TECH PREPARING FOR HARD SEASON: TO PLAY TEXAS A. & M. AT AMARILLO SEPT. 24

Lubbock, Sept. 22—With the first of a schedule of twelve games behind them, the Texas Tech Matadors are laying serious plans this week against the opening of their first season of sustained big time football.

Coach Pete Cawthon takes his Scarlet and Black warriors to Amarillo Saturday, Sept. 24 to meet the Texas A. & M. College Aggies in the Tri-States Fair entertainment feature. The Aggies are the first of three Southwest Conference teams to face the Matadors this season.

Last Saturday the Matadors introduced themselves to local and sectional fandom by steam rolling the Panhandle Aggies of Goodwell, Okla., 44 to 0, in a game that saw every member of the 53-man squad get into action.

The next home game, with S. M. U. as the opponent, will be played on the night of October 1. Reports from Dallas say that Ray Morrison will bring his aerial circus to Lubbock in fine fettle and anxious to win over the Matadors. The famous S. M. U. band and a special trainload of Dallas rooters will follow the team here.

A special train will carry Lubbock and South Plains rooters to Amarillo Saturday, leaving here at 9 o'clock Saturday morning and starting the return trip at 11 o'clock Saturday night. A reasonable round trip rate has been arranged. Tickets to the game and for the train ride are on sale now at Lubbock.

Facing the toughest schedule ever attempted by a Texas Tech team, the Matadors take on such clubs as the University of Arizona and the University of New Mexico in Border Conference games, and will entertain at Lubbock the Notre Dame "B" team on October 28. The Colorado College of Hines, Baylor University and Simmons University are other strong teams appearing on Texas Tech's 1932 schedule.

Notice of appeal was given by the lawyers of McGavock.

The election still stands with Simon D. Hay 2034 votes and A. H. McGavock 2032 votes for the office of county judge.

Lamb County Free Fair Is A Success

The Lamb County Free Fair which was held at Amherst last Friday and Saturday was a big success in every way. The exhibits were unusually good considering the fact that the county suffered somewhat from a drought in the summer.

About ten thousand people visited the fair and saw the large assortment of exhibits. Miss Myrtle Murray, home demonstration agent leader and Miss Izora Clark, home demonstration agent from Castro County judged the women's exhibits, while D. F. Eaton, Lubbock county agent, and R. N. McClain, Lubbock assistant county agent, judged the livestock and the grain exhibits.

The judges complimented the exhibits as to quality and the way they were shown and displayed.

The carnival attraction, dance and boxing added much to the entertainment of the crowd as well as the football game Friday afternoon and the horse races Saturday afternoon.

Everyone attending the fair from Sudan enjoyed the entertainment very much.

AMHERST WARDROBE DEMONSTRATOR WINS FIRST IN COUNTRY

"One can be well dressed and yet not expensively dressed," a home demonstration agent said. I knew that if that statement was true I wanted to know how it could be done. So when my club asked me to take the wardrobe project as demonstration I did not hesitate I had been doing club work for three years, therefore, I knew I would learn much about dressing myself even if I did not win a place with my work. Now I surely feel repaid for what I did.

First of all I took careful inventory. My closet, which was long and rather narrow with only two poorly-placed shelves at either end, was first re-arranged and repainted.

After careful consideration I decided I could manage on \$50.00. About 28 percent or \$13.70 would be needed for other clothing; 35 percent or \$17.70 for foot wear; 19 percent or about \$9.62 for underwear; 6 percent or about \$3.00 for headwear; 12 percent or about \$6.00 for accessories and cosmetics.

A suit was re-made. Two crape dresses were dyed and combined to make one up-to-date frock. A black dress was combined with flowered crepe to make a negligee for fall. Even a couple of hats were cleaned and reshaped. So many women do not like to wear made over things, but I enjoy wearing everything that I have.

I have learned from this work that you do not have to have new materials to make a pretty dress or hat and that the materials do not have to be the same color.

I have learned much about patterns, linens, styles and colors, especially the ones that a person of my type should wear but most of all, I have learned that one must have confidence in oneself.

I have earned about half of the money I spent on my wardrobe by sewing for others. Since the first of November I have made forty-six garments for myself and others, twenty-nine of these being dresses.

Mrs. J. T. Graham, wardrobe demonstrator of the Amherst home demonstration club.

TRENCH SILO SAVED FEED CROP

R. L. May, dairy demonstrator, co-operating with D. A. Adam, County Agent, has been in a dry streak all year, and when his 7-acre corn crop began to "fire up," he immediately cleaned out his trench silo, and filled it with this corn to make silage. As a result of two days work of his two boys, one hired hand and himself, he now has 15 1-2 tons of No. 1 silage, which corn would have been a total loss had it been left in the field.

