## Patterson Found Not Guilty By A District Court

Gaston Patterson, former tax collector of Lamb county, was found not guilty of misappropriation of county funds by a district court at Olton Tuesday. Evidence brought out in the trial showed that Patterson held cold checks that had been given him in payment of taxes, auto licenses and other payments, to more than cover the \$1,700.00 shortage charge. The jury voted unanimously in favor of the not guilty verdict.

## SCHOOL AND COMMUNITY.

Once, in a small village a little child wandered away from her home and was lost in a large wheat field. The villagers all joined in a search for her and carefully explored the wheat field, but returned at noon, discouraged without finding the child and feeling that further search was useless. But one man spoke up and said, "We have not gone about the search in the right way. We must all join hands and make a chain and go through the field again and we will be able to find her." So they all joined hands, forming a long chain, and went through the field again and found the child and took her to her home. What they were not able to accomplish when each person worked alone was easily accomplished by the group when they all worked together.

There are many agencies which are working for the education of our boys and girls. The church, the home, school, the movies, our newspapers, our play grounds, and our entertainments are all having a part in the growth and development of our youth which we call education. No one agency working alone can take the full responsibility for equipping a child to become a useful member of society. But all the agencies may together accomplish what neither can do by itself. It is therefore necessary that there should be the greatest possible sympathy and understanding among all these agencies in order that they may all work together to give our young people a complete education for life, for each can contribute something which the others can not.

Our community has recognized the need for schools in the life of the child to furnish him with the needed education and the schools have recognized the need for the cooperation of the home and the community if their efforts for the children are to be most effective. To be of greatest help to the schools the community should become acquainted with what the schools are doing. The community owes loyalty and cooperation to the school. Visit the school. And be careful about criticism. Most parents would never criticize the school if they were thoroughly familiar with its work.

Sudan School begins August 28.

All pupils are requested to bring book cards to receive books.

The Senior Class will be enrolled on Friday and Saturday, August 25 and 26. We urge each pupil who has eleven credits to report on the stated date and arrange your schedule.

## Payment Plan Is Explained

The government will not deduct the amount owed by crop loan borrowers in Washington before mailing checks for cotton destroyed, according to Owen B. Sherrill of Dallas, regional manager of the government's crop production department.

Farmers who have crop loans and have given the cotton which was destroyed as security will have to pay their crop loan, as soon as the government check is received.

"This is a sale of mortgaged property covered by a blanket lien on this and any other product until the government obligation is paid in full," he said, "and the farmer will be expected first to pay his government obligation to the extent of the lien from any receipts, whether it be from cotton plowed up or from other sales. From whatever mortgaged property receipts are had, returns are expected to be turned in on mortgage to the extent of the mortgaged obligation.

"Landlords have waived their rents until the mortgage has been paid to the government, other lien holders have waived and anything contrary to fundamental of the credit structure would be damaging to the moral and interests of all credit relations and business generally, as well as to morals of persons involved."

Sherrill said that instead of subtracting the amounts in Washington due the government, the checks were being mailed to farmers and it was expected the farmer would clear his government obligation as rapidly as possible.

## MARINE CORPS ANNOUNCES VACANCIES.

During the month of September there will be a few openings for young men in the United States Marine Corps, provided they have the necessary qualifications, mental and moral, and can pass the rigid physical examination required of all men enlisted in this branch of the service.

Cornell, officer in charge of recruiting, District of New Orleans, 535 St. Charles Street, New Orleans, La., who will furnish full information regarding the service and the duties of a marine, ashore, afloat and in the air, in this, and in foreign countries. The rigid requirements for enlistment also will be explained in detail, for this branch of the military and naval service which is recognized here and abroad as one of the finest in the world, and is the most difficult to enter due to its high educational, moral and physical standards.

Conditions of the crop as of August 1 was given 71 per cent of normal against a ten year average of 66 per cent for the same period of the season.

The report said the indications were the harvested acreage this year would be the smallest since 1909. Acreage harvested that year total 9,900,000 acres. The 1933 harvested acreage was estimated at 11,095,000 acres.

## County Welfare Committee Was Appointed Friday

F. M. Grazier, field representative of the Board of Welfare and Employment, the newly organized federal and state organization for the disbursement of federal and state relief funds to the unemployed, was in Sudan and Littlefield last Friday and Saturday to perfect the county organization of this department.

The county committee, as appointed in Austin and approved by the Lamb County Commissioners' Court, is as follows:

P. E. Boesen, Sudan, Chairman.

T. Wade Potter, Littlefield. Roger Willitt, Amherst. Guy Willis, Olton. Cecil Barnett, Fieldton.

Under the new organization one administrator is appointed to take charge and disburse the funds for the entire county. The administrator will have his office in Sudan and will make frequent trips to all parts of the county. Local committees will be appointed to co-operate with the county committee, as will also the Commissioners' Court of the county. Mr. V. C. Nelson, of Sudan, was appointed by Mr. Grazier for the office of county administrator. He will receive a salary paid by the government, and no other person in the directing organization will receive any compensation.

