VOLUME 3

WICHITA FALLS, TEXAS, TUESDAY AUGUST 24, 1909

NUMBER 88

## WILD NEGRO SHOOT UP LOUISIANA TOWN

### IS SHOT DOWN AFTER HITTING TWENTY-FIVE CITIZENS OF MONROE.

## BODY IS BURNED BY MOB

### Negro Was Crazed From Effects of Cocaine or Whiskey—Race War Averted.

By Associated Press. Monroe, La., Aug. 24.—Half crazed by whiskey or cocaine, Bill Way, a negro from Pineville, Ark., dashed down the main street of Monroe today with a double-barrelled shot gun, firing in every direction. Citizens returned the fire and the negro finally fell dead after receiving a score or more wounds.

Twenty-five citizens were injured in the fight.

When the negro fell his body was dragged into the street and later taken to the public square and burned in the presence of several thousand people.

Four citizens wounded by the negro are in a serious condition, while the injuries of the other twenty-one are of a more or less minor nature.

It was feared at one time that a mob might form and wreak vengeance on other members of the race, but prompt precautions were taken and all is quiet this afternoon.

During the shooting the negro took refuge in a stairway and a door was broken down in a doorway, where he held his ground. He would fire, step back into the doorway, reload, and fire again until he finally fell with a bullet through his heart.

## JUSTICE IN VAN ZANDT KILLS SELF AND WIFE

By Associated Press. Dallas, Tex., Aug. 24.—Justice of the Peace W. D. Hutcherson at Canton, Van Zandt County, shot and fatally wounded his wife late last night and killed himself by blowing his brains out. No reason is assigned for the tragedy.

### Foresters' Convention in Toledo.

Toledo, O., Aug. 24.—The annual convention of the Supreme Court of the Foresters of America begun here today. About 300 delegates were present, representing 18 states. Supreme Chief Ranger John J. O'Grady called the gathering to order and responded to the addresses of welcome. At the close of the public exercises the convention went into executive session to receive the reports of officers.

### RETURNS FROM ABROAD.

#### J. E. Goodman Back From Visit to Foreign Points.

Mr. J. E. Goodman has just returned from a trip through England, Germany, Belgium and other European countries. Mr. Goodman has spent the last two months traveling in this country and abroad, and reports a very pleasant and profitable trip.

### On the Pugilistic Calendar.

Boston, Mass., Aug. 24.—The Army Athletic Club has prepared an interesting card of boxing bouts for its opening show of the season tonight. The wind-up will bring together "Honey" Melody and Billy Rolfe in a 12-round bout. Matty Baldwin and Johnny Lynch will meet in the preliminaries.

## MILITIA IS PATROLLING STREETS OF MEADVILLE

By Associated Press. Natchez, Miss., Aug. 24.—Quiet prevails in Meadville today and Sheriff Jones announces that he can cope with any trouble that may arise because of the attempted assassination of Ernest Newman chancery clerk, on Sunday night.

### MADE GOOD GET-AWAY.

#### Fire Department's Good Showing This Morning.

Fire fighting under difficulties was the fire truck this morning. He responded to the alarm in his night clothes and trouser ads etfrnhscjv clothes and trousers, and after a fifteen second get-away, made a quick run with the host in his bare feet until some of the other firemen arrived to help him. It has been suggested that several of the unmarried firemen be given free lodging at the station to obviate the necessity of such circumstances as this.

### ROOMERS SMOKED OUT.

#### Were Compelled to Escape From Beds in Night Clothes.

The roomers in the apartment over the building at 7th and Indiana Avenue were compelled to leave their rooms in their night clothes when the fire broke out this morning. The smoke poured in through the open window and came near suffocating some of the young men and all were glad to get out with their lives and such clothes as they could hurriedly grab. Later they saw there was no danger and were able to return.

## RUMORS OF APPROACHING PROHIBITION ELECTION

It has been rumored persistently for some time that Wichita county is to become the scene of the next local option campaign and a recent article in "Home and State" the official prohibition organ, strengthens this rumor.

W. J. Bullock, who was chairman of the prohibition committee in the last campaign two years ago, states that so far as he knows there is no such movement under foot, but it is not known what plans the State leaders have for this county. The two years which have elapsed since the last election expire next fall.

In the last election, Wichita county voted "wet" by about fifty majority. The county has only one saloon outside of the City of Wichita Falls. The rumor of a local option campaign here is believed to have emanated from Clay county where the fact that this county is wet is said to be having some effect on the coming election there.

The local prohibition leaders profess ignorance of any such movement, but it is not at all unlikely that the state leaders will make this city the next battle ground.

## STORM RAGES TODAY IN GULF OF MEXICO

By Associated Press. Lake Charles, La., Aug. 24.—Strong winds and a heavy incoming tide in the Calcasieu River indicates that a severe storm is raging in the gulf. There is no means of communication with Cameron, at the mouth of the river, until the regular steamer arrives late today. It is feared the gale has done much damage to rice that is now ready for harvest, much of it being uncut.

### Texas News Service Special.

Galveston, Aug. 24.—Heavy storms are still raging far out in the gulf, but so far no damage has been reported to shipping. Rice fields near Lake Charles, La., however, have been heavily damaged, and it is feared rice fields in other places along the coast may also be damaged.

