WICHITA FALLS, TEXAS, OCTOBER 8, 1909

NUMBER 43.

FATAL RESULTS OF WRECK ON SANTA FE

TRAIN OVERTURNS NEAR TEMPLE AND MANY PASSENGERS ARE HURT.

DEFECTIVE RAIL CAUSE

Engineer McGinnis Pinned Under Cab. There Will be a Long List of Injured.

Temple, Tex., Oct. 6.—Many passengers were injured, some probably fatally, when Santa Fe train No. 17 was overturned this morning three miles out of Saline. Engineer McGinnis was pinned under his cab and is reported dead.

The train was running at a high rate of speed when the accident occurred. It is believed to have been caused by a defective rail. Many of the injured have been brought to the Santa Fe hospital here, but a list is not yet available.

The accident took place in the early morning, when practically all the passengers were asleep and totally unprepared for the shock. Those in the sleeper were precipitated out of their berths and the list of injured will be a long one. Everything possible is being done to relieve the situation, but hospital accommodations here are very limited.

Belton, Tex., Oct. 6.—The train was derailed when it ran into a split switch at Saline south of Temple at 3 o'clock this morning.

Engineer McGinnis of Temple, is dead at the Santa Fe hospital, and Fireman Greer of Cleburne, is reported dying.

J. W. Winfield and E. F. Gresham, Fort Worth mail clerks, were injured when the mail car overturned and Elisa Robinson of Houston and Sam Hollis of Ladonia, both negroes, were also among the injured.

The engine, tender, baggage mail and express cars, day coach and two sleepers landed in the ditch. The engine reversed its position when it was derailed. Several hundred feet of track were ripped from the ties.

Texas News Service Special.
Houston, Tex., Oct. 6.—While running at a rapid rate of speed, Santa Fe passenger train No. 17 was wrecked near Temple, Tex., early today, the engine overturning and several coaches over the track. Several passengers and Engineer McGinnis, who was piloted under the engine, are reported seriously injured and a number are suffering lesser wounds.

Fatal Wreck in Illinois.
Springfield, Ill., Oct. 6.—One passenger was killed and thirty-five others injured, four probably fatally, in a collision last night between a state fair special, taking home several hundred excursionists and a regular passenger train on the Illinois Central at Parnell.

It was first reported that at least a dozen were killed and a hundred injured, but early today it was ascertained that but one person, Miss Clara Watson of Farmer City, was killed.

Allendale Budget.

Special to The Times.
Allendale, Tex., Oct. 6.—Rev. J. H. Canwell of Archer City, preached here Sunday. He recently accepted the pastorate of the Baptist church at this place. One person was baptised in the afternoon.

Mrs. Hattie Rawson and baby, of Eric, Okla., and her sister, Miss Jessie Gwinn of Wichita Falls, visited relatives here Saturday and Sunday.

Mr. W. P. Billingsley and family and Messrs. Ed Hardwick and Houston Edds were among those from Allendale who attended the lecture of Dr. Stuart.

Messrs. Clyde Teague and Bert Bracco of Wichita Falls, were visitors in Allendale Sunday.

Mr. J. E. Derrick and family, who have resided in the Allendale community for the past two years, moved away last week. We regret very much to lose these people from our neighborhood.

Last night at mile post 103 the rear wheel of engine No. 34, of the local trade, broke half into and threw one car off the track and tore it up considerably, causing about four hours delay. No. 5 had to leave over the Katy tracks.

ELECTION SUIT.

Seeking to Enjoin Republican's Name on Official Ballot.

By Associated Press.
Louisville, Ky., Oct. 7.—A petition was filed in the court here today asking an injunction against the placing on the official ballot of the republicans' ticket the name of James Grinstead, candidate for mayor of Louisville, and the present incumbent.

The suit was instituted by George Todd, the independent candidate for mayor of Louisville, who claims that Grinstead, his opponent is ineligible for the office of mayor, having been elected one term.

VALLEY SALOON ROBBED.

Seventeen Dollars Secured by Breaking Cash Register.

The Wichita Valley Saloon, located near the railroad chute, was robbed last night of \$17.50. The cash register was taken out of the building and broken open and that sum secured. The officers were notified this morning but there is no clue, as the robbery took place between midnight and 5 o'clock this morning.

Accidentally Kills Mother.

Shreveport, La., Oct. 6.—Mrs. W. G. Taylor, wife of a hotel keeper of Myrtle, La., was killed last night by her eight year old son, who accidentally discharged a shotgun.

The boy was pointing the gun toward the door in the family room when his mother entered. She commanded him to lower the gun, but in obeying he struck the trigger and the discharge shot off a leg. The boy will be buried at Queen City, Texas.

Henrietta "Dry."

Henrietta, Oct. 6.—The drouth now prevails in Henrietta. The time allowed the saloon keepers to close up expired this week, and this is once more a "dry" town. At present the law is being enforced and there are no visible chicks in the lid. The recent election affected only this city, the rest of the county being already dry, and five saloons were closed as a result.

CHICAGO CAPITALISTS CONCLUDE VISITS HERE

From Thursday's Daily.

The party of Chicago capitalists who have been inspecting Wichita Falls during the past few days left for their homes this morning, well pleased with what they saw and with increased admiration for this section of the state. They were taken out into the surrounding country in automobiles during their stay here and were taken out for rides on the railroads out of this city, being given every opportunity to see what the country looked like.

The primary object of their visit here was to inspect the Northwestern and to see that it was actually built, it being their intention to take some of its bonds.

It is believed, however, that the building of a road to the country west of here, which has long been contemplated, also interested them and their visit here may have been with that idea in view. They visited the western portion of this section in automobiles and were shown over that territory.

BOY RUN OVER.

Six Freight Cars Pass Over His Body.

Ablene, Tex., Oct. 6.—Marion Pruitt, aged sixteen, is in a critical condition this morning as a result of being run over by a switching train in the Texas and Pacific yards. Both legs are broken and one may have to be amputated. Six cars passed over his body, cutting his face and shoulders and crushing his feet. It is believed he will recover.

YOUNG BROKER SUICIDES.

Was of Opinion That He Was Losing His Mind.
San Francisco, Oct. 7.—F. W. Tetley, former golf champion of England, and for several years a wealthy broker of this city, shot himself to death in his office here last night. Tetley had expressed the belief that he was losing his reason.

Balloon Alights in Alabama.

By Associated Press.
Mobile, Ala., Oct. 7.—A St. Louis centennial balloon alighted at Silas Ala., after having been in the air forty-eight hours. Pilots Honeywell and Tolland are now in this city.

GOVERNOR ACCEPTS TAFT'S INVITATION

WILL MEET THE PRESIDENT AT KING'S RANCH IN CORPUS CHRISTI.

PRESIDENT IS RESTING WORK OF INDEPENDENTS

He is Now Out in the Wilds of California and Will Make No Speeches There.

Texas News Service Special.
Corpus Christi, Tex., Oct. 7.—Arrangements are progressing at the mansion of Mrs. H. M. King here for the reception of President Taft and party on October 22nd, to which Governor and Mrs. Campbell have accepted an invitation. Campbell declined to attend the El Paso festivities at the meeting of Presidents Taft and Diaz, because Taft omitted Austin in his Texas itinerary.

El Portal, Cal., Oct. 7.—President Taft and his party left here early today for Yosemite Valley. Traveling by stage coach for the wonderful Mariposa group of big trees.

The little settlement of Chinquapin is the selected place for luncheon to be served. Night will be spent at Wawona at a lonely tavern on the outskirts of the Yosemite Valley, where the party will arrive between four and five o'clock this afternoon.

The president will spend three days in the valley and during his stay no speeches will be made.

Statement to be Investigated.

From Monday's Daily.

Mayor Noble this morning addressed a letter to Rev. G. C. Rankin, asking him to give the location of the saloon which the Dallas minister declares he saw open at 2 o'clock Sunday morning. This statement by Rev. Rankin has created a great deal of comment and there is a general demand for specific proof. Mayor Noble has written with a view of obtaining information upon which prosecution may be based.

Dr. Rankin made the statement in his sermon yesterday morning that he had seen the saloon open when he arrived here at 2 o'clock Sunday morning, and he reiterated this statement at the opera house yesterday afternoon. A citizen who was at the meeting said that he had never seen the saloons open after midnight although he had frequently been downtown after that hour.

The report will be thoroughly investigated and if Dr. Rankin is at all able to prove his statement, prosecutions are certain to follow. No one else who has seen the saloons running in forbidden hours has been found and Dr. Rankin's statement is unsupported by any Wichita testimony.

SURE IT WAS A SALOON.

Dr. G. C. Rankin Replies to Inquiries Regarding His Statement.

In reply to a request by County Attorney Greenwood for specific information from Dr. G. C. Rankin as to the location of the saloon which he declares he saw open last Sunday morning, Dr. Rankin has written as follows:

"My Dear Mr. Greenwood:—When I got off the train Sunday morning at 2:15, the saloon right on the left hand side of the street as you go to the hotel and just about the first place on the street, I saw a saloon open and several men standing in it. I saw no sale; neither did I see any of them taking drinks. Had I stood there long enough I might have seen it, but I was not acting as a detective. Mr. Stuart, in his address Sunday afternoon, asked the question, 'Do your saloons close after midnight?' I replied that I saw one running after that hour. I merely answered his question. What I saw would not aid you in an indictment, because the thing was simply open and a number of men were standing around on the inside. Saloons usually stand open for business, but I did not examine this one long enough to see what business it was doing. That it was a saloon, there can be no doubt.
Sincerely,
G. C. RANKIN."

The statement that he saw no sales of liquor take place clears up the many rumors that have been circulated regarding Dr. Rankin's statements, and his letter is considered an exoneration of the officers of this city and county.

HEARST ONCE MORE TO BE CANDIDATE

IS ENTHUSIASTICALLY NOMINATED FOR MAYORALTY OF NEW YORK.

Four Thousand of Them Meet—Nominated by a Former Republican Opponent.

By Associated Press.
New York, Oct. 7.—William Randolph Hearst is again a candidate for political honors, having been placed in nomination for the mayoralty of this city by some four thousand of his friends who held a meeting last night. They adopted a platform declaring their disgust of both republican and democratic platforms.

The action of the meeting has caused some surprise, as it was not known that Hearst retained as much strength as was evidenced last night.

William Ivins, who was the republican candidate for mayor four years ago against Hearst and McClellan, nominated Hearst last night. Paying his respects to Judge Gaynor, he said:

"New York as a municipality should have three parties. The existence of only two parties here is always a guarantee that the issues and the fruits of the victory will be syndicated and divided between them. If you men gathered here tonight see fit to form an independent party, with William Randolph Hearst as your standard bearer, I bid you Godspeed and hope that all your other candidates, your platform and your rank and file may be inspired and imbued by the wholesome honesty, integrity and generosity of your leader.

"Justice Gaynor is carrying the banner for the gang. He is the stalking horse for Tammany. He leads the vilest tiki that has ever been placed before New York. In spite of his judicial position he has for months devoted himself to a cleverly framed and adroitly executed conspiracy whereby the two beneficiaries are to be the judge on the one hand and the band of political criminals on the other.

"Justice Gaynor has told us that he has a right to take any man's vote, but there are some votes in New York that no decent man should care or dare to take. The Tammany ticket is not entitled to the serious consideration of any man who pretends to be a friend of the city."

THE DAY AT FREDERICK.

News Notes From Up the Northwest.

Frederick, Okla., Oct. 7.—After an exciting chase, Officers May and Wright captured a negro boot-legger here yesterday. The officials' suspicions were aroused several days ago and the negro was taken into custody yesterday, after being pursued out of the city. The negroes here evidenced a disposition to protect him, but the officers were determined.

A barn belonging to W. A. Holloway, living near this city, was destroyed by fire yesterday morning, the total loss being about two thousand dollars. The fire is believed to have originated by cotton pickers smoking in the barn, which was used for sleeping quarters.

KILLS SLEEPING MAN.

Murder and Suicide in Apartments at Memphis.

Memphis, Tenn., Oct. 6.—While his companion was asleep on a couch in the apartment, Mrs. Fannie Waters, a fashionable dressmaker, shot him dead, and then going to the bed nearby, sent a bullet into her own brain, some time last night, according to the police. The man is supposed to be E. C. Flannery.

McCue Jury Hopelessly Hung.

Fort Worth, Tex., Oct. 7.—After being out twenty-four hours, the jury this morning reported to Judge Simons that it was hopeless of reaching an agreement on the fate of Frank McCue, charged with the killing of Earl Mabry at Dallas, two years ago. Judge Simons refused to discharge the jury urging further deliberation.

Real Estate Transfers.

I. M. Childress and wife to Ben. T. Childress lots 8 and 9, block 6 in J. A. Kemp addition; \$1000.
C. H. Miller and wife to T. C. Cassett lot 3 in block 131; \$850.

WILL BUILD AT GALVESTON.

Government Will Establish Quarantine Station There.

Texas News Service Special.
Washington, Oct. 7.—Government action today assures the establishment of a big national quarantine station near Galveston. It is announced by the board composed of Surgeon H. White, Captain Oakes and Lieutenant Harwell, who are chosen to select the site. The members will go to Texas and inspect the submerged land south of Bolivar, roads, containing a thousand acres.

The establishment of a station indicates the efforts of the government to turn the tide of immigration through Galveston instead of New York.

GRAIN DEALERS MEET.

Address by Senator Beveridge is Feature of the Session.

By Associated Press.
Indianapolis, Ind., Oct. 7.—The Thirtieth annual meeting of grain dealers' of the National Association, opened in this city yesterday and will continue until Friday. It is expected the attendance will reach nine hundred. Senator Beveridge will address the convention today.

Local Gin Receipts.

Up to yesterday, at the close of business 1027 bales of cotton had been ginned by the two gins in this city, divided as follows: Farmers' Union Warehouse Gin, 555; Wigham Gin, 472.

At both gins, in answer to questions asked by the reporter, the managers stated that about half the crop had already been ginned.

This is considerably less than the number of bales ginned at the two gins at this time last year.

Rhode Island Democrats in Convention.

By Associated Press.
Providence, R. I., Oct. 7.—The Democratic State Convention met here today and adopted a platform condemning the Aldrich tariff law and demanding a direct vote of the people for United States Senators and pledging the support of the democratic members of the legislature of the income tax amendment.

KING'S MOUNTAIN DAY OBSERVED AT CHARLOTTE

Charlotte, N. C., Oct. 7.—King's Mountain Day, the anniversary of the battle of King's Mountain, which was fought October 7th 1780, during the struggle of the colonies for independence from Great Britain, was fittingly commemorated today. On the battlefield a monument erected by the United States, at a cost of thirty thousand dollars, was dedicated and at Fort Watlaruga the Daughters of the American Revolution dedicated a monument.

RAILWAY COMMISSION ENJOINED.

Mississippi Road Objects to Rate Fixing on Uncompressed Cotton.

By Associated Press.
Jackson, Miss., Oct. 7.—On application of the Yazoo and Mississippi Valley railroad, Judge Niles, of the federal court, granted a temporary injunction restraining the railroad commission from enforcing the new freight rates on uncompressed cotton, which is effective tomorrow. It is alleged the rates were in violation of the federal constitution and seeks to regulate interstate commerce.

Card of Thanks.

To my friends and neighbors who rendered me such valuable aid and assistance during the prolonged illness and at the death of my beloved husband, I desire in this manner to return my sincere and heartfelt thanks. Especially do I wish to thank the Odd Fellows, and Miss Mary Barr, familiarly known as Miss Puss Barr, for their many deeds of kindness. Such kindness will never be forgotten.
Sincerely,
MRS. O. A. DEDRICK.

Curtiss Makes Two Short Flights.

By Associated Press.
St. Louis, Oct. 7.—Glenn Curtiss today made two short flights in his airplane. Only about a dozen people were present on account of the early hour. An industrial parade, illustrating the progress of St. Louis manufactures and commerce is being held today.

When you see a banana peel resting on the sidewalk and a fat man unconsciously approaching it, the indications point to an early fall.—Mineral Wells Index.

A WHITE MAN IS ROBBED BY NEGROES

THE VICTIM IS KNOCKED DOWN AND CUT IN JAW AND ARM BY HIS ASSAILANTS.

STABBED FOR RESISTING

Affair Took Place at Eleventh and Ohio—Injuries Will Not Prove Fatal.

From Thursday's Daily.
Dan O'Reilly, a well known bricklayer if this city, is in a dangerous condition this morning as a result of an encounter with two negroes late last night near the corner of 11th and Ohio. He received a deep gash in his jaw, requiring the taking of six stitches by the physicians, also a cut in the right arm.

Mr. O'Reilly is unable to talk this morning and the details of the affair are missing, as there is no clue to the assailants. It is thought that he was accosted by the negroes and robbed of a small amount of money he had in his possession, but that resistance on his part led one of the blacks to use the knife on him. The negroes then fled, but the noise had attracted the attention of someone nearby and the police were notified and Mr. O'Reilly was brought to town and a physician summoned to attend to his wound. He lost considerable blood and was in a rather critical condition for a time, but is believed on the road to recovery this morning. The wound was deep, but the knife did not pierce any vein or artery, otherwise death would almost certainly have ensued.

The affair took place only two blocks from the business section, but there is no street light at that point and no many houses in the neighborhood. Mr. O'Reilly was en route home from a tent show when the encounter took place.

DOUBLE WEDDING.

Two Popular Young Ladies Become Brides Today.

From Wednesday's Daily.
At 1:00 o'clock today at the First Presbyterian church, two of Wichita's most popular young ladies entered the ranks of matrons, a beautiful double ceremony being performed. William Carey Lowry and Miss Maud Skinner, and Lillard Abbot Wallace and Miss Vallie Skinner were the contracting parties. The ceremony was performed by Rev. McKee.

Miss Maud Skinner was attended by her sister, Miss Bonnie Skinner, and Miss Vallie Skinner was attended by Miss Lena Matlock. Lamar Fain attended Mr. Lowry as best man, and Mr. Lowry was attended by R. T. Fowler of Fort Worth, D. D. Darling of Fort Worth and Charlton Durand officiated as ushers. Just before the entrance of the bridal parties, Mrs. Perry and J. R. Bradley sang a duet, "I Love You." The wedding march was rendered by Prof. Kats and orchestra.

The brides were attired in handsome traveling suits and the church was tastefully decorated for the occasion.

Following the ceremony Mr. and Mrs. Lowry left for points north, but will return shortly to make this city their future home. Mr. and Mrs. Wallace will also make Wichita Falls their residence.

MISS ELKINS RETURNS HOME

Denies That She Saw the Duke of Abruzzi While Abroad.

By Associated Press.
New York, Oct. 7.—Miss Katherine Elkins, daughter of Senator Elkins of West Virginia arrived here today on the White Star Line steamer Adriatic. It was denied by members of the party that Miss Elkins had met the Duke of Abruzzi while abroad. Senator Elkins said his daughter had been driven almost to distraction by the reports published about her. She has the appearance of having been through a great mental strain.

