Holiday in Banking As Protective Move Is Ordered in Texas

GOVERNOR SAYS ACTION IS
NECESSARY DUE TO STEPS
BY OTHER STATES

Austin, March 2—Governor Miriam A. Ferguson today issued a proclamation proclaiming a financial moratorium in Texas for five days and ordering all banks to remain closed until and including March 7.

The governor decided on this action as a means of preventing any disturbed situation resulting from financial difficulties experienced by banks in other states recently.

The governor ordered "all state banks, all national banks, state trust companies, building and loan associations, private banks and all other banking and financial institutions be prohibited and enjoined from paying to any depositor or creditor upon any account or deposit liability any amount during the period of time covered by this proclamation and said institutions shall remain closed during such time."

TIPS ON TAXES

Austin—Many measures are pending in the Legislature designed to reduce the cost of government. They range all the way from simple resolutions to constitutional amendments. Legislators are giving attention to the problem of local taxation, as it is affected by State law, and bills are pending whereby local governing bodies will not be hampered in economy efforts by State law and constitutional provisions. The major share of the tax burden is for local purposes, cities, counties and school districts.

Senator Purl, of Dallas has introduced a resolution providing for a constitutional amendment abolishing the fee system, except as to public weighers, notaries public and county surveyors. It is believed that giving Commissioners Courts the right to fix salaries for officials who are now compensated by fees would result in great savings to the taxpayers. Other legislation, similar in purpose, is being considered.

There seems to be a well-defined purpose to reduce the cost of the State government, an average of 25 per cent. The House has already passed the judiciary supply bill providing for the amount or reduction in salaries of district judges, appellate court judges and district attorneys. The Senate has not acted. Vigorous protests against the reductions have been made before the Senate committee, considering the bill.

Presidents and regents of teachers colleges are reported to be agreeable to a 25 per cent reduction in their budgets.

The House has before it a bill reducing automobile license fees one-third. Passage of this or some similar measure is regarded as certain.

A constitutional amendment, introduced by Senator Walter Woodward, would limit the total cost of the State government to \$10 per capita per year. This proposal is unique in that it would compel economy by placing an arbitrary limit on expenditures. Approval of the amendment would place expenditures on the same per capita basis as 1927. In 1925 the per capita cost of State government was \$8.50. The peak was reached in 1930 when the figures were \$14.00. Last year the per capita was \$12.50.

It is claimed for this amend-

POSTMASTERS TO BE NAMED Lubbock, Idalou And Sudan To Get New Postmasters Soon After March 4, Is Expectations; Other Are Listed

According to the Lubbock Avalanche-Journal three South Plains Democrats are expected to be among the 88 Texans who will receive federal appointments as postmasters of their home towns soon after March 4 when President-elect Franklin D. Roosevelt goes into office.

Latest list of patronage available as made public under the McKellar resolution, shows the 35 South Plains postoffices divided into five groups. They are: 1—Immediately after Mar. 4; 2—prior to the end of 1933; 3—for 1934; 4—for 1935; 5—for 1936.

Commissions of all first, second and third class postmasters do not expire at the same time. They are appointed for a four year term and cannot be removed except on trial after filing of charges of alleged misconduct or inefficiency.

Take Civil Service Exam

To fill a vacancy, appointments are made from the three highest in the civil service examination conducted by the civil service commission. When a vacancy occurs the postoffice department notifies the commission and the examination is held. Only qualified residents of a community are eligible to take examinations.

The new president is expected to fill vacancies as soon as the civil service available list has been completed.

Four of the largest offices in the state do not become vacant until 1934. They are: Dallas, \$8,000 a year; Houston, 7,000; San Antonio, \$6,000 and Amarillo, 4,200. Waco's \$4,200 job holds over until 1936 and Austin's 4,500 post in 1935. Tife \$5,000 job at El Paso is available this year. It is the highest salaried post to become vacant in 1933.

For some reason the published list shows both Lubbock and Lorenze in two lists. The former town is in the list of offices to be vacated soon after March 4 and also in 1936. Lorenze is in both the 1935 and 1936 lists.

Following are the lists, by years, with salaries:

For 1933, almost immediately after March 4: Idalou, \$1,200; Lubbock, \$3,600; Sudan, 2,100; Hermleigh, \$1,100.

Before end of 1933: Kress, \$1,400; Plainview, \$3,300; Tulla, \$2,400; Aspermont, \$1,800; Big Springs, \$3,200.

For 1934: Anton, \$1,500; Crosbyton, \$2,000; Hale Center, \$2,000; Happy, \$1,900; Levelland, \$2,400; Lockney, \$2,100; Matador, \$2,000; Ralls, \$2,300; Seagraves, \$1,700; Seminole, \$1,500; Slaton, \$2,400; Tahoka, \$2,400; Dimmitt, \$2,500; Estilene, \$1,800; Retan, \$2,250; Silvertown, \$1,900.

