## As I See Ranger

By Gene Townsend

It is still a little warm for jackets (although the recent showers cool the weather off a little) but never the less there will probably be some jackets worn for the next few days. The Band students are scheduled to get their Band Jackets tonight. It seems to be a little late for them to be receiving their last year's jacket now, but they will have one consolation, they will get to wear them this fall while they are still relatively new.

Teddie's band, I don't know what else to call them unless it would be the Change Abouts, will get their big opportunity this weekend. This is the weekend that they are scheduled to go to Dallas to record for Dot Records. The Band, formerly called the Teddie Bear, had to change their name due to a professional band adopting that name. They changed to Casuals, and now they have found out that another band is called the Casuals. Now they will have to change their name again. Does anybody have any suggestions that are original? Here's wishing them luck on their recording.

D. C. Arterburn reports that the Methodist Youth Week is really going good at the Methodist Church. They are having supper at 6 p.m. each evening and then Billy Don Turner, a young preacher from Eastland is bringing the nightly message. The Youth Week, which started Monday evening, will continue through this week, and Arterburn said that all area young people between the ages of 12 and 23 are invited to attend the activities.

Anyone looking for a puppy can probably get one at Coach Harold Prescott's. I understand that he has a couple that he would like to give away.

Maybe we have been on the wrong track about the weather situation. Last year—about this time Eastland sponsored a donkey ballgame, and on the night that the game was scheduled, there came a nice rain. They had another donkey ballgame scheduled for last Tuesday night and sure enough we had a nice shower. Maybe we should try to get them to sponsor more donkey ball games during the dry months.

Golf fans will remember back when Ranger had a golf course that each year when their tournament date rolled around the rains usually came right along with it.

And of course there is always the car-washing rainmaker. Wash your car and we will surely have rain.

Rapidly approaching, I am going to start with a football team booster idea again. I may be a little hard headed, but when I can see something that would help our schools, I am not going to give up on the idea. A club of some type that would get behind our coaches and our

## Ronald Jacoby To Participate In Air-Drop

Army Pvt. Ronald L. Jacoby, 18, son of Mrs. Bonita Sue Jacoby, 1004 Berry Dr., Hobbs, N. M., is scheduled to participate with other personnel from the 101st Airborne Division in Exercise Bright Star at Fort Bragg, N. C., Aug. 13-28.

A massive airborne assault involving 30,000 troops is scheduled as one phase of the Strategic Army Corps (STRAC) air exercise. This single-day mass air-drop will surpass in numbers any similar drop during World War II and the Korean War.

STRAC's XVIII Airborne Corps the 82d and 101st Airborne Divisions and selected support units will participate in the maneuver. STRAC constantly maintains an immediate-readiness force for airborne deployment to any area in the world.

Jacoby, a mortar gunner in Company A of the division's 329th Infantry at Fort Campbell, Ky., is assigned the rank of a U. S. Army expeditionary force member in an assault on a simulated aggressor force.

He completed basic training at Fort Chaffee, Ark. A former student at Ranger High School, Jacoby worked for the Foremost Milk Co. in Hobbs, N. M., before entering the Army.

His father, Lefoy Jacoby, lives in Ranger.

FARM BUREAU ROYALTY—JUDY SITTON, 11-year-old daughter of Mr. and Mrs. J. W. ## Four New Families Call Ranger Home

rightful owner who probably thinks that you have lost it or put it in the stew as you have kept it so long!

Sit down in front of a mirror and fix your hair this way, and that way. You might even like it the new way. (This is not for me.) Arch your eyebrows, fix your nails!

I cut toe nails better on these nights than at any other time as I am never in a hurry, not going any place, so take my time, and don't cut them too short. In the hour or two, you got it—Insomnia.

Get up. Some times your body has had all the rest it needs so why in the world do you just lay there like a bump on a log and wear your rested body into utter exhaustion? Get out of bed and do something, don't just lay there and any "What in the world can I do at 3 a.m.?"

You can bake that cake you wanted to bake but was too pooped to bake yesterday. It will be a nice surprise for the family for a breakfast treat or maybe it will give a friend a lift as a friendly gift!

That book you borrowed to read, in just a few days, can be finished and then returned to its shelf.

Cutting out a garment to sew later is good. Unless you have a "special" place to sew, the material has to be moved three times at least! At this time the house is quiet, your mind is clear, the pattern will just automatically unfold its secrets, and, in no time at all, you have the garment ready to be basted!

Water the pot plants. If the leaves need washing, don't just stand there; go ahead and wash them.

Write those letters that you have owed for so very, very long. The recipient will be grateful that you had a night of "insomnia."

