Demonstrations and Cooperators work

A field day tour is being sponsored by the Lamb County Agents, D. A. Adam, and Ruby Mashburn on Friday January 27. Let's make a trip over the county together and see what our neighbors are doing.

All cars that can possibly get together will leave Amherst-corner of the First National Bank building at 9 a. m. and will stop at fourteen or more farms to see: baby beef feeding demonstration, both adult and 4-H club boys; 4-H pantries, trench silos, improved bed room and living rooms. An A-1 Vineyard, two dairy demonstrations; and other things of interest. We shall leave Amherst, travel north toward Spring Lake, then to Olton and vicinity; Lunch will be served at Olton by the Olton Home Demonstration Club; Afternoon we will travel south toward Hart Camp, Spade, Littlefield Amherst and Sudan.

Let's make this a big day; and we have something to show you that we think will be educational to everyone in attendance.

Trusting you will come and bring your neighbors as every person in Lamb County is invited to attend.

SERVICES WELL ATTENDED

We were delighted Sunday with the fine attendance at church services, both morning and night. Brother Thomas, our pastor brought us a fine message at each service. Interest in all lines of endeavor in our church work is improving. The young people and juniors are becoming more interested in the League work. The Missionary Society is having a good attendance, and our Sunday School is taking on new life. Let us all continue to pull together so that we may discharge our responsibility to God, to the community and to ourselves.

Regular services Sunday morning 11:00 a. m. Evening worship 7:00 p. m. Sunday School at 10:00 a. m. Come worship with us and you will find a friendly church. Let us speak of our church service to our friends and neighbors; they may be hungry for an invitation to start attending church services.

During these times of depression and economical strain many have advanced theories for a successful business career. Individuals and nations have sought in vain for a sure road to prosperity. Come to church Sunday and learn God's plan. Subject Sunday morning "Guaranteed Prosperity."

WOMAN'S MISSIONARY SOCIETY MEETS

The Woman's Missionary Society met Monday afternoon at 2:30, at the church, with seven members present. Mrs. Thomas led the devotional, after which a short business session was held.

Plans for a social to be held on Monday, January 30, were completed. TTis social is to be at the church and you are cordially invited to be present. All ladies of the Methodist church are especially invited and any others who care to come.

We have said it many times before, and it will bear repeating again: An excise tax on gasoline is justifiable only when the proceeds are used for the building and maintenance of roads. Any of the money that is taken and used for any other purpose is robbery.—Jackson (Miss.) Daily News.

TARWATER CHOSEN CHAIRMAN COMMITTEE ON AGRICULTURE

A. B. Tarwater, Plainview, representative from this district to the current 43rd Legislature was recently appointed chairman of the important Committee on Agriculture by Speaker Coke Stevenson. This is Tarwater's third term as representative.

The baby was 11 months old. Interment was made in the Sudan cemetery Saturday, and funeral services were conducted Sunday afternoon by the Rev. Cole at the Baptist church.

Aside from the lack of ethics in gasoline tax diversions, there is a very important reason why this money should be left in highway funds. Money spent in road building goes largely into the pockets of workmen.—Washington D. C. Star.

Every state entered into a virtual compact with the motorists that gasoline taxes would be used only for road building and maintenance and, when the needs for those purposes had diminished, that the tax would be lowered. Special taxes on motorists as a class must be safeguarded from diversion, and if unorganized effort fails to protect them there will be organized effort.—Philadelphia Public Ledger.

R F C RELIEF WORK EMPLOYING MANY MEN

The R F C street work started Monday and a number of men were employed during the first of the week. But, on account of some delay in securing gravel and sand, the work has not progressed as rapidly as was expected.

By the first of next week it is hoped that work will get underway and no more delays will be experienced, so that the men needing the work, will have a chance to earn enough to supply groceries for their families, while their needs are serious.

One block of main street was fenced off and the work of putting in the curbing started at the Sudan Drug Store, and up to today, 80 feet of the curbing has been run.

Only one block will be paved at a time, and when finished another block will be started.