For 1936: Abernathy, \$1,900; Brownfield, \$2,400; Dickens, \$1,600; Farwell, \$1,800; Friona, \$2,000; Lamesa, \$2,600; O'Donnell, \$2,000; Olton, \$1,900; Petersburg, \$1,700; Post, \$2,400; Wilson, \$1,200; Albany, \$3,700; Hereford, \$2,600; Pampa, \$3,300; Roaring Springs, \$1,700; Sweetwater, \$3,400.

Mmes. W. O. Parrish, S. Town send, H. B. Teal, Joe Stark and Foster Lumpkin attended the County Council of the Home Demonstration Clubs, held in Amherst.

GORY HIGHWAYS

Beginning with the Revolution, this country has been engaged in six major wars, not counting its numerous Indian campaigns. These wars have cost just about 300,000 American lives.

During the last 15 years—a period of time just about equal to that consumed by the six wars—no fewer than 325,000 Americans have been killed in automobile accidents.

Our highways, evidently, are comparable in danger to our worst battlefields.

Our highways, evidently, are comparable in danger to our worst battlefields.

These figures are taken from a little booklet, "They Call Us Civilized," compiled and distributed by The Travelers Insurance Co. It is quite possible that the biggest puzzle future historians will face will be the question why such horrifying figures did not instantly shock us into drastic action.

The number of fatal accidents last year—about 29,000—was substantially below the number for 1931. Yet The Travelers' statistics have proved that this was almost entirely due to the fact that fewer autos were in use. The number of deaths per accident actually increased, and approximately 1400 more people were killed than in 1928, when auto registrations were about the same as in 1932.

It is high time that we tackled this problem in a really determined and comprehensive way.

Every state in the union ought to have a driver's license law with full provision for examination of all applicants.

Our forces of traffic police, men, in cities and on rural highways, ought to be vastly increased, and traffic codes should be enforced with the most iron-clad strictness.

The authorities should be able to make periodic inspections of cars at frequent intervals, ruling

ing off the road those which have mechanical defects that render them in the slightest degree unsafe.

We should be much quicker to bar from the road careless, drunken or incompetent drivers.

Lastly, every individual driver should recognize his responsibilities more fully, observe the highway code most scrupulously and see to it that he, at least never take chances that can cost lives.

SUNDIAL IN EXISTENCE BEFORE TIME OF CHRIST

A sundial in the garden, and an open fire place in the house, are luxuries which have descended to us from distant generations, and of the two probably the sundial is the most ancient.

In Biblical days, Ahaz, king of Judah, had a sundial. It is mentioned in the twentieth chapter of II Kings; and again in the thirty-eighth chapter of Isaiah: "Behold, I will bring again the shadow of the degrees which is gone down in the sundial of Ahaz ten degrees backward."

This was about 700 years before Christ, and there is no record of how it was constructed. The first of which there is certain knowledge, was made about 400 years afterwards, by the Chaldean astronomer Berossus; and his principle appears to have been followed by Arabian astronomers as late as A. D. 900.

Berossus' instrument consisted of a hollow hemisphere, placed with the flat side upwards, and the rim in a perfectly horizontal position. A bead or globe was fixed in the center, and the line of shadow defined by the sun in the inside of the hemisphere was divided into 12 equal parts, and called "temporary hours."

IDLE FOLKS HAVE THE LEAST LEISURE

The board of directors of a business met with the manager on January 1, or there about. After hearing the report for the year and discussing it, one director decided the salary of the manager should be generously shaved, as well as those of his assistants and that one man should be dismissed. "Because there isn't going to be any business" he explained. The manager quietly announced that if that was the way he felt about it he should hire a school boy to keep the door open, as he (the manager wasn't looking for that kind of a job.

Being assured by the manager that he expected to do more business in 1933 than in 1932 with the reasons for this expectation and now that manager is hustling to make good. His January business exceeded January 1932 by a nice margin.

KILLING, DRESSING AND CANNING TURKEYS

"Killing, dressing and canning turkeys by the extension method more than triples their value" said Mrs. A. Clark of the Ruby Home Demonstration club as she explained that they had sold 31 number one turkeys on the market and received \$31.02. All number two birds were kept as they were too cheap to sell. These were good quality meat birds but had crooked breasts. Mrs. Clark decided to standardize the canned turkey. This was done by using a standard recipe and submitting a can of each of the products to the County Marketing Association and to the Extension Specialist in Home Industries, at A. & M. College for their approval. The turkey is prepared as "Cubed" with choice breast meat cut in one half cubes, and the ground meat which is a mixture of the dark and light meats.

One day last week Mr. and Mrs. Clark dresses four turkeys weighing 68 pounds which would have brought 5c per lb. on the market or \$3.40. From these birds she had ten No one cans of cubed and 42 No one cans of ground meat which sold for \$11.40. Deducting the following expense of \$1.30 for cans, 28c for labels, and 70c for labor—total \$2.28 they made \$9.12.

Mr. Clark remarked when they had finished that there was lots of hard work to dressing and canning turkeys. Mrs. Clark said yes, but all farm work is real labor and we are realizing something from this.

