## Re-Moval Of County Seat Question Before The Voters Again

### Arrangement Going Ahead For I. H. C. Short Course To Be Held At Sudan Feb. 29, And March 1.

#### Littlefield Proffers Free Use Of City Hall As Inducement To Move County Seat To That City

#### County Commissioners Accept; Call Election For March 19

A petition bearing the names of hundreds of Lamb county citizens was presented at the regular term of Commissioners Court which was held at Olton Monday of this week asking for an election for the purpose of moving the County Seat from Olton to Littlefield. With this petition was also an offer by the Mayor and Commissioners of Littlefield for the free use of the City Hall at Littlefield for Court House purposes for a period of 10 years free, or at \$1.00 a year.

The offer of the free use of the Littlefield City Hall for Court House purposes was accepted by the County Commissioners and an election called for March 19, 1932.

Below is the offer made by Littlefield and the acceptance by the Commissioners Court:

**Littlefield's Offer**  
THE STATE OF TEXAS,  
COUNTY OF LAMB.

#### Irvin For Sheriff

Len Irvin, of Olton, formerly for five and one-half years sheriff and tax collector of Lamb county, has authorized The News to announce his candidacy for the office of sheriff, subject to the Democratic primary in July.

His statement to the voters is printed herewith. Mr. Irvin is an active citizen of the county and is interested in everything pertaining to the public welfare. He has an unusually wide acquaintance in the county.

To The Citizens of Lamb County:

After being solicited by hundreds of good people from all over the county, I have decided to make the race of sheriff, subject to the action of the Democratic Primary in July.

For the benefit of those who do not know me, I was born 43 years ago on a farm in Callahan County near the town of Cross Plains where I lived until I was 21 years old I then married and moved to my brothers ranch near Baird, where I worked for awhile, then buying a small farm in Eastland County where I lived until moving to Lamb County in 1923. Locating near Olton where I now live.

I served as deputy sheriff of Eastland County six years and a short time as City Marshall of Littlefield and was then appointed to fill out the unexpired term of Jay Carter as Sheriff and Tax Collector of Lamb County. At the end of this term I was elected Sheriff and Tax Collector which place I filled for four more years making a total of 5 1-2 years as your Sheriff.

I am only human and have made mistakes, but since leaving the Sheriff's office last January and going back to the farm I had lots of time to think and look back over my past record and experiences and can see where I made mistakes, and at my present age with twelve years of past experience as a peace officer I feel like I am better qualified to fill the office of Sheriff than ever before, and it is on these grounds that I earnestly solicit the vote and influence of all the good people of Lamb county, and if elected I will assure you of every effort to serve you to the best of my ability.

I also want to mention that when I was Sheriff before the office was combined with that of Tax Collector, which took up lots of my time and gave me lots of responsibility, that the Sheriff does not now have.

If elected, I will strive at all times to operate the sheriff's office with the least possible expense to the tax payers of Lamb County. I will urge at all times a closer cooperation between the sheriff and the sheriff's department and the citizens of the County.

I expect to make a clean race and will not resort to mud slinging, false rumors and etc., and it is my desire to see each and every one of you before the primaries if possible, but having to look after my farm and try to make a living my time will be limited and in the event I don't get to see you, your vote and influence is earnestly solicited and will be appreciated.

Signed: Len Irvin.

#### LOCAL MERCHANTS IN BIG PROGRESS DRIVE

### Unite To Put Our Community Into Its "Rightful Place On The Map"— Need Your Co-Operation!

Sudan's business and professional interests, literally speaking, are "up in arms!"

They're out to set things booming around this town. To give it a "charged" atmosphere. To make everything hum. And to get you citizens up on your toes in boosting Sudan into its rightful position on the map as a Great Community. To gain those ends, they have pledged their last dollar, if necessary, if need be!

Yes, folks, folks you're about to see the start of the most stirring campaign in Sudan's history. Not a political powwow. Nor a movement out of which anybody will garner a single copper. But—a real, honest-to-goodness, drive, to transform Sudan into a live community of uncheeked Progress and Prosperity with a future whose horizon shall know no clouds!

#### NEED YOUR AID

A noble and unselfish cause. Indeed. However, our local business people alone cannot achieve their ultimate goal. Eager though they are and willing to do more than their share, they need YOUR AID! YOUR CO-OPERATION! Your active and material assistance in cultivating this true COMMUNITY SPIRIT which alone can remove all obstacles that may find their way into the path of our fair town's Progressiveness and Development.

We must present a "solid front" in facing the problems of the future here. There must be a better understanding, a better working plan, a more neighborly spirit between the merchants and you citizens. After all, their interests are your in-

#### PRINCIPAL OF CIRCLE BACK SCHOOL DEAD

Mr. Stone, Principal of the Circle Back school, died at his home in the Circle Back community last Wednesday after a few days illness.