Wants Jeffries—Johnson Fight.

Texas News Service Special.
Galveston, Tex., Oct. 7.—The fight fans today started to build an arena on the government jetty, three miles outside the state's jurisdiction for the Jeffries-Johnson fight. Jeffries desires the fight here at Johnson's home. Messages were today sent to Johnson to learn his attitude.

TO CALL ELECTION ON LOCAL OPTION

PROHIBITIONISTS START BALL TO ROLLING AT MEETING LAST NIGHT.

BULLOCK IS CHAIRMAN

Six Hundred Dollar Fund Raised to Carry on the Fight—Sixty Were Present.

From Tuesday's Daily. About sixty prohibitionists responded to the call of W. J. Bullock for a meeting at the court house last night for the purpose of determining the matter of calling a local option election for Wichita County.

There was not much speech-making, though short talks were made by several, among them being W. J. Bullock, J. C. Hunt, R. M. Moore; Revs. Morrow, Farley and Schafer.

Mr. Bullock was made temporary chairman of the meeting and the work of effecting a permanent organization was effected by electing Mr. Bullock chairman and clothing with him the power of selecting his own executive committee.

There were several of the outside voting precincts represented, among them being Burkburnett.

It seemed to be the almost unanimous opinion of those present that an election should be called for Wichita County as early a date as possible, and a petition to secure the necessary 250 names to it, to be presented to the commissioners' court at the next regular meeting, asking for an election, was started. Nearly all of those present signing the document.

The sum of \$650 was subscribed as a starter for a campaign fund, and a committee appointed to solicit further subscriptions to this fund.

NOW ON STRIKE

Millions of Stomachs Refuse to do Their Work Properly.

All over this broad land millions of stomach owners are being held in humiliating subjection just because they are so stubborn that they will not accept a fair, square and broad minded offer.

Life is short for all of us; it will be shorter for those who let their stomachs go from bad to worse.

Mater-Walker Drug Company have a famous prescription called Mi-o-na and they believe so thoroughly in its remarkable curative power that they say to every owner of a distressed stomach that they will guarantee Mi-o-na tablets to cure acute or chronic indigestion and all stomach ailments or money back, and the price is only 50 cents a box.

And still there are stubborn people right in Wichita Falls who won't accept this offer, but continue to suffer from the gas on the stomach, belching of sour food, stomach pains, foul breath, dizziness, biliousness and headaches, just because—just because—that's all, there is no other reason.

Mi-o-na tablets stop dyspeptic agony in five minutes; they cure obstinate cases of indigestion and turn the old stomach into a new one in a few weeks—or money back.

BRYAN GOES TO SEATTLE.

Will Speak There and Then Travel Through Canada.

Lincoln, Oct. 4.—It is announced today that W. J. Bryan will leave next Wednesday for Seattle, where he will speak at the exposition on October 12. He will then make an extended journey through Canada and will be absent three weeks. He said he will probably deliver several political addresses in the West defending his tariff views and criticizing Bailey's position. He refused to discuss the letter in which John Kirby asked him to correct the statement that Kirby sought a lumber tariff.

To The Public.

Having bought the entire stock of hardware, and implements of the Robinson-Russell Hardware Co., we wish to state that we will continue to handle an up to date line of shelf and heavy hardware, implements, buggies, wagons, harness, etc., and will appreciate a fair share of the patronage of the public, promising liberal treatment and fair dealing. Yours truly, 41-41 AVIS, ROUNTREE & CO.

Iowa Park News Items.
Iowa Park, Oct. 6.—The following young people of Iowa Park and vicinity were married Sunday: Albert May and Miss Beulah Frances Parker; Geo. B. Dupa and Miss Frances Mills; J. W. Ellison and Miss Beulah B. Brubaker. The many friends of these young people wish them prosperity and happiness.

Rev. J. C. Clement, pastor of the Baptist church at this place has gone to Clarendon and other points to recuperate, he having been sick for some time.

Jno. J. Clark returned Friday to his home at Thorp Springs.

The Home Department of the Christian Sunday School held its quarterly meeting Thursday at the home of Mrs. Gilres. Officers were elected as follows: President, Mrs. E. Boyd; Vice-President, Mrs. J. P. Herod; Secretary, Mrs. Lee Clark; Treasurer, Mrs. Walter Gilres. Other routine business was transacted and refreshments served. A pleasant social time was spent and the department adjourned to meet next time at the home of Mrs. Lee Clark.

The first month of school closed Friday. Nearly every child in the community is enrolled. Thursday was a banner day, as there were no tardies.

Conditions seem almost ideal here now. The weather almost perfect, no serious sickness in the community, farmers busy with corn and cotton and receiving good prices, both gins running, the carpenters at work, merchants having a fine trade, ranchmen shipping fat cattle out to market and others in to grass, dairymen selling cream and dairy cattle, poultrymen getting fancy prices for eggs and the moral and intellectual interest of the community seems to be keeping pace with the material advancement, as is evidenced by the work of our churches and school. As a united people, we can say, "It is good to be here."

ARE INSPECTING LINE.

Fort Worth and Denver Officials Are Looking Things Over.

With a view of making a general inspection of the line of the Fort Worth and Denver from this city to the Colorado state line, a party of officials of the road left Fort Worth on Monday morning and will remain away until probably Wednesday night. The tour is being made at this time for the purpose of planning the improvements which are to be made along the line during the winter months. No information concerning the matters in contemplation was given out before leaving here, however.

Those composing the party were D. B. Keeler, vice president and general manager; W. F. Sterley general freight agent; H. A. Gausewitz, general superintendent, and R. C. Gowdy, resident engineer.

It is probable that A. A. Glisson, general passenger agent, who has been spending several weeks in Colorado, will meet the party and accompany it on its return trip.—Fort Worth Record.

THREE NEGROES KILLED.

Two Brothers Fatally Wounded by Man They Shot.

Shreveport, La., Oct. 5.—As a result of a pitched battle among negroes here early yesterday at the Centennial in South Shreveport, Ben Bennett, Chas. and T. G. Sloan are dead. The shooting is the outgrowth of a bitter feud developed by the killing of a brother of Chas. and Tom Sloan two weeks ago by Bennett. Bennett was exonerated at his preliminary trial. He met the Sloan brothers this morning and opened fire and killed Chas. The other Sloan then fatally shot Bennett, but before dying Bennett shot and instantly killed his slayer.

DOUBLE TRAGEDY.

Rejected Lover Cuts Woman's Throat Then Suicides.

Tulsa, Okla., Oct. 5.—W. F. DuVal yesterday cut the throat of Mrs. Cordelia Fanning and then slashed his own throat and drank a quantity of carbolic acid, causing his death a few minutes later. DuVal was madly in love with the woman. Two months ago he was arrested for attempting to kill her when she refused to marry him.

ARRESTS AT SHREVEPORT.

Fifty Near-Beer Dealers Charged With Violations.

Shreveport, La., Oct. 5.—Fifty near-beer dealers have been arrested here in the past few days, charged with violating the prohibition law. Twenty more are to be arrested. The charges against them total one hundred and three and their bonds total fifty thousand dollars.

Two Ways of Looking At It.

After buying that bill of lumber you are going to need, and using it, you may be either glad or mad. It depends on whether you buy good, dry lumber from us, or carelessly accept lumber that's only half seasoned, from somebody who's not so particular about the quality of their stock as we are.

There are no two ways about it: You can buy any kind of lumber or building material to better advantage right here than you can anywhere else in this part of the country. Let us make you an estimate on what you want.

MOORE & RICHOIT, Lumber and Building Material

A home bank; a substantial bank and a big bank is

The First National Bank

Wichita Falls, Texas

- It aims to be abreast of the times and still be conservative.
- Its losses have been small and its profits sufficient during its corporate existence.
- We are prepared to take care of your wants in our line.
- It has accumulated a surplus and undivided

profit account of.....\$ 70,000 00
Its capital is..... 75,000 00
Its total assets 587,879 48

It merits your confidence and invites your business whether you are a depositor or a borrower.

Our Reason is Not Solely Selfish

IT IS NOT solely because we are agents of Stein-Bloch Smart Clothes in this town that we want you to wear them. This of course, enters pretty largely into the question, but it is not all. We want you also to feel right and look right and to be satisfied.

We have a large looking-glass in our store in which you can see the front, the side and back of yourself, all at once. If you will try on a suit of clothes with the Stein-Bloch label in them, and look at yourself in this glass you will see why we are so anxious to have you wear these clothes

NO NEW CRITICISMS IN BAILEY'S SPEECH

BRYAN DOES NOT CONSIDER THAT ANY MATERIAL NEW POINTS ARE BROUGHT-OUT.

"BRYAN LOST HIS CASE"

Such Was Opinion Expressed By Bailey in Address at Fort Worth Last Night.

Lincoln, Neb., Oct. 2.—William Jennings Bryan this morning received an extract by wire of Senator Bailey's address on the tariff at Fort Worth last night.

Bryan was asked to reply to any new criticism of his stand for free raw materials to which Texas generally objects, but he declared that Bailey's latest speech is much similar to the former and that he had answered the main points at El Paso. He says he will likely later speak again in answer to Bailey. Bryan said he did not consider last night's address a challenge for a debate.

In his speech at Fort Worth last night, Senator Bailey was more personal in his remarks than he had been and he made several rather sharp allusions to the Nebraskan. Throughout his remarks he seemed aggressive and did not adopt the defensive tone which characterized his first reply to Bryan.

Bailey denied that Bryan had replied to him and insisted that the Nebraskan had lost his case. He took up Bryan's speech, however, section by section, and reiterated all his former arguments against free raw material. He was vindictively emphatic in all his statements and seemed sure of his ground. His praise of John H. Kirby and his defense of the latter's stand, was, perhaps, the most interesting feature of his address. He closed with a very eloquent appeal for the "old-fashioned democracy."

Bryan Will Reply.

Lincoln, Neb., Oct. 1.—W. J. Bryan told a Texas News Service correspondent today that he had just received a lengthy letter from John H. Kirby, of Houston, Texas, which asserted that Bryan's statement that Kirby sought a tariff on lumber is unfounded and grossly unjust.

Bryan said he would answer Kirby's letter, but not today, because it is his twenty-fifty wedding anniversary, and he does not desire political issues to break into the celebration.

Bryan shows no anxiety and still insists that he will not encourage a tariff debate between himself and Senator Bailey, fearing its effect upon the party.

Three Banks Fail to Report.

Austin, Oct. 1.—Three state banks failed to report today their adoption of the deposits guaranty plan, and are liable to certification before the attorney general for suit, as they are not complying with the law. The department withholds their names. It is announced that if the reports are received showing a selection of some plan actually made before the end of September, there will be no prosecution. Ten of the twelve reporting today, accepted the guaranty plan.

CORN AT SIXTY CENTS.

Good Prices Brought By Grain in the Local Market.

Corn is now commanding the price of sixty cents in the local market and shell corn is bringing sixty-eight. In spite of these high prices, not a great deal of corn is moving at present, although there is great demand for ear corn.

Wheat is now bring \$1.10 in the local market. Trade is rather dull in wheat at present.

Arrested for Stealing Cotton.

Frederick, Okla., Oct. 5.—Joe Taylor, a farmer living near here, was arrested today by Sheriff Carter on a charge of stealing cotton. The farmers near here have been missing cotton for some time, and the other evening when three of them missed a large quantity of cotton on the same night, they became suspicious of Taylor. He was arrested and has admitted the theft.

Real Estate Transfers.

J. B. Marlow to C. H. Miller, lot 3, in block 131; \$800.
J. L. Measles and wife to Kemp and Kell, west half of lots 9 and 10 in block 194; \$4000.
H. W. Wiseman, G. W. McDaniel and J. P. Brunton, Trustees of the town of Electra, to K. L. Rudolph of Waxahachie, lot 9, in block 152; \$50.

Irregular bowel movements breed disease in the body. You should purify and regulate the bowels by using Prickly Ash Bitters. It is mildly cathartic and strengthens the stomach, liver and kidneys.—MATER-WALKER DRUG CO., agents. 11-123

Mabledean Budget.

Mabledean, October 2.—Prof. Bencky and wife moved to Mabledean last week. He is teaching the school there, and his wife will teach the Talbot school, beginning the 20th of this month.

Mr. and Mrs. Hubert Blanton left last Saturday afternoon for their new home in Jack county.

A crowd of Mabledean people attended the show last Friday.

Rev. Farley of Wichita Falls preached an excellent sermon at Dean last Sunday afternoon. He will also hold a protracted meeting out here, commencing Oct. 4th.

Mrs. F. D. Clark was visiting friends at Jolly last Tuesday.

Misses Lula, Liles and Willie Gifford attended church last Sunday at Dean.

The new gin at Mabledean has been supplied with plenty of work since cotton picking began.

Science to Examine Cook's Records.

Copenhagen, Oct. 5.—Dr. Cook was cabled Rector Terp of the University of Copenhagen that there is no truth in the press report that his records will go to Copenhagen first. Cook after his lecture at Baltimore last evening stated that after the records had been examined by the University of Copenhagen, duplicate copies would be submitted to all geographical societies of the world or to any other scientific body desiring them.

By Associated Press.

Pittsburg, Pa., Oct. 5.—Dr. Cook was a guest of honor at a reception by the Chamber of Commerce this afternoon. He was given a hearty reception by scientific bodies, business circles and the citizens of Pittsburg. He said in his interview: "In a short time there will be no doubt as to who first discovered the north pole."

MAKES FORTY BUSHELS OF PEANUTS PER ACRE

S. T. Neely of this county, residing about four miles west of Charlie, has proved that peanut farming can be successfully followed in this section and he is now preparing to harvest his crop.

Mr. Neely has thirty-two acres planted in peanuts and will average forty bushels to the acre, a total of over twelve hundred bushels. The market price for peanuts fluctuates considerably, but at its lowest figure, about seventy-five cents per bushel, he will clear over nine hundred dollars of about thirty dollars per acre.

Mr. Neely had some specimens of his crop in the city yesterday and they looked good enough to eat, being large and well filled clusters at each root. Since the completion of the peanut factory at Denison the peanut industry has begun to assume very substantial proportions and, as usual, Wichita County is in the van.

Breaking the Fast in Ramadan.

[From "The Moon of Ramadan" by H. G. Dwight in October Scribner.]

While Ramadan is probably the sole month of the Mohammedan calendar known to the infidel world, the infidel world has never been sure whether to spell its last syllable with a z or a d. Let the infidel world accordingly know that either is right in its own domain. The Arabs say Ramadan, the Persians and Turks say Ramadhan. They all observe throughout the month a species of fast that has no precise counterpart in the west. So long as the sun is in the sky food or drink of any kind may not pass the true believer's lips. He is not even allowed the sweet solace of a cigarette. But from the first of the sunset until it is light enough to distinguish a black hair from a white he may feast to surfeiting. Watchmen will patrol the streets with drums to warn him that his moments of grace are numbered and cannon once more announce their end.

Nothing is more characteristic of late afternoons in Ramadan than the preparations for the evening meal which preoccupy all mosquelems, particularly those who work with their hands. As the sun nears the horizon fires are lighted, tables are spread, bread is broken, water is poured out, cigarettes are rolled and hands are lifted half way to the mouth, in expectation of the signal that gives liberty to eat. This breaking of the daytime fast is called iftar and is an institution in itself. To be invited to iftar is a particular mark of friendship. So peculiarly is Ramadan a time for picking out those to whom it is desired to show this honor, that during the late regime in Constantinople, when circulation at night and everything tending to draw people together was forbidden, the month was one of comparative liberty. The Palace even set the example of hospitality on a regal scale. During the four weeks of the month every higher dignitary of state and municipality, every officer of army and navy stationed in the capital, and representatives at least of every soldier and sailor in the garrison, dined at Yildiz and received a present in gold.

BOND ELECTION FOR ROADS IS PLANNED

CAMPAIGN IS TO BEGIN SOMETIME THIS FALL AND MOVEMENT PUSHED.

ARE BADLY NEEDED NOW

Necessity for Improvement Becoming More and More Evident—Plans Under Way.

At the next meeting of the Chamber of Commerce the question of a good roads campaign will come up for attention and the advisability of asking for a bond issue election will be considered. This matter has been hanging in the balance for some time and it is thought that the time for some definite action has come.

Two plans for good roads betterment are being considered. The first is for a county bond election for \$100,000 or \$150,000 and let each precinct share in the benefits, the other is for a Precinct No. 1 election, for the improvement of the roads in the immediate vicinity of Wichita Falls only. The first plan is meeting with more favor as it would give other towns in the county good connection with this city by roads as well as by rail. If the precinct method is decided upon, the amount of bonds issued will not exceed fifty thousand.

The question of good roads in this county has been broached from time to time, but was never agitated with any seriousness until this year, when the Chamber of Commerce took the matter up and endorsed the plan for an election. Preceding the election it is proposed to conduct a campaign of education and hold meetings at various points in the country to show the need for better roads and the good results which will follow improvements. The election will probably not be called before sometime next spring.

SOLDIERS GUARD NEGROES.

Presence of Militia Prevents Violence by Mob at Columbus.

Columbus, Miss., Oct. 2.—Although soldiers guarded the jail here last night to protect Henry and Reese Botts, the negroes indicted for killing J. W. Smith two weeks ago, the night passed quietly. The trial of the case was begun today and all fear of mob violence dissipated.

Posted.

Notice is hereby given that all privileges heretofore granted by me for hunting on my premises are withdrawn. I have posted my farm and all trespassers will be dealt with as the law directs. My farm is located four miles west of Wichita Falls on the north side of the river. W. F. CLAER, w 41-31p

Realty Deals.

I. Measles and wife today sold to Kemp and Kell, through Moore and Stone, a lot 75x140, at the corner of 10th and Scott for \$4,000.

N. C. McIntyre and wife sold to Kemp and Kell, through Moore and Stone, lot 7, in block 174, city, for \$3,750. This lot is at 9th and Scott.

CONSTIPATION.

Its Cause and How to Cure It.

Eat too much,
Stomach feels bloated,
All out of sorts,
Don't feel like work to-day. Guess I've another case of biliousness.

"Take anything?"
"Yes; some pills, but no results; suppose I'm getting ironical. Sometimes I double the dose, then they physic me so hard I'm too weak to work. Think I'll have to try something new."

"Ever try Frickly Ash Bitters?"
"No; I've heard a good deal about it, but never tried it."
"Well, you'll be pleased with the results."

The purgative action of Frickly Ash Bitters not only removes hard impactions, gas and impurities, but it strengthens the muscular action of the bowels which causes them to move regularly.

