SUDAN, LAMB COUNTY, TEXAS. THURSDAY, AUG. 10, 1933

NUMBER 6

TWO BUSINESS FIRMS UNITED

South Plains Pipe Line And West Texas Gas Companies Join; Seeking To Increase Operating Efficiency.

Arrangements have been completed whereby the South Plains Pipe Line Company is merged with the West Texas Gas Co., according to an announcement yesterday by R. F. Hinchey, vice president and general manager of the West Texas Gas Co. "This action was taken by the officers of the two companies in order to increase the operating efficiency, and effect certain economies in an effort to partly compensate for the general decrease in business," said Mr. Hinchey.

"It is also desired by the officers to restore the investment of the South Plains Pipe Line company of the West Texas Gas company so that there may be better understanding on the part of our customers and city and town officials as to the costs of both transportation and distribution of gas.

"The pipe lines will be operated as a transportation division of West Texas Gas company with the same personnel," Mr. Hinchey explained.

TEN THOUSAND VISIT CAVERNS

More than 10,000 persons from 41 states of the United States, the district of Columbia, two territories, Hawaii and Alaska, and 14 foreign nations, went through Carlsbad Caverns near Carlsbad, New Mexico, during July, according to the monthly report of Col. Thomas L. Boles, superintendent. The number 10,322, shows a 14 per cent loss from the 1932 totals. Again Texas led the states, its 5,807 being more than half of the entire number. California outranked New Mexico for second place, having 1,036 visitors compared to 910 for the Sunshine state. Oklahoma with one less than New Mexico was fourth.

In previous years July visitors numbered: 1924, 341; 1925, 338; 1926, 2009; 1927, 6,881; 1928, 8,523; 1929, 15,649; 1930, 20,137; 1931, 17,172; 1932, 11,985.

EDITOR MADE POSTMASTER.

Clyde S. Holland, for the past two years editor and owner of the Castro County News at Dimmitt, was appointed acting postmaster of that city.

Mr. Holland has spent many years in the newspaper game. He succeeds Mrs. Birdie Duree.

SUNDAY SCHOOL CLASSES END CONTEST WITH PICNIC

Members of the Methodist and Baptist Young People's Sunday School classes enjoyed a picnic Monday evening in the sand hills, north of Fairview.

The large group departed from the Baptist church at eight o'clock in automobiles. After arriving at the sandhills the group spent about an hour playing in the sand. Then fried chicken, potato salad, pickles, bread, and iced tea was served to the seventy-five present.

Mr. and Mrs. G. G. Hazel, Mr. and Mrs. H. B. Teal, Mr. and Mrs. Joe T. Salem, and Mr. and Mrs. R. P. Markham were sponsors.

This was a climax of a contest held between the two classes which was called a tie.

CONCO ENDORSES NRA

According to Dan Moran, president of the Continental Oil Company, his company is complying with the President's Blanket Agreement on NRA. The company is now displaying the "Blue Eagle" emblem in prominent places about their business establishments.

LAST STRIP OF RIGHT-OF-WAY FOR NO. 7 IN PARMER CO. SECURED

The last necessary strip of land needed for the completion of the paving of Highway No. 7 between Lubbock and Clovis was purchased recently by the Parmer County Commissioner's Court from the Sante Fe system.

For some time the completion of the paving between Lubbock and Clovis has been held up on account of Parmer County's failure to secure all of the required right-of-way.

Engineer Harry Roberts is in position to report the way fully cleared; to it is believed that the contract for paving through Lamb, Bailey, and Parmer counties will be let in the near future.

FERGUSON URGES RAMBY TO VOTE FOR RELIEF BOND ISSUE AMENDMENT.

H. G. Ramby local pharmacist, visited James E. Ferguson recently while in Austin, and the former governor urged Mr. Ramby to vote for the Relief Bond Amendment in the coming election, August 26.

Mr. Ferguson said that he had been instrumental in defeating many bond issues, as he did not favor them generally; but that this bond issue is different from the others. Texas must vote these bonds in order to match the federal funds for relief work in Texas. The bonds will be issued only as they are needed.