Mr. Stone was taken down Sunday night with a bad case of flu and then on Monday contracted pneumonia dying on Wednesday.

The funeral was held in the school building and interment was held afterwards in the Littlefield cemetery, with Stuart's Furniture and Undertaking Co. having charge of the body.

Mr. Stone is survived by his wife and two children.

#### ONE GIN CLOSED DOWN

Sudan three gins, Farmers Whiteside and Terry, have ginned 10893 bales of cotton to date. The season is nearly at its close, one gin having already closed down and the other two are not running full time. The Whiteside gin closed down Tuesday for the season.

The Farmer's Gin leads in ginnings to date with 3693, with the Whiteside Gin running a close second with 3650, and the Terry Gin third with 3550. It is probable that the ginnings for this season will reach the 11,000 mark.

Born to Mr. and Mrs. Coy White on February 8, an 8 1-2 pound boy.

#### Two Days—Six Full Programs—Crew of 4 Nationally Known Lecturers on Farm, Home, and Community. Discuss Problems in Practical Way

#### No Charge Will Be Made in Any Way. Everything Will Be FREE

The many problems of the farm, home and community in general will be discussed in an interesting and practical way at the two-day short course to be held here February 29 and March 1st by nationally known lecturers being furnished by the Agricultural Extension Department of the International Harvester company. The program committee reports that there will also be several numbers by local talent on the program which everyone will want to hear.

The lecture crew will be composed of Mr. H. S. Mobley, Miss Grace Marian Smith, Mr. L. A. Hawkins and Mr. John H. Hannon. All four are expertly trained, practical, honest-to-goodness folks whom all of you will enjoy meeting and hearing.

Mr. Mobley is one of the most prominent lecturers on agricultural and community subjects in the country. He has been a member of the extension department of the Harvester company for many years, and is superintendent of the Company's demonstration farm near Montgomery, Alabama, where so much is being done to show the value of diversified farming, crop rotation and dairying.

Mr. Mobley long was active in farmers' organizations, of the legislative committee of which he was chairman at Washington during the time such bills as the Farm Loan Bank, Parcel Post and Smith-Lever bills were discussed and enacted. For many years he has been a practical and successful farmer, and, looking at things from the farmer's view point, he is able to talk to farmer's as few other lecturers can today. As a result of his success as a live stock and alfalfa grower, and as a community builder, he has a fund of information, based upon experience, which makes his lectures on those subjects most interesting and helpful.

Mr. Hawkins is a practical farmer, who has raised on a farm, and has had the benefit of thorough courses in agriculture at both the University of New Hampshire and the Oregon State College. In addition he has

#### INSTALLS UP-TO-DATE GARAGE HERE

A. C. Phillips of Thalia, Ford county, Texas, has moved his garage equipment from the above mentioned place to the Hillard building on Main Street here.

Mr. Phillips has one of the most complete garages in Sudan, also carrying a complete line of parts. He was formerly owner of the Thalia Garage and has had over twenty-three years experience along his line. Mr. Phillips invites you to come around. See his ad on another page of this issue of the News.

Mr. Phillips was accompanied to Sudan by his family who now reside in one of the Grissom's residences in the West part of town. We not only welcome this new business to Sudan but also Mr. Phillips and his family.

accumulated a vast amount of information and experience as assistant horticulturist at the Alabama Experiment Station, as superintendent of an 1,800 acre peach plantation in Georgia and as horticulturist on a 75,000 tree apple orchard.

Mr. Hawkins has been a member of the extension department for nine years and has done extension work of a high order in practically every part of the country. He is a scientifically and practically trained speaker who discusses every-day problems in an every-day manner.

Mr. Hannon, who is a graduate of the College of Agriculture of the University of Illinois, has worked with the Extension Department for eight years. For the past six years he has worked all through the South, gathering much valuable information and experience from a broad viewpoint which has given him a wonderfully helpful understanding of conditions in that part of the country. He has had much practical experience and training in landscaping which will make his talks on this subject instructive and entertaining.

Miss Smith grew to womanhood on a farm, taught in both rural and city schools and for a number of years has been an extension worker for the U. S. Department of Agriculture and the Harvester Company. Her talks are always full of helpfulness and inspiration. Miss Smith has a message for men, women and children, whether they live on the farm or in town. Her experience and ability in helping others makes her part on the program most interesting and valuable to any community.

Every talk will be illustrated either with lantern slides or large charts, and moving pictures will be shown at each session. Questions will be welcomed on all talks, and everyone can get much valuable information from round-table discussions of his problems.

Everything will be free. Make a note of the date and let nothing prevent your attending every meeting.

