VFW NEWS

By GERALD BROADSTREET

Greetings Comrades,
This has been a most busy week for the VFW. I hardly know where to start.

★
WHEN YOU come out to the post home probably the first thing you'll notice is our new sign located where you turn off the highway to go north. This sign was made by one of our good Comrades, John Cline, and he donated the material and labor. John asked that this sign be counted as his donation to the "paving fund." Thanks a million, John, it is a very rugged and attractive sign and most certainly a worthy contribution to our organization.

Credit for painting the sign goes to my son Kimbell McRee. And my brother Harold did the fancy painting on the letters and applying the glitter background.

We had a big cleanup project this weekend and believe me everything was gone over with a fine tooth comb inside and outside. We are getting ready for the big convention this weekend.

Commander Charles Wilkerson and Post Custodian Howard Cook would like to extend a most grateful "Thank You" to all those who helped them this last Sunday. This includes: Don and Mildred Leinen, Polly Holland, Harry Smith, Herman Acker, Harold and Gary Broadstreet, Archie Bussey, Reese Kesler, Rev. Ed Manning, Beth Cook, Frankie Leinen, Auxiliary President Florene Leinen, my son Kimbell and me.

★
COMRADES, our carpet was stretched last week and this weekend it was given a very thorough shampooing. All the wood paneling was cleaned and waxed, not to mention the dance floor being scoured and given a new coat of wax.

If you have not made plans to be at our District 13 Convention Aug. 25 and 26, I hope you'll have a change of heart and try to be there.

It will be worth attending just to get one of the programs. In my opinion our programs are comparable to the ones for a state convention. Credit for this brainstorm goes to Charles Wilkerson and Florene Leinen. Members of the Ladies Auxiliary got out and sold ads to our good local merchants and then Jimmie Chapman at the Castro County News was responsible for composing, balancing, layout and printing.

As I've traveled in District 13 I have been promoting our convention and passing out programs. You can't imagine the fine compliments I've heard in regards to the program. Even our Department Quartermaster, Billie L. Dorris, sent me a letter praising our program for its appearance, information and contents.

★
COMRADES, I would like to mention a person who has been a big help to our post in many ways and he's not even a member here — Jimmie Chapman, who is a member of the VFW post in Littlefield. In fact the post, John Henry Chapman Post 4854, was named for Jimmie's brother who was killed in action.

Jimmie maintains his membership there in Littlefield but he is a walking example of "true comradeship" in promoting the VFW organization, its programs and ideas. We are

Cleo Guerra is home from a three-week vacation. She went by bus to New Orleans to visit her children Mandy and her husband Paul Cerda, sons Joel and Sonny and Grace and Joe. They showed her all the famous sights of New Orleans, Bourbon Street, St. Louis Cathedral, Jackson Square and others. She then took the bus down the Gulf Coast road to Corpus Christi where she met her husband Carlos. They toured that city, went on to Brownsville and out to Boca Chica on the beach.

real proud to have you among us Jimmie, and please keep up the good work.

★
LAST FRIDAY, the 17th, for Roundup Week the Castro County Activities Committee sponsored a 14-mile bicycle tour for area youngsters. Our VFW Post had the honor of conducting it. Members providing pickups for this event were Charles Wilkerson, Ted Stubblefield, John Roberts and Garnett Holland. Before the tour started all persons present were given a pamphlet with all the safety rules concerning bicycling.

The tour started at the Little League Ball Park with over 30 bicycles headed west. First stop was at Bruegel's farm for a soda pop break, then on to the feed yards where they turned north on 25 Mile Avenue. At the first Farm to Market road they turned east and ended up at the Castro County Country Club where they enjoyed a swim.

I might add the signs on the lead and rear vehicles warning motorists of a bicycle convoy were made by Harold Broadstreet.

Did you notice what a sharp looking Marine Corps color guard the parade had last Saturday? These men were from the Amarillo Recruiting Station and they were here appearing on our behalf. I think they did a mighty fine job and we're very grateful they came down. I talked with them and their families after the parade and they are real good people. Two of the men were members of the VFW Post 1475 in Amarillo.

★
SAY LADIES, I have an announcement to make. Florene Leinen, President of the Ladies Auxiliary, says if you pay your 1974 dues before Nov. 1, you can save 75 cents. After Nov. 1 the dues will go up to \$7.25, so pay now and save money. Florene reports the dues have been coming in real good but she would like to make quota before October.

Comrades, I've been doing a little traveling in District 13. Last Tuesday Gordon Fore, my brother Harold and I visited and inspected Silverton and on the way home we visited and inspected Tulia post. We sure did enjoy that trip.

Then Wednesday Harold and I inspected the Plainview post and had a good visit and supper with them. Thursday night we went to Hereford to inspect and see how they were getting along. Everything was fine and they will attend our convention in force, they too want to win the "Traveling Plaque."