In explaining the helplessness of the legislature to grant money for relief work, Mr. Ferguson said that the legislature could not vote a penny for relief work in Texas until the constitution is amended.

Mrs. Ramby accompanied Mr. Ramby on the trip and visited her mother, Mrs. Bull.

SHOULD VOTE ABSENTEE BALLOT IF GOING AWAY

Attention is called to those voters who are preparing to leave on vacations, or to take temporary jobs during the latter part of August, that absentee ballots for the general election August 26 may be had at the office of the county clerk. Those may be voted and filed with the County Clerk so that they may be opened on election day.

Young men and women who became 21 years of age since January 1, 1932, or will become of age prior to August 26, 1933, did not owe poll tax for the year 1932, according to a ruling by Assistant Attorney General Hooper, and therefore may vote without a poll tax receipt.

Several important amendments are to be voted upon, and everyone should voice his opinion; so that the amendments will go as the majority wants them to go.

It is the duty of a citizen to vote for or against these amendments.

GULF SIGNS BLANKET CODE

The Gulf Refining Company has announced that it has signed the President's blanket code pending the final adoption of the oil industry code.

The District Sales office of the Gulf Refining Company located at Houston has authorized its agents in all parts of the state to sign the agreements with the President through their local committees.

TO MAKE FALL SET

The fall set of the Sudan Chick Hatchery will be made August 15, according to U. H. Mileur, manager of the local Hatchery.

In order to comply with the present demand for fall baby chicks Mr. Mileur will operate his Jamesway incubator during the fall. He will also do custom hatching.

Miss Mary Abney of Lubbock is visiting Mrs. Ara Earnest and Mrs. James Courtney.

FAVORS RELIEF ISSUE

LIEUT.-GOV. EDGAR WITT

Witt Favors Relief Bond Amendment

Lieutenant Governor Edgar Witt of Waco, an original opponent of the proposed constitutional amendment permitting the legislature to issue relief bonds, today announced that after acquainting himself with the relief situation he believes it would be a tragedy not to adopt the proposal.

"When the legislature submitted the proposed amendment last spring," said the lieutenant governor, "I was hopeful that we would not need Federal Aid in Texas. But there have been developments since then, and I have learned the true and dark picture of suffering in Texas and I now believe it would be sheer tragedy to defeat the relief bonds.

"In the first place the drouth and crop failures in certain sections change the picture from what it was three months ago. I am told authoritatively that before the end of this winter there may be as high as 80 per cent of all the inhabitants of some Panhandle counties who will have to be publicly fed. So much Texas cotton has been plowed up and crops are so short that the usually dependable labor of cotton picking will be reduced by more than half of normal.

"Twenty per cent of our population is now relief rolls, but that is only a part of the picture. More than that proportion are unemployed, using the last of their reserves or savings, but not yet on relief rolls. This class will be the first absorbed in the re-employment provided by the National Recovery Act, leaving those on the rolls still to be publicly maintained.

"Some people don't like what they term setting a precedent in voting bonds. I don't like it either but we are confronted with a condition and not a theory. Two years ago the people by a direct vote authorized the legislature to spend money on a Centennial celebration but it has taken cognizance of the depression and has not appropriated any money for that purpose. I am certain that if the people vote to trust the issue of relief bonds to the legislature not one dollar more than needed will be issued and the whole issue will be thoroughly safeguarded against waste, extravagance and corruption.

BUSINESS MEN TO ASK CONSUMERS COOPERATION

A co-operative drive with the consumer was planned at the meeting of the Sudan Business Men's club Tuesday at noon, and this drive will be started in the next few days.

The recovery program being enacted by President Roosevelt does not only need the help of the manufacturers, retailers, jobbers, and others who aid in distribution; but it needs the co-operation of the consumer, also.

This program will ask the support of the consumers in dealing with local NRA members.

