

As I Meet Ranger

By Gene Townsend

From reports of the coaches conference at Fort Worth, Cisco is picked by the coaches to win the 7-AA conference. Terrell is picked to win state in the AA class. Harold Prescott, our new coach, is attending the school and is due back today. Maybe he will have a good report to give us.

Baird lost in the Little League tournament in Brownfield. Lubbock beat them 14 to 12. Baird went quite a ways in the playoffs.

Here is the latest bit of verse that I have ran across:
Last night I held a little hand
So dainty and so sweet.
I thought my heart would surely break,
So wildly did it beat.
No other hand in all this world
Can greater solace bring,
Than that sweet hand I held last night
Four Aces and a King.

Report from the fishermen show that the fish are beginning to bite a little better. I saw some good catfish that came out of the old Eastland lake. The bass are still taking the hook at Lake Leon early in the morning.

Ranger Cats beat the Eastland Blue Sox teenagers last night 17 to 16. Charlie Santos was the winning pitcher.

We are starting a new column today—it is a devotional to be in each Sunday's edition. It will be submitted by members of the Ranger Ministerial Alliance.

There is one way to tell that fall is getting near even if the weather doesn't show it and that is the fall colors showing up in the store windows. Several of the businesses are getting in their fall stock and are beginning to decorate their windows with new seasonal merchandise.

I got a look at the High School Annuals this week and wish to say the annual staff did a good job on the publication. It was very well prepared and the school year was thoroughly covered. The photography was excellent. Delbert Capps did a fine job on the pictures.

The cool front coming in is trying to bring us some rain. We can sure use a shower. No matter how much rain we get it doesn't take long for the old sun to dry things up.

Lake Leon Laws Revised for '59

At a recent meeting of the board of directors of the Eastland County Water Supply District, some of the rules and regulations governing recreation on the lake were modified and revised.

The Laws, Rules and Regulations that were put into effect July 12, 1955 were revised as follows:

Article X, Section 8
No person, person, firm or corporation shall hunt, fish, or have, use, operate, or maintain a craft or boat in or on the waters of Lake Leon without having first procured a recreation license from the District. Fees for said recreation license shall be: Annual individual permit, including wife, \$5; Daily permit, individual, 50c.

No fee shall be charged for children under 17 years of age. Daily permits shall be considered to be in effect from midnight to midnight. Annual permits shall be

Restrictions Reviewed On Child Labor Law

Part Time Work
Federal child-labor law does not prevent students from earning money in part-time jobs, it was explained in Dallas today by Regional Director William J. Rogers of the U. S. Department of Labor's Wage and Hour and Public Contracts Divisions.

Stressing the importance of finishing high school, Rogers said that earnings from part-time jobs may enable some students to return to school who otherwise might not be able to do so.

"Teen-agers can earn while they learn, if they observe the

guide-lines set by the Federal child labor law," he emphasized.

Most jobs under the Fair Labor Standards Act—the Federal child-labor law—may be done by 16-year-old students, he said. Students who are 14 and 15 years old may be employed in some jobs, including sales, office and custodial work, outside school hours.

"There are hours—restrictions on the employment of 14- and 15-year-olds," he added. "They may work no more than three hours a day on school days and 18 hours a week in school weeks."

On Saturdays and other days when there is no school, they may work up to eight hours a day. All their work must be done between the hours of seven in the morning and seven in the evening.

Rogers cautioned that some occupations, such as truck driver or helper, have been declared hazardous and require an 18-year age minimum under the Act.

Farm Work
Farmers who are hiring workers for harvesting fall crops were reminded today that the Fair Labor Standards Act sets a 16-year age minimum for the employment of children in agriculture during school hours.

The reminder came from Regional Director William J. Rogers of the U. S. Department of Labor's Wage and Hour and Public Contracts Divisions in Dallas, the agency which administers the law.

Rogers pointed out that children may lawfully work on farms before and after school hours or on weekends, but their place is in the classroom when school is in session in the school district where the child is currently living.

"The law protects the children of migratory workers as well as local children," he said. The only exception to the law is the child working exclusively for his parents or guardian.