Saturday I drove down to Paducah and had a nice long visit and I feel they are going to come through this year and be an active post once more. Anyway I hope so.

On my way home I stopped in Matador and encouraged them to attend our convention and I believe they will.

★
OH YES, Comrades, our regular monthly meeting has been moved up to Thursday, Aug. 30. The reason for this is because our normal meeting night is a holiday, Labor Day. Please make a note on your calendar so you won't forget. Remember starting time is 3 p.m. and only members will be admitted. That's all, see you at the convention this weekend.

MRS. MARK CLEAVINGER
... She's the former Sarita White

White - Cleavinger vows exchanged

Mr. and Mrs. Mark Cleavinger are now at home at 4207 Bowser Street in Dallas following their August 11th wedding in the Shiloh Terrace Baptist Church in Dallas.

The bride is the former Sarita Gayle White, daughter of Mr. and Mrs. Charlie M. White of Dimmitt. The groom is the son of Mr. and Mrs. M. E. Cleavinger of Dimmitt.

Given in marriage by her father the bride wore a gown fashioned of Cluny lace and voile lace with a high neckline in Venice lace. The highrise waistline was accented with a wide grosgrain sash tied in back to define the waist.

A tucked voile bib accented the bodice and the circular skirt extended to a full chapel train. The gown's hemline was outlined in Venice lace. Her three-tier elbow length veil

was attached to a matching Cluny lace Camelot cap.

Maid of honor was Elaine Ward of Dallas. James R. Wheeler was best man.

Rev. Franklin D. Pollard read the double ring vows.

The wedding reception was held at the North Park Inn.

The bride, a graduate of Dimmitt High School, attended West Texas State University. She is a member of the Delta Zeta sorority. She is a former Lions Club Sweetheart and the reigning "Miss Castro County."

Cleavinger is a graduate of Dimmitt High School and also attended West Texas State University. He is associated with General Mortgage Corporation of Texas.

On the Go

Mrs. C. L. Morris and Albe Mae Willis hosted a party one day recently in the Willis home for the 20 ladies who were hostesses for Mrs. Jerry Morris' bridal shower.

Here are week's best food buys

Stretch, extend and substitute are key words consumers should apply to meat items this week.

THIS ADVICE comes from Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service.

"Shortages in meat cases — plus higher prices — dictate restraint in meat buying.

"As a result, consumers rely on making the most efficient use of meat purchases — satisfying a family's meat hunger isn't easy these days."

The specialist recommended stretching available ground beef with bread, oatmeal, tapioca, ground carrots, mashed potatoes or cooked rice when preparing meatloaf.

"Or, for a delicious, unusual meatloaf, line the bottom of a pan with meat mixture, top with a layer of stuffing and another layer of meat."

ANOTHER technique for efficient use involves combining a small quantity of cooked meat with gravy or white sauce. Extend with vegetables — such as peas and carrots — and serve over toast, hot biscuits, rice, noodles or mashed potatoes.

"A smaller portion of meat served with pasta, bread, cheese, milk, eggs, yogurt, cottage cheese or cooked legumes provides enough nutrients to meet daily requirements of family members," Mrs. Clyatt emphasized.

This is also a good time to use other protein foods — such as peanuts, peanut butter, dry beans and peas, rice and macaroni products — as main dish items, the specialist contended.

"**CALL ON** fresh, frozen or canned fish as an economical stand-in for traditional meat," she added.

"Pork remains in short supply — with what's available priced relatively high.

In general, pork shoulder steaks, Boston butt roasts, ¼-loin cut into chops, liver and canned hams offer the best values."

Despite rising prices, eggs "hold their own" with most other protein foods, Mrs. Clyatt said. "Although in moderate supply, current price levels have tempered demand somewhat."

Turning to fresh fruits, she noted that moderate prices accompany heavy nectarine supplies.

"Generally, items in best supply at the most reasonable prices include cabbage, carrots, okra, dry yellow onions, squash, cucumbers, corn, cushaws, and rutabagas."

Mr. and Mrs. Gilbert Guzman announce the marriage of their daughter Nelda to Michael Zein of Oklahoma City.

THE VOWS were said at the First Baptist Church at 4 p.m. Rev. Randall Scott officiating at the single ring ceremony.

In order to assure adequate supplies for domestic and export markets, the Secretary has announced that there will be no government set-aside of land in 1974. The effect of this announcement will be to free farmers to go all-out to produce feed grains, soybeans, wheat and cotton. This announcement will also permit farmers to begin making plans for 1974 crops.

Effects of the 1974 Program Announcement:

A. There will be no set-aside of land in 1974 for feed grains, wheat or cotton.

B. The maintenance of an established conserving base will not be required as a condition of eligibility to receive price support or program payments. Exception: Conserving Use requirements will remain in effect for CAP agreements which are not terminated.

C. Producers with existing CAP Agreements which continue through 1974 and subsequent years will, at their option, have the opportunity to terminate

such agreements.