The county and communities are obliged to pay for the services of a secretary for the administrator, and also to defray the cost of his fuel and oil expense for his car. The secretary is to be paid no less than \$14.00 per week. The secretary must reside in the county.

The regulations laid down in the new set-up pertaining to the ratio of pay for the unemployed is as follows:

A family of two is entitled to \$8.00 per month, to be paid at the rate of 30c per hour for labor performed under the direction of the local committee.

For three and four in a family the amount allowed is \$9.00 to \$10.00 per month.

For five and six in a family the amount is \$12.00 to \$13.00 per month.

For eight in a family the amount allowed is \$14.00 to \$15.00 per month.

For ten or more in a family, the amount shall not exceed \$18.00 per month.

Families who own homes are limited accordingly. Conditions in such cases shall govern the committee.

When labor is available on farms or elsewhere, all who are on the relief rolls are expected to respond to call, and the rate of pay and hours set by the farmers or other employers shall be accepted without wrangle or question. Anyone on the relief rolls who refuses to accept work under this rule shall immediately be dropped from the relief roll. Mr. Grazier emphasized the fact that this movement is in line with others on the part of the government to help the farmer, and anyone not willing to abide by these rules can no longer expect any help himself. "This is strictly a government set-up, and anyone objecting to any phase of it need expect neither help nor leniency," said Mr. Grazier.

**GARNER'S OPINION**

Because it violates a fundamental principle of government and has not produced 'a satisfactory or effective solution of the temperance problem', Vice President John N. Garner calls upon the people of Texas to vote for the repeal of the Eighteenth amendment.

The Vice President's plea was contained in a letter addressed to Roy Miller, Texas Director of the Democratic National Campaign, and released from Committee Headquarters here today. The letter in full follows:

In response to your inquiry as to my position concerning the Eighteenth Amendment, I beg to remind you that I voted against its submission when it was first presented to Congress because I believed it violated a fundamental principle of government. Since then I have availed myself of every opportunity to assist in bringing about its repeal.

In obedience to the platform of the last Democratic National Convention and on the first day of the session of Congress following, as Speaker, I submitted the question of repeal to a vote of the House of Representatives. I considered it my duty to do so because the American people, by overwhelming vote, had ratified the party platform which demanded repeal.

That the Eighteenth Amendment has not accomplished the results expected of it, even by its advocates, all will agree. That it has not produced a satisfactory or effective solution of the temperance problem is the judgment of a vast majority of the people of this Republic.

I shall exercise my duty as a citizen on the 26th of August by voting to repeal the Eighteenth Amendment and trust that every citizen of Texas likewise go to the polls and perform a similar duty. I especially urge my fellow Democrats to thus support the party and its leadership.

Very Cordially yours,  
(Sgn) John N. Garner.

**THE ONLY WAY**

Federal Relief Administrator Hopkins serves plain warning on Texas that if the \$20,000,000.00 relief bond amendment fails August 26 federal relief expenditures in Texas will halt immediately.

The federal government has already spent some \$12,000,000.00 in Texas providing necessities of life, principally food, for thousands of Texas unemployed. About \$4,000 has been spent in Sudan to furnish bread and butter for needy families, and also making it possible to pave three blocks of Main Street.

All of this relief money granted to Texas in the past was granted under the specific un-

derstanding that the relief proposition would first be submitted by the Legislature, and second, that the bonds would be voted. The federal government is granting money to Texas until August 26 with the expectation that the bonds be passed, but if they are not this money will be stopped immediately.

Just what would this mean if all relief money was cut off from Texas? It means that thousands would die for the want of food and shelter this winter. Here in our own town we would have people starving to death. It is too serious a matter to pass up without thought.

Sudan has three large projects which will spend over \$100,000 for labor alone in this city. These projects depend upon federal aid and if they are not backed by the federal government, they will fall flat.

The proposition facing Texas is, therefore, whether the State shall authorize the bond issue, thereby assuring that more than half the money necessary for relief will be contributed by the federal Government, or whether it will refuse the bond issue and thereby losing the federal aid in helping feed its needy. Unless this bond issue is passed the State will be helpless to aid the unemployed, as it cannot appropriate money for charity.

The bond issue is the only way, and Texans are logical enough and humane enough to take that way.

**FLIES ARE DANGEROUS**

A few months ago when the City Commission suspended the hog ordinance, they did not realize the danger to the people in Sudan. They were thinking of only a few who happened to own hogs.

Now since the summer months have furnished the heat to make hog pens excellent breeding places for flies, it seems that the Commission should realize their mistake.