## STORE BUILDING IS DESTROYED BY FIRE

### EARLY MORNING BLAZE BURNS STRUCTURE OCCUPIED BY W. E. SKEEN.

## LOSS IS TEN THOUSAND

### Neighboring Buildings Saved By Good Work—Explosion at Stampmill's.

W. E. Skeen, dry goods stock ..	7,000
Stonecipher estate, building ..	2,500
V. E. Stampmill, roof .....	500
Jones building and occupants ..	500
Total .....	\$10,500.

Fire at 3:30 this morning, originating in the store of W. E. Skeen at 715 Seventh street, destroyed property to the value of over ten thousand dollars and for a while threatened to wipe out a considerable section of the business district. The building and stock are a total loss, practically nothing being saved from the flames. The loss on the stock is about seven thousand dollars, of which five thousand is covered by insurance. The building which was worth about twenty-five hundred dollars, was insured for two thousand.

Good work by the firemen prevented more extensive and more serious losses. Immediately east of the burning building was the Farmers Bank and Trust Co., which was saved with no further damage than was done by the water soaking through the roof.

The fire is supposed to have originated in the electric connections in the rear of the store and the electric iron is believed to be the direct cause. This was in the rear of the store and the fire had been burning for some time, probably, before it was discovered by a waiter in the restaurant across the street. He and the night watchman discovered it at the same time and both at once turned in the alarm, the fire department arriving to find the building blazing fiercely and threatening to make a very serious fire.

Two streams of water were at once brought on the fire, but were not effective at first on account of the poor pressure. This soon began to improve, however and the department did excellent work, confining the fire very closely to the building where it originated, neighboring structures escaping comparatively lightly. Soon after four o'clock the roof of the Skeen store gave away and crashed in, making the building a total wreck.

Neighboring buildings did not escape. After the fire had been in progress about half an hour, a loud explosion was heard in the rear of the Stampmill building just west of the burning store, and he roof was rendered a total wreck. It was at first thought to be caused by gas, but the gas company denies this, declaring the explosion was due to the dust. The tin roof was rolled up into billows and waves and the total damage to the building amounts to about five hundred dollars.

Law offices over the Farmers' Bank

## THREE HUNDRED DIE IN BOAT COLLISION

### HOLIDAY CROWD AT BUENOS AYRES MEET DEATH IN BAY OF MONTEVIDEO.

## NO CHANCE OF ESCAPE

### End Comes Quickly and Surely—Captain Tries to End His Own Life.

By Associated Press. Buenos Ayres, Aug. 24.—Nearly three hundred people, mostly women and children, met death today in Montevideo harbor when the vessels Argentina and Columbia collided and the latter sank so quickly that all attempts at rescuing the passengers were futile.

The steamers were carrying a holiday crowd from Buenos Ayres to a festival at Montevideo. One was a German steamer, used for local passenger service. Its captain was saved, but it is said that all but a very few of the passengers were drowned.

The captain of the sunken vessel had to be restrained to keep him from ending his life.

and Trust Company, in the Jones building, also suffered, the fire entering through the windows. Montgomery and Britain lost a number of books by fire and a number more were ruined by the water. Judge Montgomery's desk, in his private office, a new one, only recently purchased, was practically ruined, being adjacent to the open window.

The efforts of the department to keep the fire from spreading to this building caused the water to soak through the second floor down into the bank, where the damage to furniture, stationery and fixtures is appreciable. The building on both sides of the Skeen store are scorched badly, but not to any great extent.

No one was injured during the progress of the fire except a young man who collided with a live wire and was badly shaken up. The fire was watched by about a thousand people, despite the ungodliness of the hour and some of them, not content with being merely spectators, made themselves very much in the way of the firemen, getting hold of the rubber coats of the latter and hindering things in a very disagreeable way. Some of the coats have not been returned and the fire department urges that they be brought back at once.

Chief Stampmill was on the ground through the progress of the fire and kept things moving in a lively manner. Until the wires were cut there was considerable danger from loose wires but the members of the department managed to keep out of the way of them.

The building occupied by the Skeen store is the property of the Stonecipher estate and is valued at \$2,500. It is one of the oldest business buildings in the city, having been standing for about twenty-five years. The management of the estate has not de-

clined yet whether to rebuild or not, but it is more than likely that the old structure will be replaced at an early date.

The explosion in the Stampmill building was one of the exciting features of the fire, it wrecking the rear of the store and causing the roof of the Skeen building to fall. The gas company people deny that it was an explosion of gas, saying that it was what is known as a dust explosion.

The interior of the Skeen store is covered with dry goods and articles of clothing, charred and ruined by the flames and the entire store is a total wreck, practically nothing was saved, The safe and contents are intact.

Last night's fire is the worst this city has suffered since the destruction of the broom factory three years ago.

W. L. Kemper, the electrician, made an examination of the electric iron thought to have caused the fire in the Skeen store, which bears out the theory advanced by Mr. Skeen. The iron was used late yesterday, and from the indications of the iron coil in the iron, the current was not turned off, as the inside packing of the coil was burned out, while the outside remains intact.

