VOLUME IX

SUDAN, LAMB COUNTY, TEXAS, THURSDAY, NOVEMBER 30, 1933

NUMBER 22

TEACHERS MAY GET EMPLOYMENT IN NIGHT SCHOOL

Class May Be Organized In Sudan For Parents

L. D. Rochelle, county superintendent of schools has been notified by L. A. Woods, State Superintendent of Education, Austin, that a portion of the Federal Relief fund allotted to meet immediate unemployment needs in Texas, would be available to furnish employment to teachers in this section who, due to conditions, are unemployed.

As the county superintendent just received this advice Wednesday, a definite program has not been worked out.

Mr. Rochelle said that the schools in the county have sufficient teachers to take care of their needs, and so the plan would be to hold adult classes at night for men and women who were deprived of schooling in their youth, and who would be interested in attending such classes. He said there could have to be a sufficient number of people express their desire to attend these classes before the project could be carried out, and asked the News to announce that all those interested in attending such classes should get in touch with him, and also that teachers out of employment in the county desiring to apply for this work should register with him. Mr. Rochelle's address is Amherst Texas.

In case school classes of this nature are organized here Mr. A. Smith, Superintendent of the Sudan schools, has announced that he will cooperate in every way possible and providing the school board does not object, that the Sudan school building may be used for such classes.

Baptist Church Notes

This is Thanksgiving week and surely the people of Sudan and vicinity have much to be thankful for. When we read and hear of the conditions elsewhere we are made to know what the Giver of all good gifts has been very gracious to us indeed. And yet oftentimes prosperity leads us to be more grasping and covetous and we forget to remember the Lord with his proportionate part and thus we pave the way for further distress and affliction.

Sunday was another good day with us in church work. Good congregations greeted us at both morning and evening services. We had four additional to our church. Bro. W. W. Carpenter and wife from the Plainview church and Mrs. Ives and little daughter from Levelland church. We were indeed happy to have these fine additions to our ranks. Their coming is only another indication that the Spirit of the Lord is working in our midst and that we have brighter days ahead.

Our Workers conference which met with the Littlefield church was well attended considering the very busy times upon us. We are happy to see quite a few of our church there. The people of Littlefield were very considerate of our welfare and made us to rejoice in their fellowship. A former pastor of this church, Bro. Saffle, preached for us in the morning hour. We were glad to meet with him again for we have had many associations together. Dr. McDonald of Wayland brought us a very fine message as did Dr. Fry of Lubbock.

Well, we had a good deed done for the church last week. Mrs. Harris and Mrs. Chesher out of the kindness of their hearts had our piano tuned. We are in a position to give you better music when you come to church. Come next Sunday (if you are not already attending somewhere else) and see if you do not feel better for having come.—Rev. C. A. Joiner, pastor

ATTEND COUNCIL MEETING

Mesdames Foster Lumpkin, and H. B. Teal attended Council meeting of Home Demonstration clubs at Amherst Tuesday afternoon. Dates were given for meat cutting, curing and canning. This demonstration will be in Sudan January 17. We are asked to have local people do the killing with instructions from the agent. Anyone who would like to have this meeting at their farm please notify Mrs. H. B. Teal.

Olen Turner, and Robert Twining of Coleman and Buford Teal of Enochs have been guests in the H. B. Teal home this week.

FOR SALE—One second hand living room suite, one living room table, and one odd living room rocker. Sudan Mercantile Co.

Schools Close For Thanksgiving Day

The Sudan Public schools closed for Thanksgiving in order that the children would have an opportunity to take part in the Turkey Day event, according to M. A. Smith, superintendent.

Many of the high school students will take advantage of the opportunity, by attending the football game at Lubbock while the other students will celebrate the day in other ways.

Sudan Stores Close For Thanksgiving

At the Business Men's meeting Tuesday at noon it was decided to close the stores in Sudan Thursday which is Thanksgiving. The merchants present voted unanimously for the closing.

Many of the local merchants will take advantage of this holiday by attending the Texas Tech-Kansas Aggie football game in Lubbock Thursday afternoon.

Home Demonstration Club Notes

By Bernice Westbrook, C.H.D.A.

Mrs. R. H. Shaffer of the Sudan club, demonstrator of the farm food supply work, had her achievement program Friday, November 24. The small pantry was filled with canned cherries, plums, pears, peaches, apples, grape juice, and other fruits. Mrs. Shaffer has an orchard and says that she always has fruit to can, and her pantry certainly shows that she does. Having no more room in the small pantry or cupboard, Mrs. Shaffer had shelves erected along the kitchen wall for her canned vegetables and meats. She has more than five hundred containers, and she has spent no money for cans. She exchanged canned products for them. She also sold fruits and vegetables to pay for the shelves that were built in the kitchen. Besides her canned products, Mrs. Shaffer has several hundred pounds of dried peas and beans including nine varieties, sixty gallons of sirup, a number of pumpkins, and plenty of sweet potatoes. Besides filling her own budget and canning for other people to obtain her cans, she has bought turkeys canned them, sold the canned product, and made money on the deal.

A new cellar has been constructed at the home of Mrs. Ben Oglesby of Sudan, cooperated in the farm food supply work. The shelves are down the two walls of this spacious new cellar. They are filled with canned leafy, starchy, and other vegetables, fruits, and meats. Besides this bountiful supply of canned products there are dried peas and beans.

Mrs. H. B. Teal of Sudan Co-operator in the farm food supply, canned a beef last week and is highly pleased over the results. Mrs. Teal also has vegetables, tomatoes, and other fruits canned.