Jack Sullivan, who was injured in a gun battle with Texas and New Mexico officers, last week was removed from Albuquerque, New Mexico hospital, to a Lubbock hospital, Wednesday, after Sheriff G. R. Crim had secured extradition papers from the Texas and New Mexico governors.

Sheriff Crim left last Thursday for Austin to see Governor Sterling and to get his signature on the extradition papers. From Austin the sheriff came back to Sudan then he and Mrs. Crim went to Santa Fe, New Mexico to get Governor Arthur Seligman of New Mexico's signature on the papers. Sheriff Crim and wife were delayed in Santa Fe for more than 24 hours by the governor's secretary before getting the papers.

When the sheriff read the papers to Sullivan he seemed very calm and took it in a joking manner. Sullivan was carried from the hospital to the train on a stretcher and placed in a states room. Ab Anderson of Littlefield, who had been guarding Sullivan since shortly after his arrest, also guarded Sullivan on the train.

Sheriff Crim and wife made the trip from Albuquerque to Clovis, New Mexico via automobile. At Clovis the Sheriff joined Ab Anderson and Sullivan, and accompanied them on into Lubbock where Sullivan was placed in a hospital. Mrs. Crim drove to Sudan from Clovis in her automobile which suffered a broken spring in the trip from Albuquerque.

X-ray pictures were made of Sullivan and it was found that lead was scattered over his body. The special bullets that the sheriff force used were hollow nosed and explode when they hit, therefore, where these bullets struck they had scattered the lead. The two bullets in his left leg were whole, there for this would indicate that he shot himself in the leg when his arm was broken.

His left arm was operated on this morning in order to remove a part of the shattered bone. The lead will not be removed, as it is so scattered through his body, stated the doctors.

As soon as Sullivan is able he will be removed to the Lubbock county jail for safe keeping. He is under special guard at the hospital now and no visitors are allowed to see him.

According to Sheriff Crim who investigated Sullivan's record while at Austin, Sullivan has been sentenced to the penitentiary. One was a 50 year sentence for robbery and another was for three years for forgery of checks at Littlefield. He served two of the three year sentence. He now faces charges for the robbery of the Olton State Bank.

Three cars were found at the place where Sullivan surrendered which were believed to be stolen as the numbers had been chiseled off of them. At the suggestion of Sheriff Crim New Mexico officers are to bring out the numbers by a special process and trace the cars to see whom they belong to. Another gun was found at the scene of the capture which Sullivan admitted was in his possession at the time he surrendered.

PROSPERITY ALWAYS RETURN

During the past few weeks there has been a new spirit of optimism along the economic front. It is not an optimism of the "prosperity is just around the corner" variety. It is, instead, well grounded in fact. The seasonal influences have been favorable. Commodity prices have shown a steady upward tendency. Stocks of goods of all kinds are rapidly becoming depleted, necessitating new buying. The outward flow of gold has been checked and reversed. And, finally, conditions abroad have definitely improved.

Best of all, is the feeling of confidence that is growing in the public mind. There can be no recovery without that. And when, along with it, the economic indicators point the right way, we can look forward with a feeling of hopefulness.

EMPLOYMENT AND THE COST OF GOVERNMENT

Some persons argue that drastic cuts in the government will make the unemployment problem still more intense. They reason that the dismissal of employees now drawing a living from the public treasury, would still further contract purchasing power, and cause additional retrenchment.

The effect should be just opposite. Burnard Baruch points out that an orgy of spending by the government impairs credit and makes the future of money uncertain. Investors are frightened, and those who can afford to spend, hoard what they have. Domestic trade declines and, inevitably, more unemployment results. It is a vicious circle to which there can be no end until we have genuine government economy.

It is self-evident that reasonable and inexpensive government is the friend of employment—excessively expensive government is its enemy. There can be no question that many industries, which would now be employing men and laying plans for expansion, are retarded by a dread of still higher taxes. They have reached the point where increased tax rates mean bankruptcy. Taxation is the foremost economic issue of the day—because it regulates employment, investment and industrial development.

WHAT IS THE ANSWER?

Within recent months there has been a lot of publicity given to some so-called "taxless towns" in Oklahoma, advertised to have secured this enviable position by profits from municipal utility plants. But when a hopeful stranger sought relief in a "taxless paradise" he found a long list of property for sale on the annual delinquent tax list.

THE RUBBISH PEDDLERS

In a recent article in the Atlantic Monthly, John Maynard Keynes, one of the foremost economists of the world, said that "in the United States it is almost inconceivable what rubbish a public man has to utter today..."

The reason for that is that most public men, particularly those in high office, minimize the intelligence of the public. They have seen themselves and others swept into office on platforms consisting mainly or solely of ancient platitudes, sonorous evasions, polysyllabic misrepresentations, and appeals to local prejudices. They have then acted accordingly.

