30TH YEAR PRICE FIVE CENTS A Small City with Big Industry - A Bright Spot for New Industry RANGER, TEXAS, TUESDAY, OCTOBER 14, 1958

ROAMING THRU RANGER WITH RON ...

By Ronald Waters

ROAMING RANGERITES were all over the State Fair grounds this weekend, and many saw the Longhorns upset Oklahoma in the Cotton Bowl.

You might have missed "Big Tex" talking to the crowd, or the only car designed primarily for safety's sake, the Ford of the future, the downtown rally (Friday night), a ride on the monorail, or many unusual exhibits at the International Trade Bazaar.

I doubt if anyone saw everything possible at the nation's largest state fair. But many will go back to try again this week and next year.

Starting out with a 70 percent average, let's see how well I picked the football games this time.

Along with all other sports writers in the country—I think I missed the Texas-Oklahoma game, which should go down in football history. Only explanation I can give for the upset is that it was Texas' time to win, so—with lots of determination—they did it!

Correctly picked Cisco over Haskell (won by 22-8), Hardin-Simmons over Arizona State (a 14-0 victory), Rice over Arkansas (24-0), Breckenridge over Snyder (34-7), Stamford over Graham (35-0), and Wichita Falls over Vernon (47-0).

Missed: Winters game with Colorado City (won by Winters 28-20); Texas Tech over TCU (should have known better) and Mineral Wells over Waxahachie (an upset, 16-12). This makes my average for the week 60 percent, and it was a hectic week! Season average: 65 percent.

HAVE HEARD that the Band Carnival was a big success, and that the dunking board took in more money than any other booth. The big event was climaxed with the crowning of the King and Queen—Mollie Mitchell and Melvin Anderson.

Poor Roaming Ron would have sure got wet had he been there—sure thing!

HOMEcoming — that's the word from Ranger College. It's coming this weekend, with activities starting Thursday and continuing thru Sunday morning.

Big event, of course, is the game with the Henderson County Junior College Cardinals. And I suspect that the Rangers won't like the way the Cardinals "sing."

Anyway — look for a lot of excitement this week around the college. And look for more homecoming news — soon.

CONTRIBUTIONS to the Times are always appreciated. And Ranger readers nearly always comment favorably on most of the stories and columns used here.

DRAYTON HEADEN'S Sports Corner — every Thursday — has a lot of reader appeal, and he is doing a very fine job.

Of course you teenagers read "Live With Jean" by Jean Getts. And Jean just can't get too many names into her column each Thursday.

A lot of interest, too, was shown in a recent series — here — on the history of Ranger's public schools, taken from a fine thesis by "DUTCH" Ervin. Several interesting historical stories from Ethel Brooks Gilmore have also appeared on these pages.

"Tales of Buried Treasure in and Around Eastland County" comes from an Eastland writer using a pen name, and we think it's very good.

Killingsworth Attending Meet

Floyd Killingsworth is attending the 77th annual funeral directors convention in Cleveland, Ohio, this week.

In Cleveland, Killingsworth will hear Dr. K. C. W. former governor of Missouri, who is recognized as a spokesman for the Chinese.

Associational Baptist Meet Is Set Today

Rev. B. L. Davis, newly elected moderator, will preside over the first session of the Cisco Baptist Association when it meets in the First Baptist Church of Ranger Tuesday at 6:55 p.m.

The Reverend Davis is the pastor of East Cisco Baptist Church and has been active in all phases of the association since moving into this section about two years ago. He has a wife and two children.

Program for the Workers' Conference will be preceded with a board meeting and a Woman's Missionary Union Meeting, both beginning at 5 p.m. Supper will be served by the host church at 6. The program emphasis will be on the "Training of Church Committees" which will feature conferences for:

Church Councils led by Byron Bryant of Breckenridge; Church Clerks, W. A. Lewis of Ranger; Church Treasurers, Lee Russell of Ranger; Church Ushers, Rev. Harvey Kimbler of Eastland; Deacons, Rev. B. L. Davis of Cisco; Baptism Committees, Jackie Heath of Olden; Lord's Supper Committee, James Fleming, of Eastland; Nominating Committee, E. M. Jackson of Rising Star; Pulpit Supply, Buel Bryan of Desdemona.

(Continued on Page Two)

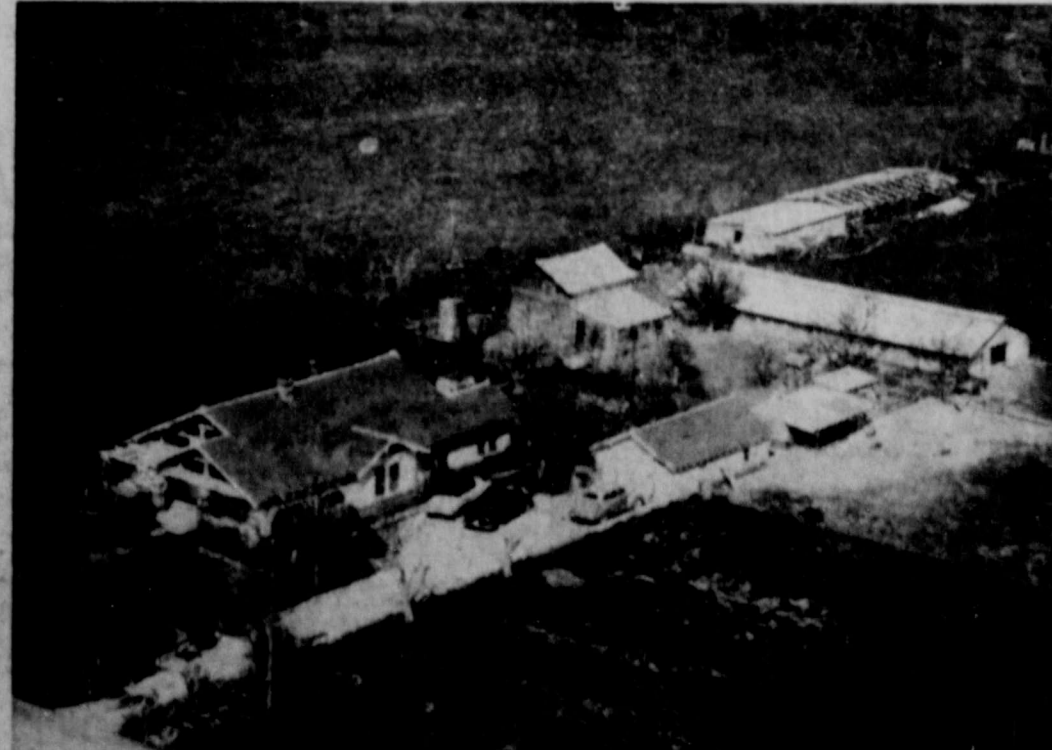

REV. B. L. DAVIS, moderator of session

Ranger College Homecoming Events Schedule, Oct. 16 - 19:

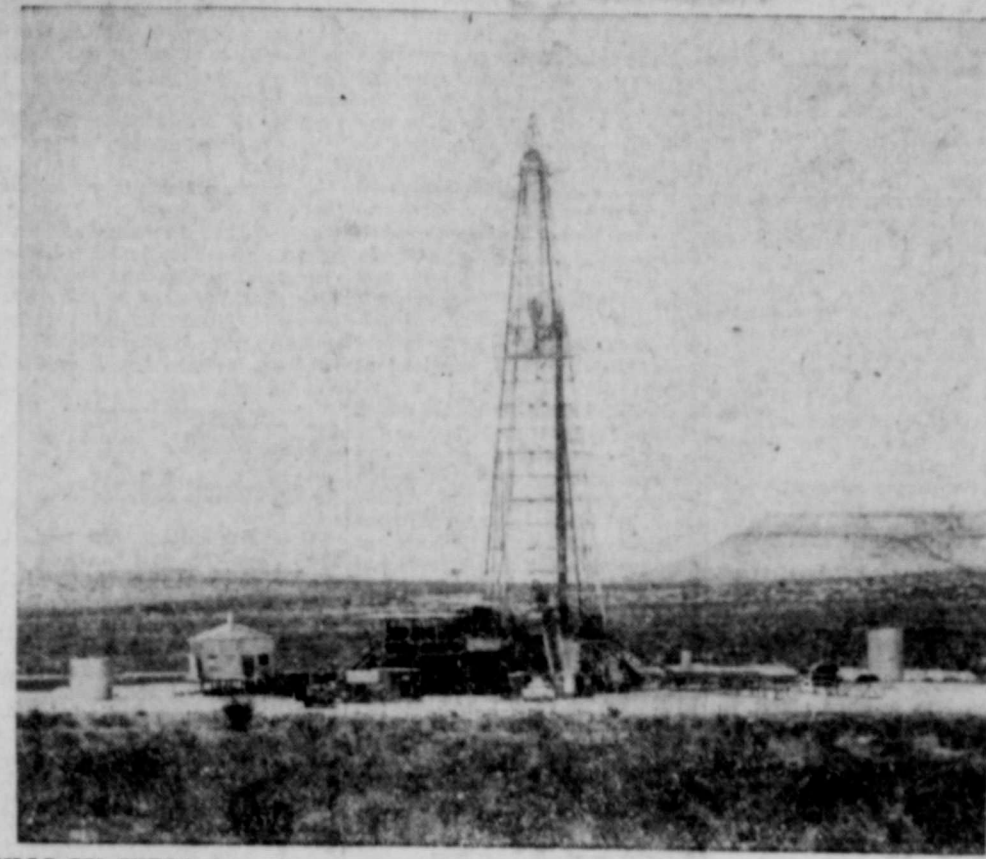

THURSDAY — Barbeque and ice cream supper, given by the First Methodist Church, in the Student Union Building at 6 p.m.
8:30 p.m. — Bon fire and pep rally set behind Newell Hall.

SATURDAY — Open house at Theta Tau House from 3 to 5 p.m.
8 p.m. — Homecoming game set between the Rangers and the Henderson County Junior College (Corsicana) Cardinals.
10:30-12 p.m. — Homecoming dance at the Union Building, with students, exes and visitors invited.

SUNDAY — 9-11 a.m. — Coffee for ex-students set at Ranger Hall at which time the election of officers will be held.

MYSTERY FARM—Here is Mystery Farm number 25. This farm should be easy pickings for rural experts, and someone will win two tickets to the Majestic Theatre for being able to identify it. All persons identifying the farm have a chance to win. One name will be drawn out of a hat containing the names of all persons naming the farm, and that individual gets the theatre tickets. Owner of the farm will receive a free enlargement of the photo if he calls for it at the newspaper office.

TEXAS OIL WELL—A common sight to most of Texas is the derrick that looms above the Texas plains, symbolizing the "booms" and "busts" of wildcats and discoveries and the heartaches or failures. Ranger became almost synonymous with oil in the 1919 era, along with Desdemona and other towns in this area. On the flow of oil rise and fall many a fortune, with the destiny of man.

Texas Ranks First With 54 Refineries

State, Number of Plants.	Capacity (bbls. daily)
1. Texas (54)	2,445,200
2. California (36)	1,254,930
3. Louisiana (18)	790,900
4. Pennsylvania (13)	645,250
5. Illinois (13)	543,400
6. Indiana (10)	465,800
7. New Jersey (6)	442,300
8. Ohio (12)	397,400
9. Oklahoma (14)	380,995
10. Kansas (14)	307,900
All other states	1,468,131
Total	9,130,436

Ranger Strike First Discovery In West Central

First major oil discovery in West Central Texas was at Ranger in 1917 and the first for West Texas and the Permian Basin at Big Lake in 1922, a thumbnail sketch by the Texas Mid-Continent Oil & Gas Association on Railroad Commission districts T-C and S points out.

Other facts include:

Accumulative production to Jan. 1, 1958 — 5,758,466,144 barrels.

Crude production, 1957 — 458,045,901 barrels; 43.4 per cent of state total.

Natural gas production, 1957 — 1,024,000,000 cubic feet.

Total tests drilled, 1957 — 6,972 (28.4 per cent of state); dry, 1,217.

Number of wildcats drilled, 1957 — 872; number dry, 738.

Total tests drilled in first eight months, 1958 — 3,429.

Total tests drilled in first eight months, 1957 — 4,136.

Wildcats drilled in first eight months 1958 — 479.

Wildcats drilled in first eight months, 1957 — 597.

Number of refineries — five; combined capacity, 117,400 barrels per day (4.8 per cent of state).

Number of natural gasoline plants — 52; total liquid production capacity, 7,361,564 gallons per day.

PAGE ONE MUST

Cisco Baptist Association meeting set at Ranger First Baptist Church today.

Explorer Post 16 to meet tonight at 7:30 in the Boy Scout Cabin.

Deadline for voting on the site of the 1958 Pecan Show has been set Monday, Oct. 20.

Absentee voting deadline set Thursday, Oct. 16, on the parking meter issue.

Five C of C Directors Named for 3-Yr. Terms

Five directors of the Chamber of Commerce, to serve three-year terms each, were approved by members of the City Commission Friday evening in a regular meeting of the group.

Another director will be named at a later date to fill the unexpired term of Virgil Elliott, who recently moved from Ranger. The term will extend until December of 1960.

Named as directors were Joe Daskevich, district supervisor for American National Insurance Co.; D. C. Arterburn, manager and owner of Arterburn's Hardware & Furniture; B. A. Tunnell, local agent for the Texas & Pacific Railroad Co.; F. P. Brashier, co-

owner of the Ranger Furniture Exchange; and T. J. Anderson, local Chevrolet dealer.

Returning directors, who were named to serve again, are Brashier and Anderson. All directors were elected from a list of 15 persons, submitted by the present directors of the Chamber of Commerce.

Newly elected directors will be eligible for office on the board of directors when the annual election is held Tuesday, Nov. 4, said R. V. "Rip" Galloway, manager. New officers will take office in December.

Earlier a nominating committee was named to make a report at the November meeting. Brashier is chairman of the committee composed of C. B. Pruet and Dr. W. P. Watkins.

Out-going directors are T. C. Wylie, Dr. Marshall Jolly and James Ratliff.

According to the City Charter of the City of Ranger, directors of the Chamber are appointed by the City Commission.

THIS IS OIL PROGRESS WEEK

County's Oil History Great

This is Oil Progress Week in Texas, and what county has more to boast of when it comes to oil than does Eastland County?