The cellar at the home of Mrs. J. F. Gibson, demonstrator of the farm food supply work of the Ruby Club, is equipped with narrow shelves on which canned vegetables of all kinds, fruits, and meats are stored. There is a shelf for leafy vegetables, and for starchy vegetables, one for other vegetables, one for fruits and one for jellies, jams, and so on for each class of products.

The achievement day program was held at Mrs. N. A. Schreier's farm food supply demonstrator of the Sandhill club, Tuesday Nov. 21. A shining new cellar has been built. The walls, while the shelves are made of floor and ceiling are concrete, wood and are painted green. These shelves are neatly filled with vegetables, fruits, and meats. Below the shelves are containers of dried peas and beans, also pie melons to be canned a little later when the crop is all harvested.

ATTEND WORKERS COUNCIL

Rev. and Mrs. C. A. Joiner, Mr. and Mrs. Clyde Robertson, and Mr. and Mrs. Harvey attended the meeting of the Baptist Workers' council in Littlefield Tuesday.

Mrs. G. C. Daner and Mrs. J. L. Alsop visited Rev. and Mrs. C. A. Joiner last Thursday. Mr. and Mrs. Francis Miller and Mr. and Mrs. J. C. Barron visited in Amarillo Monday. Mrs. H. C. White of Stephenville has moved to Sudan to join her husband, who is vocational agriculture teacher in the Sudan schools.

The Dish We're All Longing For

Farm Income And Payrolls Go Hand In Hand Says Wallace

"It is becoming more and more apparent that farmers cannot climb out of their trap unless laboring men at the same time climb out of theirs," declared Secretary of Agriculture Wallace in his Des Moines speech recently. "The job of agriculture is to increase its gross income from 5 billion dollars to 11 billion dollars within the next two years. And strange to say, the problem before the workers in the factories is exactly the same thing; namely, to increase their total payrolls from 5 billion dollars to 11 billion dollars in the next two years."

"Since 1924, the incomes year by year of these two groups have been almost exactly the same in dollars. As I studied this extraordinary relationship between payrolls and agriculture, I have reached the conclusion that the prices of grain and cotton tend to influence the payrolls, which in turn influence the consumption of livestock, dairy and poultry products. In other words, agriculture is to some extent a cause and to some extent a result of the total payroll situation. They both act, interact, and react on each other, and I think it is foolish for either laboring men or farmers to claim that they are the all-important class. The really important thing to remember is that both of them have been hit a terrible wallop and that neither one can go very far in recovery without the other."

"Under the Agricultural Adjustment Act the Secretary of Agriculture is directed to restore farm product prices to fair exchange value at the earliest feasible moment. This is to be done by adjusting production to market requirements, and by paying benefits to farmers who cooperate in such adjustment. Farmers' income will be increased by the combination of benefit payments and the higher prices to result from a properly adjusted supply."

Sudan Gins Ginned 7,020 Bales Todate

Sudan's four gins ginned 1050 bales of cotton in the last four days, which increases the number of bales ginned in Sudan to 7,020 for this season to Tuesday noon.

If weather permits the local crop of cotton will probably all be ginned before Christmas according to local ginners.

ARTA B WEST AND BERNICE MAY WED

Mr. Bernice May and Miss Arta B West were married in Plainview Saturday, November 25, by the County Judge of Hale county.

Mrs. May is the daughter of Mr. and Mrs. H. P. West, who reside west of Sudan. She graduated from the Sudan high school in 1931 and later attended Texas Technological college in Lubbock. In high school she was an outstanding basketball player on Sudan's girls' team. She is very popular with the young people of Sudan.

Mr. May is the son of Mr. and Mrs. J. O. May, who reside in the Friendship community and is popular with the younger set in this community. He graduated from Noble (Okla.) High school in 1930.

The young couple left immediately for Oklahoma City and other points in Oklahoma where they will spend their honeymoon, returning to Sudan where they will reside temporarily, later moving to a farm, Mr. May has rented.

The News along with their many other friends wish for them a happy and prosperous married life.

The witnessing the ceremony were Misses Leona Slaughter and Anna Jewel Shuttlesworth; Eugene West, and Ray and Merl May.

Civil Engineer Tells of Surveying America's "Sahara" in West Texas

After the United States government had drilled an unsuccessful test for water in the sands of Andrews county in 1850, it issued a report that the whole plains area of Texas was a waterless desert.

Thirty six years later, W. D. Twichell, surveyor and civil engineer, was given the job of surveying the fence lines and locating water wells in this American "Sahara" for the XIT outfit. The XIT was formed by a Chicago company which received lands in ten West Texas counties for building the capital at Austin.

Mr. Twichell relates he started work Jan. 29, 1886, and by the middle of October had finished the job of surveying 500 miles of fences, dug dozens of water wells and 40,000 head of cattle roamed the lands of the XIT. Most of the early wells were dug by hand and the first cattle were watered by drawing the water buckets. Light wagons were used by the surveyors while fencing materials were freighted from Colorado City, Texas, Las Vegas, and Springer, N. M. First fenced was the 30,000 acre pasture where the cattle were placed five months after work started.

"Buffalo and wild horses went through some of the first barbed wire fences we put up," Mr. Twichell said. "There were 150 Indians on the land following a herd of Buffalo when we

Farmers Warned Not To Sell Crops From Plowed-Up Acreage

Warning is being issued through local committees in Lamb county by County Agent D. A. Adam that farmers who participated in the cotton reduction plan must not dispose of any crops grown on the land on which the cotton was plowed up.

The sale of the crops produced on the land after cotton was plowed up is a strict violation of the contract which the farmer has with the federal government. Any farmer violating his contract is not only subject to fine and criminal prosecution, but also will be forced to return the money paid him for the cotton plowed up last summer.

