Where a City
Belongs"

VOLUME V

FARM NOTES

D. A. ADAM, County Agent

J. H. McClean, head of the Dairy Industry department of U. S. Department of Agriculture, will visit Lamb county Wednesday, June 11, to hold a field day at dairy demonstrations that have been conducted during the past year under the supervision of D. A. Adam, county agent.

These demonstrations consist of complete herds that have been entered in the West Texas Cow Test by Mail Association during the past year. Men who have been conducting these demonstrations, and whose farms will be visited during the day are: C. V. Harmon, Amherst; Robt. L. May, Amherst; J. E. Holland, Littlefield, and Geo. Bohner. The farms will be visited in the order that they are mentioned above. At this time complete records on the herds will be shown, and butter fat costs gone into. Each person attending will have a chance to guess at the butter fat production of each cow. Feeding records also will be studied. Every farmer in the county is invited to attend. Mr. McClean is a man we do not very often have a chance to get acquainted with, and every man or woman who attends will be amply repaid for their efforts. Come, and help make this field day a success.

Robert L. May reports that his soy beans are up to a good stand, and several more men are in the process of planting some for hay for their dairy cattle this winter.

A. Clark, Littlefield, fed out a litter of pigs using the following ration which was suggested by County Agent D. A. Adam: 50 pounds cotton seed meal, 50 pounds tankage, and skim milk. This was fed at the rate of one pound per day, using the milk to make a slop of the supplement, and along with this the pigs were fed all the grain they would eat during the day. The result is that these pigs were fed 100 days, gained 1.41 pounds per day, at a cost of \$4.85 per 100 pounds. They sold for \$5.95 per 100 pounds.

Robert L. May, a Lamb county farmer, has been nominated for Master Farmer by the Progressive Farmer magazine to compete with others from over the state for one of the 10 master farmers of the state. May is a man whom we should push, as he has a good chance to win. His preliminary score is 976 out of a possible thousand.

Walter B. Rose, Olton, with the assistance of the county agent, purchased 6 head of highly bred heifers from Penn Gordon, Winnaboro, Texas.

J. C. Glover of Littlefield reports that he has been grazing his sweet clover since March 15. This, he says, has cut his butter fat cost down to nearly nothing.

J. E. Hamilton, Anton, purchased a self feeder for his hogs last week, which was built according to specifications furnished him by the county agent.

The county agent has available at his office a complete set of blue prints for all farm buildings or equipment. Any farmer desiring the use of these can get them at his office.

SPADE HOME DEMONSTRATION CLUB

The club met with Mrs. F. B. Stanfield. Had a very interesting lesson, and the main thing that made it more interesting, we had Miss Mashburn with us and she brought Mrs. Massengill, the president of Littlefield club. We enjoyed having her very much and invite her back again, also every one else.

We have three new members, Mrs. W. E. Bentley, Mrs. W. L. Cook and Miss Bessie Williams.

The next meeting will be with Mrs. G. W. Jackson. The subject will be Cheese Making.

Now let's every one come and bring some one with us.

NEIGHBORS ENDORSE CHIEF FOR SHERIFF

Elsewhere in this issue will be seen the advertisement of a number of friends of G. R. (Bob) Crim, endorsing him for the office of sheriff and tax collector. Mr. Crim has been a citizen of Lamb county for a number of years, and as his friends point out, is a high class gentleman. The people are asked to consider his claim to the office and vote as their judgment dictates.

R. R. RUSSELL ARRESTED ON HOME BREW CHARGE

Sheriff Irvin and Deputy Walraven on Friday last, arrested R. R. Russell of Sudan on a charge of selling home brew. The officers seized ten gallons of brew on the premises, but stated that many other bottles were broken and destroyed on the premises before the parties could be prevented.

Russell was lodged in jail at Olton to await examining trial.

C. H. Nichols has purchased the stock and business of the J. P. Earnest Grocery, and took charge this week. Mr. Nichols is an accomplished groceryman and doubtless will make a success of the business.

Only a few more days and the June brides will be having their inaugurations.

Pampa Officials Face Serious Charges

PAMPA, May 29.—With the entire sheriff's department and justice of the peace charged with inefficiency and misconduct and with Sheriff E. S. Graves indicted on a charge of converting bond money to his own use, the Gray county grand jury adjourned last night after making one of the most sensational reports on record here.

Graves was charged with having accepted a \$500 check from R. H. Bartlett on July 29, 1927, in lieu of other bonds, and with failing to return it the following day when bond was made. He converted the check to his own use after cashing it at a local bank, it was alleged. Bartlett was held on a liquor charge.

Graves will go to trial tomorrow in district court here. Seven local attorneys have volunteered to defend him.

Charging the sheriff's department and the justice of the peace with inefficiency and wilful misconduct, the grand jury in its report declared all of them ought to be brought to trial. It was suggested that "the people elect incorruptible officers."

Much evidence, it was declared, had been heard by the grand jury implicating the sheriff, all of his deputies and the justice of the peace.

FRIENDSHIP NEWS

Miss Ida Rene Crain was dinner guest of Lurline Harvey Sunday.

Mr. and Mrs. J. S. Hicks and daughter Alta Mae, and Ben Wilks and Mr. and Mrs. A. L. Hicks were dinner guests of Mr. and Mrs. A. R. Scogin and family.

A group of young people gathered at the home of Mr. and Mrs. J. S. Hicks Saturday night, May 31, for the purpose of serenading the "newly-weds," Mr. and Mrs. A. L. Hicks. After searching the Hicks farm and neighboring farms, the young couple were found at the home of Mr. and Mrs. Merlin Chisholm. An enjoyable evening was spent.

Mr. and Mrs. Edgar Owens and Ida Rene and Grover Crain have returned from an enjoyable visit in the mountains of New Mexico. While at Mountaire they visited the old ruins.

Mr. and Mrs. W. R. Boyd and Mr. and Mrs. Ed Ray motored to Lubbock Sunday to see Billie Boyd who is in the sanitarium at this time.