Frickly Ash Bitters is a bowel tonic and regulator in the truest sense. It promotes daily evacuations, establishes healthy movements and is the best known remedy for disordered digestion, flatulence and a constipated habit.

D. M. Blockwelder, of Litchfield, Ill., says in the Litchfield News: "I am perfectly willing, in fact glad to testify to the value of Frickly Ash Bitters as a medicine for the kidneys, stomach and bowels. I have used it whenever I needed anything of the kind for the last fifteen years and it has always given satisfaction."

WICHITA FAIR EXHIBIT MAKES HIT AT STATE FAIR IN OKLAHOMA CITY

In a recent issue of the Daily Times, Oklahoma City, appears the following pleasing article about Wichita Falls:

One of the live Texas communities, Wichita Falls, is represented this year at the fair. The exhibit is tastefully arranged in the exposition building, the booth being lined with ribbon cane. In the background is shown a birdseye view of Wichita Falls and Lake Wichita, the latter being noted as the largest artificial lake in Texas. A feature is made of a map worked out of corn and wheat. This is an especially pleasing stunt and particularly impresses the visitor that the city of Wichita Falls has seven railway outlets. It also shows the relative nearness of the great Petrolia gas field lying east of the town a distance of sixteen miles, from which natural gas is piped into Wichita Falls.

Speaking of the fair, F. H. Gohlke, secretary of the Wichita Falls Chamber of Commerce, said: "We had an exhibit here last year and succeeded in landing some good money as a result of it. While our exhibit is not

competitive and we have no great show of products, we use a small representation simply to get on speaking terms with the vast numbers visiting the fair. We have a good town and county and in Texas Wichita Falls is referred to as the "busiest and best built city in Texas." We have 10,000 population, seven railway outlets, natural gas for manufacturing at nine cents a thousand cubic feet and the most optimistic bunch of boosters in the southwest. To illustrate the building spirit in our city, a consumers company to furnish natural gas at three cents per thousand cubic feet to manufacturers is now being strongly agitated. Our people want to make extra inducement to manufacturers, realizing the importance of a payroll. They are always ready to bonus any substantial institution and now have several industries in full blast as a result of this spirit.

"We are going to have 25,000 population in less than five years and all that I can add is that if a man will visit Wichita Falls and be disappointed

over the many good things said about us we will buy him a railroad ticket home. But they never do, they stay."

ANTS TO ORGANIZE.

Meeting to Be Held One Day this Week.

A meeting of the anti-prohibitionists of the county will be held in this city one day this week for the purpose of forming an organization and getting the fight under way. The ants realize that the contest will be a strenuous one, and are preparing to wage a counter-campaign with all due activity.

SMOTHERED IN COTTON.

Oklahoma Boy's Playful Prank Results in Death.

Durant, Okla., Oct. 1.—Bud Wylie, aged twelve was found dead in a stack of cotton on the Wylie farm near Stilo, this morning, by his father when he was removing cotton from the sheds to wagons. The boy had burrowed his head in the cotton and smothered yesterday afternoon.

Wichita Falls, Texas, October 2, 1908.

PROSPERITY IN WICHITA COUNTY

While a general drouth prevails over Texas, Wichita county seems to have done fairly well this year.

Up to the present time a little the rise of 3000 bales of cotton have been turned out by the gins in this city. Burkburnett, Iowa Park and Electra, and about that many more will be ginned before the season ends. This of course, is not more than half what the yield in cotton would have been had the season been favorable.

In addition to the fairly good cotton crop produced, the acreage to corn was greater than last year, but the yield was cut short by the hot dry weather that prevailed just at the time that rains were needed, but notwithstanding this drawback more corn was produced in the county this year, with a bad season, than was produced last year with a favorable season and plenty of rain, caused by the increase in acreage.

The Red River country, in and around Burkburnett, seems to be the best corn producing country in Wichita county, and last year a total of 120,000 bushels was shipped out from that place alone. Up to the present time 80,000 bushels have been shipped from that place and it is estimated that the total shipments of corn for this season will not fall short of 150,000 bushels.

There are corn shellers located at both Iowa Park and Electra, and while a great deal of corn is being shipped from these places, it is impossible for the Times to secure the figures showing the total number of bushels shipped out so far. Later, these figures will be given.

So long as conditions above set out prevail in Wichita county, there is no cause for alarm. The people are prosperous, and most of them have money in the various banks as shown by the splendid statements issued by these institutions at the last call.

The Times has never posed as a pessimist, but it's hard to be otherwise when we read of such possibilities as this one, from the New York Times:

"Theodore Roosevelt's good fortune has not deserted him. The stars in their course seem to fight for him. If he still cherishes an ambition to return to the White House, the path has been opened to him by President Taft and no thoroughfare could be more inviting or easier to travel. Mr. Roosevelt has nothing to unsay about the tariff, for he has said precious little about it. It will be remembered that he was once a member of the Cobden Club. If upon his return to this country he chooses to declare his dissent from the opinion that the Payne Bill is the best tariff bill ever passed, and to insist that it is not a fulfillment of pledges made, all the influence and political skill possessed by Mr. Taft and his friends would be exercised in vain to stay the overwhelming demand for Mr. Roosevelt's nomination."

Perish the thought Let him stay in Africa; let him write a history of Texas—anything but run again. A few weeks ago when it was announced that he was coming to Northwest Texas, we shuddered. But now if he would only come to Northwest Texas and stay there, what a blessing it would be. We have room for all kinds up in this section of the solar constellation.

The Texas Department of Agriculture has sent out bulletins on the "pomological" possibilities of this state. We haven't the slightest idea what "pomological" means, but we are deeply grateful to know that Texas has it.

A New York woman entertained her friends at a dinner paid for with a Confederate \$50 bill. If she had lived in Philadelphia, it could have been said with reason that she didn't know the war was over.

Kickers and croakers have no place in any live, hustling city like Wichita Falls. But it is well to remember that it is not always the fellow who does not view things in the same light as you who is the kicker or croaker. When this feeling occurs to you, just take your measure and see if there has not occurred an undue or abnormal growth of your cocoon. It might be that you are the fellow who more properly should be placed in the class with kickers and croakers. The genuine croaker or calamity howler is that fellow who is ever-ready to wring his hands, pace the floor and wall his eyes around like a dying calf, proclaiming that if this or that occurs, the town is sure to take a backward movement on the toboggan slide. This is the easiest and surest way to retard the growth and prosperity of any thriving, growing city. The surest way to build a city is to advertise to the world that your city is one in which the most humble citizen can express his honest convictions in the proper way without fear of financial loss, because he has dared to voice his own convictions instead of those of some other fellow; that your city is not one in which a small coterie of citizens are supposed to do all the thinking and the voting, and if you happen to disagree with them you are not expected to leave town or go fishing on election day, instead of to the polls; that Wichita Falls is a city built on the American plan, where every man is free to pursue the even-tenor of his way so long as he does not interfere with the rights of others and stays within the law. That is the kind of city Wichita Falls is and always will be.

The Republic of Mexico, or, rather, the government of Mexico, has been getting a great deal of free advertising recently through magazine articles exposition the tyranny under which the people are ruled. These articles are amusing—not because they misrepresent, but because they are written on the theory that Mexico is actually supposed to be a republic. No one who has ever come in contact with Mexicans to any extent will adhere for an instant to the fallacy that they are fit to govern themselves, and a republic, administered along the lines that ours is, would be a mockery on civilization. The Central American republics and those of the West Indies, would be well administered governments compared with conditions that would exist in Mexico, save that the latter would probably fall into the hands of some designing politicians of the better class and revert once more to the monarchy that now exists as a pseudo-republic.

The stories of peonage and slavery may be true. If so, there exists a state of affairs well worth remedying. But magazines insult the intelligence of well-informed people when they talk of an actual republic in Mexico. Home rule for the Philippines would be ideal in comparison.

In addressing the Jones County Farmers' Institute one day last week, Tom Frazier, the well-known Bosque County hog raiser, said, among other things, "No section can succeed unless it is based upon the stock farm idea, and no county can succeed that is based upon the one-crop idea." What Mr. Frazier said has been most thoroughly demonstrated in nearly every county in the state. So long as Wichita County stuck to the one-crop idea, neither the county nor the town was prosperous, and when a failure came—one of those dry summers—there was little or nothing to fall back upon. As a natural consequence, the farmers were compelled to desert the county and then everything had to begin at the bottom. Finally, the farmers solved the problem by crop diversification, and raising stock and poultry, and today there is no more prosperous county in the state than Wichita and none that has grown faster, in both, wealth and population. It used to be the case—ten or twelve years ago—that the best land in the county sold at from \$10 to \$15 per acre; that was when only small grain crops were raised. But now these same identical lands could not be purchased for less than double that value. Diversified farming and stock raising has accomplished this and will do the same for any county.

In renewing for the Times for another year, one of our readers who is now making his home in an Oklahoma town, much larger in point of population than Wichita Falls, writes a few encouraging words as follows "I feel like giving you a few words of praise for your paper is clean and newsworthy ahead of papers, although I dare say I ought not to say that out loud. Best wishes for your paper and the town."

The more one looks at the gubernatorial situation, the more he is bound to be convinced that Cone Johnson and Oscar Colquitt are the only real candidates. An anti-Bailey-pro and an anti-pro-Bailey. It ought to be a pretty enough race for anybody.

"Mr. W. J. Bryan is trying to secure harmony in the only way in which harmony can be secured—namely, by securing united action on a definite policy. If the advocates of a tariff on lumber, iron ore, wool, etc., can convert the whole party let them do so, and we will then have harmony, but must the rest of us keep quiet while they work?"

The above from the Houston Post is about the most conservative editorial that has appeared in any of the big daily papers since the Bryan-Bailey tariff discussion started, and clearly sets out the purpose of Mr. Bryan, who is only contending for principles advocated by the national democratic platform, and which should, in the opinion of a great number of democrats, be accepted as the pure democracy to govern the action of the party at least until the present platform of principles are changed in the regular way.

Doubtless the readers of the Times will be surprised to learn that fault is being found with it because it does not "boom" the city enough. Especially will this be an eye-opener to those of our friends and patrons, some of whom have often found fault with it because it "boomed" things too much, in their estimation, and as a consequence has been the indirect cause of bringing new men, new blood and new business enterprises to the city, making competition strong, and, in some instances, over-crowding the thing. The Times, however, has nothing to say in reply. It is probably guilty on both counts. It will only remind its readers that if, at times, it seems somewhat pessimistic in tone, it has provocation in abundance.

Sending a car of farm products and literature through the north, showing exactly what our country produces, ought to be a mighty immigrant getter for Northwest Texas. This is the project put on foot by the Quanaq convention of commercial clubs. Along with this car will go some twenty-five enthusiastic representatives of all the towns holding membership in that association. Making stops at points 50 miles apart with their coming properly advertised, this aggregation should be able to stir up considerable interest in this country. Afterwards rounding up those interested and bringing them right here to our doors, we should be able to secure a large number of desirable citizens.—Childress Post.

Governor Campbell is making some good appointments, whatever may be said of his administration, and it will also be noticed that nearly all of his appointments during the past year have and may yet be Senator Bailey's strongest political friends, which leads one to believe there may be more in the rumor that the Governor is anxious to succeed the junior senator than was at first thought. Being indebted to Gov. Campbell for political honors, they could not well afford to oppose his senatorial aspirations, and if it should come to a contest between the governor and the junior senator, these gentlemen will be placed in rather an embarrassing attitude to render aid to Senator Bailey.

Two ex-Rangers visited Wichita

According to the Seymour Banner Baylor county has an insignificant Jim-crow gold mine prospect, which at something less than 100 feet deep yields gold to the extent of \$25,000 to the ton of dirt. Nuggets were brought into the Banner office, says it, that assay 80 per cent gold and 20 per cent silver and copper. The used-to-it, phlegmatic Banner says also: "It is hardly time yet for a great deal of excitement, but prospects for gold look pretty good." Wonder if the old fool is expecting a molten gold gusher? Glad to see our staid neighbor keeping his shirt on under such really trying circumstances.—Henrietta Review.

Falls one day last week: The ex-kind are all that we need here, although the other variety sometimes pass through en route to Amarillo.—Wichita Times.

That looks like a jolt straight from the shoulder. State Press would look carefully and with deep interest for the Daily Panhandle's counter jab if it were not that the Amarillo paper has become uncertain in its visits to S. P. If Editor Boesen has stopped our exchange copy under the impression that we ought to pay him boot, why does he not name his price? We want the Daily Panhandle daily, not monthly or biennially, even if the cost of white paper is high and times are hard.—Dallas News.

Bryan's speech was eminently satisfactory from his adherents' standpoint and Bailey's followers are equally well pleased with the senator's address. Why not get a referee the next time we have a scrap like that?

In St. Louis men refuse to give up their street car seats to ladies because the latter refuse to say "Thank You." In Wichita Falls, a smile is considered ample reward for such a courtesy.

And yet a few years ago a dollar was the most radiant dream that ever dared to visit the mind of a Texas farmer.

THE CLOTHIERS **Collier & Hendricks** WICHITA FALLS TEXAS

Hominy Is An Excellent FALL FOOD

Corn, in one form or other, is now the ideal food for the entire year.

Corn meal cakes and corn meal mush will soon be in demand, but just now you will find hominy a very satisfactory dish.

It will warm you up in good shape for these early fall days.

OUR SONW-FLAKE HOMINY

Is a very fancy brand of this food, being prepared from the best selected white Indian Maize.

In fact, all the corn used in this brand is grown for the purpose and improves each year, as the growers are constantly weeding-out the imperfect corn and using only the most perfect for seeding.

It is only 6 1/4c per pound.

TEXAS STATE FAIR.

Greatest Offerings in History of Fair Secured.

Dallas, Texas.—With the lowest railroad rates and the finest attractions in history, the twenty-fourth annual meeting of the State Fair of Texas, which begins in this city Saturday, October 16, will undoubtedly be the most successful and the most brilliant ever offered to the thousands of patrons of the institution. Everything is in readiness. All the improvements contemplated have been completed. The entries in the livestock department have taxed the splendid accommodations there to the utmost. With forty-four counties exhibiting the farm, orchard and garden products, the agricultural development of the Southwest will be measured even better than last year. In spite of additional show cases installed this year in the textile department, every square foot of this division will be given over to the display of the handwork of the women of the South. The art loan exhibit will be paramount. There will be three thousand birds exhibited in the poultry department. Officials of the national association will deliver lectures each evening on matters pertaining to the poultry industry. There will be matinee horse shows every afternoon of the first week. During the last week cattle, sheep, goats and jacks and jennets will be judged. Ten acres will be devoted to the implement, machinery and vehicle display. The bee and dairy products' departments will have many new features of an educational value and exhibitions that will show a marked improvement over last year. The bench show will have dogs galors—750 in fact—and all the popular breeds and varieties will be represented. All that is beautiful, strange or extraordinary in the world of flowers will be found in that department. The corn show will demonstrate the possibilities of the Southwest in the production of this crop. Displays of the industrial arts, totaling in value millions of dollars, will be found in the Exposition building. Gowns, frocks, and millinery direct from Paris will be exhibited. Children of the Southwest will find many exhibits of interest in the manual art department. There will be a strange collection of Aztec archeological remains in the geological department. The mineral resources of the Southwest will be exploited as never before. In fact every interest, industrial, livestock and agricultural, will be represented in a manner that will make every citizen of the Southwest proud; and make him firmer in his conviction that this is the greatest and grandest portion of the Union.

All the latest devices in the scientific world will be demonstrated. The famous Curtiss aeroplane—the same type with which the American aviator won glory in the European contests—will be at the Fair. The Strobil dirigible, another type of the airship, will also be there. Aerial navigation will be demonstrated for the first time in the South. In Music Hall programs will be given three times daily that will alone be worth the price of admission to the Fair. Band Master Alessandro Liberati, with his seventy talented musicians, twenty great vocal artists and a grand array of instrumental soloists, will be the feature. Vaudeville acts will add additional interest. The management has booked several additional vaudeville artists and a brilliant page is assured for the State Fair's musical and entertainment history.

Every evening Pain's peerless pyrotechnic drama will be given. This drama introduces fighting airships, aeroplanes, armoured autos, aerial torpedoes, etc. There will be a gigantic outdoor stage for 250 performers. There will be acres of realistic scenery; a military band, novel marches and sports. There will be a whole circus of acrobats, gymnasts, clowns, high wire experts and sensational specialties. The depicting of this thrilling pyrotechnic drama and battle will necessitate the most gigantic display of fire works in the history of the South.

As predicted earlier in the year, the \$50,000 in purses and stakes offered in the speed department have attracted entries from the owners of the greatest race horses in both running and harness classes, in America. There will be ten days of horse racing and three days of automobile events. Dan Patch and Miner Heir, the former champion pacer of the world, will race on the afternoon of Monday, October 18, for the championship of the world. There will be five running races and three harness races each afternoon. On Saturday, October 16, one of the greatest steeplechase races in the history of the United States will be held. The afternoons of October 28-29-30 will be featured by sensational automobile and motorcycle events. Strang, Burma and Chevrolet and other world-famous drivers will participate in the automobile events. In the motorcycle events a race for world record on circular track, will be made. The automobile track is the longest, widest and fastest in Texas. Proper safety

guards have been made against accidents.

Jupiter Pluvius has been eliminated by the management. Whether the rain god frowns or not is a matter of indifference. The great lake which percolates beneath the Fair Grounds has been tapped by wells placed at different localities on the grounds. Water of the purest and best quality is flowing into great tanks, at the rate of hundreds of thousands of gallons daily. The city has been cut off and the fair will run its own water system. Water in abundance will be had for sewerage, drinking and washing purposes.

In the matter of rates the railroads have treated the management better than ever before. For the first and second Saturdays of the Fair a long distance rate of \$4.30 has been made from Galveston, Houston and San Antonio. The limit of tickets of this kind is the Monday night following, so that patrons will have an opportunity of spending Saturday, Sunday and Monday at the Fair. The same low long distance rates will apply from all points in the Southwest. Season tickets will be sold for one and one-third fare for the round trip from all points within ninety miles; beyond that distance one and one-fifth fare the round trip. Sale of the tickets will start October 15, with the return limited to November 1. A rate of -1 for the round trip will be made to Dallas during the three Sundays of the Fair from all points within 100 miles. For points within 150 miles the rate will be \$1.50. A special two days' fare of one fare plus ten cents has been made for points within 175 miles of Dallas. A visit to the great exposition will be within the reach of all.

James J. Hill Seeking Further Connections in This Direction.

Terre Haute, Ind. Oct. 7.—James J. Hill is said to intend to enter Indiana, following Harriman, whose lines and influence were thrown into Indianapolis by construction of the Indianapolis Southern and the control of the C. H. & D. through the Baltimore & Ohio. The traffic officials of the Southern Indiana have received instructions from Receiver Myron J. Carpenter to handle a private train over the Walsh system, starting from Chicago Monday morning.