Mr. and Mrs. Clark were in a drug store to get a small box for shipping some of the canned products. Mr. Sadler picked up one of the cans and remarked. "This is just as good as cash for anything we have in the store". Mrs. Clark has prepared 139 cans of ground meat which brought \$27.80 and 13 cans of the cubed for \$3.90 or a total of \$31.70 from ten turkeys. Mrs. Clark will prepare 500 cans of turkey.

Believe it or not. At Grandfield, Oklahoma, the Methodist, Christian and Presbyterian churches have consolidated under the name of The Federal Church. And more! The Presbyterian ladies raised \$41 by giving a dinner and turned the money over to the Christian folks to apply on a church debt.

Depression bring about serious conditions in banking, as is witnessed by the hundreds of bank failures over the country. If a bank is strict in loans the public criticises it as being a tightwad. But the wise banker would rather be classed as a tightwad and keep his bank open, than to be classed as a good fellow and see his bank close as a result of making lax loans. The money in the banks belongs to the people, and not to the bankers. It must be protected at all costs, and the wise banker does his part, even to the extent of being classed as a tightwad. But conditions existing today makes it impossible to know which loans are good and which are bad. Therefore, individuals as well as banks, are unable to determine when is the proper time to make loans. There are millions of idle dollars in America today simply because the people cannot determine when to make loans. But do not blame the bankers. They are simply doing their part in protecting the money of their customers. Any sane individual had rather do business with a hard boiled banker, knowing that his money would be safe, than to do business with an easy banker, fearing

that the bank would not be kept in a sound condition.—State Line Tribune.

NATIONAL CHIEF OF LEGION TO BE IN AMARILLO

Great Meeting With Cadets and Drum Corps to Welcome Him is Plan for March 7

Special to The News—Indianapolis, Ind. Feb. 28—One of the most important and largest meetings on the itinerary of Louis A. Johnson, national commander of the American Legion, is scheduled for Amarillo, March 17, it was announced at national headquarters here today following the definite acceptance by the national commander of the invitation to speak in Amarillo that night.

Correspondence with Texas Legion officials shows that Legionaires will attend the meeting from Kansas, Oklahoma and New Mexico as well as from a large section of Texas adjacent to Amarillo.

Publicity regarding the meeting from Kansas, Oklahoma, and New Mexico, as well as from a large section of Texas adjacent to Amarillo.

Publicity regarding the meeting is being sent into the other states as well as to Texas cities.

Tentative arrangements are being made for the National Commander to arrive in Amarillo possibly by airplane which he uses extensively in his travels. It also is the plan for him to be met on his arrival by the Amarillo Cadet Corps and two drum and bugle corps. The arrival will probably be in the forenoon.

The Commander will attend as guest of honor and address a large Legion meeting at the Municipal Auditorium, where his speech will be broadcast by radio station WDGA, between 8:30 and 9:00 p. m. with the possibility that the entire evening's program will go on the air if it is possible to obtain the time.

As an illustration of the treat that the Legion fighting men of Texas have in store for them is the following editorial in part taken from the Bangor (Maine) Daily Commercial of February 17, following the National Commander's visit and address in that city:

"Very refreshing it is to listen to an address breathing such wholesouled Americanism as did that of National Commander Louis A. Johnson of the American Legion, delivered last evening in this city. There were found no weasel words, no paltering or flattery, but a downright forthwith demand for the active enlistment of all good citizens to combat radical and anarchistic propaganda and the promise that a million men of the Legion will continue that fight as they have been doing, to their everlasting credit.

"Congressional strokes at the strength of the army and the navy in the name of economy, find no encouragement from Commander Johnson, but quite the contrary; they find a two-fisted fighter who believes that the United States should be armed for defense and armed in accordance with its importance among the nations of the world.

"The Commander pointed out in words freighted with power how dangerous to the future safety of the nation, is the policy that attempts to save a few dollars by crippling the military and naval strength of the United States, a strength already far inferior to our needs, but which the false economists and the pacifists would further weaken.

"The nation went to the uttermost limits of proper economy in its National Defense act, which provided but a skeleton army, to be strengthened in time of need by volunteer soldiery, that has received some training. But that was not enough for those who are willing to leave the nation defend-

seless. There has been cut after cut in defense appropriations with a present effort at another slash in the Britton five per cent reduction measure, which would occasion the taking out of commission of a score and a half of naval vessels, cut the personnel of navy and army and strike a grievous blow at our military efficiency.

"The American Legion is not a militaristic body, none know the horrors of war more intimately than the Legionnaires but they are aware that armed conflict has not been banished from the world, and realize that the nation prepared for war is far less likely to be forced into international conflict than the nation that is inadequately equipped.

"Commander Johnson also handled without gloves the disease of communism and anarchism, whose disciples are preaching the overthrow of government, by insidious propaganda, if possible, by force if propaganda fails. At its Portland convention the Legion adopted

a resolution asking Congress to appropriate funds and to authorize the Department of Justice to investigate and combat radical and anarchistic propaganda, and that is needed. The nation too long has suffered from those diseased minds that would substitute violence for law."