An age certificate showing that the youngster is at least 16 is the best protection the farmer can have against inadvertent violation in Texas, these certificates are available as a public service from the Texas Employment Commission.

Rogers explained that the Federal child-labor law applies to farmers who engage in interstate commerce or ship their products directly or to firms who ship their farm or state line in their original form or as an ingredient of another product.

Teen-agers, their parents, and employers are urged to inquire for further information about the Federal child-labor law at the Divisions' local offices in Dallas, Houston, San Antonio, Ft. Worth, and El Paso.

Band Boosters To Meet Tuesday

The Band Booster Club plans to hold a meeting Tuesday, Aug. 11 at 7:30 p. m. at the Band Hall.

All Band Booster members are urged to be present at this meeting. Officers for the coming year will be elected.

The new band director Murry Allman will be at the meeting.

Officers for the past year are: C. F. Chesnut, president; Delbert Capps, vice president; Mrs. Delbert Capps, secretary; Mrs. T. R. Craig, treasurer, and Mrs. Homer Montgomery, reporter.

Mr. and Mrs. A. L. Stiles announced Wednesday that they had purchased the Bell's Young Modern Shop from Mr. and Mrs. Aaron Bell.

The Bells are planning to retire from business. They moved here in 1937 and opened Bell's Shoe Repair, four years later it was changed to a gift shop. Then in 1943 the Bell's Young Modern Shop was opened.

Stiles has operated a service station in Ranger from 1921 until November 1958, when he had to quit business for an operation.

Mrs. Stiles, who is now employed by the J. C. Penney Co. in Ranger, will continue to work there until Aug. 18, when she will take over the operation of the new business which will be called Stiles Youth Shop. The Stiles plan to continue to handle the same type merchandise as Bell's, but plan to increase the stock for the fall season.

Bobby Burleson Is Promoted to Army Captain

PORT SAM HOUSTON.—Bobby R. Burleson, 1756 Austin Highway, San Antonio, is a Captain instead of a lieutenant. The captain rank replaced the first lieutenant rank in a short surprise ceremony at Headquarters Fort Sam Houston recently.

Col. Henry F. Taylor, Fort Sam Houston commander pinned the captain insignia on the Fort Sam Houston Golf Club officer in the presence of his wife, Leona, and daughter, Jerrill Lynn.

The 28-year old native of De Leon, who entered the U. S. Army in 1951, was not aware of the Army promotion when ordered to report to the Post Commander.

Capt. Burleson's parents, Mr. and Mrs. W. R. Burleson, Box 934, make their home in Desdemona.

Brawner Files Receives Expert Mechanic Badge

GOPPINGEN, Germany.—Army Cpl. Brawner L. Files, 23, son of Mr. and Mrs. Aubrey C. Files, Route 1, Gorman, recently received an expert mechanic badge while serving with Company A of the 4th Armored Division's 4th Quartermaster Battalion in Goppingen, Germany.

Corporal Files entered the Army in February 1957 and arrived in Europe the following November.

He is a 1954 graduate of Gorman High School and was employed by Beck Construction Company in Odessa, before entering the Army.

Police Chief Don Butler reported that the Abilene officer removed the girl from the hospital Friday morning to continue to Gainsville, County Sheriff J. B. Williams is directing the search for the girl that escaped into the woods north of the Ranger Hill Cafe.

SUNDAY DEVOTIONAL

By Lively Brown
Pastor First Methodist Church

Most every individual at some time asks the question, "What does the future hold in store? What can I make out of myself?" Many of you are wondering what to do with your life, which direction to follow and what principles by which you will be guided. Whatever you do, be determined you are going to make a success for the world is filled with failures.

Your worst enemy will be yourself. If you learn to conquer yourself you can conquer the world's problems. An old negro preacher expressed a truth when he said, "There are three rules to success. Take hold, hold on and don't let go."

The kind of life you will lead, the happiness which you obtain will be determined by a major decision. For this major decision will affect all your minor decisions. What do you believe about God? What place have you given him in your life? If God is real what kind of a person would he have us be? Most people think:

Happy are the pushers for they get on in the world.
Happy are the hard boiled for they never let life hurt them.
Happy are they who complain; for they get their own way in the end.
Happy are the unconcerned; for they never worry over their sins.