Movies have been made about the Eastland County oil boom and many books have been written about it. Even today experts call the local boom of 1917 the "most spectacular ever to occur within the United States."

It was on Oct. 28, 1917 — just 41 years ago this month — that the Texas and Pacific and Oil Co.'s McCleskey No. 1 was brought in at Ranger. When the flow of the well was at its peak daily production reached more than 1,700 barrels. News of the well spread far and wide in fast fashion, and soon Ranger was the center of oil activity in the nation.

Development spread all over Eastland County. No part of the county failed to have some production. In early 1918 the spotlight switched from Ranger to Desdemona, when the Duke well

was brought in by R. O. Harvey. This well had an estimated flush production of 10,000 barrels per day. The peak of production in Eastland County came in June of 1919. In that month, 75,933 barrels were produced.

(Continued on Page 2)

Ballots Will Determine Site Of Pecan Show

Ballots have been sent out by the County Agent's office asking members of the Eastland County Pecan Growers Association and exhibitors in last year's pecan show to choose between Cisco and Ranger as the show site in December.

J. M. Cooper, county agent, mailed the post card ballots enclosed with a letter, asking for a return of cards by Monday, Oct. 20.

R. V. "Rip" Galloway, manager of the Chamber of Commerce, urged everyone receiving a card to vote for Ranger as the show site. The local chamber has made efforts for two years to gain the county pecan show.

Selection of the show, as in the past, will be determined by a majority vote of the members and exhibitors.

Oscar Schaefer of Cisco, president of the association, has appointed Arthur Littlefield of Eastland and Cecil Shults of Rising Star to count the returns.

Earlier, letters were sent out by the agriculture committee of the Chamber of Commerce urging people in the area to vote for Ranger as the show site.

Deadline Set For Absentee Voting on Meters

Absentee voting will continue through Thursday, Oct. 16, on the parking meter issue — according to a statement from City Manager Les Crossley.

Ballots may be obtained at the City Hall by those unable to personally vote in the election set Monday, Oct. 20.

Printed ballots on the Parking Meter Election are worded: FOR: The Ordinance authorizing Parking Meters in the City of Ranger, Texas. AND AGAINST: The Ordinance authorizing Parking Meters in the City of Ranger, Texas.

Voters may indicate their choice by scratching out one statement and leaving their choice.

Valid reasons for voting in absenteeism include illness, physical disability and absence from town on the date of the election.

Rains Measure .45

Rains over the area Saturday and Sunday measured .45 of an inch, and a light trace fell Tuesday morning.

Cloudy skies Tuesday threatened to bring more rains in Ranger. Earlier it was reported that warm dry weather was needed for an immediate peanut harvest in the county.

Jerry E. Evans Will Finish Combat Training

CAMP PENDLETON, Calif. — Marine Pvt. Jerry E. Evans, son of Mr. and Mrs. Henry Evans of Route 2, Ranger, is scheduled to finish four weeks of individual combat training Oct. 16 at the Marine Corps Base, Camp Pendleton, Calif.

The course includes the latest infantry tactics, first aid, demolitions, field fortifications and advanced schooling on weapons.

Trainees learn that all Marines are basically infantrymen, whether they serve as cooks, typists, truck drivers, or with aviation units.

O. C. Funderburk Buried Monday

Funeral services were held Monday at 2 p.m. in the Hammer Funeral Home Chapel in Eastland for Judge O. C. Funderburk who died Friday in a Palestine Hospital after a long illness.

Judge Funderburk was formerly associate justice of the 11th District Court of Civil Appeals in Eastland and a longtime Eastland County resident. He served as Appeals Court judge from 1928 to 1945. He was born Aug. 27, 1877 in Anderson County and moved to Eastland in 1919.

A graduate of the University of Texas law school in 1904, Judge Funderburk had at one time served as assistant attorney general of Texas.

Since 1957 he had lived with his brother, Dr. W. O. Funderburk, in Elkhart.

Burial was in Eastland Cemetery.

Science Develops New Tablet!
Relieves Painful Monthly Cramps For 3 out of 4 Women Tested! Gives Greater Relief Than Aspirin!

New promise of relief from tortures of monthly cramps, nervous tension is found in an exciting new tablet! Developed especially to relieve this female discomfort, it offers greater relief than aspirin!

For 3 out of 4 tested by doctors, pain and cramps were stopped completely relieved. Even on the first day, many had no nagging headaches, no backaches or other functional distress!

The new tablet contains a unique combination of medicines.

That's why it offers so much more relief than plain aspirin! Acts on the cause of distress to calm uterine contractions. Also works through a woman's sympathetic nervous system.

Called "Lidia Pinkham's Tablets" they're sold at all drug stores. Easy to take, contain blood-building iron. So don't suffer needlessly. Take Pinkham's Tablets yourself. See if you don't escape much irritability and discomfort—before and during your period!

all druggists, today, also have the famous Lydia E. Pinkham's Vegetable Compound.

Reduction in Crude Oil Imports Offset by Higher Refined Imports

WASHINGTON (Sp.)—Reductions in crude oil imports under the voluntary oil import program have been largely offset by higher imports of refined petroleum products, the Independent Petroleum Association of America said today.

In its monthly Supply and Demand Outlook, IPAA reported that while crude oil imports in the May-July period were 230,000 barrels a day below the same months last year, imports of refined products were up 185,000 barrels daily.

Total new crude oil supply during the latest three months, the association stated, averaged 8,683,000 barrels daily—down 843,000 barrels daily from the corresponding 1957 period. "Domestic

LEGAL NOTICE

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: Oliver Grumbles, Defendant, Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable 91st District Court of Eastland County at the Courthouse thereof, in Eastland, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 3rd day of November A. D. 1958, to Plaintiff's Petition filed in said court, on the 18th day of September A. D. 1958, in this cause, numbered 22,789, on the docket of said court and styled Pauline Grumbles, Plaintiff, vs. Oliver Grumbles, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: This is a suit for divorce and custody of minor children, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unexecuted.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Eastland, Texas, this 18th day of September A. D. 1958.

Attest: Roy L. Lane Clerk, 91st District Court of Eastland County, Texas.
By Nelda Rutherford, Deputy.

STOCK MARKET REPORTS

Slaughter classes of cattle and calves were slow and weak, except bulls which were fully steady, in Fort Worth Monday. Very few fed cattle arrived and these were slow to clear in the face of weaker bids. Cows were also slow and weak, most sales fully in line with the low side of last week's low close. Slaughter calves ruled about steady with sales at the close last week.

Light weight stocker cattle and calves were steady but heavier and fleshier stockers and feeders were again dull and weak and in line with last week's sharp declines on those types.

Good and choice slaughter steers and yearlings cashed at \$23.50 to \$27, the higher figure for some baby beef lightweight yearlings. Common and medium sorts sold from \$17 to \$23. Fat cows drew \$18 to \$21 and canners and cutters drew \$12 to \$18. Bulls sold from \$18 to \$22.50, one load at \$23.

Good and choice slaughter calves cashed at \$23.50 to \$26.50, a few to \$27 sparingly. Common and medium sorts sold from \$17 to \$23 and calls sold around \$15 to \$17. Good and choice lightweight calves sold from \$27 to \$33, those at \$33 scaling about 250 pounds and some over 400-pound steer calves at \$32. Stocker steer yearlings bulked at \$28 downward and a n d fleshy feeder steers bulked at \$24.50 downward. A few stocker cows cashed in the \$18 to \$22 bracket.