Christmas cards (oh my—it's sooner than you think) are especially much easier to do in the "wee" hours. If your card list is like mine all the addresses are on a dozen or so pieces of paper. With a clear mind you can copy the names so much easier and at this hour no one will break into your thoughts!

I have cut a "million" paper dolls for our "dolls" when they are too young to do them. If you organize a child you will do something, then do it even if it's after yours that you get it done.

From paper doll cutting, you can get some wonderful ideas for your small fry. The top like one, the bottom like the other!

Sherry, our granddaughter, used to climb out of bed, go to the kitchen and play by the light of the hot water heater! The next morning she would sleep late. Now I do not recommend this to any but she did it, just the same.

There is one thing that I will not do while in a state of sleeplessness and that is "iron." The very word makes me have a nervous fit and can send my blood pressure to the sky.

I am one of those feeble minded people that has to be tied to the ironing board, and then just for 12 pieces at a time. It takes me all week to do the family ironing. To be honest I (and wouldn't you like to be) the person responsible for "ragged clothes in the first place?

I learned to ride a "bike" (after my dolls were in high school) in the "wee" hours as I was ashamed a lot people know that I was so weak—old hands, feet and no balance).

These officers will be installed Sunday evening, Aug. 28.

## County Social Security Payments Now Total Million and Half Dollars

Social Security is pumping a lot of money into Eastland County, as well as "sinking" it out. That's what a report issued this week by H. L. Weatherly, field representative from the Abilene office, shows.

Weatherly said there are now 2,718 persons receiving benefits in Eastland County. Those 2,718 persons receive a monthly income of \$143.24 or over a million and a half dollars annually. That represents almost a fifth of the county's population.

Weatherly said the facts in revealing that Sunday will mark the 23rd anniversary of the original Social Security act.

He gave the following sketch of the history of the old-age, survivors, and disability insurance provisions of the Act: 1935 and 1936 were used to plan operations. Jan. 1, 1937, the Act became effective, with first social security

deductions for retirement benefits made from wages and matched by employees. Aug. 1, 1939, Amendments added dependents of wage earners, retired or deceased, Jan. 1, 1940, first monthly benefits payable two years earlier than originally planned. Aug. 1946, first military service credits provided Jan. 1951, first coverage for any self-employed person (most professionals self-employed excluded) for full-time farm and household employees, for state and local government employees and employees of non-profit organizations (an additional deduction for retirement benefits made from wages and matched by employees). Aug. 1950, first disability freeze provisions, Jan. 1, 1954, coverage extended to all self-employed persons except doctors of medicine. Nov. 1956, first payments to women age 62 (actuarially reduced for wives and women

## ACCIDENTALLY ELECTROCUTED

## Final Rites Held For A. R. Mayers

Funeral services for Arthur Rosten Mayers, 49, who was accidentally electrocuted at about 10:30 a.m. Tuesday near Cisco, were held Thursday morning in the Harmony Baptist Church in Morton Valley.

Mr. Mayers, a resident of Morton Valley for the past 12 years, had been an employee of Brown Construction Co. for some 19 years.

Mr. Mayers was dead on arrival at Graham Hospital in Cisco at about 11 a.m. Tuesday.

At the time of the mishap he was working on the highway construction job near the Presbyterian Encampment, three miles north of Cisco. A crusher foreman, he was operating a crane that was being used to drill holes in rock for blasting.

Somehow the machine hit a telephone line and part of wires wrapped around it. Mr. Mayers apparently did not realize that a 2,400-volt electric line also was wrapped up in the machine. He attempted to remove the wire from the crane when he was electrocuted.

Artificial respiration was given to the victim for sometime by workmen including the man's 19-year-old son, Clarence Wojski, believed Mr. Mayers showed signs of reviving until they decided to rush him to the hospital. A highway patrol car cleared traffic, but Mr. Mayers was pronounced dead on arrival at the hospital.

Survivors include his wife, who operates a store across from Eastland High School; a son, Clarence of Eastland; two daughters, Joyce of Eastland and Mrs. D. T. Hudson of New Castle; his mother, Mrs. Winnie Mayers of Abilene; and three sisters, Mrs. Alvin Grigsby and Miss Mary Mayers, both of Abilene, and Mrs. L. R. Williams of Crane.

Burial was in Strawn Cemetery under direction of Hammer Funeral Home.

## I GIVE YOU TEXAS

By Boyce House

To seek or not to seek the gold of Pete the Hermit? That was my problem.