Happy are the slaves for they get results.
Happy are the knowledgeable men of the world for they know their way around.
Happy are the troublemakers; for people have to take notice of them.
Yet one that the world respects said:
Happy are they who realize their spiritual poverty, for they have already entered into the kingdom of reality.
Happy are they who bear their share of the world's pain; in the long run they will know more happiness than those who avoid it.
Happy are they who accept life and their own limitations; they will find more in life than anybody.
Happy are those who long to be truly good; they will fully realize their ambitions.
Happy are those who are ready to make allowances and forgive; they will know the love of God.
Happy are those who help others to live together; they will be known to be doing God's work.
So whatever you do in life, do it with the determination to make a success. But enter it with God as your partner, as your counselor and friend. Take Jesus Christ as your personal Saviour and let Him be the example for your life. In following him you will become your own true self.

Happy are the unconcerned; for they never worry over their sins.

Students Enlisted To Aid Traffic Safety Program

WASHINGTON — Announcement of a National Student Traffic Safety Conference, designed to enlist the aid of high school students all over the nation in an all-out war against traffic accidents, was made here today by the National Education Association Commission on Safety Education.

This new approach to the problem of traffic safety, says the Commission, is made possible by a grant from The Firestone Tire and Rubber Co. of Akron, Ohio.

High school students, two from each state, including Hawaii and Alaska, have been invited to meet in Kansas City, Aug. 30—Sept. 2, to devise a plan of action they can put into effect in their own schools and communities to help cut down traffic accidents and aid in the development of proper driving attitudes.

"We at Firestone have been increasingly concerned with America's growing 'traffic' problem," said Raymond C. Firestone, president of the tire company financing the Student Safety Program. "It is our opinion that the ultimate solution to this problem which is claiming up to 40,000 lives each year is in our youth."

"We have every confidence that the youngsters of America with the proper guidance can make an invaluable contribution to highway safety and that is why we enthusiastically are supporting a program for youth that properly originates in our schools under the supervision of qualified educators."

To date, says the Commission, school, community, and in some cases, state-wide groups of teenagers have been organized to combat the increasing toll of traffic accidents among themselves and others. The efforts of these groups have in the past been weakened by lack of a plan which would permit these youngsters to join forces with other student groups to compare notes on what they have learned by experience in their respective communities.

Student delegates, with the help of professional traffic safety specialists, plan to map out an action program to include groups already organized and as many more high school students as possible.

Hot Facts May Cool You!

Temperatures have looked more like summer in the past few days, but despite the fact that the mercury is rising, this has still been a cool summer.

As of Friday morning, only one day with 100 degree weather or above had been recorded. That was June 29, when a reading of 102 was registered on the official United States weather thermometer.

So far the temperature readings in August have ranged in the upper 90's, but no 100 degree days have been recorded here. Last August 10 of the first 12 days of the month were 100 or above, and the other two days had highs of 99 degrees.

Other parts of the state have started getting those 100 degree plus days, however, so don't unplug that air conditioner.

Mrs. G. I. Tucker Killed Aug. 1

Mrs. G. I. Tucker, 79, mother of John Tucker of Ranger, was killed in an automobile accident Sunday, Aug. 1, eight miles from Stephenville.

Her daughter and husband were injured in the accident, and were taken to the Stephenville Hospital where they were released Wednesday.

Burial was held in the Dublin Cemetery where her husband and son are buried.

Mrs. Tucker is survived by nine children which were all present for the services.

July was, quite unusually, a sub-100 degree month all the way. The average high during the month was in the low 80's. Heavy rains during June and July helped keep the mercury readings down.

So far the temperature readings in August have ranged in the upper 90's, but no 100 degree days have been recorded here. Last August 10 of the first 12 days of the month were 100 or above, and the other two days had highs of 99 degrees.

Police Department Collects \$134 Fines

Don Butler, Chief of Police, reports that the department took in \$134 in fines the past week.

The fines included traffic violations, running stop signs, driving without licenses and speeding.

Fines were also assessed against individuals for drunkenness.