LAMB COUNTY TAXPAYERS' LEAGUE MEETING

According to information at hand the Lamb County Taxpayers' League will meet at the Friendship church on Tuesday night, January 31. A large attendance is expected at this meeting. It is the purpose of this organization to extend its work in co-operation with all school districts in Lamb county.

Merchants and business men of Sudan are requested to be present for the regular Business Men's Meeting, Monday night at the I. O. O. F. Hall. There are several items of very great importance to be attended to in regard to "putting over" a Trades Day for this community. We believe this move to be of mutual benefit to the community as a whole. It is the purpose of this organization to furnish the best market possible for all produce brought to our stores. At the same time it is our purpose to give our customers the benefit of the lowest possible price on merchandise they buy. In order to make this proposition a success it will require the co-operation of all the business men. Don't get the habit of letting "Bill do the work," and you reap the results. Get into the game and let's give our customers the best service possible.

DISARMAMENT AND BIGGER NAVIES

One of the perverse signs of the times is the fact that the 1932 edition of "Jane's Fighting Ships," just published in London, contains more pages and more photographs than any edition printed in many years.

"Jane's Fighting Ships" is a compendium of the world's navies. It contains a picture and a complete description of just about every warship in existence documented with painstaking care. And at the close of a year which naval disarmament has been discussed in every world capital without ceasing, this book finds that there are more warships to write about than ever.

This perhaps, convinces a lot of diplomats of giving mere lip-service to a cause in which they do not really believe. But it serves also to illustrate the painful fix in which the world as a whole finds itself these days.

The world wants peace very badly; it is still groggy from the effects of the last war, and it most devoutly hopes that some way can be found of setting international disputes without fighting.

But because the realities of world politics look more ominous than they have in years, and because no one is quite ready to believe that there exist in the world enough intelligence and good will to get around all of the sharp corners peaceably, nobody dares to go ahead and disarm. The world goes on building warships, and the editors of "Jane's Fighting Ships" bring out the fattest edition in many years.

Those of us who listen uneasily to all of the rumors of wars, can only be comforted by the fact that these expert editors give high praise to the new American 10,000 ton "treaty" cruisers.

Earlier editions have criticized these ships; they were too lightly armored, they rolled excessively, they vibrated too much, they made poor gun platforms. Now, however, it is reported that alterations have removed the objections and that the ships are extremely capable. We are, it seems, ready for a fuss.

But what a commentary the whole thing is on the half-hearted way in which we have pushed all of our fine disarmament projects! Instead of getting results, we have only a fat new book—and the assurance that the ships we are forced to build are, after all, better than had been supposed.

TECH. STUDENTS MAKE A COAT IN SCHOOL FOR GOVERNOR FERGUSON

Lubbock, Texas, Jan.—Governor Miram A. Ferguson has been presented with a coat which was entirely a product of Texas Technological college.

The wool was from sheep belonging to the school of agriculture, the cotton in the coat was grown in the campus. Both

the wool and cotton were cleaned, spun, woven and dyed by the students in the department of textile engineering. A student in the school of home economics made the cloth in the finished coat. It was presented to the Governor by President Bradford Knapp with the compliments of the college.

BIG ENROLLMENT AT TECH

Three hundred new students have registered at Texas Technological College this term, bringing the total for this session to 2248. The total enrollment for last year was 2053, making a net gain of 195 at this time. New students expected to enter at the spring term March 21 are due to bring the year's enrollment to a new high mark for the long term.

HIGH RATION OF YOUNG CRIMINALS

The Youths now behind prison bars constitute a large and increasing number of those arrested and finger-printed. And this in face of the fact that society has provided more agencies for the welfare of childhood and youth civilization has ever known before.

It has been commonly and frequently asserted that the boys of today are no worse than their fathers, grandfathers and sires of a hundred years ago. But the figures tell a sorry story.

IN MEMORY OF J. B. GARNER

The Death Angel visited the home of Bro. J. B. Garner, December 10, 1932 and took from our midst our brother and friend Bro. J. B. Garner.

