VOLUME 3

WICHITA FALLS, TEXAS, THURSDAY SEPTEMBER 2, 1909

NUMBER 96

CANYON CITY WILL GET STATE NORMAL

DECISION REACHED BY COMMITTEE THIS MORNING AFTER LONG WRANGLE.

CHOICE IS UNANIMOUS

Little Panhandle City's Bid Was More Than One Hundred Thousand Dollars.

Texas News Service Special. Austin, Texas, Sept. 2.—Canyon City, the highest bidder, was selected this morning for the site of the West Texas Normal, after a long struggle to reach a decision.

The successful contestant's bid was one hundred and one thousand dollars in buildings and improvements and a large tract of land. The committee's selection was made unanimous.

The lieutenant governor and Senator Hudspeth deny that the division over San Angelo occurred because of any influence exerted by the governor and say that the latter city was never seriously discussed.

So vanishes Wichita's hopes for securing this institution. The above dispatch was received by the Times at 2:15 this afternoon and caused little disappointment as this city was realized to be out of the running.

The selection of Canyon City will meet with considerable local favor, and not a few have expressed their admiration for the plucky little city's enterprise in bidding as high as they did. There is some satisfaction, also, that the claims of the Panhandle to some recognition from the state, have at last been given some attention.

Texas News Service Special. Fort Worth, Tex., Sept. 2.—Many dispatches received here show that San Angelo and other cities of West Texas, are aroused over the report that the Fort Worth Board of Trade endorsed Amarillo for the new normal since the latter endorsed this city for a feeding station. The Fort Worth Board of Trade recommended Amarillo for the location during July and protests are likely to result in a meeting of the board to investigate and take suitable action.

DWELLING IS GUTTED.

Home of W. C. Ledford at Eighth and Burnett Visited By Fire.

Fire at 8 o'clock last evening gutted the Home of W. C. Ledford at Eighth and Burnett streets, the five-room house being partially destroyed and the furniture a total loss. The origin of the fire is unknown, as it broke out while the family were at church. Prompt work by the department resulted in the blaze being extinguished with little delay, but too late to save any of the furniture and the family lost everything except the clothes they had on. The building is the property of W. M. Davis who states that the loss on the house is fully covered by insurance. The furniture was not insured and was a total loss. Ledford is a carpenter by trade.

Chief Stampf of the fire department wishes to thank the roundhouse boys and the telephone company for the prompt and efficient way in which the alarm was reported.

JUDGE PENN STRIKEN.

Is Now Very Low from Recent Paralytic Stroke.

Texas News Service Special. Austin, Texas, Sept. 2.—Judge R. L. Penn, one of the Waters-Pierce attorneys and representative of the Galveston Chamber of Commerce, was stricken with paralysis last night and today is in a critical condition. He spent yesterday in his office, working and apparently in his usual good health.

MAY GIVE NEW TRIAL TO EXPELLED CADETS

By Associated Press. Nashville, Tenn., Sept. 2.—After going over the records in the case of Cadet Booker, who was dismissed from the Military Academy on the charges of having Secretary of War Dickinson intimate that an investigation of the case would be re-opened.

Marriage License.

W. L. Swager and Mrs. Gladys S. Black, both of Wichita Falls.

WORK ON NEW ROAD.

New Mexico-Oklahoma Enterprise to be Pushed to Completion. Texas News Service Special. Dalhart, Tex., Sept. 2.—President D. W. Harrington of the Mountain Valley and Plains Railroad, announced today that grading will begin at Cimmaron, N. M., in a few days and that the construction will be rushed to Guthrie, Okla., the eastern terminal.

MURDERER CONFESSES.

Exonerates All Except Himself and the Man Who Suicided. By Associated Press. Newport, Tenn., Sept. 2.—John Cash, who was arrested here, charged with the murder of A. L. Slagle, a prominent lumberman, made a confession exonerating all of the crime except himself and John Spencer, who committed suicide.

INSPECTION TRIP.

Denver Officials Make Tour Over the Wichita Valley.

General Superintendent G. F. Cotter and Consulting Engineer H. W. Cowan of the Fort Worth and Denver have just completed an inspection trip over the Wichita Valley. It is understood the trip was made in view of some contemplated improvements between this city and Abilene.

ANOTHER VICTORY FOR WICHITANS YESTERDAY

Stamford, Texas, Sept. 2.—The local nine was shut out again by the Wichita Falls boys yesterday afternoon, the score being 3 to 1. 'Peaceful Henry' Hotchiss pitched for the locals and while his strikeouts were few, he kept the hits few and far between. Wichita Falls won out in the fourth and seventh innings, most of the runs being earned.

The attendance here is rather disappointing, very few people turning out to see the games.

The score:	R	H	E
Wichita	000	200	100-3 5 2
Stamford	001	000	000-1 4 3

EX-CONFEDERATE DEAD.

Mayor John Felphs, of Jacksonville, Succumbs to Illness.

Texas News Service Special. Jacksonville, Tex., Sept. 2.—Major John Felphs, a prominent Confederate veteran, died here late last night. He was on General V. Y. Cook's staff. The business houses closed this afternoon in his honor.

Whole Carload of Shipping Cases. The Crescent Candy Company today received an entire carload of shipping cases to be used in handling their goods to other points.

BISHOP WM. A. QUAYLES PREACHES HERE SUNDAY

Bishop William A. Quayles of the Methodist Episcopal church, one of the most eminent divines in America, will be in Wichita Falls next Sunday morning and will deliver a lecture on 'Jean Val Jean' at the opera house.

BISHOP WILLIAM A. QUAYLES.

Dr. Quayles is now in Oklahoma, where he has been taking part in the dedication of numerous churches and it has been planned for him to dedicate the new structure now nearing completion in this city. He will be unable however, to be at this city on any other date than next Sunday, and will preach here in the morning instead of dedicating the new building.

You will get good cream cheese at King's store. Phone 261. 82-110

FINISH EXTENSION BY FEBRUARY 1ST

NORTHWESTERN WILL PUSH THE WORK ON LINE TO SAYRE OR ELK CITY.

MATERIAL IS ON GROUND

Plans for Extension to Choctaw Road Are Going Ahead With a Big Rush.

If the plans of the officers of the road are carried out, trains will be running over the Wichita Falls and Northwestern from this city to either Sayre or Elk City, Oklahoma, by the first of February at the latest. Announcement of the determination of the officers to build the extension beyond Mangum was made several days ago in the Times.