## HASKELL, OF OKLAHOMA, IS DALLAS GUEST TODAY

Texas News Service Special. Fort Worth, Texas, Aug. 24.—Gov. Charles N. Haskell, of Oklahoma, accompanied by Mrs. Haskell, arrived here this morning in a driving rain. They were met by Geo. A. Carden of Dallas, who escorted them to that city to attend the army maneuvers.

Only a few people were at the station. Haskell said: "I am not a politician, never was and never will be. I will retire when my term ends and I long for the simple life." Haskell scored Speaker Joe Cannon in connection with the new tariff law and declared that neither Oklahoma or Texas will benefit from this bill.

### MILITIA ON HAND.

#### McKee's Rock Situation Seems to Be Thoroughly in Control.

Texas News Service Special. Pittsburg, Pa., Aug. 24.—The armed guards at the pressed car plant were augmented today by the arrival of Troop B, of the constabulary. Strikers and sympathizers are busy making preparations to bury their comrades killed in Sunday's riot. About a thousand imported men are working in the car plant today. Reports from hospitals state that all the injured are improving.

Two hundred styles of pocket knives at Wichita Hardware Co. 88-tfc

## BAILEY-CAMPBELL BOUT MAY BE SEEN SHORTLY

Texas News Service Special. Denison, Tex., Aug. 24.—The fact that Bailey, Campbell and Haskell will speak here the same day from the same platform next month, is significant and will attract great crowds from all over Northern Texas and Oklahoma.

The reports that Campbell may try to run against Bailey for Senator adds interest and it is believed both men will probably make the announcement and declare their attitude toward each other. There is a possibility of one or the other being unable to speak on that date, but so far they have accepted invitations and it is expected they will be here.

Haskell's presence will not have any bearing on the political situation, save that his retirement may result in some interesting developments.

It is a problem whether there will be fireworks or a love feast, and the possibilities are it will be the latter.

### ANOTHER BIG MEETING.

#### Rev. Hamlin Spoke to Large Crowd Last Night.

The revival at the tabernacle was the scene of another very successful meeting last night and Rev. Hamlin delivered a very effective and strong sermon. Prof. Dougherty's singing was again a feature and the meeting was a successful one in every way. It was attended by a crowd that compared favorably with that of Sunday night.

Marie Nielson Company in a new 88-1t

## MILITARY COMPANY TO BE ORGANIZED

### THIS CITY SOON TO HAVE REPRESENTATION IN TEXAS NATIONAL GUARD.

## TO MEET FRIDAY NIGHT

### Will Include About Fifty Young Men—Details are Already Under Way.

A meeting of the young men if this city who desire to become members of the military company which is to be organized, has been called for next Friday night at the city hall and is hoped to put the organization well under way at that time.

The movement was started only a few weeks ago, but a number of enthusiastic young men have already signified their willingness to become members. About forty or fifty will be mustered and drilled into a good company. This city formerly had a very efficient company, but lack of interest caused it to disband and Wichita Falls has not been represented in the militia for several years.

D. M. Perkins of this city, who is an ex-soldier of considerable experience, will probably be chosen captain of the company, as he has signified his willingness to serve and there are several others among the members who have had experience in military lines and these will probably be elected to the lieutenantships. It is proposed to hold weekly drills and the Odd Fellows hall has already been secured as an armory. The State encampments will be participated in and the company hopes to make a success of things from the start.

## WICHITA WINS NO-HIT GAME FROM VISITORS

### Wichita Falls 1, Farmersville 0.

A complete reversal of form by the locals, assisted by an invincible pitcher, encompassed the defeat of Farmersville yesterday afternoon, the visitors failing to secure either a hit or a run. Faree, a former Farmersville boy, pitched for the locals and if he felt any bonds of sympathy between himself and his former team-mates, he failed to show it, as he allowed only five of them to get to first, and only one to struggle as far as third.

Luck Wright, for Farmersville, did scant pitching himself, as he allowed only three hits, which were kept sufficiently scattered. Wichita's only score came in the second inning on three errors, Huff sliding home under the catcher's nose, for the only run of the game.

Two more games have been added to the series, and there will be three more counting today's. Hotchkiss or Collier will probably pitch today for Wichita Falls and Millions for the visitors. Some fast ball is looked for.

### THE SCORE:—

Farmersville 0 00 000—0 0 4  
Wichita Falls 010 000 000—1 3 4  
Batteries—Wright and Nallor; Farree and Connor.

### Marriage Licenses.

H. C. Fronsberger of Big Springs and Miss Olive Mae Peter of Olney.  
W. B. Mackey of Hillsboro and Miss Lula Kegans of Wichita.

## HARRIMAN SPEAKS IN VERY OPTIMISTIC TONE

Texas News Service Special. New York, N. Y., Aug. 24.—E. H. Harriman, who is approaching New York after several months sojourn in Europe sent the following interview to the Associated Press by wireless: "My condition is good. The condition of American crops makes the outlook bright, and business conditions for the future are safe. The views expressed by me on June 1st, before leaving the United States have undergone no change." The views then expressed were optimistic as to the business outlook.

#### MEET AT PROVIDENCE.

United American Mechanics In Session Here Today.