Wheat Reduction Program Explained

Texas Is Allowed 20,384,322 Bushels for 1934, Lamb 207,716 Bushels

College Station—Texas has been allotted 20,384,322 bushels of wheat to be raised in each of the years 1934, 1935 for domestic consumption. This figure represents 54 per cent of the State's 5-year average production, taking the 1928-1932 period as the basis for figuring, according to information received by O. B. Martin, director of the Extension Service, from Secretary of Agriculture Henry A. Wallace in regard to launching the wheat acreage reduction campaign.

Conferences of district and county farm demonstration agents of the major wheat producing districts have been called to meet in Mineral Wells August 14, 15, and 16, and Plainview 16, 17, and 18. Mr. Martin stated. The Extension Service will be in the wheat campaign, as it was in the cotton the agency charged by the Secretary of Agriculture with the responsibility of making clear the provisions of the contract to every grower and of organizing the county and local committees who will swing the job.

Each wheat producing county has a definite allotment and within the counties these allotments will be sub-divided to wheat growers by computing the individual grower's average production over a period of three years. The grower who joins up to reduce his acreage for 1934 and 1935 will agree to cut down not more than 20 per cent of his average acreage during the preceding three years, and to sow in wheat in a "workmanlike manner" the number of acres that should produce the number of bushels that are allotted to him. He also agrees not to use the released acres in any way except for soil building, erosion preventing, or for the production of food to be consumed at home or feed to produce livestock to be consumed at home. And here, Mr. Martin asserted, is an opportunity every wheat grower should seize to develop a definite live-at-home policy. The Extension bulletin "Filling the Farm Storehouse" will be found a good guide, he said.

In return he receives, on or after September 15th this year, 20 cents per bushel on his farm allotment; and not less than eight nor more than ten cents additional per bushel after proof of compliance. This last payment will not be made before June 1, 1934. These payments he will receive regardless of the price for which he sells his wheat. The 1934 and 1935 payments by the Secretary of Agriculture will be based on the amount necessary to bring the price up to parity.

The growers who enter into this contract with the Secretary of Agriculture will be expected to organize county wheat control committees, selecting a paid director to devote his time to the business of the organization. The salary and expenses of this executive will be deducted from the money to be sent (Continued on page 4)

DESCRIBES TRIP TO COLLEGE STATION

Mrs. W. R. Boyd's description of her trip to College Station was the interesting feature of the meeting of the Friendship H. D. club Friday afternoon, August 4.

Sixteen members, one visitor and two new members were present at the meeting which was in the home of Mrs. W. R. Boyd.

The next meeting of the club will be held at the Friendship church August 18. A pickle demonstration will be given by Mrs. H. C. Dennington and Mrs. M. Roberts. You are urged to be present.

LAMB COUNTY WAS WELL REPRESENTED AT SHORT COURSE

Twenty-six representatives from Lamb County 4-H clubs and Home Demonstration clubs, accompanied by Miss Ruby Mashburn, county home demonstration agent, and a number of farmers, have returned home after attending the annual A. and M. Short Course at College Station.

The Short Course which is held each year includes many inspirational and informational lectures, talks and discussions in a wide variety of rural fields including home making, dairying, poultry, livestock production, farm crops, and other things of interest to the farmers.

Those attending were as follows: Mrs. W. H. Roberts, as a delegate from the Littlefield Home Demonstration club; Mr. and Mrs. Walter Spires of Littlefield; Miss Opal Brown as delegate from the Littlefield 4-H club; Miss Maude Pepper as delegate from the Ruby club; Mrs. J. M. Whitfield and Mrs. J. T. Graham as delegates from the Amherst H. D. club; Miss Virginia Bell Logan representing the 4-H club of Amherst; Mrs. C. M. Crawford, delegate from the Blue Bonnet club south of Sudan; Mrs. W. R. Boyd, Friendship club; Mrs. D. C. Lumpkin, as delegate from the Sudan H. D. club; and Mr. and Mrs. R. V. Fent of Olton, representing the Sandhill club.

Attending the Short Course were 2300 women, 1,200 men and 1500 4-H boys and girls.