He was born in Cherokee County, Georgia, in 1854. In 1876 he was married to Miss Nancy Cogle, and to this union was born ten children, five of them preceded him in death, and five living.

He leaves his dear old companion Mrs. Nancy Garner, three girls: Mrs. Stoveall, of Muleshoe; Mrs. Bridges, of Whiteface; Mrs. Armstrong, of Chillicothe; and two sons, John and Ves, both of Circleback, and also a brother of Bonohm, Texas. These to mourn his loss. I have known him personally for over thirty years and his home has been my home. He always stood for that which was right every where he has lived.

He moved from Georgia to Fannin County Texas, Hardman County, where he lived for a number of years. Later moved to Baily County, Texas.

He has been a citizen of Circleback community for the past nine years. He was saved and joined the Missionary Baptist church, fifty some odd years ago, and was a member of the Circleback Baptist church when death claimed him, he was loved and cherished by all, both young and old to all whom he was tenderly devoted. Today while the bright sun shines above, we feel that all we can do is to write a few lines in token of the love and reverence we had for Bro. Garner. Not that he needs anything that we can say to keep his memory fresh in the hearts of all who knew him, but because it is a pleasure to write of a dear friend and neighbor, as it is said, let his works praise him

at the Gates. Poor indeed would be the efforts of a poor weak mortal like myself to attempt to portray the excellency of our friend's character for he wore his character upon his face in all walks of life.

He was ever the tenderest and most generous of men, the life of a determined will, a tireless energy and a courage that never wavered.

Dark and thorny was the path he had to travel upon this cold and dismal earth, so often full of sorrow and pain, but how bravely, he bore his part, but the heavier the cross the brighter the crown. He did not believe he would be wafted to heaven on a flowery bed of ease but his religion was to keep the Lord's commandments and do His will.

Dear friend and father we know that we should not grieve for thee, for our loss is your great gain.

You suffered so much here and we know that you are only sleeping, waiting till the Savior comes to call you home, where you shall rise with your robes washed in the Blood of the Lamb, to dwell forever with the Lord and Savior, whom you ever loved and served so faithfully.

You have fought a good fight, finished your course and you have kept the faith, henceforth a crown of righteousness is laid up for you which the Lord the righteous Judge shall give at that day.

Father, thou art only sleeping, only gone to rest, only waiting, meekly waiting, upon the ever green shore, for your dear one's to clasp your hands once more. In that land beyond the raging sea, there is a home for you, there is a home for me, and there may we all be reunited, where sorrow never comes nor hopes are never blighted.

Loved ones and friends each and every one, may we meet Father Dear.

Editorial

Mr. Smith and Mr. Branch, we heartily welcome you to your new positions as superintendent and principal, respectively. We are happy that you have these offices and hope they will be enjoyable to you. Realizing the great duties incurred upon you, we are all going to unite in one body under the banner of unity, peace, and cooperation, and thereby endeavor to make our positions more pleasant for you.

We, also, wish to welcome Miss Love, who is now teaching the third grade. It will be remembered the she taught here in the years 1927-28-29. Miss Love received her Bachelor's degree from the University of Arkansas and her Master's degree from Texas Tech. We are happy to have her with us, and hope she will enjoy being among us.

An Honor To Sudan High
 I think Sudan High School has a great honor coming to her. It is the first time in history that Sudan boys and girls have won both of the first prizes in Basketball. The tournament was a great success and we had numbers of the visiting schools tell us how they enjoyed being here and they were looking forward to coming again sometime.

HELLO! Freshmen

On Thursday of last week, some twenty-one new students entered the high school building.

Of course they were "green," all freshmen are, and freshmen always will be until the end of time. This should not be held against them. It is up to the new students, however, to adapt themselves to the new school life as soon as possible, and it is only their failure to do this that should be held against them.

The sad part about it is that the upper classmen do not always reach out the proverbial helping hand. Sometimes it is considered smart to hinder

the new students as much as possible.