The public is largely to blame for this condition, not because of lack of intelligence, not because of a laissez faire attitude toward the business of government. If the average well-informed citizen paid as little critical attention to his own business as he does to the public business he would be bankrupt.

There are grounds for hope that present conditions have awakened the voter. They have tended to make us think—to look at government and govern-

Diet Didn't Do This!

HAPPY little girl, just bursting with pep, and she has never tasted a "tonic!" Every child's stomach, liver, and bowels need stimulating at times, but give children something you know all about.

Syrup Pepsin. This gentle stimulant will soon right things! The bowels will move with better regularity and thoroughness. There won't be so many sick spells or colds. You'll find it just as wonderful for adults, too, in larger spoonfuls!

Follow the advice of that famous family physician who gave the world Syrup Pepsin. Stimulate the body's vital organs. Dr. Caldwell's prescription of pure pepsin, active senna, and fresh herbs is a mild stimulant that keeps the system from getting sluggish. If your youngsters don't do well at school, don't play as hard or eat as well as other children do, begin this evening with Dr. Caldwell's

Get some Syrup Pepsin; protect your household from those bilious days, frequent headaches, and that sluggish state of half-health that means the bowels need stimulating. Keep this preparation in the home to use instead of harsh cathartics that cause chronic constipation if taken too often. You can always get Dr. Caldwell's Syrup Pepsin at any drug store; they have it all ready in big bottles.

Mr. Smith Says:

The daily attendance is averaging above 95 per cent. Six weeks grades will be given out next Wednesday afternoon. School work in general has been satisfactory, however there are too many low grades and failures. Parents are asked to observe your children's standing in school. The public speaking class will present a play soon.

Athletics

The basket ball teams are getting along very nicely with their practice. The senior girls played a practice game with the junior girls Friday night. The senior girls won by a score of 46-6, but the junior girls showed good sportsmanship and an evidence of strenuous practices. They are expecting to do much better in their next game.

The following girls played on the Senior team Friday night: Meiba Phillips, forward, with a score of 32 points; Naoma Phillips, a guard; Catherine Caruth, a forward, with a score of 8 points; Zora Withrow, forward and jump center; Ethel Alexander acting as substitute forward and jump center, with a score of 2 points in the last quarter of the game; Mary Slaughter, guard, and Louise Shaffer, a guard who was changed to a forward's place in the last quarter and scored 2 points.

There were but a few of the first team players at the game; however, the players that played did their very best.

The following girls played on the junior team: Forwards: Kathryn Hunt scored 4 points, Louise Stuart scored 2 points, Bobbie Lee Killingsworth, forward and jump center, and Xezvus Cockraham substitute forward and jump center. Guards: Juanita Hazel, Walter Marie Carruth, Mary Will McNeely, Virginia Vereen and Alice Marie Glasscock were substitutes for the game.

There was also a game between Bula and Whitharrell on the Sudan court. Bula won the game by a large number of points.

The outsiders team of boys played Mr. Whittle school team. The school team lost by a score of 27-7; however, this was not Mr. Whittles complete first team.

Both boys and girls are expecting a game Friday night if it is possible to get one with some neighboring town.

Mr. McElreath's teams are still playing on their series of games.

At present they stand as follows:

Played	Won	Lost
Gents 5	4	1
Jelles 5	4	1
Giants 6	4	2
Fire Crackers 5	3	2
Sissies 6	3	3
Cubs 5	2	3
Tuffles 6	2	4
Chiefs 6	1	5

The Gents lost a game to "Fat" Calcutt's hard-playing Fire Crackers the past week. The Gents lost of a game put the jellies in a tie with them for first place.

The surprise of the past week was when the Chiefs defeated the Cubs. This is their first game to win. They have added new men to their team and expect to get out of the cellar.

The main grammar school boys' team played the junior high school boys Friday at noon and were beaten by a score of 16-6.

Miss Branch has picked her girls' team from the low sixth, high sixth, low seventh and high seventh. They have begun practicing and we are expecting a game with the junior high school girls some time soon.

Songs by Assembly.

Sure We Got'a Library

Say listen, you fellow students, we got'a swell library and a keen dictionary too. Let's use 'um every day—what do you say? If you've nothing to do in the study hall check out one of those good reading books or paper of some sort and read them.

Now don't forget to use the library. Its a "dilly"!!!

The Boy Scout Room

Written on the board in the Boy Scout room is the oath and laws which a boy has to pass before he can become a Tenderfoot scout. On the bulletin board one sees eight knots which he must also learn on entering the scout work.