12,314,000 BALES IS GOV'T. FORECAST

The department of agriculture estimated the cotton production for 1933 in the United States at 12,314,000 bales of 500 pounds gross weight. Texas' production was set at 3,541,000.

This is a decrease when compared with 13,001,508 bales last year, but it was an increase of a million and a quarter over trading estimates for this year. Cotton dropped \$2.00 a bale the day the report was published in New Orleans.

The area in cultivation July 1 was 40,798,000 acres as compared with 36,542,000 acres a year ago, and the ten-year acreage abandonment of 2.6 per cent.

The August 1 condition indicates a yield of 198.4 pounds to the acre, as compared with 173.3 pounds produced last year and 167.4 pounds, the ten-year average.

The area indicated for harvest is 29,704,000 acres, compared with 35,939,000 acres picked last year.

Texas 11,095,000 acres, condition is 71 per cent, and 3,541,000 bales is estimated production.

BREAKS COLLAR BONE

G. G. Hazel broke his collar bone Monday evening while on a picnic with the Methodist and Baptist Sunday School classes in the sandhills north of Fairview.

Mr. Hazel went to his car and did not report the injury until the picnic was over.

PAVING BEING CONTINUED

The project which was started last winter of paving Sudan streets is being continued as a crew of men put down caliche on Second and Third Streets. The block of Main Street between First and Second is also being widened.

Plans are being made to pave another block toward the school. This paving project has certainly added much to the appearance of Sudan and has made the streets passable in bad weather.

Mr. and Mrs. Otto Jones of Midland are visiting Mrs. Jones' mother and brother, Mrs. J. J. Franks and Fisher Franks and wife.

SCHOOL MEN MEET HERE

Three hundred men representing schools of Lamb and Bailey counties attended the school meeting at the Sudan High school auditorium Wednesday afternoon to hear Mr. Holbrook, deputy state superintendent of district two, explain the L. A. Wood educational program.

The meeting was called to order at 2:00 p. m. by county superintendent L. D. Rochelle, after which Mr. Holbrook explained the Rural Aid Law which is to make better schools for less money.

Senator Arthur P. Duggan made an interesting talk on the school problems and how the legislature is trying to help the small schools.

Pat Boone, chairman of the county school board, made a talk and told the people that the board was at the service of all schools in Lamb county, and was ready at any time to help. The county board held a business meeting after the school meeting.

The main purpose of the new school law is to group the small school with the larger ones in order that the schools may operate more efficiently. Examples were given where several teachers were being hired by small schools to teach only four or five high school students. This law helps furnish transportation for the smaller schools to the larger ones.

The state is aiding the small schools by paying tuition of \$7.50 to the larger schools. Where it is possible to send high school students of the small schools to larger schools, the state will require it by cutting off state aid, unless the requirement is met.

Judge Adam of Bailey county attended the meeting.

One of the planks in Woods platform was not more money for schools, but more school for the money. This is being instituted in this law, as small schools will be able to save thousands of dollars in investment for equipment, as well as teacher's salaries.

This will also be advantageous to the larger schools as they will be able to be much more efficient.

Whether or not this new law will be successful depends upon the schools. If proper cooperation is given the state superintendent in his program, it will be successful.

After September 15, Mr. Holbrook will be stationed in Lubbock, and will spend all of his time supervising the schools in the 15 counties that are in his district. He will check on the schools and be ready to help solve their problems at all times.

VISIT NEWS OFFICE

State Senator Arthur P. Duggan visited The Sudan News office Wednesday afternoon. Mr. Duggan was here attending the Lamb and Bailey counties school meet which was held at the school house.

Mr. Duggan is very interested in our schools and has been responsible for much helpful legislation to be passed by the Legislature to help our schools.

Mr. Duggan is a candidate for Congress from the new district which has been formed in this part of the state.

RECEIVING SHOES

Tom Alderson of Alderson's Dry Goods store has been receiving large shipments of fall shoes for his store this week.

The large stock which was received has necessitated the building of three extra shelves, and Mr. Alderson says that he still has shoes and doesn't know where to put them.