Lawrence Hicks returned to his home near Friendship where he will spend the summer vacation.

Miss Edith Gann spent Saturday night with Lela B. Rone.

We are sorry to report the absence of Melvin Scogin and Monroe Fowler as they are helping with the reconstruction of the dry goods and grocery departments of Mr. W. T. Scogin at Clairmont, Texas, which burned Monday night May 26. The cause of the fire is unknown.

Mr. and Mrs. Charley Alexander spent Sunday at Littlefield.

Mr. and Mrs. W. H. Horn were visiting in Clevis Sunday.

Mr. and Mrs. W. L. Ramsey, Frank Ivey, and Mr. and Mrs. Ben Ramsey spent Sunday with Mr. and Mrs. R. K. Allen.

Miss Mignon Norvell spent Saturday night with Pansy and Neoma Webb.

Miss Angela Foust spent Sunday with Miss Blanche Fowler.

Mr. and Mrs. Capps of Amarillo are visiting Mr. and Mrs. Capps of Sudan this week.

Miss Theta Mae Dikes was called to take care of her grandmother at Hale Center, who fell and was seriously hurt.

Janet Standley was dinner guest of Mr. and Mrs. Bill Gregory Sunday.

GIRLS OF SUDAN GRAMMAR SCHOOL FORM 4-H CLUB

The Home Demonstration Agent, Miss Ruby Mashburn, met with the girls of the Sudan grammar school, Friday, May 18, at 10:00 o'clock, for the purpose of organizing a 4-H Club.

An explanation of club work was given by the county agent to the forty-seven girls present.

The following officers were elected: President—Louise West. Vice-President—Mary Slaughter. Secretary-Treasurer—Bonita McGahey.

Reporter—Louise Shaffer.

Our next meeting will be June 5, at 10:30 o'clock, at the Methodist church. Be sure and bring your sewing materials.

LAMB COUNTY COUPLE MARRIED AT FARWELL

David Mitchell of Littlefield and Miss Fay Davis of Olton were married here Wednesday afternoon by Rev. J. L. Chunn, pastor of the Methodist church. Rev. Chunn says this is the first Texas couple he has married since coming to this city last fall. The new Texas law with reference to securing marriage license has materially affected the "business," particularly along border counties of Texas—State Line Tribune.

Student (leaving college)—"Good-bye, sir, I am indebted to you for all I know."

Prof.—"Don't mention such a trifle."—Block-Blue Joy.

Someone ought to start a relief fund for the poor hatpin manufacturers.

Home Demonstration Notes

By Ruby Mashburn

J. H. McClain, head of the Bureau of Dairy Industries, United States Department of Agriculture, Washington, D. C., will be in our county June 11. All club women and their husbands are invited this day on a field trip on which we will visit special dairy demonstrations of Mr. D. A. Adam, county farm agent. The caravan will leave Amherst at 9:30 a. m. and visit the following homes: V. C. Harmon, R. L. May, J. E. Holland and G. E. Bohner.

Twenty of the twenty-eight "yard and gardens" of club women contestants have been scored this week. The others will be scored in the near future. The women are learning that a vegetable plot can be made an interesting and profitable as well as a decorative part of small home grounds. Vegetable plots should be laid out not only for use but for beauty as well. The edges may be beautiful by borders of low, blooming plants, to provide plenty of cut flowers for the table.

Those interested in the making of American cheese are invited to the County Council Saturday, June 7, at 1:30 p. m. After a short program by the Littlefield Club, two demonstrations will be given of the cheese and a dress form.

Recipe for Cheese

The recipe as given below is the one used by the Home Demonstration Agent and club women of Floyd county:

5 gal. whole sweet milk.
1/2 of a No. 2 Rennet Tablet.

(This amount will make better than 10 pounds of cheese.) The following are necessary supplies that may be collected before making American cheese: A dairy thermometer; two round white pine boards; or you may use a syrup bucket lids; 2 flour sacks; a 1-gallon syrup bucket; rennet, a cheese color tablet, which can be bought at the drug store, but if not in stock they will order them for you or tell you where they may be obtained. One rennet tablet is enough for 10 gallons of milk, and one color tablet is sufficient for 20 gallons of milk. A one-gallon syrup bucket with the ends melted out makes a fine hoop, and it is right size to use in making five gallons of milk. Two bucket lids inside the bucket, or two white pine boards cut to fit loosely inside the bucket are to be used in molding the cheese.

Use only the whole sweet milk; place it in a pressure cooker or a large container, and heat slowly to 86 degrees F. Hold the thermometer with one hand, with the bulb in the milk. Stir the milk constantly from the bottom, while it is heating so it will heat uniformly. (Watch the thermometer closely for it is easy to get the milk too hot, which will result in tough cheese. Be sure you do not lift the bulb out of the milk when reading.) After the temperature reaches 86 degrees allow it to stand at this reading for one minute, remove from the fire, and mix in the cheese coloring which has been dissolved in 1/4 cup cold water. Stir. (The milk will not look very yellow but will have the color of very rich cream.) Then add the cheese rennet which has been dissolved in 1/4 cup of cold water. Stir well. Cover with clean cloth and allow to stand for 30 minutes. By this time the milk should have formed a firm even curd.

With a long knife (I have used a clean hand saw) cut in one-inch columns each way, like you would cut home-made soap. Let stand for five minutes then the whey will begin to rise. Place the thermometer back in the milk, set back on the stove, and lift and stir the curd gently with your hand, each time going to the bottom of the container, to be sure that no part of the curd is allowed to stick to the bottom. The curd will break in particles about the size of a grain of corn. Heat slowly to 93 degrees, then after a minute remove from the stove, and pour off whey by draining through a clean flour sack that has been ripped open and placed over a large pan (some container that will hold several gallons of whey). Drain a few minutes, all the time working it with your hands, to small pieces, to keep it from caking. At this time salt slightly, and it is ready to mold in the hoop. Place one bucket lid, or board in the bottom of the bucket, using the bucket upside down so the rim at the top will hold the board. Line the bucket with a flour sack, and firmly pack in the cheese while it is still warm, so it will press together firmly. Cover top of cheese with cloth, and place another board on top (or bucket lid). A smooth rock or half brick must be placed under the bucket to push the bottom lid upward, so this way the whey can drain out between the lid and the bucket. Then apply 30 pounds of weights, anything heavy will do.

