Auto Crash Victim Treated In Local Hospital

A Fort Worth man was rushed to Ranger General Hospital Thursday about 8:30 p.m. following an automobile accident about two and one-half miles east of Ranger on Highway 80 East.

Joe Bob Moore was treated for a broken collar bone and lacerations at the hospital. Two others riding in the car, Ronald Bradford of Orlando, Florida and Robert Miles of Meridian, Miss., emerged from the accident without injury.

The 1956 Oldsmobile, driven by Moore, apparently hit a slick spot on the rain drenched pavement and went out of control. The automobile was traveling East and flipped into the ditch between the lanes and was setting on its wheels headed east following the mishap. The automobile was a total loss.

The two passengers riding in the automobile with Moore, had recently received their discharge from the Navy in California and were returning to their homes. They spent the night in Ranger following the accident.

Moore's condition was reported good Friday morning.

The DPS Fleet Personnel and Staff, Training and Statistics

Editor's Note: Following is the third of a series of articles appearing in the Times detailing the evolution and organization of the Texas Department of Public Safety and the numerous vital services this agency provides for the people of Texas.

The personnel, training and staff services responsibilities of the Division are carried out through the coordinated efforts of five bureaus - Personnel and Training, Statistical Services, General Office Services, Fleet Operations and Physical Plant.

Personnel and Training

The staffing responsibility of the Personnel & Training Bureau was discharged during the past two year period by recruiting and testing 4,553 applicants, 966 of whom were employed.

During the biennium ending August 31, 1960, five recruit schools were conducted at the Law Enforcement Academy, resulting in the commissioning of 268 patrolmen. The bureau conducted 27 other schools involving 1,151 department personnel who received training designed to enable the department to better accomplish its objectives. These included 15 in-service schools for patrolmen, 8 one-week supervisor workshops, 2 judo advancement tournaments, and a one-week accident investigation seminar.

The department also is charged with the responsibility of providing training for municipal and county officers. The Law Enforcement Academy conducted 26 schools for 499 local enforcement officers in the Austin training facility. Additionally, 46 schools for county and municipal officers were conducted at their headquarters throughout the state.

The bureau also carried out the normal activities in connection with the appointment, transfer, promotion and salary changes which are related to the personnel function.

Statistical Services

Statistical Services serves the department, the State of Texas and national organizations by compiling data on traffic accidents, crime and the activities of departmental services and personnel.

During the biennium, 430,000 motor vehicle traffic accidents occurring in Texas were reported to the department. These were analyzed for causative factors, both engineering and enforcement, and data concerning their circumstances were compiled. Appropriate information was furnished to local, state and national groups concerned with various phases of accident prevention.

In the past two years, 700,000 daily reports from patrolmen in the field services were tabulated for data to be used for evaluating their respective performances, to record volumes of duties performed and hours worked and to assist in the development of personnel assignments and work schedules.

Over 500,000 records of persons arrested by department personnel were processed and data compiled for use by the department in planning its enforcement program, to evaluate the effectiveness of enforcement policies and to correlate the enforcement effort with the problems it is directed to correct.

Statistical Services also compiles data on the suspension of persons' driving privileges under

Times Switches to Semi-Weekly Operation Today

Times Publishing Co., publishers of the Ranger Times and the Eastland Telegram, today announced operation changes which the publishers said would "... give the citizens of these two towns far superior newspapers."

The Times and Telegram will begin semi-weekly publication this week. The papers will publish on Sunday and Thursday mornings beginning with today's issues.

A company spokesman said the change in operation came after a careful study by the local staff

and newspaper experts who were called in to study the operations.

"We discovered that the best non-daily newspapers in Texas were the semi-weeklies operating in towns between 5,000 and 15,000 population," a company spokesman explained. "Newspaper experts urged us to switch to semi-weekly operation after a complete study."

Publishers of the twin newspapers also promised a "new look" beginning with today's issue.

"There will be more pictures and better local coverage of news. We also plan to increase our circulation to better serve our advertisers."

One of the improvements announced was a plan to begin publishing a monthly newspaper section in tabloid size which will be circulated countywide. The supplement will have color, something never before available in this county.