**BLUE BONNET H. D. CLUB**

The Blue Bonnet Home Demonstration Club met in the home of Mrs. G. A. and G. W. Benefield near midnight last Wednesday afternoon, being such a disagreeable day, only ten were present. Mrs. W. I. Ataway acted as president, Mrs. Logan being absent. We only had a business meeting. A committee was appointed to go to Lubbock and visit our demonstration agent, Miss Mashburn, who is in the hospital in that city. James W. I. Ataway, E. L. Farbrough and G. W. Benefield visited Miss Mashburn Thursday afternoon and presented her with a pretty pot plant from our club.

We also had one new member Mrs. Edgar Wright. Mrs. Wright was formerly a member of the Sunshine Club and is an outstanding club member in the county, therefore we are indeed glad to welcome her into our club. She and her husband were recently moved into our community.

Mrs. Benefield served dainty refreshments after the club adjourned.

The next meeting will be held in the home of Mrs. Chas. Crawford on Wednesday, Feb. 17th. Miss Mashburn may be present if able and demonstrate sewing a chair. Mrs. Edgar Wright will act as leader. Subject "Bed-room of Comfort".

The Ruby Club also meet with us on the above date. All members and those wishing to become members, come that day and lets make a good showing for the Ruby Club. Remember, the 17th.—Reporter.

**CARE OF BABY CHICKS YOU SHOULD—**

Prepare for your baby chicks in advance of their arrival by having the brooder house ready and the stove tuned to have complete control of the heat. Heat at the outside edge of the hover should register 90 to 100 degrees, the bulb of the thermometer should be about five inches above the floor at this point. Temperature should be kept at this degree for the first four to six weeks. (Use a thermometer, do no guess at the temperature.) After that it may be reduced.

Have twice the capacity rating of the brooder stove, as chicks grow very fast and will outgrow the rating in a very short time. For instance 1000 capacity brooder stove will accommodate for the brooding period, 500 baby chicks; 500 capacity brooder stove will accommodate 250 baby chicks for the brooding period. And no more.

Have a house 14 by 14 or 16 by 16 for a brood of 500 baby chicks. The stove should be placed in the center of the house to give room all around the hover for the chicks to keep warm. 250 chicks may be successfully brooded in a 10 by 12 or 12 by 12 room. It is a mistake to crowd growing chicks.

Figure out how many chicks your equipment will accommodate, the cost of chicks, feed and coal, and then buy just the number you can properly care for. (Don't buy 500 baby chicks and forget the feed bill, coal bill.) To properly feed and furnish heat for a brood of chicks it will take about 200 pounds of feed to the 100 chicks to bring them up to 2 1/2 lbs, it will require 1-2 ton of coal to operate a brooder stove during the brooding period. Don't buy 500 chicks if you are only prepared to care for 100.

Not use derelict building for brooding, an old building after it is cleaned and repaired makes a satisfactory brooder house. The building should be thoroughly cleaned, and kept clean. Should be tight on three sides with windows for light and ventilation on the south or southeast side. As a usual thing more labor than expense is required in getting ready for a brood of baby chicks.

Feed your chicks a good starter for at least six weeks, then feed growing mash until they are four or five months old, then begin feeding laying mash and continue to feed good feed and plenty of it. To reduce the cost of feed, home grown grains may be fed along with the starter, growing mash and laying mash. If mash feed

is kept before the chicks at all times and cracked grain is fed twice daily the consumption of mash will not be heavy, charcoal, oyster shell and sand should be placed in troughs or boxes and kept before the chicks at all times. Fresh water and plenty of it should be within easy reach of the chicks constantly.

Do not use dope in the drinking water, pure, fresh, clean water before your chicks at all times is much more satisfactory and less expensive than to use dope in the water. It has been our experience to start trouble as soon as the use of dope was begun. If it becomes necessary to use dope in the water to raise a bunch of baby chicks there is something wrong with your brooding, feeding or watering system and all the dope in the world will not help. Follow common sense brooding methods and you will not need to spend a lot of money for useless and injurious dope.

Call the dogs when a dope peddler appears and show him the gate. His wares are worse than useless and will cause you loss and trouble if his dope is used.

If by neglect trouble should occur in your flock and medicine is needed, then, go to your drug store and buy medicine that is guaranteed to give satisfactory results or refund your money. Simple remedies that are inexpensive will often help and also avoid trouble.

Keep clean chicks, clean ground, clean brooders, clean feed, clean water, clean hoppers and no overcrowding.

**Too Much ACID**

MANY people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.  
You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief.  
Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drug store.  
The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia tooth-paste.