The survey was begun this morning and will be pushed rapidly. The speed with which the officers hope to carry the extension through may be understood when it is learned that the material for the construction of the road is already on the way, ready for use as soon as the survey is completed.

It has not yet been decided whether the extension will be to Elk City or Sayre, but this will be settled as soon as the survey is completed. If the plans are carried out, the first of next February will see the trains going through from this city to the Choctaw.

REFUGEES AT LAREDO.

Now Believed Death List Will Reach Three Thousand.

Texas News Service Special. Laredo, Tex., Sept. 2.—Two trains, filled with passengers, arrived here from Monterey this morning. They agree that the total death list due to the recent floods will never be known and that the bodies of the victims are not all recovered. That the list may go as high as three thousand is now believed, as two thousand bodies were found in Monterey, alone. The first train carrying provisions and clothing reached the stricken city today. Eye witnesses told the Texas News Service correspondent that thirty square blocks in the residence section were swept clean.

Rev. Fry and Family Go To Abilene.

Rev. W. F. Fry and family left last night for Abilene to make that city their future home, and at which place Rev. Fry goes to accept a chair in Simmons' College.

For the past two years Mr. Fry has been the pastor of the First Baptist church of this city, and during that time had made fast friends of nearly all with whom he came in contact. He and his excellent family will be greatly missed in Wichita Falls, and Abilene and the institution of learning with which he has connected himself is to be congratulated.

PRISONER SUICIDES.

Wanted for Murderous Assault—He Hanged Self in Cell.

By Associated Press. New Ulm, Minn., Sept. 2.—John Rayner, who is in jail here, charged with firing two bullets from a revolver into State Senator Summerville, a prominent lawyer and politician of Sleepy Eye, committed suicide in his cell by hanging late last night.

DELAYED BY RAIN.

Wet Weather and Poor Roads Hinder Regular Soldiers.

Texas News Service Special. Hillsboro, Tex., Sept. 2.—The Ninth Infantry of the United States Army, en route from Dallas to Fort Sam Houston, will not arrive here today, according to the schedule, but will get here tomorrow, on account of rains at Italy and the bad conditions of the roads.

COLLISION IS FATAL.

Engineer is Killed and Passengers are Hurt at St. Joseph.

St. Joseph, Mo., Sept. 2.—Engineer Howard of Des Moines, was killed and a number of passengers severely shaken up in a head on collision in the St. Joseph yards today between a Chicago and Great Western passenger train and a St. Joseph and Grand Island freight train.

German Yacht Takes Third.

By Associated Press. Marblehead, Mass., Sept. 2.—The German Yacht Hevelia, won the third race in the Sonder Yacht races today after an exciting contest.

BUILDING ACTIVITY HEAVY THIS FALL

SEVERAL NEW STRUCTURES WILL KEEP UP THE PRESENT LIVELY GATE.

MANY PLANS UNDER WAY

Three New Store Buildings and New Factory Structure Are Now Projected.

In spite of the dullness which July and August are supposed to bring in building circles, there has been hardly a cessation in the local activity this year and by the middle of this month there will be as much as at any time during the year. This fall promises to witness very considerable activity in building, among the buildings being:

Wichita Falls and Northwestern depot, \$45,000.
New High School, \$45,000.
Three new store buildings on Eighth below Ohio, \$35,000.
New building at Lake, \$25,000.
New factory for Wichita concern, \$15,000.

These are the buildings, the details of which have already been arranged. To them might be added the new office building at 8th and Ohio, plans for which are practically settled and a number of new residences, which are to be put up. Two new churches, the Wyatt hotel, two new lumber warehouses and numerous other structures are now nearing completion.

RESCUED FROM GULF.

Captain and Five Men Saved From the Schooner Isaac Campbell.

Texas News Service Special. Galveston, Tex., Sept. 2.—The English Steamer Luagon arrived here this morning with Captain G. W. Waldemar and five men of the crew from the American Schooner Isaac Campbell, which sank in mid gulf last Friday.

Captain Waldemar and the sailors were nearly dead when found. The lost vessel was en route to Galveston from Trinidad with an asphalt cargo when overtaken by a hurricane. Herbert Banks and John Robertson, sailors, were swept overboard by huge waves. The men had nothing to eat and only coffee to drink for four days and were nearly famished when they were found.

LEE SIMMONS INJURED.

Dragged by Horse He Was Trying to Keep from Running Away.

A Mexican band which paraded the streets today at noon caused the horse attached to the delivery wagon of the Simmons Furniture Company to become frightened and start off down Indiana Avenue, toward 8th street, with the wagon. Lee Simmons attempted to check the animal by running along side and seizing the reins. He was thrown down and came near being caught underneath the wagon when it overturned. He sustained a sprained ankle and several bruises, but is now resting easily.

Real Estate Transfers.

W. F. Long and Annie M. Long to Mrs. Mattie Bateman, lot 1, block 193; \$4500.

W. S. Smith and wife to H. S. Smith, lot 11, block 121; \$1300.

M. F. and W. C. Mann to Sarah O'Connor, lot 4 and half of lot 3, block 222; \$2250.

National Loan and Investment Co. to W. W. Swarts, lot 1, block C. Kemp addition; \$150.

Mary Friberg to J. A. McSpadden, 128 acres and one acre in (2 tracts) out of the M. Carbogal survey; \$2580.

J. A. Kemp to G. S. Mater, 270x160 feet of the J. W. Stone tract; \$525.

J. T. Hardin to N. G. Parson, 5% acres of J. G. Hardin survey; \$900.

A. H. Britain to W. F. Long, 162x62 feet off lots 5 and 6, block 234; \$1350.

Aero-Plane Factory for Texas.

Texas News Service Special. Dallas, Tex., Sept. 2.—Texans will soon have a chance to fly. The Eagle Aero-Plane company of Dayton, Ohio, writes the Dallas Chamber of Commerce that it is desirous of locating an Aero-Plane factory in Texas. Local capitalists will become interested if it is located here.

Be Quick!—Do It NOW.

Phone 427 for coal and all kinds of feed stuffs. MARICLE COAL CO.

MAGNIFICENT AFFAIR.

Elaborate Plans Made for the Meeting of Taft and Diaz.