The request came from Walsh himself, and the report is that the men who are to go over the system in the private car are representatives of J. J. Hill. It is said that Hill not only wants to reach down into Indiana for traffic, but also wants to get an outlet from Chicago to the south through Terra Haute.

It is now thought that Walsh, finding that he is about to lose control of his railroads, is trying to close a deal with Hill within the final 20 days of grace which the Chicago bankers holding his securities must give in the form of notice that they intend to sell these securities, which include stock and bonds of the Walsh railroads and Indiana stone undertakings.

There are \$14,000,000 (face value) of these securities up as collateral security for the \$7,121,887.12 still due the Chicago bankers who advanced the money to secure the depositors in Walsh's banking institutions when the great crash came in 1905.

For years Hill has been known to be a close friend of Walsh. It was said at the time of the failure of Walsh's banks that Hill and his associates found for Walsh the 'backing' that saved his railroad properties from being sold under the hammer.

Crooke, preceded the evening's main feature and Sterling P. Strong made a short introductory address. Dr. Stuart spoke straight from the shoulder. He did not mince words, and, to use his own adjective, his talk was a 'rough' one. He said, and proved it to the apparent satisfaction of all present, that a saloon man, or a man who votes for the saloons, was seven times worse than a thief, and this was but a sample of the tenor of his remarks. At the conclusion of his remarks he asked for all those who believed the saloon ought to be voted out of Texas to stand up and all responded, with one or two exceptions. A substantial collection was taken up and the audience seemed to be with the speaker thoroughly.

Rev. Rankin and Dr. Stuart spoke at Iowa Park at night the local pulpita plug again filled by the visiting orator.

Lost Ninety Dollars.
from Monday's Daily.
A pocket check book containing \$90 a currency and some few papers was lost by M. J. Stimpson in this city (this morn) and the finder will be liberaly rewarded by returning the property
COOK AT KANSAS CITY.

Discoverer of Pole Will Lecture There To-night.

By Associated Press.
Kansas City, Mo. Oct. 7.—Dr. Cook, the Arctic explorer, who lectures here tonight, arrived this forenoon. He is accompanied by the Kansas City reception committee which went to St. Louis to meet him.

THE MARKETS BY TELEGRAPH.

Cotton—Liverpool.
Liverpool, Oct. 7.—Spot cotton, 7.15; sales, 8,000 bales; receipts, 2,000 bales. The market for future cotton opened firm and closed quiet.

Corn, mixed, per bushel 70c; wheat \$1.15 per bushel; oats, 50c per bushel. Market is weak and not much grain moving.

RACING AT SAN ANTONIO.

Recent Legislation Will Not Prevent an Excellent Program.

Special to The Times.
San Antonio, Texas, October 7.—Lovers of horse racing will not be disappointed when they visit the San Antonio Fair. The anti-racing legislation passed in Texas has not feazed the San Antonio International Fair Association, and the 'hoss' racing will go on as usual. The purses will be just as large as they have ever been and there will be just as many of the thoroughbreds on hand to compete for the money. If anything, the racing programs this year will be more diversified than ever before, embracing a wider scope. Harness racing will also be given a place on the program.

For those speed maniacs who like to inhale the gasoline fumes as the 'Red Devils,' the 'Gray Wolf,' the 'White Ghost,' or 'Blue Whistler' pass by and fade in the distance, there will be diversion also. The best automobile racing drivers in the country who have done big thing on the Vanderbilt, Savannah or other courses, will be here to pilot their cars around the track. That there will be some new international records is assured because of the recent improvements made on the track. The curves of the course have been raised fifteen degrees which will permit the drivers to take these as fast as the straightways and that is what counts in the making of new records. There will be no such thing as a slow time on this track, which is improved to such an extent that it does not take second place with any track in America. In a few words, it is as good as the best.

The racing features should prove an interesting diversion at the San Antonio Fair, which is greater and better this year than ever before. The fair opens November 8th, and closes on the evening of November 17th, and all railroads will operate low rate excursions.

Public Sale.

On Thursday, October 28th, I will have a sale on my farm 1 1/2 mile north west of Wichita Falls. All my farm implements, consisting of every farm implement and every kind of a tool needed on a farm, from a fine gang plow to a garden wheel hoe; also work mules, work horses, brood mares, and a lot of young mules and colts, and the best Jersey cow in the country; also household and kitchen furniture; a lot of barbed wire, etc.
Terms:—\$10 and under, cash; over \$10, six months with good note bearing 8 per cent interest.
Sale begins at 8:30.
W-43-21
R. H. SUTER.

A French professor says that the way to live long is to get the germs to fighting among themselves. Between the Cook-Feary controversy, Ballinger-Pinchof controversy and the Bryan and Bailey controversy, it does look like we could spare the germs at least one of them.

WITH COUNTERFEIT MONEY.

Little New York Girl Buys Lavish Feast for Friends.

New York, Oct. 7.—A week ago little Miss Rosie Werblinsky, 9 years old, found a \$50 Confederate bill while rummaging through her father's trunk, where it had reposed among a lot of souvenirs for the last four years, in her home.

Rosie, a pretty child with rosy cheeks, big brown eyes and black hair, didn't know the bill was bad but something put it into her head to take it, anyway. She went to Mrs. Rachel Feinstein's grocery at 31 Market street and asked for a half dozen eggs and a quart of milk, tendering in payment the \$50 note. The grocery woman gave the child \$49.74 in change.

Rosie has a wide circle of little friends. Imagine if you were 9 years old and fell heir to a fortune of nearly \$50—well, Rosie just made Santa Claus look like a piker. First off there was a party in a vacant lot under the Manhattan bridge. Besides candies, cakes and pies, there were pickles, ice cream, jelly tarts and heaps of goodies.

There was many an aching 'tummy' at bedtime that night, but bright and early the following morning the guests were waiting outside Rosie's home long before she was washed and dressed. Most of them had hurried off without breakfast, but even those who had eaten found room for the morning spread, composed of syrup snowballs, ginger pop, sweet pickles, chocolate cake, peanut taffy, with a nickel box of ice cream for each guest, which Rosie provided. When every kid had stuffed full the hostess lead a shopping expedition to Canal street.

For her bosom chum, Celia Himmelstein, Rosie bought a beautiful doll that could open and shut its eyes, a doll carriage and a pair of roller skates. The other girls received toys ranging from rubber dolls to doll houses and sets of furniture. Rosie and Celia hid their treasures in the woodshed in the cellar and after school each day they would meet the other children, who brought their toys along, under the bridge and feast to their hearts content. And thus the delightful days sped on with no thought that there was to be an end.

Mrs. Elizabeth Cahill, Mrs. Feinstein's sister, went to the Immigrant Industrial Savings Bank to deposit \$300 for the grocery woman. The receiving teller detected the confederate \$50 bill and called a detective. Mrs. Cahill convinced the bank officials of her innocence, and they permitted her to go with the worthless note.

Her sister recalled that Rosie Werblinsky had passed the bill, and when her parents stoutly denied they knew she had taken it from the trunk Policeman Cassidy of the Madison Street Station walked in class 4-A in public school No. 177, at Monroe and Market streets, just before the dismissal bell rang, and right before the eyes of most of the children Rosie had entertained so regally, he arrested her. She cried hysterically.

At the station house Rosie steadfastly declared that what remained of the \$49.74 she had placed in her father's trunk. A search, however, failed to recover a cent and she had no more money. She was sent to the Children's Society and will be arraigned in the Children's Court.

Miller-Connell.
Invitations have been received in this city to a wedding in Fort Worth that is of interest to Wichita Falls people, reading as follows:

Mr. and Mrs. Giles H. Connell request the honor of your presence at the marriage of their daughter, Esther, to Mr. Clarence Ransom Miller, Thursday evening, October 7th, 1906, at 7 o'clock, First Baptist Church, Fort Worth, Texas.

Mr. Miller is a brother of Mrs. J. D. Zook of this city. Mrs. Zook is now in Fort Worth to attend the wedding.

Miss Sude Orth of this city, who was to take part is unable to attend on account of the illness of her mother.

In yesterday's papers Cook got three when the 'on' year comes around columns, Feary got two and a half, Taft got two sticks and T. R. got three lines. When does the next ship sail from Africa?

Our deepest and most heartfelt sympathies are with Louisiana. She has a text-book problem to solve.

Ed. B. Gorsline AUCTIONEER

Wichita Falls, Texas.

Satisfaction Guaranteed.
Terms, Reasonable.
Write or telephone me for dates before Advertising.

FIFTEEN CENTS IS PREDICTED FIGURE

COTTON ALMOST CERTAIN TO COMMAND THAT PRICE BEFORE LONG.

MANY FARMERS HOLDING

This, It Is Believed, Will Force Price Up To Desired Figure.

Galveston, Tex., Oct. 1.—Forced upward by the long-standing drouth, which has caused ravages to the crop, the story of which but half has been told, cotton this year will go to 15 cents. Such is the construction of J. C. Albritton, purchasing agent of the Texas and Oklahoma Farmers' unions, today placed on the cotton situation, which in years has not approached the seriousness which now confronts the farmers of the South.

Although much has been told of the destruction to the crop by the drouth, which now is looming as the greatest evil to the cotton market and prices, only a part has been told, said Mr. Albritton, despite the general reports of damage that daily has been coming from the burning fields. The lack of rain that early threatened the South's greatest crop, has now completed the destruction, and if the crop in Texas amounts to two million bales Mr. Albritton's judgment of the situation will have been a misconception.

Mr. Albritton bases his conclusions on a recent trip into the northern part of the state, during which time he made exhaustive investigations into the cotton fields personally and observed the country generally from the car window. While in the north he interviewed men in cotton producing centers and gleaned much of his information from meetings of the Farmers' unions.

Farmers Will Hold Cotton.

When asked about the farmers holding their cotton, Mr. Albritton stated that there was no doubt of it. Profiting by the experience of 1907 and earlier years, the first bales produced were sold. These bales supplied the farmers with the necessary money for immediate needs, taking from them the necessity of selling the entire crop as it was produced. They can now as it comes in wait for the advance of price which is bound to come, in the opinion of union officials.

Mr. Albritton states that the supply of cotton this year will not be equal to the world's demand, which will be on important factor in the advancing of the price to 15 cents.

In addition to this, there is this year a very noticeable increase of the marketable value of the staple.

While in one of the North Texas cities Mr. Albritton talked with a gentleman who is interested largely in the grain business in one of the northern wheat states. This gentleman told Mr. Albritton that in the shipments of grain bagging he had this year seen only two loads of bagging made of grass or of jute, all the balance being of cotton. The education of foreign countries into the use of cotton for clothing has still further increased the demand for the staple.

All this, with the decreased supply, has taken from the speculators their opportunity to profit by fluctuations in the market. He cited, "it has been noticed that in the early part of every season there has been a marked fluctuation, with drops and rises in the market value. Those who watch the markets notice that with each fluctuation in the market the value never reaches a minimum as low as was the last preceding one, while the maximum price goes a little higher. This condition is noticeable this year, and it can have only one meaning, the actual market value of the cotton overcomes the fluctuations made by the dealers."

The governors of seven states have expressed their belief that cotton positively will go up and they have added their advice that the farmers hold the cotton.

Price of Picking Low.

Mr. Albritton states that cotton picking now brings only 65 cents per hundred, and that in previous years, with cotton only at 10 and 12 cents pickers were getting \$1 and at times as high as \$1.50 per hundred.

This year, with cotton now at 13 cents, all the hands that are needed can be had to work at the scale of 65 cents. This is the result of short crops and plenty of people to work the fields that are producing. Mr. Albritton further declared that the recent cold weather has been more generally felt on the coast country than it has farther north in the state. What cold weather there has been has been welcomed and it has proven to be of general benefit to the late crops.

Mr. Albritton also states that it is not only the cotton crop that is suffering, but that the grain fields have felt the effect of the unfavorable season and the severe heat and dry weather and that the feed supply will be short in accordance with the cot-

ton production. Before leaving North Texas he received several reports stating that light frosts had been noticed.

Paving Matter Before Directors.

From Tuesday's Daily.

The street paving matter was taken up at this morning's meeting of the Chamber of Commerce and two plans were discussed. The first was to apply for a special charter when the legislature next meets and with this in view the secretary was instructed to request Governor Campbell to incorporate this item in his call for the special session, which it is understood will be in January. The other plan was for paving by the property-owners abutting and all those present agreed to do their share. One block is already assured being the block between Ohio and the railroad tracks on 8th street. As soon as the city's paving bonds are sold the city will be in a position to help by paying one-third.

The question of paying by the property-owners is to be taken up and as soon as ten blocks are assured, the making of contracts will be gone into. The sentiment at the directors meeting this morning favored the use of bitulithic, rather than brick or asphalt, but no action was taken along this line.

The directors appropriated \$100 to assist the Civic League in taking care of the city park. Mrs. Burt Bean, president of the League was present and made the request which was promptly granted.

The commissioners court was requested to repair that section of road on what is known as the Noble Hill east of the city. It is at present dangerous for passage and trade is being diverted from this city on account of it.

The hospital question, as outlined in the Times several days ago, was taken up, but no action taken. Another cracker factory proposition was submitted, \$15,000 in stock to be subscribed locally and Messrs. Kell, Blair and Anderson were constituted a committee to look into it.

Cotton Factory Proposition.

Wichita Falls now seems definitely in line for the long-desired cotton factory and a party of New York capitalists will visit this city sometime this month with a view to looking the field over. They will establish a factory somewhere in the Southwest and it is believed the industry can be secured for this city if proper effort is made.

The proposition as it now stands is for a \$100,000 plant, employing about 125 hands, the city to furnish an available site in or adjacent to the city with good railroad facilities, and a certain portion of the stock, probably about twenty-five per cent, to be subscribed by Wichita people. It is probable that the stock subscription feature could be replaced by a straight bonus proposition.

No action will be taken on this proposition until the New York capitalists visit this city, which is expected to be sometime this month. It is believed that the proposition is a bona fide one and if it proves to be at all feasible its acceptance by the Chamber of Commerce is a matter of course.

The Chamber of Commerce has also a proposition from a party who wishes to establish a pants factory here if this proves to be available, it will be landed if possible.

New \$18,000 Building.

C. C. Knight will begin work shortly on a new business building at the corner of 9th and Indiana, directly back of the city hall. The new structure is to be two stories in height, fronting one hundred and fifty feet on 9th street and fifty feet on Indiana. It will cost \$18,000.

The erection of the building on this site is evidence of the trend of business in that direction. This tendency is due partly to the fact that the street car loop encircles property in that section and partly to the fact that the new postoffice is to be erected in that part of the city. Mr. Knight purchased the property upon which the new store will be located for \$17,500, a few days ago.

Baptist Church Calls Pastor.

Rev. J. P. Boone of the Kentucky Avenue Baptist Church of Fort Worth, has been called to the pastorate of the First Baptist Church of this city by the congregation, and it is understood his acceptance is very probable. Rev. Boone was decided upon at a recent meeting of the congregation and he is in this city today conferring with members. Rev. Boone is a comparatively young man, but has gained quite a reputation by his eloquence and effectiveness.

VERDICT IS AFFIRMED.

John Walsh Must Serve Out Sentence Formerly Imposed.

Chicago, Oct. 5.—The verdict of the trial court which found John E. Walsh guilty of misapplication of the funds of the Chicago National Bank, was affirmed by the United States circuit court of appeals here today. Walsh must serve the sentence unless the supreme court upsets the verdict when the case is carried there.

PRESIDENT'S PARTY TURNING TO SOUTH

WESTWARD MARCH ENDED AT TACOMA AND FACES SET IN THIS DIRECTION.

COMPLETION OF CANAL

Taft Says It Will Certainly Be Finished By 1915—At Portland Today.

Portland, Ore., Oct. 1.—President Taft arrived here early today from Tacoma. As he rode through the streets early in the morning the crowd greeted him. He was escorted by the mayor and governor.

At 10:30 o'clock the president, escorted by the regular troops and National Guard, was taken to Multnomas Field, where he viewed the parade and exercises of twenty thousand school children.

The president will tomorrow attend the laying of the corner stone of the First Universalist Church. There will be no public reception. He departs for San Francisco on Sunday evening.

Tacoma, Wash., Oct. 2.—The Westward march of the presidential party in the swing around the circle ended here and the notables set their faces to the southward toward California and the Southwest to Texas.

The feature of the president's address was his declaration that 1915 will witness the completion of the Panama canal and that the benefits expected to be derived from that route will be available immediately.

Armed Man Arrested.

Portland, Oct. 2.—Captain Bailey and two local detectives arrested a heavily armed man in front of the Portland Hotel as President Taft was entering his automobile to participate in the military parade. The man refused to give his name, but said he was from Boston.

When the man was searched, a six-shooter was found upon him, together with a quantity of extra ammunition. Bailey was attracted to the man by his peculiar actions. He had a camera in his hand and was trying desperately to reach a point of vantage close to the president.

Students Cheer President Taft.

San Francisco, Oct. 5.—President Taft and his party early today passed through the streets of Berkeley, which were rendered almost impassable by a surging crowd. They were driven to the campus of the University of California and under escort of the University cadets taken to the Greek Theatre. Here the president was given a public reception.

When he appeared on the stage he received an ovation from a crowd of ten thousand citizens and students. Later, six thousand school children of Berkeley, gathered on the football field to honor the guest.

At Oakland the president was officially welcomed by the mayor of the city and a combined military and civic parade held. The official parade in San Francisco was followed by the laying of the corner stone of the new Young Men's Christian Association building. Following this event the president attended a reception at the Union League Club, where there will be a banquet given in his honor to dinner and copper.

The used-to-phillegmatic Banner says also: "It is hardly time yet for a great deal of excitement, but prospects for gold look pretty good." Wonder if the old fool is expecting a molten gold gusher? Glad to see our staid neighbor keeping its shirt on under such really trying circumstances.—Henrietta Review.

Falls one day last week. The ex-kind are all that we need here, although the other variety sometimes pass through en route to Amarillo.—Wichita Times. That looks like a jolt straight from the shoulder. State Press would look carefully and with deep interest for the Daily Panhandle's counter jab if it were not that the Amarillo paper has become uncertain in its visits to S. P. If Editor Boesen has stopped our exchange copy under the impression that we ought to pay him back why does he not name his price? We want the Daily Panhandle daily, no monthly or biennially, even if the cost of white paper is high and times are hard.—Dallas News.

Bryan's speech was eminently satisfactory to his adherents' standpoint and Bailey's followers are equally well pleased with the senator's address. Why not get a referee the next time we have a scrap like that?

To Aid Storm Sufferers.

Washington, Oct. 2.—The secretary of war will send one hundred tents, eight hundred double blankets and eight hundred mattresses to the hurricane sufferers at Terre Bonne Parish, Louisiana.

