praskan's El Paso Speech is Characteristic and Comprehensive Argument.

Texas News Service Special. Gainesville, Sept. 28.—Senator Bailey said today that he had decided to reply to W. J. Bryan's El Paso address on either Saturday or Monday in Fort Worth. He will talk in the Coliseum and a crowd of probably eight thousand will hear him.

The senator is spending today in reading Bryan's speech which was delivered yesterday and he will prepare an exhaustive reply, supporting his contention against free raw materials. Bailey would not discuss Bryan's address today, preferring more time to read it thoroughly. Bailey expects to make still another reply to Bryan, if the latter continues addresstariff.

Bryan's address at El Paso yesterday was more of a personal attack than his former address at Dallas, and he said several things apparently intended to reflect upon the senator personally

CONFIDENT THAT HIS METHOD OF TREATMENT HAS THE POWER TO DISPEL DISEASE.

Mr. Sam Sanger, of the well known firm of Sanger Bros., of Dallas and Waco, is in the city today and quartered at the Maverick hotel. Mr. Sanger is here for the purpose of meeting his family who will arrive today from an extended trip to California. A Times reporter called upon Mr. Sanger at his rooms today, and in the course of ordinary conversation the subject of Dr. Fanning's wonderful cures by animal magnetism was discussed. Mr. Sanger was asked what he thought of Dr. Fanning, knowing that the doctor was well known in Waco, and said: 'I am a firm believer in Dr. Fanning's power to heal as he represents. About two years ago, while out driving in Waco, my horse became scared and ran away. I was thrown beneath the wheels of the vehicle and was caught and dragged the distance of two blocks. Among the many wounds I received was a severe bruise on the arm. My arm became stiff and a large knot or swelling materialized. I suffered great inconvenience and some pain from the wound, and was treated for over a year by physicians in my city to no effect. I was finally induced to give Dr. Fanning a trial. The consequence is plain. My wounded member is sound, and, understand, I only had three treatments. I believe in animal magnetism and know Dr. Fanning has power to rub away many diseases." -San Antonio Times.

## Millionaire Cattlemen Endorse Dr. Fanning and His Method of Healing Diseases.

Everybody in Texas who knows anything of the big cattlemen, knows the ons whose names are attached to the following statement. The combined wealth of those men would roll up several millions of dollars.

The letter and testimonial herewith given speak for themselves, and per-haps no cure in the whole magnetic healing was ever more marked or more satisfactorily attested.

Refugio, Texas, February 28, 1891.—Dr. Frank Fanning! According to promise, that at the expiration of six months from the time of treatment 1

would wirte you, now do so, assuring you that I enjoy perfect health.

October 11, 1888, I was suddenly seized with convulsions of the more October 11, 1888, I was suddenly seized with convulsions of the most painful character. They returned every other day, quite regularly for about a month, then grew less regular. While suffering from the fits my reason left me; I became unmanageable, and it required the united efforts of two strong persons to control me, while my screams could be heard a block away. After a while I began to lose the use of my left side and the sight of my left eye was much impaired. The skill of my medical attendant was unquestioned, and though he materially relieved my suffering, the puroxysms would return until treated by you six months ago, since which time they have entirely ceased, and I do most unqualifiedly believe that I am perfectly cured through your treatment, for which I thank you in the most heartfelt manner. I am yours respectfully,

statements. W. B. DOUGHTY, R. DRISCOLL,

T. M. 'CONNOR, PAT LAMBERT, J. Y. HAMILTON, P. M.

Miss Doughty seems perfectly restored to health, D. M. O'CONNOR.

Dr. Frank Fanning, by this one cure, has demoustrated his possession of marvelous powers. This young lady, for eleven months the subject of disease which dethroned reason, which impelled her to violence which required two strong persons to control, which gradually induced paralysis and loss of sight, and which baffled the ablest medical skill, is restored to health in less than two weeks' treatment by the simple laying on of hands, and is pronounced by herself and friends six months afterward perfectly cured. These signers say that they know the patient 'well and intimately.' The force of testimony can go no farther, and taken in connection with other cures per-formed by this magnetic healer, equally well attested, prove him without question a man most wonderfully endowed by nature with gifts of healing for suffering humanity.

No amount of criticism, no skepticism of the mind, no prejudice can set aside or break the force of such testimony as this. A man or woman who would not believe in the wonderful healing power possessed by Dr. Frank Fanning on such evidence would not believe though one rose from the dead. Those who suffer and come to him for help are the living epistles of his power of heal-

WEATHER FORECAST.

