WICHITA FALLS, TEXAS, TUESDAY SEPTEMBER 7, 1909

NUMBER 100

WILL RUN AGAIN FOR SPEAKERSHIP

A. M. KENNEDY WILL SEEK VINDICATION AT HANDS OF 32nd HOUSE.

OPPOSITION IS STRONG

Believed Entire Strength of Administration Will Be Thrown Against Him.

Texas News Service Special. Austin, Tex., Sept. 7.—Advices from Sherman saying that A. M. Kennedy will seek the speakership after practically being forced to resign in the last legislature, has caused much comment in political circles here today. It is believed here that Kennedy will likely be re-elected to the house, but will lose the race for the speakership, as Marshall of Grayson, is believed to be the logical and strongest candidate.

Texas News Service Special. Sherman, Tex., Sept. 7.—A. M. Kennedy of Waco, former speaker of the house of representatives, who was compelled to resign last winter, announced to a number of friends at Denison yesterday during the Labor Day Celebration that he will be a candidate again for the legislature and also a candidate for speaker.

This announcement means that there will be a big fight over the speakership when the legislature next meets and has aroused great interest over the state, as it is known the factions which split over Kennedy are equally determined and both are powerful. Kennedy is a Bailey man.

Nears Honolulu.

By Associated Press. Honolulu, Sept. 7.—The Pacific Fleet is reported here by wireless under the command of Rear Admiral Sebree and should arrive today.

THREATENING LETTERS MAILED TO PRESIDENT

By Associated Press. Chicago, Ill., Sept. 7.—Two letters threatening President Taft during his visit to Chicago are in the hands of Secret Service Agent Porter. An investigation is being made but there is little possibility of an attack on the president.

WANT BETTER PRICES.

Rice Farmers May Hold Crops Until Quotations Advance.

By Associated Press. Crowley, La., Sept. 7.—A meeting of the rice farmers' association has been called by President Winn of the Texas-Louisiana Association, with a view to holding the crop for an advance in prices. The meeting will be held here September 18th.

Had Narrow Escape.

Texas News Service Special. Pecos, Tex., Sept. 7.—The family of W. A. Boynton narrowly escaped death in the flames when fire late last night destroyed his residence. The members of the family fled in their night clothes. It is believed spontaneous combustion from rags and varnish in the bath room caused the fire. The loss was three thousand dollars.

WASHOUT NEAR DALHART RESULTS IN INDEFINITE TIEUP OF DENVER TRAFFIC

As a result of recent floods on the Canadian River, the south bound Denver train this afternoon is a minus quantity and advices state that it will be for the next thirty-six hours. The Fort Worth and Denver bridge over the Canadian River, near Dalhart, was washed out early this morning by a heavy rise in the stream. The Rock Island bridge there is also washed out.

The north bound train which passed through Wichita yesterday afternoon crossed the bridge just a few minutes before it went down, barely avoiding a very serious disaster.

Railroad officials state that the damage will hardly be repaired within the next twenty-four hours and traffic from the north will hardly be resumed

NOT IN WICHITA JAIL.

Abilene Desparado Was Not Brought to this County.

The report from Abilene that Owen, the man who nearly killed an officer who was about to arrest him, had been brought to the Wichita jail for safe keeping, is without foundation and the man was probably taken to some other point. Owen was captured and lodged in the Abilene jail, but rumors of contemplation of mob violence made it expedient to remove him. The Taylor County officers said they would bring him here, but did so for a blind, probably.

TAYLOR-FALWELL.

Fort Worth Couple Steal Away From Home—Married Here.

A. L. Taylor and Miss Viola Fallwell of Fort Worth, were married yesterday afternoon by County Judge Yeager, and left today for Colorado on their wedding trip. The young people were obliged to come here to have the ceremony performed on account of opposition to their union by relatives at Fort Worth. They were firm in their determination, and, as usual, love triumphed.

WICHITA TAKES SECOND OF THE BONHAM SERIES

Wichita 4, Bonham 2. Timely hitting and superior baserunning enabled Wichita Falls to win the second of the Bonham series yesterday afternoon. If there were any particular features in the contest, they were not visible from the grandstand, it being a commonplace performance, with the score just close enough to make it thoroughly interesting.

Wray pitched for Wichita and yielded but four hits. His support was poor, except when men were on bases, when the infield seemed to brace up. He fanned eight and seemed to have the game well in hand.

Graham for the visitors was rit twice at critical points and his support was poor. Stillman at short for Bonham, and White at first for Wichita, made several careless errors. Zach Smith, replaced the latter and held that position cleverly.

The score:— R H E
Bonham 091 001 000—2 4 5
Wichita 010 120 00x—4 6 8
Batteries—Graham and Robertson; Wray and Buster.

County Court Convenes.

The county court criminal docket was called this morning, the first case being that of C. A. Campbell, charged with carrying a dirk. This is still on trial this afternoon.

Haddix photos are the best. 94-tfc

WICHITA FALLS TO LOSE VALLEY HEADQUARTERS

It is learned on good authority that as soon as the Stamford and Northwestern line from Stamford to Spur is completed, Wichita Falls will lose the general offices of the Wichita Valley Railway and that they will be moved from here to Stamford so as to be more conveniently located for the operation of the new line, which is a part of the Valley properties. This announcement is not official, but comes on good authority.

PEARY ARRIVED AT POLE LAST APRIL

HE BELIEVES HE WAS FIRST TO ARRIVE AT THE COVETED SPOT.

COOK WAS A YEAR AHEAD

Double Discovery Creates Profound Interest Throughout the Entire World.

By Associated Press. New York, Sept. 7.—Lieut. Peary reached the north pole, according to more recent advices received here, on April 6th, 1909, slightly less than a year after Dr. Cook claims he reached the coveted spot. The double discovery of the pole has created a profound sensation in geographical and scientific circles and the return of both discoverers is eagerly awaited.

A second message has been received from Peary by Herbert L. Bridgman, Secretary of the Peary Arctic Club, requesting him to notify the geographical societies throughout the world that he had reached the pole.

By Associated Press. London, Sept. 7.—The Reuter Telegram Company publishes a dispatch from St. John's stating that Peary claims to be the first man to reach the pole.

Texas News Service Special. Washington, D. C., Sept. 7.—The Secretary of the Navy was formally notified by Herbert L. Bridgman, Secretary of the Peary Arctic Club, of Peary's discovery of the pole. He said he received the following message from Peary: "North Pole reached April 6th, by the Peary Arctic Club expedition under my command."

By Associated Press. New York, Sept. 7.—Captain R. A. Bartlett, commander of Peary's ship Roosevelt, telegraphed from Indian Harbor as follows: "It's accomplished. Kind regards to all."

By Associated Press. Portland, Sept. 7.—Mrs. F. A. Cook, commenting on Peary's report of his discovery of the pole, extended her congratulations. She said she had not received her husband's diary, as only his trunk was brought from Etah by Rudolph Francke and she did not know what was in his memoirs.

By Associated Press. Philadelphia, Sept. 7.—Harry G. Bryant, President of the Philadelphia Geographical Society received a telegram from Peary as follows: "The pole is ours, thank you."

Peary Homebound Bound.

By Associated Press. St. Johns, Sept. 7.—The Peary Steamer, Roosevelt, left Indian Harbor today, south bound, and will probably reach Battle Harbor tomorrow.

ONE MILLION OVERCHARGE.

Railroads Will Have to Refund on Lumber Rates.