Providence, R. I., Aug. 24.—Delegates from nearly every state of the Union filled Odd Fellows hall at the opening of the sixty-third annual convention of the Grand Council of the Order of United American Mechanics. National Councillor, John M. Hornbaker of Scranton, Pa., presided over the initial session, which was devoted to the work of organization and routine business. A big parade will be given tomorrow and the convention will close Thursday with the election of officers and the transaction of unfinished business.

The Order of United American Mechanics was organized in Philadelphia in 1845. Its first inception was for the promotion of mechanics and workmen alone, and for a few years none but operative mechanics and workmen were admitted to membership. But the great interest of the principles involved in its existence caused a departure from the original plan, and the by-laws were changed so that any American born citizen of good moral character, regardless of trade, profession or calling in life, became eligible to membership.

Reports prepared for presentation to the present convention show the affairs of the order to be in a flourishing condition. The total membership numbers 37,000, divided among sub-councils and 14 states councils.

#### TRAP CONTEST.

Pacific Coast Handicap Shoot Is Attraction at Seattle.

Seattle, Wash., Aug. 24.—Amateur and professional trap shooters, numbering almost 100 from many parts of the United States and Canada, and including the best in both countries, faced the traps at the West Seattle Gun Club grounds today at the opening of the big Pacific Coast Handicap tournament under the auspices of the Interstate Association. The program of events covers three days, during which time a number of handsome trophies and several thousand dollars in added money will be distributed among the winners. Fred Gilbert, Tom Marshall and a number of other noted professionals are included among the contestants.

Remember we are prepared to do all kinds of sanitary plumbing on short notice.

WICHITA HDW. CO.

#### MORE ABOUT "LO" THE NEW PREMIER COMIC OPERA.

The most pretentious and costly musical organization ever produced in Chicago is "Lo," the production which the Harry Askin Co. have been rehearsing for the past month at the Grand opera house and which, after the week of August 29th at the Davidson theatre, Milwaukee, and a short tour of other cities of the Northwest, returns to the road for a long run.

There are two acts and three scenes in "Lo" but so many costumes, trunks, such massive scenery and innumerable "props" are required that Mr. Askin has found that it will take three sixty-foot baggage cars to transport it all.

There are thirty-two chorus girls, eighteen chorus men, fifteen principals, while the carpenters, electricians wardrobe women and executive staff will make the organization number seventy-five or seventy-six people.

"Lo" was founded on the story by O. Henry, most celebrated of today's magazine writers, published in Colliers Weekly last fall under the title of "He Also Serves," and O. Henry himself, in collaboration with Franklin P. Adams has written the book and lyrics.

A. Baldwin Sloane, composer of "The Gingerbread Man," "Jack and the Beanstalk," "The Mocking Bird" and dozens of phenomenally popular songs of the past decade, contributed the eighteen musical numbers of the score.

There is a snap and a swing, a rhythm and musical tunefulness to his songs which have an inimitable charm.

John E. Young, the Johnny Hicks in "The Time, the Place and the Girl" for the past two years, heads the cast and his part is much similar to that of Hicks, giving him not only lines and situations of infinite humor, but also giving him an opportunity to sing four or five songs and dance as only he can, backed up, in the majority of instances, by the stunning chorus. Dorothy Brenner, Annette Hall, Elizabeth Goodall, Juliet Lange, Mabelle Moyles, David Kirkland, James A. Reynolds, Robert Wilson, George A. Leming, Harry Jones and Guy Primeau are others in the cast.

The entire production has been staged by Edward P. Temple, the stage director who originated and produced the spectacles which made the New York Hippodrome in its first two years of existence the most famous playhouse in the world.

## UNTIL ALL ARE SOLD

We are Selling all Our WARM WEATHER GOODS at  
**Ten Per Cent Reduction**

Not because they are old and out of date but because we don't want to carry them over another season and then be compelled to offer you old goods at much greater sacrifice. 10% reduction looks small compared with some of the great Clearance and Cost Sales that have been "pulled off" in Wichita recently, but it is a well known fact that the public can't be fooled with a fictitious Hardware Bargain Sale. Therefore, we are selling

**All our nice new Hammocks, Lawn Mowers, Water Coolers; Gas, Gasoline and Oil Stoves, Ice Cream Freezers and Screen Doors at just 10 per cent less their regular selling price**

REMEMBER we have a complete stock of Builders Hardware, Tools, Cutlery, Tin and Enameled Ware, Plumbing goods, belting, valves, fittings, electrical goods, etc. All kinds of tin or sheet iron work done in our work shop and piping buildings for natural gas.

### QUEEN OF AIRSHIPS.

Huge Craft Being Built For Paris to London Flight.

MOST POWERFUL OF ITS KIND.

It Will Have a Capacity of 227,500 Cubic Feet, Two Propellers Driven by Two Motors of 220 Horsepower Each. Expected to Make From Thirty-five to Forty-five Miles an Hour.

The announcement made the other day by Arthur Phillip Du Cros, secretary of the parliamentary aerial defense committee in London, England, that an air voyage from Paris to London would be made presently by a hitherto unknown airship was followed the next day by an announcement that the ship in question is being built by the Surcouf company in Paris.