Let stand 5 or 6 hours, take cheese out of the hoop, change ends with cheese and place back in hoop. Add 15 pounds additional weight. Let stand overnight, then remove from hoop. Place in another cloth and hang in a cool room (where there is no fire). Turn morning and night for first week, then once during the day for second week. At end of two weeks sew cheese cloth around the cheese and dip in melted paraffin. Let cure one week. It is then ready to eat, when three weeks old, but is very delicious, and you will enjoy the clean, fresh flavor.

A CREDITABLE PUBLICATION.

The News is in receipt of the May issue of The Spring Lake Siren, school publication of the Spring Lake High School. The magazine would do credit to any high school. The title page is in colors, and the magazine is full of real information to those educationally inclined. It is well illustrated with pictures of buildings, faculty, and the various clubs and classes of the school. The faculty and student personnel are to be congratulated on the result of their efforts.

The new planet is about the size of the earth, but we'll bet it hasn't as much trouble.

SOME INFORMATION.

(An Editorial.)

It has come to The News, from good authority, that certain members of Sudan school board have publicly charged that there was collusion between Superintendent Wilkins and The News management, for the purpose of "running up a big printing bill."

Now this is a serious charge, and the parties preferring it should have been more sure of their ground before venturing. The News does not presume to speak for Superintendent Wilkins—in fact he has never intimated that he wished The News to even deny the charge. But The News can and does speak for itself when it states, as it here does, that the accusation is every word untrue, and we care not one single, solitary pica-yune from whom the charge comes. We hope our language is plain; we have tried to make it so, that none may misunderstand.

Since hearing of the above charge, The News has taken pains to secure figures from Spring Lake school district to compare with Sudan. The figures are for the school year just closed:

Spring Lake -----\$139.25
Sudan -----\$156.95

Please note that Spring Lake is only a 10-teacher school, while Sudan is a 20-teacher school.

We would also state for the information of the people that of the items on the Sudan bill, \$36.00 was for reprinting supplies lost in the fire which destroyed our high school building. Also \$8.40 was for legal publications in relation to elections.

The News is fully aware of the animus behind the whole matter, but trusts the thinking, fair-minded people of the district will not permit themselves to be prejudiced by such silly, transparent falsehoods, and be led into speech or action prejudicial to our great system of schools.

Sudan schools have cost the people of the district a heavy price in money, labor and sacrifice; and for a few misguided individuals to jeopardize their very existence is something the loyal people of the community should condemn in no uncertain terms. The News is amply able to fight its own battles. Superintendent Wilkins is amply able to fight his battles. But Sudan schools should not be forced to stand helpless between two warring factions. If there be members on the board who cannot cooperate with all for the good of the schools, they should have the decency to eliminate themselves and permit their places to be filled with citizens who have the real welfare of the schools at heart.

BLUE BONNET CLUB.

The Blue Bonnet Club had their regular meeting on the evening of the 28th. There was a nice attendance for the evening to be so rainy. We enjoyed the presence of the visiting ladies from the Sudan Club. Miss Mashburn was with us, the subject being Children's Clothing. The hostess for the evening was Mrs. Ford. We had one new member.

Remember our next meeting. Reporter.

ROCKY FORD CLUB.

The Rocky Ford Club met May 26th at 2:00 p. m., with Mrs. L. Y. Nix. Miss Ruby Mashburn discussed Children's Clothing with us. There were two new members, Misses Connie Dunn and Fay Murrell. Two visitors were present, Mrs. McCrory and Mr. Nix's mother. Dainty refreshments were served. All had an enjoyable afternoon.

The club will meet with Mrs. Dave Edgerton, June 9th. New members and visitors are welcomed.

County Council meets first Saturday in each month. Reporter.

Plateau Singers to Meet at Lockney

LOCKNEY, TEXAS, May 31.—The Plateau Singers, reputed to be the largest group of sacred song followers in the world, will hold their annual convention in Lockney on June 14th and 15th, when more than ten thousand singers from twenty-two West Texas and Eastern New Mexico counties are expected to be present at the meeting. The Lockney convention will be the ninth annual meeting of the organization; the convention having been held previously in Plainview, Canyon, Littlefield and Amarillo, Texas, and Roswell and Clevis, New Mexico.

Officers of the association are: President, John F. Taylor, Clevis; vice-president, L. M. Brooks, Lubbock; president, J. P. McClish, McDonald, New Mexico; secretary, Mrs. Evelyn Taylor, Clevis; assistant secretary, J. S. Garrett, Hereford. Members of the advisory board are: B. P. Abbott, Bovina, Texas; Earl Paper, Runningwater, Texas; J. E. Brannon, Littlefield, Texas; M. P. Foster, Tucumcari, New Mexico; Fred Hodges, Portales, New Mexico; and Arthur Nutt, Lovington, New Mexico.

The annual Plateau Convention is the culmination of fifty county conventions that are held semi-annually in accordance with a yearly program.

FRIENDSHIP HOME DEMONSTRATION CLUB

Home Demonstration Club of Friendship met at the church on Friday, May 23. Had several visitors. Miss Mashburn was with us and gave an interesting discussion on Children's Clothing.

Mothers, you have no idea how much you are missing in not attending the club meetings. There is always something of interest to all when Miss Mashburn is with us.

We shall try to have an instructive and interesting meeting on our next club day. It will be at Friendship church on Friday, June 4, at 2:30. Our demonstration will be something out of almost nothing and all home makers that want to see this done, be with us on that date and we will try to prove it.