By Associated Press. Washington, D. C., Sept. 7.—An order involving the refund of approximately a million dollars was issued today by the interstate commerce commission. It includes claims in the Yellow Pine Association territory. An overcharge of two cents per hundred was made by the railroad officials on lumber shipped out of this territory to other points.

GLOVE FACTORY PLANNED.

Small Concern of This Kind May Be Established.

Rumor has it that a leading dry goods merchant of this city is shortly to erect a small business in the rear of his store for the manufacture of gloves, beginning with a small plant and gradually enlarging it as the business justifies. An industry of this kind would be a valuable one here and will doubtless be very successful.

GEN. SHACKLEFORD DEAD.

Prominent Kentucky Soldier Dead Today at Port Huron.

By Associated Press. Port Huron, Sept. 7.—General Jas. Shackelford, a native of Kentucky, a hero of the Mexican War, and prominent through the South, died today. He fought through the Civil War as a Union General and captured General Morgan after a thirty days chase on horseback.

REGULAR SESSION OF CITY COUNCIL

SEWER RENTALS TO BE HEREAFTER PAYABLE BY OWNER OF BUILDING.

TO BUY NEW FIRE HOSE

Graveling of Tenth Street Between Holliday and Broad is Provided For.

The regular September session of the city council was held last night and several matters given attention, the most important being the adoption of an order that hereafter the owner of a building shall be responsible for the sewer rent, rather than the tenant. This will clear up a matter which has given the city quite a little trouble lately.

The request of the fire department for an allowance of \$25 quarterly for clothes and equipment for the members was granted, and the sum ordered appropriated. An order authorizing the purchase of 500 feet of hose was passed.

The council ordered the paving of gravel on 10th street between Broad and Holliday, provided the property owners along that thoroughfare will stand for half of the expense, as a number of them have indicated they would be willing to do. The reports of the city treasurer, city engineer, city collector and other officials were received and approved.

Last night's meeting was attended by a full quorum, all the aldermen being present.

PLANT OATS AND WHEAT

Denver Road Officials Say Farmers Will Profit By It.

W. F. Sterley, general freight agent of the Fort Worth & Denver, advises farmers of Texas to plant oats this fall.

"This is the year for oats," he said. "There has been a shortage for a number of years and the shortage of the corn crop indicates that prices next spring will be high, especially as Texas oats will be the first on the market."

"This same will hold good for wheat. The price is now high and it looks as though the good prices will continue until after the Texas crop is harvested.—Star-Telegram.

THIRD GAME WITH BONHAM.

Fannin County Boys Remain Over For Another Game.

The Wichita and Bonham teams will play another game this afternoon. The series had been planned for but two games, but as the teams broke even, a third was arranged for, and if the Wichitans can win it she will have some grounds for a renewal of her North Texas championship claim.

"Peaceful Henry" will pitch for the locals. Bonham brought only two pitchers and it is not known who will be in the box for her.

DYNAMITER HURT.

Shreveport Man Injured When Explosion Occurred.

Texas News Service Special. Shreveport, La., Sept. 7.—Angel Ferguson, a planter, was probably fatally injured today while dynamiting a stream for fish. He stood too near and the explosion destroyed his eye sight and mangled his arm and body.

CAR INSPECTOR KILLED.

Santa Fe Employee Meets Death Under Wheels At Amarillo.

Texas News Service Special. Amarillo, Tex., Sept. 7.—Samuel M. Brandenburg, a car inspector, aged thirty, was killed instantly here late last night in the Santa Fe yards. His head was severed and his body badly crushed. He leaves a widow and three children.

TAKEN TO SAN ANTONIO.

Kerrville Negro Murderer Placed in Safe Jail.

San Antonio, Tex., Sept. 7.—On account of general indignation at Kerrville, following the killing of Deputy Sheriff M. F. Butler, John Purdy, the negro slayer has been brought to San Antonio and jailed to prevent a lynching.

VISITS OIL FIELDS.

Sec. Gohlke Sees Points of Interest in North and East.

Secretary Gohlke of the Chamber of Commerce, is expected home from his northern trip Thursday. He stopped over at Louisville to visit his mother, and is today in the Indiana oil fields on an inspection trip. It is reported that he will have several matters of interest to broach when he returns.

The directors will meet as soon as Gohlke returns to act upon the cracker factory proposition. The secretary's report is favorable, which it is believed assures the enterprise.

FIRE AT AUBREY.

Twenty-Five Thousand Loss Near Denton.

Texas News Service Special. Denton, Tex., Sept. 7.—Fire at Aubrey, ten miles north of here at midnight last night, destroyed all the frame buildings on the west side of Main street, causing a loss of twenty-five thousand dollars. The heaviest losers are Mrs. Alice Price, Millings & Connelly, Ross Edwards. A score of buildings were ruined. The blaze originated in a physician's office from an unknown cause.

FARMER'S UNION AGAIN TO FIX ITS MINIMUM

By Associated Press. Galveston, Tex., Sept. 7.—That the National Convention of the Farmers' Union will fix the minimum price of cotton seed on this year's crop, is the declaration of J. C. Albritton, selling agent for the Texas Association.

The farmers are now meeting at Birmingham for this purpose. Because the crop is the shortest in many years, the planters are in a better position to enforce these demands. According to Albritton, the crop will make about forty-eight per cent. He also denied the report that the Union would abandon the central selling plan and says that headquarters will be maintained here.

HARRIMAN'S CONDITION CAUSES WORRY AGAIN

By Associated Press. Arden, N. Y., Sept. 7.—Some alarming rumors concerning E. H. Harriman's condition have been received following the relapse of Sunday night. From the best information to be obtained, it is believed the attack which caused the hurry call for the New York physician was a temporary sickness, caused by a sudden change in the temperature, or by an indiscretion in his diet.

While Dr. W. G. Lyle says the patient is better, talk of operating is revived. A small army of newspaper men is again camped at Arden, trying to get daily bulletins.

BRADY EXTENSION BY SANTA FE IS LIKELY

Texas News Service Special. Brownwood, Tex., Sept. 7.—Brady's railroad committee passed through Brownwood today en route home from Galveston, where it had conferred with the Santa Fe officials on the proposed extension of the line to Brady. The committee says a proposition for sixty thousand dollars bonus and right-of-way was submitted and will be accepted. W. D. Crothers from Newman, G. R. White and F. M. Richards composed the committee.

CORN SHIPMENTS MOVING STEADILY AND WICHITA CROP IS BEGINNING TO ARRIVE

The movement of the corn crop in Wichita County is now well under way and already several cars have been shipped out by the J. C. Hunt Grain Company, which handles a large part of the corn coming to this city.

The receipts so far have been from Wichita and Clay counties, with some from Oklahoma points. The grade is fair, but not above the average, on account of the disadvantageous weather conditions which have prevailed during the summer. The first corn was received here about a week ago and receipts have been fairly steady since that time.

Forty bushels to the acre seems to be about the average yield for this county, although in the northern parts the yield will not reach that figure.

ST. MARY'S OPENS FOR NEW SESSION

ATTENDANCE IS HEAVY AND PUPILS ARE ARRIVING ON EVERY TRAIN.

IMPROVEMENTS ARE MADE

Considerable Work on the Academy Buildings Done During the Summer.

The Academy of St. Mary Immaculate opened at 9 o'clock this morning for the session of 1909-10, with increased attendance and excellent prospects. Almost every train during the past few days has added its quota to the students here and the enrollment it is believed, will exceed that of last year.