Price of the newspaper will remain the same for mail and home delivery. Home delivery will continue to cost 15c weekly. Price of the newspapers will be 10c on newsstands, however.

Here's Chance To Down Fish!

It may all be rain that's doing it, but whatever the reason Eastland County is going to host the world championship goldfish swallowing contest this year.

Bill Samuels, manager of the Majestic Theatre, made the announcement today. The tournament will be held at the Majestic May 24. More details will be announced soon. Live goldfish, that is!

Facts About the Dairy Industry In West Texas

June is Dairy Month all over America. Central West Texas Milk Producers Association, Abilene, supplying milk to the Borden Company, Abilene, Foremost Dairies, Inc., Abilene, and Gandy's, Inc., San Angelo reports the following facts on the milk industry in this area:

Central West Texas farmers produce 185 million pounds of milk per year. This amount of milk, poured into ordinary 8-oz. glasses and laid end-to-end, would all run out of the glasses and make a river six feet wide, six feet deep, and over fifteen miles long, and the glasses would reach one time around the earth with enough left over to reach from Abilene past Lima, Peru, in South America.

This is over 21 1/2 million gallons of milk - if it were gasoline, hundreds of thousands of West Texans would be thirsty for "nature's most nearly perfect food," but that much gasoline would drive a popular small car more than 645 million miles. It would drive nearly 26,000 of the cars one time around the earth.

The value of 185 million pounds of milk to the dairy farmers of the Central West Texas market area is over \$10 million.

This amount of money, in dollar bills, laid end-to-end would reach from Abilene to El Paso and back, with fifty-three miles left over.

The purchasing power made available by this income to the dairy farmers, in dollar bills, would reach more than 1 1/2 times around the Texas boundary lines.

The 21 1/2 million gallons per year is used like this—About 83 percent, nearly 18 million gallons is used for homogenized milk, skim milk, chocolate milk and buttermilk. About 6 1/2 percent, nearly 1.4 million gallons, is used for ice cream and cottage cheese. The remainder, more than 2.1 million gallons, is used to make cheddar cheese.

About 100,000 per year is spent for truck fuel and oil to get the milk from farm to processor; over \$27,000 per year on tires; about \$350,000 on salaries and earnings of those engaged in marketing the milk to the processor.

The investment of dairy farmers in Central West Texas is about \$25 million, of milk processors, about \$10 million.

This is a steady, year-around industry that means more than \$50 million per year in purchasing power to Central West Texas.

Application for Tax Accountants Due by Aug. 1

Internal Revenue Service wants to remind those who wish to take qualifying examinations for practice before the Treasury Department that they must apply before Aug. 1, 1961.

The 1961 Special Enrollment tests will be given on Sept. 27 and 28. Applications can be obtained from M. O. Tesman, Special Enrollment Coordinator for the Dallas District, P. O. Box 594, Dallas.

The applications must be mailed to the Director of Practice, Internal Revenue Service, Washington 25, D. C., before Aug. 1, 1961. A fee of \$25 must be paid with the application.

Tesman explained that this examination is for persons other than attorneys and Certified Public Accountants who wish to practice before the Treasury Department. He said that graduation from college and/or four years of practical accounting experience will qualify applicants to take the examination.

Tesman cautioned those interested to carefully read Circular 236 which he sends with the examination application blank. Internal Revenue cannot return the \$25 fee to applicants who do not qualify for the examination.

DeLeon Peach and Melon Festival Dates Announced

The De Leon Peach and Melon Festival committee is ready to announce the dates for this year's festival, Aug. 9, 10, 11 and 12.

The Festival has grown to be a homecoming time for former De Leon people. They realize they can see all their friends at the Festival. But it is more than a homecoming. It is De Leon's way of telling everyone about all the fine products produced in the De Leon area, and it is De Leon's way of recognizing all the fine communities and the work they do as a community group. And it is De Leon's way of saying, "Come have a good time with us. The entertainment is free and the people are friendly."

The usual street parade will open the festival and every business, club, or community has an invitation to enter this parade. There is no entrance fee and chances of winning a prize are good.