Mr. Du Cros said that negotiations had been in progress for a long time with regard to this ship, which would be the largest and most powerful of its kind yet constructed. It will have a capacity of 227,500 cubic feet, will have two propellers driven by two motors of 220 horsepower and will carry twenty-five passengers, in addition to supplies and petrol sufficient for 700 miles. The speed will be from thirty-five to forty-five miles an hour, and the ship can ascend to a height of 6,000 feet.

The aerial defense committee has secured an option on the purchase of this ship by the nation, and it appealed for a sum sufficient to build an airship garage big enough to hold it during the period of its trials in England. The London Daily Mail has agreed to furnish such a garage provided the committee will arrange to keep the ship in England for a month.

The Surcouf ship is of the demi-rigid type, partly protected by a metal understructure on which it rests. Its shape will be something like that of a torpedo, the thickest end in front. The balloon tapers back to the rear, where there is a series of protuberances, horizontal and vertical, with the purpose of giving stability to the craft.

There will be a large vertical plane below the gas bag and a series of horizontal planes attached above it, these serving the purpose of elevators, which assist the vessel in rising without the sacrifice of ballast, as they act like the main planes of an aeroplane.

The balloon is provided with a balloonette for economizing ballast and gas. The car is of aluminium, divided into a series of compartments for the passengers and crew. These compartments are knit together by the main framework of the ship.

In the course of an interview Mr. Du Cros said he hoped the vessel would be ready for its first voyage in September.

"The parts are now being assembled at Clement's works, near Paris," he said. "Clement has the true sporting spirit. He offered to bring the vessel to England without any condition whatever as to its purchase. When it does come it will bring eight or ten passengers, including Clement and myself."

#### PLAN FOR CHEAPER MEAT.

Pittsburg's Mayor Proposes to Start a City Abattoir.

According to plans of the department of health, Pittsburg will go into the butcher business. It is the intention to inspect all cattle, sheep and hogs before killed for consumption in Pittsburg and also place the official label of approval on the carcass before it is permitted to leave the slaughter house.

The object of the city abattoir, according to Mayor Magee, is to save the butcher at least \$5 on each animal. The city butchers will slaughter and dress each animal free of cost to the butcher, and carcasses will be placed in freezing rooms. The city's pay for the work will be those parts of the animals not fit for consumption, including the hide, horns, bones, hoofs, heads, etc.

#### AEROPLANE NOVEL NEXT.

D'Annunzio Coins 140 New Words For the Italian Language.

Signor D'Annunzio is at work on an aeroplane romance. He is a most enthusiastic student of aeronautics, which he considers to be the most fascinating and romantic of pursuits.

On starting to write this novel he found, according to a Rome dispatch, that the Italian language did not contain words capable of describing the various parts of an aeroplane, and D'Annunzio has been conferring with Lieutenant Calderara, the aviator, who has helped him to translate into Italian all the more important Anglo-French words which have become part of the science of aviation.

D'Annunzio says he has created 140 new Italian words to appear in his novel.

#### Orchid Show in 1910.

Orchids of the rarest varieties will bloom in the exhibition halls of the Massachusetts Horticultural society in the show to be held next year in Boston from May 26 to 30, inclusive.

One thousand dollars and a gold medal are offered for the best collection of orchid plants in flower, arranged for effect. The second prize for this class is a silver medal and \$500, the third a bronze medal and \$250. Prizes are also offered for the best recently introduced orchid plant, the best new seedling orchid plant and the best collection of cut orchids of new varieties.

#### GASOLINE STOVE EXPLODED.

Girl Dead and Mother Badly Burned at Sulphur, La.

Sulphur, La.—Francis Keat, aged 20, a pretty Greek girl, is dying tonight and her mother, Mrs. Cetemine Keat, is seriously burned about the neck and arms as a result of a GASOLINE STOVE EXPLOSION. The girl's clothes caught, and her mother, in trying to save her, was also badly burned.

## HEADQUARTERS FOR THE LADIES AT KIRSCH'S

Don't buy anything in Ladies' Ready-to-Wear or Millinery until you have seen our line. We are now receiving word daily from our Mr. Kirsch, who is now in New York City, telling of the many clever things he is buying that will be most pleasing to the Ladies of Wichita, who like to dress Korrekctly. Our Mr. Kirsch advise that the many new things being brought out in New York City today requires his service there until September. By doing so, we please the Ladies of Wichita in the big city class when it comes to getting stylish wearables. Our Mr. Kirsch also buys for more than one or two stores, which enables us to give you the right prices on the right goods. Our Millinery department will also be complete and of the finished kind. Our Milliner, Miss Myrtle Harner, has just arrived from St. Louis, and tells of many good things she has got for the Ladies of Wichita, for Korrekct headgear. Remember Ladies, we have the only up-to-date, Ladies' Ready-to-Wear store on the Denver Road.

Remember Kirsch's For Korrekct Klothes

### WEATHER FORECAST.

For Wichita Falls and Vicinity  
—Tonight and Wednesday, partly cloudy weather. Showers tonight or Wednesday.