Today was devoted to enrollment and organization for the session. Examinations will be held tomorrow and before the end of the week the session's work will be well under way.

The academy has undergone several improvements during the summer, considerable interior work being done. The rooms have been re-finished and the interior appearance of the buildings materially improved.

The enrollment up to noon today at the Academy was 102, which is about thirty-five per cent better than for the first day last year, showing the progress of the institution. This number will doubtless be materially increased before the end of the week.

SCREW-WORM APPEARS.

Doing Considerable Harm to Cattle in Mississippi.

By Associated Press. Natchez, Miss., Sept. 7.—The screw worm is reported in this section for the first time in twenty years. Considerable stock has been killed as a result.

HARRIMAN'S CONDITION CAUSES WORRY AGAIN

By Associated Press. Arden, N. Y., Sept. 7.—Some alarming rumors concerning E. H. Harriman's condition have been received following the relapse of Sunday night. From the best information to be obtained, it is believed the attack which caused the hurry call for the New York physician was a temporary sickness, caused by a sudden change in the temperature, or by an indiscretion in his diet.

While Dr. W. G. Lyle says the patient is better, talk of operating is revived. A small army of newspaper men is again camped at Arden, trying to get daily bulletins.

TO APPEAL AT ONCE.

Missouri State Cases Will Go to the Supreme Court.

By Associated Press. Washington, D. C., Sept. 7.—Although no formal conference of the interstate commerce commission has been held as yet, since the promulgation of the United States Court decision in the Missouri rate cases it is determined that an appeal will be taken to the United States Supreme Court at once.

CORN SHIPMENTS MOVING STEADILY AND WICHITA CROP IS BEGINNING TO ARRIVE

The conditions in Oklahoma along the Northwestern stem to be slightly better than in this section of the state. Local grain dealers are paying fifty cents a bushel at present, figuring at seventy-five pounds to the bushel.

PATIENT SUICIDES.

Sweetheart Rejects Him as Term of Confinement Ends.

Texas News Service Special. Terrell, Tex., Sept. 7.—Ira Henry, aged twenty-seven, a patient in the North Texas Insane Asylum, died this morning from the effects of taking oxalic acid. The fatal dose was taken after receiving a letter from his sweetheart saying she could not marry him. He would have been released in a few days.

THE ASSOCIATED PRESS is the greatest news gathering and dispensing agency on the face of the earth. The Times is a member of that organization.

TEXAS NEWS SERVICE is composed of about twenty of the best papers of the State, and its report covers all of the important towns. The Times is a member of that organization.

\$1,000 PROPOSITION VIRTUALLY FREE!

We have just effected an arrangement with the National Casualty Co. of Detroit, Michigan, whereby we can issue to anyone over 14 and under 65 years of age, a \$1,000 accident policy fully paid up for one year. A purchase of \$5.00 or more at our store entitles you to a policy. You can get one for your wife, daughter, son or yourself, all paid up for one year. Call and let us explain it. We expect to issue one thousand of them right away. You be one of the first to protect yourself and loved ones. Get busy. Get a little fortune. Get a \$1000 policy.

"WHAT MUST I DO TO BE SAVED"

WAS THE SUBJECT FOR A SOUL-STIRRING SERMON LAST NIGHT.

SEVEN WERE CONVERTED

The Crowd Was Smaller Than That on Sunday Night, But the Interest Was Greater.

The spiritual interest of the tabernacle revival was at high tide last night, although the crowd was considerably smaller than the Sunday night audience. Yet every one seemed to come to listen and pray. The sermon was from the text, "What Must I Do to Be Saved," Acts 16:30. The speaker said in part:

Paradoxical as it sounds, this is the oldest and the newest question in the world. It stood by Abel's altar; it was with Noah as he built the Ark; it stood beside the altar of Abraham when God made the covenant with him that was to last for a thousand generations. Hot from the heart it leaped to the lips of the jailer at midnight in the jail at Philippi. This question demands an answer for fourteen hundred million human beings in this generation. "What Must I Do to Be Saved," is the greatest and most important of all questions of man's life here below. Then man is lost and needs saving. Jesus treated man as lost, lost now, lost as he is. "He That Believeth Not is Condemned Already," John 3:18. "The Son of Man is Come to Seek and Save Those Which are Lost." Do you not see that all the life and death and suffering of Jesus for us become a cheap comedy, a poor farce, if man was not lost and need the atoning blood of the Christ. "What Must I Do," three times the question is asked in the New Testament and each time a different answer. In Acts 16:30-31 the answer is, "Believe on the Lord Jesus and Thou Shalt be Saved and Thy House." In Acts 2:37-38 the answer is, "Repent and be Baptized Every One of You in the Name of Jesus Christ for the Remission of Sins and Thou Shalt Receive the Gift of the Holy Ghost."

In Acts 22:16 Paul, the persecutor of the church who had seen and talked with Jesus, who had believed and repented, was told to "Arise and be Baptized and Wash Away Thy Sins, calling on the Name of the Lord." Why were different answers given to the same question? Because of the different conditions of those who asked the question. The first was an unbeliever and was told to believe; the second were believers and were told to repent; the third was a penitent believer and was told to be baptized. So the answer is found by putting all three of the answers together and it will read, Believe, repent and be baptized.

I was told in New Mexico that the prices of raising alfalfa was: first, prepare the ground; second, sow the seed; third, irrigate.

If a man told me that the way to raise alfalfa was to prepare the ground it would be a truth, but not all the truth; if another told me to sow the seed, it would still be the truth; if still another said irrigate the field, it would be correct, but put all three answers together and you have the whole truth.

So here is the answer as simply as we can give it.

At the close of the sermon, seven came forward to unite with the church. This makes fifty-two in all during the meeting and the interest seems unabated. The subject for tonight will be: "The Model Church."

FARMERS TO KEEP RECORDS.

Census Director Durand's Appeal for Accurate Farm Data.

Washington, D. C., Sept. 7.—It will be suggested by United States Census Director Durand to the farmers all over the country that the work of securing accurate returns at the coming census of agriculture will be greatly facilitated if the farmers will keep or provide some sort of written record of their farm operations during the year 1909. This effort to secure the farmers' personal co-operation is but one of a number of ways and means chosen by Director Durand in the effort to secure an accurate, expeditious and economical census concerning population, agriculture, manufactures and mines and quarries, which are the subjects of inquiry defined in the census law.

Notwithstanding the value of the population returns for the political purpose of re-apportioning representation in the Congress of the United States and of the statistical information derived from an analysis of the population details, the census of agri-

culture, of all the subjects in the census law, is regarded as of the greatest importance.

The Twelfth Census reported a total fixed capital of \$5,046,935,516.00 invested in manufactures. The corresponding total for agriculture was \$26,514,061,838.00, or more than four times that of manufactures. A more conservative estimate, based upon a different standard of comparison, also used by the Census Bureau, places the investment in agriculture as more than twice that of manufactures.

In 1900 the census found 5,739,657 farms, an increase of 1,175,016 over the total of 1890. The 1890 figures were 555,784 higher than the number of farms counted in the 1880 census. Taking the increase between 1890 and 1900 and adding that number to the total reported for 1900, an estimated or approximate number of farms existing at the time of the Thirteenth Census may be ascertained; the process of calculation being that called "arithmetical progression," the method chosen by the majority of statisticians, and also used by the Census Bureau.