The editorial written to freshmen is generally filled with so-called advice. Usually any advice that is acceptable to freshmen is appreciable as well to three-fourth of the other pupils.

Such advice in a nutshell can be contained in three brief statements.

1. Do a decent amount of studying. Failure of promotion cannot be compensated by success in other lines.

2. Regard the teachers as human beings. They are not very different from yourselves. The old proverb may be changed to, "Teachers help those that help themselves."

3. Join some good extra-curricular activities. Put effort into them and you will get some real good out of the time you put in. This does not mean that studies should be neglected, but study alone may make one self-centered. Outside activities not only help one to meet people and be at ease while doing so, but they enable one to learn to cooperate with his fellowman. These are some of the essentials to success.

Mr. Smith Says

There is a large enrollment, the buses are crowded.

Pupils and teachers are cooperating very nicely.

The first basketball game in the play off between four counties will be Friday night between Sudan and Bula at Sudan. A small fee to defray expenses will be made and we will appreciate the presence of the people of this community at these basket ball games.

To The Patrons:

We sincerely appreciate the co-operation of everyone, and wish to thank those who attended the games during the tournament; those who helped us find places for the players to stay; and also those who were able to keep the players. Again we express our sincerest thanks and appreciation.

We also wish to thank Mr. Chesher for letting the winning teams in free at the theatre.

P. T. A. News

The P. T. A. met Wednesday, January 18, 1933. In the absence of the president, Mrs. Covington presided. A splendid program was rendered with some numbers from the third grade. Mrs. Broyles told a very interesting story. Miss White gave a talk on the life of Franklin and Mrs. May gave the Creed. Mr. Branch gave a very fine talk on "Thrifty". The P. T. A. will meet in a business session next Wednesday, February 1, 1933, at which time we hope to have our president, Mrs. McLarty, with us.

Athletics

The boys county basketball tournament was played at Olton last week end. Our boys won the tournament by defeating Spade 29-39, Amherst 42-21 and Littlefield 42-32.

The boys will go to Morton Wednesday night.

The girls will go to Littlefield Friday to begin their county tournament. The boys and girls are going to need everyone's support to win all these games so they might go to the district.

The grade school boys are practicing play ground ball now. The grade school girls are still playing basketball. They only meet three days a week, but they are still enthusiastic about their playing.

Pep Squad Organized

A group of about thirty girls met in the gymnasium Tuesday at noon and organized a pep squad. Lela Burnham was elected pep leader and Juanita Pierce was elected assistant leader. Miss Sikes is sponsor of this organization. The pep squad will go to Littlefield to see the girls' game. If you want to see a bunch of "peppy" girls be in Littlefield and attend the basketball games.

BUILT UPON SOLID ROCK—

Banks are a part of the economic blood and sinew of all community life. Without banks commerce and industry could not carry on, nor contribute to the economic welfare of the people.

In times of prosperity unusual demands upon financial institutions are few; therefore their stability is considered a matter of fact. But when conditions drop to normal or below—his then the fundamental soundness and foundation strength of a bank is tested.

This institution was built upon solid rock and built to stand the test of both good times and bad times. With adequate resources it stands today a distinctive power in the promotion of community progress. Make this bank your bank.

A World's Record

MORE than three thousand births without a single loss of either mother or child! That is the official Platt County record of Dr. W. B. Caldwell, in fifty years' family practise in Illinois.

No wonder mothers have such entire confidence in giving little ones Dr. Caldwell's Syrup Pepsin!

If you have a baby, you have constant need of this wonderful preparation of pure pepsin, active senna, and fresh herbs. A child who gets this gentle stimulant for the stomach, liver and bowels is always healthier. It keeps children's delicate systems from clogging. It will overcome the most stubborn condition of constipation. It builds them up, and is nothing like the strong cathartics that sap their strength and energy.

A coated tongue or bad breath is the signal for a spoonful of Syrup Pepsin. Children take it readily, for it is really delicious in flavor. Taste it! Take Syrup Pepsin yourself, when sluggish or bilious, or you are troubled with sick headaches and no appetite. Take some for several days when run-down, and see how it picks you up.