D. Grazing and haying will be permitted on CAP land if farmers choose not to terminate agreements but agree to accept a reasonable reduction in fees.

FARM STORAGE FACILITY LOANS

Eligible producers may obtain loans up to 85 percent of the net cost and construction of Farm Storage Facilities and Drying Equipment excluding the concrete work and electrical wiring. Interest rates on such loans are 6 percent per annum repayable in four or less annual installments. Interested producers should contact the ASCS Office.

1973 PRICE SUPPORT LOANS

Grain Sorghum — \$1.81 per Cwt.
Corn — \$1.14 per Bu.
Soybeans — \$2.14 per Bu.

Interest rates on commodity loans is 5½ percent per annum and will be calculated on a daily basis rather than monthly.

64th TAES Field Day set for Sept. 11 in Lubbock

The 64th Annual Field Day and Open House of the Texas Agricultural Experiment Station has been set for Sept. 11. A review of new developments in agricultural research on the South Plains will highlight the special occasion.

ANNOUNCEMENT of the upcoming field day activities was made by Dr. George McBee, resident director of the TAES, and Oliver Newton, meteorologist with the National Weather Service and field day committee chairman.

According to Newton, discussions and explanations of research work conducted by TAES and USDA-ARS scientists will be presented at 11 different field locations on the sprawling 320-acre site north of Lubbock.

"The field tours will begin at 1:00 p.m. and will include new research developments in cotton physiology, environmental effects on grain sorghum, cotton diseases, irrigation studies, cotton varieties, soil fertility, weed control, grain sorghum insect resistance, narrow-

row cotton, sorghum varieties and oil-seed crops."

Says Newton, "We have added several new field tours this year, and as an aid to visitors, a shuttle service will be available. The shuttles will depart from the station headquarters every 15 minutes throughout the afternoon, allowing visitors to get on or off at any field stop. Visitors will be able to examine and discuss the particular area in which they are interested for as long as they wish, then catch another shuttle when ready to move on."

ALSO, REPORTS the chairman, displays and exhibits of diseases, soil testing, plant physiology and a large machinery exhibit will be featured for public viewing.

"Because of the recent developments in the agricultural industry," concludes Newton, both the producer and the consumer should be interested in this informative examination of agricultural research work being done here on the South Plains."

The Root Cause

One reason why Phase I, II, III and III½ of the economic controls did not work, and a principal reason why a Phase IV will not work is that the major control is not imposed.

That is a hold of taxes. Unless taxes are held down, by constitutional amendment if necessary, there is no way to escape increasing inflation.

Largely overlooked, or ignored, is the fact that inflation really only has two causes. One is what is known as "demand-pull." This results when there are too many dollars, marks, lira or what have you chasing a limited supply of goods and services. During World War II when production of civilian goods was curtailed but unemployment was high it was necessary to have controls to keep the economy on an even keel.

The other cause of inflation is known as "Cost Push." This is the result of the actual costs of producing goods and services forcing constantly higher price levels.

Every time taxes are increased, to increase the cost of production, prices must necessarily go up. Thus an increase in payroll taxes, income taxes, sales taxes, or any tax finds a resulting increase in prices.

Thus, when it is all boiled down it can be said that excessive government is the enemy of the capitalistic system. Capitalism works astonishingly well when it is borne in

Horse owners urged to keep close watch on animals for horse sleeping sickness

Texas horse owners are urged to keep a close watch on their animals and to vaccinate unprotected horses for equine encephalomyelitis (horse sleeping sickness).

THE DISEASE is of three strains — Eastern, Western and Venezuelan — the latter causing hundreds of horse deaths in 1971.

The Eastern strain of the disease has been diagnosed in one of the 11 sick or dead horses in the three-county area of Hardin, Tyler and Jasper. Veterinarians with the USDA's Animal and Plant Health Inspection Service also suspect the Eastern strain in several other cases, according to Dr. H. A. Hooks of the Hardin County Health Department.

The Western strain has been diagnosed in a single horse death in Fayette County.

"We are approaching the cut-off time for new cases of the disease since an incubation period is about two weeks," said Hooks. "Also, the extensive spray program in Hardin County to control mosquitoes should help to halt the spread of the disease."

Mosquitoes are the main carriers of encephalomyelitis.

THE SLEEPING sickness also

affects humans, and a Hardin County man has contracted a form of encephalomyelitis called a "viral" type by his attending physician. The patient is now recovering at home, noted Hooks.

According to Dr. W. L. Sippel, director of the Texas Veterinary Medical Diagnostic Laboratory at College Station, none of the sleeping sickness cases has been diagnosed as the Venezuelan strain, known as VEE. "There is no indication that VEE is reappearing in Texas following its invasion two years ago," he noted. "However, it's not unusual for the Eastern or Western strains of the disease to appear in unvaccinated horses during the hot summer months."