Therefore the 1910 total should reach 5,914,673, or roughly, about 6,000,000 farms, which is the number estimated by Chief Statistician Powers. There were 10,433,188 males and females over 10 years of age June 1st, 1900, engaged in agricultural pursuits. Prof. Powers believes the 1910 census will swell that number to the extent of several million.

The magnitude of these figures make it evident that the importance of the agricultural census hardly can be over-estimated. Hence the solicitude of Census Director Durand and Chief Statistician Powers, in charge of the Census Division of Agriculture.

Director Durand believes that great good will be accomplished by getting into direct contact and co-operation with the farmers. Some of the instrumentalities which will be used by him and which promise practical results are, the State Commissioner and State Boards of Agriculture, the State Agricultural Colleges, the Agricultural Experiment Stations, the Farmers' Institutes, the Farmers' Unions, the Patrons of Husbandry and the State Granges; in fact, all the existing organizations for the education and betterment of the farmers. Added to these will be the daily newspapers, the country press, and the farmers' publications.

It is estimated that millions of farmers will be reached at their homes or at their mutual improvements meetings by the contemplated method of circulating preparatory information.

Farm economists and scientists learned in agricultural problems, appointed as expert and special agents for a brief term, are now in Washington assisting Director Durand and his staff in the formulation of the agricultural schedule so that the questions to be asked by the enumerators shall be easily comprehended and so drew out the information ordered by Congress to be ascertained.

At the same time these practical steps are being taken by the Census Bureau, the farmers themselves will be called upon to help push the statistical plow over the country-wide field of farm data. They will be reminded that an accurate and practical census is the only one worth while.

In addition to the direct appeal to the farmers, Census Director Durand will inform them that the Thirteenth United States Census law requires that the agricultural census be taken at the same time, April 15th, 1910, as the count of population. The questions about farm operations will relate to the present calendar year, 1909, but, on the other hand, the inquiries regarding farm equipment are directed toward the farmers' possessions of this kind on the day and date of the enumeration, April 15th, 1910. The

WE SAVE YOU MONEY

Before purchasing your ice cream elsewhere, please consider the following figures. Amounts of one gallon or over delivered to any part of the city. Satisfaction guaranteed or no pay.

Ice cream, vanilla, per pint, 20 cents; quarts, 35 cents; half gallons, 60 cents; gallons, \$1.00; will also furnish other flavor or sherbert at above figures for amounts of one gallon or over, on twelve hours advance notice.

Your attention is also invited to the fact that we have a complete line of books, stationery and news of all kinds. Having recently enlarged our stock in every respect, we feel sure we can take care of your wants. If not in stock we will gladly order.

The Clothiers

latter division of the inquiry really amounts to an inventory.

The necessity for some written or permanent record by the farmers themselves of farm operations is obvious and its value in furnishing data more reliable than guesswork is equally evident.

In order that the farmers may begin at once, Director Durand indicates as follows, what operations are to be recorded, although the schedule is still in incomplete shape:

Each person in charge of a farm will be asked to state the acreage and value of his farm, that is, the acreage and value of the land kept and cultivated by him, also the area of land in his farm covered with woodland; and, finally, that which is utilized for specified farm purposes.

Each farmer will be asked to give the acreage, quantity produced and value of each crop, including grains, hay, vegetables, fruits, cotton, tobacco, etc., raised on the farm in the season of 1909.

Each farmer will be asked to report the number and value of all domestic animals, poultry and swarms of bees on the farm April 15th, 1910; also the number and value of young animals, such as calves, colts, lambs, pigs, and of young fowls, such as chickens, turkeys, ducks, etc., raised on the farm in 1909. He will be further asked to state the number and kind of animals sold during 1909, and the receipts from such sales, the number purchased and the amount paid therefor; and also the number slaughtered for food and the value of such animals.

The law requires a report of the number of cows kept for dairy purposes in 1909, and the total estimated amount of milk produced on the farm; also the amount of butter and cheese sold and the amount received from such sale.

In addition to the inquiry regarding animals, etc., on the farm April 15th, 1910, as explained previously, the census will seek to ascertain the quantity and value of all eggs, honey and wax produced on the farm in 1909.

Of the expenditures of the farm, the census schedule will call for a statement of the amount paid for farm labor; the amount paid for feed for live stock; and the amount expended for fertilizers in 1909.

If the farm changes owners or tenants between the crop year, 1909, and the date of enumeration, April 15, 1910, it is requested that the occupant of the farm in 1910 shall secure the above information relating to the farm for the preceding year, 1909. The owner or tenant this year should leave his book record with his successor.

The census act provides that the information shall be used only for the statistical purposes for which it is supplied. No publication shall be made by the census office whereby the data furnished by any particular establishment can be identified, nor shall the director of the census permit anyone other than the sworn employees of the census office to examine the individual reports.

Furthermore, the information reported on the agricultural schedule will be used on the basis of taxation or communicated to any assessor.

The act also states the fines or terms of imprisonment or both in case of violation of the secrecy imposed upon supervisors, enumerators, special agents, or other employees. It provides a penalty for false answers or for refusal to answer.

Director Durand wants the farmers to keep books this year so that guesswork and recollections will be eliminated as far as possible from the Thirteenth Census and the farmers' organizations are coming to the front with cheering offers of co-operation toward producing a practical, useful and unbelievable census of America's farm population, operations and wealth.

School Books at E. S. MORRIS & CO. For the convenience of our customers we have added to our well selected stock of drugs and jewelry a complete line of school books, including those of the high school grades. We also have as before, the largest line of tablets and school supplies to be found in the city. Call on us for good service.

WEATHER FORECAST.

For Wichita Falls and Vicinity: —Tonight and Wednesday, generally fair.

TEXAS AND GOOD ROADS.

C. Wilbur Coons, Secretary of the Denison Board of Trade, Denison, Texas, writes the Manufacturers' Record:

"I am writing to you to express my appreciation of the magnificent efforts of the Manufacturers' Record in making for the improvements and development of the South. I am also greatly interested in your recent announcement of the Good Roads Contest, and I believe that this contest will result in bringing forth a great many new and original ideas on road building.

"I have noted in the press of Texas a number of the most complimentary articles. I believe that your paper occupies a unique position among publications of the country in that it develops its attention to the development of an entire section which heretofore has been somewhat neglected. Again thanking you for the Manufacturers' Record and the good it is doing Texas and the South, I am, etc."

This is typical of the expressions brought forth by the announcement of our offer of an aggregate of \$400 for the best three articles dealing with the good roads problem in the South. The cordial reception given the announcement by the daily and weekly newspapers and by individuals in personal correspondence is symptomatic of the deep-seated, wide-spread interest in highway improvement. The time for entry of articles in the contest ends on September 20. Already articles are being received by us, and we shall be greatly disappointed if the contest does not add to the wealth of material of practical value to every body interested in the betterment of Southern highways.—Manufacturers' Record.

The last local option election held in Wichita County occurred on Saturday, November 30th, 1907, at which election the pros lost the fight by a majority of 57 votes. The total number of votes polled in this county at this election being 917. The two boxes in the Wichita Falls precincts cast 556 votes, giving and anti majority of 72.

"The North Pole," says Dr. Cook, "is a mighty cheerless spot to have excited the ambition of man for so many ages." And yet, what child has not set out, with youthful and enthusiastic dreams, to gather in the bags of gold at the end of the rainbow?

The fact that the auto races rarely fail to kill somebody will not fail to keep the anti-football cranks from making their usual howls this fall.

St. Mary's Academy opens today. By this time next year let's have a few more schools to keep it company.