They've Never Tasted a Tonic!

THESE are not patent medicine children. Their appetite needs no coaxing. Their tongues are never coated, cheeks never pale. And their bowels move just like clockwork, because they have never been given a habit-forming laxative.

You can have children like this—and be as healthy yourself—if you follow the advice of a famous family physician. Stimulate the vital organs. The strongest of them need help at times. If they don't get it, they grow sluggish. Dr. Caldwell's syrup pepsin is a mild, safe stimulant.

When a youngster doesn't do well at school, it may be the liver that's lazy. Often the bowels hold enough poisonous waste to dull the senses! A spoonful of delicious syrup pepsin

once or twice a week will avoid all this. It contains fresh laxative herbs, active senna, and pure pepsin, and does a world of good to any system—young or old. You can always get this fine prescriptive preparation at any drug store. Just ask them for Dr. Caldwell's syrup pepsin. Get some syrup pepsin today, and protect your family from those bilious days, frequent sick spells and colds. Keep a bottle in the medicine chest instead of cathartics that so often bring on chronic constipation. Dr. Caldwell's syrup pepsin can always be employed to give clogged bowels a thorough cleansing, with none of that painful griping or burning feeling afterward. It isn't expensive.

attended a picture show "Wild House Mesa" at the Lindsey Theatre. Then the boys went to the Court of Honor at the Court House. Some of the scouts received advancement there. The scoutmaster and troop wishes to thank Mr. and Mrs. Markham, Brother Thomas and Mrs. Thomas, Mr. Hasten, Mr. and Mrs. Furneaux, and Eldon and Radney Nichols for furnishing cars to make the trip. To say that all the scouts had a great time is putting it mildly.

Many of the scouts are working for advancement. Court of Honor will be held every month. Parents and friends of the troop are invited to attend these Court of Honor meetings. The boys are planning a hike to be made on horseback for some time soon. Bill McKinley is working on his tenderfoot test.

Jokes

Mr. Branch walked into the office to see Mr. Smith who

looked very worried. "What is the matter", Mr. Branch asked, "Oh, this morning when I got out of my car I noticed that the gas register was at the half mark and I can't seem to remember whether it means half full or half empty."

YOUNG PEOPLE'S SOCIAL

The Young People's department held their regular monthly social last Wednesday evening. Under the direction of our new chairman, Eldon Nichols, the young people had a very pleasant evening. Plans were made to entertain all regular Leaguers with an outing at Ceta Canyon or Ruidosa after school is out. Also, plans were made to attend the General Assembly at Abilene, in June. We invite you to join the League and enjoy these splendid occasions.

Work is steadily going forward in preparation to the moving of the church and parsonage. Everything will be in readiness for the "house mover," when he arrives.

We appreciate the new interest, large attendance and fine spirit of co-operation that is being manifested.

BOY'S ESSAY ON COLUMBUS

Columbus was a man who could make an egg stand on end without crushing it. One day the king of Spain sent for him and asked: "Can you discover America?"

"Yes," Columbus answered, "If you will give me a boat."

He got the boat and sailed in the direction where he knew America was. The sailors motioned and swore there was no such place as America but finally the pilot came to Columbus and said: "Captain, land is in sight."

When the boat neared the shore Columbus saw a group of natives. "Is this America?" he asked them.

"Yes," they replied. "I suppose you are Indians?" Columbus went on.

"Yes," replied the chief, "and you are Christopher Columbus, I take it?"

"I am."

The Indian chief then turned to his fellow savages and said: "The jig is up. We are discovered at last."—Ex.

Mexico has decided to build up a navy. Does that mean they will extend their revolutions to other lands.

If Europe keeps on worrying us we may have to take it over and close it up.—Pathfinder.

Jazz music has some use anyway. An Indiana man has proved that it makes hens lay more eggs. Probably just scares 'em into it.

The discovery of America is figured to have cost \$7,000. We hardly know whether it was worth it or not.—Pathfinder.

Holiday in Banking As Protective Move Is Ordered in Texas

GOVERNOR SAYS ACTION IS NECESSARY DUE TO STEPS BY OTHER STATES

Austin, March 2—Governor Miriam A. Ferguson today issued a proclamation proclaiming a financial moratorium in Texas for five days and ordering all banks to remain closed until and including March 7.

The governor decided on this action as a means of preventing any disturbed situation resulting from financial difficulties experienced by banks in other states recently.

The governor ordered "all state banks, all national banks, state trust companies, building and loan associations, private banks and all other banking and financial institutions be prohibited and enjoined from paying to any depositor or creditor upon any account or deposit liability any amount during the period of time covered by this proclamation and said institutions shall remain closed during such time."

First National of Sudan Observes Governors Order

At a meeting (tonight) of the officers and directors of the First National Bank of Sudan it was decided to declare a Holiday for the bank as ordered by the Governor. Accordingly proper notices have been posted.