Texas News Service Special. El Paso, Tex., Sept. 2.—Presidents Taft and Diaz will be received in this city and at Juarez on their arrival, October 16th, not only by a magnificent military display, but ten thousand school children singing National anthems of the two countries, and by two of the most famous bands of Mexico and at least two splendid military bands of the United States Army, according to an announcement made today.

FINE TROPHY FOR ELKE.

Magnificent Head and Antlers Will Adorn Lodge Room.

One of the largest elk's heads ever seen in Texas will shortly adorn the lodge rooms of the Elks in this city, it having been recently shipped here. The antlers are each over four feet in length and have a total of thirteen points. The trophy will be placed where it will greet the eye of each member as he enters the lodge rooms.

Well-Known Divine Dead.

Texas News Service Special. Denton, Tex., Sept. 2.—Dr. Thomas R. Pierce, one of the best known Methodist preachers in the south, died here last night, aged fifty-seven.

HOSE COMPANY NO. 2 NOW WELL ORGANIZED

Hose Company No. 2 of the Wichita Falls fire department was organized last night at the fire station at the corner of Austin avenue and Fifteenth streets. The following officers and members were enrolled:

Foreman, Alex Kahn; assistant foreman, Frank Collier; secretary, Lester Jones; members, I. A. Deaton, Henry Wilson, Ralph Darnell, A. E. Crowell, Frank Cook, C. A. Davis, Adam Coker, Wyley Fuller, Bruce Fuller, Wade Yeager, Clyde Maricle.

The completion of this company's organization furnishes fire protection in a part of the city where it is very badly needed and where the regular truck hardly ever arrives in time, owing to the distance. This makes the second company of this kind to be organized in the resident district.

MURDER OR SUICIDE.

Body of Young Man is Found Near Taft, Texas.

Texas News Service Special. Corpus Christi, Tex., Sept. 2.—The body of Henry Farrell was found near Taft, Texas this morning with a bullet hole in the head and a gun nearby. It is not known whether he met with foul play or was murdered.

ARRESTED FOR MURDER AFTER LONG FREEDOM

By Associated Press. Fresno, Cal., Sept. 2.—After eluding the officers for eight years, Alva Carter was placed under arrest at Coalinga yesterday upon a charge of murdering a man named Wall at Amite City, La. He has been working in the oil fields under the name of Hungerford. He admits his identity.

Texas News Service Special. Amite City, La., Sept. 2.—Alva Carter, who was arrested at Fresno, California today is wanted in Tangipahoa Parish for the murder of David Wall, a farmer, eight years ago in a field near the Mississippi state line.

OFFICERS IN SHOOTING.

Deputy Constable Kills Deputy Sheriff at Texarkana.

Texas News Service Special. Texarkana, Tex., Sept. 2.—Deputy Constable Melvin Anderson shot and killed Deputy Sheriff Cliff Briley during a quarrel on Broad street on the Arkansas side of town this morning. Anderson later surrendered to the officers and is in the Miller county jail. Briley had drawn a revolver when Anderson fired.

Swager-Black.

On Wednesday evening at the home (built for the bride) Mr. W. L. Swager (late of Joplin, Mo.) and Mrs. Gladys L. Black were quietly married; Justice Brothers officiating.

Mr. Swager is now engaged in the real estate business in this city.

Mrs. Swager has lived here many years and has a host of friends who wish them happiness.

At home to their friends corner of Sixth street and Adams ave.

AMERICAN REALLY DISCOVERED POLE

LITTLE DOUBT REMAINS THAT DR. COOK ACCOMPLISHED WONDERFUL FEAT.

STATEMENT IS ACCEPTED

Scientific World Prepares to Do Him Honor Upon His Return Home.

By Associated Press. Copenhagen, Sept. 2.—All doubt that Dr. Frederick Cook of New York City, has planted the American flag at the farthest northern point possible, and that to him should be accorded the honor of the greatest discovery of modern times, is believed to be cleared away and the discovery of the North Pole is now accepted as a fact.

The expedition was financed by John R. Bradley, an American. It set out early in 1908 and was last heard from about the middle of March. The lack of news since that time caused several relief expeditions to go in search of him, but without success.

By Associated Press. Paris, Sept. 2.—The new success of Dr. Cook when it became known here, created a sensation. Evening papers published accounts of the expedition and while there is a tendency to wait the arrival of Cook at Copenhagen to gain from him the proofs and details the press unites in praising the explorer and offers congratulations to America.

By Associated Press. London, Sept. 2.—After reading a brief summary of Cook's account of his dash to the North Pole, Lieutenant Shackleton, who recently led an expedition to the South Pole regions, said today that nobody had any right to be skeptical and that there was nothing in the explorer's statement but what was perfectly possible. After he got within two hundred miles of the pole and after reaching the pole and after getting back to solid land there was nothing to prevent Cook's living with the Esquimaux until this year.

By Associated Press. St. Louis, Mo., Sept. 2.—All the territory discovered by Dr. Cook when he reached the North Pole will belong to the United States by right of discovery, according to Rev. Cherrypin, professor of astronomy at the St. Louis University. Father Cherrypin today said Cook's statements will be accepted by scientists who may attempt to confirm them.

NEW QUARANTINE LINE.

Texas Cattlemen Going After One With Some Determination.

Texas News Service Special. Fort Worth, Tex., Sept. 2.—Cattlemen of West Texas, at a warm session here today adopted resolutions pledging themselves to eradicate the cattle tick from the quarantine district and appointing a committee to meet Federal Inspector Allen and the Texas Live Stock Commissioner here on September 10th. At the coming meeting a fight will be made to abrogate the objectionable quarantine regulations which the cattlemen declare are ruining their business. Dr. Coleman of Colorado City, presided and ten counties were represented.

HURT IN AUTO ACCIDENT.

Cashier of Tulla Bank Loses Hand in Smashup.

Texas News Service Special. Amarillo, Tex., Sept. 2.—J. S. Laprade, cashier of the First National Bank of Tulla, Texas, was seriously injured when he lost control of an automobile he was driving today. The machine dashed into a barbed wire fence and Laprade's left hand was torn away. Several women in the car were unhurt.

CONDITION OF COTTON IS LOWEST IN YEARS

By Associated Press. Washington, Sept. 2.—The condition of cotton on August 25th, was sixty-three and seven-tenths per cent normal.