The Queen's coronation will include representatives from every community around with lots of entertainment especially for them.

The Community Booths, which always highlight the exhibits, promise to be even better this time because of several more active Community Clubs in the County. It is the committee's hope that every one of them will be in De Leon with an exhibit.

All of this is just to say De Leon is planning for a gala occasion and wants all her neighbors to join in the fun.

Any inquiry concerning anything pertaining to the festival may be sent to the Peach and Melon Festival Office in De Leon, telephone No. 5815.

Many New Laws Have Been Passed On Fish and Game

The recently completed Regular Session of the 57th Legislature saw the introduction of 108 bills pertaining to fish and game, of which 65 became laws.

Among the new laws of statewide interest is one permitting certain incapacitated persons to hunt from a vehicle (except from public roads), provided their incapacity is authenticated. In writing by a licensed physician; a law requiring deer tags to bear the date and place of kill; one prohibiting the possession or transportation of live coyote (nutria) without written permission of the Game and Fish Commission; and a law classifying the sandhill crane as a game bird.

Washington was removed from the list of counties under Regulatory Authority, but 16 counties were added to the 165 still participating in the program, to bring the net total to 121. In addition, precinct 4 of Tyler County was placed under Regulatory Authority, as was that portion of Lake Texoma lying in Cooke and Grayson Counties, and the Northeast portion of Matagorda Island, Aliso. The Commission was given regulatory responsibility over deer in San Saba County.

A digest summarizing the general game and fish laws is being prepared for distribution early this fall.

Site and Date Set for All-Star Tournament

The Little League All-Star Tournament will be held in Eastland during the week of July 20, according to an announcement from Charles Mahaffey, local League president.

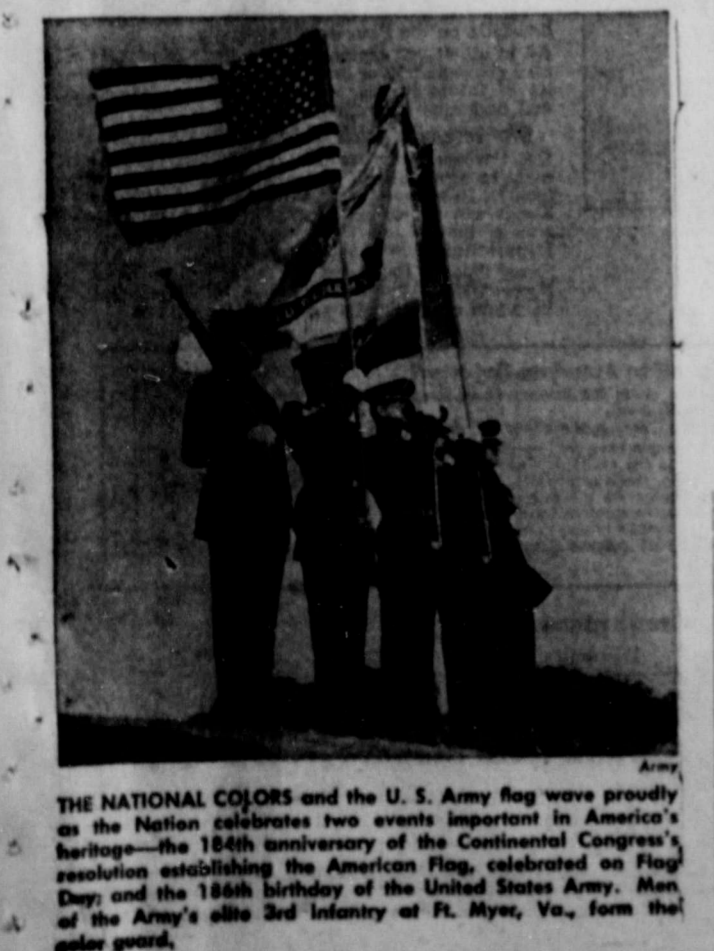

Mahaffey announced that All-Star practice would begin July 6 and that the All-Star selection would probably be held around the first of July.

