notice that spring is here. Why else would all the boys at Ranger College be dying their hair? Aheternal spring — what crazy things you make us do! Look at the trees and grass, how

green they are turning. This poetry. (And it may yet-at most any time!)

This is the time of year that parents tell their children about the Easter Bunny (a story they generally don't believe), and later in the year expect them to believe in Santa Claus.

SPRING is a time for fishing, and we have plenty of that gosee a bunch of tracksters in action at the college.

Preparing to run in the Texas

Conference meet, later in the season, is this group: Roger Kelly, on the 100-yard dash; Gary Bailey, shot-put; J. R. Senkel broad-jump; Jimmy Brock, pole yault; Bobby Laudermilk, low burdles; and James Knicker bocker, 880-yard dash.

We understand that Newell Hall boys have challenged the boys in the Athletic Dorm (Cell Block) to a track fete. The results should be interesting.

SPRING is the time for shopping for new clothes, for out-doo

activities and for romance. Here in Ranger, the season will sed four elections coming up soon with no candidates opposed except in the school board rage. And it will see our 40th anni-

versary edition in June. And lots of people will get en gaged and married.

Before I get captured, however, we want to list some dates to rem-ember—spring events.

REMEMBER Texas Industrial Week is set the first week in April, and Ranger industries should start thinking about some proper observance right now

Spring time means a lot of different things to different people—a new lease on life, planting a garden, oiling the lawn mower, etc. A lot of it adds up to getting ready for

The other day James Townzen and I were talking about Spring and Summer. Usually, we have some storms that blow down some lines. Needless to say, when the lines blow down we work around the clock to restore your telephone service. Also, Spring and Summer means the trees will be growing. When the tree limbs grow into our lines, the limbs need to be trimmed. Limbs in the lines is another way to impair service, so we like to trim them to keep our service going without interruption. James Townzen told me that he would be glad to trim the trees to your specifications, as long as it clears our lines.

A PART OF GOOD LIVING

Nowadays, we hear the term "good living" quite often. I have a few ideas about it, but to find out what it means to other people, I brought up the subject with a group of friends a week or so ago.

Before the "good living" talk was over and the coffee served, one of the women made music for my ears by saying that the telephones in color in her home are certainly an important part of good living.

Everyone seemed to agree, and that gave me a chance to point out that extra telephones in bedrooms and kitchens are low in cost, too - just \$1.00 a month plus installation. For color, you know, there's a one-time charge

P. S. I sold a couple, too.

LOOKING AHEAD TO EASTER

Easter Sunday, to most of us, is a happy, dress-up, go-to-church day for all the family. And I hope you and your family will all be together for a Happy Easter.

Unfortunately, some families are scattered and won't gathered around the table for the carving of the ham.

For these families, a Long Distance visit or two by lephone is the answer. It's the next best thing to being re in person, and everyone has fun on an out-of-town

Naturally, low Sunday rates will be in effect. And if you call station-to-station, you can talk longer for less.

Some day you may be real mad at us

We wish we had time to sit down with everybody in this town and tell 'em personall' about the many kinds of modern, inexpensive insurance which most people should carry nowadays.

You-for instance-may be pretty sore at us some day if you have a fire, a windstorm, burglary or a boiler explosion, or if you are sued for damages, or lose a diamond ring or a fur coat or a suitcase full of clothes, or sustain some other serious loss against which we could have insured

you if we had tried to sell you. We can't be out selling everybody in town all the time, so won't you help us sell you what you need. Ask us to survey your insurance policies soon and to tell you of any gaps.