Tonight, fair and warmer. Wednesday, fair. ............

'I have always contended that no man should ever be elected to a publie office who had violated the positive and specific instructions of his constituents. I have always believed, and I now believe, that the right of the people to instruct their representatives is essential to their security as free men. I regard that as a vital fundemental principle of this republic, and its faithful maintenance is of supreme importance to the safety of the government and the happiness of the people."

These words were spoken by one of this country's leading democrats and statesman. It is not necessary to print his name. They sound good and have the right ring to them. To the first Times reader who will guess the name of the great statesman who uttered the words quoted, it will reward him with a year's subscription.

According to reports from Washington the basis for representation in Congress will be fixed at 225,000 for each congressional district. The increase in population it is asserted, will entitle Texas to six more congressional districts making a total of twenty-two in all. The population of this, the 450,000. The latter without disturbredistricting the state.

Altus Democrat, it would seem that somebody has been telling something:

Did you walk down Main street about 8.30 or 9 this morning? Did you notice the large crowds of tired sleepy looking men which lined the side walks? They were some of the ones who took in the big excursion to Wichita Falls yesterday. The excursion train did not arrive here until about 7:30 this morning, getting out of Wichita Falls about 12:30 last night.. The excursionists all report a good time and their looks go far toward confirming the report.

The accommodations at the A and M. College have been filled and a large bunch of boys will soon experience the exhibaration of sleeping in a tent while the weather is being revised downward. What a benevolent and fatherly administration Texas has,

An Oklahoma lady suggests that if suffragette campaigns were conducted only by the most beautiful women, they would be successful, but we doubt if even a bunch of pretty girls could get anything from the Texas Legisla-

In answer to a criticism that he was making enemies in Texas," Mr Bryan, in his El Paso speech replied: 'No, I am not. I am merely driving them out in the open from under cover." If he should be permitted to live his life over again and make a speech every day during that life, he will never be able to utter a greater truth than the short sentence above quoted. Senator Bailey has his friends and has no doubt added to them since the Bryan-Balley controversy arose, but every fellow who has had it in for Bryan during the past twelve years is now taking advantage of the situa-

tion to play even. During the past four years Wichita Falls has added more to her population and wealth than any other town in city grown and prospered, but Wichita county has grown, both in population and wealth in about the same proportion as has Wichita Falls. This splendid showing has been accomplished by pluck and enterprise, and so long as that spirit prevails, both town upon the one that would. THE PRICE OF GENIUS.

In Thought.

To be a ploneer in thought is to stand alone with nature, not for a few minutes, but for life. The isolateness of the few great minds of each generation of men is seterly undreamed of, for want of derstanding, by those about them. Yet think what it is to pass one's days in a thought world where the thinker roams alone; to grapple with problems the very terms of which are beyond ordinary comprehension and the solution appreciated only in years to come; to contemplate in lonely ecstasy, after still loneller despair, the revelation that comes with months and more of pondering. When some one asked Newton how he came to make his wonderful discoveries he replied, "Simply by the state of Texas. Not only has the always thinking about them." Consider Kepler tolling year after year fruitlessly for some ratio that should link the plauet's motions by a general law, calculating assiduously, and putting hypothesis after hypothesis aside as he found it would not work until at last, after almost inconcelvable toll, he hit

As if this loneliness by nature were not enough, it must needs be accentuated by man, for be rises in such cases in chorus to condemn. Consider Darwin, in patient study, testing the working out of natural selection and adding fact to fact, only to have the whole denounced as ridiculously absurd. Think you the denunciations of the master while living are wholly compensated by the plaudits after be is dead? The loneliness of greatness is the price men make the genius pay for posthumous renown.-Percival Lowell in Atlantic.

### THE COOK'S FAULT.

Ne Wonder the Bird Was Not Tender When Served.

One of the most annoying things about swans is that they live to an extremely great age and that it is impossible for the ordinary observer to guess what their years may be. President Grover Cleveland once bad au amusing experience with some swans, according to a writer in the American Magazine. He had been in the south shooting and brought home a number of wild swans, one of which he sent to each member of his cabinet and to some other associates,

"All the boys," said Mr. Cleveland, "thanked me politely for having remembered them, but none of them seemed to have much to say about how they enjoyed the birds.