MEETING OF W. M. U.

The W. M. U. met with Miss Ada Corruth Monday, May 26, for mission program and social hour. Had an interesting lesson led by Mrs. Wells, with quite a number present. We were glad to have with us some who used to be regular attendants and some who have never before attended W. M. U. We hope these will continue to come for we need them and we all need to work and pray.

SUDAN DEMONSTRATION CLUB TO PRESENT PLAY SOON

The Sudan Demonstration Club will present a play in Sudan in the near future, to raise money to send one of our members to the Short Course at A. & M. College. Our members are getting along splendidly with their projects and hope to make a high score this year.

For the benefit of those who have been asking, no dues or fees of any kind are to be paid to this club. All the members have to be out is the time and energy it takes to attend the meetings. You are sure to learn something new at each meeting. New members and visitors are welcome to our club. Meet us at Mrs. C. A. Findley's Friday, June 6, at 2 o'clock.

MRS. LEE WATSON BURIED TUESDAY

Mrs. Lee Watson died Saturday in the Lubbock Sanitarium, after a short illness.

Funeral services were held Tuesday at 2:00 o'clock by Rev. H. L. Minger, pastor of the Methodist church, and interment was made in the Lubbock cemetery.

Mrs. Watson taught in the Fairview school the past year and was to teach in Sudan the coming year.

Survivors are one son, Truman, two brothers, Rev. Z. C. Hull of Gonzales, and S. M. Hull of Paris, Ark., and two sisters, Mesdames B. S. Lee and S. A. Mayberry, both of Paris, Ark.

County Council meets first Saturday in each month. Reporter.

At the time of going to press no slump had been reported in the number of golf players.

Sudan's Slogan:
"Boost or Move"

NUMBER 47

Epochal War Film Shown at Local Theater June 10

Lives Were Lost and Government Archives Combed for Graphic Shots Included in "History of World War" Film Shown Here June 10th.

Many lives were lost, the archives of a dozen or more nations were searched, and eight years consumed in the making of the great film classic, "The World War," which will be shown at the local theatre, Sudan, June 10th.

Its action covers the greatest drama in the history of the world over a period of four years. Therein lies the remarkable feature of this unusual picture; it has successfully brought to the screen in comprehensive and graphic form the most gigantic war in the history of the world. War in all its phases is seen in this film. There are no picked scenes. The lumbering tanks, the murderous machine guns sweeping No-Man's Land, the poisonous gas, the smoke screens, the sinking of ships by submarines, the glare of star-shells, the recoil of gigantic guns gouging the earth in angry protest, the wire entanglements, the falling planes, the fall of men—all the elements of war as seen in this great picture, sponsored by the Legion members of Lamb county. Don't Miss It!

Brady At Liberty Under \$5,000 Bond

DALLAS, May 27.—John W. Brady of Austin, former Civil Appeals Court judge, Tuesday stepped into the sunshine without a guard for the first time since Miss Leahia Highsmith, slight Austin court stenographer, was stabbed to death at her home Nov. 9.

Brady was released on \$5,000 bail pending action on his appeal from a three-year sentence. District Judge J. A. Pippin fixed bail after overruling a motion for a new trial for the snow-haired former jurist, convicted of murder without malice in Miss Highsmith's slaying.

Brady's first trial at Austin resulted in a hung jury. The second trial was held here and the jury verdict was returned May 17. Insanity was Brady's defense.

After the three sureties had qualified as bondsmen, Brady walked to the jail and gathered up his belongings. The former judge thanked the jailer for his courteous treatment. He also paused to thank newspaper men for their fair report of the trial before departing with his wife and attorneys.

COURT OF HONOR.

The Kiwanis Troop Committee, consisting of Simon D. Hay and Ves Terry, officiated as a court of honor, held at the school auditorium, Tuesday night, June 3. The Amherst Troop carried out the ceremonial part of the program and immediately after this Ves Terry aided the coutmaster in pinning on the Tenderfoot badges.

Two inspiring talks were given, by Rev. McGahey, and Scout Commissioner K. N. Clapp. These men stressed the use of training received in scouting in the making of real men in life.

The following Sudan boys are charter members of the newly organized troop: Clyde Robertson Jr., Hector Jackson, Melvin King, Heruel King, Bill Whitwell, A. B. Asenow, Waymon Gordon, Erskine Gordon, Joe Serratt and Chesby State.

NOTED AGRICULTURE LEADER TO VISIT LAMB COUNTY

Mr. J. H. McClain, head of the dairy division of the U. S. Department of Agriculture, will be in Lamb county Wednesday, June 11, at which time he will visit a number of dairy demonstrations being conducted by various farmers under the direction of County Agent D. A. Adam.

Every person in Lamb county who is at all interested in the dairy industry should meet Mr. McClain, as it is seldom our good fortune to come in contact with a leader of his prominence.

SMALL BLAZE AT MULESHOE

Monday night about 10 o'clock the fire siren brought out the population, when it was learned that the blaze was at Muleshoe, and the keen blasts of the siren were to gather the fire boys for a run to our neighbor city. The run was made in 34 minutes—a record.

It is understood the blaze was in the high school building, but was under control by the time our boys reached the scene. The city escaped with a loss around \$3,000, we are informed.

I. O. O. F. MEMORIAL SERVICES AT GARDEN THEATRE

The Odd Fellows of Sudan will hold Memorial Services at the Garden Theatre, Sunday night, June 5, at 8:30 o'clock. The memorial address will be delivered by Rev. Cal McGahey. All Odd Fellows everywhere are especially urged to be present, and the public generally is cordially invited.

The air is beginning to rival the highway as the scene of fatal weekend accidents.

THE AMERICAN CREED

"I believe in the United States of America and the principles of freedom, justice, equality and humanity upon which it was founded and for which American Patriots have given their lives and fortunes.
"I believe it is my duty towards my country to love it; to support its constitution; to obey its laws; and to defend it against all enemies."