Clyde was originally scheduled to host the area tournament, but a recent resignation of the area which put Clyde and Baird in another area, gave Eastland the tournament site. The new alignment of this area includes Ranger, Eastland, Cisco, Breckenridge and Albany.

The All-Star teams are picked from the best players in each League. Ranger's All-Star team will be picked from the Giants, Dodgers, Yankees, Indians and Braves.

The tournament will last three days, Thursday, Friday and Saturday, beginning July 26. It is a single elimination tournament, and there will be no consolation bracket. The winner of the area tournament will go to play in the zone tournament with the site being set after area play. The winner of zone then goes to State Play and on up.

Ranger will have Little Leaguers who will be trying for a second year on the All-Star team. Players who will be eligible for their second year on the team are: Johnny McGee and Larry Buckwell on the Giants, Lottay Pearson on the Dodgers, and Dowell Hartsfield on the Yankees, and Joe Don Gibson of the Braves.

AS IT LOOKS FROM HERE

For many years the Congress has sought ways and means with in the Constitution, as interpreted by the Supreme Court, to deal with the Communist menace within our borders. Many measures have been placed on the statute books for this purpose, and many have been nullified by the Courts. Some have yet to be fully interpreted.

On June 5, the United States Supreme Court rendered a decision which gives hope that, aside from the narrow legal view, the "public interest" is being taken into consideration.

In two decisions the court placed at least a preliminary stamp of approval on legislation intended to help this Government cope more effectively with the Communist conspiracy.

After ten years of litigation the Court held that "Communist front" organizations must register with the Attorney General.

The second case upheld a section of the Smith Act of 1940, which makes it a crime to belong knowingly to an organization which advocates the violent overthrow of the Government.

The Court did not reach the proposition of deciding whether the penalties provided in the present law will be sanctioned. This will probably have to be decided later and, of course, is important to the enforcement of it.

At some time or other a conflict in the two decisions must be reconciled. In the first, it requires the Communist and Communist front organizations to file their membership lists with the Attorney General. The second makes it an offense to belong to these types of organizations. In other words, if and when they are required to register, they automatically become chargeable under the law.

The narrow issue decided was that Congress can compel an organization dominated by a foreign power to register and that the requirement is not in violation of the First Amendment to the Constitution.

In the opinion, Supreme Court Justice Frankfurter said, "The present case differs from others in the magnitude of the public interest, which t h e registration and disclosure provisions are designed to protect."

The effect of these two decisions is to place Communist conspiracy into the most crippling device ever aimed at a group which claims to be a political organization. In other words, the Court recognizes that the Communist is not a political party at all, but a conspiracy, and it should be called that. Although the decision was split 5 to 4, it is encouraging and important in dealing with a situation made complex by our system, which guarantees so m a n y freedoms and liberties. The enemies of our Nation are able to hide behind these legitimate freedoms and liberties and use them as a license, rather than for what they were originally meant.

A subsequent newsletter will discuss the next test of a measure I have introduced to provide for the denial of passports to persons knowingly engaged in activities intended to further t h e International Communist movement.

How 45,000 companies help their employees buy security

The average American company is pretty busy tending to its own business. Yet many companies have sandwiched in a valuable service for their employees—the Payroll Savings Plan for U.S. Savings Bonds.

Through this plan, your payroll clerk sets aside a certain amount each payday for Bonds, buys them, and arranges to get them to you. It's completely automatic, and the easiest way in the world to save.

Save as much or as little as you wish. Employees can sign up to save as little as \$1.25 a week. The average among the more than 8 million folks on the Plan is \$20 a month.

All in all, 45,000 companies help their employees save about \$2 billion in Savings Bonds a year—a lot of future homes, vacations, college degrees, and nest eggs for retirement.

The security built into Savings Bonds U.S. Savings Bonds are guaranteed by the Government to grow. \$18.75 becomes \$25 in 7 years, 9 months. In 10 more years, it becomes \$36.25. Your Bonds can be cashed in anytime, with interest. And if they're lost or destroyed, the Treasury Department replaces them free. Every Savings Bond you buy is an investment in Peace. What better way to help your government help you enjoy the things you're saving for.