On the south wall is a picture of George Washington on the north we find a flag of the United States. In front of the room and on the desk one finds the signal flags and a goat skin. On the desk are three scout books.

On the table in the center of the room there are arrow heads of all sorts, shells and rocks.

Jim Shuttlesworth made an Alamo out of an apple box which is on the table also. Chairs are grouped around the room. Many different varieties of multicolored leaves are on the table too.

Boy Scout Picnic

Twenty-three boy scouts met in front of the high school building last Sunday at 11:00 o'clock to go on a picnic. Buster Dyer carried all of the boys in Mr. Shuttlesworth's truck to the Halsell ranch, north of Sudan. After the scouts arrived they made a camp fire and prepared dinner. Afterwards they hiked to a sandhill about a mile away. While there they played several games then they returned to the truck. Mr. Branch was very nice to the scouts and had a surprise for them which was a sack of doughnuts. On the way back home they visited a watermelon patch.

The Operetta

Just imagine Bonnie Belle Lyle being Chanita the beautiful gypsy girl.

Can you imagine Wayman Gordon father of Chanita.

Juanita Pierce the fat nurse Daya, who had looked after Chanita all her life.

Picture Weldon Finley, being the minstrel of the gypsy tribe and the lover of Chanita.

See if you can imagine Eunice Moore a very aristocratic aunt of Chanita's and a Baroness Stanesco.

And above all Damon Phillips, Baron Stanesco, the uncle and husband of Eunice.

Their son, Karnard Stanesco who is Eldon Nichols, and a very romantic boy is to be wondered at.

Emil, Kanrad's servant, who is to be Clyde Robertson, jr. will keep you guessing.

Then last but not least some gypsy girls who are very good friends of Chanita are: Willie Mae Clemens, Itaskah Maxwell, Gaston Maxwell, Kathryn McElfresh, Hazel White, Margaret Erle Gibbs, Edith Gann, and Marjorie Alderson.

Chanita an Operetta of a

Gypsy Romance will be given by the choral club in the near future. Watch for the date.

Talk—"The Needs of Our School"—Mr. Davis.

DEAR STUDENTS:

I have noticed that students drop out of classes and finally out of school. The reason most of them quit is because they think school will do them no good. If every student came to school with the feeling

that he could accomplish results if he tried, he would make good grades and succeed. Doesn't each student feel it his duty to talk to the boy or girl who wants to leave school? I think we should encourage them to remain. Our school, one of the best in the state, should try to keep all of its students. So friends, let us keep up our work and boost our school. A Fellow Student.

Jokes

Miss Bobo: "Oh, Mr. Smith the next room is on fire!"

Mr. Smith: "Why worry me I'm not in the next room."

Miss Lewis: "Tell me what a tariff is?"

Kathryn W.: Your stockings are sure to tear if you don't put them on carefully.

Bernice B.: "Oh, I wish I were like the rivers!"

Miss Sikes: "Why?"

Bernice: "So I could follow my course without leaving the bed."

To A Pencil

I know not where thou art. I only know

Thou went on my desk, beautiful

And contended a moment back

And as I turned my head to view the clock,

Some heartless wretch went west with thee,

I know not who he was nor shall ask.

Forchance it may have been the guy I stole it from

Miss Reeves: "James, if you had a little more spunk you could stand better in your class. Now do you know what spunk is?"

James I.: "Yes mam, its the past participle of Spunk."

Mr. Whittle looks as if he would make a good piano mover

Miss Lewis (Seeing Charlie talking to Ouida in the study hall) "What are you doing now?"

Where would you be?" **Ode to the School** The melancholy days are come The saddest of the year, Of falling grades and hated test The six weeks end is here. Heaped in the depths of each ones locker the pages so long lain dead. They rustle to life and each content crammed into some one's head. But comes the test, memory is flown and from the heart all hope. As from the desk the teacher rules like a Roman Pope. Where are the thoughts sweet to each pupil, that yesterday sprang so freely. In mind with history, English and mathematics reeling? Alas! They are gone, flown these minds of our. They lie in some dark corner there to remain for hours The mind is calling where they lie, but it calls in vain. Those thoughts are each and every one centered on our next "basket ball game." **When I get A "Boy Friend"** I want him to be like Myrtle's boy friend; when I attend school await my return patiently. I want him to be like Doc; with deep sentimental, dark brown eyes. I want him to be like Winifred, home loving and sympathetic. I want him to be like Eldon; well dressed and stylish. I want him to be like A. B. **Smilin' Charlie Says**  "What's become of that pure and cleansing effect th' women folks was goin' put on t' politics?"

intelligent and four straight A's I want him to be like Ellen's boy friend; "out of town". I want him to be like Charles Cartwright; friendly and agreeable. I want him to be like Charlie Carruth; the "pater" has some dough.