Mr. Adam says that in some localities action has already been started against those who have sold crops grown on the retired acreage. The county agent and the committee working through him are desirous of saving the farmers any trouble and expense which will ensue, and are asking that all contracts be religiously adhered to. Otherwise it will be between the man who violates his contract and Uncle Sam.

Local Doctor Made Delegate At Meet

At a meeting of doctors of Lamb, Bailey, Hockley, and Cochran counties in Littlefield at which time a unit of the Texas State Medical association was organized for this district, Dr. W. H. Ford of Sudan was elected as a delegate to the State Medical association. Dr. J. D. Simpson of Littlefield was also elected as a delegate.

The meeting which was called by Dr. R. B. Anderson of Fort Worth, Assistant Secretary of the State Medical association, met last Tuesday night in the Littlefield hotel.

The main speakers at the meeting were: Dr. Anderson, and Dr. Vaught of Lubbock, Vice-Counselor, and Dr. English also of Lubbock, president of the Lubbock district unit of the Texas State Medical association, who spoke on the benefits to be derived from membership in the State association, and explained that being a member of this body automatically makes the medical man a member of the American association.

This unit organized with Dr. I. J. Sparks of Olton, president; Dr. H. N. Lusk of Levelland, first vice-president; Dr. A. R. Matthews of Muleshoe, second vice-president; Dr. D. T. Jordan of Morton, third vice-president and Dr. J. G. Little, secretary-treasurer.

Dr. J. D. Simpson of Littlefield was elected chairman, and Dr. C. R. Johnston of Levelland, Dr. T. A. Moore of Muleshoe, Dr. D. T. Jordan of Morton and Dr. R. E. Rochelle of Amherst, members of the Public Relations Committee.

A petition was also signed for a charter to be issued to the Lamb county unit.

SUDAN H. D. CLUB

The Sudan Home Demonstration club met at the home of Mrs. R. H. Shaffer November 24 at 2:30 o'clock in "Farm Food Supply Demonstration program."

A short business meeting was held in which the following officers were elected for year of 1934.

Mrs. P. H. Barnes, President; Mrs. C. A. Daniel, Vice-President; Mrs. H. B. Teal, Secretary; Mrs. Foster Lumpkin, Council member.

Miss B. Westbrook, home demonstration agent met with us and gave a very interesting lecture and demonstration in table decorations for holiday season which was greatly enjoyed by all.

Everyone was invited to see Mrs. Shaffer's food supply which consisted of pumpkins, potatoes, 9 varieties of dried beans and peas, about 1,000 cans of vegetables, fruits and meats of every kind.

Mrs. Shaffer is to be complimented on her good supply. Refreshments of apricot pie and cream, and hot chocolate were served to about 18 members.—Reporter.

The News To Print Letters To Santa

The children of Sudan will have an opportunity of contacting Santa Claus through the columns of The News. By special arrangement letters from the children of Sudan to him will be printed in this paper.

All you need to do is to write him a letter and mail it to Santa Claus, in care of The Sudan News, or if you wish you may bring it in person to our office. Be sure to bring them in early, in order to give Santa Claus more time to make the presents.

Letters received up to Tuesday noon will be printed in that week's paper.

CLUB MEETS

The Business Men's club met Tuesday at noon at the Lam's Cafe and discussed many things of importance to the welfare of Sudan and community.

The club will meet next Tuesday at noon and more local business men are urged to attend and help work out the problems of the community.

MORE MARRIAGE LICENSES BEING ISSUED AT OLTON

Since the repeal of the three day notice law, business in the marriage license line has been picking up, according to Stanley A. Doss, county clerk.

Since January 1 this year 49 licenses to wed have been issued and of that number 19 have been issued since September 1, expiration date of the law requiring that notice of intention to wed be posted three days before license could be procured.

For 1932 only 44 licenses were issued during the entire year.

Local Superintendent Attending School Me't

M. A. Smith, superintendent of the local public schools, left Wednesday for Austin where he will attend the meeting of the State Teachers' association which starts Thursday and lasts through Saturday.

Approximately 10,000 teachers and school officials will attend the meeting according to press reports.

On Texas Farms

"We used to eat dry stuff all winter and were sick a lot. I weighed 116 pounds and was taking medicine all the time. Now I weigh 136 and haven't taken medicine in months. I think it's all due to the better diet we have now," declares Mrs. W. O. Fish, 4-H pantry demonstrator of the Vivian Home Demonstration Club in Ford county. She has canned 1250 quarts of food for her family of five.

State certified cotton seed made 5.1 bales of cotton on 7 acres for Richard Welschwill of Garfield, DeWitt county, reports the county agent. He stored the seed separately until ginning season and then ginned it clean for next year's seed.

Canned products and eggs—butter and fresh vegetables are paying the board of Edith Simmons, Huffman 4-H club girl in Harris county, while going to school this winter in Humble. Her schooling is due to her 4-H demonstrations, she says.

Minerals fed sows by 4-H club boys in Wheeler county are proving wonders to the dads according to the county agent who reports 179 farm boys raising club pigs.

Because she made and sold 250 cakes this year in the Home Demonstration Club market in Sulphur Springs, Mrs. Roy Matthews has been able to purchase a new oil range.

Grain sorghums, now the chief feed crop in Texas, are not classed as corn in the corn-hog adjustment program according to advices received from the Agricultural Adjustment Administration by E. M. Regenbrecht, hog specialist of the Extension Service, Texas A and M College. This means, he says, that Texas hog farmers may sign corn-hog contracts without having to reduce acreage of grain sorghums, though they may not increase them.