On the same date last year, the condition was seventy-six and one-tenth per cent; in 1907, seventy-two and seven-tenths per cent. The average on this date for the past ten years is seventy-three and six-tenths per cent.

BOLIVIA AND PERU CLASH.

Details of the Boundary Dispute Between the Two Countries.

The territory involved in the dispute between Bolivia and Peru over the frontier limits of both countries comprises hundreds and hundreds of square miles of very rich land, all lying at the eastern base of the Cordilleras. "That, along with other rich territory lying near the Acre river, would have been Brazilian today," said Senor J. Aguirre-Acha, the consul general of Bolivia in New York city, in explaining the causes of the riots in La Paz, the Bolivian capital, "had not Bolivia fought for it in the war between those two countries within the last generation. As a result of that contest Brazil paid Bolivia \$10,000,000. That money, large sums of which still are on deposit in New York and London, has been chiefly expended in building railroads intended to develop Bolivian commerce and increase the trade relations between my country and Brazil through forming rail connections with the traffic that plies the rivers of both states. Already the railroad has been completed from Oruro to Vischa, and a line now is under construction from Oruro to Uyuni, which lies to the southward.

"Villages and cities that owe their founding wholly to Bolivian initiative have sprung up in great number throughout the disputed territory. Thus Bolivia has spent its money there as well as the blood of its people. Two thousand of its soldiers were killed there in one campaign against Brazil. In that conflict not one Peruvian citizen raised a hand to protect the territory in question. Not one Peruvian soldier ever fought to gain that strip of land. But when the hostilities had concluded Peru stepped in with its claim that the territory rightly belonged to it.

"Peru assumed to base its claim on the contention that the land belonged to it by reason of certain dispositions made by Spanish kings, but that contention practically was a mere assertion. On the other hand, before the South American republics were formed and when Spanish control dominated, the land in question formed a part of the territory which, with Bolivia's area today, was under the jurisdiction of the central Spanish authority that existed at Charcas, the latter now forming the present city of Sacre. Peru's territory was administered by Spanish authority from Lima, Argentina's area from Buenos Aires, Chile by the captain general then established at Santiago, and so on. So when similar argument was required to meet the Peruvian contention of priority of rights Bolivia had direct proof to advance in support of its claim that the territory in question always had been part of its area, even under the Spanish kings.

"We accepted Argentina's president as arbitrator because of the close friendship which had existed between that country and my people. For more than four years Senor Don Elodoro Villazon, who as president elect of Bolivia will assume his official duties on Aug. 6, served as Bolivian minister in Buenos Aires."

"Society of the Moon Kissed Lotus." Selected for their proficiency in culinary lines over the heads of 2,000 classmates, three young ladies from Japan are now at the Alaska-Yukon-Pacific exposition in Seattle, Wash., demonstrating the many features of Japanese kitchen art in the Japanese tea garden. The young ladies are known in Nipponese as Yachigo, Matura and Yetsu Sato. They are unable to speak English and appear dressed in the national kimono of the flowery isles. In the seminary in Tokyo in which they are scholars they belong to a sorority, built on the same lines as American sororities, called the "Society of the Moon Kissed Lotus."

SCHOOL SUPPLIES

We have a full line of School Supplies, such as tablets, pencils, pens, ink, colored crayons, book straps, book satchels, lunch baskets, pencil boxes, drinking cups, and other needful things used by school children. The first week of school we will give FREE, with each purchase, some little useful present. Be sure and ask for it. A full line of Racket Goods and Notions. New goods coming in every day. Be sure and come to see us. Watch our windows.

DEFIER OF SUN'S RAYS.

How a Cloth Used in India Protects its Wearers From Heat.

In the recent period of very hot weather many persons whose lives might have been saved, according to physicians, died of sunstroke in New York city. The figures of the department of health show that in the week ended July 3 thirty-two persons died of sunstroke. In the corresponding period last year only five persons died from the same cause, but of course the weather was much cooler then.

Physicians declare that one of the chief reasons for so many deaths is that apparently no effort is made to select suitable clothing for summer, either in respect to color or material. This is particularly true in the cases of New York city's guardians, the policemen and firemen, who from the very nature of their occupations are exposed to extreme heat, either directly from the sun or of artificial origin. And yet these men are obliged by the city government to wear heavy uniforms of dark color, which more readily absorb the sun's rays than anything else, and in the cases of the policemen at least are obliged to wear them tightly buttoned. Many policemen have complained of this handicap this summer.

In this connection the department of commerce and labor recently issued a bulletin concerning a cloth specially made for those exposed to the sun. Consul General William H. Michael of Calcutta has sent samples of the cloth, which is manufactured in India for the use of farmers and others, and writes concerning it. The cloth is called thatcho and shikari. It is made on scientific principles to conform to nature's plan of warding off the sun's rays, as exemplified in the color of the skin and the pigments under the skin. The retail price of woolen thatcho in Calcutta is \$2 per yard, double width, and of cotton thatcho 66 cents per yard, single width. The retail price of green shikari is 33 cents per yard, single width.

Samples of the cloth will be lent by the bureau of manufacturers to American textile interests.

TO BUSINESS IN AIRSHIP.

John Shepard, a Boston Merchant, Wants a Safe Aeroplane.

An airship soaring above Boston harbor and eventually coming to rest upon a specially equipped platform on top of a high building is the daily spectacle which Bostonians may witness if the plans of John Shepard, one of Boston's wealthy merchants and a promoter of all outdoor sports, are carried out.

Shepard, much to the interest of his many friends, asserts that he is in the market for an airship that will carry him on his daily trip from his summer home at Phillips Beach, Swampscott, Mass., to Boston.

"People can't go fast enough on earth," he asserts. "There are too many hindrances. You have to go in a roundabout route to reach a given destination. In the air it is all different. Just as soon as I am assured that air travel is safe I shall purchase an aeroplane and make my daily trips in the latest and most speedy manner.

"I have been planning to get my first impressions of air travel by taking a balloon trip. After that, if an aeroplane can be found that is pronounced safe, you can say that John Shepard will do his traveling by air."

Today at seventy-five years Shepard is as keen a lover of the novel sport as those of the younger generation. During his leisure time at Phillips Beach he busies himself with a huge collection of literature concerning the doings of the Wright brothers and others who are now making aeroplane travel an assured success.