Wichita Falls Times: According to Harper's Weekly, Joe Cannon authorized the statement that he will not be a candidate for re-election, possibly that pronouncement would sound better without the "possibly," but even as it is, it has a refreshing sound. Even a tariff-darkened cloud may have a silver lining. Harper's goes on to suggest that Cannon doesn't fear being defeated for Congress as much as he does being defeated for Speaker. If he should run for the Senate, as he threatens that wouldn't be so bad. He certainly wouldn't be any worse than some already there, and he and Lorimer would make a good pair. These reflections are hopeful, but not so much as is the suggestion of an appropriation to buy Joe an automobile. Fatal auto accidents are quite numerous, and a dead Congressman revises no tariffs.

There need be no doubt that Hon. Joe Cannon will run again. That he will be elected is almost equally certain. And that he will be chosen Speaker is wholly within the probabilities. "The interests" are running the National affairs of this country, and Hon. Joe is too valuable to them to be dismissed.—Dallas News.

The story that mosquitoes are impeding trains in South Texas will not be doubted by anyone who has ever come in contact with the vicious, virulent, vehement, vengeful and voluble specimens that infest that section of the globe. Wichita Falls Times.

It is something unusual to hear of the troubles down Galveston way with the mosquitoes, but not so bad as the story told by a fellow who went into the jungles of Africa. He took an iron safe with him and one day the insects followed him and so bent were they to bore holes into his body that he went into his big safe and shut the door. The mosquitoes made the attack and drove their bills through the walls of the safe and he simply clinched them inside. When they had covered the safe they took wings and flew off and sat him down with his iron room on a beautiful hill, about where he wanted to go. The story stops here and if anybody has one that will beat it pass it along.—Sherman Democrat.

The State Health officer of Iowa has started an anti-kissing campaign. After viewing a picture of him, no one would wonder that he should be rather soured on the kissing proposition.

Former Police Commissioner Bingham of New York says that the graft there amounts to one hundred million a year. Pittsburg and San Francisco have a lot to live up to.

Harriman's physicians predict that he has but a short time to live. Look out, below!

## Bank Talk

No. 6

This Bank

Will operate under the Guarantee Deposit law recently enacted by the Legislature.

This is only one of the advantages we are in position to offer our customers.

FARMERS' BANK and TRUST CO.

Capital and Surplus, \$80,000.

in Buffalo, he himself to learn after reading a joke. Dispatches fail to state what the joke was on him, but whatever it was, it is on him.

Harry Thaw has written a short fiction story to prove that he is sane, but reading the article is inclined to bring one round to the judge's view-point.

Advices from Petroia are to the effect that the little burg is making a noise like a city. City-building comes natural in this part of the world.

Dispatches announce that Roosevelt recently killed a bull elephant, but fail to state whether it was penned up, or merely chained to a tree.

Of course, it would be very poor manners to move some of the soldiers at Dallas to the other end of the inter-urban for a few days.

The boy king of Portugal is said to be very fond of kissing, which shows that even being a king has some compensations.

After that Sutton inquiry, Texas' reputation for farcial and profitless investigations bids fair to be seriously impaired.

The aeroplane hat is the latest and prediction is that they will go high, in every sense of the word.

It takes a hot wave to make us realize how cool it can be with the thermometer at ninety-seven.

It is about time for the annual yellow fever scare in South Texas.

### Nielson Company Good.

The Nielson Company opened a weeks' engagement at the Auditorium last night to a crowded house and judging from the applause and laughter the play and company pleased immensely. Miss Nielson is winsome, charming and a very clever soubrette. Her work last night was right up to the mark and was full of life and ginger. Mr. Gilgo as Mason the gambler looked and acted his part to perfection. Mr. Roscoe as Alex, Mr. Osgood as Le Mayne and Mr. Guthrie as Bixby were all well cast. The Misses Allens also lent good support. The specialties were real vaudeville and well enjoyed by all.

Tonight Miss Nielson plays 'A Mountain Wildflower.'

### Trial of the South Carolina.

Washington, D. C., Aug. 24.—Much interest is manifested in naval circles in the results of the official trials of the battleship South Carolina, scheduled to begin today over the usual course off Pockland, Me. Among the naval experts who have followed the progress of the construction of the battleship confidence is expressed that she will meet all the requirements of her contract, which calls for a speed of 18 knots.

### The Mountain Wild Flower.

Is the bill for tonight at the Auditorium. The Nielson Company made good last night as was evidenced by the round after round of applause from a large house which was well deserved.

### Now Open.

The new shoe store on Eighth street is now open with an up to date line of foot wear for men, women and children. Goods arriving daily. Will have a complete stock in a short time. Call and see us.

### What Olive Oil Will Do.

Suppose you knew that the use of a gallon or two of olive oil in your cooking during the next 6 months would improve the health of each one in your family and would actually keep them from sickness and a doctor's bill. Do you think you would hesitate about spending the few dollars that the oil would cost? Of course you wouldn't. Well there are a great many cases on record where the regular use of Olive Oil has improved the health and weight of people who were not at all well, has given them more energy for their work and has actually helped some people to get well when doctors and medicines have failed.

Olive Oil has no magic about it but it feeds the blood and drives out of it impurities by putting into it just what the body needs to keep it strong, well and healthy. You can't afford not to use it constantly. We sell more of Monarch than any other and have it in 1-2 pt. bottles at 40c, pint bottles at 75c. We also have Heinz's Olive Oil in 50c bottles.