Mr. and Mrs. F. M. Kester and son, Clifford, of Hereford, visited their son and wife, Mr. and Mrs. Lynn Kester, Sunday.

SUE MANN NEW SUPERVISOR

The newly named supervisor of schools in the Lubbock district for the state department of education is Sue B. Mann, a high school supervisor in the state department and a former Fort Worth school teacher and Texas Woman's college professor.

The appointment was reported late Wednesday from Austin. The district embraces virtually the same area as the 24 senatorial district, comprising 24 counties, and the new 19th congressional district of 25 counties.

Miss Mann is expected to report for her work before the first of September. She will headquarter in Lubbock and will have general supervisory jurisdiction over schools in her territory.

As a matter of economy as well as to increase efficiency, the state was divided by Superintendent L. A. Woods into districts. Supervisors for all of the districts with the exception of Amarillo have been selected. Miss Mann has had 23 years experience as a teacher, college and university professor and instructor and as a school executive. She has had experience in both rural and city schools and high schools as well as college and university work.

DEEDS GO TO AUSTIN

Deeds for the right-of-way for Highway No 7 through Lamb county have been sent in to the State Highway department, according to Judge Simon D. Hay. The state asked that they be sent in. It is believed that construction of the paving of the highway will be started in the near future.

SET CLOSING HOURS

The Dry Goods, Hardware, Grocery and Variety Stores, and the Lumber Yards have agreed to open each morning at 7:30. All the stores will close at 7:00 P. M. The stores will stay open later on Saturdays.

HAS BIG DAY

The Salem Dry Goods company had the largest Saturday's business last Saturday that it has had since the first of this year, according to Joe T. Salem, owner.

Mr. Salem is a strong believer in News advertising and he believes in co-operation and planning for the future needs of our town. He is 100 per cent for NRA.

Honor Eighteenth Birthday

A birthday dinner was served in the home of Misses Ouida and Wilda Townsend last Sunday, honoring the eighteenth birthdays of Miss Alene Scogin and Mr. M. R. Slaughter.

After dinner the guests went kodaking and returned late Sunday afternoon.

Those attending the affair were: Ouida Townsend, M. R. Slaughter, Alene Scogin, Weldon Findley, Thetta Mae Dykes, Aubrey Morgan, Melba Phillips, Melvin Scogin, Wilda Townsend, and Mr. M. R. Slaughter.

PICNIC AT MILAMS

Mr. and Mrs. J. K. Milam gave a picnic supper at their home near Circle Back Thursday evening in honor of Ples and Milton Harper who are visiting their sister, Mrs. Milam. Ples lives at Tuscon, Arizona, and Milton at ElPaso. Both boys are teaching school.

Those enjoying this picnic supper were: Mr. and Mrs. J. B. Harper, Mr. and Mrs. Porter Earnest Jr., Miss Mary Abney, Mrs. Ara Earnest, Mr. and Mrs. James Courtney.

THINK ON THESE THINGS

(By the Parson)

The sure way of losing the battle is to quit fighting. Sudan, inspite of the depression, has made a one hundred per cent advance in the last twelve months. The town, through the efforts of tenacious men, have beautified her streets and made substantial improvements in many ways. Sudan, has more than held her own in trade. Hundreds are seen on the streets during the week. On Saturdays and First Monday (Trades Day) the sidewalks are not wide enough to accomodate the masses. The prosperous condition which exists in this town and community is not the result of the efforts of the whole group of business men, but rather, it is the result of a minority who have had the courage to fight in the face of great opposition. If you are the recipient of a good trade and have not been one to cooperate, you should be like the Irishman who when asked what he would be if he wasn't an Irishman, replied, "I'd be ashamed of myself." It behooves every business man to get in line with the Business Men's Club and work. With the wonderful prospects which we have for a good crop, in addition to the money received from RFC for cotton plowed up, we ought to make the best little town in Texas.

Have we forgotten to invite our farmer friends to the Business Men's Luncheon?

The City Commission should be commended for their untiring efforts in making possible a good water supply for the city. The tenacity which these men have manifested in their effort deserves the commendation of the entire city. It is this kind of effort that wins. Gentlemen, your efforts are appreciated.

