RANGER, TEXAS, TUESDAY, APRIL 25, 1961

### As / See Cancer Crusaders Ranger **Begin Campaign** By GENE TOWNSEND

Love those life jackets e Yarbrough was observed at Lake Leon Sunday, with his life jacket on and seemed to be very particular about wearing it. There is a story going around that Boone has good cause to be wearing a life jacket these days. We got the word that Boone and his fishing partner flipped their boat Saturday at Lake Leon. They were tied to a tree in about 18 feet of water when of them decided to lean over the side of the boat at the same time and the boat tipped over. It seems that fishermen, tackle and everything went over the side. Boone's tackle box caught on the side of the boat and didn't go down. They recov-ered most of their gear later.

We have a weather prediction of five more days of windy weather. It is getting to the point that

West Texas may apply to this part of the state. They say that when School, Fort Worth, participating. the wind starts blowing out there, A total of twenty hoys reporte that it won't quit blowing unil it for the first day's football wo rains and that it won't rain until the wind quits blowing.

There is a new type fishing being done here in Ranger. We won't call any names because it might be incriminating, but a certain party here in Ranger has started possum fishing. It seems that this party unloaded a perch trap in his garage a few days ago and Friday mornwhen he happened to go by the trap, he noticed that three small possums had crawled into the trap and couldn't get out. The next morning there was a fourth one caught in the trap. He said something about shoot-ing a squirrel out of a tree about the same time that he caught the possum. Wonder if he could be trapping squirrels too. By the way, the party goes by the nickname of "Leon".

At one time or another even one thinks that they realy ha troubles and have the hardest lu of anybody. Here is a hard luck story to top them all. It is a let ter in reply to a bill. Dear Sir

#### Learning the Lesson the Hard Way-

is not always a virtue, neither is it advisable. The person who buys a home or other real estate without first investigating the title is a perfect example of one who learns his lessons the hard way. True, he will learn better later, but too late for his own good. Any real estate that is worth buying is also worth the extra cost of an abstract, for upon the tile rests the value and security of every real estate investment.
