically created by returns from the 1930 Federal census, having had several years' experience in the rural schools of the state before coming to Lamb county, and having had three years' work as science teacher in the Amherst high school and one year in the same position in the Littlefield high school.

He is a gentleman of education and culture, one who believes in

his chosen calling, and one who will bring the enthusiasm of youth and the maturity of experience to the solving of the problems which will confront the incumbent of the office. Much depends upon the proper conduct of this important office so further the education of the children of the county, and the many friends of Mr. Rochelle believe that he is better fitted to discharge the duties of the office than a man of less experience.

The influence and support of the forward looking, progressive citizens of the county is earnestly solicited by Mr. Rochelle, and his many friends in the county.

Middle-age is the period when you know a dozen dandy ways to regain vim and vigor if you only had time.—Publishers Syndicate.

How's the Poultry House?

Chicks are money—little fluffy puffs of gold. Not much in any one, but in a flock, well, they're a bank balance.

Put up a good house for them.

You would be doing the wise thing to see our stock of lumber and get our estimation before you build.

SPEED UP YOUR PLOWING

with the Case Great Plains Disk Plow

BECAUSE of its strength and balanced weight, plowing depth can be positively regulated—even in hard ground—with the Case Great Plains Disk Plow. Light of draft, it covers the ground rapidly—a real time saver.

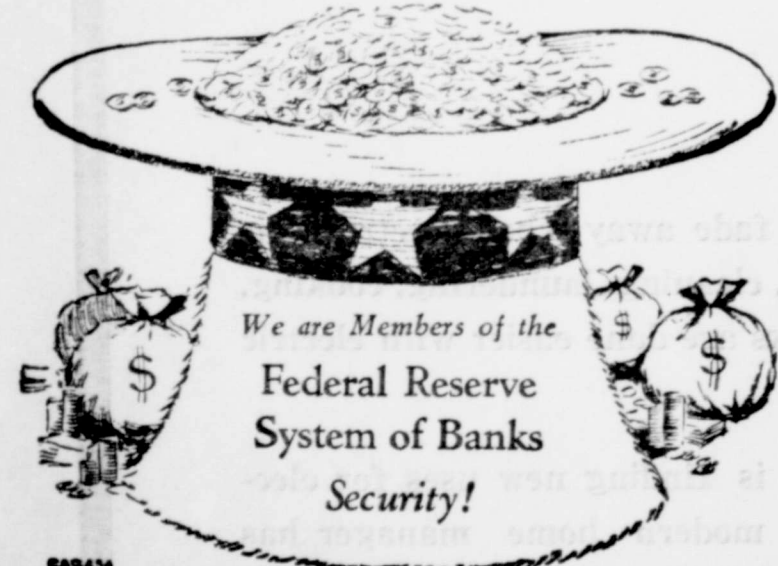

The Great Plains pulverizes well; prepares a good seedbed—very effective in killing weeds; ideal for summer fallow cultivation. The Case power lift clutch on the smaller sizes, makes it possible to raise and lower the disk cylinder without stopping, backing up or leaving the tractor. Power is taken from the land wheel—action is positive and dependable—cylinder always revolves, even over low spots.

Disk cylinder turns on dust-proof bearing spools and specially constructed end thrust bearings—pressure lubricated. Be sure to see this plow—it is a real cost reducer. Give our service a trial.

Chevrolet announces A NEW SERVICE POLICY

The Chevrolet Motor Company and its dealers are pleased to announce a new service policy—one of the most liberal ever offered on a low-priced automobile.

Put into force as a written agreement given to the purchaser by the Chevrolet dealer when the car is delivered—it offers the following provisions:

- Every Chevrolet owner receives his car from the dealer in perfect condition—thoroughly lubricated, properly adjusted, and ready to operate efficiently from the first mile of ownership.
- Every Chevrolet owner is entitled to free inspection and adjustment of his car at the end of the first 500 miles of usage.
- Every Chevrolet owner is entitled to free inspection of his car every 1000 miles thereafter, so long as the car is in operation.
- Every Chevrolet owner is entitled to free replacement of any part which may prove defective in workmanship or material, within the terms of Chevrolet's standard warranty. This includes both parts and labor.
- Provision number 4 will be carried out by any Chevrolet dealer in the United States. As a result, the Chevrolet owner may travel to any part of the country, with assurance that the guarantee on materials and workmanship will remain in force.