Sippel urged horse owners to consult their local veterinarian about a vaccination schedule to protect their animals. Effective vaccines are available, but a vaccination is needed for each of the three strains of the disease. Horses vaccinated against

THE NUMBER of all cattle and calves on Texas farms and ranches as of July totals 16,400,000. This compares with 15,550,000 as of Jan. 1.

Feasibility of drip irrigation for field crops is under study

In an effort to conserve irrigation water on the South Plains researchers are looking to a relatively new method called drip irrigation.

THE SYSTEM, used mostly in greenhouses, gardens and orchards, is being viewed for use on major crops as well, but with modification.

Dr. Otto Wilke, agricultural engineer with the Texas Agricultural Experiment Station, is heading the study.

Two techniques may make drip irrigation practical for some field crops, says Wilke. One idea is the use of plastic drip irrigation trail lines, instead of sprinklers, attached to a pivot sprinkler system.

IN STUDIES being conducted at Lubbock, three such plastic lines were attached to a pivot system made available

through the cooperation of Gifford-Hill & Western and Lubbock Christian College, explains Wilke.

"Early results with these 100-foot long lines are promising," he adds. "Advantages of using drip trail lines instead of sprinklers are that the water is applied only behind the drive wheels, lower operating pressures are needed, less water is lost to evaporation, and salty water does not contact plant leaves."

However, the plastic pipe can be damaged by grazing cattle, the researcher points out. And in sandy soils it may be difficult to germinate seeds because the drip system may not wet the surface soil uniformly.

The second technique involves the development of a tractor-mounted rig to move drip irrigation pipes in cotton.

EXPLAINS WILKE, one drip line can be used to apply a single irrigation to 40 rows of cotton during the fruiting period. Two funnels with belled entrances are attached to the tractor and are used to pick up the pipe and move it laterally two rows to water alternate furrows. Pipes are moved once or twice daily and can be moved without stopping the well pump.

Research for the study is being conducted at the Texas A&M University Agricultural Research and Extension Center at Lubbock, and is supported in part with funds from the TAES, Texas Water Resources Institute, the Office of Water Resources Research and the Plains Cotton Growers.

Hills sell gilts to Japanese farm

Bill Hill & Sons, of Hart, Chester White breeders, exhibited the fourth and tenth prize February gilts at the recent National Chester White Summer Spotlight, held at the Indiana State Fairgrounds in Indianapolis.

THE GILTS sold at auction to Saitama Animal Husbandry Station, Saitama Prefecture, Japan for \$450 and \$500. The gilts were two of twelve head selected from the sale by the large Japanese pork production farm.

The Hills also showed the fifth February boar, which sold for \$700 to Houston Bros. and Lynn Jordan, Rensselaer, Ind.

A total of 125 boars and 130 open gilts were shown at the Spotlight by purebred Chester White breeders from 17 states, according to Larry L. Rus, executive secretary of Chester White Swine Record Association, sponsor of the event.

The 46 boars sold at auction brought an average of \$813.04, while 80 open gilts averaged \$403.69.

Ceremony opens school

By MRS. AGNES BROCKMAN The Nazareth Schools opened the year with their annual flag raising ceremonies. The ceremonies were opened with a prayer by Rev. Father Stanley and the National Anthem led by Nolan Froehner. Mary Lynn Wilhelm presented an oral reading about the flag and Mr. King introduced the new teachers. The FHA officers presided over the ceremonies while Weldon Wilhelm and Rodney Huseman were in charge of raising the flags.

We have approximately 400 children in our school this year. And we now have 24 teachers teaching here.

In addition to the teachers that have been teaching here the last several years, here is a list of the new teachers: Mrs. Rachel Graham, fourth grade; Jacky Bridges, business; John Blair, history and coach; Cason Smith, math; Mrs. Linda Ellis, speech and remedial reading; Mrs. Linda Cox, L. L. D.; Dwayne Cox, L. L. D.; Bruce Bush, science and coach; Mrs. Laquita Shelton, L. L. D.; Mrs. Shirley Shrum, home economics; George Whisnand, vocational agriculture, J. E. Pegram, high school principal and mathematics.

A VERY nice crowd enjoyed the wiener roast out at the ball park on Wednesday evening. Later on they were entertained by various games. This is an annual affair and sponsored by the Knights of Columbus and Foresters.

Mr. and Mrs. Bob Ballard visited the Leo Ehlys. Mrs. Ballard is Lynn's sister.

Mr. and Mrs. Clarence Schulte and Agnes Brockman spent Sunday at Muleshoe with the Phil Brockmans. They attended Mass at Bovina as Launa made her First Holy Communion there.

Brian Birkenfeld and boys came by from Lubbock to see his mother Rose Birkenfeld over the weekend.

DOROTHY BURT from Cor-

pus Christi spent the weekend with Helen and Sue Burt.

Mr. and Mrs. Philip Rickwartz and a couple of their grandchildren visited the Lon Brockmans Sunday.