THE DIVISION OF TEXAS.

It is a habit with northern editors, on those occasions when thoughts flow slowly, to write on editorials on the division of Texas. Appearances to the contrary notwithstanding Harper's Weekly is no better than the rest of the bunch up there. The following appeared recently:

Mr. Cutler, described as the traveling immigration agent of a railroad that finds a profit in hauling folk to Texas, professes to have a superlatively good opinion of that state. Perhaps it is a professional opinion only, but we see him quoted as saying that New York cannot long hold her title of the empire state, because—

Texas has lower taxes than any other state, more coal and oil than Pennsylvania, more iron than Alabama, more granite than New Hampshire, more health and healthiness than all Europe, more timber land than Michigan, more fruit land than California, more corn land than Illinois, more cotton land than any other state, more miles of railway than any other state, and is building more every year than any other state.

But hasn't Texas also got more freak legislators than any other state; Bro. Cutler, and don't you think the superiority of the Lone Star state in that detail will always save New York her title?

Texas is a mighty big state; big in various ways and enormous in territory. She is, in fact, an empire state, and always has been. Will she ever exercise her privilege of subdivision, and become five states, sending ten Senators to Washington instead of two? Probably not, unless for reasons not yet suggested that may some time develop. The privilege of having more Senators is not very greatly valued just now, Senators being regarded by the considerable proportion of our people who want the tariff revised as necessary evils ordered by the constitution. But folks who live in a big rich state are still proud of that association, and it will doubtless take strong, practical reasons to overcome the sentiment of the Texans for the State of Texas, and induce them to split it up.

Wichita Falls isn't worrying over the fact that Fort Worth endorsed Amarillo for the normal. If that endorsement is as worthless as the one Amarillo gave Fort Worth, honors are even.

After lives, time and money were lost in trying to find the north pole, two Americans go and find it, and find it twice to make sure; and thus old Europe gets left once more.

"Young Griffo," whose name was once a household word in pugilistic circles, is now in jail at Chicago. Nobody can get quite as far down and out as a has-been pugilist.

Census experts believe the United States will have a hundred million population in 1910, but there's always room for one more, especially in Texas.

For the benefit of our contemporaries, we will say that we are not overly proud of being the only wet town between Fort Worth and Dalhart.

The San Angelo Standard is shortly to install a morning edition. If it keeps pace with the evening paper, it will be going some.

Admiral Melville believes that Peary has discovered the pole. It is awfully kind of him to admit it.

This Date in History.

1781—Lafayette prevented the retreat of Cornwallis into North Carolina.

1787—A convention at Danville, Ky., resolved unanimously in favor of separation from Virginia.

1815—Howell Cobb, Governor of Georgia and president of the provisional congress of the Confederacy, born in Jefferson County, Georgia. Died in New York, Oct. 9, 1868.

1819—Thomas A. Hendricks, twenty-first Vice President of the United States, born. Died Nov. 25, 1885.

1829—President Jackson ordered naval forces to the coast of Mexico.

1831—Warsaw captured by the Russians.

1855—The first Hebrew temple in the Mississippi Valley, was consecrated in St. Louis.

1863—The Federals occupied Morris Island, in Charleston harbor.

1864—The Supreme Court of California decided that San Francisco must issue \$4,000,000 in aid of the Central Pacific Railroad.

1895—Thirty-five miners were entombed by fire in the Osceola copper mine at Houghton, Michigan.

Moved to Wichita Falls.

Mrs. S. M. Foster left this week for Wichita Falls to join her husband in making that city their future home. We regret to lose Mr. and Mrs. Foster as citizens, as they have for so many years been identified with the important affairs attending to the upbuilding of Ladonia.

Mrs. Foster was raised in Ladonia, but has spent several years in New York and other cities studying music. She easily ranks with the best musicians in North Texas, which fact has

been responsible for a large class of pupils having always sought her instruction. Her success as a teacher is truly remarkable, as evidenced by the fact that she has never taught, only in a private capacity, but has persistently been compelled to refuse many applicants on the ground of "more pupils than time." She leaves a class of twenty-five pupils, who regret her departure, but join the News in best wishes for her success and happiness in her new home.—Ladonia News.

Mrs. Foster has arrived here and has already organized a class in music. Studio opposite high school on 13th street. Phone 116. 100-11

Charles Hine, C. V. Durand, Lamar Pain, Claud N. Maer, Tom Felder, Dr. W. H. Felder, J. Prothro, Edgar Gorsline, Marvin Smith, W. H. Priddy, William Huff, Arthur Huff, Bonner, W. C. Hendricks, Mark Walker; Mr. and Mrs. Walsh, Mr. and Mrs. R. E. Huff and Mr. and Mrs. Gorsline.

HEROES OF 1898.

Spanish War Veterans Meet at Tacoma Today.

Tacoma, Wash., Sept. 7.—Soldiers and sailors who served in the army and navy of the United States during the Spanish-American war are gathering in Tacoma in large numbers in readiness for the opening tomorrow of the sixth national encampment of the United States Spanish War Veterans. In honor of the visitors the city is elaborately decorated, and numerous features of entertainment have been prepared.

This afternoon the national council of administration met at the encampment headquarters at the Tacoma Hotel to complete the final details of the program. The opening session tomorrow will be purely routine, consisting of welcomes and responses, annual reports and encampment organization. Wednesday the great parade, the feature of the encampment program, will be held. Contests for national officers and for the next place of meeting are already occupying the attention of the delegates. A strong campaign is being waged to elect Colonel Edward J. Gihon of Massachusetts to the office of commander-in-chief.

CIRCUSES.

The Old and the New and the Greatest Drawing Card.

Before the one ring days and going back a few centuries the circus was represented in the person of a mountebank, a thin visaged, clean shaven man who hitched his trapeze to the sturdy limb of a village oak and did feats to the ill concealed amazement of a people who respected God somewhat, but the devil and his black magic a great deal more.

A long and high jump this—from mountebank to modern hippodrome, from a man who lived under his hat to a tented city which houses as many as 25,000 people in one day and regularly furnishes food, shelter and transportation for 1,200 more, to say nothing of a hospital, a postoffice and a commissary where one can purchase almost anything from a postage stamp to a suit of overalls.

The big show today is as highly specialized and deviously organized as is our greatest business institution. Its maintenance costs a thousand dollars an hour. Yes, it's a long jump from the mountebank; but, after all, things haven't changed so much in some ways.

A man who was running a trick pony and dog show last year added a "thriller" to his program in the way of a dangerous flying trapeze act. To the delight of his pockets, but the intense disgust of his trainer's soul, the door receipts almost doubled. He had two men at the door one night who asked the outgoing crowds which part of the show they liked best—the trick animals or the acrobats. They answered as one, "The acrobats!"

Danger—danger to other human lives and limbs—that's the drawing card, after all, excepting only the children who are too young to be gory minded and who find most delight in the clowns. We growups like the "thrillers"—the more deadly the better.—William Allen Johnston in Harper's Weekly.

WHAT HE WAS TELLING HIM.

An Incident That Ended the Conversation at the Barber's.

"You are very bald, sir," said the barber to little Blinks as the latter took up his position in the chair.

"What's that you say?" asked Blinks pleasantly.

"I say you are very bald, sir," repeated the barber.

"Who is?" asked Blinks.

"You, sir," said the barber.

"What paper did you see that in?" demanded Blinks.

"What's that, sir?" asked the barber.

"What newspaper?" repeated Blinks.