The bank will remain closed as is customary on legal holidays.

"This move", reads the statement "on the part of Governor Ferguson does not in any way impair the financial stability of any bank in the state. At the expiration of the designated period of five days the bank of Sudan will be open for business. Customers should not become unduly excited over the situation."

Mrs. C. E. Cooper, of Littlefield was visiting friends in Sudan Monday.

Lester LaGrange of Amherst spent the week-end with his aunt and uncle, Mr. and Mrs. L. E. Slate.

TIPS ON TAXES

Austin—Many measures are pending in the Legislature designed to reduce the cost of government. They range all the way from simple resolutions to constitutional amendments. Legislators are giving attention to the problem of local taxation, as it is affected by State law, and bills are pending whereby local governing bodies will not be hampered in economy efforts by State law and constitutional provisions. The major share of the tax burden is for local purposes, cities, counties and school districts.

Senator Purl, of Dallas has introduced a resolution providing for a constitutional amendment abolishing the fee system, except as to public weighers, notaries public and county surveyors. It is believed that giving Commissioners Courts the right to fix salaries for officials who are now compensated by fees would result in great savings to the taxpayers. Other legislation, similar in purpose, is being considered.

There seems to be a well-defined purpose to reduce the cost of the State government an average of 25 per cent. The House has already passed the judiciary supply bill providing for the amount or reduction in salaries of district judges, appellate court judges and district attorneys. The Senate has not acted. Vigorous protests against the reductions have been made before the Senate committee, considering the bill.

Presidents and regents of teachers colleges are reported to be agreeable to a 25 per cent reduction in their budgets.

The House has before it a bill reducing automobile license fees one-third. Passage of this or some similar measure is regarded as certain.

A constitutional amendment, introduced by Senator Walter Woodward, would limit the total cost of the State government to \$10 per capita per year. This proposal is unique in that it would compel economy by placing an arbitrary limit on expenditures. Approval of the amendment would place expenditures on the same per capita basis as 1927. In 1925 the per capita cost of State government was \$8.50. The peak was reduced in 1930 when the figures were \$14.00. Last year the per capita was \$12.50. It is claimed for this amend-

ment that it would provide an automatic check on taxation, which is now virtually without limit. Another claim is that it would compel the discontinuance of bureaus, commissions and departments once their usefulness had passed. Instances of government bureaus and services being discontinued are rare. It is argued that this amendment would require the abolishment of less needed services when necessity for new ones arises.

The general trend is for tax reduction measures, but several bills have been introduced seeking to tap new sources of revenue. The most far-reaching is the proposal to levy a three per cent tax on gross receipts from sales and professional services. Estimates of the amount that would be derived from this levy vary from fifty millions to 100 millions. It is certain that many businesses would be compelled to stand an increase in their State taxes from eight to ten fold, and many lines who now pay no State ad valorem taxes would be heavily taxed.

Another new source of revenue is suggested in the bill providing for an income tax. The tax on individuals would begin on the first \$1000 of net income with a rate of one per cent and graduate up to seven per cent on net incomes above \$11,000. The corporation rate up would to six per cent on incomes above \$6,000. Deductions, similar to those of those of the Federal income tax, would apply.

The belief, however, is that the two bills will be combined and modified to carry some of the features of both. Few will predict, however, what the final fate of the new tax measures will be. There is determined opposition to both, based chiefly on the theory that there should be no new taxes levied but that the State budget should be balanced by economies in expenditures.

A constitutional amendment has been introduced for increase in salaries of a few State officials. The Governor's pay would be increased from 4,000 to \$12,000; Attorney General from \$4,000 to \$10,000; Treasurer and Land Commissioner from \$2,500 to \$6,000. Many other State officials now receive much higher pay than these.

VISITORS DAY OBSERVED AT SCHOOL FRIDAY

Friday, February 24, was visitors day at the Sudan Public Schools. Many of the parents and patrons of the school visited the different rooms during the day.

POSTMASTERS TO BE NAMED Lubbock, Idalou And Sudan To Get New Postmasters Soon After March 4, Is Ex- pectations; Other Are Listed

According to the Lubbock Avalanche-Journal three South Plains Democrats are expected to be among the 88 Texans who will receive federal appointments as postmasters of their home towns soon after March 4 when President-elect Franklin D. Roosevelt goes into office.

Latest list of patronage available as made public under the McKellar resolution, shows the 35 South Plains postoffices divided into five groups. They are: 1—Immediately after Mar. 4; 2—prior to the end of 1933; 3—for 1934; 4—for 1935; 5—for 1936.

Commissions of all first, second and third class postmasters do not expire at the same time. They are appointed for a four year term and cannot be removed except on trial after filing of charges of alleged misconduct or inefficiency.

Take Civil Service Exam

To fill a vacancy, appointments are made from the three highest in the civil service examination conducted by the civil service commission. When a vacancy occurs the postoffice department notifies the commission and the examination is held. Only qualified residents of a community are eligible to take examinations.