Fire Dept. Answers Olden Call

The Ranger Fire Department answered a fire call in Olden at 4:20 p. m. Thursday.

The Fire Department was called out to Olden to a garage fire which completely destroyed Out Hunt's garage. They arrived in time to save the house which was in danger of catching fire from the garage.

The garage caught from a grass fire which had got out of control.

RETURN FROM TRIP
Mr. and Mrs. Jack Littlefield of Jal, New Mexico, Mr. and Mrs. Charles Burns of Dimmit, Texas, and Mr. and Mrs. Onis Littlefield of Ranger, returned home Thursday evening from a fishing trip to Corpus Christi. The party brought back over 100 pounds of deep sea fish.

They also visited in Padre Island, Aransas Pass, Port Aransas, and Austin.

8 Scholarships Presented To Ranger College

Eight scholarships have been presented to the music department of Ranger College. Each sponsor is well known in Ranger for their work in civic affairs.

The sponsors of the Scholarships are: Calvin Brown of the Ranger Lumber & Supply Co. He has presented other scholarships to the College and is a loyal backer of all College activity.

Mr. and Mrs. J. A. Bates—He is Field Supervisor for Lone Star Gas Company and former president of the Board of Regents of the College. Mrs. Bates is very active in civic affairs.

Mr. and Mrs. Arthur Deffebach—He is Supervisor of the Lone Star Gas Company Garage. Mrs. Deffebach is a member of the Ranger High School Faculty.

Miss Marjorie Maddocks of the C. E. Maddocks Insurance and Real Estate Company—Miss Maddocks is a member of the Board of Regents and an ex-student of Ranger College.

Mr. and Mrs. Morris Newnam of the Ranger Frozen Food Center—He is a former president of the Board of Regents. Mrs. Newnam is interested in the fine arts and is a dancing instructor.

Mrs. Francis Jamison—Hostess of the girls dormitory and a graduate of Ranger College.

Mr. and Mrs. David D. Pickrell—Pickrell is Superintendent of the Premier Oil & Refining Company, and the present president of the Board of Regents. Mrs. Pickrell is an accomplished violinist.

The Ranger Lions Club—Lester Crossley, president of the Lions Club, announced the presentation of the scholarship to the College.

These are all unrestricted scholarships and students receiving the scholarship will be left to the discretion of the Music Department of Ranger College. Awards will be based on need and ability.

Band Practice Set for Monday

Murry Allman, new band director for Ranger High School, announced that band rehearsals will begin on Monday, Aug. 10 at 10 a. m. in the band hall. Another rehearsal is scheduled for Thursday, Aug. 13 at 10 a. m.

The following week, rehearsals will be held at 10 a. m. daily.

Drum Majorets will be selected during the band rehearsal. Majorette try-outs will be held at 8 a. m. Aug. 21.

Texas may have yielded to Alaska as being the largest state in the Union, but I'm happy to see it is retaining its status as first in a lot of other things.

Two new "firsts" for Texas and the Nation — are included in legislation approved yesterday by the Senate. This bill must now go to conference committee where differences between the House and Senate versions will be ironed out. But I thought you might be interested in what the bill now provides.

There are two new projects. Both are of vast national importance. One provides for construction of a saline water conversion plant at Freeport. The other project calls for construction of a jet-type civil defense shelter at Denton.

The Freeport project may offer this Nation the first break-through in man's fight to take the salt out of sea water. That's what the scientists hope to achieve at an economical cost.

Think what this could mean for the future. New jobs, increased prosperity, a better life would be waiting. Agriculture, industry, all of us would benefit. And this is

would come about through use of resources now being wasted.

Approval by the Senate of the Denton project means we're facing up to the destructive realities of atomic war. This program calls for construction at Denton of a regional defense center. This would be a test project. Lessons learned here would be applied in later construction of seven similar regional centers.

All of this takes money. In addition to these projects, the Senate approved other programs having statewide or national importance. These include funds for the Texas River Basin Study Commission, for the Federal agency that enforces mandatory controls on oil imports, for flood protection on the Rio Grande, and housing for staff people at Falcon Dam.