REUNION OF TRAIL DRIVERS.

Wagon Masters of Freighting Days May Meet in Independence, Mo.

William Z. Hickman of Independence, Mo., has suggested a meeting of old "wagon masters" or drivers of wagons on the old Santa Fe trail as a feature of the coming meeting of the Independence fair. Mr. Hickman was county clerk of Jackson county soon after the civil war. He is now a deputy county surveyor.

In his younger days he was a "wagon master." He says there are perhaps five or six others in or around Independence. Mr. Hickman saw the last wagon train that crossed the plains as it left the southwest corner of the public square in Independence.

Utah Now Produces Rubber.

Recently in Wasatch county, Utah, adjacent deposits of elastite in that region, a new substance known as tabbyite, called after Chief Tabby of the Uinta Indians, who revealed the deposits to the whites, has been found to reduce elastite to a practical working basis as rubber. Belts, mats, insulation material, etc., have already been turned out by an amalgamation of the two mineral substances. Chemical analysis shows the proper proportions of the constituents of rubber.

New Terrors.

Grandma seems uncommon nervous As she looks the family over: Now and then says: "Bains preserve us! 'Twasn't like this in days of yore. Now and then some one by rocking Boats left mournful tales to tell. Or a man whose fate was shocking Swam out wisely, but too well.

"But today I'm apprehensive Of disasters worse, I fear. We are taking trips extensive On the wings of gasolines! And they'll merely call me silly When my voice is heard afar: 'Do not rock the airship, Willie! 'John, stop racing with that star!'"

AT ASBURY PARK.

Nearly 1000 in Baby Parade There Today.

Asbury Park, N. J., Sept. 2.—Today's annual baby parade, viewed by thousands of persons from all parts of the country, was voted the most successful affair of its kind that has ever taken place at this famous resort. Throughout the afternoon babydom held festival holiday and high revel. Bedecked in flowers and gold and tinsel it went through the grand parade without a murmur. It toddled contentedly in the grand march along the board walk and made graceful obedience to Queen Titania and her court while the thousands of spectators, fascinated by the moving panoramas, looked on with sympathetic eye.

The starting point was from the Asbury Park auditorium. The route extended a mile along the Ocean Boulevard to the intersection of Sixth and Sunset avenues, where a huge amphitheatre had been erected for the accommodation of the judges. All along the line of march there were elaborate decorations, consisting of Venetian masts from which fluttered thousands of flags and banners and countless yards of bunting, and the little coaches, bicycles and floats that were in the procession were also garbished with flags and flowers.

The parade was divided into eight sections, each being headed by a marshal and two maids. At the head of the procession was a platoon of police and a band of music. Then came gaily decorated baby coaches and go-carts, doll coaches and express wagons. These were followed by hundreds of children on foot, in fancy and grotesque dress and in costumes of college colors. Elaborate floats and pony turnout brought up the rear of the procession.

Of course, the court of honor was the center of attraction. Queen Titania (Miss Henrietta Amelia Elker of New York), her maids of honor, the high chancellor, the court jester and Prince Charming, together with the pages, trumpeters and courtiers, presented a brilliant and entrancing scene, which was witnessed and applauded by a host of notable guests occupying boxes in the stadium.

Did It Ever Occur To You

That perhaps you are making a mistake by not getting our prices before buying lumber, sash, doors, lime, cement, plaster, etc., somewhere else? You are old enough to know that there's a mighty lot of difference in the quality of every one of these articles, just the same as there is in tea and coffee. And that there's always more or less difference in the prices, too.

Then, as you can always get the most and best here, at the lowest prices, why aren't you making a mistake by not buying here? From where we sit, it looks like you were passing up a good thing.

GASOLINE STOVE EXPLODED.

Girl Dead and Mother Badly Burned at Sulphur, La.—Francis Keat, aged 20, a pretty Greek girl, is dying tonight and her mother, Mrs. Cetemine Keat, is seriously burned about the neck and arms as a result of a GASOLINE STOVE EXPLOSION. The girl's clothes caught, and her mother, in trying to save her, was also badly burned.

TO SAVE THE BABIES

Academy of Medicine to Handle the Question.

GREAT CONGRESS PLANNED.

Meeting to Be Held in New Haven. Infant Mortality to Be Studied in All Its Phases—The Death List is Most Appalling.

And now the babies are to have a show. Their right to life and to all that promotes health in the way of favorable environment and of favorable physical, mental and moral inheritance is to be made the subject of a campaign by the American Academy of Medicine.

As an initial step in the movement a conference is to be held in New Haven next November, at which leading physicians, sociologists and educators from all parts of the United States will join forces in a study of the problem. The general subject of the conference will be "The Prevention of Infant Mortality," and the four aspects under which it will be considered are the medical, philanthropic, institutional and educational.

Dr. James H. Mason Knox, Jr., of the Johns Hopkins Medical school, Baltimore, is chairman of the section on medical prevention, and Dr. Richard A. Urquhart, also of Baltimore, is secretary of the section. Such topics as congenital debility, improper care and environment, communicable diseases and the dangers which arise from unhealthful surroundings and uncleanly or unsuitable food will have right of way in this section. Edward T. Devine, editor of the Survey, formerly Charities and the Commons, Schiff professor of social economy of Columbia university, New York, and one of the best known social workers in the United States, is chairman of the section on philanthropic prevention; Homer Folks, secretary of the New York State Charities Aid association, of that on institutional prevention, and Professor C. E. A. Winslow of the laboratory of sanitary research of the Massachusetts Institute of Technology that on educational prevention.

Slaughter of the Innocents.

That thousands upon thousands of children fall to get the chance just to keep on living is proved every year by a glance at the mortality tables. The last figures of the government reports available are those of 1907 for the fifteen largest cities in point of population in the United States. They show that during the single year ending June 1, 1907, the number of deaths of children under two years of age was nearly 60,000. New York city took first rank in this slaughter of the innocents with 21,882 deaths out of a total of 79,098 deaths of persons of all ages. Chicago came next with 8,381 out of a total mortality of 82,198. Philadelphia had 6,632 out of a total mortality of 27,478. Baltimore 3,974 out of 11,182 and Washington 1,839 out of a total mortality of 6,843.