The new president is expected to fill vacancies as soon as the civil service available list has been completed.

Four of the largest offices in the state do not become vacant until 1934. They are: Dallas, \$8,000 a year; Houston, 7,000; San Antonio, \$6,000 and Amarillo, 4,200. Waco's \$4,200 job holds over until 1936 and Austin's 4,500 post in 1935. The \$5,000 job at El Paso is available this year. It is the highest salaried post to become vacant in 1933.

For some reason the published list shows both Lubbock and Lorenze in two lists. The former town is in the list of offices to be vacated soon after March 4 and also in 1936. Lorenze is in both the 1935 and 1936 lists.

Following are the lists, by years, with salaries:

For 1933, almost immediately after March 4: Idalou, \$1,200; Lubbock, \$3,600; Sudan, 2,100; Hermleigh, \$1,100.

Before end of 1933: Kress, \$1,400; Plainview, \$3,300; Tullia, \$2,400; Aspermont, \$1,800; Big Springs, \$3,200.

For 1934: Anton, \$1,500; Crosbyton, \$2,000; Hale Center, \$2,000; Happy, \$1,900; Levelland, \$2,400; Lockney, \$2,100; Matador, \$2,000; Ralls, \$2,300; Seagraves, \$1,700; Seninole, \$1,500; Slaton, \$2,400; Tahoka, \$2,400; Dimmitt, \$2,500; Estelline, \$1,800; Rotan, \$2,200; Silvertown, \$1,900.

For 1935: Amherst, \$1,900; Floydada, \$2,400; Littlefield, \$2,500; Lorenze, 1,700; Meadow, \$1,500; Snyder, 2,500; Spur, \$2,400; Childress, \$2,800; Jayton, \$1,500.

For 1936: Abernathy, \$1,900; Brownfield, \$2,400; Dickens, \$1,600; Farwell, \$1,800; Friona, \$2,000; Lamesa, \$2,600; O'Donnell, \$2,000; Olton, \$1,900; Petersburg, \$1,700; Post, \$2,400; Willson, \$1,200; Albany, \$3,700; Hereford, \$2,600; Pampa, \$3,300; Roaring Springs, \$1,700; Sweetwater, \$3,400.

Mmes. W. O. Parrish, S. Town send, H. B. Teal, Joe Stark and Foster Lumpkin attended the County Council of the Home Demonstration Clubs, held in Amherst.

Mr. and Mrs. L. C. Olds are visiting relatives and friends in Louisiana.

GORY HIGHWAYS

Beginning with the Revolution, this country has been engaged in six major wars, not counting its numerous Indian campaigns. These wars have cost just about 300,000 American lives.

During the last 15 years—a period of time just about equal to that consumed by the six wars—no fewer than 325,000 Americans have been killed in automobile accidents.

Our highways, evidently, are comparable in danger to our worst battlefields.

Our highways, evidently, are comparable in danger to our worst battlefields.

These figures are taken from a little booklet, "They Call Us Civilized," compiled and distributed by The Travelers Insurance Co. It is quite possible that the biggest puzzle future historians will face will be the question why such horrifying figures did not instantly shock us into drastic action.

The number of fatal accidents last year—about 29,000—was substantially below the number for 1931. Yet The Travelers' statisticians have proved that this was almost entirely due to the fact that fewer autos were in use. The number of deaths per accident actually increased, and approximately 1400 more people were killed than in 1928, when auto registrations were about the same as in 1932.

It is high time that we tackled this problem in a really determined and comprehensive way.

Every state in the union ought to have a driver's license law with full provision for examination of all applicants.

Our forces of traffic policemen, in cities and on rural highways, ought to be vastly increased, and traffic codes should be enforced with the most iron-clad strictness.

The authorities should be able to make periodic inspections of cars at frequent intervals, ruling off the road those which have mechanical defects that render them in the slightest degree unsafe.

We should be much quicker to bar from the road careless, drunken or incompetent drivers.

Lastly, every individual driver should recognize his responsibilities more fully, observe the highway code most scrupulously and see to it that he, at least never take chances that can cost lives.

SUNDIAL IN EXISTENCE BEFORE TIME OF CHRIST

A sundial in the garden, and an open fire place in the house, are luxuries which have descended to us from distant generations, and of the two probably the sundial is the most ancient.

In Biblical days, Ahaz, king of Judah, had a sundial. It is mentioned in the twentieth chapter of II Kings; and again in the thirty-eighth chapter of Isaiah: "Behold, I will bring again the shadow of the degrees which is gone down in the sundial of Ahaz, ten degrees backward."

This was about 700 years before Christ, and there is no record of how it was constructed. The first of which there is certain knowledge, was made about 400 years afterwards, by the Chaldean astronomer Berossus; and his principle appears to have been followed by Arabian astronomers as late as A. D. 900.

Berossus' instrument consisted of a hollow hemisphere, placed with the flat side upwards, and the rim in a perfectly horizontal position. A bead or globe was fixed in the center, and the line of shadow defined by the sun in the inside of the hemisphere was divided into 12 equal parts, and called "temporary hours."