"Carlisle, I found, had his cooked on a night when he was dining out. Another, when I asked him, said he hoped I wouldn't mind, but he had sent his home to his old mother. Thurber didn't mention his bird at all for two days. Finally I asked him about

"Thurber, dld you get that swan all right?

"'Yes, sir-oh, yes, I got the swan all right, thank you.' and he bent over his desk and seemed very busy.

"Enjoy eating him. Thurber?"

"'Fine bird,' I said.

"He waited a minute, and then be said: 'Well, sir, I guess they didn't cook him right at my house. They cooked him only two days.' And be went on working without cracking a

Edible Flowers of India.

Many edible flowers, it appears, are to be found in India. One of the most appreciated grows on a tree about which we have very little information, but which in the country itself is named the "mbowad." The natives consume an enormous number of these flowers, whose pale yellow coroline are pulpy and thick, and they prepare them in various ways,

When they are fresh they are put in cakes, to which they give a sweet flavor, but they are more especially used for making bread after they have been dried and reduced to flour. By allowing them to ferment a kind of wine is produced, and by distilling them a brandy is obtained of which the Hindoos are very fond.-Vulgarisation Scientifique.

A Dandy of 1770.

From an English newspaper printed in the year 1777 is the following de scription of a dandy: "A few days ago a macaroni made his appearance in the assembly rooms at Whitehaven. dressed in a mixed silk coat, pink satin walstcoat and breeches covered with an elegant silk net, white slik stockings with pink clocks, pink satiu shoes and large pearl buttons, a mushroom colored stock covered with fine point lace, bair dressed remarkably high and stuck full of pearl pins."

Utter Contempt.

"I s'pose you wouldn't marry me if were the only man on earth?" "I wouldn't even be engaged to you," responded the girl, "If you were the only man at a summer resort."-Louisville Courier-Journal.

And the Parson Passed On. "And what are you here for, my friend?" asked the visiting parson of

an inmate of a reformatory. "'Cause I can't get out, thank you,' replied the victim.-Ladies' Home Jour-

# Why Chocolate Cakes and Candies ARE THE BEST

When you make Cake or Candy at home just bear in mind that you will have the very best and most wholesome if you use chocolate for the filling or flavoring, and this is why:

Some of the best food authorities say that a pound of chocolate contains at least 19 times as much food value as a pound of bread and more than 20 times as much as potatoes.

In fact, chocolate is a very strong and highly concentrated food and one that we all ought to eat more of the year round.

### Baker's Bitter Chocolate

Tim Murphy, the tall comedian, will present his latest success, 'Cupid and the Dollar,' at the Wichita Theatre, Saturday, Oct. 2nd.

Like John T. Raymond, Joseph Jefferson and Sol Russell, whose art his own resembles, Tim Murphy is essentially quaint and gentle, sentimental as well as funny, and like those predecessors in the royal line of comedy his humor is always American. Asked the other day where he got his types and where he studied them, Murphy replied: 'My studio is whereever 1 am.'' Joel Chandler Harris never had a fixed writing room. He sat down at the first table he came to when the inspiration for one of those delightful Uncle Remus stories came to him, When Tim Murphy was told this of his old friend, he continued: "I can understand that perfeetly. It is a curious mental machine which will not work except when seated in some particular environment. office on Seventh street, next Door to For my part, I find that my characters develop best unconsciously. They grow out of the suggestion of the striking phases of human nature which I find in my travels-in a railway car, at my own dining table, at church, in the theatre, on the street, every where human nature is expressing itself for the artist with an eye which

> well." He went on to tell that it was on this principle that he developed the amusing characteristics of his new role in . 'Cupid and the Dollar.' This is an original American three-act comedy by Charles Jeffrey, a new dramatist discovered by Mr. Murphy, but firmly established by his first success. At the head of the company supporting Mr. Murphy is charming and gifted Dorothy Sherrod, with a whole new wardrobe of modish gowns for the noting of the ladies and the admiration of

## Rain Will Ruin Any Machine.

It's a shame to see that valuable binder standing out there in the rain today and the sun tomorrow, when just a few boards would protect it against the elements and prolong its life enough to pay for half a dozen sheds.

How is it with your idle machinery? Is it standing around just where you last used it, or did you draw it into the barn yard to

Why not stop in next time you're in town and take home a 'Jag''-of lumber for those much-needed sheds?