Real Estate Transfers.

W. Lee Moore, to Mrs. D. M. Perkins, lots No. 1 and 2 of the R. F. Simpson subdivision of block No. 233, Wichita Falls; \$750.

Mrs. D. M. Perkins and D. M. Perkins to J. Frank Hood, a part of lot No. 1 and 2 of the R. F. Simpson subdivision of the east half of block 233, of the city of Wichita Falls; \$1250. C. A. Wheeler to F. W. Bushey, 150 acres off the north end of the east half of section 25, block 7, H. and B. Ry. Company survey; \$4500.

Mrs. S. A. Moore to D. W. Wiley, lot No. 13 in Curtis and James subdivision of block No. 254, city of Wichita Falls; \$2100.

Minnie May Addlekes to Nettie Slaten, lot 14, block 13, Jalonick addition; \$350.00.

Mrs. S. A. Moore to D. W. Wiley, lot 13, in Curtis and James subdivision of block No. 254; \$2100.

M. S. Skinner and wife to W. F. Long, lot 1, block 1, of Skinner's subdivisions of blocks 1, 3, 5, 6, 8, 9, 12, and 15, south one-half of lot 11, and south one-half of block 14, of McCutchen's West End Addition; \$300.

To Increase Cotton Crop.

New York, Oct. 5.—With a view to increasing the cotton yield of German East Africa to such an extent as to make Germany independent of the cotton of the United States, Bernhard Deinberg, German Minister of Colonies and Dr. Walter Busse, head of the German Agricultural Department, have arrived here to study cotton culture. The two German Ministers will seek information from the Department of Agriculture at Washington, and, with experts, will make a thorough investigation of the cotton belt. Later they will investigate methods on the New Orleans and New York Cotton Exchanges.

TRAINLOAD OF JERSEYS.

Valuable Cattle Shipment to Creamery At Falfurrias.

San Antonio, Oct. 4.—A special train with a load of two hundred and thirty-five valuable Jersey cows was shipped today by J. O. Terrell and Sons to Falfurrias for dairy purposes. Hand-some prices were paid for the stock by Ed. C. Lasater and Miller Brothers, who will establish one of the largest creameries in the country at Falfurrias.

EDWIN GOULD PRESIDENT.

Will Head St. Louis and Southwestern Railway Hereafter.

St. Louis, Oct. 5.—Edwin Gould was selected President of the St. Louis and Southwestern Railway Company at the annual meeting of the stockholders and directors today. The annual report showed the Cotton Belt System enjoyed a flourishing year. Gould expressed satisfaction over the railroad industrial conditions in the southwest.

ALBERT PULTZER SUICIDES.

Brother of New York Publisher Ends Life in Vienna.

Vienna, Oct. 4.—A dispatch from Hamburg says that Albert Pultzzer of New York, has committed suicide by shooting himself while in a hotel of that city suffering from a nervous break down. Indications pointed to the fact that he first swallowed poison and then standing in front of a mirror sent a bullet from a revolver through his right temple.

New York, Oct. 4.—Albert Pultzzer was a brother of Joseph Pultzzer, publisher of the New York World, and was founder of the New York Morning Journal. He has spent most of his time since 1895 in Europe.

Communion Service Stipen.

Ablene, Tex., Oct. 4.—Officers today re searching for the burglar who removed the solid silver communion service from the Church of Heavenly Rest, Episcopal, here. The loss was discovered when the pastor opened the communion cabinet yesterday. Investigation revealed the loss of missionary collections from the deposite box, and it is believed that negroes entered the church Saturday, breaking the cabinet and missionary service.

NEW ROAD CHARTERED.

Will Build From Glenn Rose to Walnut Springs.

Austin, Tex., Oct. 2.—The charter of the Glenn Rose and Walnut Springs Railroad Company was today approved by the attorney general's department. The company is capitalized at a hundred thousand dollars and will build a road from Glenn Rose to Walnut Springs, with headquarters at the former place.

DICKINSON'S BOY ILL.

Son of Secretary of War Down With Heart Failure.

Washington, Oct. 2.—Secretary Dickinson received a telegram today that his son had another serious attack of heart failure last night. The secretary leaves immediately for Bellemeade, Tenn.

Big Values in New Dress Goods

Everything in our dress goods department is now ready for what we believe is going to be the biggest winter's business we ever did.

We have two reasons for thinking so:

- 1st. Money is easy and people are already buying very freely.
- 2nd. We never before had such wonderful values to offer as we have this year.

Our prices are not much, if any, lower than other stores, but the value we give for those prices will surprise you—we couldn't do it if it were not for our exceptional buying facilities.

Our buyer is a wizard at dry goods buying and has gathered together some of the biggest values that ever came to the city.

Our Poplins and Soisettes in all colors, at 50c to 35c per yard, are just two hints of the immense lines we can and want to show you.

BULLISH REPORTS NOT IN EVIDENCE

GOVERNMENT REPORT SHOWS COTTON CONDITIONS BETTER THAN EXPECTED.

FIFTY-EIGHT PER CENT

Ginners' Report Shows a Very Small Decrease—Situation is Quite Bearish.

Washington, Oct. 4.—Surprise was in store for those cotton operators who had expected a bullish report from the government today on the crop situation. The report covering the cotton ginned to Sept. 25, follows:

1909—2,562,888 bales.
1908—2,590,639 bales.

This shows the ginning for the two years to be very nearly equal, there being a difference of something over twenty-seven thousand bales in favor of last year. This small decrease has caused no little flurry, as there was no indication that the 1909 showing would be nearly so good.

The crop board of the bureau of statistics of the department of agriculture estimates that the average condition of the crop on September 25th was fifty-eight and one-half per cent of normal, as compared with sixty-three and seven-tenths per cent on the same date last year.

New Orleans, Oct. 4.—As soon as figures, 58.5, on the cotton condition were received here, the realizing longs sent the market down twenty points. The report is within two-tenths of a point of the lowest on record.

New York, Oct. 4.—After receipt of the government report, cotton became excited on the exchange here today, but the market is irregular with the prices easing off to within three to seven points of last Saturday's finals, with tremendous realizing.

The Times Stands Corrected.
W. J. Bullock submits the following: The prohibition meetings yesterday have nothing to do with a local option election for this county. They were not the "opening guns" in such a contest. These meetings were arranged by the anti-saloon league for this city weeks ago, just like they were arranged for other cities in Texas. No state leader has ever been consulted about our election in this county and not one of them has offered any advice as to having an election. If an election is ordered and we ask them for help, they will give it.

Merchants Contest Starts Soon.
The Retail Merchants' Association has announced its plan of offering money for the best 500-word article written by any housekeeper who is a resident of Wichita County, on the subject, "Why Wichita Falls citizens should patronize Wichita Falls Merchants."

\$40.00, in ten sums of money will be given away, ranging from \$15 down to \$1. A committee of prominent citizens will be selected to make the awards, which will be announced October 28th. Conditions are set forth under the classified columns of the Times.

In view of the high standard of merchandising now in force in Wichita Falls, owing to new establishments and more competition, it is expected that considerable interest will be shown by local housewives in this home industry campaign.

NOTICE TO CREDITORS.

I, P. P. Langford, whose residence is Wichita Falls, Texas, having, on the 3rd day of August, 1909, been duly granted Letters of Administration of the Estate of A. Yours Respectfully,
AVIS ROUNTREE & CO.
Wichita Falls, Texas, 41-41

GUIDE FOR GOOD LIVING.

Remarkable Spiritual Insight of Cornell Student, Now Dead

A recent number of Cornell University magazine chronicled the death of a young Cornell graduate, who was killed in the course of his duty as an electrical engineer for the Westinghouse Company at Hanley, Canada, last October. His name was Thomas Van Alstyne, and it seems that he had been, while at college, a rower on the 'varsity crew and a participant in other student activities. Among his papers was found a rule of conduct that he had drawn up entitled "My Guide," which is well worth consideration by old and young alike:

"MY GUIDE."

To respect my country, my profession and myself. To be honest and fair with my fellowmen, as I expect them to be honest and square with me. To be a loyal citizen of the United States of America. To speak of it with praise, and act always as a trustworthy custodian of its good name. To be a man whose name carries weight with it wherever it goes.

To base my expectations of reward on a solid foundation of service rendered. To be willing to pay the price of success in honest effort. To look upon my work as an opportunity to be set with joy and made the most of, and not as a painful drudgery to be reluctantly endured.

To remember that success lies within myself, in my own brain, my own ambition, my own courage and determination. To expect difficulties and force my way through them. To turn hard experience into capital for future struggles.

To believe in my proposition, heart and soul. To carry an air of optimism in the presence of those I meet. To dispel ill-temper with cheerfulness; kill doubts with a strong conviction, and reduce active friction with an agreeable personality.

To make a study of my business. To know my profession in every detail. To mix brains with my efforts and use system and method in my work. To find time to do every useful thing by never letting time find me doing nothing. To hoard days as a miser hoards dollars. To make every hour bring me dividends, increased knowledge, or healthful recreation.

To keep my future unmortgaged with debts; to save as well as earn. To cut out expensive amusements until I can afford them. To steer clear of dissipation, and guard my health of body and peace of mind as a most precious stock in trade.

Finally, to take a good trip on the joys of life; to play the game like a man. To fight against nothing so hard as my own weakness, and endeavor to grow in strength a gentleman, a Christian.

So I may be courteous to men, faithful to friends, true to God, a fragrance in the path I tread."

LAW ENFORCEMENT RALLY SUNDAY

PROHIBITION SPEAKERS HOLD FORTH IN LOCAL PULPITS AND OPERA HOUSE.

SPEECH BY REV. STUART

Makes "Rough" Talk and Crowd Seems Thoroughly in Accord With Him.

Prohibition orators held forth in the local pulpits Sunday and a Law Enforcement rally, engineered by the state prohibition leaders, was held at the opera house in the afternoon. Good crowds greeted all the speakers and they were given excellent attention, the results of the day's work being considered very satisfactory.

Rev. George Stuart at the Baptist church; Sterling P. Strong, at the Christian church; Rev. Eichelberger, at the First M. E. church; Rev. G. C. Rankin, at the M. E. Church South, and Rev. C. H. Crooke, at the Presbyterian church, occupied the pulpits in the morning. Space will not permit any summary of any of the sermons, but all were well-received and were concise arguments in favor of state-wide prohibition.

The opera house was well filled at the afternoon meeting, when Rev. Geo. Stuart spoke. Singing, led by Rev. Crooke, preceded the evening's main feature and Sterling P. Strong made a short introductory address.

Dr. Stuart spoke straight from the shoulder. He did not mince words, and, to use his own adjective, his talk was a "rough" one. He said, and proved it to the apparent satisfaction of all present, that a saloon man, or a man who votes for the saloon, was seven times worse than a thief, and this was but a sample of the tenor of his remarks. At the conclusion of his remarks he asked for all those who believed the saloon ought to be voted out of Texas to stand up and all responded, with one or two exceptions. A substantial collection was taken up and the audience seemed to be with the speaker thoroughly.

Rev. Rankin and Dr. Stuart spoke at Iowa Park at night the local pulpits being again filled by the visiting orators.

Last Ninety Dollars.
From Monday's Daily
A pocket check/book containing \$90 in currency and some few papers was lost by M. J. Stimpson in this city this morning and the finder will be liberally rewarded by returning the property to this office or forwarding same to the owner at Waco, Texas.

Mr. Stimpson, up to the first of this month was district manager for the Southwestern Telephone Company, having resigned that position to accept a better one with the same company at Waco, and at the time of his misfortune was engaged in winding up his personal affairs in this city.

Newcastle's New School House.
Newcastle, Tex., Oct. 5.—Owing to the increased demand for coal, miners at this place are working full time and new miners are being put to work every day. Diamond drill work is continuously going on and satisfactory results are being obtained.

MAKING ATTACK ON THE NORTHWESTERN

IT HAS ALL KINDS OF TROUBLE IN THE EXTENSION OUT OF ALTUS.

AN OFFICIAL IS ARRESTED

Supt. Orth Gets in Limbo For Trying to Cross Another Road—The Trouble Settled.

Building railroads in Oklahoma is not always unattended by difficulties, nor is it always as peaceable a procedure as it usually is, if the experience of the Wichita Falls and Northwestern at Altus last week is to be taken as an example. The Altus, Rosewell and El Paso railroad sought in several ways to prevent the Northwestern from crossing its tracks, which would have seriously hampered it in its extension to Mangum.

Superintendent Orth was arrested by the authorities at Altus when he started building across the other road's tracks, the charge being destroying railroad property. This was quickly disposed of, resulting in acquittal. The other road is under a restraining order at present, however, its creditors have made application for a receiver and in order for the Northwestern to get permission to cross it, it was necessary to secure an amended order. This was applied for before Judge Johnson at Lawton and granted, although contested by the other road's management. Everything was then cleared up satisfactorily and the extension work allowed to proceed.

General Attorney Huff was soon on the ground after the trouble started and the Altus road was given all that was coming to it.

Real Estate Transfers.

W. D. Thomas and the Patterson and Sanders Lumber Co., to E. E. Sanders, lot 3, block 236; \$1.00 and other considerations.

Chas. C. Huff to J. F. Jackson part of lot 3, block 235; \$100.

Fatal Accident at Dalhart.

Dalhart, Tex., Oct. 4.—James McDonald, aged eight years, was probably fatally injured Saturday morning when his leg was torn from his body by a wagon wheel. The lad was swinging from the rear of the wagon and his foot caught in the spokes before the wagon could be stopped. The leg was amputated at the knee.

Short State Items.

Five commissions for census supervisors for Texas, were signed by President Taft and sent to the lucky ones yesterday. They are, James R. Haines of Kaufman, third district; James W. Madden of Crockett, seventh district; John F. Worley of Dallas, fifth district; Eugene T. Long of Hallettsville, ninth district, and John B. Litter of Big Springs, sixteenth district.

The Panhandle Stockmen's Association met yesterday at Amarillo in executive session. Forty new members were admitted and more inspectors added to the list. The entire board of directors were present and it was said that the association was in splendid shape financially. Practically every community of importance in the Panhandle was represented, as well as Eastern New Mexico.

The wife of Judge Seth Sheppard died at Washington yesterday. Judge Sheppard went to Washington from Texas, and is Chief Justice of the District of Columbia Court of Appeals.

Kerr, county surveyor of Baylor County, was in the city today on his return home from a business trip to the Plains country. Mr. Alvin Bailey of Indianapolis, Ind., passed through the city today en route to Electra, to look after some real estate he owns in that city. Capt. Sam A. Bellah, a prominent citizen of Decatur, was in the city today on his return home from a business trip to Dundee and Seymour. Mr. A. E. Gulan from Allendale, was in the city today and reports his daughter, Miss Ida, who is dangerously ill with typhoid fever, some better. J. J. Perkins of Decatur, Tex., is in the city. Mr. Perkins has purchased a lot here and is erecting a residence, and will make this his permanent home. Mrs. Will Allen and children of Fort Worth, arrived in the city last night to join Mr. Allen in their new home, and are now permanently located at 313 Adams street. Mr. Francis Williams of Ft. Collins, Colo., a member of the American Institute of Architecture, is in the city on a trip through the south. He is helping Mr. von Derlippe for a few days.

BISHOP'S CALIFORNIA PRESERVES Soups, Catsups, Etc Not a few scattering items, but the line complete, the most comprehensive and best line in the WORLD. Packed in the orchards where grown the day they are picked. CALIFORNIA'S LUSCIOUS FRUITS We have also the Bishop hamper basket containing 15 varieties of the best of the Bishop Product This is the same basket sold by Bishop & Co. on the board walk at Atlantic City, and at the various Expositions throughout the Country for advertising purposes. VOLUME 3

WICHITA FALLS, TEXAS, FRIDAY, OCTOBER 8, 1909

NUMBER 127

FAMILY WIPED OUT IN NASHVILLE FIRE

FIVE MEET DEATH IN FLAMES. NEGROES MAY HAVE STARTED BLAZE.

ARRESTED ON SUSPICION

Authorities Believe Negroes Know Something of Fire's Origin. Will Investigate.

Nashville, Tenn., Oct. 8.—Fire here early today wiped out a whole family of five persons, two of whom were so badly burned that their features are scarcely recognizable.

Two negroes are under arrest on suspicion of knowing about the origin of the fire and a rigid investigation of the circumstances is under way by the authorities.

MOSES FISHMAN, suffocated.
DORA FISHMAN, his wife, burned to death.

ROSIE FISHMAN, suffocated.
RACHAEL MARKESON, suffocated.
ROSE FISHMAN, aged 50, burned to death.

The fire burned so rapidly that it was found impossible to rescue the family.

WILL DISCHARGE JURY.

No Verdict Yet Reached in McCue Case at Fort Worth.

Fort Worth, Tex., Oct. 8.—District Judge Tom Simmons has announced that he will discharge the jury in the McCue case at 3 o'clock this afternoon, if the members are unable to agree on a verdict then. This is McCue's third trial on a charge of murder of Earl Mabry. The jury has been out forty-eight hours.

NEARLY AN INCH.

A Steady Rain Falls All During the Morning.

The steady rain which fell during the morning amounted to half an inch, and at 1 o'clock this afternoon, Weather Observer Simmons announced that a total of seven-eighths of an inch had fallen since the rain started last night. There is little doubt, from the present outlook, that considerably over an inch will have fallen by tonight.

EARLY MORNING BLAZE IN COMPRESS OFFICES

At 3 o'clock this morning the office of the Wichita Compress company was completely destroyed by fire.

A high east wind was blowing at the time, and it was due to the quick work of the fire department that the fire was confined to the small office and not allowed to spread to the main buildings and platforms where considerable cotton was being held.

Fortunately no cotton was burned, and the loss by fire was confined to the office and its contents, amounting to about \$300, fully covered by insurance.

Real Estate Transfers.

J. P. Jackson and wife to S. M. Foster part of lot 3 in block 235; \$1250.
J. Wesley Young to D. P. and W. L. McCracken lot 9 in block 7, Burkburnett; \$60.

J. M. Belton and wife of Waurika, Okla., to D. P. McCracken, lot 4, block 25, Burkburnett; \$385.

Peter Gagner to Jack Renz of Washita county, Okla., lot 14, block 31; \$910.
Jacob Bamgartner to Jack Renz, lot 15, block 31; \$110.

COMMERCIAL CLUB AT HENRIETTA GETS BUSY

Henrietta, Tex., Oct. 8.—The Commercial Club of this city is now completely organized and has begun the good work with a vim, after a period of enforced inactivity. James T. Denton, until recently connected with the Commercial Secretaries' Association at Fort Worth, has been elected secretary, and has entered upon his duties, backed by a very strong membership. In conjunction with the Northwest Texas Association, considerable money will be spent in advertising this city.

PROMINENT MAN ARRESTED.