"I read all the papers, but I didn't see any reference to this. Was it in one of the early editions of the evening papers?"

"Was what, sir?" queried the puzzled barber.

"This thing you were just telling me," said Blinks.

"Why, I don't remember telling you"—began the barber.

"About my being bald, you know," said Blinks. "You said I was very bald, didn't you?"

"Yes," said the barber, "but I didn't mention the newspapers, sir. Why should it be in the newspapers, sir?"

"Why, because it's news, isn't it?" said Blinks.

"I shouldn't say that, sir," said the barber.

"Well, if it isn't news, what in thunder did you tell me about it for?" demanded Blinks. "I supposed you had read about it in one of the papers and had reached the conclusion that I didn't know it. If you find a mole under my left ear while shaving me, break it to me gently, please, and you may omit all mention of the fact that my beard is getting gray. I am trying to stave off a realization of the—"

But just then the barber accidentally ran his lather brush over Blinks' mouth, and the conversation ceased.—Lippincott's.

The Mechanical Choir.

"I hear that your church has installed a phonograph stuffed with sacred music?"

"Yes. Had to do it. Choir had struck."

"New scheme work all right?"

"It's beautiful. Never quarrels with itself, has no skirts to rustle, doesn't fret about the angle of its hat, refrains from giggling or powdering its nose, and if it gets out of order a mechanic can repair it."—Philadelphia Ledger.

The Day He Selected.

When Mr. Gladstone was alive he was once discussing with some friends at Hawarden castle the greatest day in the world's history. Each member of the group was asked to say on which day he, in the past or the future, would prefer to live, it being supposed that he should have his present knowledge, and afterward return to his present existence. Mr. Gladstone chose a day in Greece when Athens was at its highest glory.

Not Like Him.

The Vicar—I'm surprised at you, Miggs. Why, look at me. I can go into the town without coming back intoxicated. Miggs—Yest, sur. But O! be so popular.—London Telegraph.

Might Have Helped.

"We were traveling all day in the teeth of the gale."
"Fifty you didn't have a dentist."
"What for?"
"To draw the teeth!"

AUTUMN STYLES.

Fade and Fashions for the Coming Month.

New York, Sept. 7.—The ever increasing fallouts of skirt and sleeve, so noticeable in the advance models put out by the leaders of fashion is, of course, a matter of vital importance to the student of fashion. The flow of the sheer materials of summer foretells a season of drapery, although the fabrics worn in colder weather will look entirely different, even when made in the new way. Skirt yokes and cuirasses are a short of compromise, which keeps the material unpleated around the hips and waist.

It is asserted by some recognized authorities that there will be no plain skirts during the coming season. Trimmed skirts the same authorities say, will not be much in evidence, but pleats will be used on nine out of ten of the models. If this is true, it will surely please a large majority of the women, for the plain, smooth-fitting skirt is by no means becoming to all figures, while pleats can be arranged to suit any figure. Fortunately there is no strict rule as to how the pleats shall be arranged, so long as they form part of the skirt design.

The new skirts clear the ground and gored patterns are preferred to the circular, being more satisfactory for pleating. Some skirts are pleated all around the waist, from a narrow, plain front gore; others display pleats in groups. A favored model, because it is generally becoming, is the pine gored skirt, with a pleat let into each seam from just below the knee to the edge of the skirt. Stout women will like this model, for the reason that, if the pleats are made deep and set in accuracy the effect is that of a plain skirt, the pleats only displaying themselves when the wearer moves. Tailor stitching is almost the sole decoration, and the absence of buttons is marked, for those employed are for use only.

In this day of odd combinations there is distinct temptation to indulge in experiments. Last year, when linen was first trimmed with silk, we stood agast at the temerity of the designer, yet we have lived to see much stranger combinations. Woolen braid have actually covered some of the buttons on gingham frocks. This summer it has become quite usual to see a linen or lace coat worn with a frock of pongee or even foulard, while linen gowns and wraps are made with swathes of satin, not merely worn with the garments, but attached to them as part of the gown. Even chiffon has not been exempt from this strange combination idea. The chiffon gown has made its appearance in times past adorned with strappings of broadcloth, and this year it has been used even in conjunction with linen, when it forms a tunic or overdress.

One of the striking features of the present period is the popularity of black and white in combination. With the passing of the summer and the infinite advent of autumn black and white give pleasant relief from the gay colors of the summer season. Nothing can be better adapted to the morning or the evening, to house or street wear, than this combination of two strong forces. The black and white dress, with either color predominating, gives a sense of appropriateness to the time. The large, white bird placed upon the black hat solves the millinery question.

Even some of the newest negligees have departed from the baby blues and bell pinks and are appearing in black and white. The practical advantage of a pignoir that does not spend most of its time at the cleaner's ought to recommend it to the average woman. A very alarming one is of China silk, with the front edges rounded off. The trying quality of black near the throat is mitigated by rows of soft white or ecru insertion. This appears again at the sleeves, and a ruffle of lace to match edges the wide collar and the loose cuffs.

Paris milliners are using wing trimmings on five out of six fall hats, and these trimmings are used in new and unconventional ways. Heron feathers in brush or algerette, or in 'hedge' effect form the trimming on some of these graceful roll-brim shapes of white felt. The feathers emanate from a pleated band of moire ribbon, huge black cabochons accenting the black and white effect of the white hat with its snowy feather trimming and black under-brim facing. Beaded and embroidered tulle and

silver and gold gauze are taking the place of the tucked tulle which have so long been in favor for the necks of semitailored and other dresses. Unfortunately, the pretty tucked material has become too available for the popular buyer. Now the fastidious are turning to shirred tulle or to the plain metallic fabrics. Shirred tulle sleeves come together over the arm in a double ruching that forms a line from shoulder to wrist, or a band of embroidery breaks the plain round effect.

Among the most important items of dress at the present time are the new corsets. These are 'the longest ever'—long in hips and the waist and high in the bust, though the bones seldom come within two inches of the top or the lower edge. The idea is to sheath the form without stiffening it. A corset of this new, long-waisted cut is as essential to the perfect hang of a short waisted middle-aged dress as it is for the long-waisted tight dresses which will be popular this fall.

The summer supply of stocks often needs replenishing by midsummer. Here is a dainty one that can be made in a few minutes and need cost but very little. Cut a well shaped collar of dotted Swiss; bone it at back, sides and on each side of the front and edge with narrow German Valenciennes or linen lace. Either button with small pearl buttons and loops at back on the tiniest hooks and eyes.

One button is the only fastening on the very chic coat, and is often placed well below the waistline. The fronts of the coat must not fly open, however, but stay as trimly in place and hold their shape as with the usual mode of fastening.

Among the most effective evening coats, to wear over light gowns, are those of filmy chiffon in one of the deep tones—perhaps prune, purple, coal-dust, bottle green or black, showered with matching spangles and beads, and edged with a broad border of jet embroidery.

The house gown of the moment are distinctly beautiful in line and coloring. The more dressy models are of delicate chiffon, with an over drapey in chasuble effect and heavily embroidered net.

An odd and pretty trimming on a chiffon gown is a wide puffing of chiffon, through which a satin ribbon is run, the puffing studded at intervals with beaded embroidery motifs.

Long silk gloves to match the frock are tucked in groups on the arm and buttoning at the side seam. When worn they give the effect of a sleeve.

One of the latest novelties are tasseled silk stockings. The fluffy silk tassel dangles from an embroidered design just high enough to show when the dress is lifted.