The Parson has organized a Business Men's Bible class which meets at the Parsonage every Sunday morning at 10 o'clock. You are cordially invited to attend. We have our own "devotional" exclusive of the regular Sunday School. Special music each Sunday. We urge you to come. Next Sunday's lesson will be found in 1 Samuel, 1st and 2nd chapters.

The NRA sign (The Blue Eagle) is the sign of patriotism and should be our symbol of loyalty. It is the one symbol which means co-operation.

Have you tried an ad in the Sudan News? Ask the regular advertisers if it pays. It is the only means of carrying a thousand messages in to as many homes. At a time like this when prices are rising, it is essential to your business to let the general public know that you are still selling at the "old price", or at least selling at a price much lower than the prevailing price should be.

Mr. and Mrs. W. A. Peachy returned Tuesday afternoon from Kansas where they have been visiting his people and attending to business matters for the past month.

Mr. and Mrs. Allen Jackson and children of Graham Texas spent Tuesday visiting Mrs. Jackson's mother, Mrs. T. H. White and sister, Mrs. Milton Roberts. They were enroute to Carlsbad Cavern, Mexico and the Rio Grande Valley of Texas. Edgar White brother of Mrs. Jackson, accompanied them on their trip.

Mr. and Mrs. Sam Saunders and children left Monday for Dallas where Mr. Saunders will purchase merchandise for his variety store here. Mrs. Saunders and the children will visit her sister in Fort Worth.

Mr. and Mrs. Joe Covington returned the latter part of last week from Dalhart where Mr. Covington has been working. They went to Weatherford, Tuesday, accompanied by Mr. and Mrs. L. D. Covington, and will visit their daughter and sister, Mrs. McCaskey, for some time.

Mr. and Mrs. C. H. Nichols and son, Nelson, and Mr. and Mrs. Tom Alderson spent Sunday at the Johnny Robinson ranch in Yoakum County. Jiggs has been visiting there for some time, and remained for a few weeks longer.

Mr. and Mrs. Joe T. Salem entertained Wednesday afternoon with a birthday party for their son, Bobby, who was four years old. Refreshments were served to about thirty little folks.

M. E. CHURCH NOTES

Sunday school 10 A. M. Preaching services 11 A. M. and 8:15 P. M. W. M. S. Circle No. 1. Monday afternoon 3:30 P. M. Leagues meet 7:30 P. M. each Sunday.

Men's Bible Class meets at the Parsonage at 10 o'clock every Sunday morning. We conduct our own devotional exclusive of the Sunday School. Special music and Worship program each Sunday.

Choir Practice Wednesday 8:15 P. M.

Our Aim: 250 for Sunday School.

Build a large auditorium. Pay budget in full.

If we shall be able to reach our objective in this matter we must have the co-operation and assistance of every member of the church. If you (and the family) have not been attending Sunday school and church, you are depriving yourself of a great blessing and hindering the Spiritual progress of your children. Don't delay doing your Christian duty any longer. Will you disappoint Him?

Subject for morning Worship, "As a man thinketh in his heart so is he." What you are today Spiritually, mentally, and financially is the result of your thinking. You are cordially invited to attend our services. —

"QUALITY GOODS FOR LESS"

SUDAN, TEXAS

Finds Wardrobe Work Interesting

Mrs. L. G. Fox of the Ruby club, Sudan, tells of her experience as wardrobe demonstrator for 1932 and 1933.

To know you are well dressed gives you self confidence. It is not necessary to spend a great deal, if one considers wisely. I was interested in wardrobe work. When I entered as Wardrobe Demonstrator for my club, I know there was a lot to learn about buying, and also color and line. I have a small girl so I feel as if it will help me in buying for her and teaching her to buy herself when she is older.