The corn-hog plan calls for a 20 per cent cut in the corn acreage below the three-year average, with payments of 30 cents per bushel paid cooperating farmer also agree to reduce his market hogs by 25 per cent under the previous two-year average, in return for which he will be paid \$5 per head for the remaining 75 per cent of his hogs raised.

A farmer who grows corn but not hogs may sign a contract and get the corn benefits. In the same way a man who raises hogs but not corn may sign a contract and receive the hog benefits. The first man, however, would not be allowed to go into the hog business during the time of the contract, and the second man would not be permitted to start raising corn or other feed stuffs in excess of his former acreages.

Although the corn-hog program is designed especially for the Corn Belt, Texas farmers desiring to sign contracts will have the chance, Mr. Regenbrecht says.

A DAY OF THANKSGIVING

Doubtless there are many people who have nothing to be thankful for this week when Thanksgiving Day comes. But it appears that one would have to search long and dilligently to find such in Lamb county. Other sections have had their calamities and catastrophes, their epidemics of disease or their death and destruction by eruptions of nature, their drouth or disaster that destroyed property, their farm strikes, their political diseases, and even religious persecution.

On us nature has lavished many gifts. We have a mountain climate, rigid enough to develop strong men and women, yet not so severe as to discourage the weak. We have a population with the highest percentage of native born white people in the United States, and are the center of a section that boasts also the lowest percentage of illiterates in the United States. We have neighbors and friends who understand us and whom we understand, and who all understand and sympathize with our government. We have a harvest this year such as one would have to go far to excel. Lamb county has already received \$1,500,000 from the government for cotton plowed up last summer, and are completing the harvesting of one of the best crops the county has had in several years. Work is plentiful and our county has few unemployed.

We can spare a few hours to be thankful today (Thanksgiving.)

FARM AID IN CASH

The Roosevelt administration IS bringing aid to the farmer--

in CASH and ACTION.

That the administration is determined to help the farmer is no longer any question in the minds of most of us. Lamb county farmers who co-operated in the cotton plan have received over a million dollars in CASH, and when all of the checks have arrived, a million and a half dollars in CASH will have been received as bonuses for their willingness to work hand-in-hand with the government program.

The wheat control program will also aid Lamb county along with the corn-hog control plan which is being enacted. Bonuses will be paid on corn and hogs to those farmers who co-operate. Alrady it has been announced that the government will loan 45 cents per bushel on corn. If the government will loan 45 cents per bushel on corn, then it seems evident that corn is destined to be worth 45 or 50 cents per bushel before many moons, doesn't it? Although little corn is raised in Lamb county, the corn-hog program will benefit the farmers here a great deal.

We do have a real FARM PROGRAM.

The Blue Eagle Is Heard

It rather looks as if the American people are perfectly willing to go out of their way to trade only with dealers who fly the Blue Eagle.

Theodore Rahutis, dine-and-dance place proprietor of Gary, Ind., lost his Blue Eagle on Oct. 6, after it was charged that his wage scales and working schedules did not conform to the NRA standard.

Rahutis went to the compliance board, demonstrated finally that he was paying more than the minimum and working his employees less than the maximum allowed, and got his Blue Eagle back.

He had operated without it for just one month. And during that month, he says, his business fell off 50 per cent. As he put up a new the six Blue Eafles that decorate his windows, he said, "Oh, boy, am I glad to have 'em back!"

A neat little demonstration, this, that the NRA insignia has a very good cash value for the business man.

the love and life partnership of the greatest woman on earth, your mother. He is "some man" and not "the old man." If you win as good a wife as he did and if you turn out to be half as good a man, the chances are you'll have to go some.—Muleshoe Journal.

DOCTOR WARNS AGAINST COLDS

"Beware of the common cold," Dr. John W. Brown, State Health Officer, in a statement issued here today, cautioned the people of the State of Texas. "This is the season of the year when colds are most prevalent, and their consequences more far reaching. The organism causing the disease is not known, but every individual is acquainted with its effects."

Not a little of the susceptibility of catching colds can be overcome by a gradual acclimating to lowering temperatures and inclement outdoor weather. This hardening should begin now, and consist of regular exercise—walking is good—to be continued throughout the winter, in weather of every kind. Some things to avoid are wet stockings, drying on one's feet; over-heavy clothing; over-heated rooms.

principles to observe in the treatment and prevention of colds. The first says: "Let the patient keep to himself, and keep his oral nasal discharges to himself." This includes indiscriminate spitting, kissing, and other forms of contact.

The second principle requires doing away with coddling and over protection of the body against the elements.

"The cold is a common disease," Dr. Brown said. "But every cold is important enough to justify careful attention and treatment for its immediate cure. Death-dealing pneumonia and tuberculosis may begin with colds that did not receive care and attention."

"Over-indulgence of devitalizing stimulants, such as alcohol, tobacco, tea, and coffee do much to lower the resistance to colds."

accounts for only a small per centage of the cost of finished cotton goods. Investigations in 10 major cities throughout the country, made under the direction of Dr. Fred C. Howe, Consumers' Counsel of the Agricultural Adjustment Administration, indicate that clerks in some retail stores are still explaining price increases on cotton goods by citing the processing tax as the only, or at least as an important cause.

"That the processing tax is a negligible factor in the price mark-ups on cotton goods has been proved beyond quibble," said Dr. Howe in discussing the question. "Those who attribute an undue share of price increase to the tax are badly informed."

mounts to just under 8 cents. On ordinary work shirts, the tax is about 3 1-2 cents. The same proportion holds for other cotton goods, depending upon the weight of raw cotton used in manufacturing. Other costs than the processing tax contribute to price increases. Where operating and other costs have increased, they are adding to the selling price. The processing tax itself, however, remains a minor factor.