Some of the new belts are of suede and kid, very charmingly combined. Dark green seems to be the most popular shade for fall suits.

Narrow fringes are used several rows deep on modish cloaks.

FLORENCE FAIRBANKS.

Rich Widow Weds Naval Officer. Gloucester, Mass., Sept. 7th.—The wedding of Mrs. Helen M. Livingston and Lieutenant Commander Benjamin B. McCormick, U. S. N., took place at the bride's summer home Saturday. The bride is the widow of Charles Crowell Livingston, a wealthy New York man, who died some years ago. Lieut. Commander McCormick is at present attached to the battleship Mississippi.

THE WICHITA STATE BANK

Opened for business August 2, 1906, in the new Vreeland Bldg., corner 8th St., and Indiana Avenue.

We have the finest safe made, making our fixtures the most modern and up-to-date in the State.

Our depositors will be protected by the guarantee fund of the State

We solicit the accounts of firms, corporations, individuals, ladies and children, who may rely upon courteous treatment and the very best terms that are consistent with sound and conservative business methods. Our officers are experienced bankers.

If we have your business it is appreciated, and if not remember that we want it, whether large or small.

We specially desire you to call and see us and remember that our officers are at the service of our customers.

Estimates Promptly Furnished

It's natural for you to want the most and the best you can get for your money. But when you buy a bill of lumber without getting an estimate from us, how do you know that you're getting the best bargain that is possible for you to get?

You simply can't tell a thing about it. You don't know whether you're losing money, or not.

The only safe way is to always let us make you an estimate on what you want, before buying elsewhere. We have complete stocks of everything in lumber and building material.

MOORE & RICHOLT, Lumber and Building Material

LADIES' FURNISHINGS AND MILLINERY

We desire to inform the ladies of Wichita Falls that on or about Sept. 15th, we will open up a full and complete line of Ladies' Furnishings and Millinery Goods in one of the J. C. Ward buildings, fronting on Eighth St., between Ohio and Indiana Avenue.

Our Store Will Be Known As

"THE CRITERION"

609 8th Street

Our Stock will be complete and Up-to-Now in every detail, and if we do not happen to have what you want will take your orders and get it for you. Our Hats and Ladies' Furnishings are of the latest French Models. We will appreciate a visit from you.

REAL ESTATE AND RENTALS.

H. J. BACHMAN, Notary Public.

Phone—Office, No. 157; Residence No. 108, Room 10, Jackson Bldg.

RUSSELL SAGE—"Buy real estate in some live town or city, then work hard at your usual business, and your real estate purchases will soon make you comfortable."

Don't Pay Rent

ANDREW CARNEGIE—"The wise young man or wage earner today invests his money in real estate."

We are going to give twenty-six people an opportunity to own their own homes by paying a small cash payment down and payments monthly without interest.

The Wichita Development Company owns twenty six modern bungalows on Burnett, Bluff and Austin Sts., between Third and Sixth Sts., which we have induced them to allow us to sell on easy terms, *Without Interest or Taxes*, and on which they will carry the insurance until forty-eight monthly payments have been made.

These houses are well built; have concrete foundations; all chimneys built from the ground, and are all pleasing in appearance. They are close in, the property beginning six blocks from the First National Bank. The ground is the highest of any portion of Wichita Falls which lies in the valley, as shown by the statement of City Engineer, Hinckley, which appears in this advertisement. Cement sidewalks are laid over nearly all the property, and every house has a sewer running down alley in rear. The Gas Company has laid its mains down the streets. Each house is connected with city water. Free mail delivery and a school house within two blocks of the farthest house are among the advantages. The soil is deep and fertile and trees and lawns can be grown better than in most parts of the city. When these houses have been sold, as they will be, under these extraordinary terms, and the property is occupied by owners, who will be interested in its development, property values will double.

These houses are practically new, and rent from \$15 to \$20 per month, and at that, are the cheapest rentals in the city. On a house renting for \$15 you double the rent for 48 months and own the house without payment of interest, taxes or insurance, by paying a cash payment down of but \$100.00. On a house renting for \$20 per month you pay a larger cash payment but add only \$10 per month to your rental.

A buys the first house listed, he pays, in cash, \$100.00 48 month's rent saved at \$15 per month..... \$720.00
He pays 48 payments of \$27 each 1,296.00 Net cost of house..... \$676.00
Total cost..... \$1,396.00

It is reasonable to suppose that with the growth of Wichita Falls the value of the property will have increased to \$2000.00, in which event the purchaser will have made a net profit of \$1324.00 on his investment.

**No Interest
No Taxes
No Insurance
Forty-Eight Monthly Payments**

Price List

| Street Number | Cash | Payment Monthly |

The Wichita Development Co.,
Wichita Falls, Texas.
Gentlemen:

Wichita Falls, Texas, Sept. 2, 1906.

This is to certify that the property owned by your company, Blocks Numbers 121, 122, 123, 144, 145, 220, and 241 has an altitude of from 958 to 960 feet. The altitude of that portion of the city lying between Seventh St. and the Wichita Valley Ry. from North to South and between Lamar St. and Michigan Ave., from East to West, ranges from 951 to 957 feet; in other words, the property owned by your Company is from one to eight feet higher than any portion of the city, excepting such as is on the hill. For example, the altitude of Burnett and Third St. on your property is 960 feet. On the corner of 12th and Scott, which is in a good residence section of town, the altitude is 951 ft; consequently, should the city ever be inundated, the water would be 9 ft. in depth at the corner of Scott and 12th before it would begin to cover your property at Burnett and Third.
(Signed) L. C. Hinckley, City Engineer.

ELBERT HUBBARD—"It is a wise man who can find just as much pleasure in investing ten dollars wisely as he can in spending it foolishly."

BEAN & HUEY

Old Commercial Hotel Building — 617 8th Street — Old Commercial Hotel Building

EX-PRESIDENT GROVER CLEVELAND—"No investment on earth is so safe, so sure, so certain to enrich its owner as real estate."

The Best Time To Buy Coats and Suits is

RIGHT NOW

While the stock is large and you can secure choice and quick delivery from a great number of desirable garments. Right now we have your size and can deliver the garment at once. The probability is that you'll not have to wait a minute for alterations. Our stock is composed of such well known brands as The Palmer garment, La Vogue and

Goldston's Suits and Coats. These garments are made on such perfect lines that few alterations are required. When they are we can make them easily and quickly. The high quality of garments of these makes is an assurance of satisfactory wear. As to the styles - Well, if you'll come here we can convince you that they are exactly what you want. Price, too, is an object, but be sure for the price you pay you secure the very best value and that outside appearance is not all you pay for. When you select one of these garments the question of quality is

settled before you buy. We have Ladies' Tailored Suits ranging in price from \$10.00 to \$45.00. We will be pleased to show you these garments, whether you want to buy or not

PENNINGTON'S

The Place Most People Trade.

"There's a Reason"

THE INDIANS PAID.

What the White Men Charged Them For Killing One Donkey.

In "Reminiscences of Old Times in Tennessee" a story is told of the good faith and honor of a party of Chickasaw Indians. While hunting one fall they shot a donkey, mistaking the creature for a wild animal. They sold the hide, and it finally came to the hands of John Barnes in Lipton.

When the Chickasaws returned to the region of Lipton for their annual hunt the next fall Barnes invited them to a shooting match, the prize to be the skin of a very rare animal.

Thirty braves appeared at the contest, and one of them won the prize. When he saw the skin he turned it over and said: "Ha, ha! Me kill him! Me shoot him! See?" And he pointed to the fatal bullet hole.