It is a prescription preparation which every drug store has ready; in big bottles, just ask anywhere for Dr. Caldwell's Syrup Pepsin.

SERVICES WELL ATTENDED

We were delighted Sunday with the fine attendance at church services, both morning and night. Brother Thomas, our pastor brought us a fine message at each service. Interest in all lines of endeavor in our church work is improving. The young people and juniors are becoming more interested in the League work. The Missionary Society is having a good attendance, and our Sunday School is taking on new life. Let us all continue to pull together so that we may discharge our responsibility to God, to the community and to ourselves.

Regular services Sunday morning 11:00 a. m. Evening worship 7:00 p. m. Sunday School at 10:00 a. m. Come worship with us and you will find a friendly church. Let us speak of our church service to our friends and neighbors; they may be hungry for an invitation to start attending church services.

During these times of depression and economical strain many have advanced theories for a successful business career. Individuals and nations have sought in vain for a sure road to prosperity. Come to church Sunday and learn God's plan. Subject Sunday morning "Guaranteed Prosperity."

TARWATER CHOSEN CHAIRMAN COMMITTEE ON AGRICULTURE

BETTY RUTH SERRATT DIES SATURDAY

Betty Ruth Serratt, small daughter of Mr. and Mrs. Jim Serratt, died Saturday morning January 21 at the Lubbock Sanitarium.

Betty Ruth took suddenly ill and was taken to the Amherst physician sometime Friday, but grew worse, so Mr. and Mrs. Serratt took her to Lubbock and found after reaching there that she had diphtheria. She only lived a short time after reaching Lubbock.

The baby was 11 months old. Interment was made in the Sudan cemetery Saturday, and funeral services were conducted Sunday afternoon by the Rev. Cole at the Baptist church.

Aside from the lack of ethics in gasoline tax diversions, there is a very important reason why this money should be left in highway funds. Money spent in road building goes largely into the pockets of workmen.—Washington D. C. Star.

Every state entered into a virtual compact with the motorists that gasoline taxes would be used only for road building and maintenance and, when the needs for those purposes had diminished, that the tax would be lowered. Special taxes on motorists as a class must be safeguarded from diversion, and if unorganized effort fails to protect them there will be organized effort.—Philadelphia Public Ledger.

R F C RELIEF WORK EMPLOYING MANY MEN

The R F C street work started Monday and a number of men were employed during the first of the week. But, on account of some delay in securing gravel and sand, the work has not progressed as rapidly as was expected.

By the first of next week it is hoped that work will get underway and no more delays will be experienced, so that the men needing the work, will have a chance to earn enough to supply groceries for their families, while their needs are serious.

One block of main street was fenced off and the work of putting in the curbing started at the Sudan Drug Store, and up to today, 80 feet of the curbing has been run.

Only one block will be paved at a time, and when finished another block will be started.

LAMB COUNTY TAXPAYERS' LEAGUE MEETING

According to information at hand the Lamb County Taxpayers' League will meet at the Friendship church on Tuesday night, January 31. A large attendance is expected at this meeting. It is the purpose of this organization to extend its work in co-operation with all school districts in Lamb county.

Merchants and business men of Sudan are requested to be present for the regular Business Men's Meeting, Monday night at the I. O. O. F. Hall. There are several items of very great importance to be attended to in regard to "putting over" a Trades Day for this community. We believe this move to be of mutual benefit to the community as a whole. It is the purpose of this organization to furnish the best market possible for all produce brought to our stores. At the same time it is our purpose to give our customers the benefit of the lowest possible price on merchandise they buy. In order to make this proposition a success it will require the co-operation of all the business men. Don't get the habit of letting "Bill do the work," and you reap the results. Get into the game and let's give our customers the best service possible.

HASTING APPOINTED AUTO LICENSE COLLECTOR

DISARMAMENT AND BIGGER NAVIES

One of the perverse signs of the times is the fact that the 1932 edition of "Jane's Fighting Ships," just published in London, contains more pages and more photographs than any edition printed in many years.

