coming downfield until the Ranger gang tackled him.
Third Quarter
Tyler's Larry Corley scored the first of two touchdowns he made by going in from two yards out with four minutes and two seconds left in the third quarter to make it 20-0.
His attempt to run for the bonus points was stopped short.
Fourth Quarter
Ranger hit for pay dirt for the only time of the evening in the fourth quarter with Quarterback Dick Maxwell firing a 14-yard pass to Halfback George "Buz" Boynton. The try for points failed for the Rangers.
Eager to get the TD back, the Apaches first unit came back into the game and used just eight plays to grind out another score, with Corley crashing over from the one again.
The big fullback rammed his way over for the two extra points, and the clock showed five minutes and 32 seconds left in the game as Billy Black kicked off to the Rangers.
On first down from the Ranger 24, Black intercepted Maxwell's pass intended for Boynton, and the Apaches ran it back to the Ranger 14.
After near failure, Black pitched to End Lloyd Pate, good to the Ranger 2, from where Fullback Gary Thacker crashed over for the final tally.
Halfback Jim Wooten ran for the points that made it 36-8.
In the waning seconds, Maxwell hauled out his spread again and fired a passing volley, but time ran out.

'Way Back in the early 20's-
... we started out in the abstract business in Eastland County. Then, as now, the abstract was a necessary part of every real estate transaction. We soon learned that an abstract was something more than a bundle of pages with numbers on them. (Continued from Page One) prices above the government loan advance, said Wilson. He expects to come more into the picture when the prices come down on the loan level. The Association, operating in Texas, Oklahoma and Eastern New Mexico — will then start storing peanuts in government warehouses.

At the present, about 1,200 tons are stored in 12 Oklahoma towns, but a few tons are stored at Rising Star, Santo and Talor, Wilson indicated.

The Oklahoma peanut crop is estimated to total between 60,000 and 70,000 tons while the stowier Texas crop is estimated as high as 100,000 to 115,000 tons. Oklahoma is farther along on harvesting due to warmer weather conditions.

The Southwestern Peanut Grower's Association has warehouses across Central Texas ready to take the crops when prices are lower. Several thousand bushels are expected to be stored by the Association in Texas.

Employed at the Ranger plant, at present, are 20 employees including six women. The plant will be buying both locally and for the government during the harvesting season.

Bulldogs-

(Continued from Page One) fourth Ballinger TD of the game. The touchdown drive started on the Ballinger 29, highlighted by a 34-yard pass from Candler to End Stephen Brown. The pass fell incomplete and Ballinger held a 30-6 lead.

Seconds before the end of the first half Candler connected with a long pass from Wiginton, on a 31-yard play, and ran over for the touchdown. The extra-point pass fell incomplete. The half ended with Ballinger in front 36-6.

The story didn't change in the second half, as the Bearcats came back to make two more touchdowns, while the Bulldogs could only find one. Both teams made wild substitutions in part of the fourth period.

Fullback Jake Basham was injured shortly after the kickoff, and was pulled out of the game. Ranger's first drive from their own 25 failed to pick up enough yardage and the ball went over to Ballinger on their 28.

Still displaying plenty of power, the Ballinger team bulldozed their way up past the 50 and then kept right on going. Candler, again, clinaxed the burst of power on a 26-yard gallop for another tally. The kick was no good and the score became 42-6.

Ballinger recovered their own kick-off, but Ranger soon took the ball on downs. Three passes fell incomplete, however, and the Bulldogs chose to punt. The third period ended with the Bearcats in possession of the ball.

Ballinger took the ball from their 28 (before the end of the third quarter) and Candler was turned loose to make five-six-and-seven yard plunges, working their way up to the Ranger 25 (in the fourth quarter). From there, the Bearcats attempted a field goal. But it was no good.

With a little over six minutes left in the quarter, both teams sent in part or all of their second teams (with Edward Mendez at the Quarterback slot for the Bulldogs) and an immediate touchdown exploded. Quarterback Calvin Kirk ran 49 free yards for the Bearcats to rack up the final Ballinger tally. The kick was no good, and the home team held a 48-6 edge.

King returned the kick-off about 15-yards to set the Ranger bunch up on their own 24. On the next play, King made 14-yards downfield looking for a pass receiver. Charles White, end, connected with a long pass of about 45-yards from the hands of King to plunge over for the final tally. King ran for the extra points to make it 48-14.

And the Bulldogs' fans left the field unhappy, feeling as if they had been tricked on Halloween night.

Amendments Stir Up More Dust Than Candidates in Nov. 4 Voting

By Vera Sanford
Texas Press Association

AUSTIN — More dust is being stirred up over issues than over candidates, in the build-up to the General Election, Nov. 4.

Texas will vote on nine proposed amendments to the Constitution. One of them, providing for annual sessions and salaries in the Legislature, is the subject of hot debate.