Bootlegging Cases Continue to Give Trouble at Frederick.

Frederick, Okla., Oct. 8.—Harry Meadows of Grandfield, who was tried here September 14th and convicted of selling intoxicating liquor, will have to now serve a term of 90 days in the county prison and pay a fine of \$206.65. The appeal limit having been passed. The final commitment has been issued and placed in the hands of Sheriff Frank Carter.

Deputy Sheriff Pickett arrested J. N. Long, a prominent and wealthy man of Chattanooga yesterday on the charge of selling whiskey. Forty-two plates of booze were seized, which the defendant says he had on hand to use in case of sickness only. The prisoner gave a bond of \$500 and will have a hearing later.

CONSUMPTION CHEATS GALLOWS.

Negro Under Death Sentence Dies of Tuberculosis.

Dallas, Tex., Oct. 8.—Walter West, one of the negroes under death sentence for the murder of Frank Walford, a white farmer near here in November, died of consumption this forenoon in the county jail here.

PRESIDENT ROUGHS IT IN CALIFORNIA WILDS

Wawona, Cal., Oct. 8.—President Taft left this afternoon for Glacier Point, at the top of one of the great granite cliffs that wall Granite Valley. When the president started out on his second day of roughing it, he had fifty miles of stage riding before him. Early tomorrow morning he will leave to spend the day traveling to points of interest. On Saturday night the president will again be at Entrance Park and on Sunday he will board a special train for Southern California.

OKLAHOMA WEATHER.

Newspaper Men Have Delightful Experience in Motor Car.

Two newspaper men who went up to Frederick in a motor car over the Northwestern yesterday afternoon were given a taste of Oklahoma weather that they will not soon forget. Leaving Frederick at 7:30 they soon encountered a severe dust storm, followed by a driving rain, and this, in turn, was succeeded by more rain and a light, but cutting sleet.

A friendly freight car on a siding, and a still more friendly depot with a stove inside, were used for shelter when the storm became too severe for progress, but after a short cessation the party would start again, only to encounter still worse weather and the motor-car was uncovered. The lights of Wichita never looked quite so good to a home-coming traveler as they did to those newspaper men at one o'clock this morning and the next time they are sent to Oklahoma on a special assignment the weather indications will play a large part in determining their itinerary.

Will Prohibition Kill the Town?

Editor Times:
I notice that the man who always takes a prominent part in local option elections is at work. He says prohibition will ruin business and kill the town and that property will depreciate in value. He is drawing on his imagination and trying to make anti votes.

We expect to prove by bankers, merchants, commercial clubs and business men in every part of Texas that they do a better business under prohibition than under saloons; that their towns are growing; that bank deposits have increased; that more people own their homes; that crime has decreased; that the tough element has gone; that those who were formerly strong antis are now pros, and that they do not want saloons again in their counties.

Wait, Mr. Voter, until you see the evidence, and don't let anybody fool you with the idea that prohibition will kill the town. Very truly,
127-ltc. W. J. BULLOCK.

CHARBON IN TEXAS.

Eight Head of Cattle Succumb Near Cuero.

Cuero, Tex., Oct. 8.—As a result of the prolonged drought in this section, charbon is spreading through the cattle herds and has proved fatal to eight invaluable cows owned by Ed Zengerle near here. The state veterinarian has been notified. No relief is expected until a rain.

PROPERTY OWNERS WILLING TO PAVE

UNOFFICIAL CANVAS ON OHIO AVENUE FINDS SENTIMENT UNANIMOUS.

QUESTION OF MATERIAL

Brick Has More Friends Than Bitulithic—May Wait on the Storm Sewer.

An informal and unofficial canvas by interested parties was made this week of the property owners on Ohio Avenue between 7th and 8th streets to sound the sentiment regarding immediate paving on that thoroughfare and out of nineteen on both sides of the street, not one was found who was opposed to paving. Six were willing to pave out to the carline, if the city would pay one-third of the cost. One wanted the paving postponed until storm sewers could be installed. Seven were willing to pave, bearing the full expense themselves, provided vitrified brick was the substance used. Three were equally as enthusiastic for paving, but wanted bitulithic and the other two said they would get in line if paving was decided upon.

The property owners on 8th street, between Ohio Avenue and the railroad tracks are in favor of paving at once, they being the Coleman-Lysaght-Blair Company, J. A. Kemp, Frank Kell and C. C. Knight. It is very possible that the paving work will be started there. The street car company, under the statutes, is required to pave the ground between its tracks and for one foot on each side. This will help materially in paving the street when the work is started.

STORM IN GULF.

Florida Coast Not in Danger—Shippers Warned.

New Orleans, La., Oct. 8.—The weather bureau today repeated its storm warnings of last night's tropical disturbances which is said to be still central over the Gulf just south of the western half of Cuba. Masters and pilots have been advised there is no danger along the Florida coast today.

Alleged Murderer Discharged.

Terry, Tex., Oct. 8.—R. E. Odom, charged with murdering Mrs. Georgia Brady on August 16th, at this place, was released from custody today and the charge dismissed on motion of the state, which admitted it was unable to make a case.

PENNANT WINNERS READY FOR FINISH

ADAMS AND MULLINS WILL BE OPPOSING PITCHERS IN TODAY'S CONTEST.

CROWD BREAKS RECORD

Believed to be Largest Concourse Ever Gathered at One Game.

Pittsburg, Pa., Oct. 8.—With Adams in the box for Pittsburg and Mullin for Detroit, what is expected to be the record-breaking baseball crowd the world has ever yet seen gathered at one contest, will witness this afternoon's game for the world's championship. Before the sun was fairly in the east the line to the ticket window was forming. Many brought both breakfast and dinner and many were supplied with literature to while away the eight hours they must wait before the game starts.

At 2:30 the ticket windows were opened and the enormous crowd began jamming its way into the park, where now all but the reserved sections and boxes are filled to the limit.

Manager Clark warmed up three pitchers and Hughie Jennings did the same, but it is believed that Adams will be in the box for the Pirates and Mullin for the Tigers.

Gibson will catch for Pittsburg and Schmidt for Detroit.

First Inning—Detroit 1, Pittsburg 0. Second Inning—Detroit 0, Pittsburg 0.

Third Inning—Detroit 0, Pittsburg 0. Fourth Inning—Detroit 0, Pittsburg 0.

Fifth Inning—Detroit 0, Pittsburg 2. Sixth Inning—Detroit 0, Pittsburg 1. Seventh Inning, Detroit 0, Pittsburg 0.

Eighth Inning—Detroit 0, Pittsburg 0.

Ninth Inning—Detroit 0, Pittsburg, 0.

Final score—Detroit 1, Pittsburg 4.

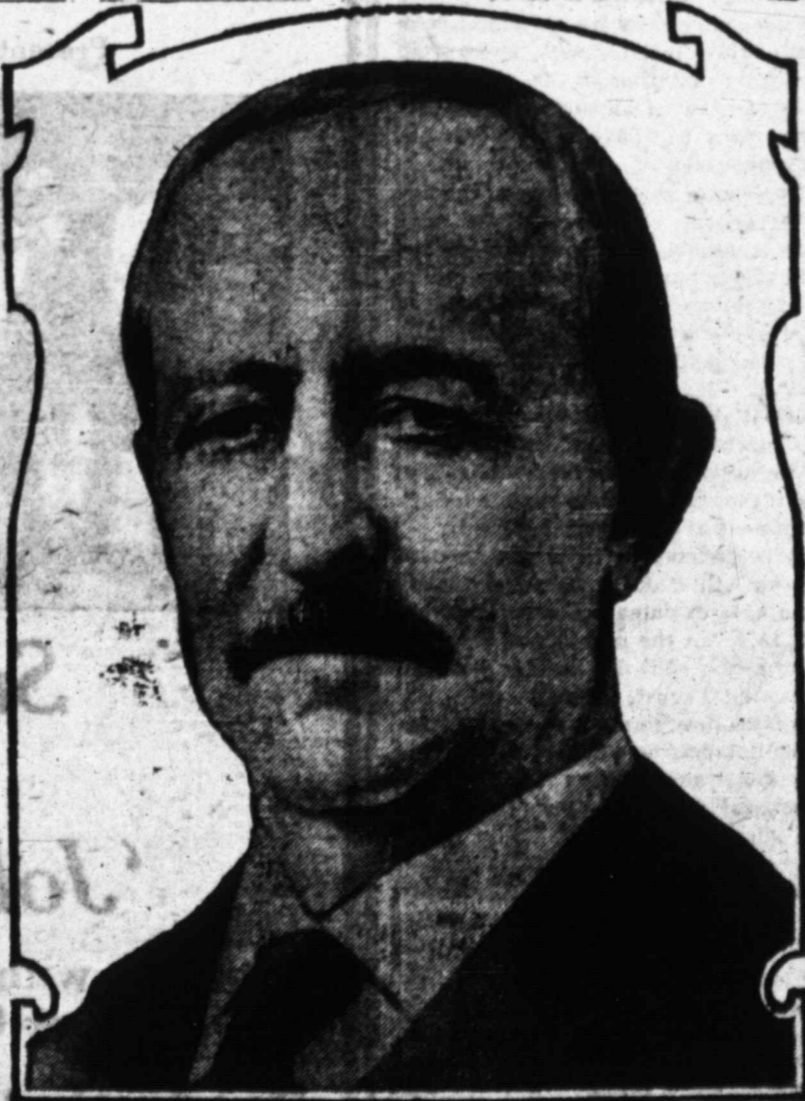

Hits—Pittsburg 15, Detroit 6.

Errors—Pittsburg 0, Detroit 3.

PROMINENT SWEDIE DEAD.

Gustaf Brobec Succumbs to Attack of Heart Failure.

Chicago, Ill., Oct. 8.—Gustaf Brobec, a widely known Swede publisher of the Svenska Nyheter, a newspaper, dropped dead here today of heart disease. He was fifty-one years of age. Brobec intended to leave tonight for a trip around the country.

GENERAL THOMAS H. HUBBARD, WHO WILL PASS ON PEARY'S POLAR RECORDS.

General Thomas H. Hubbard, president of the Arctic Club, met Robert E. Peary upon his return to the United States and advised him against making any further statements concerning Dr. Cook's claims until the latter had submitted his proofs to the University of Copenhagen. General Hubbard is a warm personal friend of Peary and does not wish to see him drawn into error. As soon as both explorers have submitted their records to some responsible body General Hubbard will call the Arctic club together, and every phase of the controversy over the discovery of the pole will be discussed.

DECATUR TO DALHART.

The Rain is General—Accompanied by Snow in Panhandle Points.

Beginning at Decatur and extending westward over Northwest Texas and the Panhandle, a substantial rain began falling last night, being felt as far west as Dalhart and Channing. It was also felt at many points in Southwest Oklahoma.

At Dalhart and Channing the rain was varied by a light snow, and it is accompanied by very pronounced falls in temperature at many places.

The rain is beneficial to wheat growers, as it enables them to break the ground for the fall work. Cotton will probably be damaged to some extent, but all other growing crops will be benefitted.

THREE MEET DEATH.

Engine Repairers Killed When Engine is Started.

Canal Dover, O., Oct. 8.—John Gerber, Wm. Lang and David Harry were crushed to death when repairing an engine at the blast furnace of the Pennsylvania Iron and Coal Company last night. The engine accidentally started and they were caught between the piston and cylinder head.

GOVERNMENT DOCUMENT TAKEN FROM ATTORNEY

Texas News Service Speaks.

Tulsa, Okla., Oct. 8.—A sensation was sprung here today when it became known that the office of Federal Attorney W. J. Gregg was entered last night and valuable documents stolen. The papers relate to the big suits the government is pressing in this state. Whether they concern the suit against Haskell and other prominent Oklahoma is not learned. The authorities are reticent.

BARTENDER CUT

Refused Drink to Drunken Bum and Was Cut With Knife.

Emil Grieser, bartender at the White Front Saloon, on 7th street, is suffering from a bad cut over his right eye and several cuts on his head, which were inflicted by a drunken bum at the White Front Saloon yesterday evening between six and seven o'clock.

Mr. Grieser says the bum entered the saloon at the time stated and showed evidence of being drunk, and asked him for a drink. He told the bum that he would not let him have the drink, because, in his opinion, the bum already had more than he should have. In giving him this answer the bum jerked out a knife and struck the bartender several times over the right eye, which came near putting it out, and once in the head.

Dr. Wade Walker was called to attend the injuries of the injured keeper. The bum made his escape and up to this morning had not been arrested.

IS LIVELY AT BURKBURNETT.

Many Evidences of Progress Are to be Observed There.

Burkburnett, Tex., Oct. 8.—Every one of the nine new store buildings under construction in this city have been rented already and it is understood that four more are contemplated to supply the demand.

Three corn shellers are at work and are having all they can handle. Corn receipts continue brisk and heavy.

Little opposition is being manifested to the issuance of \$15,000 school house bonds, upon which an election is to be held shortly and the bonds will be voted by a large majority.

FIRST SNOW IN TEXAS.

At Dalhart It Has Reached Depth of Four Inches.

Dalhart, Tex., Oct. 8.—The first snow in Texas this season is falling in this vicinity today, the earliest ever experienced in Dalhart. Flurries began to descend last night. Already the snow has reached a depth of four inches on a level and is still falling. It is general from Texline to Channing and will have a disastrous effect on late crops, curtailing the cotton crop.

FIRE IN KENTUCKY.

Business Section of Town of Burnside Destroyed.

Burnside, Ky., Oct. 8.—Fire early today destroyed the greater portion of the business section of this town, causing a loss estimated at one hundred thousand dollars.

ADVANCE GUARD OF DUCKS IN EVIDENCE

CHANGE OF WEATHER BRINGS THEM AND SEASON WILL OPEN HERE SHORTLY.

QUAIL ARE PLENTIFUL

Are to Be Seen in Large Numbers This Year—Doves Also Numerous. Hunter are Preparing.

The first few ducks of the season made their appearance this morning on streams near this city and if signs count for anything the next few days will find these birds here in sufficient numbers to satisfy the most ambitious of the local hunters. Weather indications point to a real duck-hunting weather and local sportsmen are prepared with alarm-clocks and other necessities for the season.

In little more than three weeks the quail season will open, on November first, and local hunters expect a good season here. Large numbers of the birds are already to be seen in this neighborhood and the birds are remarkably tame. At points up the Northwestern large coveys have been noticed recently. More doves are in evidence this year than usual and those who have been compelled to confine their hunting talents to quail will have the spice of variety when they go out this season.

Wichitans who wish to hunt in other parts of this state must, under the recently enacted law, provide themselves with a license, the same as a hunter from out of the state. This law does not apply to the adjoining counties and those who wish to cross over into Archer or Wilbarger counties in pursuit of birds do not need to be provided with this license.

COMMISSIONERS' COURT MEETS.

Session Held to Approve County Tax Rolls.

The commissioners' court is holding a special meeting this afternoon for the purpose of approving the tax rolls, which were recently completed by Assessor Bullock. Some other routine business will receive attention at this meeting, but there are no matters of importance to come up.

F. W. & D. OFFICIALS ON TOUR OF INSPECTION

A special train bearing Vice President and General Manager D. B. Keeler, Division Superintendent O. E. Maer and Train Master Flack of the Fort Worth and Denver railway arrived here at 9 o'clock this morning and after a short stop proceeded on its way to Fort Worth. The officials were on an inspection tour.

Comparative Taxable Values.

Statement of taxable values as taken from the county tax rolls for 1909:

Total value of county.....\$10,910,705

Total value Wichita Falls.....3,176,815

Total value county outside

Wichita Falls.....\$7,733,890

Total value of Wichita Falls on city tax rolls for this year.....\$3,662,460

County values of city for year.....3,176,815

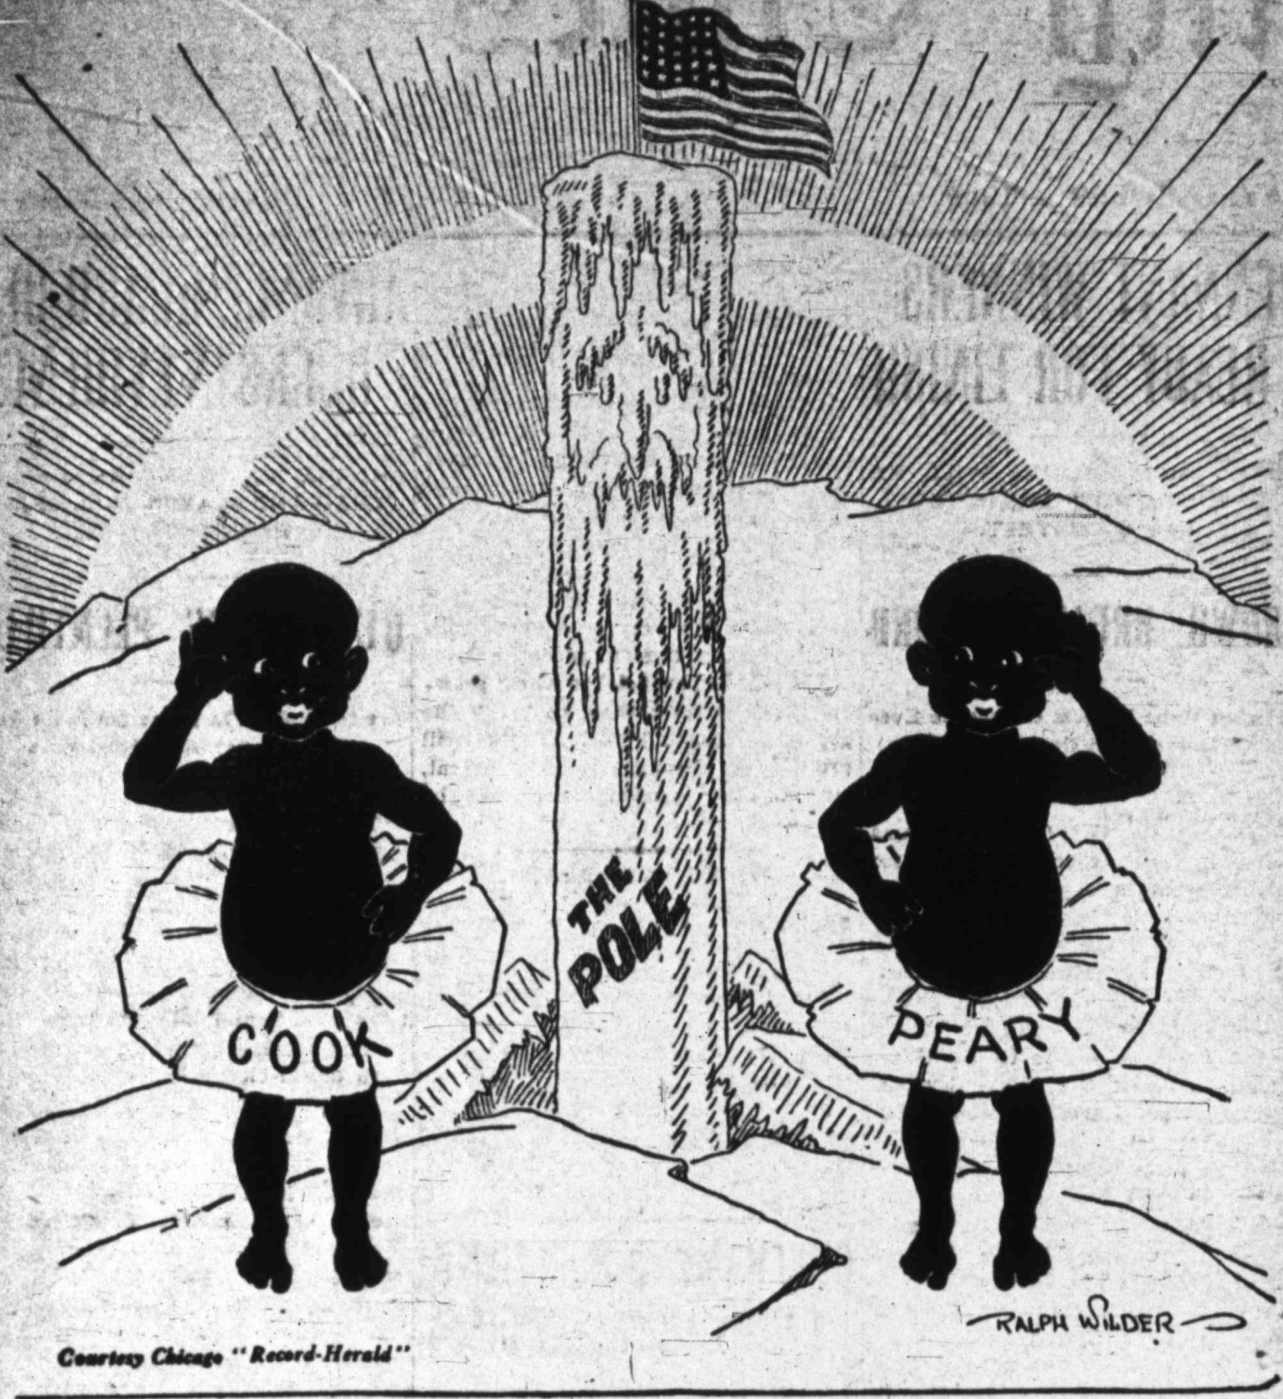

City values in excess of county values.....\$485,645

The above figures are furnished the Times by County Assessor W. J. Bullock, and they are substantially correct.