The New Haven conference is to be held under the auspices of the American Academy of Medicine, and Dr. Helen C. Putnam of Providence, R. I., formerly president of the academy, is chairman of the executive committee. Other members of this committee are Dr. George Blumer, professor of the theory and practice of medicine of the Yale Medical school; Dr. F. H. Gerrish, the distinguished surgeon of Portland, Me.; Dr. D. C. Hawley of Burlington, Vt.; Dr. J. Madison Taylor of Philadelphia; Dr. James H. McBride of Pasadena, Cal., the newly elected president of the academy, and Dr. Charles McIntire of Easton, Pa., the secretary of the academy.

The members of the advisory committee include Miss Jane Addams of Hull House, Chicago, who has just been elected president of the national conference of charities and correction; Dr. Charles V. Chapin, superintendent of health, Providence; Professor Irving Fisher of Yale university, president of the committee of one hundred on national health of the American Association For the Advancement of Science; Dr. Laura Drake Gill, president of the Association of Collegiate Alumnae; Dr. Charles R. Henderson, professor of sociology of the University of Chicago, and several others.

Problems to Be Considered.

All the problems which affect the life and health of the little ones will be touched upon in the section on educational prevention. The sources of a city's milk supply may be investigated first of all for the sake of the babies' health. Sanitary conditions in the home, especially in tenement houses and other dwellings where sanitation is not the crowning thought of the inmates, will also be looked into, and, in fact, everything that has a bearing upon the life and health of little children will receive the careful thought of eminent scientists and others competent to deal with such matters.

The outcome cannot fail to be of vast benefit to the babies and to the growing folk as well.

Memorial to Grover Cleveland.

A highway marked by giant boulders, ornamented by shrubbery with inscribed tablets liberally interspersed, is the memorial planned to the memory of the late Grover Cleveland in New Hampshire. This highway will be an extension and improvement of that built by Mr. Cleveland from his estate to the town of Tamworth, N. H., which he presented to the town. The road will be built and maintained by Tamworth citizens.

Wichita Falls, Texas, Sept. 2, 1909.

WEATHER FORECAST.

For Wichita Falls and Vicinity
—Tonight and Friday, generally
fair.

An Ohio contemporary says it would be impossible to throw a brick in Texas without hitting a candidate for Governor. It is suggested, however, that a shot gun would be much more effective than a brick if the Ohio paper is correct.

One column in yesterday's issue of the Times told of the cleaning out of the reservation, another told of the organization of the Y. M. C. A. here and still another told of the revival now in progress. My, what a wicked town.

One of the attributes of a modern city is a place where her young men may enjoy themselves harmlessly and wholesomely. Such a place is filled in most instances by the Y. M. C. A. Help Wichita get hers.

In a well-designed and well-illustrated special edition, the Gainesville Register tells all about Gainesville and Cooke county. Gainesville is a good town if it lives up to the write up given it by the Register.

About the only way Dr. Cook can convince people that he discovered the pole is to bring it back with him and even then most people would have to try it with their knives to make sure it was genuine.

It's almost worth setting your house afire to see the way those department boys hustle out and give it the water cure. But then they could do a lot better with some modern equipment.

Another big battleship has been completed for the American navy which is now in a position to ably cope with Venezuela, Nicaragua or any other world powers that may fight us.

A Seattle man who gave a preacher a \$5 fee when he was married followed it up with \$1000 some years later. Some men would have demanded that the preacher return \$4.75.

Oklahoma can brag about her resources till she gets tired, but it will be noticed that when Oklahoma City wanted some shade trees she sent to a Texas nursery for them.

Under Edison's new house-building scheme, a dwelling can be put up in two days. Have to go faster than that to keep up with Wichita Falls population.

Texas people are rapidly recovering from the shock they received yesterday when they saw Colquitt had declared against prohibition.

The "dry-farmers" of Texas held a convention recently. Where were the wet farmers?

"Coolest Place of Amusement in the City"—the Auditorium. See the "Klu Klux Klans" there tonight, usual to "The Clansman." 96-11

YOUR SINS WILL FIND YOU OUT

IN ANOTHER STRONG SERMON AT THE TABERNACLE DR. HAMLIN STIRS HIS HEARERS.

SIN LEAVES ITS MARK

Remorse of Conscience Has Driven Many to Commit Suicide, Says Dr. Hamlin.

Bro. Hamlin went straight into his subject by citing a striking illustration of how some workmen by neglect had their sins find them out. He gave a humorous description of a boyhood folly that found him out in a good strapping. Numerous cases of murder, of theft and deeds of frontier desperadoes were cited to show that all came to grief at last. He said in part:

"Mr. Pinkerton, prince of detectives said that any man was a fool who would commit crime nowadays, as there was not one chance in five hundred of escaping detection. Some of the ways that sin finds us out are first in our faces, sin leaves a mark on the face. A man that drinks or dissipates soon shows it in his face. A woman who becomes base is easily spotted on the streets. There is a world of difference in the face of a sainted mother and the face of a harlot.

"Again our sins find us out in the influence on our own lives. Do a man an injury and you soon hate him. I once heard a man curse and abuse a merchant, upon investigation I found the merchant had fed and clothed his family and trusted his honor to pay. Because he was dishonest and refused to pay his debts he hated the man who had been kind to him and tried to do him an injury. Almost every merchant in this town has had similar experiences. You cannot get sour on the world without becoming unlovely yourself. Jesus knew what was best for us when he said, 'Love your enemies and do good to them that spitefully use you;' this is the only safe way for you.

"Your sins find you out in your conscience. An escaped convict is hounded to desperation because he imagines they are after him all the time. Many a man has his conscience running him down like a bloodhound on his trail. A certain man in Texas was tried in the courts on a serious charge. The court acquitted him, but he committed suicide that night. He could not get away from his conscience. Remorse of conscience has driven thousands to an untimely grave. Last of all your sins find you out in your children. The darkest and most damnable crimes men commit are the crimes against their innocent children. Seventy-five per cent of the feeble minded are said to be the children of drunken and dissipated parents; boys and girls are born into this world lairs, thieves, base and degraded, the criminal propensities predominating. Boys and girls have an inherited appetite for tobacco and strong drink. Fathers and mothers say, 'Oh, why was I cursed with this bad boy or girl.' God has sent a curse upon me.' Not at all brother or sister. God does not want your home cursed. You or some of your ancestry did it and are entirely to blame for the vicious dissipation of the child. Many children grow up nervous and spend a miserable life all because of the sins of the parents. God help us to do as he tells us and learn to live soberly, righteously and godly in this present world."