FORREST FIRES

It is an old saying that every man has his price, but a local rural route carrier is surprised to find that the price of some people is only a one-cent stamp.

Prohibition repeal means the end of the so-called "nuisance" taxes. These are: The 5 per cent tax paid by stockholders on dividends received; the one-tenth of one cent tax paid by corporations on declared value of capital stock; the 5 per cent tax paid by corporations on income in excess of 12 1-2 per cent of declared value of capital stock. The 1 1-2 cent federal gas tax will be reduced to 1 cent. It's likely that other taxes such as that on bank checks, will go.

Both the Federal Government and the states are looking forward to liquor as the provider of tremendous sums of new revenue, are planning what to do with it. Principal danger is that there will be too many fingers in the flowing bowl, forcing the price of legal stuff to where the bootleggers will stay in business and undersell.

Christmas Seals are penny health insurance.

On the door of a safe which is setting beside one which was blown open about a year ago in a local office, this sign may be seen: "This safe is not locked. It contains nothing of value."

Christmas Seals save human lives, but they cannot save them until people buy them.

One local business man stated that he had nothing to be thankful for. He should stop and think a minute.

Almost twice as many girls as boys die of tuberculosis between the ages of 15 and 25. Tuberculosis associations are devoting special attention to this age group. Christmas seals support their work.

"A sale is distribution of a product made by advertising the item, telling how good it is so that the public will want it at a price that will make you a profit," is what Otto Goldstein, head of the Red and White system's coffee supply department, told Red and White dealers at an Abilene meeting.

Herbert T. Webb, national R. and W. advertising manager of Chicago, in a meeting of Red and White dealers at Abilene last week stressed newspaper advertising for 1934. He said that the Red and White advertising appropriation allowed 55 per cent for newspaper advertising, 30 per cent for handbills, 10 per cent for store displays and five per cent for miscellaneous methods.

The double-barred cross on the Christmas Seal is double-barrelled, too. One barrel shoots a message of cheer for the friend who gets the letter or

package. The other shoots definite aid toward somebody who is in danger from tuberculosis.

New Deal Of Farm Credit Set-up Great Aid To Farmers

By Congressman Marvin Jones

Member of Congress from Texas
The new deal in permanent credit facilities for the American farmer is now a reality with machinery being set in operation to carry out the consolidation of farm credit agencies being made by the Farm Credit Administration.

The farmer has long been a victim of mortgaged debt and insufficient credit facilities in time of need. Because he has been unorganized he has had to manage as best he could and be financed to suit the private interests from which he has had to borrow. Now provision is made for a new channel of finances which has been shaped to serve the farmer himself.

Immediate help in the present emergency has come through the farm adjustment program which is aiding the wheat and cotton farmers and the hog raisers of this section. Now permanent aid through a system of refinancing farm mortgages over a long period of years and through a further bolstering of the farmer's financial status has come through the Farm Credit Administration.

Organization of the farm credit set up in Houston which will serve the Texas district has just been completed and will soon be functioning under a unified plan. By next spring it is expected that each of the twelve regional offices throughout the nation will be organized in a like manner, and the entire credit system is ultimately intended to be on a self-supporting, co-operative basis.

The new Farm Credit Administration in Washington represents a merging of six scattered agencies of farm credit upon which the farmer has formerly had to depend. These scattered agencies of farm credit which have been under several different heads, included the Federal Land Bank, the Intermediate Credit Bank, the old Federal Farm Board, the Agricultural Credit Corporation, the Reconstruction Finance Corporation, and the Crop Production Loan Corporation.

This consolidating and re-grouping of credit agencies is the result of legislation which was passed during the special session of Congress last spring. It was my privilege, as chairman of the House Committee on Agriculture to introduce and sponsor in the House both the farm mortgage refinancing measure and the later farm credit measure. These two acts were supplemented by the President's executive order providing for reorganization, and out of the three has come one central organization whose twelve regional branch offices will be directly in line with the set-up in Washington.

The Farm Credit Administration, with Henry Morgenthau at its head as governor, is separated into our divisions: The Federal Land Bank, the Intermediate Credit Bank, the Cooperative Bank, and the Production Credit Corporation.

Now these various agencies are under one head, rather than having divided supervision under different departments they form a separate unit of federal government in themselves.

A branch of the main institution will be located in each of the twelve land bank districts. For our district it will be known as the Farm Credit Administration at Houston, Texas. There will be four divisions or wings to the Houston Farm Credit Administration. These will be called the land bank, the intermediate credit bank, the production credit corporation, and the bank for cooperatives.

Loans on land will be made through the Federal Land Bank, applications being made through local appraisers or through the secretary of the local associations.

Cooperatives desiring credit will make application direct to the bank for cooperatives.

If farmers and ranchmen desire livestock or current farm production credit, not less than ten of them may form a local association and make application direct to the Production Credit Corporation at Houston. The Production Credit Corporation will furnish 80 per cent of the Class A capital stock. The Association's paper may be re-discounted through the Intermediate Credit Bank.

The four divisions of the regional administration have already been set up in Houston, and as soon as the necessary groundwork is laid, will be ready to serve the farmers all over the country will be served through these coordinated facilities through their own branch.

The Farm Credit Administration represents government aid

which will directly affect the thirty million people who comprise the agricultural population of America, and benefits to one-fourth of a people will naturally spread to the others. This is a new deal for the farmer and the nation as well.

Cunningham Boasts Pure Feterita Yield

What is claimed by the grower to be the only state certified Spur feterita field in the state, is on the farm of W. H. Cunningham, a state certified breeder near Littlefield.