Any erroneous reflection upon the character or reputation of any person, company or corporation which may appear in these columns will be gladly corrected upon its being brought to the attention of the management.

"BOOST OR MOVE"

THE NEAR AND FAR.

Half the world does not know how the other half lives. Neither does it care very much. It is the close-to-home that concerns us most. A neighbor's new baby girl or the wreck of a model T car arouses more interest than a disaster in a foreign land.

In Burma, a thousand people's lives are blotted out by earthquake and tidal wave. An entire town is wiped out, but in the U. S. we are more concerned with our spring gardens, the wheat crop and spring rains. It is not that we are hard-hearted. It is a trait of human nature that the far away things do not appeal to us as sharply as that which is near at hand and which bears upon the welfare of ourselves or of our neighbors.

THE RANKS ARE THINNING.

The 1930 census takers found only 631 war veterans occupying the Illinois Soldiers' Home at Quincy. In 1920 there were 1551 veterans at the home. They are passing on at the rate of ten a month.

The survivors of the war between the states are growing fewer and fewer, as that dreadful conflict recedes farther and farther into history. The Grand Army of the Republic and the Army of the Confederacy are passing. It is hard to see them go. The nation is losing something of great value in their departure. The armies of the Civil War are going but they are not forgotten.

CANT DOWN DOBBIN.

A New York policeman has pulled a new one by nabbing a horseback rider for speeding. The judge made it stick with a \$10 fine. That is news in these days.

YOU CAN DEPEND ON THEM.

What your dollar is worth depends on you. Today, a dollar will buy a full one hundred cents' worth of merchandise or service in Sudan. The ads in The News will tell you where you can make your dollar do its full duty. You can have confidence in the ads in this paper and when you buy you can do so with full assurance that you are getting one hundred cents' worth of value for your dollar.

Pity we are not like the average old hen. The scarcer the worms the harder she scratches.

Even the churches say that collections have increased since they commenced to advertise.

No town was ever built by men who sat on cracker boxes and criticized those who worked.

The ethics of some professions make a nice working scheme to mulct the public.

It is remarkable how a coat of paint will freshen up a house and a flapper.

The average husband and wife simply were not made for bridge partners.

Truth may be stranger than fiction, but it seems to be harder to tell.

A hen on the nest is worth two in the field.

CHARITY SHOULD BEGIN AT HOME.

(The Southwest Plainsman.)
We are such a magnanimous nation! We are now going to build a canal across Nicaragua and spend many, many millions of dollars giving employment to natives of that country. Probably they need it, but the unemployment situation in this country appears to be needing urgent attention. It has been recommended that municipalities throughout the nation undertake desirable public improvements in an effort to provide work for the thousands of jobless. The government is leading in the crusade and hopes to provide considerable work through the erection of public works of various kinds. But why the urgent necessity for another canal? Our investment in the Panama enterprise does not appear to be sufficiently profitable to have materially affected our national income—or taxes. Why not spend those millions in the United States and let our own citizens benefit therefrom? If we just must dig canals with them, there is our inland waterway system waiting. Of course, if the railroads have their way, it will keep on waiting, but the folks who pay the freight are looking to the waterways to bring about reductions in the rates. It sort of seems as though there was something about inland waterways in the Republican platform, last election, but it must have been forgotten. It is just the easiest thing in the world to forget little things like that—after election. According to what we read in the papers, there are a good many men and women right here at home who would be more than pleased to work for a part of the millions which the Nicaraguans will collect for their services in digging the big ditch. Few of them would be able to go to that distant country in order to get jobs and probably could not stand the climate were they to undertake it. If all that money were to be spent in building waterways in our own country, a goodly number of our own citizens could be given employment and when the job was finished, something would have been accomplished toward farm relief as well. The manufacturers of digging machinery, cement, locks, and provisions will get some nice fat contracts out of the Nicaragua business as will some engineers and draftsmen, but our ordinary laboring men will get "what the little boy shot at."

Agricultural Items From A. & M. College

Big Business Affects Hens, Too.
COLLEGE STATION.—The time when the barnyard fowl could marginally contribute in money to the farm wife and then call it a day, is over. Even if she belongs to only a one-harem flock, the modern Texas hen has to show speed in changing feed into eggs or painfully relinquish her position to a younger and more likely sister. One of the most potent factors in this disturbing the tranquillity of the barnyard is the home demonstration agent who not only insists that large scale production can be applied to hens as well as factories, but who proves it by means of well distributed farm flock demonstrations.

This has been going on for years, but just now it is assuming alarming proportions. There are 118 home demonstration agents in the state and practically every one of them has from one to ten such demonstrations, the records from which are furnishing such disquieting rumors as "a hen should lay 150 eggs yearly and \$1.00 profit of more than \$1.00." Nine demonstrations in Gregg county, for instance, show that 756 hens averaged a net profit of 17 cents in April. In Fisher county the home demonstration agent reports 10 flocks of 850 birds averaging 52 cents above food cost for the four months beginning November. From Washington county comes the report that 218 hens made a profit above feed cost in March of 37½ cents per bird.

It's true, the hen gets enough to eat now and it's more nourishing, but she pays for it and for her improved living room, too. A nap in the middle of the day may cost her her life, even a mild illness may cause an easily excited farm wife to exact the death penalty on suspicion that it's catching; and a disgusting worming is certain at least twice a year. The drinking water is cleaner and cooler than it used to be, but no telling when it will be doctored up with potassium permanganate or epsom salts.

No, the life of a hen isn't what it used to be, and all because farm wives have got the notion that hens ought to pay better than cotton.

Wholesale Yard Improvement.