Rita Pohlmeier returned home from Los Angeles, Calif., where she has been visiting her sister and brother-in-law Teresa and Gary Rider. They have a baby boy and named him Kevin.

On her way back she stopped at Phoenix, Ariz. and visited her brother Greg Pohlmeier and wife Linda.

The Wilhelm families from here went to Palo Duro Park for the Wilhelm Reunion. Around 150 were present.

The Tom Brockmans visited Pat's folks and her sister in Lubbock Sunday.

MR. AND MRS. Backus and family visited in Nazareth Sunday.

Mr. and Mrs. Julius Vita and Janice from Seymour visited the Birkenfelds and attended the Folk Festival while here.

Max Acker, Agnes Brockman and Louise Woods spent Thursday and Friday at Luidoso.

Mr. and Mrs. Alfred Schacher, the Dickey Schachers, Lucy Leinen and Harold Steffens from Slaton spent Sunday in Lubbock at the park.

Neighbors and relatives had a house warming for the Joe Schmuckers Aug. 15th. They recently moved to town.

Woven fabrics make comeback

Today's woven fabrics are rising on the fashion seasaw. "One season a particular fabric or style is down in popularity while another is up," Mrs. Becky Culp, clothing specialist with the Texas Agricultural Extension Service, said.

TODAY'S FASHION seasaw includes knit versus woven fabrics, she continued. "Knit fabrics rose steadily to an overwhelming popularity during the late 1960's. Today, however, they're at midbar level — with woven fabrics rising rapidly in popularity.

"Also, knit fabrics are more closely resembling wovens, and wovens resembling knits. At first glance it may be difficult to distinguish one from the other.

"Traditionally woven fabrics — checks, corduroy, denims, tweeds and gingham — have rocketed back into fashion popularity," Mrs. Culp noted.

"SEVERAL FACTORS influence this trend. Man's basic need and conditioning for change — with something new and different — may be the most important.

"Also, today's woven fabrics compete with knits for their prime advantage — comfort through stretch."

Stretch wovens can give from 10 to 15 percent either in one or both directions, the specialist explained.

Woven fabrics are popular for menswear — largely because they can be tailored more easily and quickly.

"IN ADDITION, many men find them traditionally more appealing — especially since they're less likely to sag or bag than knits.

"Although knits remain part of the fashion picture, consumers are welcoming irresistible additions to their wardrobes — woven fabrics and garments," she concluded.

Father Stanley's emotions mixed after month's art tour of Italy

Father Stanley Crocchiola of Nazareth returned from his art tour of Italy with conflicting emotions.

AFTER STUDYING the great works of art in Florence and Rome, he couldn't bear to walk away from them. "In a way, it's best not to see the art because you fall in love with it so much that you never want to leave it."

Yet, to see Italy's great art, he had to put up with extraordinary rudeness from Italians, because he was an American tourist.

Illness forced Father Stanley to cut short his scheduled six-week tour. During his fourth week there he became ill and had to make a choice: surgery in Italy or surgery in the US. He chose to return home. He just got back "into the swing of things" a couple of weeks ago.

DESPITE HIS abrupt change of plans, he had a memorable trip. And he DID find a few Italians who were glad to see him — an aunt and uncle whom he had never met, "at least 60 cousins" in the Palermo area, and the brothers of Mrs. Rose Acker of Dimmitt, with whom he spent four days in Pomoei.

For American tourists, money has been a problem all over the world this summer because of the shrinkage of the American dollar. Father Stanley saw his dollars devaluated four times — by a total of 12 percent — during his four weeks in Italy.

"Each time we exchanged money, we got the feeling that they were thinking they wouldn't need our money any more since ours was devaluating and theirs was going up," he said.

"They told me many times, 'You defeated us in the war, but now it's our turn.' And they told us on the streets of Naples, 'Go home — we don't need you American tourists anymore.'"

"WATERGATE had a lot to do with their attitude. The Italians are down on Americans as a result of Watergate. Rome has two English-language papers, both of which carried front-page stories daily on the Watergate scandal."

Didn't it matter that Father Stanley's entire tour group were priests in their cockpats?

"No, priests don't count to many people here," he said. "You know, Italy has the largest Communist Party membership of any country outside of Russia, exceeding even China in party membership, although the country has parliamentary government. Italy was ruled by the Communist Party until two years ago, when the Central Catholic Party won control of the government."

THERE WERE other aggravations:

He had written ahead for a reservation at the English Hotel in Rome, where Hemingway and other famous American writers of the "Lost Generation" had lived and worked. But a mail strike in Italy kept his letter from getting to the hotel, and he had to stop around until he found a small boarding house.

And he didn't get to see the Pope.

"He only has audiences on Wednesdays, and the man I was supposed to get a ticket from had gone to Florence. Before he and I could get together, I got sick and had to come home. I found out later — after I had gotten back home to the US — that I could have gotten a ticket at the USO in Rome to see the Pope. That's something a lot of Americans are unaware of. If they had told me to go to the USO to begin with, I would have seen the Pope."