### FROM ACTIVE SERVICE.

**Rear Admiral Swinburne Retires After Fifty Years.**  
Washington, D. C., Aug. 24.—Today, after a career of nearly fifty years of faithful and efficient service in the navy, Rear Admiral William T. Swinburne was placed on the retired list for age. Rear Admiral Swinburne is a native of Rhode Island and entered the naval academy at Annapolis in 1862. In his early career as an officer he saw service in nearly all parts of the world. He had a part in the destruction of the Spanish gunboats and transports at Manzanilla in 1898, and subsequently was stationed for more than a year in the Philippine waters. In 1902 he was given his first important command, that of the battleship Texas. A year ago he succeeded to the command of the Pacific fleet and retained that command until May 28 last, since which time he has been on duty in connection with the summer conference of officers at the Naval War College. Being an additional number in the grade of rear admirals, his retirement does not create a vacancy in that grade.

**'THIS DATE IN HISTORY.'**  
August 24th.  
1572—St. Bartholomew's massacre.  
1764—Rt. Rev. John Du Bois, third Roman Catholic bishop of New York, born in Paris. Died Dec. 20, 1842.

1814—City of Washington burned by the British.  
1847—Republic of Liberia inaugurated  
1854—City of Milwaukee almost destroyed by fire.  
1860—Prince of Wales opened the Victoria railway bridge at Montreal.  
1866—The New York papers for the first time were able to print cable news from Europe of the previous day.

1884—Fochow, China, bombarded by the French.  
1894—Thirty-seven miners killed by explosion at Franklin, Oregon.

**'This is My 47th Birthday.'**  
Dr. Samuel A. Elliot, president of the American Unitarian Association, was born in Cambridge, Mass., August 24, 1862, the son of Dr. Charles W. Elliot, late president of Harvard University. He was educated at Harvard, graduating in 1884. In 1898 he was appointed secretary of the American Unitarian Association. Previous to that time he had occupied pulpits of leading Unitarian churches in Denver and Brooklyn. Dr. Elliot continued as secretary of the American Unitarian Association until 1900, when he was elected to the presidency of the association. Among the members of the Unitarian denomination throughout the country he is well known as a forceful speaker and an able writer.

**Capture of Washington.**  
Washington, D. C., Aug. 24.—In connection with the recent military maneuvers on the Massachusetts coast and the sham attack on Boston it is not without interest to recall the fact that ninety years ago today the city of Washington was captured by a British army of 4,000 soldiers under Gen. Ross. The capital was abandoned to the invaders almost without a struggle, President Madison and other leading officials of the government having abandoned the city before the approach of the enemy. After taking possession of the city the British attempted its destruction by fire. The congressional library was destroyed, and the capitol, the White House and many other buildings were seriously injured by the flames.

**For Sale or Exchange.**  
One omnibus, 3 landaus, 3 broughams, 1 coupe, and 1 gurney. These vehicles, although somewhat used, are in best condition. Price, \$2,000. Will take real estate or stock in trade.

## WORLD TOUR IN AUTO

Remarkable Journey to Be Taken by American Woman.

### PURELY A PLEASURE TRIP.

Mrs. Harriet Clark Fisher of Trenton, N. J., Will Carry Complete Camping Outfit, Including Rifles and Revolvers, in Her Motorcar—Novel Plan for Receiving Fresh Supplies.

Mrs. Harriet Clark Fisher, widow of Captain Clark Fisher, U. S. N., has announced her intention of taking a trip around the world in an automobile. In the near future she will ship her large touring car to either Southampton or Liverpool to start on her globe girdling journey. The route will lie through England, Ireland, Scotland, France, Germany, Italy, Egypt, India and Japan. From Japan Mrs. Fisher will go by steamer to San Francisco and upon arrival in the United States will travel in her motorcar across the continent, ending the round the world tour at her home in Trenton, N. J.

This is a remarkable undertaking for a woman, but Mrs. Fisher does not fear to attempt the trip.

Mrs. Fisher says the trip will be "purely a pleasure tour," in spite of the natural obstacles that must be overcome. She believes the trip to be feasible and will make careful notes regarding the road conditions and route, so that other women who desire to make the same journey may profit by her experience.

The only extra equipment on her car will be a thirty-two gallon gasoline and oil tank. This tank will have sufficient capacity to supply fuel and lubricating for a 400-mile journey on one filling. Mrs. Fisher's car is a forty-horsepower four passenger stock roadster automobile. The regular mechanism of the car, such as the motor and transmission, has not been re-enforced or specially built in any manner. The wheels are of maximum diameter, so as to give the greatest amount of clearance.

A series of luggage racks has been attached to the tonneau to carry the camping outfit that will be necessary. There will be a tent, cooking utensils, a stove, rifles, revolvers and ammunition. Mrs. Fisher is an expert shot with the rifle, and she intends to do some big game hunting if the opportunity presents itself.

There will be four persons in the party—Mrs. Fisher, Harold Fisher Brooks, a relative, who acts as Mrs. Fisher's secretary; a maid and a manservant. The manservant, Albert, will go in the capacity of mechanic and chef. He will also take his turn at driving the car, alternating with Mr. Brooks. Mrs. Fisher will ride in the tonneau with her maid during most of the journey.