CORNERSTONE WILL BE LAID TUESDAY MORNING

The cornerstone of the new M. E. Church South, at the corner of 10th and Lamar, will be laid with appropriate exercises next Tuesday morning at 10 o'clock. Dr. H. A. Bowles of Ft. Worth, president of the Polytechnic University, will officiate and a suitable program for the ceremony is being prepared. It will be announced later. The new church will cost when completed, about thirty-five thousand dollars and will be one of the handsomest and most modern religious edifices in West Texas.

THREE-EIGHTHS OF AN INCH RAIN LAST NIGHT

Following the slight sprinkle, or 'a newspaper rain,' which fell yesterday afternoon, a real sure enough rain came last night, which has made life decidedly more worth living by thoroughly laying the dust.

Mr. Geo. Simmons, Uncle Sam's weather observer for this city, reports that last night's precipitation amounted to three-eighths of an inch, and today it is still cloudy with showers at intervals.

The rain was not heavy enough to do a great deal of damage to cotton.

MAKES HAIR GROW.

Mater-Walker Drug Company Has an Invigorator That Makes Hair Grow in Abundance or Money Back.

If your hair is thinning out gradually it won't be long before the bald spot appears.

The time to take care of the hair is when you have hair to take care of.

For thin falling hair the best remedy known to mankind is Parisian Sage. It is compounded on scientific principles and furnishes the hair root a nourishment that acts quickly and promptly and causes the hair to grow.

But remember this: It kills the dandruff germ, the pest that appropriates all the natural nourishment that should go to the hair root.

Parisian Sage is sold by Mater-Walker Drug Company under a positive guarantee to banish dandruff, stop falling hair and itching scalp in two weeks or money back.

It gives to women's hair a lustre and radiance that is most fascinating and causes it to grow abundantly.

Parisian sage is now sold in every first-class town in America. A large generous bottle costs 50 cents and the girl with Auburn hair is on every bottle.

Feed! Feed! Feed.

Phone 427 for coal and feed of all kinds. 122-tf MARICLE COAL CO.

CENSUS CLERICAL FORCE.

Civil Service Commission Wants Western People to Apply.

Washington, D. C., Oct. 8.—The United States Civil Service Commission announces that a very small proportion of the applications thus far filed for the examination to be held on October 23rd next, for positions in the census bureau, are from the residents of the more distant states.

As the census act provides for the appointments among the states and territories in accordance with the law of appointment, the commission calls attention to the fact that present indications are that these distant states will probably fall to receive their full share of the appointments, unless more residents of such states apply for the examination.

It is expected that about three thousand appointments will be made from the examination which is scheduled to be held on October 23rd, 1909, in all the states and territories. These appointments will be for terms of six months to two years, and will average about one year in length. The entrance salary will be \$600 per annum, and promotion to at least \$900 per annum will be reasonably paid for those who render satisfactory service.

Under the census law selections from the eligible register will be made in the order of rating and in accordance with the law of appointment, so that all persons will have an equal chance of appointment.

Applicants must be between the age of 18 and 50 years, except that persons honorably discharged from the military or naval service, by reason of disability resulting from wounds or sickness incurred in the line of duty, may be examined without regard of age, and except that boys who have reached the age of 16 years and have not reached the age of 18 years, will be permitted to take the examination, and if they pass, will be eligible for appointment as messenger boys only.

It is understood that the census bureau will make some appointments from this examination about January 1st, 1910, but the majority of such appointments will be made between April and August, 1910.

Application forms and further information may be obtained by addressing the United States Civil Service Commission, Washington, D. C., the Bureau of the Census, Washington, D. C., or the Secretary of the Board of United States Civil Service Examiners, at the following named places: Post-office, Boston, Mass.; Philadelphia, Pa.; Atlanta, Ga.; Cincinnati, O.; Chicago, Ill.; St. Paul, Minn.; Denver, Colo.; San Francisco, Cal.; Custom House, New York, New Orleans; Old Custom House, St. Louis, Mo.

FELT HATS.

Evolution of the Fluffy Fur into the Finished Product.

It is an interesting matter to follow stage by stage the evolution of a little pile of soft, fluffy rabbit fur into the finished hat, whether a light colored crush or a raven black hard-hat of the derby shape. The general idea about such a hat is that it is cut and made or molded out of a sheet of felt, so that amazement comes when one is shown bales and heaps of rabbit fur and is told that it is out of this that hats are made. Felt indeed is not so much a primary material, but felting is the process by which wool, fur or hair is matted together and formed into a close fabric. For hats rabbit fur is the material used. The first step in its treatment is the thorough cleansing of the close clipped fur in a machine, which winnows it of all dirt or foreign matter and leaves it in a soft, fluffy condition resembling the finest and lightest down.

Anything less resembling a hat it is impossible to imagine. But the marvelous ingenuity of the next process accomplishes an almost magical change. In the central box of a hopper-like machine a big copper cone revolves. From above the soft, fluffy fur is fed down in a shower, which clings like gray snow on the revolving cone, while jets of water and steam spray on the fur mat and plaster it into a complete covering. In a minute or two the cone is covered to the depth of one-eighth of an inch with this matted and saturated fur, which is now become felt. The machine is stopped, the cone is taken out, and the workman dexterously peels off the felt covering. Being built up on the cone, it is also cone shaped and looks like a gigantic sugar loaf bag. It is the embryo hat.

In this first state it is a soft, wet, felt cone, measuring 24 by 30 inches. Rolled up, it enters upon a series of processes and is shrunk together so that it measures 10½ by 14 inches.

The hat, now a brown-gray felt cone, like a clown's cap, is smoothed by being placed against rapidly revolving sandpaper. It is stiffened by being dipped in shellac, dyed black by immersion in a vat and then passes on to be shaped. Warm water gives the felt pliability again, and the man pulling out or "easing" the apex of the cone draws and smooths it down to a wooden block of the exact shape and size the hat is required to be. As it dries it takes its destined shape and firmness as regards the crown, while the brim is still flat and untrimmed.

The body of the hat is now practically finished. Then comes the shaping of the brim, which is worked down and bent over a wooden frame of the exact curl and line of the ordained design. Each size and style of hat has its own frame, as it has also its iron mold, wood block, etc., and every alteration in a season's styles and shapes calls for an entirely new set of molds. —Brooklyn Eagle.

Highest Endurable Temperature.

It is difficult to say what the highest temperature is that a human being can live in. In the kitchens of some of the great hotels and in the stokeholds of some steamships the temperature gets to 140 or 145 degrees. Cooks and their helpers and stokers have to endure that temperature for hours at a time, and they seem to get along pretty well. The hottest place perhaps where human beings work is in the vulcanizing factories, where the temperature is 212, the boiling point of water. There are a few who can stand this heat for a little while at a time, but man can endure no more. —New York American.

Vesuvius.

Vesuvius cut but a small figure in history till the latter half of the first century of the Christian era. In 79 B. C. its crater served as a camp of refuge to a band of gladiators. In 63 A. D. the serenity was broken by a violent grumbling that manifested itself in a severe earthquake that shook up the surrounding region. For sixteen years the subterranean rumblings continued at intervals, and in the year 70 A. D. came the great catastrophe in which Herculaneum and Pompeii were overwhelmed. In 1631 there was another terrible explosion, and since that time Vesuvius has seldom been at rest for many years together. —Exchange.

A Culinary Tragedy.

"What's the matter, dear?" asked Mr. Justwood as he came into the house and found his wife crying as if her heart would break.
"I am so discouraged," she sobbed.
"What has bothered my little wife?"
"I worked all the afternoon making custards, because I knew you were so fond of them, and—"
"Here she began weeping hysterically again.
"And what, darling?"
"And they turned out to be sponge cakes."

The Cleverest.

Willy—You see, it was this way. They were all three so dead in love with her and all so eligible that to settle the matter she agreed to marry the one who should guess the nearest to her age. Arthur—And did she? Willy—I don't know. I know that she married the one who guessed the lowest.

Crushed.

"Really, Louise, this bill is outrageous. You must not try to dress like the millionaires' wives."
"My dear Ned, control yourself. I am only trying to appear as well dressed as the shopgirls."

Absence of occupation is not real. A mind quite vacant is a mind distressed. —Cowper.

Laugh at the Doctor

Wichita Falls, Texas, October 8, 1909.

DISSIPATING SWOLLEN FORTUNES.

In his Denver speech President Taft made recommendations for state legislation designed to divide and diffuse swollen fortunes without confiscation. His leading suggestion was to compel a division of the estate among the children instead of massing the bulk of it in the hands of one child, as in the Gould and Cornelius Vanderbilt cases.

There is one obstacle, however, which no law can ever surmount. In past days, the heir or heirs were charged with the management of the wealth which came to them by inheritance, and, since good business talent is seldom inherited, such fortunes were soon dissipated. Now wealth consists in corporation shares, and the young incompetent, if he has income enough to pay for his larks, has at his service the shrewdest, most capable business brains of the country. His fortune will swell in spite of him.

The law cannot mend this mischief. If it is a mischief. Divide a swollen fortune of \$100,000,000 among five children, shareholders in a dozen sound corporations, and you have five swollen fortunes, each growing greater each day under the management of the corporation chiefs.

The corporation is the great conservator of wealth in these days. There are wreckers, but their number is declining and we may expect a period of sane corporation policy which will assure safety to all shareholders alike.—Post-Dispatch.

Some of the counties and cities of Texas have voted bonds for the improvement of roads and for other public works, which are needed and will give work to the unemployed during the dull times that are looked for just ahead as the result of poor crops. If Van Zandt county ever intends to spend any large amount of money on public roads we could not find a better time to make the investment. Money spent in needed permanent improvements is well spent and next year several thousand dollars turned loose with the wage earners of the county would help wonderfully to tide over what might be a pretty bad year or account of short crops this year.—Wills Point Chronicle.

While condition are not so bad in Wichita and adjoining counties as they are in other parts of the state, the building of good roads is always in order. One hundred thousand dollars investment in good roads in Wichita County will pay for the experiment in less than three years' time in increased values, aside from the convenience afforded by good roads. Wichita County's bonded debt is comparatively small and could well afford to increase it considerably for the purpose above mentioned.

We doubt very seriously if the man who ran a newspaper to suit everybody died and went to heaven. He went to heaven, all right, but it's hardly conceivable that a man like that could die.

Governor Campbell has consented after much importation, to meet President Taft when he visits this state. Now let the sun resume the even tenor of its way.

GUIDE FOR GOOD LIVING.

Remarkable Spiritual Insight of Cornell Student, Now Dead

A recent number of Cornell University magazine chronicled the death of a young Cornell graduate, who was killed in the course of his duty as an electrical engineer for the Westinghouse Company at Hanley, Canada, last October. His name was Thomas Van Alstyne, and it seems that he had been, while at college, a rower on the 'varsity crew and a participant in other student activities. Among his papers was found a rule of conduct that he had drawn up entitled 'My Guide,' which is well worth consideration by old and young alike:

'MY GUIDE.'

- 'To respect my country, my profession and myself. To be honest and fair with my fellowmen, as I expect them to be honest and square with me. To be a loyal citizen of the United States of America. To speak of it with praise, and act always as a trustworthy custodian of its good name. To be a man whose name carries weight with it wherever it goes.
- 'To base my expectations of reward on a solid foundation of service rendered. To be willing to pay the price of success in honest effort. To look upon my work as an opportunity to be seized with joy and made the most of, and not as a painful drudgery to be reluctantly endured.
- 'To remember that success lies within myself, in my own brain, my own ambition, my own courage and determination. To expect difficulties and force my way through them. To turn hard experience into capital for future struggles.
- 'To believe in my proposition, heart and soul. To carry an air of optimism in the presence of those I meet. To dispell ill-temper with cheerfulness; kill doubts with a strong conviction, and reduce active friction with an agreeable personality.
- 'To make a study of my business. To know my profession in every detail. To mix brains with my efforts and use system and method in my work. To find time to do every needful thing by never letting time find me doing nothing. To hoard days as a miser hoards dollars. To make every hour bring me dividends, increased knowledge, or healthful recreation.
- 'To keep my future unencumbered with debts; to save as well as earn. To cut out expensive amusements until I can afford them. To steer clear of dissipation, and guard my health of body and peace of mind as a most precious stock in trade.
- 'Finally, to take a good trip on the joys of life; to play the game like a man. To fight against nothing so hard as my own weakness, and endeavor to grow in strength a gentleman, a Christian.
- 'So I may be courteous to men, faithful to friends, true to God, a fragrance in the path I tread.'

We have seen the question propounded somewhere, 'What is a Christian?' From the McKinney Courier-Gazette we learn the answer: 'A man who slips on a banana peeling then arises and without waste of words or ruffled temper, removes the peeling so that others may not slip on it, is a Christian.'—Orange Leader.

During the year ending September 1st, 1909, the attorney-general approved municipal, county and district bond issues for a total of nearly ten million dollars. Good public equipment costs money and the people of Texas are willing to pay.

John R. Walsh of Chicago has been sentenced to a penitentiary sentence for getting fresh with the people's money. It really seems a shame to make a gentleman wear stripes, don't it?

The Johnson-Jeffries fight may take place in Texas, by an evasion of the law. Why not? We might as well have a first-class fight, since the results can't be any worse than they were at the last one in Austin.

The government is to establish a quarantine station at Galveston to turn the tide of immigration this way, so that the old country's farmers can find the best in America right at hand when they get here.

San Antonio refuses to comply with the president's request for corned beef and cabbage and will serve all new-fangled dishes. It's up to Archie Butt to tell the president which fork to use.

The officials of the Fort Worth and Denver may be pleased to know that they have our full permission to build a new depot here, to keep the company with the Northwestern's new structure.

As between Detroit and Pittsburg, the former town will carry Texas by five hundred thousand majority. Count on this state to be on the right side of every public question.

Between Tammany and Hearst, New Yorkers are hard put to choose a mayor, and, speaking of New York mayors—did you ever hear of Seth Low?

The Swine or the Flower?
Ah me! I saw a huge and loathsome sty, wherein a drove of wallowing swine were herded,
Whose banquet shocked the nostril and the eye;
Then spoke a voice, "Behold the source of lordly!"
I fled, and saw a field that seemed at first One glistening mass of roses pure and white,
With dewy buds 'mid dark green foliage sacred;
And, as I lingered o'er the lovely sight, The summer breeze, that cooled that Southern scene,
Whispered, "Behold the source of COTTOLINI!"

AMUSEMENTS

The Black Patti Musical Comedy Company will present "Black Patti" (Sissieretta Jones) and "Jolly" John Larkins in "A Trip to Africa" at the Wichita Theatre next Monday night, on the occasion of their second annual visit to Wichita Falls.
 An advance notice says:
 The "Black Patti" show never does anything by halves and is always original. The manager, R. Voelckle, has just returned from a vacation in Europe and has obtained a number of ideas for this season. Not satisfied with getting the pick of the colored theatrical profession, which includes Sissieretta Jones and "Jolly" John Larkins, he has gone to the expense of having "A Trip to Africa" rehabilitated with new scenery and costumes and the chorus with the company this season has been trained by a well-known New York professor and a special feature will be the "jungle drill," by the "Zamboos Tribe." Not only is this one of the great attractions, but the "Cat's Jubilee," in which a number of the chorus men take part, is comical. The Hot Springs Press aid:
 "The initial premier performance of the fourteenth season of R. Voelckle's Black Patti Musical Comedy Company in the musical play, 'A Trip to Africa,' was presented at the Auditorium Sept. 25th before a large and appreciative audience. Sissieretta

Jones, the original Black Patti, was in excellent voice and scored a terrific personal success in the new role of Lucinda Lee. Jolly John Larkins as Raz Jenkins, is probably the funniest negro comedian ever seen on our local stage, having to respond to innumerable encores. Others worthy of special mention are Sarah Green, Jerry Mills, August Hall, Anthony Byrd, Will Cook and a chorus of twenty-five Creole damsels. The costumes were dazzling and the entire production artistic and sumptuously mounted. The performance was unquestionably the best that Black Patti has ever brought to the Vapor City.
 The advance seat sale opens tomorrow morning at 8:30, at the office of Bean & Huey. The gallery only is reserved for colored people.