This new policy constitutes proof of Chevrolet's high quality—for such liberal provisions could only be made in connection with a car built of fine materials to exacting standards of workmanship.

Back of this policy, and assuring its successful operation, is one of the most complete and efficient service organizations in the world.

There are more than 10,000 Authorized Chevrolet Dealer Service Stations in the United States alone. Each employs skilled mechanics thoroughly trained at Chevrolet Service Schools. Each has specially designed tools and machinery developed exclusively for Chevrolet service work. And each has on hand, at all times, an adequate stock of genuine Chevrolet replacement parts.

Chevrolet's flat-rate charges, including both parts and labor, are the lowest in the industry on many service operations!

In considering the purchase of a low-priced automobile, think what this service means—in terms of lasting satisfaction, as well as in increased economy.

How to Raise Poultry

By Dr. L. D. DeGear, V. S.
St. Louis, Mo.
Dr. DeGear is graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

"Turkey Wild" A Losing Game

They Can Be Raised Successfully in Confinement So Experiments of the Last Few Years Have Proven.

The man who invented the phrase "wild goose chase" could just as well have substituted a turkey for a goose so far as the popular impression of the latter bird is concerned. Most farmers still believe that the turkey is wild and is never happy unless he can have the run of the place. There are a lot of superstitious beliefs about turkeys and this one in particular has a good foundation. The wild turkey is native to North America. They were discovered in New England by our colonists and taken to Europe. In the early days they were forest birds and lived upon nuts, berries, and the other natural foods of the woods. In spite of this early history of the turkey it is now known that they are gentle by nature and can be very domestic if trained in the right way. The farmer who thinks he cannot raise turkeys because he has no trees on his place is still thinking of the stories he has read about the Pilgrim Fathers and their hunting parties.

Experience has proven that the turkey can be raised in confinement with the same success as the chicken. Many breeders, for instance, have used artificial incubation, brooding and confinement of turkeys for several years with excellent results. The reason for this is very clear when you consider that the main drawback to turkey raising is the disease called Blackhead. When the turkey flock is allowed to run at will it mixes with the chickens and it goes on to ground that is contaminated with the blackhead germs. The first and foremost warning is never let your turkeys and chickens mix.

The reason turkey raising has held up at all is the price the markets pay. Time and again breeders have found that by losing 50 per cent of the flock they still make money. When you consider how easy it is to reduce

these losses from 10 to 20 per cent it is not surprising that many farmers are turning to turkeys who a few years ago swore they would never get into the business.

Under the confinement plan turkeys can be kept on fresh soil and the food regulated. Young turkeys especially have big appetites and if allowed to run and eat without restriction will have difficulty pulling through.

Turkeys are creatures of habit and environment. If you use natural or artificial means of incubation you have the poult under easy control from the very start. Your brooding methods can be as simple or as elaborate as you want. Use a brooder house so as to keep the poult away from the hens. This is the only safe plan as it guards against blackhead infection. A portable brooder house will allow you to move frequently on to new ground. Once they are past the danger stage they may be put into fenced yards the same as chicks.

As one authority has stated it, the platform of successful turkey raising is clean food, clean water, and clean range. All three of these can be enforced when raising turkeys in confinement. There are so many examples of farmers on adjoining land raising turkeys under the two plans that I have no hesitation to recommend confinement. It is not unusual to raise 90 per cent of the hatch in confinement with neighbors next door losing from 35 to 80 per cent under the old plan. Another advantage of yarding is that the young turkeys are not run to death.

TALKING TURKEY.