I didn't have a bolt in closet. Our house is small. I could never see much of a place to build closets. We didn't have storage space for our canned goods, so I had them in the same corner of my bedroom that I kept our best clothes. I had a rod out from the wall and kept a sheet over our clothes. I didn't have but a few hangers so I kept shirts dresses and other things hung over the rod. When I wanted anything I would have to take everything down. It kept me busy trying to keep them straight. Our shoes were first one place then another. Under the bed or in a box.

I told my husband I had entered as wardrobe demonstrator as no one else would take it. I told him I would have to have a built-in closet. He said he couldn't see a place to build one, as we didn't have a place to store our canned goods. I told him we would put the shelves in the kitchen. I finally persuaded him to help me.

We live on a rented farm, but have a good landlord. So my husband asked him about building the closet. He said to go get the material to build it. We had to buy almost everything. The total cost was \$7.75. It is 5x2 1-2 feet. It has two long shelves and five shelves in one end. One of my club members gave me paper to parer it. It is very light. I don't ever need a flashlight to find anything at night with a light in the room. My husband made the rod out of an old sucker rod from a well. He also made a shoe rack out of the ends of an orange crate and two broom handles. Then I have a low shelf for the children's shoes. I fixed a tie rack a few inches from the wall. I keep our hats on one shelf. Sheets and pillow cases on one, and either folded garments on the other shelf. I have arranged the dresser more convenient and have a box for the handkerchiefs. Now the children know where to find a handkerchief. All of us take more pride in keeping our clothes in place. I know how to appreciate a nice place for our clothes as it is the first time I have ever had a built in closet, of anykind. I thank our home demonstration agent, my husband and our landlord.

FRIENDSHIP GIRLS' CLUB

"Bread Making" was the subject discussed at the meeting of the Friendship Girls' 4-H club at the home of Mrs. W. R. Boyd August fourth. Two new members joined the club.

A "Moon Light Picnic" was planned for August 18th at Elm Grove. The next meeting will be August 18th.

BAILEYBORO WOMAN DIES

Mrs. P. L. Burrel, formerly of the Bula community, succumbed to a long illness at her home in the Baileyboro community early Thursday morning.

Funeral service were held at Baileyboro Thursday afternoon.

FALL SEMESTER AT TECH TO OPEN SEPTEMBER 20-21

The 1933 fall semester of Texas Technological College opens September 20 for freshmen and September 21 for all other students. Entrance examinations for students, who cannot meet the requirements by high school credits, will take place September 18 and 19. The second semester will open February 1. The college is changing from the term to the semester basis beginning with the fall session.

WHEAT REDUCTION

(Continued from page 1)
into each county by the Administration. In counties lacking sufficient production to justify setting up County Wheat Production Control Association but whose growers wish to participate in the plan, special arrangements will be made whereby counties may combine to carry out the organization steps herein enumerated. Such combinations of counties will be assisted by the Extension Service and the Agricultural Adjustment Administration. Counties entering into combinations will be known as District Associations, and their allotments and payments both for the combination

of counties and for the individual growers in such counties, will be handled in approximately the same manner as in the case of counties in which County Wheat Production Control Associations are organized.

Following are the allotments for the counties in this district for the five-year average 1928-1932:

Lamb, seeded acreage 36,200, yield per seeded acre 10.6, production bushels 385,200, county allotment bushels 207,716; Bailey, 8,000, 10.5, 83,800, 45,253; Cochran, 400, 14.0, 5,600, 3,058; Hockley, 2,600, 9.2, 24,000, 12,842; Lubbock, 24,000, 9.4, 226,000, 121,898.

MISS GENEVA CRAVENS, THERON V. LYNCH WED

Miss Geneva Cravens and Theron V. Lynch were united in marriage Friday evening, July 28, at nine o'clock at the first Baptist parsonage in Littlefield.

Rev. Joe F. Grizzle, pastor, officiated. Mr. and Mrs. Cravens, brother and sister-in-law of the bride witnessed the wedding.

Theron Lynch is the son of Mr. and Mrs. W. F. Lynch, who owns a farm north of Sudan. He graduated from the Sudan High School in 1931.

