lew 3% interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

0: How does the new 33/4% interest rate benefit me? A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds

mature in just 7 years, 9 months, With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to 212% for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959. Q: Does the new rate change the Bonds I bought be-

fore June 1, 1959? A: All older E and H Bonds pay more now—an extra 1/2% from now on, when held to maturity. The in-

crease takes effect in the first full interest period after June 1. Q: Will the Bonds I own automatically earn their new

rate? A: Yes. You don't need to do a thing-just hold on to

your Bonds, Q: When my E Bonds mature, will they keep on earn-

ing interest? A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones? A: No. The automatic 1/2% increase makes it unnec-

essary—and in almost every case it is to your advan-tage to retain your present Bonds. Q: How are series H Bonds different from series E

Bonds? A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury check every six months for the life of the Bon-You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

0: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds? A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it

Q: What if my Bonds should be lost, stolen et de-

utes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

"SERVES YOU FIRST"

You have a nice family, but that doesn't mean you may not wake up some morning facing a damage suit for thousands of dollars, for something your family has done.

Your child may hurt somebody with his bicycle. You may hit somebody with a golf ball. Your dog may bite somebody. Somebody may trip on your steps and break a leg.

For \$10 a year we can pro-tect you against many kinds of lawsuits up to \$10,000* with an America Fore Family Legal Liability Policy. It even pays medical fees up to \$250 for non-family injuries even if you are not legally liable. Ask us.

You can get higher limits if you want them.