"It is the only field of state certified seed that I know of outside of the experiment station at Lubbock," said Mr. Cunningham. "I have 15 acres in the patch and it looks like it will yield around 1,000 pounds to the acre."

Lamb County Farmer To Feed African Cane

G. V. Coker, well known Lamb county farmer living near Amherst, has a small patch of white African cane that he expects to use in his feeding program this winter.

The cane, imported from Africa in 1929, is yielding around 1,000 bundles to the acre. The stalks are 10 and 11 feet tall and are exceptionally sweet. Cattle like it, Mr. Coker said.

He has been feeding the stalks to his livestock since his first crop and keeps his seed from year to year.

Cecil Gallaway Awarded Trip To Livestock Show

Cecil Gallaway, member of the Olton 4-H Club, has been awarded a trip to the International Livestock show at Chicago, with all expenses paid by the Santa Fe Railway. Cecil will leave early in December to attend the show.

Each year the Santa Fe offers 19 trips to the International Livestock Show to club boys in territory served by the Santa Fe, who make outstanding achievements in 4-H Club projects. The Olton district boy is the fourth in this county to win a Santa Fe trip. Two winners were Sudan boys.

TEXAN GETS 20 ACRE FARM FOR BEING 22,000,000 GUEST

L. C. McDonald, Floydada implement dealer, received special honors at the World's Fair in Chicago, recently, for being the twenty second millionth guest to attend that big exposition. They gave him a 20 acre farm located in Michigan, and he and family will use it for a summer home.

Weekly Cotton Grade And Staple Report For Week Ending Nov. 23

There was a decided increase in the proportion of spotted cotton over last week for the State of Texas as a whole. About 52 per cent of the cotton classed this week was equivalent to some one of the grades of the Spotted Standards. Twenty-three per cent of the cotton was White Middling and Strict Low Middling. Approximately 87 per cent was 7-8 to 31-32 inch, while 7 per cent was shorter than 7-8 inch in staple length. Only 5 per cent was 1 inch or longer, and 12 per cent of the cotton classed this week was untenderable on futures contracts.

This week 53 per cent of the cotton from District 2, the High Plains, was found to be equivalent to some of the Spotted Standards. Twenty-six per cent was classed as White Strict Low Middling and Low Middling. Ninety-one per cent was 7-8 to 31-32 inch in staple length, approximately 7 per cent was shorter than 7-8 inch, and 14 per cent was untenderable on futures contracts.

Christmas Seal Sale To Start

Many residents of this county will receive in their mail on December first a supply of Christmas seals sent by the Texas Tuberculosis Association in its annual seal sale to raise funds for the campaign against tuberculosis.

For the twenty-fifth consecutive year the letter enclosed with the seals will be signed by H. A. Wroe, who has served as treasurer of the Texas Tuberculosis Association since its organization in 1908.

Mr. Wroe is well known in banking circles throughout the state. He is chairman of the board of directors of the American National Bank, Austin, and has held office in the Texas Bankers Association.

Commenting on the general outlook for this year's seal sale Mr. Wroe said: "Raw silk is again moving across the country by water and rail; telephone installations show an increase; the Michigan-Ohio football game had a gate receipt of \$150,000; the New York Federal Reserve District reports a 15 1-2 per cent gain for wholesale trade in New York State; chain stores particularly increased business in nearly all lines throughout the country."

"Business is definitely on the upgrade. Unemployment is decreasing, the public is feeling better, happier, and is spending more money, all of which forecasts a seal sale that will insure a needed expansion in 1934 of the effective, year-round program of the Texas Tuberculosis Association."

Texas Prepares For Basketball Season

Basketball is already attracting many high schools over the State, according to Roy Henderson, athletic director of the University of Texas Bureau of Public School Interests. Approximately 1,400 schools are expected to participate in Interscholastic League basketball. Schools may enroll in this sport without penalty until December 15, while a penalty is imposed from that date until the final deadline on January 15.

A slight change has been made in the operation of the basketball tournament of the league this year. Mr. Henderson said. A regional championship has been interpolated between the bi-district championship and the State meet, the State being divided into eight regions, one team from each region to compete for the State championship.

Why Children Need a Liquid Laxative

The temporary relief children get from some synthetic, habit-forming cathartics may cause bowel strain, and even set-up irritation in the kidneys. A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to give the child "a double dose" a day or two later.

Can constipation be corrected in children? "Yes!" say medical men. "Yes!" say many mothers who have followed this sensible medical advice: 1. Select a good liquid laxative. 2. Give the dose you find suited to the system. 3. Gradually reduce the dose until the bowels are moving regularly without aid.

An approved liquid laxative (one that is widely used for children) is Dr. Caldwell's Syrup Pepsin. The mild laxative action of this excellent preparation is the best form of help for children—and grown-ups, too. The dose can be regulated for any age or need. Your druggist has Dr. Caldwell's Syrup Pepsin. Member N. R. A.

LET'S CELEBRATE RIGHT . . . MAKE IT A REAL THANKSGIVING!

BOUNTIFUL Harvest inspired the first Thanksgiving of Our Pilgrim Forefathers. Surely if they could make merry for so little, we folks of today ought to be celebrating the event this year as it was never celebrated before. Every reason for it . . . what with the Nation pulling out of History's worst depression and happier days ahead for everybody, with the bountiful harvest of 1933.

SO LET'S GO . . . Folks! Plan on a real, Good Old-fashioned Thanksgiving spread . . . with the traditional turkey and everything that goes with it. These advertisers can supply your every need. They wish you the best of Thanksgivings and offer thanks to you.