BUT DESPITE the natives' hostility, the dollar shrinkage, the mail strike and the bad advice, Father Stanley was determined to carry out his pilgrimage to see the great works of the Italian masters and find his relatives and friends. As a result, he had some times he'll never forget.

He didn't follow the beaten path. As an artist himself, he knew that many of the greatest works he wanted to see weren't on the overcrowded "tourist trails."

One of his most memorable stops was at the Borgese Palace in Rome, where he saw paintings by Michelangelo, Raphael and Pisano, "and a number of others that most tourists are not aware of." And he visited St. Peter's Basilica five or six times.

ALSO, HE spent more time than his fellow tourists in Florence, Pisa and Naples.

"Florence has better and more art than Rome, and more culture, too," he explained. "I think it's because Rome has been pillaged so often through the centuries. Napoleon, for instance, took a lot of the art away from Rome."

Although Florence's art is still being restored after the disastrous flood of two years ago, the mastery is still there — in the paintings, sculptures and murals.

"When you stare at Michael-

angelo's 'David' or 'Pieta', and the works of all the other masters, it just leaves you sick that you'll have to leave it and can't see it anymore," he said. "Now I find that I can't wait until I can see it again. But as far as just going to the country of Italy, well, there's no place like America."

ANOTHER delightful discovery during his trip was the number of his relatives — he didn't know he had so many.

When Father Stanley's sister in New Jersey learned he was going to Italy, she told him their late mother had given her the address of a brother there.

He found his uncle, Sal Lodico, 79 in Palermo. And Mr. Lodico told Father Stanley about an aunt — Mrs. Felipa Ferrara, 82 — whom Father Stanley didn't know existed. And he also met "at least 60 cousins," all from his mother's family.

"THEY TOOK me to the place in Palermo where my mother was born," Father Stanley said. "The bombers missed it by a block in World War II. Everything around it was still leveled, with rubble still around. The reason is that the government will not clean off individual property, and the individuals have moved to condominium apartments in a new section of the town. The old section is too close to the sea anyway, and may someday be turned into a new state park or something, when they get around to it."

In Palermo, Father Stanley stayed mainly with his newfound aunt, who hosted a constant "open house" so he could meet all his cousins.

During their family reunions, they recalled how his mother and father had come to the US.

"MY FATHER was working for my mother's folks when gold was discovered in Alaska. They were sculptors. My father decided he wanted to try to find gold in Alaska. But before he left Italy, my mother's father was dying and called him to his bedside and told him, 'You say you love my daughter, so I want you to make me a promise — that after you get to Alaska you'll send for her and you'll marry no one else but her.' My father made the promise."

"When my father landed in New York, he learned that he had another 6,000 miles to go, so he gave up on the Alaska idea and got a job in New Jersey with a bronze sculpturing outfit.

"It took him 11 years to save the money to send for her. That included the money for two chaperones to come with her — they wouldn't let her come alone."

FATHER STANLEY spent four days in Pompeii with Rose Acker's brothers, Amadeo and Alfredo Alcomora. They took him on a memorable tour of the ancient ruins of Pompeii.

Although he's seen enough of the Italian tourist trail ("They're out for the money — there's no getting around it — and we've helped make them that way"), Father Stanley hasn't seen all of the Italian art he wants to see.

"I've got to go back to see some more of that art — in Florence, especially," he said.

Stock proves tough for riders in annual rodeo

Cowboys found the going tough in Dimmitt's 27th annual rodeo last Thursday, Friday and Saturday as the bucking stock furnished by Campbell and Cordell of Childress proved rather hard to handle for a number of the contestants.

IN THE bareback bronc event, Frank Hunter of Amarillo captured first with J. W. Myers of Dalhart winning second. Bill Herman of Larned, Kan., was third and Jack Lane of Hereford was fourth. Carl Conner of Pampa rode to fifth place.

Ben Rogers of Panipa proved to be the top saddle bronc buster among a field of 24 contestants as he captured first place in that event. Buzz Cooper was second and Steve Lisenby of New Home, was third. Capturing fourth place was Scott Sheets of Tulsa.

J. W. Myers outrode 36 other contestants in the tough bull riding event to capture first place, and was followed by Buster Hanning of Pampa in second. Dwight Rickman of

Hereford was third and Gu. Bill of Amarillo was fourth. C. W. Whitford of Lubbock rode to fifth.

Calf ropers were forced to hustle as the stock provided for their event was fast coming out of the chute and gave ropers a run for the money through the arena. Tutt Garnett of Matador proved to be the cowboy with the quickest loop as he captured first place honors in 12.1 seconds.

JIMMY LAMOND of Andrews was second with a time of 12.4 seconds and James Calaway of Bovina was third in 13.8. Jimmy Brazil of Gruver and Ronnie Kestler of Lanesta tied for fourth place with identical times of 14.9.