Irate Master (to Negro servant)—"Rastus, I thought I told you to get a domestic turkey. This one has shot in it."
Rastus—"I done got a domestic turkey, sir."
Master—"Well, how did the shot get in it?"
Rastus—"I 'specks they was meant for me, suh."—R. R. Magazine.

Wichita Woman's Suffering of Whole Year Now Ended

Tried Every Kind of Medicine Heard of But Got No Relief Until She Took Orgatone.

"Orgatone has really worked wonders in my case," said Mrs. Pauline Ross, who resides at the Studio Hotel, Wichita Falls Texas recently.

"For almost a year," continued Mrs. Ross, "I have suffered with indigestion and dyspepsia, and during the last six months especially I have tried everything imaginable, with no results until I tried Orgatone. Rheumatism went to bothering me and I would have terrible headaches which I can tell you made me suffer misery. Finally my nerves seemed to give way and I have been unable to get sufficient sleep and rest."

"Although I had tried many remedies but nothing seemed to help me. By the high endorsements of local people right here in Wichita, I was induced to try Orgatone and now, after taking it a few weeks, I can truthfully say that I feel better than I have in the past twelve months. My sleep is sound and restful and, oh, it is such a relief to be able to eat what I want without suffering those terrible bilious spells."

afterward. I feel very grateful and am only too glad to tell others about the medicine, it has done so much for me." Genuine Orgatone may be bought in Sudan at the H. G. Ramby Drug Store.

TRY A FISHHOOK.

The town of Plunkville has a regulation against bare legs on the street. Fish-colored hose were a problem. They solved that nicely by watching for the seam. Then came seamless hose.

"How can I tell whether these girls have bare legs or not?" was the plaint of a policeman on guard.

"Pinch 'em," was the only suggestion he got.—Louisville Courier-Journal.

A centenarian in Germany is said to live on onions alone. Naturally he would be alone.—London Opinion.

SERVED HIM RIGHT.

A portly woman of very illusive beauty was addressing a meeting on temperance reform.

"My friends," she said, "I had a husband who was addicted to the bottle. He was a great trial to me, but one day I persuaded him to take the pledge. He did so, and my joy was so great, so overwhelming, that I flung my arms around his neck and kissed him." "And served him jolly well right!" added a voice from the crowd.—Boston Transcript.

Wilbur Voliva needn't go any further from Zion City than Chicago to prove his flat-world proposition.—Detroit News.

Now there's a plan to provide education by radio. Think of being able to play hooky just by turning a dial.—Publishers Syndicate.

A man in Chicago was continually seeing black spots before his eyes, and was so relieved on finding that they were only bullets.—London Opinion.

The Kellogg treaty is such a perfect guarantee against war that the Powers are about to decide they can get along with just a few more war-ships than they had when they signed it.—San Francisco Union.

The way some senators paint the new Chief Justice, it is hard to recognize the hues.—Virginia-Pilot.

SUDAN DRUG STORE

Grand Spring Opening!

Spring is Here, and We Have Made Ready for It in a Gladening Way

SEE THE LILLIES AND THE ROSES

We extend you a special invitation to visit our store Saturday, March 22, and any day after that throughout the Spring season. We are trying to make it so interesting for you that you will want to come again and bring your friends with you.

You love art and beauty—we know you do—all ladies do, and nearly all the men do.

This will be an event in Art, Beauty and Attraction at our store. Something different from anything you ever saw before. On the window glass will be painted Lillies, Roses and Flowers. Then as you enter the store you will be greeted with decorations that will surprise you—such as no store ever showed before.

Pennants and banners, with wording and phrases that harmonize with Spring, new life, love and beauty, call your attention to the beautiful new dress the earth now is putting on, and you too will want to dress up when you see the lovely, alluring fabrics and garments on display.

Please make us a call.

We just this week received a large shipment of new Spring Shoes. They are spick and snappy. Come and see them. They are priced right.

ARTIST AT WORK ALL THIS WEEK

We have procured the services of a merchandise artist who will be at work in our store all this week, getting us ready for this special event. We are comparatively new here. We opened up last fall with a brand new stock of sparkling new merchandise. For this Spring we have stocked heavily with the best goods and most attractive creations the market had to offer.