"Jane's Fighting Ships" is a compendium of the world's navies. It contains a picture and a complete description of just about every warship in existence documented with painstaking care. And at the close of a year which naval disarmament has been discussed in every world capital without ceasing, this book finds that there are more warships to write about than ever.

This perhaps, convinces a lot of diplomats of giving mere lip service to a cause in which they do not really believe. But it serves also to illustrate the painful fix in which the world as a whole finds itself these days.

The world wants peace very badly; it is still groggy from the effects of the last war, and it most devoutly hopes that some way can be found of setting international disputes without fighting.

But because the realities of world politics look more ominous than they have in years, and because no one is quite ready to believe that there exists in the world enough intelligence and good will to get around all of the sharp corners peaceably, nobody dares to go ahead and disarm. The world goes on building warships, and the editors of "Jane's Fighting Ships" bring out the fattest edition in many years.

These of us who listen uneasily to all of the rumors of war can only be comforted by the fact that these expert editors give high praise to the new American 10,000 ton "treaty" cruisers.

Earlier editions have criticized these ships; they were too lightly armored, they rolled excessively, they vibrated too much, they made poor gun platforms. Now, however, it is reported that alterations have removed the objections and that the ships are extremely capable. We are, it seems, ready for a fuss.

But what a commentary the whole thing is on the half-hearted way in which we have pushed all of our fine disarmament projects! Instead of getting results, we have only a fat new book—and the assurance that the ships we are forced to build are, after all, better than had been supposed.

TECH. STUDENTS MAKE A COAT IN SCHOOL FOR GOVERNOR FERGUSON

Lubbock, Texas, Jan.—Governor Miram A. Ferguson has been presented with a coat which was entirely a product of Texas Technological college.

The wool was from sheep belonging to the school of agriculture, the cotton in the coat was grown in the campus. Both

the wool and cotton were cleaned, spun, woven and dyed by the students in the department of textile engineering. A student in the school of home economics made the cloth in the finished coat. It was presented to the Governor by President Bradford Knapp with the compliments of the college.

BIG ENROLLMENT AT TECH

Three hundred new students have registered at Texas Technological College this term, bringing the total for this session to 2248. The total enrollment for last year was 2053, making a net gain of 195 at this time. New students expected to enter at the spring term March 21 are due to bring the year's enrollment to a new high mark for the long term.

HIGH RATION OF YOUNG CRIMINALS

The Youths now behind prison bars constitute a large and increasing number of those arrested and finger-printed. And this in face of the fact that society has provided more agencies for the welfare of childhood and youth civilization has ever known before.

It has been commonly and frequently asserted that the boys of today are no worse than their fathers, grandfathers and sires of a hundred years ago. But the figures tell a sorry story.

IN MEMORY OF J. B. GARNER

The Death Angel visited the home of Bro. J. B. Garner, December 10, 1932 and took from our midst our brother and friend Bro. J. B. Garner.

He was born in Cherokee County, Georgia, in 1854. In 1876 he was married to Miss Nancy Cogle, and to this union was born ten children, five of them preceded him in death, and five living.

He leaves his dear old companion Mrs. Nancy Garner, three girls: Mrs. Stoveall, of Muleshoe; Mrs. Bridges, of Whiteface; Mrs. Armstrong, of Chillicothe; and two sons, John and Ver, both of Circleback, and also a brother of Bonohm, Texas. These to mourn his loss. I have known him personally for over thirty years and his home has been my home. He always stood for that which was right every where he has lived.

He moved from Georgia to Fannin County Texas, Hardiman County, where he lived for a number of years. Later moved to Bally County, Texas.