Fine Fish Catches Made

Good fish catches were made at Lake Leon this past weekend, according to recent reports.

Boone Yarborough and Jack Ralls of Ranger pulled in 13 bass, weighing between one and one-half and five pounds, Saturday morning with top water lures.

Another report indicated that Joe Weekes and Charlie Rose caught four bass over the weekend, weighing a total of 11 pounds and the largest weighing five pounds.

Game Preserve Members to See Film on Alaska

Regular monthly meeting of the Sabanna Valley Game Preserve Association will be held tonight at the Center Point community house.

After a business session, a film on Alaska will be shown. Miss Eudora Hawkins, who is associated with the Wild Life Conservation Department of the State Federation of Women's Clubs, will present the film.

Refreshments will be served.

New Scientific Farm Results From Ag Classes

By GILBERT COPELAND
Olden High VA Teacher

High school vocational agricultural programs are making a valuable contribution toward developing scientific farmers. Modern farming demands that farmers have a scientific knowledge of such things as insect and disease control of crops and livestock, fertilization of crops, operation of tractors, etc.

In high school vocational agriculture programs, training in these scientific aspects of farming is provided for youths preparing to become farmers. Too, such training is available to adult farmers.

Each high school student enrolled in vocational agriculture at Olden High School receives approximately seven hours of instruction each week in various agricultural subjects. These subjects pertain to the science of producing crops and livestock, developing farm mechanics skills in welding, electrification, shop farm building, conservation of soil and natural resources, and farm machinery. Too, instruction for young and adult farmers is provided for those people who are new engaged in farming.

Such scientific training in agriculture is no doubt largely responsible for the high degree of perfection we have reached in Texas and the United States in producing farm commodities. This perfection also is making a very important contribution to our national economy and to the national leadership the United States is able to demonstrate among world powers. History has demonstrated that for a country to be world leader, she must have a strong program of agriculture. Consequently, it is important that we train an adequate number of scientific farmers to produce the food and fiber needed by our people. And even though we will need fewer farmers in the future, these farmers that are needed must be highly trained in the science of agriculture.

Seaberry Will Attend Meeting Of State Bar

Attorneys Virgil T. Seaberry of Eastland and George W. Leonard, Jr. of Sweetwater will attend the Fall meeting of the Texas State Bar board of directors Friday and Saturday in Austin.

Leonard represents lawyers of the Seventeenth Congressional District on the board which governs the 13,000-member legal organization. Seaberry is immediate past president of the State Bar and is a former chairman of its board of directors.

Board Chairman Buster Cole of Bonham will preside over the two-day meeting at State Bar headquarters. The agenda includes a study of the Bar's legislative program to be presented to the 56th Texas Legislature, convening in January.

State Bar officers to participate in the Austin meeting will include President Leo Brewster of Fort Worth, Vice President Paul Carrington of Dallas, and President Elbert A. J. Folley of Amarillo. The board is comprised of a representative of each congressional district, the immediate past president and the officers.

County's—

(Continued from Page One)

rels per day were received by major pipe lines.

Production in 1919 reached 22,297,665 barrels. It dropped sharply to 10,141,358 barrels the following year, to 5,887,430 barrels in 1921, and to 2,253,840 barrels in 1924. Production last year totaled 855,979 barrels or 2,266 barrels per day. As of Jan. 1, 1957, total production in the county was 114,709,934 barrels.

Today, with oil still playing an important part in the county's economy, although not nearly so important as it once did, Eastland County still is known far and wide for its oil boom.

DEAR MISTER OILMAN:
THANKS A LOT

● Every one of us, every man, woman and child in America, owes a load of thanks to our oilmen. This is Oil Progress Week—a good time for us to put our thanks into words.

By their continuous, faithful service to this community and to the nation, America's oilmen prove daily that your progress and Oil Progress go hand in hand. You can measure that progress yourself—by the improved gasolines that power your car, the efficient new fuels for home heating and the hundreds of other new oil products that make living more comfortable every day.

America's oilmen are working extra hard these days getting ready for the future. America's future growth, in both prosperity and population, will be so great, that all phases of the oil industry must prepare today to meet your oil power needs of the future.

Mrs. David Slaughter Presents Program at Garden Club Meeting

"Beauty in Dried Materials" dried arrangements, there should be three different shapes and sizes of materials. The container should be of the same roughness as the materials, which should be graduated in size, shape, and color, and should be one and one-half times the height of the container.

Mrs. L. L. Bruce, first vice-president, presided over the business meeting in the absence of the president, Mrs. John T. Roberson. Mrs. Buck Wallace, secretary, read the minutes of the September meeting.

Mrs. Roscoe Hopper, who attended the Community Chest "kick-off breakfast" at Ranger College Tuesday, gave a report of the meeting. She expressed her thanks to the Garden Club members for accepting the residential section of the city in the Community Chest Drive. Mrs. Hopper said, "We should start our drive now because publicity is at its peak. Our quota is \$5,643.00. Let's go over the top in '58."

Mrs. Floyd Killingsworth was appointed chairman of the civic committee, to organize the drive for the Garden Club. Mrs. P. T. Smith brought the door prize, which was won by Mrs. A. W. Brazda. Mrs. W. E. Herweck brought a therapy gift, to be taken to Ranger General Hospital.

Mrs. F. P. Brasher, Jr. introduced the speaker, Mrs. David Slaughter, who spoke on "Dried Arrangements." She said, "In

IN TULSA, OKLA.

Carl Black is visiting in Tulsa, Okla., on business.

What clean, refreshing shaves you get with a **Gillette SUPER SPEED RAZOR** matched to your face

Mrs. Slaughter brought an arrangement which she had made and which won a prize in a Dallas flower show. The arrangement was entitled "Autumn Winds," and consisted of sea oats, Scotch broom, and autumn leaves, in a wooden container. Mrs. Slaughter was a member of the Morning Garden Club in Carrollton, for four years, before moving to Ranger.

Floral arrangements for the clubhouse were brought by Meses James Ratliff, W. A. Lewis, and Herweck. Mrs. Ratliff's arrangement was of dark maize, pomegranate fruit, and magnolia leaves in a brown container. Mrs. Lewis made an arrangement of zenias, bachelor's buttons, and colicis leaves in a green container.

Mrs. Herweck brought twin arrangements, one of stonerock musical notes and figurines and one of materials from Mexico and styrofoam.

A Golden Age Tea was held following the program. Hostesses were the executive committee. The table was laid with a white cut-work linen cloth. Silver appointments were used. The centerpiece which was made by Mrs. Smith, was an arrangement of pyracantha berries in a footed silver container. Mrs. F. E. Langston presided at the tea service.

The following members and guests were present: Meses Bruce, Ratliff, Buck Wallace, W. H. Clem, R. W. Gordon, L. D. Tankersley, Homer Perry, Brasher, Slaughter, Smith, Brazda, V. V. Cooper, Beverly Dudley Sr., Alex Roberson, L. E. Gray, Hopper, Leola Martin, P. M. Kuykendall, R. H. Harrison, Joe Jackson, Robert Jackson, J. A. Gray, W. W. Mitchell, Charles Miliken, F. E. Langston, W. J. VanBibber, L. H. Kay, Herweck, Lewis, and C. E. May Sr.