The ladies turned in impressive times in the barrel racing event as 22 contestants turned out to put their horses round the barrels.

Cathy Geier of Larned, Kan. captured first place in the time of 17.9 seconds, and Debbie Lewis of Hereford and Ann Rigby of Snyder tied for second with times of 18.1. Glenda Brazil of Gruver was third with a time of 18.2.

Some 93 contestants turned out for the team roping event. Many of them posted "no times" as they missed their steers.

THE TEAM of Charley Walsher and Benny Fulgham posted a time of 7.6 seconds to win first place. Cowboy Johnson and Bill Teague and Mack Weston and Benny Fulgham tied for second place with identical times of 8 seconds.

The team of Kyle Reed of Clovis, N.M., and H. B. Mardis of Melrose, N.M. captured third place with a time of 8.4 seconds.

Jim Longine and Jim Espy tied with the team of Bobby Lewis and H. B. Mardis for fourth place with times of 8.8 seconds.

"Members of the Dimmitt Rodeo Association want to express their appreciation for the support we were given during the rodeo," said Jean Johnson, secretary.

Ross is named BOL chairman

Jimmy Ross of Dimmitt has been named chairman of the Breath of Life Campaign and will lead Dimmitt volunteers in raising funds to support the fight against children's lung diseases, according to Frank

Scott, president of the North Texas Chapter, National Cystic Fibrosis Research Foundation.

THE FOUNDATION supports research and care programs for children affected by lung-damaging diseases like cystic fibrosis, severe asthma, chronic bronchitis, bronchiectasis, and a condition called "childhood emphysema."

Cystic fibrosis, an incurable genetic disease, is inherited when both parents carry the recessive gene for it. It is believed that 10 million Americans may carry the genes, usually without knowing it. Current research is seeking a practical test to identify these carriers.

"Most people don't realize that there are six million children in the US affected by pulmonary illness," said Ross. "For some of these children, breathing is not the natural function we, who are lucky, take for granted," he added.

The Breath of Life Campaign supports research as well as over 100 cystic fibrosis centers for diagnosis and treatment across the country.

STOCKER cattle numbers in Texas as of July 1 are sharply above Jan. 1 where the cow-calf operations are dominant. Numbers as of July 1 are down from Jan. 1 levels on the northern High plains where Jan. 1 numbers were at a higher level because of stocker cattle shipped in for winter wheat pastures.

CHAMPION MELON EATERS in the Roundup Watermelon Eating Contest Friday afternoon were (from left) Rudy Valdez, 4, who won the 6-and-under title; John Henderson, 10, who was the first to the rind in the 7-10 age division; and Mark Thompson, 11, who defeated a big field

of older contestants in the 11-and-over group. Here, the winners show the size of watermelon slices they devoured in the contest. A hundred or more youngsters competed in the contest, which the Dimmitt Rotary Club conducted at the city park as a feature of Kid Day.

THE ROUNDUP BIKE TOUR Friday morning drew more than 60 young cyclists, who made a 14-mile loop west of Dimmitt. Here, the cyclists return toward town on FM 2392 (Hospital Road) after taking a break for refreshments and flat-fixing at the farm of Fred Bruegel Sr. When they finished the tour, the youngsters cooled off for an hour in the Country Club swimming pool. The string of cyclists stretched three-fourths of a mile at times. Castro Memorial VFW Post conducted the tour, escorting the youngsters with caution signs fore and aft, a sound truck and a small fleet of pickups to carry bikes that had blowouts or riders who had fag-outs. About 15 riders—mostly younger ones with single-speed bikes—dropped out and finished the ride on four wheels instead of two.

HD, 4-H clubs to begin new years

By IRENE KEATING

This week I'm enjoying some time off. We didn't go anywhere but we've been busy painting our house outside and working in the yard. It won't be long until summer is over with. It has gone by too fast. MANY PERSONS are interested in making terrariums. We

have a handout in the office on this if you are interested in this type of planting. Come by the office in the Courthouse or call me at 647-3453 and I'll be glad to mail you one.

Home Demonstration Clubs will begin to meet again in September. If you're interested in visiting or joining a club let me know. We have four clubs organized now: Bethel, Dimmitt, Flagg and Town and Country. If any women at Hart or Nazareth are interested in an H.D. Club or a Home Economics study group, do let me know. I'll be glad to help you any way I can. With the high cost of living some of you may be interested in a study group on management.

4-H Clubs will also be getting started on new years in September. If any of you are interested in helping with a 4-H club let me know. We have 11 clubs in the county now. The Fun Daisy Club, organized in June, is our newest club. This is a good time of year for you to join 4-H if you are interested in learning and are at least 9 years of age and not over 19. Call me if you'd like more information.

The view from your library

By MARY EDNA HENDRIX

The Summer Reading Program is over! We were disappointed because of the lack of interest this year. Last year there were 221 who registered for the reading program and only 164 this year. Last year 116 read 12 books or more, this year only 92. Last year 4,585 books were checked out during the Summer Reading Program, this year only 3,681. Maybe next year will be better, since we will be in the new building.