SPITTING NUISANCE.
 Hawking and Spitting is Caused by Catarrh Germs.
 If the local authorities want to stop the disgusting habit of spitting mucus on the sidewalks, they had better instruct the people as to the best method of killing the catarrh germs and curing catarrh.
 You can easily tell by reading the symptoms below whether you have catarrh or not:
 Offensive breath, frequent sneezing, discharge from nose, stoppage of the nose, huskiness of the voice, tickling in throat, droppings in throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucus, difficulty in breathing, loss of vital force.
 Mater-Walker Drug Company have a sensible remedy (money back if it fails) for catarrh, called Hyomel, which is vaporized air so antiseptic that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life and cures catarrh.
 The price, including large rubber inhaler, is only \$1.00 and money back if it doesn't cure. Extra bottles, 50 cents.
 "I had tried almost every catarrh cure on the market without benefit. Have been using Hyomel for one week and feel like a new man already."—Wm. V. Goode, Newark, Ohio, June 21, 1905.
 Haddy photos are the best. 94-tic

CARTER & YOUNG, Proprietors

Two Ways of Looking At It.

After buying that bill of lumber you are going to need, and using it, you may be either glad or mad. It depends on whether you buy good, dry lumber from us, or carelessly accept lumber that's only half seasoned, from somebody who's not so particular about the quality of their stock as we are.
 There are no two ways about it: You can buy any kind of lumber or building material to better advantage right here than you can anywhere else in this part of the country. Let us make you an estimate on what you want.

Big Values In New Dress Goods

Everything in our dress goods department is now ready for what we believe is going to be the biggest winter's business we ever did.

We have two reasons for thinking so:

- 1st. Money is easy and people are already buying very freely.
 - 2nd. We never before had such wonderful values to offer as we have this year.
- Our prices are not much, if any, lower than other stores, but the value we give for those prices will surprise you—we couldn't do it if it were not for our exceptional buying facilities.
- Our buyer is a wizard at dry goods buying and has gathered together some of the biggest values that ever came to the city.
- Our Poplins and Sollettes in all colors, at 50c to 35c per yard, are just two hints of the immense lines we can and want to show you.

THE MAN IN THE STAGE

A Tragedy of the Olden Days in New York City.

A good many years ago, long before skyscrapers and rapid transit were thought of and New York was just a big growing town, they used to tell a story that was ghastly enough to curdle the blood of the most skeptical and to keep people of nervous temperament awake at nights.

The tale went that of a summer night a husband and wife, returning home from the theater, entered a Fifth avenue stage far downtown and for many blocks were the only occupants. A little above Fourteenth street, however, the stage came to an abrupt stop, the door was opened, and three young men entered. One of the three had evidently been drinking heavily, for his companions were obliged to help him to his seat. The door was closed behind them, and the stage continued its journey northward.

About ten blocks farther on one of the young men rose and, bidding his friends good night, stopped the stage and alighted. A few minutes later the second of the three said, "Well, good night, Dick," pulled the strap, stepped to the sidewalk and walked off through one of the side streets. There remained in the stage only the husband and wife and the young man who was obviously under the influence of liquor and who sat in a crouching attitude in a corner of the stage under the dim flickering lamp.

After a time the husband noticed that the young man's head seemed to be drooping as if in sleep, and, fearing that he might be borne beyond his destination, he rose, tapped him on the shoulder and called attention to the number of the street they had just passed. There was no response, and the husband repeated his words, leaning over as he did so. Then he suddenly straightened up, turned to his wife and said quickly, "We will get out here."

She began to protest, but he simply repeated the words, pulled the strap and helped her to alight. As they stood under the corner lamppost she turned questioning and asked him why he insisted on their getting out of the bus so far below their destination.

"Because," he replied, "that young man's throat was cut from ear to ear."

HORSESHOE LUCK.

An Old Myth That Goes Back to the Greeks and Their Sea God.

Of all the emblems for good fortune the horseshoe stands among the first. Everybody knows it is unlucky to pass a horseshoe on the road without picking it up. It is a luck emblem of the greatest power. We are indebted for this statement to old tales centuries in age that have descended from father to son, from mother to daughter, through the years.

The old myths repay research. The luck of the horseshoe has a most respectable beginning. It is traced to the religion of the old Greeks and their sea god, Poseidon, who was identical with the Roman sea god Neptune.

To Poseidon horses were sacred, and to him they were sacrificed. Poseidon was believed to have created the first horse when he struck the ground with his trident and a horse sprang from the hole, which afterward became a spring. The sea god was the lord of springs. To him all springs were ascribed. In the shape of a horse he sometimes wandered by the shores of his ocean domain, and where he struck his hoofs deep there the waters gushed out and permanent springs were found. This is the reason why horseshoes are reckoned lucky. Going to the root of the matter, one sees a nature myth as the root principle. From the sea all rain comes, and to the sea all springs owe primal origin, and to the rain and the fresh waters, sea derived, we owe all fertility on earth.

The old Greeks therefore worshiped Poseidon as the fortune giver through his springs. They gave him horses, his precious beasts, and they adored the footprints of horses when they found them, for they might be the very footprints of the god himself.

When the horses came to be shod the tradition of the luck emblem from the footprint itself to the shoe mark, practically the same thing, was easy. Pegasus, the winged horse, from whose hoofs the water springs gushed copiously when he came to earth, has been credited with the origin of the horseshoe luck.

The horseshoe was a specific against earthquakes. It would keep a house safe from harm by earth shaking. Again one perceives the sea myth—Poseidon was the shaker of the earth.—Team Owners' Gazette.

Obedying the Autocrat.
 That fine old New Englander, Dr. Oliver Wendell Holmes, laid down the rule that the law of the road entitles a man to two looks at every pretty woman. This fair and proper limit provokes no complaint in Kansas City, and it is not commonly exceeded, though we would have to go far afield to find a locality with more women worth looking at than are seen on the streets of Kansas City every day.—Kansas City Times.

Had All the Others.
 "Were you ever in love?" asked the sweet young thing.
 "No," replied the bachelor, "but you can't mention any other fashionable disease that I haven't had."—Detroit Free Press.

Wanted Harmony.
 Soda Fountain Attendant—What favor, please? Silly Young Thing—Have you anything in pink to match this gown?—Harper's Weekly.

CONSTIPATION.

Its Cause and How to Cure it.

Eat too much. Stomach feels bloated. All out of sorts. Don't feel like work to-day. Guess "ve another case of biliousness. "Take anything?"

"Yes; some pills, but no results; suppose I'm getting ironclad. Sometimes I double the dose, then they physic me so hard I'm too weak to work. Think I'll have to try something new."

"Ever try Prickly Ash Bitters?"

"No; I've heard a good deal about it, but never tried it."

"Well, you'll be pleased with the results."

The purgative action of Prickly Ash Bitters not only removes hard impactions, gas and impurities, but it strengthens the muscular action of the bowels which causes them to move regularly.

Prickly Ash Bitters is a bowel tonic and regulator in the truest sense. It promotes daily evacuations, establishes healthy movements and is the best known remedy for disordered digestion, flatulence and a constipated habit.

Mabledean Items.

Mabledean, Tex., Oct. 7.—Miss Leola Sherrill commenced her school at Kemp last Monday. There were not many present on account of cotton picking.

Rev. R. E. Farley commenced the protracted meeting at Dean Tuesday night. There was a large crowd present.

Mr. and Mrs. Sherrill and Miss Leola, from Wichita Falls, were out to Mrs. Clark's last Sunday.

Rev. Finley of Byers will preach at Dean, next Sunday morning and evening.

A large number of people from Mabledean attended the lecture at the opera house in Wichita Falls last Sunday.

Mr. Charlie Crowell and Miss Giddings of Wichita Falls, attended the revival meeting at this place Tuesday night.

LONDON APARTMENTS

Renting a Furnished Flat in the English Metropolis.

THE TRICKS OF THE AGENT.

At First Everything is Pleasant, but After the Place is Taken the Woes of the Tenant Begin With the Advent of the Inventory Man.

To the uninitiated American the rent of a furnished flat in London seems a very simple and remarkably inexpensive matter. Every one is extremely polite, and your path is made easy. But so soon as you have closed the door of your new quarters than you are beset by the boggy of "extras."

While you are taking a contented glance at the new domicile, congratulating yourself on the bargain and thinking how much more a similar place would cost you in New York. Your musings are interrupted by the arrival of the man with the inventory. His business is to make an inventory of every blessed thing your flat contains, from a four post bed to a kitchen spoon.

At first you are vastly amused over the listing of such apparently insignificant items as "a lacustral Walton stove," the number of tiles in the fireplace, the bolts on the windows, the locks on the doors, a description of the handles on the dressing chest and the number of screws therein, but when you have been dragged through every room, going over these to us-absurd details, you plunge from rage to despair and finally collapse when your tormentor at last departs. For this entertainment you have paid from half a guinea (about \$2.00) upward, according to the rent of your flat.

But the real power of the inventory is only felt when you take your departure. You may be morally certain that the only damage you have done has been to break one or two teacups, for which you are quite prepared to pay an extortionate sum without a murmur. You may be sure of this, but presently you will receive a bill, all neatly written out and covering several pages of foolscap and entitled "Disapidations."

You will find that in every room the walls have been "chipped," the enamel on the bathtub "slightly marred," a monogram on a napkin ring "scratched," several saucers "damaged," a knife handle "bent," a number of plates "cracked," and so on. I am quoting from a list of "disapidations" presented to friends of mine who had occupied a flat for two months, during which time, after strenuous cleaning efforts, they left the premises in much better condition than when they went in. The bill amounted to £1 15s. 0d., roughly about \$9.68.

Here there is no such fact recognized as ordinary wear and tear on furniture.

For the lease, which is here called "agreement," you have to pay from 10 shillings up to 3 guineas and more, according to rent. Then the government stamp affixed thereto, without which the document is not legal, costs you from half a crown (25 cents) to a guinea or more, again according to rent.

You may have taken your flat by "the month," but when your agreement is sent you find out it is for every four weeks! You will probably phone the agent calling his attention to the error, and he will inform you it is correct that way.

In renting an unfurnished flat, the shortest term for which is three years, you discover that the electric light fixtures are not included in the rental. Protest unavailing, you buy them yourself and pay for their installation. You must rent also your own gas cooking stove. You fancy the fenders for the fireplaces must have been overlooked, but not so; you must buy them yourself! As you have been so accustomed to a continuous supply of hot water, it never occurred to you to inquire into the subject. You find you can obtain it only by keeping a continuous fire in your kitchen range.

As the penetrating, clammy gray horror of an English winter draws on you begin to appreciate what it means to be minus steam heat. Your only defense are the coal fires, romantic in story, but totally inadequate to defy this marrow reaching, damp cold of London. Bathroom and halls remain at arctic temperature, for the grate fires do not radiate beyond a few feet, so you may sit close and burn or retire to a corner and freeze.

After having learned through painful experience the futility of struggle against English ways and methods it is amusing to watch the explosive American, who in hotel office, at railway station and on steamships holds forth as to the various things he will not submit to. He is usually listened to with a certain exasperating deference at which the British underling is a past master. But nothing is changed, and he has to submit, and the sooner the lesson is learned the more comfortable he will be.

The impenetrable stolidity of the average Briton is not to be disturbed, and the longer one remains in this country the more definitely one learns that the English people have a pretty substantial idea of commercialism and that you are paying for the lesson.—London Cor. New York American.

One Wish Unfulfilled. Wife—You promised that if I would marry you my every wish should be gratified. Husband—Well, isn't it? Wife—No; I wish I hadn't married you.—Illustrated Bits.

Great results usually arise from great dangers.—Herodotus.

"Nature's Gift from the Sunny South" Cottolene

Shortens your food—Lengthens your life

The source and making of Cottolene insure its purity. From the white, tufty tops of The Sunny Southland's cotton the seed is removed, the oil extracted, refined, and made neutral in taste and odor. **From Cotton-field to Kitchen—** human hands never touch the oil from which Cottolene is made.

Compare the source of Cottolene with the source of lard, and draw your own conclusions as to the comparative cleanliness, purity, and healthfulness of the two products.

Made only by THE N. K. FAIRBANK COMPANY, New Orleans, Atlanta, New York.

WHY?

Why can some men mingle with ease in every day life and have poise that elevates them far above the common place? How do you account for this individuality? 'Tis easily explained.

Their first appearance singles them out from the rest because of the correctness and neatness of their attire. You gain that advantage by ordering your new Fall suit through

Strauss Brothers' National Tailoring Service of Chicago

whose exclusive agency is ours. Today is the day to decide. You will enjoy the experience of making your selection from the superb collection of new Fall and Winter fabrics we are now displaying. Prices are most tempting. Drop in—*you'll be under no obligation to order.*

CRUSTY OLD BACHELOR

is Uncle Sam—Needs the Ladies to Sweeten Him.

Spokane, Wash., Oct. 7.—"Uncle Sam, crusty old bachelor that he is, will never be able to settle any of the important questions until he has a helpmate; or, in other words, until the country has its women marching to the ballot box to help govern the country."

This was one of the sizzlers handed out by J. M. Glass of Pasadena, Cal., who opened the fall and winter course at the Young Men's Christian Association of Spokane, with an address on "The World Growing Better." Here is another gem that met a kindly reception at the hands of a large audience:

"With sap-headed politicians and mutton-headed lawyers, the United States has failed to settle a single important question during the last 40 years. The American constituency has been half drunk, and not until we have a sober, moral people will anything worthy be accomplished."

Mr. Glass lambasted Uncle Sam unmercifully in the second round, declaring that his funny chidwhiskers, ill-fitting garments, seedy hair and don't care-a-darn expression made him the personification of bachelorhood, adding:

"Did you ever see a confirmed bachelor sew on a button or patch up a rip? It is a pitiful sight. Every time I see it I am forced to remark, 'that which a bachelor seweth, that also shall he rip.'"

The speaker then rained sledgehammer blows on the "fashionable cafes," declaring they are ruining more American boys and girls than all the other evils, and said, in closing:

"The progress made by women in the last half century is an evidence of the progress of the world, and when they have given a hand in really settling the important question the country will see a marvelous awakening. Men are wont to doubt women's ability to handle national affairs; men doubt women for political purposes, but if you can't trust your mothers, wives and sweethearts, whom can you trust? 'Tariff, finance and immigration are the three questions which the half-drunk nation has battled without result. In fact, these matters are in worse condition than ever. Wipe out the liquor traffic and you will be able to consider the problems of the country with sober brains. The fashionable cafes trace their origin directly to the liquor traffic, and that is one reason why I am fighting the liquor traffic.'"

We are in the market for second-hand furniture and stoves. It will pay you to see us before selling. McCONNELL BROS. 122-101-p Phone 659.

Marriage License. A. G. Hand and Mrs. Mary G. Brown, both of this city.

Public Sale. On Thursday, October 28th, I will have a sale on my farm 1 1/2 miles north west of Wichita Falls. All my farm implements, consisting of every farm implement and every kind of a tool needed on a farm, from a fine gang plow to a garden wheel hoe; also work mules, work horses brood mares, and a lot of young mules and colts, and the best Jersey cow in the country; also household and kitchen furniture; a lot of barbed wire, etc. Terms:—\$10 and under, cash; over \$10, six months with good note bearing 8 per cent interest. Sale begins at 8:30. R. H. SUTER.

THE ONE PRICE STORE IS THE

STORE OF TODAY

Did you ever think of it that the store that has several prices can't deal fair with the trade, and the two and three price store are fastly getting to be a thing of the past, and you never know when you are paying the right price for your goods, and why is it that the store that has several prices tells every one that they are doing better by them than any one else. On the other hand, why is it that your Dealer is not as good as your neighbors?

Why is it the two price store takes a \$20.00 suit and mark it \$25.00 and sell it for anything they can get?—

\$25.00, \$22.50 or \$20.00

How do you feel when you go to town one afternoon and pay \$30.00 or \$35.00 for a suit and the next afternoon your neighbor buys one of the same suits for \$27.50?

Did it ever occur to you why is it that all the best stores have

One Price, Strictly?

In the one price store you don't have to worry about whether you are paying the right price or not.

The good trade appreciates the one price store. That's why we are one price.

We have lost several sales because we didn't cut 50c or a \$1.00, but we must hold to one price to the nickle.

Remember, we are absolutely one price and we always treat you right. Your money back when not satisfactory.

Our Reason is Not Solely Selfish

IT IS NOT solely because we are agents of Stein-Bloch Smart Clothes in this town that we want you to wear them. This of course, enters pretty largely into the question, but it is not all. We want you also to feel right and look right and to be satisfied.

¶ We have a large looking glass in our store in which you can see the front, the side and back of yourself, all at once. If you will try on a suit of clothes with the Stein-Bloch label in them, and look at yourself in this glass you will see why we are so anxious to have you wear these clothes

DR. FRANK FANNING WILL CLOSE HIS OFFICE

In Wichita Falls on Oct. 16

Dr. Fanning came to Wichita Falls to remain two weeks, but owing to the number of people calling upon him and his time taken up from 7 a. m. until some time late at night, he was compelled to extend his stay two weeks longer. The doctor has been kept busy, not only by local people, but they come from other counties; some one to two hundred miles, drawn here by the story of his wonderful healing.

Dr. Fanning regrets not being able to again extend his stay, but owing to engagements in San Antonio, will be compelled to close on Oct. 16th.

For first-class and up-to-date dress making, see Miss Bryan, with the Grand Leader Millinery, in the Vreeland building, on 8th street. 123-6tc

The ladies of the Christian church will have a market at the Palace Drug Store Saturday afternoon, Oct. 9, 1909. 115-12tc

Northwestern Compress Co.

Concentrators and Compressors of Cotton and COMMISSION MERCHANTS.

Wichita Falls, Texas

Neil P. Anderson, President

CORRESPONDENCE SOLICITED

Buy and sell cotton on our own account, and for account of our customers. Receive, weigh, inspect, sample and deliver from seller to buyer, and guarantee satisfaction to both parties as to honest and correct weights and class. Advance money, and finance when desired on Bills Lading for cotton F. O. B., any point tributary to these plants consigned to them. Pay inbound freight bills and collect refund freights on all cotton so consigned. Customers desiring to hold cotton for a period not exceeding thirty days and held on our wharves subject to our wharf terms, may draw an approximate value for same.

Northwestern Compress Company

PRESCRIPTIONS

We do not know how any Drug Store could be better equipped to do high grade prescription work. We have every needful appliance, we have a superb stock of drugs, and all prescriptions are filled by graduate pharmacist.

Experience is valuable in compounding. College training is also valuable, here you get both.

We have practically everything that Physicians prescribe.

We get everything new, as soon as there is any demand for it.

We employ special methods in compounding that must prevent all errors. We give you perfect security in these matters and the cost of our service is just as fair as the quality of it is exceptional.

Let us call for your prescriptions and deliver the accurately compounded medicines