We are putting on this special attraction to induce you to come to our store and get acquainted with us and the class of merchandise we carry. We take no chances on cheap, common store merchandise. Neither do you when you trade here. We stand squarely on all fours behind everything we sell. There will be no fudging or shrinking or shoddy in what you buy here.

We handle only standard brands of merchandise, such as Stetson and Mallory Hats, Arrowhead Hosiery, Etc., Etc. This is true in our ready-to-wear Department. Coats and Dresses made to fit and wear.

In Millinery our complete new Spring stock is here and includes all the new creations, priced right.

We should consider it a favor if you will come in some day during this event, while the Special Display is on, whether you buy or not. Just to get acquainted with us and our merchandise. Thank you.

MERCHANDISE ATTRACTIONS

As you enter the store you will be greeted by over 100 pieces of new Spring Dress Fabrics, draped over a rack so you can see them to the best advantage, all at once. The varied blending of colors will amaze you and be pleasing to the feminine eye. It will aid you greatly in selecting the colors and patterns you want for your Spring and Summer attire.

Here you will find Silk Prints, plain and colored Silks in Voiles, Crepes, Flat Crepes, Rayon Silks and Tub Silks, Cotton Prints in all alluring colors, new Gingham, Percales, Organdies, Flaxons, Batistes, Cotton Voiles, Petties, and all other fabrics you ever heard of and perhaps some you never heard of.

Elsewhere on display you will find Curtain Goods, Towels and Toweling, Laces, Embroideries, Bags, Toilet Goods and Notions of every description.

We are specially desirous of acquainting you with our line of Arrowhead Hosiery for Men, Women and Children. When you start to wear Arrowhead Hose you will not want to experiment with any other kind.

Elsewhere in our store you will find on display the Famous Carter's Rayon Underwear and Silk Undies of all descriptions.

MEN'S WEAR

Our new Spring Suits for Men and Young Men are here. They are priced to give big values for the money.

We have a full line of Furnishing Goods, a splendid line of Dress Shirts in the newest designs and colors. Stetson and Mallory Hats and the famous "Apple" Caps. All new Spring goods. Nothing carried over in this stock.

Silk Ties, Sox, Underwear, and a full line of Work Clothes, Luggage, Etc., Etc.

We extend a special invitation to the men and young men of this town and community to visit our store and see how well we can serve you.

WE WILL TAKE ADVANTAGE OF THIS SPECIAL EVENT TO CLOSE OUT SOME ODD LOTS IN SHOES AND OTHER ITEMS OF MERCHANDISE WHILE OUR STORE IS FULL OF CUSTOMERS AND VISITORS.

EXTRA!

This is not a Special Sale, but a Special Event in our regular merchandising methods. It is an Extraordinary Showing of lovely new merchandise, priced on low profit margins.

There are some items in Men's Wear, Hats, odd Pants and Suits, etc., that will be cut very low. Also some items in Ladies' Wear.

The rest of our stock will be all priced as low as you can find the same merchandise anywhere, and much lower than city prices.

Hundreds of women, as well as girls, will cling to the short dresses, because you like them for ordinary wear. We are going to close out our stock of these, however, at a price that will interest you. We have put them all in one lot.

Again Konjola Gives Proof of Amazing Power

Ten Years of Rheumatism Are Ended When New Medicine Is Given a Chance.