A condensed outline of the amendments and arguments being presented for and against follows: (Numbers correspond to the order in which amendments will appear on the ballot.)

1. Would provide for annual sessions of the Legislature. Odd-year sessions would be devoted to all matters, as before, and even-year sessions would attend to budgeting and emergency matters. Legislators would receive an annual salary of \$7,500 (instead of \$25 a day for a 120-day session) and an unspecified amount for "expenses of office."
2. Supporters say annual sessions will allow more time for consideration of important matters. State financial planning could be done for one year at a time. No more having to "guesstimate" financial needs for two years ahead. Better pay would be a step toward attracting the best qualified persons to lawmaking. Such influential and hard-working groups as the Texas Junior Chamber of Commerce are pushing this amendment.
3. Equally outspoken are the opponents who say it would cause needless expense when money is already short. More time in session means more chance to spend money. Proposed salary still is not enough to attract top-notch talent, but "expenses of office" could open the door to "fat catting" with public funds. Sen. Dorsey Hardeman of San Angelo is the recognized spokesman for the "antis" which include some other lawmakers and other groups.
4. Would allow counties to extend participation in their retirement, disability and death compensation plans to elective officials of the county and precinct. Present arrangement covers only appointive officials and employees of the county.
5. PRO: It is a permissive law. No county has to do it unless the voters say so. It would give elective officials the same privilege as appointees, be an attraction to office.
6. CON: It sets no requirement for length of service. An official might serve one term — or less — and receive benefits.
7. Would allow the County Commissioners Court to fill vacancies in the office of County Judge and Justices of the Peace only until the next general election. Presently such appointments are for the remainder of the unexpired term, up to four years.
8. PRO: It would give voters the right to choose their own replacement to office as soon as possible. CON: Since campaigns are so costly, there would be less incentive to run for the office for only a two year term.
9. Would provide for automatic resignation of a district, county and precinct official who announces for any other public office more than one year before the end of his term of office.
10. PRO: It would keep officials on the job rather than out campaigning for some other office. CON: It would discriminate against district, county and precinct officials since other officials — U. S. senators, state senators, railroad commissioners and others with more than two-year terms — can run for another office in mid-term.
11. Would allow Home Rule

Homeowning Can Be Hazardous Too!

Just as the burglar may become overconfident with success, so may the homeowner not stop to think of hazards he faces in owning a home.

A fire, windstorm, or explosion could destroy his home. An injury on his property could result in a crippling lawsuit.

If you are a homeowner, don't let trouble take you by surprise. Call your local independent insurance agent and let him protect your property with insurance placed in a Capital Stock Insurance Company, the standard bearer of reliable protection for more than a century.

Let's extend terms of their elective and appointive officials from two years to four years.

PRO: It is permissive; each city can make its own decision. Two-year terms hardly allow an official time to get a program started before he has to get out and run again.

CON: Elections every two years give voters more control, build up citizen interest in government.

6. Would provide pensions, not to exceed \$80 a month, for retired Texas Rangers and widows of Rangers who retired before the 1947 State Employees Retirement System was established. Money would come from the Confederate Pension Fund.

PRO: Since funds are available, it would put no extra burden on taxpayers. Protective dating clause would prevent marrying for pensions.

CON: It would allow ex-Rangers to receive pensions for as little as two years' service and with no payments on their part, a more generous arrangement than is provided for other state employees.

7. Would allow Legislature to appropriate money for advertising the advantages of Texas in nationally-circulated publication. Use of the name or picture of any living state official would be prohibited and public funds would have to be matched by private funds.

PRO: Texas is one of only three states without a state program to attract tourists and industry. Proponents say it would pay for itself many times by bringing new money into the state.

CON: This should be handled by the businesses who would benefit through their trade associations, chambers of commerce, etc.

8. Would allow the Legislature to appropriate money to pay for medical care for people who receive old age assistance, aid to the blind and aid to dependent children.

PRO: It would provide help for people whose small monthly checks cannot possibly cover medical emergencies. Since payments would be made only to the vendor (doctor, hospital of what not), the money could be used only for its intended purpose.

CON: It would cost the state an estimated \$9,000,000, with no limit on how much it could drain from the Treasury. It would mean double taxation for cities and counties already providing medical care for their needy.

9. Would allow the Legislature to authorize creation of hospital districts in Amarillo, Wichita and Jefferson County.

PRO: It is permissive. People in the affected areas could decide what they want to do with it.

CON: Proposed amendments are long (1,000 words), detailed and so complicated that few voters can even understand it. If such provisions are needed, they should be made in statutes rather than by adding to our already-long Constitution.

Latest reports by the State Tax Study Commission list several possible new tax sources the Legislature could turn to for additional revenue.