DALLAS.—Farmsteads and rural school grounds in Dallas county have taken on added beauty because of one of the most extensive beautification programs ever undertaken in Texas. Working under the direction of Miss Ruth Clark, assistant home demonstration agent, 200 4-H club girls have set out 232 shade trees, 945 shrubs and 113 fruit trees; 99 girls planted flowers; and 150 cleaned their yards during April. Thirty-five special yard improvement demonstrators, all home demonstration club women, have reported to Miss Leone Wimberly, county home agent, the planting of 146 trees and 1215 shrubs, as well as the transplanting of 338 native plants such as redbud and Indian currant. Out of 38 schools in the beautification program, 29 announced 265 trees, 2400 shrubs and 1000 annuals, perennials and bulbs planted. Thirteen schools have leveled their yards, five improved walks and nine screened unsightly places and buildings. The work has been in cooperation with numerous civic bodies.

Garden Brings Health.

HUNTSVILLE.—A half-acre garden has reduced doctor bills from "hundreds of dollars to \$11 last year" in the family of Mrs. J. H. Neiderhofer of the Pine Valley Home Demonstration Club in Walker county. With 700 varieties of home grown fruits, vegetables and meats on her pantry shelves she has been able to serve well balanced meals in short order, and the saving in grocery bills and health is inestimable, she says.

"Nothing goes to waste," Mrs. Neiderhofer states, "and what isn't canned goes to market. With the help of three of my girls who are 4-H club members I am carrying demonstration in the 4-H pantry, poultry flock management and living room improvement. My 112 laying hens made me a net profit in a recent month of \$35.70 after paying the feed bills."

West Texas Sold on Terracing.
COLLEGE STATION.—Once considered too dry or too level to need terrace protection, West Texas has now thoroughly succumbed to "crooked row fever," reports of county agents in that region leading to the announcement by M. R. Bentley, engineer in the Extension Service, that fully half of the 600,000 acres terraced in cooperation with agents last year was done in West Texas. Terracing there has a three-fold object, he explains, (1) to prevent washing of top soil, (2) to hold rainfall on cultivated land, and (3) to check blowing soil. Most terraces in the West are built on the level with no fall allowed.

Among the characteristic county reports of terracing accomplishments is that of D. F. Eaton in Lubbock county where the commissioners' court employed an assistant to aid during the rush of the season. Working on the usual plan of training farmers to carry on the work with a minimum of help, 41,175 acres were terraced or contoured which brings the grand total in the county to about 70,000 acres.

E. W. Thomas, county agent of Hall county, states that 25,370 acres were terraced on 140 farms there last season. R. E. L. Patillo, agent in Wilbarger county, reports 8,080 acres terraced on 69 farms, and James D. Frewitt of McCulloch county writes that with the aid of two cooperators and several club boys 5,400 acres of land were put under terrace. These terraces, he says, were 25 feet wide and full 20 inches high, the cost per acre from 75 cents to \$1.

"Konjola Put Me Back On the Road To Good Health"

Dallas Lady Energetically Endorses New Medicine—Found Relief After Other Medicines Failed.

MRS. F. M. BETHEL

"For four years my system was in a rundown condition and for the last eight months, stomach and kidney disorders have caused me much suffering," said Mrs. F. M. Bethel, 406 Avondale street, Liberty Heights, Dallas. "Gas formed after each meal and I had a burning sensation from my throat to the pit of my stomach. My kidneys were sore and did not function properly. I had pains across my back, and I was steadily losing in weight and strength.

"I finally decided to try Konjola and this medicine has put me back on the road to health. I am no longer troubled with the stomach condition. My vitality and general health have improved immensely, and I am free from those terrible pains in my back. I sleep soundly at night and my whole system has taken on new life."

When taken for six or eight weeks, Konjola, the new and different medicine, will work wonders that will astonish those who suffer from the stubborn ills of the stomach, liver, kidneys and bowels, and of rheumatism, neuritis and nervousness. Konjola is sold in Sudan, Texas, at the H. G. Ramby Drug Store, and by all the best druggists in all towns throughout this entire section.—Adv.

Chevrolets In Pike's Peak Road Service

COLORADO SPRINGS, Colo., June 2.—A concrete example of the tremendous strides made by automotive engineers toward the goal of mechanical perfection in the modern motor car is provided here daily on the Pike's Peak highway.

A few years ago, a car that would scale the Peak was a front-page feature throughout the country, while today, thanks to the automotive engineer, a car's ability to perform ably and satisfactorily in the thin, rarified air and on the long, steep ascents of the Peak is taken more or less for granted.

Despite a greatly improved highway up the Peak, the long continuous climb and the light air pressure, in the high altitudes, which used to mean a boiling radiator and an engine too hot to make the grade, provide one of the severest tests in America of the mechanical condition of a car.

Even more outstanding than the performance of those tourist automobiles which make a single trip up the steep incline is the record of a fleet of trucks to maintain the highway in constant repair. The fleet now in such service includes three Chevrolet sixes which see almost daily use up in the region above the cloud-levels.

Recently the fleet has been used to haul away huge mountains of snow to prepare the highway for the summer tourist travel. The route was expected to be opened early in June. With the snow cleared away, the fleet will continue in daily service doing maintenance and repair work on the highway.

The Chevrolets used in this work have been in operation for more than a year. That the cars are operating today with the same degree of economy and dependability as a year ago is a fitting tribute to the achievements of those engineers who work quietly behind the scenes in the interest of improved performance at lower cost.

Arthur Clements is visiting in Oklahoma City and Fairfax.

Wonderful Resources of Texas Shown the Nation

The most accurate and complete compilation of facts setting forth the unlimited resources of the great Southwest—Texas, Oklahoma, Arkansas and Louisiana—ever compiled, is issued in new 150-page book entitled "The Southwest Market," just issued by Industrial Dallas, Inc., the organization sponsoring the \$50,000 three-year community advertising campaign of the Dallas Chamber of Commerce.

Ten thousand copies of the book were included in the first press run, and during the ensuing 12 months these will be paid in the hands of industrial and manufacturing executives, bankers, investment houses, builders, sales managers and advertising agencies throughout the United States.

All facts and figures in the book have been compiled from authoritative sources, such as the U. S. Census Bureau, the Blue Book of Southern Progress, Sales Management, Texas Almanac, besides voluminous extracts from the original reports of industrial and research experts employed especially to survey various aspects of the Southwest.