But this is not spending being piled on top of the President's budget. Unessential projects have been slashed to provide money for the vital needs. And when the Congress completes this session, the final figures on appropriations will be hundreds of millions less than the Administration recommended. Of that, I'm confident.

So far the temperature readings in August have ranged in the upper 90's, but no 100 degree days have been recorded here. Last August 10 of the first 12 days of the month were 100 or above, and the other two days had highs of 99 degrees.

Always Call Your Doctor—

. . . if you are sick, but call your doctor if you are about to buy a farm, ranch or city property for a check-up on the title. The doctor has the right prescription to cure most any kind of physical ailment, but there is only one prescription for the land title and that's the abstract. You wouldn't buy a sick horse, would you? Then why take on a sick title?

Christian Science

How spiritual understanding of God heals sickness as well as sin will be brought out at Christian Science services Sunday.
"Spirit" is the subject of the Lesson-Sermon.
Readings from the King James Version of the Bible will include Christ Jesus' promise (John 14:12): "Verily, verily, I say unto you, He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father."
From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following will be read (316:7): "Christ, Truth, was demonstrated through Jesus to effects upon the human mind and body, healing sickness and destroying sin."

NEWS FROM DESHEMONA

The Bible Baptist Church is having a summer revival with Rev. Johnnie Burleson doing the preaching. Everyone is invited to attend.

LET YOUR YEA BE YEA!

Our Saviour during his personal ministry taught the importance of clean speech. Included with this instruction was the matter of not being guilty of calling on heavenly beings, the earth, or some other powers to attest to your assertions or statements. Christ warned his disciples not to swear by any power, not even by their own head, "because thou canst not make one hair white or black." (Matt. 5:33-36).

Every person's word should be his bond. When we agree to something, or to some stipulations, we should let our word be our guarantee of fulfillment. There should be no necessity to call on God, the angels, other entities, earth, or anything else to back up our words.

In the wicked and deceitful society in which we live, we are called upon to sign agreements, contracts, in which the parties of the contract are given certain amount of protection from malicious default. This is good and proper. But how refreshing it is to see a man whose Yea is Yea, and Nay, Nay, a man whose word is his gold bond.

Students—

(Continued from Page One) school students throughout the country as possible.

Primary goal of the conference, Safety Commission officials point out, is to encourage students to chart a program "initiated by young people for young people" which will help them make their contribution to traffic safety as a fully responsible citizen group.

Students—

Driver and safety education courses in the schools, says the Commission, have produced excellent results in cutting down traffic accidents among youngsters, but many hundreds of thousands of boys and girls are not yet included in such programs.

Each local church should have an adult sponsor for every seven young people attending. Ages 13 through young people age are invited; the cost is \$6.50.

Hearings on Bow Season to be Held

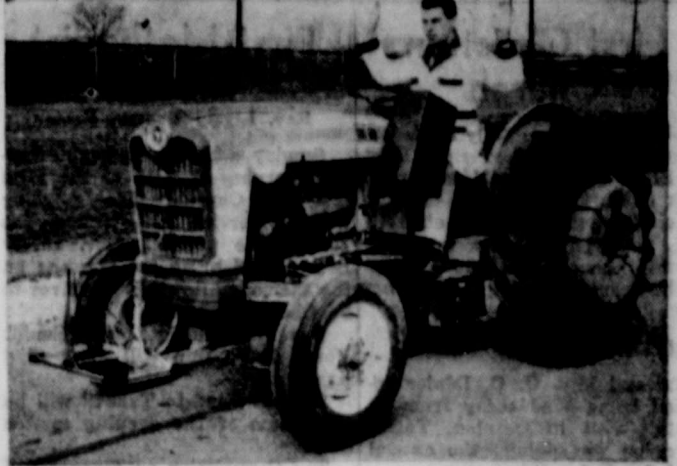

AUSTIN — Bow and arrow hunters will have an opportunity to pass on recommendations on their proposed pre-season hunt this year to the Game and Fish Commission, it has been announced by the executive secretary.