Stationed in Fort Worth was a detachment of Texas Rangers and the captain was a friend of mine. So I consulted him and he said, "There's one way to find out if there really is a treasure or if it is a practical joke and that is to go out there. If you want to go, I'll go with you—and if anybody springs anything, we will see who gets surprised."

But I was working that day and then we had a spell of unfavorable weather; then the paper sent me out of town to cover the campaign of a candidate for governor and the whole matter faded from my mind.

About two years later, in clearing out my desk at the office, I came across the bulky envelope with the letter and the map. I had never received a second communication and surely I would have if the story was genuine for the man in Philadelphia would have grown impatient and would have written to urge me to act or ask when I was going to send him his two-thirds of the \$13,000.

I walked to the city editor's desk in the center of the big news room the better to view the logical suspects, my colleagues. My eye (actually, both eyes, but that's the way writers write) fell upon a fellow reporter, E. D. Alexander, a solemn-faced individual who was known for his practical jokes. (Incidentally, we worked side-by-side as his desk was next to mine.)

Marching to his place where he was ponding away on the typewriter, I slammed the letter down and demanded, "What do you know about this?"

He looked up and said, "So you did get it?"

For two years he had wondered (Continued on Page Seven).

### LBJ And Texas Delegation Visit John Kennedy

Hello Fellow Americans:  
 Lady Bird and I have just come back to the ranch from three of the most exciting days of our lives and we want to share some of our experiences with you:

Aboard the plane that carried us almost 5,000 miles were thirty-eight of our friends from Texas newspapers, radio stations and television stations. Twelve of these people represented weekly papers. You would have been proud of the way they spread Texas good will everywhere we traveled.

The big turbo-prop Viscount set us down first in Kansas City. I had lunch there with the Grand Old Man of the Democratic Party—Harry Truman. He's lost none of the fire and steel of his soul that made him one of our most

colorful—and decisive—President.

Someone asked Mr. Truman what he thought of the Democratic ticket. "It's a winner for sure," he said. "What did you think of the Republican convention, Mr. President?" another reporter asked.

"Worst in history," Mr. Truman replied.

The outreach of Hurricane BRENDA delayed our arrival in Hyannis, Massachusetts for my conference with Senator Kennedy. The pilots—Captain Reuben Cage, of Blanco, Texas and First Officer Jerry Dickson, of El Paso—who became the father of a new baby girl during the trip—brought us in for a perfect instrument landing when the visibility was only 175 feet.

It was a good—and productive—trip. Three tangible results came out of it.

1) Senator Kennedy spelled out once and for all his convictions that the next Vice President will play a decisive role in Government affairs.

This is what he said in his press conference:

"We are very fortunate to have Senator Johnson's assistance in carrying out the program. If we believe Congress will enact during the remaining weeks of the session, the coming campaign (Senator Kennedy accepted my invitation to come to Texas), and we also compared grey hairs. After the young men had gone to bed, I stayed up and worked until 3:30 a.m.

Lady Bird "took" to the Kennedys' home. It is a large, comfortable, pleasant house on Cape Cod. Jacqueline has furnished it with early American antiques and I almost didn't get Lady Bird away from her inspection tour in time for the press conference.

Before we left Saturday, Senator Kennedy and Jackie came aboard our press bus and told our folks how happy they were that Texas had sent such a fine group of men and women along on the trip.

Saturday afternoon we were in Nashville, Tennessee where we were guests of Governor and Mrs. Buford Ellington.

I spoke that night to a Democratic rally of ten thousand people and when Governor Ellington introduced me, he had to send State Troopers out into the crowd to ask the folks to stop applauding. Governor Ellington told me that Tennessee hadn't seen a turnout like that in a long, long time.

Every Southern state was represented and the Governors of Florida, North Carolina, Alabama, Virginia and Kentucky predicted a sweeping victory in November.

More than ten thousand people waited under the hot sun in Monticello, Iowa when we arrived there Sunday afternoon. Their

**Social Security  
Has 25th Birthday  
On Aug. 4, 1960**

The Eastland Telegram was reminded this week by H. L. Weatherly, field representative from the Abilene Social Security office that August 14 marks the 25th anniversary of the original Social Security Act. For the past quarter of a century social security has been serving American families.

We give the following sketch of the history of the old-age, survivors, and disability insurance provisions of the acts of 1935 and 1936 were used to plan operations. On Jan. 1, 1937, the Act became effective, with first social security deductions for retirement benefits made from wages and matched by employers. Aug. 1939, Amendments added dependents of wage-earners, retired or deceased. Jan. 1940, first monthly benefits payable, two years earlier than originally planned. Aug. 1946, first military service credits provided. Jan. 1951, first coverage for any self-employed person (most professional self-employed excluded); for full time farm and household employees, for state and local governments and employees of non-profit organizations (on optional basis).

