#### Learning the Lesson the Hard Way-

is not always a virtue, neither is it advisable. The person who buys a home or other real estate without first investigating the title is a perfect example of one who learns his lessons the hard way. True, he will learn better later, but too late for his own good. Any real estate that is worth buying is also worth the extra cost of an abstract, for upon the tile rests the value and security of every real estate investment.