At the Auditorium.

That National Stock Company is certainly making many friends by their clever work, and to say that the public appreciates good acting only goes to show by the attendance which has doubled each night. Last night "The Heart of Virginia" was presented and it was as pretty a play as has ever been seen on the Auditorium stage. Miss Lingell as Virginia, was clever. Miss Wallace and Mr. Haines in the heavies, showed by their work that they are artists of rare ability. Miss Haisig, Mr. Williams Hittner Fairrell and Tewksbury were all good. Tonight the feature bill of the week is offered in "The Klu Klux Klans," and it is guaranteed by the management to be equal to the \$1.50 production of "The Clansman" and "The Traitor" that appeared here last winter. Tomorrow night one of the funniest comedy ever written is offered—"When Reuben Comes to Town," after which there will be a marriage ceremony in full view of the audience, on which occasion Mr. Thomas V. Corley of this city and Miss Martha Williams will be united in bonds of matrimony, they having accepted the \$20.00 offered by the company. Many of the local merchants have offered liberal presents. 96-11

A Complete Meal- Try Them

Rice and cheese are two of the most common foods but they are two of the most valuable ones from a food standpoint. In fact they are a complete meal in themselves when served together and especially desirable for hot weather, for they feed the body thoroughly without heating it up as so many of the heavier foods do. Serve both in your favorite style or combination and they will do you more good than many other foods that will cost you more. Get a pound of our Burnham's full cream cheese. We have just cut a new one and it is very fine. 25c a lb. Genuine Carolina Head Rice, the big, fat, plump kerneled kind, only 10c a lb.

McAdams' Tent Theatre.

The big canvas theatre was completely filled again last night to witness "Dora Thorne, and the play gave universal satisfaction. Tonight "The Man Outside," a problem play in four acts will be presented, employing the entire cast. Miss Pearl Gillespie the talented leading lady of the McAdams show and Mr. Fred McCord have accepted the marriage offer made by Mr. McAdams and will be married on the stage tonight in full view of the audience. Friday night Wichita is promised the finest production of famous "Monte Cristo, ever witnessed in the South.

Mr. Frank Linden has appeared in the star part upwards of 20 years throughout America and it is given a scenic production complete in every detail.

New musical selections are given each night by the large McAdams Spanish orchestra which is a big feature for any show the prices remain the same. 1000 seats 10c; parquet, 25c; box circle seats, 50c. 96-1t

Odd Freaks of Lightning.

There was a remarkable play of lightning in Chaves county, N. M., the other day. During a thunderstorm lightning struck the house of W. E. Ball, a homesteader, and H. N. Rutherford, who, with his family, was at the Ball home, was killed. Following this, at intervals of about one minute, eleven more bolts struck the house, each shocking an occupant, though not fatally. There were thirteen persons in the house at the time of the storm. The last stroke set the house on fire, but the flames were extinguished by Mrs. Ball with pails of water.

Alpaca Coats For Jurymen.

Alpaca coats for jurymen were introduced in the superior criminal court at Boston the other day by order of Judge R. O. Harris. The court said that he desired the jurymen to be comfortable during the hot weather and had ordered the coats, the cost to be borne by the county treasury. If there should be any objection to the step, he stated, he would pay the bill himself.

RICH GOLD FIND IN CANADA.

Field Discovered in Saskatchewan Province Rivals the Klondike.

The most remarkable gold discovery since the Klondike finds was recently made at Lac La Ronge, 200 miles north of Prince Albert, in the great hinterland of the province of Saskatchewan. H. C. Hamelin and B. L. Clemons of Prince Albert, having evidence of a rich gold area in northern Saskatchewan, outfitted last year three parties of prospectors. The finds were encouraging, but not sensational. This year two more parties were sent out, and the finds which have been made of an eight inch vein of free milling gold quartz has created a profound sensation.

Deputy H. C. Hamelin has a specimen from the vein quartz declared to be the richest and best defined specimen he has seen. The assays so far made from former finds have shown \$51 to \$78 and \$61 to \$64 to the ton respectively, but the latest sample is declared to carry from \$20,000 to \$30,000 to the ton. The finds have been made within forty miles of each other.

CASE BEGINS SOON.

Bank Officials To Be Tried for Alleged Irregularities.

Marquette, Mich., Sept. 1.—The September term of the United States circuit court, which is to convene in this city tomorrow, will probably be made notable by the trials of H. F. Jahn, Elven T. Larson and George H. Beddow, president, cashier and assistant cashier, respectively of the defunct First National Bank of Ironwood. The three men have been under bond since their arrest early in July last, following the failure of the bank with a heavy loss to the depositors.

Larson, who was the cashier of the bank, will have to answer to the charge of making false entries setting forth that the bank owned in its own right some \$30,000 more in bonds than it held and with taking bonds valued at \$32,000 from the deposit box of a depositor and representing them as part of the assets of the bank.

Former President Jahn is accused of aiding and abetting the cashier in falsifying the books of the bank, while George H. Beddow, who was the assistant cashier of the institution, faces a similar charge and also one of embezzling \$1,500.

In Memoriam.

To W. Lee Moore, worshipful master of A. F. and A. M. Lodge No. 635 of Wichita Falls, Texas:

We your committee appointed to present suitable resolutions in memory of our late friend and brother, A. M. Walker, submit the following report:

Whereas, it has pleased the Supreme lawgiver of the Universe to call from our midst to His own courts on high, one of our most useful and efficient co-laborers in the enforcement of His divine precepts, adopted as the basis of all human legislation, and for the purpose of giving to our brethren and his family some evidence of the high esteem and appreciation in which brother Walker was held by us, we beg leave to place on record as our united sentiments the following resolutions:

Resolved, 1st. That we sincerely deplore the death of our esteemed brother A. M. Walker which occurred on the evening of August 11, 1909 while he was performing his daily mission on earth.

2nd. That in the death of brother Walker we have lost one of our oldest and most efficient and loyal members; the city one of its most useful and highly esteemed citizens; and his family a kind, indulgent, loving and faithful protector.

3rd. That in contemplating the life

and death of our deceased brother, we are more than ever impressed with the beauty, force and truth of that inspired declaration: "A good name is rather to be sought than great riches, and having favor rather than silver and gold."