Jan. 1955, coverage began for farmers, for part-time farm and household workers; first disability freeze provisions. Jan. 1956, coverage extended to all self-employed persons except doctors of medicine. Nov. 1956, first payments to women age 62 (actuarially reduced for wives and women workers, no reduction for widows). Jan. 1957, first payments to disabled adult children; military coverage on compulsory, contributory basis. July 1957, first disability coverage on compulsory, contributory basis. July 1957, first disability payments at age 50. Sept. 1958, benefits possible for dependents of disability beneficiaries; insured status requirements for disability somewhat liberalized.

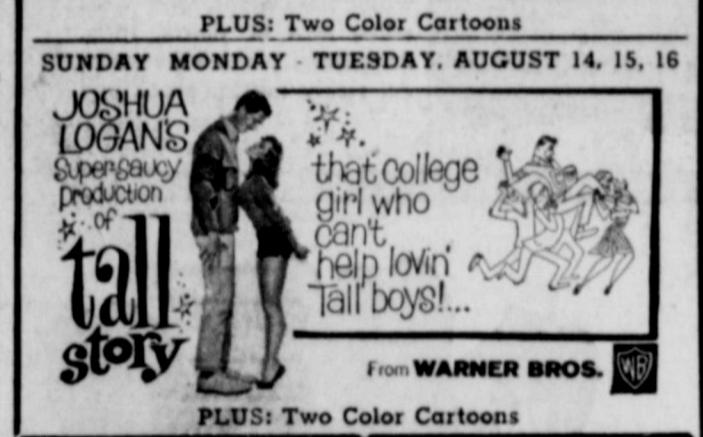

During the past 20 years the number of persons receiving benefits in Eastland County has reached 2,718, with a monthly income of \$143,247.00 or over 1½ million dollars per year.

**The Growth  
Of A Texas  
Industry**

Mrs. Ninnie L. Baird, who founded the nation's largest independent bakery operation, first learned the art of baking good bread as a girl in her native Tennessee.

Born May 23, 1869 near Trenton, Tennessee, she was orphaned at an early age. She was reared by an aunt who lived near Trenton. Under her aunt's direction, she learned of all the work and skill—and care—that goes into the baking of a good loaf of bread.

But it wasn't until years later—in 1908 to be exact—that these baking skills were to be put to work for her family and launch her on a career that was to make her name and her bread a household word in many parts of Texas.

It all came about this way:

At 17, she married W. A. Baird,

and shortly afterward they moved to Fort Worth, Texas, where they operated a restaurant for several years.

In those days, Mrs. Baird baked all the bread for her family. Often she baked more bread than she needed and took extra loaves to her neighbors as gifts. The neighbors liked her baking and soon asked for the privilege of buying her bread.

Then, when Mr. Baird became too ill to work, she recalled a question that neighbors had been asking for some time: "Mrs. Baird, can you spare an extra loaf of bread?"

She gathered her brood about her, assigned tasks, and made every day baking day.

The oldest son, Deward, 16, became first assistant baker to his mother, and the three younger boys, Hoyt, Roland, and C. B., became "route men", serving their routes on foot and carrying the piping hot bread in baskets. The eldest daughter, Bessie, was first assistant housekeeper, was charged with the responsibility of the younger girls, Lorine, Marjorie and Ruth.

The family gave no thought to naming the loaf, but their customers, by referring to it from the very first as "Mrs. Baird's Bread" gave it the name it has borne ever since.

After the death of Mr. Baird in 1912, the family did not falter.

"If we're going to get along, we've got to bake more," Mrs. Baird said.

From a hotel, Mrs. Baird purchased a second-hand, wood-burning commercial oven—capacity 40 loaves. The purchase price was seventy-five dollars—and Mrs. Baird paid twenty-five dollars in cash and the rest in bread and rolls.

One neighbor told another about "Mrs. Baird's" Bread and before long the demand became so great that the family had to expand its operation. A horse and delivery wagon were purchased and a little wooden building to house the baking plant was built in the back yard of the Baird home on Washington St.

But the demand continued to grow, and by the time of World War I, it was obvious that the little baking plant would have to be replaced if this demand was to be met. So Mrs. Baird and her family—the sons were grown by then—built their first real bakery and began selling bread through grocery stores.

Down through the years, the fame of Mrs. Baird and her bread has continued to spread throughout the length and breadth of Texas. Today, bakeries in Fort Worth, Dallas, Houston, Abilene, Victoria, Lubbock, Waco and Austin serve the greater part of Texas with Mrs. Baird's Bread, and a plant in Fort Worth is devoted exclusively to baking cakes.