MRS. G. H. COLEMAN

What cheer and encouragement are to be found in the many victories of Konjola, the new and different medicine of 32 ingredients. Take, as a typical example of Konjola at work, the case of Mrs. G. H. Coleman, R. F. D. No. 3, Ft. Smith, Ark. Imagine her happiness when she was able to say:

"When I look back and think how I suffered from rheumatism and kidney trouble for ten years I can hardly believe that I am well and happy as I am today. And all this glorious change is due to Konjola. For ten years I endured awful agonies. At times the pain in my limbs was so severe that I could not get around. Every night I was up many times, and the loss of sleep and rest told on my general health. A friend urged me to try Konjola and what good advice that proved to be. In four weeks I was without a sign of rheumatism, and my kidneys were as good as ever. No wonder Konjola is the most talked of medicine in America. It should be in every home throughout the land." Konjola is sold in Sudan at

H. G. Ramby Drug Store, and by all the best druggists in all towns throughout this entire section.—Adv.

Works Hard, Dances, Gains 3 Lbs. a Week

"I work hard, dance and have gained 3 pounds a week since taking Vinol. My nervousness is almost all gone."—Mrs. M. Lang.

Vinol is a delicious compound of cod liver peptone, iron, etc. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. The very FIRST bottle often adds several pounds weight to thin children or adults. Tastes delicious.—H. G. Ramby, Druggist.

HOW PRIZE WINNERS CULTIVATE CORN

Twenty-four men in Gibson county, Indiana, last year made a yield of 100 bushels or more, on corn acreages which ranged from five acres upward. Several factors which were pointed out by these practical farmers as essential to highest yields were proper fertilization, rotation and cultivation.

Shallow cultivation, and no late "working" of the corn were principal criteria followed by the men who made highest yields. A large number of those who placed in the competition, used the rotary hoe for the first two or three cultivations. One man weeded successfully with this tool until the corn was twelve inches high. The secret of success in all cases was that the little weeds were not given a chance to attain any size, but were whipped out by the hoe teeth soon after they broke thru the ground.

After the corn had been hoed several times the usual practice was to cultivate it once or twice with wide sweeps, a style of shovel which is growing more common in corn growing areas, and which is also winning great favor.

Men who used wide sweeps or blades, cultivated only about two inches deep—some even shallower—and it seems they unanimously recommend this type of tillage. The secret of its success is that the surface cultivation kills weeds but leaves shallow feeding roots unharmed. In areas where rain

fall is abundant, especially, roots grow so close to the surface that late cultivations clip off a great many of them. The wide blades overlap in the row and get every weed as they shave the surface.—Southwest Plainsman.

GOOD ADVICE.

Some of our farmer friends have sought to kinder pour it on us of late, and love to ask us how our crop is coming along, because we dared to suggest some things to them of late. They sometimes suggest to us how to run a paper, and some of their advice is good, and taken. All of us advise the merchants, and our pastors advise all of us how to live. We are our brother's keeper, and if the southern farmers are fools enough to raise a big cotton crop this

year contrary to the advice of the federal farm board, the bankers and merchants of the nation, they'll wish a million times that they had taken someone's advice.—Terry County Herald.

WAS THE DRAKE TENDER?

A certain club had replaced its familiar black-coated servitor with young, and sometimes pretty waitresses. One of the old die hard members who had strongly opposed the idea dropped in to lunch one day.

"How's the duck today?" he growled, glowering at the girl who came to serve him.

"Oh, I'm all right," said the waitress, perkily. "How are you sir?"—Brooklyn Eagle.

Harry and J. W. Denny of Lubbock were in Sudan this week.

AVERY JACK RABBIT CULTIVATOR

Two Levers instead of Three
An AVERY PLUS Feature

The Avery Jack Rabbit Cultivator has won a mighty name as a worker. It does a wonderful job. But the thing everyone praises especially is the perfect balance and the ease of control.

All cultivators are not easy to control. But the Avery Jack Rabbit is smooth as silk—free and easy. Why? Because Avery designers and inventors found a way—by study and experiment—to control a cultivator with one lever less and to make the control easier. This saves 25% of the time of the operator, also 25% of the labor. It means a man can manipulate the cultivator 25% faster and 25% longer without tiring.

It is a big aid to more work and better work—an Avery Plus Feature—something more for your money—due to the Avery ideals of implement service.

Avery Plus Features Increase Your Profits

Avery Plus Features save both time and money. That is why an Avery Plus Implement is the cheapest implement any man can own. We are local "headquarters." Call upon us for any information desired.
