STANDARD COOKIE RECIPE SPEEDS UP THE BAKING

No homemaker knows how easy it is to make cookies until she has used self-rising flour. By using this flour, time is saved because the baking powder and salt have already been added to the flour in right proportions, which makes for dependability.

The woman who uses self-rising flour for her cookies, pastry, cakes, and biscuits never has to apologize for her products, for they are always of the same excellent quality. It pays to have one standard ookle recipe which can be varied from one baking time to the next. This makes for ease and quickness

Conoco Germ Processed Oil Saves Motor

When Walter H. Freed reached Pueblo. Colorado, after a 41-mile drive from Colorado Springs, his car was so hot it had to be put into gear before it would stop!

He had plenty of Conoco Germ Processed Oil in the car. No steam was coming from the radiator, so he did not suspect the cooling system.

But a garage man found not a drop of water in the radiator! The 41 miles had been driven without water in the radiator-only

the oil to keep the motor from burning up.

Conoco Germ Processed Oil withstood this ordeal! Inspection of the motor revealed no damage done.

Convincing evidence of Germ Processed Oil's stability, of its sure protection under the most trying conditions! Proof that Conoco Germ Precessed Oil offers you the safest lubrication for

The oil that protects motors through such ordeals will lubricate your car better in every-day driving. For peace of mind, for economy and long motor life, change now to Conoco Germ Proc essed Oil at the sign of the Conoco Red Triangle.

> We neither encourage "dry radiotor experiments nor guarantoe success under all conditions. But unsolicited letter from motorists, now in our files, testify to this and hundreds of other unusual tests of Conoco Germ Process runs of ten to over fifty miles with the