It's still family operation—sons and grandsons not only manage the business operation but also directly supervise and control each day's baking. And the guiding force behind this giant operation is a white-haired, soft-spoken woman who over a half-century ago set out to bake the best loaf of bread she could—Mrs. Ninnie L. Baird.

### Insurance is as necessary as groceries

You don't dare to run a home or a business without insurance. The risks of financial loss are too great.

Sensible people don't go a single day without adequate insurance of several kinds. They know that, otherwise, they may be suddenly ruined by a fire, storm, burglary, accident or a damage suit.

They buy insurance almost before they buy meat and potatoes.

And insurance probably does not cost as much as you think. Consult us today as to what it will cost you to protect you against most possible financial losses in your home or business.

### Time to Sample Soil for Fall Crop Planting

Fall planting time is not too far away, and plans should be made now. Fertilizers and lime cost money, and guesswork on how much to apply is not very efficient farming. Dr. W. F. Bennett, extension soil chemist, says the only

way to eliminate this guessing is to have the soil tested.

The farmer must remember that soil samples are of very little value unless they truly represent the actual soil conditions of the field. Soil samples may be taken in several different ways, but Dr. Bennett says that anyone taking a sample must remember a few basic requirements. These include:

Take one sample from each uniform area in the field.

A representative sample may be obtained by taking a slice of soil 4 to 5 inches deep, and repeating this at 15 or 20 different places over the field.

Spade, soil augur, soil probe or garden trowel may be used to take a sample.

All of the small portions from a single field should be mixed and a composite sample taken and placed in a soil carton.

All blanks on the soil carton and information sheet should be filled out completely.

but he cut it anyway. Last night we heard a lecture which was made more interesting by playing records of Scottish ballads, poems and songs. A teacher from the University of Edinburgh spoke on "A Personal Anthology of Scots."

Last Sunday we saw the beautiful memorials to the Americans who were killed in 1941 to 1945. It is near Cambridge. The airfields, some are in cultivation again, from which our boys bombed Germany are near Cambridge. There are life-sized statues of a Marine, Soldier and Sailor. Crosses mark the graves, and the names and states from which they came are in raised letters on the wall. A United States flag is on a large decorative stand. We visited Cambridge University and Oxford.

In the guild hall 'n York there is an American flag over a memorial which reads, "To New York—God child of York."

The flowers are beautiful. Hydrangeas taller than I grow everywhere.

Before we left, we had parties with local people in Ireland, Wales, England and tonight in Scotland. Our group will divide tomorrow. Some are going on different tours and some are going home. We fly to Paris on the 7th. Allie Ray will join our group. I've met people from New York to California, as well as people over here. It is 1 a.m. here and I must go to bed.

 whether it had ever been received—but he could not ask without thereby revealing that he was the perpetrator or at least that he knew about it. We had a laugh and I told the others in the office and they were amused, too.

But that was not quite the end of the story of the treasure. The office boy ("copy boy" is the newspaper term) asked for the letter and the map as souvenirs. He took them home and one day, while he was at work, an older brother came across the documents. He did not know anything about the story and was so fascinated by the details that he went out to Mary's Creek and dug all day for the \$13,000 in gold (which had never existed), belonging to the late Pete, Ranger's hermit (who never existed, either). When the "copy boy" told him the facts that night, the man was very mad.

And that is my treasure experience.

Miss Linda Sue Boggus

## Miss Linda Sue Boggus To Say Vows With Earl Crutsinger

Mr. and Mrs. James H. Boggus, of Ranger High School and a June 1960 graduate of Fort Worth Drafting College.

The prospective bridegroom is a 1958 graduate of Arlington Heights High School and is currently enrolled in Arlington State College.

The story is related by Nordyke's son, Lewis, in "My Dad's Best Crop Was Music," the last article he wrote for the Post before his death a short while back.

He said, "I don't know whether this was the nation's first broadcast of entertainment, but it was certainly one of the pioneers. Moreover, with all the lines linked, we had a network. And it lengthened."

It is related that the Nordyke home kept ringing with requests for music until radio came in.

**Call MI 7-1101 for Classifieds****We Like To Talk About Abstracts—**

... because making abstracts has been our job for many years. And it's an interesting subject. Every day people come to us with their title problems. Some may be tragic. Take the example of the couple who have spent their all for a home to find out later they have no title. Most title problems are simple and the abstractor helps to make them simple. So before buying real estate better talk to us about the title.