He has been a citizen of Circleback community for the past nine years. He was saved and joined the Missionary Baptist church, fifty some odd years ago, and was a member of the Circleback Baptist church when death claimed him, he was loved and cherished by all, both young and old to all whom he was tenderly devoted. Today while the bright sun shines above, we feel that all we can do is to write a few lines in token of the love and reverence we had for Bro. Garner. Not that he needs anything that we can say to keep his memory fresh in the hearts of all who knew him, but because it is a pleasure to write of a dear friend and neighbor, as it is said, let his works praise him

at the Gates. Poor indeed would be the efforts of a poor weak mortal like myself to attempt to portray the excellency of our friend's character for he wore his character upon his face in all walks of life.

He was ever the tenderest and most generous of men, the life of a determined will, a tireless energy and a courage that never wavered.

Dark and thorny was the path he had to travel upon this cold and dismal earth, so often full of sorrow and pain, but how bravely, he bore his part, but the heavier the cross the brighter the crown. He did not believe he would be waffled to heaven on a flowery bed of ease but his religion was to keep the Lord's commandments and do His will.

Dear friend and father we know that we should not grieve for thee, for our loss is your great gain.

You suffered so much here and we know that you are only sleeping, waiting till the Savior comes to call you home, where you shall rise with your robes washed in the Blood of the Lamb, to dwell forever with the Lord and Savior, whom you ever loved and served so faithfully.

You have fought a good fight, finished your course and you have kept the faith, henceforth a crown of righteousness is laid up for you which the Lord the righteous Judge shall give at that day.

Father, thou art only sleeping, only gone to rest, only waiting, meekly waiting, upon the ever green shore, for your dear one's to clasp your hands once more. In that land beyond the raging sea, there is a home for you, there is a home for me, and there may we all be reunited, where sorrow never comes nor hopes are never blighted.

Loved ones and friends each and every one, may we meet Father Dear,

Conoco refining chemists have produced a new, improved motor fuel. No matter how different it is, we must call it g-a-s-o-l-i-n-e; for that is the name the public knows for every motor fuel. But this gasoline deserves a special name; one that suggests how "different" it is. How else may the public know?

Conoco (.....) Gasoline! If you can give us the name we want, \$5,000 in cash is yours. \$5,000 more will be divided among those who suggest the best slogans to describe it. What we seek is to make motorists "understand."

To describe the "difference" you must know the difference. To know the difference you must feel it in your motor. The man at the Conoco station will tell you the exciting facts; give you, free, an official contest-information-and-entry blank. Prepare yourself to produce the winning words. Fill your tank with this gas. Within 10 blocks, you'll know why your words may be worth \$10,000.00 to us.

Editorial
 Mr. Smith and Mr. Branch, we heartily welcome you to your new positions as superintendent and principal, respectively. We are happy that you have these offices and hope they will be enjoyable to you. Realizing the great duties incurred upon us, we are all going to unite in every body under the banner of unity, peace, and cooperation, and thereby endeavor to make your positions more pleasant to you.

We, also, wish to welcome Miss Love, who is now teaching the third grade. It will be remembered she taught here in the years 1927-28-29. Miss Love received her Bachelor's degree from the University of Arkansas and her Master's degree from Texas Tech. We are happy to have her with us, and she will enjoy being a teacher.

An Honor To Sudan High
 I think Sudan High School has a great honor coming to her. It is the first time in history that Sudan boys and girls have won both of the first prizes in Basketball. The tournament was a great success and we had numbers of the visiting schools tell us how they enjoyed being here and they were looking forward to coming again sometime.

HELLO! Freshmen
 On Thursday of last week, some twenty-one new students entered the high school building. Of course they were "green," all freshmen are, and freshmen always will be until the end of time. This should not be held against them. It is up to the new students, however, to adapt themselves to the new school life as soon as possible, and it is only their failure to do this that should be held against them.

The sad part about it is that the upper classmen do not always reach out the proverbial helping hand. Sometimes it is considered smart to hinder

the new students as much as possible.

The editorial written to freshmen is generally filled with so-called advice. Usually any advice that is acceptable to freshmen is appreciable as well to three-fourth of the other pupils.

Such advice in a nutshell can be contained in three brief statements.