AROUND RANGER COLLEGE CAMPUS

By Ranger College Journalism Class

Personality of the Week

By Carolyn Weaver
Matty Jo Bentley, Personality of the Week this week at Ranger College, is a very attractive brunette with a winning personality. She is a very active sophomore student majoring in business administration.

She is the daughter of Mrs. Mattie Bentley of 1904 West Main Street in Eastland. She was formerly employed by Earl Bender of Eastland. Miss Bentley was active in activities in Eastland High School, where she graduated in 1957. She was a member of the Coeds and was vice president of her Senior Class.

A very popular and friendly lady, she was chosen head cheerleader and is an active member of the Rangeanna, Chorus, and Debs. She recently received a scholarship to Ranger College from the Eastland Rotary Club for being one of the most deserving sophomore students. She was recently elected secretary of the student council.

Winston Dunlap Is Honor Grad At Army School

FT. BENJAMIN HARRISON, IND. — Pvt. Winston L. Dunlap, son of Mr. and Mrs. Jack A. Dunlap, Route 2, Cisco, recently completed with honors the eight-week finance procedure course at the Army Finance School, Fort Benjamin Harrison, Ind. Dunlap entered the Army last April and completed basic training at Fort Carson, Colo.

The 20-year-old soldier is a 1955 graduate of Cisco High School, attended Cisco Junior College, Draughton's Business College and was formerly employed by M. A. Staggs Motors, Abilene.

of Lancaster, was married Saturday evening, Oct. 4, to Donald Busell, also of Lancaster. Donald is a student of Ranger College who plans on playing basketball next semester.

Bill Creager, Jackie Ray Nedley, Don Deffebach, and Frankie L... troop, all of the University of Texas, visited their parents over the weekend.

LIVE BETTER... ELECTRICALLY

Enjoy the **ECONOMY** of Electric Cooking

Electric cooking is economical cooking because it utilizes heat with maximum efficiency. Electric range surface units concentrate heat directly into cooking utensils. The sealed electric oven keeps heat where it belongs, in the oven and out of the kitchen. As soon as the oven reaches the temperature you select, it uses electricity less than half of the cooking time. Here is real efficiency, real economy—the modern, automatic electric way. See your electric range dealer soon... learn how little it costs to enjoy cooking electrically!

VISIT IN OLDEN
Mr. and Mrs. L. A. Kile, Thomas Dolphin and L. E. and Miss Rosemary Stewart, all of Galena Park, Texas; Mr. and Mrs. Stan-

ton Fellure of Galion, Ohio; and Mr. and Mrs. Eddie Squiers and family of Ranger visited in the home of Mr. and Mrs. Tom Sharpe of Olden over the weekend.

Mrs. Anderson Is Hostess to Grace Class

The members of the Grace Sunday School Class of the First Baptist Church met in the home of Mrs. T. J. Anderson for their monthly business meeting and social hour.

Mrs. Anderson, teacher of the class, presented the devotional. New class officers were installed. Plans for the new year were made. A delicious salad plate was served to the following: Meses. John Tibbels, Kenneth Kirk, Earl Horton, Homer Gay, J. B. Houghton, O. W. House, D. C. Singleton, Florence Bundick, Lem Rushing, J. C. Carter and the hostess, Mrs. Anderson.

Hospital News

New patients in Ranger General Hospital are:
Mrs. T. W. Thompson, Ranger, medical; Mrs. Johnny Bryan, Ranger, medical; Robert Melton, Ranger, medical; Mrs. A. R. Huffman, Ranger, medical; Mrs. Gene W. Ready and baby girl, Ranger; and Jim Lovell, Eastland, medical.

Tangy Apple Showcase

The tantalizing flavor of this shimmering fruit salad is sure to spark family appetites and add glowing color to fall menus. Crisp walnuts combined with delicious fruits in apple-flavored gelatin make a tasty salad for luncheon or Sunday supper.

Amber Fruit Salad

1 package apple-flavored gelatin
1/2 teaspoon salt
1 cup hot water
1/2 cup pineapple juice
1/2 cup cold water
1 tablespoon lemon juice
1/2 cup diced apple
1/2 cup banana slices
3/4 cup (8-ounce can) crushed pineapple, drained
1/2 cup chopped walnuts

Dissolve gelatin and salt in hot water. Add pineapple juice, cold water, and lemon juice. Chill until slightly thickened. Fold in diced apple, banana slices, crushed pineapple and walnuts. Pour into 1-quart mold. Chill until firm. Unmold and garnish with water cross and apple slices.

American Legion Auxiliary Has Meeting Monday

The regular meeting of the American Legion Auxiliary was held Monday, October 6, at 7:30 p.m. at the Legion Hall. Mrs. H. C. Croom, president, presided over the business meeting.

The following delegates and alternates were elected to attend the fall convention of the American Legion and Auxiliary in Sweetwater October 18, 19. Delegates: Meses. H. C. Croom, A. H. Powell, Gertrude Gideon, Howard Elwood, Edgar Ward, and Miss Electra Pearson. Alternates: Meses. Ray Williams, B. H. Pencock, Perry Vinson, Luna Lane, and Don Butler.

The auxiliary voted to entertain the Legion and Auxiliary members and their families on Nov. 11, Veteran's Day, with a 6 o'clock dinner and program.

A report was made on the rummage sale now being held in the 500 Tailor Shop Bldg. Members expressed appreciation for the articles which have been given the auxiliary for the sale.

The colors were retired and the meeting was adjourned. The next meeting will be Monday, October 20, at 7:30 p.m.

TODAY - OIL BUILDS FOR YOUR TOMORROW

Constantly building—new pipelines, new refineries, new retail outlets. That's the oil industry.

Why? We now are using 380 million gallons of oil each day. Ten years from now we will be using 590 million gallons each day—an increase of 55 per cent.

Service Pipe Line Company, a transporter of crude oil, also is building for your tomorrow.

SERVICE PIPE LINE COMPANY
TULSA, OKLAHOMA

PETROLEUM—basic to the needs of our time

Oil and natural gas have powered most of the great technological advances of modern times; petroleum hydrocarbons have transformed the dreams of inventors into the realities of engineers ... Today, in the United States, oil and natural gas provide about 75% of the country's energy requirements; and large quantities of oil, available for production beyond immediate need, are necessary to the national security.

An obvious example is the gasoline that powers our automobiles; another is the diesel fuel burned by post-war railway engines. But do not overlook electric power plants, the airplane, whether jet or propeller driven, factory power plants, farm mechanization, and the revolution since World War II in home heating devices. Oil provides the energy that moves the trucks, airplanes, ships and tanks of our Armed Forces.

But petroleum as a source of energy is only part of the story. In the past two decades, the petrochemicals have supplied the country with a vigorous new industry: already most of our rubber is made from petrochemicals ... the ubiquitous plastics derive from petroleum products ... paraxylene, a petrochemical, is the raw material for one of the most useful of the new fabrics. In this area, wonders never cease; the petrochemicals contribute more each year to the efficiency, comfort, and convenience of modern living.

Thus, oil's progress has made other progress possible all along the front of American industry ... Petroleum is the American resource that is

basic to the needs of our time ... that is essential to our national security.

The Humble Company, established in 1917, has developed with the industry.