From Robot Pilot to Aid Kit Modern Planes Is Equipped For Every Emergency

By DOC SCHNURMACHER

ROARING Westward over the Rockies on the Laramie-Los Angeles run, at an altitude of 9,000 feet, Air Mail plane C 288, carrying a ton of mail, waggies its wings in salute to a fleeing passenger air liner purling Eastward towards Newark Airport.

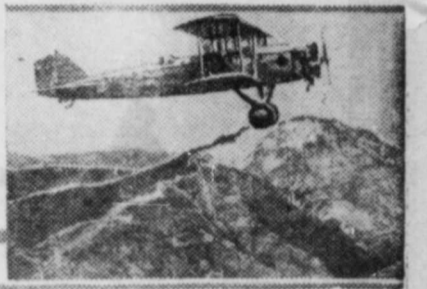

A thousand feet beneath those planes in the clear, keen air, the white covered peaks of the Rockies with their fringe of timberline seem desolate and solitary . . . an age-old world that has never advanced beyond primeval times.

In the planes themselves, in marked contrast to the terrain beneath, the latest devices of science are everywhere in evidence. It is the pilots constantly in touch with weather conditions along the line of flight, robot pilots automatically relieve the human pilot from time to time, "de-icers" remove dangerous ice should it form on the wings, blind flying equipment assure safety in fog and clouds.

Even the compact little first aid kits carried by the pilots for emergency use represent a triumph of science, ever on the alert to serve its favorite child—the airplane. Devised by scientists and skilled workers of the Red Cross Products Division of Johnson and Johnson, great American drug supply house, the items in the kit in general use on the ground, take on an added value in the air, in case of emergency.

In the kit there are to be found

30" and drybak adhesive plasters that are quick sticking and long lived; there is Red Cross cotton of 30 power absorbency, waterproof and mercurochromed speed band-

Above: Fast airmail flying over the Rockies. Insert: Capt. George Daufkirch and the little first-aid kit he carries in his speedy Lockheed.

ages—band aids, and many other scientifically designed first aid products available for quick and efficient use.

The use of these products themselves constitute many thrilling, little-known episodes of the air, which if aviators talked, would furnish true stories more graphic by far than fiction.

There is, for example, the story of Captain George Daufkirch, one of the oldest flying boatmen in America with 17 years experience in flying fast mail, freight, passengers . . . every type of plane that bears wings.

Taking off from Glenn Curtiss Airport one night in a fast Lockheed plane, bound for the Coast with a cargo of important freight, Captain Daufkirch started Westward at 175 miles an hour.

Five hours out, however, head winds began to retard his speed. Climbing, ever climbing into the thin cold air, with his hands numb, the Captain sought an altitude at which the wind would not so great-

ly retard his progress. That freight had to be in San Francisco the following day to be loaded on board boat for the Orient.

After battling terrific winds and gaining a tremendous height in the bitterly cold air, the fast Lockheed made up for lost time. The Captain was on schedule!

But now a new danger beset him, weariness and thin air and cold joined in a conspiracy to produce sleep. His eyes began to close.

Realizing his danger, Captain Daufkirch removed a small, slim packet of ammonia inhalants from the pocket of his flying coat. From the packet he extracted a tube of cotton which he crushed between his fingers. In doing so he broke a tiny glass tube. Immediately, powerful ammonia was released, saturating the cotton.

Holding this to his nostrils, the clean, strong odor cleared his senses and revived him. And the five other little tubes in the packet used at intervals kept him mentally awake and alert until he arrived at the Frisco Airport . . . on scheduled time!

CONOCO

GERM PROCESSED MOTOR OIL

PARAFFIN BASE

THE HIDDEN QUART

STAYS UP IN YOUR MOTOR AND NEVER DRAINS AWAY

Fill or add a quart at Red Triangle Stations

CONOCO

NRA

WE DO OUR PART

You can have the best lubricant without penalty. The total cost of Conoco Germ Processed Motor Oil is only one-fifth of a cent per mile, very little to pay to protect your car investment.
The exclusive Conoco formula . . . Germ Process . . . is used to give it extra oiliness and penetrativeness no other oil has nor can have.