1. Do a decent amount of studying. Failure of promotion cannot be compensated by success in other ones.
2. Regard the teachers as human beings. They are not very different from yourselves. The old proverb may be changed to, "Teachers help those that help themselves."
3. Join some good extra-curricular activities. Put effort into them and you will get some real good out of the time you put in. This does not mean that studies should be neglected, but study alone may make one self-centered. Outside activities not only help one to meet people and be at ease while doing so, but they enable one to learn to cooperate with his fellow-man. These are some of the essentials to success.

Mr. Smith Says

There is a large enrollment, the buses are crowded. Pupils and teachers are cooperating very nicely.

The first basketball game in the play off between four counties will be Friday night between Sudan and Bula at Sudan. A small fee to defray expenses will be made and we will appreciate the presence of the people of this community at these basketball games.

To The Patrons:
 We sincerely appreciate the co-operation of everyone, and wish to thank those who attended the games during the tournament; those who helped us find places for the players to stay; and also those who were able to keep the players. Again we express our sincerest thanks and appreciation.

We also wish to thank Mr. Cheshier for letting the winning teams in free at the theatre.

P. T. A. News

The P. T. A. met Wednesday, January 18, 1933. In the absence of the president, Mrs. Covington presided. A splendid program was rendered with some numbers from the third grade. Mrs. Broyles told a very interesting story. Miss White gave a talk on the life of Franklin and Mrs. May gave the Creed. Mr. Branch gave a very fine talk on "Thrift". The P. T. A. will meet in a business session next Wednesday, February 1, 1933, at which time we hope to have our president, Mrs. McLarty, with us.

Athletics

The boys county basketball tournament was played at Olton last week end. Our boys won the tournament by defeating Spade 29-39, Amherst 42-21 and Littlefield 42-32.

The boys will go to Morton Wednesday night.

The girls will go to Littlefield Friday to begin their county tournament. The boys and girls are going to need everyone's support to win all these games so they might go to the district.

The grade school boys are practicing play ground ball now. The grade school girls are still playing basketball. They only meet three days a week, but they are still enthusiastic about their playing.

Pep Squad Organized

A group of about thirty girls met in the gymnasium Tuesday at noon and organized a pep squad. Lela Burnham was elected pep leader and Juanita Pierce was elected assistant leader. Miss Sikes is sponsor of this organization. The pep squad will go to Littlefield to see the girls' game. If you want to see a bunch of "peppy" girls be in Littlefield and attend the basketball games.

Banks are a part of the economic blood and sinew of all community life. Without banks commerce and industry could not carry on, nor contribute to the economic welfare of the people.

In times of prosperity unusual demands upon financial institutions are few; therefore their stability is considered a matter of fact. But when conditions drop to normal or below—'tis then the fundamental soundness and foundation strength of a bank is tested.

This institution was built upon solid rock and built to stand the test of both good times and bad times. With adequate resources it stands today a distinctive power in the promotion of community progress. Make this bank your bank.

A World's Record

MORE than three thousand births without a single loss of either mother or child! That is the official Platt County record of Dr. W. B. Caldwell, in fifty years' family practise in Illinois.

No wonder mothers have such entire confidence in giving little ones Dr. Caldwell's Syrup Pepsin!

If you have a baby, you have constant need of this wonderful preparation of pure pepsin, active senna, and fresh herbs. A child who gets this gentle stimulant for the stomach, liver and bowels is always healthier. It keeps children's delicate systems from clogging. It will overcome the most stubborn

condition of constipation. It builds them up, and is nothing like the strong cathartics that sap their strength and energy.

A coated tongue or bad breath is the signal for a spoonful of Syrup Pepsin. Children take it readily, for it is really delicious in flavor. Taste it! Take Syrup Pepsin yourself, when sluggish or bilious, or you are troubled with sick headaches and no appetite. Take some for several days when run-down, and see how it picks you up.

It is a prescription preparation which every drug store has ready; in big bottles, just ask anywhere for Dr. Caldwell's Syrup Pepsin.