Mrs. Fisher has made a novel arrangement with one of the large express companies which will enable her to receive fresh supplies of clothing, etc., during the journey. The company has contracted to transport a maid and baggage from point to point by boat or railroad anywhere on the globe so as to meet the motoring party at scheduled dates.

The first part of the trip will be pleasant and easy enough. It will be over the splendid roads of England, Ireland and Scotland. The tour through France will also be delightful. After touring France the party will drop down into Italy, staying for a time at the Villa Carlotta, Mrs. Fisher's beautiful home in the mountainous country near Urien. The estate borders Lake Como and was formerly the property of Signor Roosa. It covers several acres. The villa was built in the fifteenth century, but it is nevertheless modern. It has thirty-seven rooms.

Upon leaving Italy the party will go to the orient. Here the first of the real traveling difficulties will be encountered, judging from the accounts supplied by the drivers in the famous New York to Paris automobile race of last year. Egypt, once the epitome of the world's learning; India, the land of mystery; the Russias, with their traditionally despotic laws—all of these places are to be visited by the motoring party.

It is Mrs. Fisher's plan to reach Japan in time for the cherry season. The motoring party is likely to encounter trouble in those islands in taking the heavy motorcar across the bamboo bridges of ancient construction that were built only to hold the light jinrikishas.

When San Francisco is reached the automobile party will spend some time motoring through California, the roads of that state being splendid. Then the eastward trip across the continent will begin. The Rocky mountains and the slopes of the golden west will give Mrs. Fisher and her party trouble. Mrs. Fisher insists she will make her car go under its own power from start to finish.

Mrs. Fisher has been preparing for some time for the round the world tour. As a preliminary she is touring in the United States now, making the journey from New York to Baltimore, Washington, Pittsburg, Youngstown, Cleveland, Toledo and several western cities. When she finishes the trip at New York the car will be crated and shipped abroad.—New York Times.

Cactus For Papermaking. Successful experiments are being made at Port Elizabeth, South Africa, with cactus as a source of paper stock. The supply is unlimited, and the use of this material in place of wood pulp would be a great aid toward preserving forests.

### LAWYERS MEET.

American Bar Association in Session Today at Detroit.

Detroit, Mich., Aug. 24.—For the second time in her history the city of Detroit has the proud honor of entertaining the American Bar Association in annual meeting. The gathering had its formal opening today, and the sessions will continue over tomorrow and Thursday. Several hundred members, representing the pick and flower of the legal profession and every section of the country, are here to take part in the deliberations. An executive session of the general council was held at headquarters this morning preceding the formal opening of the convention. Final arrangements for the three days' session were perfected. The chief features as provided in the program are to be the addresses of the president, Frank W. Lehmann of St. Louis, and the annual address, to be delivered by Governor Augustus E. Wilson of Kentucky. President Lehmann has selected for his subject, "Changes in State and Federal Laws During the Year."

Bring your job and repair work to the shop of the Wichita Hardware Co. we will do this class of work with despatch and neatness. 88-tfc

Democrats of Massachusetts will meet in convention in Faneuil Hall, Sept. 30, to name a candidate for Governor and other State officers.

## WOMAN'S WOES

A Certain Cure for Female Trouble and That Tired, Nervous, Depressed Feeling That Makes Household Work a Dreary Burden.

Work, work; Nothing but work; Tiresome drudgery! Work used to be a pleasure, but now a few minutes effort leaves you weak, discouraged and irritable with a feeling that everything has gone wrong.

The liver and bowels are responsible for this.

The symptoms are, heart palpitation, faintness, suppressed, excessive or irregular periods, bad digestion, bearing down pains in the side and back, nervous weakness, poor appetite, costiveness.

Prickly Ash Bitters sweeps away these troubles like magic, because it strikes at the root of the disease—the stomach, liver and bowels.

Women who take medicine for female troubles that does not benefit these organs are wasting money and valuable time. The liver is diseased because the stomach is unhealthy, and both have produced a constipated habit. This stoppage of healthy action in the liver and bowels has filled the system with impurities which have brought on irregularity in the female organs; it follows therefore, that a medicine which will correct the liver, strengthen the stomach and promote healthy bowel operations is the remedy for menstrual difficulties.

The poor, tired, discouraged woman who has suffered silently and so long with the ailments of her sex soon feels the strengthening and exhilarating influence of Prickly Ash Bitters. It does its work thoroughly, beginning with the stomach and extending its purifying and stimulating influence to the liver and bowels. When the stomach, liver and bowels are active and working in harmony, there must be health and regularity in the female organs. As a result of this improved condition the patient takes a renewed interest in her household duties. Appetite and strength return, the eyes are brighter, the complexion clears, and before long she is transformed into a bright, happy woman with rosy cheeks and cheerful spirits.

"I suffered much from indigestion and constipation. I had a drowsy tired feeling and nervous headaches all the time. I began using Prickly Ash Bitters and it has helped me wonderfully. I now have a good appetite, sleep well and can do a greater amount of work than ever before."  
—MRS. MARY NORRIS CUTT, Adel, Mercer County, Mo.