These hearings affect only the counties under regulatory authority. Although the act calls for a 30 day pre-season hunting will be permitted in each county only for a duration equivalent to the regular open season. This means if the regular deer hunting season is only 10 days, then the pre-season

Hearings on Bow Season to be Held

hunt can be for only 10 days. Three counties in Texas, Parker, Wise and Jack, are limited in their hunting to local residents only. This limitation was placed in the bill by local representatives.

In other counties covered by the general laws it will not be necessary to hold hearings.

"SNIFFER" TRACTOR—Endurance tests are necessary for future space travelers but they're needlessly fatiguing for tractor test drivers. This electronically guided "sniffer tractor" is used at a Ford Motor Co. test site in Birmingham, Mich.

Drownings Increase In Rural Areas

COLLEGE STATION — The purpose of swimming and boating is to have fun and relaxation, not to drown yourself as over 1100 rural residents of the U. S. do every year.

The large majority of these drownings could be prevented by observing simple safety rules, say Edwin H. Cooper, extension wildlife specialist. When you are boating, observe ten simple precautions and come back alive—not much of a hindrance to your pleasure considering you have your life to lose.

Cooper lists ten rules for water safety. Always find out how many passengers a boat can safely carry, and never exceed this number. Always carry an extra paddle in the boat, in case one is broken or lost. Before leaving shore, be certain you ask an informed person about hazards in the lake or stream, such as location of swift water, whirlpools or hidden obstructions.

When using a motor, make sure it is the proper size or horsepower for your particular boat. Be as cautious when steering a boat as you would when steering a car, and learn and observe the rules of the water such as speed limits, yielding right of way and forbidden zones.

WE NEED MORE MONTHLY SAVINGS ACCOUNTS

and by this we mean more people who put in a certain sum each month like \$5.00, \$10.00, \$25.00 or any other amount. You will be surprised how quickly one of the monthly savings accounts will some day add up to \$1,000.00 or if you want to you do not necessarily have to put in the same amount each month nor do you have to pay in every month. You could start with \$5.00 or more and add to the account in any amount and it doesn't necessarily have to be the same amount each month or you can skip a month or two. On this kind of account your dividends at 4% per annum will be added to the principal each six months and remember you can always get your money at any time with no advance notice being necessary.

WHY DO WITHOUT A LITTLE LUXURY LIKE THIS... LET ALONE

THESE BIG CHEVY VIRTUES!

greater roominess

Automobile Manufacturers Association records carry the facts on this. In a Chevy sedan, for example, you've got more front seat head room than all but one of the high-priced cars! And Chevy's front seat hip room spreads up to 5.9 inches wider than comparable cars.

bigger savings

Here's solid proof that Chevrolet squeezes more miles out of a gallon: In the famous Mobilgas Economy Run, two Chevrolet sixes with Powerglide took the first two places in their class, winning mileage: 22.38 m.p.g. And that, friends, took top honors for Chevy from every full-sized car!

full coil ride

You're the expert on ride, so you'll want to try Chevy's easygoing smoothness for yourself. MOTOR TREND magazine can give you a hint of what you're in for: "... the smoothest, most quiet, softest riding car in its price class." And Full Coil springs, of course, never squeak, never need grease.

bigger brakes

Bigger, yes, and built with bonded linings for as much as 66% longer life. And how's this for proof that Chevy's a real stopper: in a NAS-CAR*-conducted test of repeated stops from highway speeds, Chevrolet outstayed both of the "other two" time after time.

*National Association for Stock Car Advancement and Research.

award-winning engines

The NASCAR Outstanding Achievement award goes to Chevrolet! Chevy wins for "the creation and continuing development of America's most efficient V-type engines... for the establishment of new levels of V8 compactness combined with outstanding smoothness." And you can choose among eight V8's and the Six that won the Mobilgas Economy Run for its class.

fresh styling

POPULAR SCIENCE magazine gave Chevy's styling a thoughtful look, then said it this way: "In its price class, Chevy establishes a new high in daring styling..." You'll find your own happy way of saying that Chevy's the only unmistakably modern car in its class.

higher trade-in

N.A.D.A.* Guide Books prove that your Chevrolet will keep its value. Chevy used car prices last year, for example, averaged up to \$128 higher than comparable models of the other two cars in Chevrolet's field.

*National Automobile Dealers Association.