**CHILD need REGULATING?**

**CASTORIA WILL DO IT!**

When your child needs regulating, remember this: the organs of babies and children are delicate. Little bowels must be gently urged—never forced. That's why Castoria is used by so many doctors and mothers. It is specially made for children's ailments: contains no harsh, harmful drugs, no narcotics. You can safely give it to young infants for colic pains. Yet it is an equally effective regulator for older children. The next time your child has a little cold or fever, or a digestive upset, give him the help of Castoria, the children's own remedy. Genuine Castoria always has the name:

If you notice an unusual amount of distortion in your radio this week, don't blame the receiver. The Radio Commission has made all stations stay within 50 cycles of their assigned frequency. \* This is causing the stations to tune finer and until they get their stations worked over there is bound to be some extra distortion.

We congratulate L. E. Slate and the Sudan Mercantile for getting the International Harvester Short Course. It should be of great benefit to this section.

Roy White is another Philco booster. He bought one last week, ask him about it.

"Strike when the iron is hot" and if you don't hit, keep striking until you do.

Lady—You bad boy! How would you like to have some big rough animal chase you up a tree like that?

Game Warden—Hey! young man what's the idea of hunting with that last years license?

Buy—Believe me lady, if I could climb a tree like that I wouldn't give a whoop who chased me.

Biles—Oh, I'm only hunting at the birds I missed last year.

Opportunity can knock and maintain its popularity but you'd better not try it.

## THE MODERN WAY

The old Dutch housewife kept her supply of money in a niche in the chimney, but the method always involved danger and loss.

The modern method of paying bills is by check.

The danger of having money in the home, the inconvenience of a shortage, and the difficulty of checking up are all eliminated by the check book. Are you still using obsolete methods? If so, you had better start an account in this bank and pay your bills by check.

We want your business and will be glad to render you courteous treatment.

# BAYER ASPIRIN

is always SAFE

beware of imitations

Unless you see the name Bayer and the word genuine on the package as pictured above you can never be sure that you are taking the genuine Bayer Aspirin that thousands of physicians prescribe in their daily practice.

The name Bayer means genuine Aspirin. It is your guarantee of purity—your protection against the

imitations. Millions of users have proved that it is safe.

Genuine Bayer Aspirin promptly relieves:

Headaches Neuritis  
 Colds Neuralgia  
 Sore Throat Lumbago  
 Rheumatism Toothache

No harmful after-effects follow its use. It does not depress the heart.

**FRIENDSHIP NEWS**

A group of Friendship folks attended Mr. Stone's funeral at Circle Back last Thursday.

We were very glad to see Mrs. Boyd up again after being confined to her bed with the flu for several days.

C. H. Ivey and Otto Workman motored to Pep Sunday afternoon.

Misses Rachel Workman and Gracie McNeme were dinner guests of Mrs. Horace Swindle.

Mr. and Mrs. Roddam and family spent Sunday afternoon with Mrs. M. F. Workman.

Mr. Duckworth met with a group of Friendship folks Monday afternoon at the home of Mr. and Mrs. W. T. Fowler's for a demonstration for treating poultry for diseases, and also gave his method of spraying the poultry houses to get rid of lice and mites.

**FRIENDSHIP H. D. CLUB**

The Friendship H. D. Club met February 9th in a called meeting, with only five members present, there being so many of the Club members folks sick with the flu, was the cause of such a few being present but hope by next club day that all the sick folks will be well again. We had a very good lesson, one we all like to hear and read about, "George Washington." Miss Mattie Ola Fowler was the leader and she gave us a very interesting story of Washington's life, also some of his ancestors life which was enjoyed by all. Then the meat show which is to be held at Littlefield, March 22 was discussed. We were all very glad to hear that Miss Ruby Mashburn was doing fine and was expected to be brought home Wednesday, February 10. The Friendship Club cordially invites the Sun Shine Club to meet with us next club day, February 19 at 2 o'clock at Friendship church.

We invite all who will to join the club, and visitors are always welcome.—Reporter.

# THE HAND OF FELLOWSHIP

is extended to you. The business and professional interests of Sudan want you to grasp it. Feel the strength of its Sincerity and Eagerness to satisfy. Learn of its actions in moulding this—our town—into a greater and more enterprising community.

It's that hand of Fellowship, of Welcome, of Ambition and Determination which has done so much in contributing to the welfare of our community.

Just think of the civic development that has been ours—thanks to the loyalty and broadmindedness of our local commercial interests...

What motive prompted it? Certainly not conceit nor selfishness. Just one noble purpose was in back of it all—that of contributing to YOUR happiness, YOUR welfare!

Then—think of the Spirit that has built these many improvements. How unhesitatingly the business and professional men of Sudan have come forward with financial aid—often when they could least afford it. Yet, they did it with a generous heart and a cheerful smile. That's the spirit which has made Sudan so progressive.

All those interests ask in return is your CO-OPERATION in building an even BRIGHTER FUTURE for this community.