Humble's exploration activities extend from Florida around the rim of the country to California, Oregon and Washington, and beyond to the new State of Alaska ... The Company is a leader in the production of oil and gas in the United States ... Humble Pipe Line Company is a public carrier transporting not only Humble's oil but that of many other companies and independent producers to Gulf Coast terminals ... Baytown refinery is one of the nation's great manufacturing plants ... And Humble is a marketer in the Southwest, supplying the needs of motorists in modern service stations.

The Humble Company believes strongly in research, maintains two outstanding research facilities, and annually budgets considerable sums for this activity ... Humble research has made substantial contributions to the discovery, production, and utilization of petroleum.

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headache, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, overexposure or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often overlooked, it's amazing how many men Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filter "flush out" waste. Get Doan's Pills today!

Petroleum, power and PROGRESS

The oil and the electricity supply industries have long played important roles in the growth and development of West and Northwest Texas.

Oil and gas are important factors in the production of electricity... and electric power performs an equally important function in oil well pumping and in refining and moving petroleum products to market.

And just as the oil industry has expanded and improved its facilities to provide more and better service for its consumers, Texas Electric Service Company has planned and built ahead to assure abundant, low-cost electric power for the area served.

So, Texas Electric Service Company and its 2,600 employees salute the men and women of the oil industry as partners in progress... working together to help build for the future.

Texas Crude Oil Production Over One Billion Barrels

For the past eight years, Texas crude oil production has averaged more than one billion barrels a year, but signs are that production will fall below that mark in 1959. The production record thus far when 974 million barrels flowed. To meet the slackened demand for Texas oil caused by surpluses of crude and oil products which piled up in 1957, State conservation authorities reduced production schedules to as low as eight days a month in April, May and June. In May, production averaged 2.2 million barrels a day, or about one million barrels under the daily rate of the previous May. It appears, however, that 1958 production will average a little more than 2.5 million barrels daily, compared to 2.9 million in 1957.

MAY WE JOIN

... with people everywhere in extending our thanks for all the good things brought to Texas and the Southwest by this great force... The Oil Industry!

TODAY—OIL BUILDS for your TOMORROW!

MORRIS GEORGE
Distributor of Gulf Oil Products
Phone 105

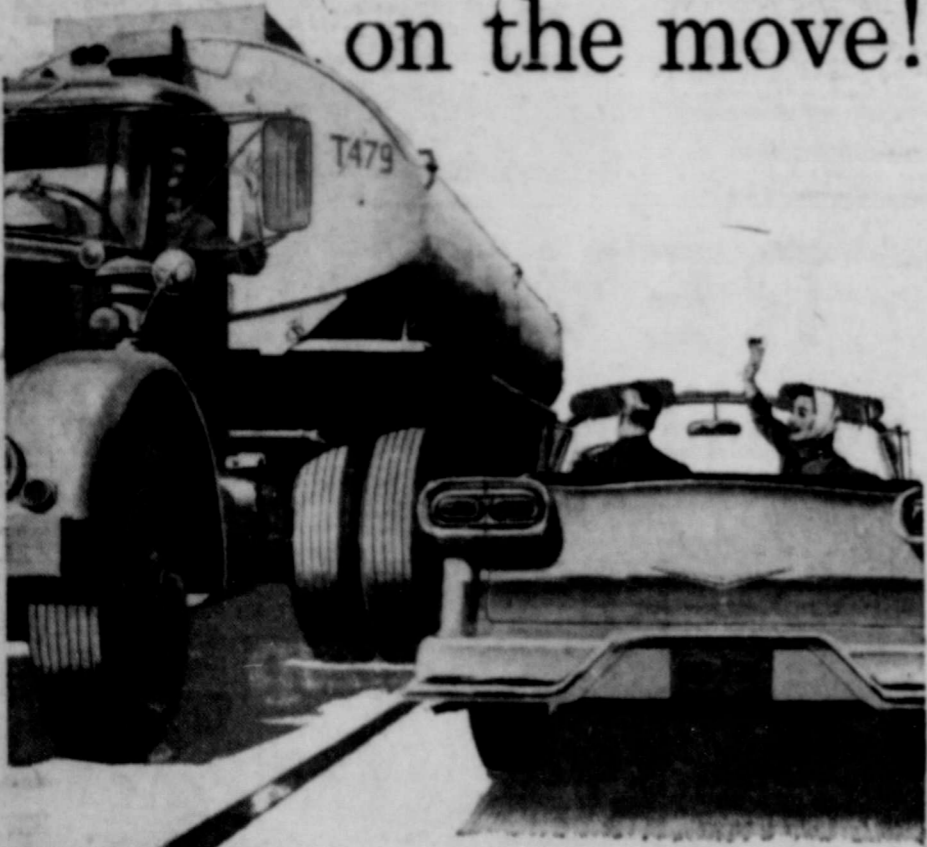

To prevent waste, the Texas Railroad Commission limits production to the demands for Texas oil, as provided by state laws. It is estimated that the state's wells have a total reserve capacity to produce more than 1.5 million barrels a day above current rates. This is a substantial portion of the nation's oil producing reserve in case of an emergency which demanded a sudden upsurge in production.

Texas has more than 185,000 producing oil wells, but the rate of increase in number of wells dropped off substantially this year. In 1956 and 1957 the well

Shrinks Hemorrhoids Without Surgery

Science finds healing substance that relieves pain—Shrinks Hemorrhoids. For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H. At all drug counters—money back guarantee.

We move the OIL POWER that keeps America on the move!

You see us on the road every day. We're one of the transportation companies that keep oil power moving—to you, to industry, to towns, to farms—in all kinds of weather. The future of America will be so great—in both prosperity and population—that even today we're getting ready for the future demands on oil transportation. So whatever your oil power needs may be in the near and distant future, you can be sure we'll deliver the goods.

Olds Introduces SportSedan for 1959

Oldsmobile's distinctively styled and attractively different Dynamic "88" Holiday SportSedan for 1959 represents "family-sized" transportation luxury in sports car design. The thin roofline and rakish wrap-around rear window serve to accentuate the mobile appearance of Oldsmobile's "Linear Look" for 1959. Sweeping full-length along the body, the sculptured twin booms give the car a look of mobility even when parked. They also highlight Oldsmobile's unique two-tone styling for 1959. Recessed in the smart grille, the four-beam headlights are located closer-to-the-road for improved nighttime visibility. The SportSedan body style also is available in the "38" and Super "88" series. Increased interior roominess is a feature of all 1959 Oldsmobiles.

population gained at an average rate of about 850 wells per month, but in the first nine months of 1958, only about 450 wells per month were added.

The effect of so many wells sharing in the state oil output has been to gradually reduce the average output per well. In 1956 Texas wells averaged about 18.5 barrels per day; in 1957, about 16.5 barrels. This year the figure will reach a low of about 14 barrels per day. If, however, additional wells had been put on schedule at the rate of previous years, the average might have dropped to around 13 barrels daily.

Texas in 1957 was still the Western Hemisphere's leading oil producing region, but stable shifts are taking place in international petroleum statistics. Texas is affected in the world markets for oil.

Between 1952 and 1957, world oil production expanded about 30 per cent to about 6.5 billion barrels annually. In 1952 Texas alone produced 23 per cent of the world's oil, but in 1957 its share was 16 per cent. Venezuela increased its share of the growing world production from 14 to 15 per cent with a 1957 output of about 1,914,000,000 barrels. The Middle East which produced 17 per cent in 1952 now shares in 21 per cent of the production.