SCHOOL CARNIVAL

What is everyone so happy about? What is the main topic of conversation? Why it's the Community Carnival which will be climaxed by the crowning of the queen, the night of December 15th in the Sudan High school auditorium. Every class in high school has nominated a candidate for queen. Grammar school has only two queen candidates for the entire seven grades. The candidates were elected because of their popularity and beauty.

The candidate who gets the most votes will be crowned. Those votes are 1c each. Every class has a way of raising money for the votes.

A small admittance fee admits one through the front doors then every booth will have a charge to see it. A program is to be rendered before the booths are opened. After the booths are closed the queen will be crowned. This festival is not only for the students of the Sudan schools but for you, Mr. and Mrs. Public! You can boost your school by attending. The money made will go to various things for the school. Part of it will go to the purchasing of library books and reading material which are greatly needed. Part of it will go to athletic funds and the rest to the necessities of the school which the school board does not feel able to pay for.

Every class is confident of their candidate being crowned; therefore, plenty of excitement and campaigning will take place. The queen has to have an escort (as all queens do) therefore every class elected an escort to act as king.

The committee in charge has been working hard to plan this gay event which will probably be the only event of this kind to be seen for a long time. Save your dimes and spend them few in number but well worth and will remember the rest of your life.

The part which will furnish entertainment will be the booths. These booths will be of various things. They will be few in number but all worth the small fee to see them.

The queen for the classes are Senior, Katherine Wilson; Junior, Nina Cocanougher; Sophomore, Virginia Vereen; Freshman, Edna Cocanougher; Grammar school Vivian Covington and Dorothy Miller.

Come on folks let's make this the biggest and best carnival ever to be staged here. Help your school and enjoy yourself at the same time. Remember December 9th.

The students will sponsor the show Wednesday and Thursday December 6th and 7th. There will be a ball game Friday night at the school.

From The Gymnasium

There will be basketball games at the high school gymnasium Friday night. The home clubs will meet Spade. Both clubs made a good showing on the court last year and they have several of the same players.

If Sudan wins, it must have good backing to boost the players along and give them pep. The patrons and students can help greatly by attending. The price of the ticket will be 10 and 15 cents. The first game will begin at 7:30 P. M. Tell everyone you see about the games and tell them about the thrills they will miss if they do not attend.

Junior Class Meeting

The Juniors had a class meeting Friday at noon in order to select class emblems. We could not decide whether to get pens or wristlets so we compromised; some ordered pens, some wristlets and others ordered both. These are the first class emblems that the Juniors have had in several years. We expect them to be in Christmas week so Juniors bring your money.

Who's Who In The S Class

Evelyn Stephens. Evelyn is just a swell kid. She is a very good sport. She was a very intelligent student. She gave the most clever and interesting book reports that you ever heard. In fact, she was a great help to our school and especially to our Seniors. She is going to school at Spring Lake now and even though we hated to lose her, we wish her much success in her work there.

Clyde Robertson

Here's another Senior that doesn't have an inferiority-complex however, he still has some Freshman habits, such as chewing gum in study hall, eating pecans in Spanish class, getting out of study hall to help Mr. Smith but outside these he is just a good sport out for a good time, and he really has it too. He is also a good student, passing four subjects and is one of our few students who started to school in Sudan and to finish here. He belongs to Los Amigos, Press club, Pep Club and Boy Scouts. In Los Amigos he's just "another Spanish speaking American," in press club "an editor out for a big scoop," in pep club "a raw raw boy" and in Boy Scouts he is just a "good scout." This mixture makes up one of our popular Seniors.

Assembly

Wednesday morning at physical education period the entire high school met in the gym. We all enjoyed the program which was given. The Choral club sang some beautiful songs. Miss Denny and little Gladys Killingsworth also sang for us. Rev. Thomas gave a very enjoyable talk. We are always glad to have such an interesting person to speak to us on our assembly days.

Grammar School News

First Grade. Miss Hartsell reports that the high first has several new pupils: Jack Pierce, Gladys Pierce, and Fayerine White.

Second Grade. L. D. Jones has moved to Clovis, New Mexico. Mrs. Stone reports that the primary grades are planning a very interesting Thanksgiving Program.

Law Third: Nadine Jones, of the low third has withdrawn from school. Bernice Pierce, Herman McCarty, and Eula Mae Churchman are back in school. They have a good attendance and are working on Thanksgiving things.

High Third: The pupils of the high third have a new book case and are enjoying it very much. Albert Padgett, from Sanbernardine, California, is a new pupil of the high third.

Low Fourth: Most of the students have returned to school. Elmore Walker is a new pupil from Progress, Texas.

High Fourth: The students of the high fourth are planning to have a Thanksgiving lunch, Thursday. The three fourth grades and the low fifth met Monday and elected a Carnival queen to compete with the sixth and seventh grades queen. Dorothy Miller from the low fifth was elected.

Edith Padgett and Doyle Wilhoit are new pupils in the high fourth.

Sixth Grade: The low sixth is very glad to report that a candidate for queen of the

carnival was elected for their room. Vivian Covington, the candidate, represents the fifth, sixth and seventh grades.

FARM SALE NEAR MULESHOE DEC. 5

According to Col. Jack Rowan, local auctioneer, a Public Farm Sale will be held at the W. O. Teague farm three miles north and one mile west of Muleshoe Tuesday, December 5, beginning at 1 P. M.

CARD OF THANKS

We wish to express our appreciation for the kindness shown us and our mother, Mrs. S. P. Elliott, during her illness and death. May God bless you.—Children.

COUNTIES OF PLAINS NAMED FOR HEROES OF TEXAS INDEPENDENCE

(By Jerome B. Timmons in Amarillo News.)