Typhoid fever is reported in different parts of the state; the nearest case is at Amherst—only eight miles away. With the flies swarming to the homes in town from these hog pens, it is evident that the lives of 1,100 Sudan residents are in danger.

The City Commission and the few for whom this ordinance was passed did not realize the danger at that time; but will surely see the necessity of doing away with this general nuisance now.

Let's all co-operate to make this a cleaner and more healthful town to live in.

**REORGANIZED**

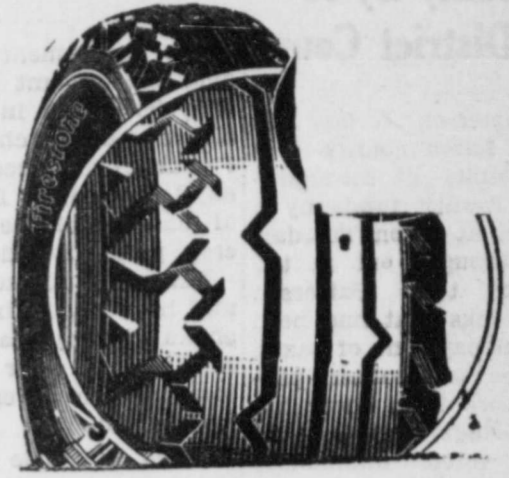

The new federal and state welfare organization has reorganized county and local welfare committees to make their work more efficient. The field representative which visited Sudan last week could not have selected five abler men to serve on the county committee, or an abler man for county administrator, than he did.

We believe the new organization will be more efficient.

**605 DEATHS FROM APPENDICITIS IN TEXAS AS LAST YEAR**

During the past year 605 persons have died of appendicitis in Texas, according to the Director of Vital Statistics for the State Department of Health. Many of these deaths were caused by the persons' ignorance of the disease.

There are two forms of appendicitis, acute and chronic. The form that appears suddenly, with great pain and sickness, is acute. Chronic appendicitis may extend over a long period of time and consists of slight attacks at intervals, but, at some time, there will usually occur an attack worse than any before and the disease may then become serious.

The acute attack appears suddenly. The first symptom is pain, sometimes over the entire abdomen, sometimes in a particular portion in the right side of the abdomen. Sometimes this pain extends around to the back or down into the right limb. The pain is cramp-like and is often mistaken for colic. The fever rises to 100 or 101 degrees and the pulse becomes quickened. Chronic appendicitis is the result of repeated attacks of the milder form of appendicitis.

How to prevent appendicitis. Keep the body in perfect health as long as possible. Watch your bowels, your tonsils, any place where an infection may occur. Get plenty of good food, plenty of sleep, plenty of exercise. Have a thorough medical examination at least once a year and have your teeth examined and cleaned by a dentist at least once every six months. This kind of watchfulness will not only help you to avoid appendicitis, it will help you to avoid many other illnesses as well.

**M. E. CHURCH**

Owing to the fact that the Church of Christ will start their revival meeting Saturday night, there will be no preaching services at the Methodist church, Sunday night. Rev. Roy Bayless, of Muleshoe, will fill the pulpit Sunday morning in the absence of pastor.

Preaching hour 11:00 A.M.  
Sunday School 10:00 A.M.  
League hour 7:30 P.M.

I am wondering if our revivals were a real success? Out of the 1200 people in Sudan only about five per cent attended Church services Sunday night. Where were the other ninety per cent? May God help us to see our Christian duty and give us courage to do it.

God is blessing our services. In our worship Sunday Evening a young man surrendered to the call to preach the Gospel in Old Mexico. His testimony was an inspiration to all present. We urge you to assist God in the building up of His Kingdom. Your presence at all services are earnestly solicited.—Sam A. Thomas, Pastor.

**SUDAN CLUB DISCUSSES PLANS FOR COUNTY FAIR.**

Plans for the county fair were discussed by the Sudan Home Demonstration club Friday, August 11, when they met in the home of Mrs. P. H. Barnes.

Mrs. D. C. Lumpkin gave an interesting talk on her trip to College Station. The subject of the lesson was "Making of different kinds of Pickles."

Refreshments were served to the following: Mesdames D. C. Lumpkin, Foster Lumpkin, Ben Oglesby, Cal Cecil, C. J. Poor, S. Townesnd, Carter, E. E. Ivey, N. W. Gordon, C. W. Robertson, W. O. Parrish, C. A. Daniel, A. C. Findley, H. B. Teal, R. H. Shaffer; Miss Inez Gordon, and the hostess, Mrs. Barnes.

The next meeting will be with H. B. Teal, September 1. New members and visitors are welcome.