One of the largest gains by a major producing country has been Russia, which was credited with only 7 per cent of world production in 1952 but now has an estimated 12 per cent with an output about 26 per cent under that of Texas.

Within the United States, Texas remains, by far, the leading oil producing state accounting for 41 per cent of the domestic production in 1957. At the time of the deepest cutbacks in production this spring, Texas was producing only about 35 per cent of the nation's oil. For the year, the Texas share may drop below 40 per cent.

The crude oil reserves which underlie Texas 6,300 oil fields are estimated to total 14.5 billion barrels, or 48 per cent of the oil in the United States which can be recovered by current methods. By adding the 3.2 billion barrels of

McCain Named Supervisor Of Zone Five

C. M. McCain was elected as new supervisor for Zone 5 of the Upper Leon Soil Conservation District at a Zone meeting Tuesday night in the Texas Electric Service Co. conference room in Eastland.

McCain succeeds F. M. Spurlen, who has served as supervisor for the past five years.

H. B. Hickman of Rising Star, who is chairman of the Board of Supervisors, served as chairman for the election. H. W. Turney, supervisor from Dublin, acted as secretary.

Film on the district program and small watershed protection program was shown to the group. Title of the film was "With Our Own Hands."

Turney and Hickman both made speeches praising Spurlen for a "fine job as supervisor during the past years." Spurlen attended almost 100 percent of the regular meetings during his term of office.

liquid fuels which can be extracted from natural gas, however, the state's "liquid hydrocarbon" reserves total some 17.8 billion barrels or 49.5 per cent of the U. S.

Every section of Texas has oil regions and there is recorded production in 1957 of the 254 counties. The heaviest production, however, is in the big Permian Basin district of West Texas which turns out more than a million barrels a day, or more than a third of the state's output.

Conservation Practice Can Gain Assistance

COLLEGE STATION Conservation practices which provide habitat and protection for wildlife qualify for assistance under the conservation reserve phase of the Soil Bank program. Up to 80 percent of the cost of putting cropland into wildlife habitat plus an annual rental each year the land is under contract, will be paid by the Soil Bank program, says Ed Cooper, extension wildlife specialist.

Under the program, Cooper says farmers have a choice of five or 10 year contracts for planting trees or shrubs on conservation reserve acres. Cost share payments for such plantings cover land preparation, planting, mulching and, in some cases, cost of necessary soil building elements. Also included are food plot plantings to attract and hold quail, doves, deer and wild turkeys. Food plots located adjacent to protective cover or water may include domestic grains as well as natural foods, says Cooper.

Water habitat for ducks, geese and fur bearing animals are also included under the program. In addition to the restoration of

ducts under inspection requirements similar to those in effect for 50 years for red meats. Consumers will know the ready-to-cook poultry they buy has been processed in an approved plant if it carries the USDA's "Inspected for Wholesomeness" label.

Now Is the Time To Think About Care of Lawns

COLLEGE STATION — Now is the time to start thinking about the fall care of lawns, reminds E. M. Trew, extension pasture specialist. Fertilization should be emphasized, points out Trew. Properly fertilized lawn grasses will go into the winter in a vigorous condition and will remain green longer in the fall and will grow off earlier next spring.

Fertilizer should be applied about a month before the first expected frost, advises Trew. If summer grass is pushed into lush growth by later fertilization, it may be damaged by a hard freeze. Applying fertilizer too late prevents grass from getting the most out of it before going dormant. Apply a complete fertilizer with a 2-1-1 or 1-1-1 ration at a rate to supply two pounds of actual

nitrogen per 1,000 square feet of lawn, recommends the specialist. This amount of nitrogen would be found in 20 pounds of 10-5-5 or 10-10-10, or in 25 pounds of 8-8-8.

After fertilizer has been spread, Trew advises watering it down. Soak the soil at least six inches deep. Plenty of moisture is necessary, for plants can't use fertilizer until it is dissolved. If the soil is already wet, just wash the fertilizer off the grass and onto the soil.

Ryegrass is sometimes overseeded on Bermuda to give green color during the winter, but, Trew says, this is sometimes harmful to the Bermuda. Ryegrass is usually growing in the spring when Bermuda should start and unless the ryegrass is kept closely clipped, it often gives Bermuda serious competition for light, moisture and plant food. If ryegrass is seeded on a Bermuda lawn, Italian or annual

ryegrass should be used for they die in the spring. Ryegrass should not be overseeded or grasses other than Bermuda.

For additional information, Trew suggests getting B-203, "Home Lawns", from county agents or the Agricultural Information Office, College Station.

ryegrass should be used for they die in the spring. Ryegrass should not be overseeded or grasses other than Bermuda.

Poultry Law For Health

COLLEGE STATION — Health protection for the consumer is the objective of the new Poultry Products Inspection Act. The federal law was effective on a voluntary basis last May, but becomes mandatory on January 1. It provides that all ready-to-cook poultry shipped across state lines must be inspected for wholesomeness by the U. S. Department of Agriculture.

According to Dr. Kenneth McEnroe, area supervisor for USDA's Agricultural Marketing Service that handles the inspection program, Dallas, more than half of the 100 eligible poultry processing plants in the Southwest have qualified under the Act. All plants have been reminded of the January 1 deadline. He also points out that inspectors are being trained and will be available when needed. If plants apply for the service before November 1, the change over in January should cause no hardship for anyone, McEnroe said.

The law requires USDA approval of the plant, premises, blueprints, inspection labels, water and chemicals used by the processor. Sanitation is especially important. Under the program, routine services of the USDA inspectors are provided without charge. The Act brings poultry and poultry pro-

Science Develops New Tablet: Relieves Painful Monthly Cramps For 3 out of 4 Women Tested! Gives Greater Relief Than Aspirin!

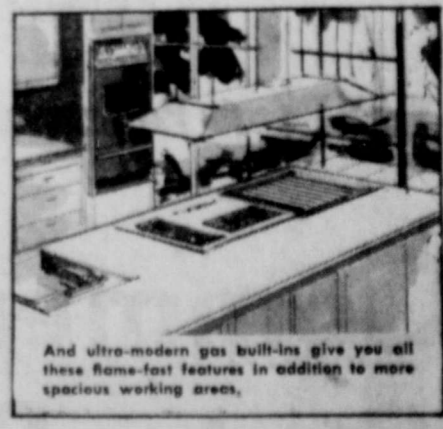

New promise of relief from tortures of monthly cramps, nervous tension is found in an amazing new tablet! Developed especially to relieve this female discomfort, it offers greater relief than aspirin! For 3 out of 4 tested by doctors, pain and cramps were stopped or strikingly relieved. Even on the first day, many had no nagging headaches, no backaches or other functional distress! The new tablet contains a unique combination of medicines. That's why it offers so much more relief than plain aspirin! Acts on the cause of distress to calm uterine contractions. Also works through a woman's sympathetic nervous system. Called "Lydia Pinkham's Tablets," they're sold at all drug stores. Easy to take, contain blood-building iron. So don't suffer needlessly. Take Pinkham's Tablets yourself. See if you don't escape much irritability and discomfort—before and during your period! IF YOU PREFER A LIQUID all druggists, today, also have the famous Lydia E. Pinkham's Vegetable Compound.