There are six main divisions to the volume, entitled "The Southwest Market," "Serving the Southwest Market," "Manufacturing Conditions," "Dallas, Its Growth," "Aviation in the Southwest," and "Texas Laws Affecting Entry Into the State."

Continuing the policy adopted two years ago at the outset of the advertising campaign, the whole Southwest is treated as a single unit market. Incidentally, the figures show it is one of the eight major marketing areas of the nation, with more than 12,000,000 population, and \$6,000,000,000 annual buying power. No attempt has been made in the book to advertise or exploit any one section of the Southwest over any other section, but a true picture is given of the resources and wealth of the entire territory. The book is profusely illustrated with more than 400 photographic reproductions of agricultural, industrial and commercial activities under way throughout the four states, ranging from the oil wells and lead and coal mines of Oklahoma to the port facilities of the Gulf cities, and from the lumbering industry and the diversified agriculture of East Texas and Louisiana to the oil fields, pure bred cattle and new cotton and small grain fields of Western Texas. Views of the wonderful Rio Grande Valley country, the Winter Garden, and the other agricultural districts are shown side by side with the imposing skyline of Houston, Fort Worth, San Antonio and Dallas, to complete the picture in the minds of Eastern executives and financiers, of the well-rounded prosperity and development of the Southwest.

Husband and Wife Both Notice Big Change in Health

Wichita Falls Woman Gains in Strength and Husband Now Feels Fine Since Taking Orgatone—Think It is a Great Medicine.

"We think Orgatone is a great medicine, for it has helped us both, and saved us years of suffering," said Mrs. A. B. Humphrey, wife of a refinery worker living on Rural Route 1, Wichita Falls, Texas. "For about ten years I have suffered from kidney trouble, and always felt tired and worn out, and didn't have any pep and energy. My husband suffered from a severe case of stomach and digestive troubles. He had to be very careful of what he ate, for the least thing would cause bilious and dizzy spells, and gas would form on his stomach until he would suffer for hours. His appetite was poor and he was restless at night and didn't get the proper amount of sleep."

"Orgatone was recommended to us by a friend, and we both began taking it. We began to feel better right from the start. My kidney trouble has disappeared and I'm feeling simply fine. My husband hasn't been bothered with indigestion since. He ate anything he wants now, and doesn't have those gas and bilious spells. We both have received great benefits, and I am glad to give this statement so that others may be benefited."

Genuine Orgatone may be bought in Sudan at the H. G. Ramby Drug Store.

Miss Tina Alexander of Lubbock is visiting her sister, Mrs. Marvin McLarty and family this week.

TOWN AND COUNTY

Mr. and Mrs. Noah Little were called to Hollis, Okla., Thursday to be at the bedside of the latter's nephew.

Rev. Cole and family of Hollis, Okla., are visiting relatives and friends here this week.

We have in the vicinity of Sudan, two good slightly used Pianos and one new Piano, and rather than ship back will sell at a sacrifice. Write Manufacturers Wholesale Department, 905 Elm St., Dallas, Texas.

The little son of Mr. and Mrs. Jack Covington has been sick for several days.

At a meeting of the Lions Club of Littlefield, held Friday of last week, it was decided to invite the Kiwanis Club of Sudan to put on the program at the meeting of the Lions Club some time the early part of June.

Mr. and Mrs. E. P. Jones and children and Mrs. N. W. Gordon and little daughter Sybil left Saturday overland for Hollis, Okla., where they will spend the week with relatives and friends.

Mr. and Mrs. C. L. Lowery spent the week-end in Priona visiting their son, Everett Roark and wife.

Herbert C. Martin, candidate for County Attorney and whose home is in Littlefield, was visiting with friends in Sudan Tuesday.

Miss Lucille Askew has entered Draughon's Business College of Lubbock, where she is taking a course in stenographic work.

Mr. and Mrs. C. S. Campbell and family of Littlefield visited Mr. and Mrs. W. O. Wright Sunday.

Mrs. J. E. Dryden and Mrs. F. M. Farris accompanied Miss Bertie Foust to Amarillo where she took the train for her home at Carter, Okla., after visiting with her sister, Mrs. F. M. Farris and family and nephew, Jack Foust and wife.

Miss Willie Mae Clements is visiting her aunt, Mrs. J. E. Carroll at Slaton this week.

Miss Alma Foust of Carter, Okla., is visiting her brother, Jack Foust and wife this week.

Mr. and Mrs. John Farris of Amherst were attending to business matters in Sudan Tuesday.

Mr. Lafayette Lamb of Muleshoe was in Sudan Tuesday arranging for a music class in the near future.

Mrs. Elbert Jernigan is visiting her parents in Sweetwater this week.

Mr. and Mrs. Ves Patterson returned to their home in Sudan after spending a week with relatives at Hubbard and other points.

Mrs. Marvin McLarty attended the funeral of Mrs. Lee Watson in Lubbock Monday.

Mrs. A. B. Swain of Tahoka is visiting her sister and brother-in-law, Mr. and Mrs. Walter Grissom. Mrs. Grissom met her at Lubbock Thursday.

Mr. and Mrs. Otto Sauer and Dr. Sterling spent Sunday looking over the country around Dimmitt and Heart. They report everything looking very prosperous around there.

Mr. and Mrs. Ralph Davis spent Sunday in Farwell with friends.

Arthur Damron of Circleback sustained a broken leg while playing ball with the Amherst team on the Amherst diamond.

Mr. and Mrs. Marvin McLarty and children returned the first of the week from Abilene where they have been visiting relatives for the past week.

Mrs. C. E. Yoder and daughter, Mrs. White and Miss Bonnie Fae of Whiteface were visiting friends in Sudan Sunday. They visited the J. B. Findley family while here. Miss Bonnie Yoder and Miss Velma Findley were classmates in their senior year in Sudan. Miss Bonnie is in the grocery business at Whiteface.