It is interesting to note the number of Panhandle counties named in honor of soldiers and other heroes of the Texas war for independence. Of the 54 counties in the Panhandle-Plains, 32 were named for heroes of the Texas revolution, and 11 of that number gave their lives to win freedom from their Mexican oppressors.

In 1876, the state Legislature passed an act creating these counties and naming them. Many members of that, the 14th Legislature, remembered the stirring days of the revolution and the pioneers of that day on whom they placed hon-

The following revolutionary heroes have Panhandle-Plains counties named in their honor. Richard Andrews, killed in the battle of Conception; Bailey, an Alamo victim, and not the famous Senator, as popularly supposed; Andrew Briscoe, signer of the Texas Declaration of Independence, who also commanded a company of regulars at San Jacinto; Samuel P. Carson, another signer of the

Declaration of Independence, secretary of state in Burnett's cabinet, and who had also been a U. S. Congressman from North Carolina before coming to Texas; George C. Childress, called the "Thomas Jefferson of Texas," because he wrote the Declaration of Independence; Cochran, a victim of the Alamo; James Collingsworth who also signed the Declaration, captured the old Mexican fort at Goliad, fought at San Jacinto, and later served as chief justice of the new republic's supreme court; C. W. Cottle, killed at the Alamo; Erastus (Deaf) Smith, the old scout for Houston's army at San Jacinto; Nicholas H. Dawson, a second lieutenant at San Jacinto and killed in the Mexican war; J. Dickens, a victim of the Alamo; Sam Rhodes Fisher, a signer of the Declaration of Independence, and Houston's secretary of the navy; D. Floyd, another Alamo victim; John C. Hale, a soldier in the battle of San Jacinto; Warren D. C. Hall, a secretary of the navy in the Burnett cabinet; James M. Hansford, speaker of the House of Representatives in the Congress of the republic; John Hemphill, chief justice of the supreme court, both republic and state, and later a U. S. Senator; Gen. Geo. W. Hockley, who commanded a wing of the Texas army at San Jacinto and later became secretary of war for President Houston; A. Kent and William King, both died in the Alamo; Lieut. George Lamb, killed at San Jacinto; George W. Lynn, who died at the Alamo; Col. Thomas S. Lubbock, a soldier of the Texas revolution and the Civil War, and not the famous "war-governor." Francis R. Lubbock, as many believe; Wiley Martin, a soldier of the revolution and a member of the Texas Congress; Asa and Eli Mitchell, leading citizens of Austin's colony, who served in the Texas army; Commodore E. W. Moore, of the Texas navy, and killed at San Jacinto; Martin Parmer, a member of the constitutional convention and signer of the declaration, Robert Potter, Alabama Congressman who came to Texas to become Houston's secretary of the navy; John S. Roberts, also a signer of the Declaration of Independence; Sidney Sherman, who commanded a squadron of cavalry at San Jacinto and succeeded General Rusk as commander-in-chief of the Texas army; James G. Swisher, a signer of the Declaration of Independence, and a captain at

San Jacinto. The following are the names given to the remainder of the Panhandle-Plains counties: Armstrong, for a pioneer family; Borden, for Gail Borden, Jr., a delegate to the San Felipe convention, publisher of the Harrisburg Telegraph and inventor of the process of condensing milk; Castro, for Henry P. Castro, a Frenchman of the staff of Napoleon Bonaparte, who came to Texas and colonized the region immediately west of San Antonio; Crosby for Stephens Crosby, state land commissioner during the Civil War; Dallam, for James W. Dallam; Donley, for Stockton P. Donley, a Democratic justice of the supreme court during reconstruction; Gaines, for James Gaines Ferry on the Sabine River, who served in the republic Congress; Garza, for an old Spanish family in Texas; Gray, for Peter W. Gray, a member of the first Legislature and the Confederate Congress; Hartley, for O. C. and R. K. Hartley; Howard, for Volney E. Howard, of the annexation convention and a member of the U. S. Congress, 1851-53, Hutchinson, for Anderson Hutchinson, a district judge of the republic; Lipscomb, for Abner S. Lipscomb, Alabama chief justice and secretary of state for President M. B. Lamar; Nolan, for Phillip Nolan, filibuster, killed by the Spanish soldiers while capturing wild horses in Texas; Ochiltree, secretary of the treasury in the second Houston cabinet; Oldham, for W. S. Oldham, a Confederate Senator from Texas; Randall, for Gen. Horace Randall, killed in the Civil War; Scurry, for Brig. Gen. William R. Scurry, who fought in the Mexican War and was killed in Louisiana during the Civil War; Stowell, for the nickname of Gen. T. J. Jackson; Terry, for Benjamin Terry, who led the famous "Terry Rangers" in the Civil War; Wheeler, for Royal T. Wheeler district judge while Texas was a republic and later chief justice of the state supreme court; and Yoakum, for Henderson Yoakum, the historian of Texas.

Now! Ease Sore Throat Instantly!

1 Crush and dissolve 3 Bayer Aspirin Tablets in half a glass of water.

2 GARGLE thoroughly — throw your head way back, allowing a little to trickle down your throat.

3 Repeat gargle and do not rinse mouth, allow gargle to remain on membranes of the throat for prolonged effect.

Remember: Only Medicine Helps Sore Throat

Modern medical science now throws an entirely new light on sore throat. A way that eases the pain, rawness and irritation in as little as two or three minutes!

It requires medicine—like BAYER ASPIRIN—to do these things! That is why throat specialists throughout America are prescribing this BAYER gargle in place of old-time ways.

Be careful, however, that you get