THE FRIENDS of the Library entertained the children who had participated in the Summer Reading Program and read at least 12 books with a party Friday morning in the new library building. Maxie Horton, president, Jean DuLaney, Margaret Womack and Shirley Wise served refreshments to 46 children. Several parents came in to see the new building, including Mrs. Jimmie Howell. Mrs. Donald Schilling, Mrs. Fitzgerald and Mrs. Durbin.

WE HAVE given guided tours in the new library building to several out of town people, including Mrs. Robb and her two grandsons from Idalou, Mrs. Roy Hickman from Morton and her mother Mrs. Fuller, Mr. and Mrs. Moran brought their daughter, Pat, from Atlanta, Ga., D'Aun Altom from St. Louis, Mo. who was with her aunt, Mrs. Babe Scoggin and daughter, Cindy. D'Aun's mother is Mrs. Hilma Carroll who is compiling material for two books which she plans to write. Edna Riley brought her sister-in-law, Mrs. Dorothy Burk from Corpus Christi.

We plan to move the library next week so if our doors are locked at both buildings, please leave your books in one of the outside book depositories, either at the old building or the new one on the front of the new building at 105 SW Second Street. If you have long OVERDUE books — please bring them back NOW and we will not charge a fine.

MORT DONATIONS: Mrs. Danny Lewis, who has lived in Dimmitt just a short time, brought a generous check to the library. We are so proud of the newcomers who have given so generously.

More donating books: Joe Cowen brought some good books and Jeri Ka Clark brought some from her collection of children's books.

Interesting people in the library. Mr. and Mrs. Earl Lust came in after the Pioneer Dinner. Mrs. Lust won a beautiful corsage for her costume. Mrs. Wes Anthony has been in several times. . . . Carla Rambo brought her friend Suzanne Holly from Hart with her. . . . Jim and Suzanne Axe and their two daughters, Lori and Heather came by on Saturday.

Computer medicine coming to Hospital with telephone ECG

Plains Memorial Hospital has taken a big step into computerized medicine with the announcement that a national computer network, TELEMED Corporation, will soon be installing the instrumentation which will enable Plains Memorial Hospital to "telephone-in" electrocardiograms taken on its patients. The ECG information will be transmitted to the Schiller Park, Illinois Computer Center where it is processed. The computer will then call the hospital and a teletype unit will receive the analysis.

IN UTILIZING the computer, a technician places small electrical sensors or electrodes on the patient's ankles, wrists and chest. These are attached to the ECG cart with small wires.

Scotch Foursome winners named

Winners of the Scotch Foursome played Sunday at the Castro County Country Club were Bill Glenn and Polly Holland, who carded a net score of 35.

BOB MYERS and Delma Sammons fired a net 36 to win second place and Vaudine Giles and Kyle Touchstone scored 36½ for third place.

Winners were determined by the Callaway System according to club pro Larry Kaplan.

On the Go

Mr. and Mrs. Curtis Tate were in Mooreland, Okla. for the wedding of her niece and Marie's mother, Mrs. J. L. Kay, returned with them for a visit.

On the Go

Mr. and Mrs. Earl Brock returned home from Phoenix, Ariz. Wednesday. They visited relatives in Lubbock Sunday.

The technician then dials the computer center and the computer answers with a "beep" in the telephone receiver. The technician then moves a switch on the cart and code data is automatically transmitted to the computer which identifies the patient's height, age, sex and weight.

Two seconds later, the computer again informs the technician via a signal light on the cart that it has received the code information and is ready to receive the ECG. A switch is flipped, and the cart automatically records the entire ECG in 20 seconds.

While the cart is taking the ECG, the computer is watching the process. At the end of the ECG, the computer lights another signal lamp on the cart telling the technician that the information was received. The technician then hangs-up the receiver and waits for the computer analysis. Within minutes, a bell rings on the teletype unit as it starts to type out its message.

First comes a verification of the patient and hospital code, then a series of tabulated numbers rating the various functions of the heart. Finally, a printed analysis and interpretation concludes the report.

A big advantage of this recent development is a speedy reading and interpretation of the heart's performance, which can be obtained at any time of day or night, a particularly valuable aid in off hour emergency cases.

It is not the intent of TELEMED'S computer processed electrocardiogram service to replace man with machine, or doctor with computer. It is there to assist him by providing a rapid indication of the "normal" electrocardiogram versus the "abnormals". This allows the physician to concentrate his attention on the patient whose interpretation indicates that further clinical diagnosis and treatment may be necessary.

26,000 separate measurements on each ECG before the analysis is ready for return. In addition to its speed and economy, the national ECG network assures maximum levels of accuracy and dependability. Plains Memorial Hospital expects to process numerous ECGs via computer over the coming year.