Hats off to American Industry!
"America's Industry has given the Savings Bond Program its greatest approval," says William H. Neal, National Director of the Treasury's Savings Bonds Program. "45,000 American companies have sold many billions of dollars in Savings Bonds—at no cost to the taxpayer," says Mr. Neal. "By operating the Payroll Savings Plan, these companies, big and small, are helping to keep our country strong. At the same time, they're helping more than 8 million people save automatically for the things they want. America owes a vote of thanks to these companies for their outstanding contribution to the 20-year success story of the U.S. Savings Bonds Program."

By BOYCE HOUSE

Early in the War with Mexico, the American troops, under General Zachary Taylor, were encamped along the Rio Grande and in Matamoras the soldiers were entertained by a theatrical troupe.

Among the performers was Joseph Jefferson, then a youth of 18, who was destined to become immortal for his "Rip Van Winkle."

The company included Jefferson's mother... was in Galveston when news came that Taylor's army was advancing on the Rio

Grande and the manager decided that the players should follow the army. The trip was made by steamer from Galveston to Point Isabel (now Port Isabel) which Jefferson described in his "Autobiography" as flat and sandy, "covered with tents and boiling over with military preparations."

The actors could hear the booming of the cannon as the Battle of Palo Alto was fought and, the next morning, Jefferson saw an ambulance arrive with the wounded Major Samuel Ringgold, who died soon afterward.

After the Battle of Resaca de la Palma, Matamoras was occupied and then the troupe established itself there and "acted to the most motley group that ever filled a theater."

A vivid picture of the city was given by Jefferson: "The dwelling houses in Matamoras were generally one story high, built of

brick, plastered, and painted yellow; one door and an iron-barred window in front on the street and the same at the back, leading to a courtyard which was used in common by the occupants of the house for washing, ironing, cooking and eating. We occupied one of these establishments.

"In the morning, little tables, with white cloths, were brought out and set for breakfast in the open air. The different families would sit at them and drink their hot coffee, eat their fruit and bread, smoke their cigarettes, and talk away as gaily as if no war were going.

"The courtyards were entered by a large gate, and hired out to passing caravans of muleteers or rancheros, who occupied the middle of the space. Here they also took their meals and sold their fruit, vegetables, chickens and dry goods of cheap and gaudy-colored Mexican blankets, sombreros and baskets.

"The courtyard at night was a lovely sight. The little houses surrounding it were all lighted up within, the doors wide open so that we could see the families, men, women and children, knitting, smoking, dancing, singing and playing cards... always for money (everybody gambled in Mexico); salaries of the actors. So ends this

story of the drama beside the Rio Grande. And groups of muleteers in the center were seated around their camp-fire, which would blaze and shed its light over the scene."

When the army advanced into Mexico, Matamoras was silent and deserted, so the manager of the theatrical company departed with all the funds, including the back

Plans Offered for Sturdy Workbench

The starting point of any home workshop is a workbench. One that will last a lifetime can be built at small cost by even the amateur craftsman.

To build a common, sturdy workbench, the materials needed are 2 by 4-inch lumber, 2 by 10-inch stock for the top, and a 4'x6' panel of Masonite 1/4" Tempered Presdwood for a working surface and storage shelf.

The Tempered Presdwood is the same material used in hundreds of industrial plant workshops. It can take a terrific beating. Its splinter-free, smooth surface is a boon to the handyman. When it finally becomes too battered, the panel may easily be replaced at minor cost.

Masonite Corporation has a free plan which shows, in an exploded view, how to make this bench. It includes a list of materials. For a copy, write the Farm Service Bureau, Suite 2037, 111 W. Washington St., Chicago 2, Ill., requesting free plan No. AE-311.

Make An Undersink Tidiness Center

Slide-out racks, disposal, transform sink cabinet into efficient cleanliness center.

When you're planning home improvements, "thinking big" must be coupled with "thinking practical" in order to reconcile your dreams with your budget. For a starter consider the little projects you can afford.

The cleanliness, convenience, and efficiency of your ideal kitchen can be achieved in your present kitchen through step-by-step renovation of smaller kitchen areas. Just such an area is the sink cabinet, which you can transform into an undersink tidiness center outfitted for convenience without clutter.