A. M. Walker is dead. The record of a good and pure is complete. "He has done the work of a true man, crown him, honor him, love him; weep over him tears of woman; stoop manliest brows above him."

A. H. CARRIGAN,
A. F. KERR,
L. H. LAWLER,
Committee.

WOMEN AT STATE FAIR.

Wonderful Art Exhibit and Superb Textile Display.

RARE AZTEC POTTERY.

Archeological Finds in Mexico Will Be Exhibited at Coming Exposition, Which Opens October 16.

Experience has demonstrated to the officials of the State Fair of Texas, the twenty-fourth annual meeting of which will be held at Dallas October 16-31, that the women of the Southwest enjoy practically every department. The women like the horse and cattle shows, the races, the dog and poultry shows. And then the exhibitions of fruits and flowers, the honey displays and dairy products, with demonstrations in butter making, always hold the interest of the women patrons of the Fair. But that department of the Fair which is considered their especial sphere is where the handiwork of the women of the South is displayed, the loan art division and the culinary department.

Perhaps no department of the Fair last year occasioned such universal praise as the loan art exhibit. This magnificent collection was exhibited in art hall, an apartment especially built for the purpose and situated directly in the center of the textile building. Visitors from the North and East, who had visited the art galleries and studios of New York, Philadelphia and even London and Paris, declared this to be the finest collection ever exhibited in one hall. A great many Texans availed themselves of a rare opportunity of purchasing works of art, usually unobtainable except in New York. This year the collection will be even greater and will contain the works of John Sloan, R. J. Onderdonk, Gilbert Stuart, A. T. Van Lear, Charles Peter Bock, Carlton T. Chapman, Charles C. Curran and others.

Outside the loan collection hall, but in the same building, arrangements have been made for exhibitions by art schools.

The textile building is again going to overflow with displays of needlework, hand-made lace, embroideries, photography, arts and crafts, oil paintings and water colors, hand-painted china and ceramics. As premiums totalling \$1250 are awarded in this department, exhibitors who have carried off ribbons and cash prizes year after year need to look to their laurels at the coming Fair, for fresh competitors from many new sources will be in the field.

That which will be an interesting feature of the textile division is a general display of manual art, an exhibit open to the school children of the state. This is a new department and one that will result in great benefit to the children of every town in Texas. Prizes ranging from \$3 to 75 cents will be awarded for domestic art and domestic science work, metal work, carved woodwork, pencil drawing, and other work taught in the manual training schools. In the arts and crafts, another new feature, prizes will be awarded for the best specimens of burned or stained leather, metal lamp or candle shades, metal book ends, etc. There will be displays of old ladies' work, lace work, knitting and crochet work, plain and fancy sewing and decorative art.

One of the features of the Fair will be a rare exhibit of Aztec pottery, carvings, miniature gods, etc., loaned to the geological department by the Mexican government. An interesting detail of this exhibit is that these figures are all females, and in addition represent the various races of mankind—negroes, Chinese, Indians, etc. How these Aztecs and the people that lived before them knew of Negro, Chinese and other races, is left to the archeologists to solve.

In the culinary department all those rare delicacies of the table, in which the women of the South lead the world, will be displayed and there promises to be an interesting rivalry among the housewives of the state. The offerings are exceedingly generous and are classified in the three following divisions: Breads, cakes, etc., preserves, jellies, pickles, canned goods, etc., and fancy prepared fruits.

In the anthropological exhibit there will be a panorama of Texas from the days of the early Spanish conquerors until now. The story will be told in antique furniture, weapons, wearing apparel, etc. Then the coming of the American colonist with his crude but substantial furniture, and then the manner in which the rich planters lived "befoh de wah." An interesting collection, dating back to the days of the mission fathers, promises to add much interest to this exhibit.

A gigantic enterprise is the only manner in which to describe the extent and magnitude of the twenty-fourth annual meeting of the State Fair of Texas, which begins at Dallas Saturday, October 16, and continues sixteen days. A mammoth vehicle and implement exhibit, covering twelve acres in extent; three thousand head of cattle, horses, swine, sheep, jacks, jennets and mules; three thousand birds in the poultry department; two acres of farm and mill displays; two hundred amusement enterprises; one thousand race horses; a great building overflowing with articles of handiwork of the women of the South, but gives an idea of what the Fair this year will be. Improvements totalling in cost \$160,000, of which sum \$100,000 is being expended for a coliseum, and \$60,000 for awards and premiums, necessitates financing of the very best. And all this in the face of adverse legislation, which good or bad, withdraws many thousands of dollars from the annual receipts of the Fair.

Texas are fortunate in having a great State Fair at which to illustrate each year the marvelous development of the state, which opens October 16 and continues sixteen days, every industry will be represented in a manner eclipsing all previous efforts.

A home bank; a substantial bank and a big bank is

The First National Bank

Wichita Falls, Texas

- It aims to be abreast of the times and still be conservative.
- Its losses have been small and its profits sufficient during its corporate existence.
- We are prepared to take care of your wants in our line.
- It has accumulated a surplus and undivided

MRS. ADELINE RUCKS MARRIED TO NEPHEW

The clipping below, from Yesterday's Fort Worth Record, will be of interest to Wichita people, among whom Mrs. Rucks is very well known. Mr. and Mrs. Ballinger are expected to arrive here within the next day or two to make this city their home. The clipping follows: Pittsfield, Mass., Aug. 31.—(Special.) Mrs. Adeline Rucks of Wichita Falls, Texas, came to Massachusetts to marry her nephew, Eli Ballinger. She is 50 years old, twice a widow, wealthy and weighs 250 pounds, while he tips the scales at 118. Notwithstanding that it is against the state law for such near kinsfolk as nephew and aunt to marry a license. Then they sought out Rev. J. M. Hamilton, a Methodist minister, who performed the ceremony. Happy as could be, they departed for Texas.

Scientists to Tour Western Canada. Winnipeg, Man., Sept. 2.—The members of the British Association for the Advancement of Science who have been in annual session here for past seven days, have arranged to leave the city tonight for an extensive tour of Western Canada. The places to be visited include Regina, Moose Jaw, Calgary, Banff, Glacier, Vancouver, Victoria and Edmonton. Included in the party are many of the foremost scientists of the United Kingdom, Canada and the United States.