Miss Opal Carter of Levelland returned to her home in that city last week after a short visit with her mother, Mrs. Anna Carter and family. She was accompanied home by Mr. and Mrs. Joe Carter who visited a few days with their sister.

Misses Lillian Hunt and Ouida Doty returned last week from several day's visit in Lubbock with Miss Evelyn Hamilton.

**GASOLINE ENFORCEMENT DIVISION INCREASING**

The Texas Legislature's sweetest gift to the taxpayers—Comptroller Sheppard's new gasoline enforcement division—is steadily stretching out over the state after fugitive millions in public money.

The enforcement "army" now numbers more than 70 trained men and establishment of two more district headquarters has brought the total of such offices to eight, according to the latest report of J. M. Reynolds, division chief, to the comptroller. The report was requested by the Texas Good Roads association.

The new district offices, already established and working are in Corpus Christi and Eastland. Mr. Reynolds' report said, and they augment similar centers in San Antonio, Houston, Longview, Dallas, Fort Worth and Amarillo.

To date, the comptroller's operatives have obtained 36 felony indictments against alleged gas tax violators. Three refineries have been placed in receivership to preserve assets.

The great benefit, however, has not come from prosecution but from the \$300,000-per-months increase in gas tax payments which is expected to give a \$1,000,000 "bonus" yearly to the common school fund, a similar amount to the bond refunding fund, and \$2,000,000 to highway fund.

Comptroller Sheppard added that "just as a sideline," his men have raised cigaret tax collections at such rapid rate that he expects to add from \$500,000 to \$1,000,000 to the school fund yearly from "smokes." All of the cigaret tax now goes to schools.

**WHY YOU SHOULD VOTE FOR THE STATE RELIEF BOND AMENDMENT**

More than one and a quarter million Texans are now living entirely from funds supplied by the Federal government in Washington.

Nearly a third more destitute Texans required Federal aid in July than in June.

Half of those now unemployed are not yet on the relief rolls. They will likely be the first ones to get their jobs back. Until they have been re-employed there will be just as many helpless Texans to be cared for as now.

In July we received more than two million dollars direct from Washington to feed hungry people in Texas. The payments average one million and a half a month. The bonds that you are asked to permit the Legislature to issue can be repaid in ten years for two and one-half million dollars per year.

Unless this amendment is passed the Legislature cannot appropriate a single dollar to aid hungry and destitute families. No matter how many destitute there are or how severe their condition, no Texas city or county can expect any outside aid in caring for them unless this bond issue is passed.

If the bond amendment to be submitted August 26th fails, it will be two years before it can possibly be voted on again. The Constitution fixes that.

If the bonds are defeated we can expect no more funds from the Federal Government. If more than a million Texans are left without food for a single

week, there will certainly be a distressing situation. When they find out that it will be two years before they can be relieved, the result will surely be disastrous.

The people are not voting bonds. If the amendment passes it will merely permit the Legislature to issue such bonds as are necessary.

Our Legislature is not wasteful. A constitutional amendment voted last year authorized the Legislature to expend a large sum of money to stage the Texas Centennial. Because of the distressed financial conditions they did not appropriate a dollar for this purpose.

If our vote on August 26th shows we do not want to help carry out the President's relief program, it might cause us to lose millions of dollars that would otherwise be spent in Texas under the Public Works Act. Texas must keep step with the National recovery program.

While Texans are generally opposed to state-wide bonds, our citizens must place the lives of more than a million of their fellow residents above their dislike for State bonds. Fifty cents per person per year will pay these bonds in the ten years they are permitted to run.

No property tax can ever be levied to pay off these bonds. The Legislature saw to that in submitting the amendment.

Vote for the relief bond issue. Don't let a million Texans starve.

### Chain Stores Pay Less Wages Than Other Stores

The report of the Federal Trade Commission to the Senate as of July 18, discloses that the independent stores pay a higher scale of wages than chain stores.

Chain stores upon which the report was made, were grocery, grocery and market, drug, tobacco, ready-to-wear, shoes, hardware and combined dry goods, dry goods and apparel and general merchandise.

Employees engaged in selling in 3,933 independent stores in these eight kinds of business received a weighted average weekly wage of \$24.48, for the week, which ended January 10, 1931, as compared with \$21.61 for 107,035 chain-store employees, engaged in selling.

In March, 1929, the chain stores paid an average weekly wage to all employees of \$20.60. Managers in such stores received an average weekly wage of \$46.91, for the same period, and for January, 1931, \$44.57. Supervisors of chain stores received an average weekly wage of \$76.75, in March, 1929, and \$78.41, in January, 1931.

Continuing, the report states:

"A simple average of the eight lines of business shows a narrower spread between the two figures (\$28.10 for independents, and \$23.82 for chains, respectively.) but leaves the same distinct conclusion, namely, that, for the period studied, the independents paid their store employees more than did the chains."