For literally liquidating food wastes and washing them down the drain, an electric food waste disposer is a must! New models of the General Electric Disposal

incorporate the additional refinements of a sound shield and extra-efficient Carboly cutting device for faster, finer, whisper-quiet operation. To the side and top of the sink cabinet you can attach "disappearing" pan and towel racks which slide their contents out for easy access. Additional convenience results from glide-out storage bins in which cleaning supplies can be grouped together and organized, rather than accumulating haphazardly on the cabinet floor where they are in danger of being overturned or broken in a fumbling search.

Put them all together, they spell efficiency... and many household problems conveniently and attractively solved.

VISITS HERE
Visiting this week in the home of Mr. and Mrs. A. W. Warford are Mr. and Mrs. W. E. Fuller of Midland and Mr. and Mrs. Bud Fuller of Anniston, Ala.

The ceremony was performed before an altar centered with a sunburst arrangement of white gladioli stock beneath a salal covered arch with white wedding bells. Arched candelabra decorated with salal and white stock flanked a satin and lace covered prie-dieu. Banked white callidiums and palms completed the scene.

Wedding music was presented by Miss Glyndia Wilson, organist, of Ranger and cousin of the bride. Selections were "Bridal Chorus," "Lord's Prayer," "O Promise Me," and "Wedding March."

Given in marriage by her father, the bride was attired in an exquisite formal length gown fashioned of pure silk taffeta, illusion and chantilly lace. The bodice, adorned with lace and featuring a scalloped sabrina neckline enhanced with sequins and seed pearls and long bridal sleeves, complemented a full skirt of illusion and chantilly lace.

Her fingertip veil of pure silk imparted illusion fell from a crown entwined with seed pearls and bridal bows of pure silk. She carried a cascade arrangement of fringed white carnations and pearls centered with a white orchid on a pearl studded Bible. Her only jewelry was a single strand of pearls, a gift of the bridegroom.

Miss Sarah Johnson, Ranger, was maid of honor. Bridesmaids were Misses Sandy Vinson, Diane Cantrell, Ranger, and Carol Hilliard, Olden, sister of the bridegroom.

The maid of honor wore a dark mint green street-length dress which featured a scooped neckline, tiny sleeves and bouffant skirt. The bodice was accented with a matching cummerbund with a bow and rose in the back. Bridesmaids' dresses were of light mint green identical to that of the maid of honor. They wore tiaras trimmed with seed pearls that matched their dresses. Each carried stylized bouquets of heavenly pink gladioli.

Mrs. Alvis Rodgers and Miss Kay Morton, cousins of the bride, were candlelighters. They wore light mint dresses identical to the bridal attendants, and their matching tiaras were trimmed with seed pearls. Their flowers were wrist-let corsages of heavenly pink gladioli.

Phil Hilliard of Commerce served his brother as best man. The groomsmen were Sam Owens, Ranger, Jerry Wilson, cousin of the bride, and Doyle Norton, Olden.

For her daughter's wedding, Mrs. Cantwell chose a champagne silk organza dress with bone accessories and an orchid corsage.

Mrs. Hilliard, mother of the bridegroom, wore a sheath dress of beige silk linen with matching accessories and an orchid corsage.

A reception was held immediately following the ceremony in the church social room. The bride's bouquet was placed on the registry table. Receiving guests was Mrs. Phil Hilliard of Commerce, sister-in-law of the bridegroom.

The refreshment table was laid with a three-tiered tulle cloth caught at each corner with a cluster of white satin ribbon along the edge of the table. The bridesmaids' bouquets were placed around the anniversary candle, forming the centerpiece. The table appointments were of crystal and silver.

Mrs. Jim Everett of Olden and Miss Wilma Edwards of Commerce alternated at the crystal punch bowl, and Mrs. J. B. Craig of Ranger, served the cake.

Other members of the house party were Meses. J. D. Johnson, O. L. Cantrell, A. F. Hughes of Ranger; J. D. Herrell, W. A. Kelly, O. H. Dick, T. M. Alford, Ed Haynes, and W. P. Edwards, all of Olden.