District 7-AA Elevens Pair Off This Weekend

District 7-AA teams finished their playing around last week and this week they will get down to the serious business of playing each other.

Cisco and Winters upheld the circuit's fine name by taking victories against tough foes in the only two game involving 7-AA teams. Cisco downed Haskell, 22-8, and Winters defeated Class AAA

Colorado City, 28-20.

This week Ballinger will invade Cisco, Eastland will be at Coleman and Ranger plays host to Winters. The Ballinger-Cisco game will match the league's top two individual scorers. Randall Hess got 10 points in the Haskell win Friday to boost his total for the year to 75. Ken Wington, Ballinger's top ace, didn't play Friday, but his 44 points were enough to hold second place for him.

Pat DeBusk of Coleman is in third place and Duane Hale of Cisco moved up to fourth with a 12 point outburst Friday. DeBusk has 38 points to his credit and Hale has 32.

In 39 non-district games, District 7-AA teams managed to win 18 while losing 11 and tying one. These losses have included setbacks by some of the best teams in the state, Stamford, Brady and Albany, to mention a few. Only Ballinger fails to have a 500 average or better in the district.

**Local Legion
Members Will
Attend Confab**

Legionnaires and Auxiliary members from the 17th Congressional District of the American Legion will convene in Sweetwater Saturday and Sunday, for their annual Fall Convention and Post Officers Conference, according to Troy S. Bowen, 17th District commander.

Meetings will be held at Sweetwater and Roscoe, with Roscoe acting as the host post. Saturday afternoon at one registration will open at the Legion Hut in Roscoe and at the Blue Hotel in Sweetwater.

The Post Officers Conference will be held at the Blue Bonnet Hotel in Sweetwater at 2 p.m. The Legion Hut in Roscoe will be the location of the Social Hour beginning at 3 p.m., followed by a dance at 9 p.m. for the Legionnaires and their wives.

Sunday morning at 8:30 a.m. registration will be resumed at both locations. At 8:45 a.m. in the Sky Room of the Blue Bonnet Hotel, the Post Officers Conference will meet for another session.

The joint session of The American Legion will begin at 10 a.m. with W. L. Martindale, commander of the Sweetwater Post, calling the meeting to order. Colors will be advanced by a Color Guard from the Sweetwater Air Base. Address of welcome will be given by E. K. Wills of Roscoe and Response by Dr. C. B. Cathey of Hamilton. W. S. Chennault, traffic manager of Western Union, will deliver the principal address, and will be introduced by James S. Lee. Memorial Service will be conducted by Rev. Angus Miller.

Lunch will be served at the Legion Home in Roscoe at 12:15 p.m. to all registered delegates and guests.

Immediately following lunch the Legion and Auxiliary will hold their separate business sessions with Commander Bowen presiding over the Legion meeting. Membership will be the main topic for discussion and will be followed by an address by Gerald Turner of the Veterans Affairs Commission of Lubbock.

ABOUT YOUR HEALTH

You may not know it, but the State Department of Health is a first class entertainer as far as motion pictures are concerned.

The films are not intended solely for entertainment of course. They're all on educational health subjects slanted to every age group from kindergarteners to oldsters.

During the last two years, over 15,000 bookings have been made of health department films, and displayed to more than one-and-a-half millions of Texans.

Film library secretaries claim that some of the more popular films, such as "The High Wall"—a mental health film dealing with human prejudices — are booked weeks in advance. It is for this reason that a second, third and fourth choice is requested when making application for film loans.

Careful records are kept of each film, containing the number of showings and total audience. Unfortunately about half of the loanees do not fill out the requested information on the card enclosed with each film. As a result the totals actually fall short of the whole number of showings and audience covered with each film.

Some films are very popular. "Preface to Life," a film about parent-child relationships for showing to adult audiences, had 26 viewings before 900 people during September.

One of the headaches of the film library is that loanees insist on rewinding films after use. Film librarians would rather rewind the films themselves in order to check for damage and to clean the film at the same time.

Often a costly film is damaged during the rewinding process when done by unskilled operators. Also, prompt return of a film is important because often films are "hooked" continuously and three to four days must be allowed for

IT'S THE LAW in Texas

Pensions, Hospital Benefits and
State Advertising Among
Proposed Constitutional
Amendments

Among topics covered by the

Proposed constitutional amend-
ments to be voted upon by Texans
on November 4 are pensions, hospi-
tal benefits for the needy, hospi-
tal districts, and advertising of the
resources of the state.

Proposed Amendment Number
Six authorizes the Legislature to
provide for a system of retire-
ment and disability pensions for
retiring Texas Rangers. Benefits
would be limited to those Rangers
who have not been eligible at any
time for membership in the regular
state employee retirement system.

Those drawing the pensions or
disability payments would also be
required to have served at least
two years as Rangers. Widows also

be provided for by the Legislature,
provided they were legally married
prior to 1957 to a Texas Ranger
qualifying for such a pension.

Under the proposal there would
be a limitation of Eighty Dollars
per month on payments to a Ran-
ger or his widow. The pensions
could be paid only from the Con-
federate veterans pension fund,
which is already in existence and
is kept up by a State ad valorem
property tax levy of two cents per
hundred dollar valuation. The
State Building Fund is currently
being maintained from the same
source.

Proposed Amendment Number
Seven would strike from the Tex-

as Constitution the original 1876
provision which prohibits the
Legislature from appropriating
public money for any purpose of
bringing immigrants to the State.
Substituted would be an author-
ization for the Legislature to ap-
propriate money and establish
procedure for developing informa-
tion about the historical, natural,
agricultural, recreational and other
resources of Texas.

Funds might also be appropri-
ated "for the purpose of inform-
ing persons and corporations of
other states through advertising in
periodicals having national circula-
tion, and the dissemination of
factual information about the ad-
vantages and economic resources
offered by the State of Texas."

Pictures of living state officials
could not be used in any of such
advertising. The Legislature would
be authorized to require that any
sum appropriated under the new
provision be matched by an equal
sum from private sources before
being paid out.

Proposed Amendment Number
Eight would empower the Legis-
lature to provide for direct pay-
ments for medical care in addition
to the amount paid in the form of
direct public assistance to needy
recipients of Old Age Assistance,
Aid to the Blind, Aid to Depen-
dent Children or Aid to the Per-
manently and Totally Disabled.

State funds paid out for such
medical care could not exceed
those paid out of Federal funds
for the same purpose; and the
Legislature would be authorized to
accept financial aid from the Fed-
eral Government for those pur-
poses.

Proposed Amendment Number
Nine authorizes the creation of
Hospital Districts in the City of

Amarillo and in Wichita and Jef-
ferson Counties. The first two dis-
tricts would extend to the respec-
tive city and county boundaries,
but two separate districts could
be set up in Jefferson County.
One of these would cover the Port
Arthur Independent School Dis-
trict and other would cover the re-
mainder of the county. All of the
districts would be supported by
taxes upon property within their
boundaries.

(This column, prepared by the
State Bar of Texas, is written to
inform—not to advise. No person
should ever apply or interpret any
law without the aid of an attorney
who is fully advised concerning the
facts involved, because a slight
variance in facts may change the
application of the law.)