Then Barnes told them that they had killed a donkey, a very useful animal, but he was sure that they had done it by mistake, believing it to be a wild animal.

The Indians listened attentively to the white man's words and then consulted together a few minutes. Finally they separated, each brave going to his pony, unhitching him and leading him to the spot where a gang of white men stood, Barnes in the midst of them. Then one of the Indians spoke:

"We sorry we kill donkey. We think he belong to the woods. We find him in case. We think him wild. We sorry. Now we pay. We take no white man's horse, pony, nothing of white man. We honest. We have ponies; that's all. Take pay." And he motioned to the long line of ponies, held by their owners.

"How many?" asked Barnes.

"White man say," returned the Indian; "take plenty."

The honor of the red men was not equalled by the white men, for, be it recorded to their shame, they took from the Chickasaws thirty-five ponies to pay for the accidental killing of one donkey.

AN AFRICAN RAILWAY.

The Way It Was Described by an Educated Native.

O. J. Phillips, business agent in Uganda of the Church Missionary Society, throws light upon the workings of the native mind by quoting a remarkable letter in which a native member of the katikro's (prime minister's) party gives a description of the Uganda railway.

"My friend, I can tell you the Europeans have done a marvelous thing to make the railway and the trains. They fasten ten or fifteen houses together and attach them to a droppace which is as big as an elephant, and the road it goes on is as smooth as the stem of a plantain. It goes as fast as a swal-

low flying, and everything you see outside fits past you like a spark from a fire. If it were to drop off one of the bridges not one in it would be saved, for it goes dreadfully quick. The hills it passes are as high as those of Kokoi, and they have bridged over great valleys which are as deep as that you see when you look from the top of Namirembo, so deep that you cannot see the bottom when you are going over them."

Later there follows a description of a ship: "It is as deep as our two storied house and as wide as the king's road in Mengo, and it is as long as from the katikro's fence to the gate of the king's enclosure. It has three tall poles in it and a big throat, out of which smoke comes, which is as wide as the new drum in the church at Namirembo. The rooms in it go down three stories, and the boards of these I cannot describe to you, for such have not been seen before. There is a lot of metal work about them, too, but these also I cannot describe, for it is so fine. There are children on board and a flock of sheep and places to wash in attached to every place where a chief sleeps, such as even our king has never possessed."—London Strand Magazine.

Old Book Terms.

The words folio, quarto, octavo, duodecimo and the like have almost if not quite lost their original meaning. At first they had reference only to the number of leaves into which the sheets used in making the books were folded. Thus if these sheets were folded once so as to form two leaves or four pages the book was called a folio; if the sheets were folded twice so as to form four leaves the book was called a quarto; if they were folded four times so as to form eight leaves the book was called an octavo, and so on.

A Growing Love.

Mr. and Mrs. Married Bliss were both growing very plump, and every effort to reduce weight had proved fruitless, and their discontent with their failure was pathetic.

"It is too bad," said a mutual friend to a sympathetic physician. "The Blisses are so fond of each other and used to be so graceful and slender when they were first married."

"Ah, well!" replied the physician. "Think how much more they are to each other now."—Life.

The Difference.

Stubbornness is fighting to have in a certain way what you want. Strength of purpose is getting in the most convenient way that presents itself what you desire.—Chicago Record-Herald.

chased the property from S. J. Higgs, at 1311 Eighth Street.

Mr. and Mrs. Robert Duerer of Houston, arrived in the city this evening and are the guests of Mr. and Mrs. H. W. Woods. Mrs. Duerer is a sister of Mr. Woods, whom he had not seen for five years.

Rev. J. Wettemer of San Antonio, Presiding Elder of the Evangelical Association of the Texas Conference, who has been conducting a meeting at Bowman, resulting in twenty-four conversions; will take the train for Hall, Tex., this afternoon, where he is to conduct a quarterly meeting.

ALL-STAR TEAM WINS.

Vic Stamfil's Umpiring Was Feature of the Afternoon.

Labor Day was appropriately celebrated yesterday with a game of ball between the All-Star team, composed of the employees of the local post-office, and the Invincibles, these latter being selected from the members of the volunteer fire department of this city, at the high school grounds.

The game was replete with all the points going to make up an interesting game.

The most interesting feature of the game was the umpiring of Chief Vic Stamfil. His "umps" handled the counters like a veteran, and so good was his judgment that fairs or fouls were judged independent of the established lines. His judgment on close decisions was decisive, regardless of circumstances.

This was no ordinary game. The hits, errors, scores, etc., reached a number it is believed hitherto never reached in the city.

The batteries for the fire department consisted of Will Bachman, catcher and Jim Bachman, Grover Habern and "Tubby" Bachman, pitchers; those of the postoffice were Preston Caskey and Floyd Billingsley, catchers, and Jap McHam and Joe Gibson, pitchers.

At one time in the game the score stood 11 to 2, with honors for the fire boys, but the Postals settled down and only allowed 21 more nits, running in 4 scores, while they commenced slugging and run in enough scores to win the game by a score of 16 to 15.

This is My 49th Birthday. Representative Charles Frederick Scott of Kansas, who, it is reported, may be the next Secretary of Agricul-

Fort Worth Cattle.

Texas News Service Special.

Fort Worth, Sept. 7.—Cattle, 2,000; hogs, 1,800; steers, steady tops, 390; cows, steady tops, 340; calves, strong tops, 350; hogs, higher tops, 802, breaking record.

ture of the United States, was born on a farm in Allen county, Kansas, Sept. 7th, 1860. He was graduated from the University of Kansas in 1881, with the degree of B. S., receiving his master's degree some years later. In the latter part of 1882 he bought a small interest in a weekly newspaper in the town of Iola. Later he acquired entire control of the property and converted it into a successful daily. In 1892 Mr. Scott was elected as a Republican to the State Senate of Kansas and served for four years. In 1901 he was elected Congressman-at-large, and in 1906, the state having been redistricted, he was elected to the Sixtieth Congress as Representative from the Second District. Representative Scott has devoted particular attention to agricultural matters and is regarded as well qualified to fill the office of Secretary of Agriculture.

China Palace
And Variety Store

Will Open Soon

Our new store, corner 8th & Indiana is beginning to assume the proportions and beauty with its many conveniences that were planned months ago. The electricians, carpenters, painters, cabinet and workmen generally have had charge of remodeling our new store for the past three weeks. We hope to present the large and beautiful store within the next 10 days.

Look Who's Here!

A treat for all—a special engagement at the Majestic; O'Dell and Whitewing, the most refined high class vaudeville performers on the American stage. Don't miss them. We are sure they will please you all. Our picture program is the latest out—2000 feet of life motion pictures. Don't miss hearing our beautiful illustrated songs. Come and spend an hour's pleasure in one of the most comfortable places of amusement in the city.

Yours to please,
100-11c THE MAJESTIC.

TO WHOM IT MAY CONCERN:

This is to certify that we have used Carter's Mineral Water for the past two years and have found it to be a first class mineral water in every respect.

Very respectfully,
BURNSIDE & WALKER,
Physicians.

Our Own Roast, Mocha and Java Coffee

Sixty per cent Best, Old Government Java, forty per cent BEST Arabian Mocha, not a single grain of anything else. The very best of the World's markets, well aged, roasted fresh by natural gas heat in electrically driven roasters. Other roasters may be able to roast better coffee, but doubtless no roaster ever did.