VISITS HERE
Visiting this week in the home of Mr. and Mrs. A. W. Warford are Mr. and Mrs. W. E. Fuller of Midland and Mr. and Mrs. Bud Fuller of Anniston, Ala.

The ceremony was performed before an altar centered with a sunburst arrangement of white gladiol stock beneath a sail covered arch with white wedding bells. Arched candelabra decorated with salad and white stock flanked a satin and lace covered prie-dieu. Banked white caladiums and palms completed the scene.

Wedding music was presented by Miss Glyndia Wilson, organist, of Ranger and cousin of the bride. Selections were "Bridal Chorus," "Lord's Prayer," "O Promise Me," and "Wedding March."

Given in marriage by her father, the bride was attired in an exquisite formal length gown fashioned of pure silk taffeta, illusion and chantilly lace. The bodice, adorned with lace and featuring a scalloped sabrina neckline enhanced with sequins and seed pearls and long bridal sleeves, complimented a full skirt of illusion and chantilly lace.

Her fingertip veil of pure silk imported illusion fell from a crown entwined with seed pearls and bridal bows of pure silk. She carried a cascade arrangement of frenched white carnations and pearls centered with a white orchid on a pearl studded Bible. Her only jewelry was a single strand of pearls, a gift of the bridegroom.

Miss Sarah Johnson, Ranger, was maid of honor. Bridesmaids were Misses Sandy Vinson, Diane Cantrell, Ranger, and Carol Hilliard, Olden, sister of the bridegroom.

The maid of honor wore a dark mint green street-length dress which featured a scooped neckline, tiny sleeves and bouffant skirt. The bodice was accented with a matching cummerbund with a bow and rose in the back. Bridesmaids' dresses were of light mint green identical to that of the maid of honor. They wore tiaras trimmed with seed pearls that matched their dresses. Each carried stylized bouquets of heavenly pink gladiolus.

Mrs. Alvis Rodgers and Miss Kay Morton, cousins of the bride, were candlelighters. They wore light mint dresses identical to the bridal attendants, and their matching tiaras were trimmed with seed pearls. Their flowers were wristlet corsages of heavenly pink gladiolus.

Phil Hilliard of Commerce served his brother as best man. The groomsmen were Sam Owens, Ranger, Jerry Wilson, cousin of the bride, and Doyle Norton, Olden.

For her daughter's wedding, Mrs. Cantwell chose a champagne silk organza dress with bone accessories and an orchid corsage. Mrs. Hilliard, mother of the bridegroom, wore a sheath dress of beige silk linen with matching accessories and an orchid corsage.

A reception was held immediately following the ceremony in the church social room. The bride's bouquet was placed on the registry table. Registering guests was Mrs. Phil Hilliard of Commerce, sister-in-law of the bridegroom.

The refreshment table was laid with a three-tiered tulle cloth caught at each corner with a cluster of white satin ribbon along the edge of the table. The bridesmaids' bouquets were placed around the anniversary candle, forming the centerpiece. The table appointments were of crystal and silver.

Mrs. Jim Everett of Olden and Miss Wilma Edwards of Commerce alternated at the crystal punch bowl, and Mrs. J. B. Craig of Ranger, served the cake.

Other members of the house party were Mmes. J. D. Johnson, O. L. Cantrell, A. F. Hughes of Ranger, J. D. Horrell, W. A. Kelly, O. H. Dick, T. M. Alford, Ed Haynes, and W. P. Edwards, all of Olden.

Music for the reception was furnished by Miss Glyndia Wilson.

For the wedding trip Mrs. Hilliard selected a bone linen silk suit with bone and brown accessories. She wore a corsage of a white orchid with a purple throat center.

The couple will reside in Chicago, Illinois, where the bridegroom is connected with the missile and radar division of the armed forces.

The bride is a 1961 graduate of Ranger High School where she was a member of the Sub Debs and Spanish Club.  From "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be read (p. 273): "God never ordained a material law to annul the spiritual law. Jesus walked on the waves, fed the multitude, healed the sick, and raised the dead in direct opposition to material laws."