Horace Holt has a position in Muleshoe with the Santa Fe, instead of at Slaton, as stated in last week's paper.

Mr. and Mrs. Jock Covington of San Angelo are visiting his parents, Mr. and Mrs. L. D. Covington and brother, Joe Covington and family, and sister Mrs. Vernon Head and family. They also visited relatives at Dimmitt for a few days.

Mr. and Mrs. C. E. Ivey have as guests this week J. W. Ivey and family, Mrs. Ella McCracken and Miss Brazel, all of Quanah. The Ivey girls and Miss Brazel visited several days in Littlefield and attended the meeting being held there.

Mr. and Mrs. M. B. Dimity returned from their trip to Dallas and spent the week end with the latter's

sister, Mrs. Chas. Crawford, before proceeding to their home in Clovis, N. M.

BLEEDING SORE GUMS.

If you really want quick, certain and lasting relief from this most disgusting disease, just get a bottle of Leto's Pyorrhoea Remedy and use as directed. Leto's is always guaranteed.—H. G. Ramby Drug Store.

Robbers Get \$10,900 From Dallas Bank

DALLAS, May 31.—Two robbers Saturday bound three employes of the Grand Avenue State Bank here, waited until the time lock automatically opened the vault and scooped up \$10,900 and escaped.

The robbers were waiting inside the bank when Weldon Miller, cashier, entered a half hour before the bank was to open for the day. They tied him up and threw him into a rear room.

W. F. Miller, vice-president, arrived a short time later. He also was bound and thrown into the room. Roy O'Brien, bookkeeper, was the third employe to be overpowered.

While the robbers waited for the time lock, a phone call came for Miller. One of the pair said, "He's not down yet," and hung up. Officers learned that the men who did the robbery picked up a companion number of blocks from the bank and then abandoned the stolen automobile and fled in another car in a northwesterly direction.

NAVY WILL TURN OVER SUB FOR USE IN ARCTIC FEAT

WASHINGTON, May 29.—The navy department today agreed to turn over to Sir Hubert Wilkins, Arctic explorer, an obsolete submarine, which the explorer plans to use in an attempt to reach the north pole by the undersea route.

Assistant Secretary of the Navy Jahncke today advised Sloan Danzlower, Sir Hubert's representative, to apply to the shipping board for the discarded submarine P-12. The navy will turn the submarine over to the board for transfer to Wilkins. Sir Hubert plans to use the submarine to dive under obstructing Arctic ice packs.

COUNTING THE SCRATCHES.

"That fellow's driving his car so carefully that I think he must be a new driver."

"No, he just paid cash for the car."—Michigan Gargoyle.

The noise-abatement commission finds that the motor-car horn is the meanest noise in traffic. Our scientists are now trying to invent a honk that will soothe the pedestrian, but not put him to sleep.—The New Yorker

New Pipe Line From Texas Is Announced

CHICAGO.—The industrial communities of Kansas, Missouri, Illinois, Indiana and Kentucky will receive natural gas, probably by next December, through a \$40,000,000 pipe line, construction of which was announced Tuesday by the Missouri-Kansas Pipe Line Company.

The gas will be brought from the Texas Panhandle by a line of pipe 1,250 miles long. Work already has begun at two points in Texas and Missouri and \$25,000,000 worth of pipe has been ordered from the National Supply Company of Toledo, Ohio.

Officials estimate the construction will provide employment for several thousand men and be completed by December 1st.

The line will connect with the Missouri-Kansas Company's Kentucky pipe line system near Evansville, Ind.

BAR ON LODGE PINS IN DRY FORCE ASKED

ALBANY, N. Y.—The federal grand jury in session here has requested that prohibition enforcement agents be prohibited from wearing insignia of fraternal organizations. The following resolution was presented by the grand jury to Federal Judge Frank Cooper:

"The members of this grand jury request that the prohibition enforcement agents be instructed not to wear the insignia of fraternal organizations while on duty. We believe that the agents can perform their sworn duty without the betrayal of the confidence in our fellow members which is the first principle of all fraternal organizations." The resolution was signed by each member of the jury.

HIGHER VISIBILITY.

Mary had a bathing suit. She carried in her purse. And every time she wore the thing it shrank up worse and worse.

—Perry (Fla.) Herald.

If Mary was the one we knew.

Oh, we shall ne'er forget 'er.

Each time she wore her bathing suit

It shrank up better'n better.

—Houston Post-Dispatch.

Thus, you see, they disagree—

Their views are quite contrary.

Tho both admit from this time on

We'll all see more of Mary.

—Buffalo Evening News.

HOORAY FOR THE INVALID!

Mrs. Blabber — "You're looking very happy this morning. Have you had good news?"

Mrs. Gabber — "Just wonderful. My husband has just had a nervous breakdown, and we're going to Florida for the winter."—Pathfinder.

Greater Food Value in Our Ground Feeds

Our mammoth Feed Mill has a capacity of many tons of ground feed per day. Your feed, ground in our mill, has much more feed value than when fed whole.

IT'S WISE TO CHOOSE A SIX

CHEVROLET'S

New Service Policy wins nationwide approval

On January 1st of this year, the Chevrolet Motor Company announced a new service policy—the most liberal ever offered in connection with a low-priced automobile.

Immediately it was greeted with enthusiasm by Chevrolet buyers everywhere—because its many unusual features materially add to the economy and lasting satisfaction of Chevrolet ownership. Briefly, it provides—

—for free inspection and adjustment at the 500-mile mark, and free inspections every 1000 miles thereafter.

—for free replacement of any

material—including both parts and labor—that may prove defective, within the terms of the standard warranty.—that this replacement will be carried out by any Chevrolet dealer in the United States—regardless of where the owner may have traveled during the warranty period.

Backing this policy is one of the largest service organizations in the automotive industry—consisting of over 10,000

authorized Chevrolet dealer service stations in the United States alone. Come in! Learn all the other reasons why it's wise to choose a Chevrolet Six!