IDLE FOLKS HAVE THE LEAST LEISURE

The board of directors of a business met with the manager on January 1, or there about. After hearing the report for the year and discussing it, one director decided the salary of the manager should be generously shaved, as well as those of his assistants and that one man should be dismissed. "Because there isn't going to be any business" he explained. The manager quietly announced that if that was the way he felt about it he should hire a school boy to keep the door open, as he (the manager, wasn't looking for that kind of a job.

Being assured by the manager that he expected to do more business in 1933 than in 1932 with the reasons for this expectation and now that manager is hustling to make good. His January business exceeded January 1932 by a nice margin.

KILLING, DRESSING AND CANNING TURKEYS

"Killing, dressing and canning turkeys by the extension method more than triples their value" said Mrs. A. Clark of the Ruby Home Demonstration club as she explained that they had sold 31 number one turkeys on the market and received \$31.02. All number two birds were kept as they were too cheap to sell. These were good quality meat birds but had crooked breasts. Mrs. Clark decided to standardize the canned turkey. This was done by using a standard recipe and submitting a can of each of the products to the County Marketing Association and to the Extension Specialist in Home Industries, at A. & M. College for their approval. The turkey is prepared as "Cubed" with choice breast meat cut in one half cubes, and the ground meat which is a mixture of the dark and light meats.

One day last week Mr. and Mrs. Clark dresses four turkeys weighing 68 pounds which would have brought 5c per lb. on the market or \$3.40. From these birds she had ten No one cans of cubed and 42 No one cans of ground meat which sold for \$11.40. Deducting the following expense of \$1.30 for cans, 28c for labels, and 70c for labor—total \$2.28 they made \$9.12.

Mr. Clark remarked when they had finished that there was lots of hard work to dressing and canning turkeys. Mrs. Clark said yes, but all farm work is real labor and we are realizing something from this.

Mr. and Mrs. Clark were in a drug store to get a small box for shipping some of the canned products. Mr. Sadler picked up one of the cans and remarked. "This is just as good as cash for anything we have in the store". Mrs. Clark has prepared 139 cans of ground meat which brought \$27.80 and 13 cans of the cubed for \$3.90 or a total of \$31.70 from ten turkeys. Mrs. Clark will prepare 500 cans of turkey.

Believe it or not. At Grandfield, Oklahoma, the Methodist, Christian and Presbyterian churches have consolidated under the name of The Federal Church. And more! The Presbyterian ladies raised \$41 by giving a dinner and turned the money over to the Christian folks to apply on a church debt.

Depression bring about serious conditions in banking, as is witnessed by the hundreds of bank failures over the country. If a bank is strict in loans the public criticizes it as being a tightwad. But the wise banker would rather be classed as a tightwad and keep his bank open, than to be classed as a good fellow and see his bank close as a result of making lax loans. The money in the banks belongs to the people, and not to the bankers. It must be protected at all costs, and the wise banker does his part, even to the extent of being classed as a tightwad. But conditions existing today makes it impossible to know which loans are good and which are bad. Therefore, individuals as well as banks, are unable to determine when is the proper time to make loans. There are millions of idle dollars in America today simply because the people cannot determine when to make loans. But do not blame the bankers. They are simply doing their part in protecting the money of their customers. Any sane individual had rather do business with a hard boiled banker, knowing that his money would be safe, than to do business with an easy banker, fearing

that the bank would not be kept in a sound condition.—State Line Tribune.

NATIONAL CHIEF OF LEGION TO BE IN AMARILLO

Great Meeting With Cadets and Drum Corps to Welcome Him is Plan for March 7

Special to The News—Indianapolis, Ind. Feb. 28—One of the most important and largest meetings on the itinerary of Louis A. Johnson, national commander of the American Legion, is scheduled for Amarillo, March 17, it was announced at national headquarters here today following the definite acceptance by the national commander of the invitation to speak in Amarillo that night.

Correspondence with Texas Legion officials shows that Legionaires will attend the meeting from Kansas, Oklahoma and New Mexico as well as from a large section of Texas adjacent to Amarillo.

Publicity regarding the meeting from Kansas, Oklahoma, and New Mexico, as well as from a large section of Texas adjacent to Amarillo.

Publicity regarding the meeting is being sent into the other states as well as to Texas cities.

Tentative arrangements are being made for the National Commander to arrive in Amarillo possibly by airplane which he uses extensively in his travels. It also is the plan for him to be met on his arrival by the Amarillo Cadet Corps and two drum and bugle corps. The arrival will probably be in the forenoon.

The Commander will attend as guest of honor and address a large Legion meeting at the Municipal Auditorium, where his speech will be broadcast by radio station WDGA, between 8:30 and 9:00 p. m. with the possibility that the entire evening's program will go on the air if it is possible to obtain the time.

As an illustration of the treat that the Legion fighting men of Texas have in store for them is the following editorial in part taken from the Bangor (Maine) Daily Commercial of February 17, following the National Commander's visit and address in that city:

"Very refreshing it is to listen to an address breathing such wholesouled Americanism as did that of National Commander Louis A. Johnson of the American Legion, delivered last evening in this city. There were found no weasel words, no paltering or flatering, but a downright forthwith demand for the active enlistment of all good citizens to combat radical and anarchistic propaganda and the promise that a million men of the Legion will continue that fight as they have been doing, to their everlasting credit.

"Congressional strokes at the strength of the army and the navy in the name of economy, find no encouragement from Commander Johnson, but quite the contrary; they find a two-fisted fighter who believes that the United States should be armed for defense and armed in accordance with its importance among the nations of the world.

"The Commander pointed out in words freighted with power how dangerous to the future safety of the nation, is the policy that attempts to save a few dollars by crippling the military and naval strength of the United States, a strength already far inferior to our needs, but which the false economists and the pacifists would further weaken.

"The nation went to the uttermost limits of proper economy in its National Defense act, which provided but a skeleton army, to be strengthened in time of need by volunteer soldiery, that has received some training. But that was not enough for those who are willing to leave the nation defenseless. There has been cut after cut in defense appropriations with a present effort at another slash in the Britton five per cent reduction measure, which would occasion the taking out of commission of a score and a half of naval vessels, cut the personnel of navy and army and strike a grievous blow at our military efficiency.

"The American Legion is not a militaristic body, none know the horrors of war more intimately than the Legionnaires but they are aware that armed conflict has not been banished from the world, and realize that the nation prepared for war is far less likely to be forced into international conflict than the nation that is inadequately equipped.

"Commander Johnson also handled without gloves the disease of communism and anarchism, whose disciples are preaching the overthrow of government, by insidious propaganda, if possible, by force if propaganda fails. At its Portland convention the Legion adopted

a resolution asking Congress to appropriate funds and to authorize the Department of Justice to investigate and combat radical and anarchistic propaganda, and that is needed. The nation too long has suffered from those diseased minds that would substitute violence for law."

They've Never Tasted a Tonic!

THESE are not patent medicine children. Their appetite needs no coaxing. Their tongues are never coated, cheeks never pale. And their bowels move just like clockwork, because they have never been given a habit-forming laxative.

You can have children like this—and be as healthy yourself—if you follow the advice of a famous family physician. Stimulate the vital organs. The strongest of them need help at times. If they don't get it, they grow sluggish. Dr. Caldwell's syrup pepsin is a mild, safe stimulant.

When a youngster doesn't do well at school, it may be the liver that's lazy. Often the bowels hold enough poisonous waste to dull the senses! A spoonful of delicious syrup pepsin

once or twice a week will avoid all this. It contains fresh laxative herbs, active senna, and pure pepsin, and does a world of good to any system—young or old. You can always get this fine prescriptive preparation at any drug store. Just ask them for Dr. Caldwell's syrup pepsin.

Get some syrup pepsin today, and protect your family from those bilious days, frequent sick spells and colds. Keep a bottle in the medicine chest instead of cathartics that so often bring on chronic constipation. Dr. Caldwell's syrup pepsin can always be employed to give clogged bowels a thorough cleansing, with none of that painful griping, or burning feeling afterward. It isn't expensive.

We are proud of the progress of the Public Speaking Class, and hope that it will continue advancing as it has thus far.

The scoutmaster and troop wishes to thank Mr. and Mrs. Markham, Brother Thomas and Mrs. Thomas, Mr. Hasten, Mr. and Mrs. Furneaux, and Eldon and Radney Nichols for furnishing cars to make the trip. To say that all the scouts had a great time is putting it mildly.

Many of the scouts are working for advancement. Court of Honor will be held every month. Parents and friends of the troop are invited to attend these Court of Honor meetings.

The boys are planning a hike to be made on horseback for some time soon.

BOY'S ESSAY ON COLUMBUS

Columbus was a man who could make an egg stand on end without crushing it. One day the king of Spain sent for him and asked: "Can you discover America?"

"Yes," Columbus answered, "If you will give me a boat."

He got the boat and sailed in the direction where he knew America was. The sailors motioned and swore there was no such place as America but finally the pilot came to Columbus and said: "Captain, land is in sight."

When the boat neared the shore Columbus saw a group of natives. "Is this America?" he asked them.

"Yes," they replied. "I suppose you are Indians?" Columbus went on.

"Yes," replied the chief, "and you are Christopher Columbus. I take it?"

"I am." The Indian chief then turned to his fellow savages and said: "The jig is up. We are discovered at last."—Ex.

Mexico has decided to build up a navy. Does that mean they will extend their revolutions to other lands.

If Europe keeps on worrying us we may have to take it over and close it up.—Pathfinder.

Jazz music has some use anyway. An Indiana man has proved that it makes hens lay more eggs. Probably just scares 'em into it.

The discovery of America is figured to have cost \$7,000. We hardly know whether it was worth it or not.—Pathfinder.
