## TRIES TO SHUFFLE OFF MORTAL COIL

**YOUNG TRAVELING SALESWOMAN DRINKS CARBOLIC ACID IN A LOCAL HOTEL.**

## WILL PROBABLY SURVIVE

Took But a Small Amount of the Poison and Medical Aid Was Promptly Summoned.

Miss Marie Staples, a young traveling saleswoman from Altus, Oklahoma, took carbolic acid in her room at a local hotel this morning, it is believed with suicidal intent. She drank only a small quantity of the fluid, and it is not believed that she will die from the effects of it.

The young woman is about twenty-two years of age and claims to be the representative of an overall factory. She came here several days ago from Vernon, Texas. It is not known what relatives she has.

The poison was obtained at a local drug store by the young woman, who retired to her room in the hotel to drink it. She drank only a few drops and then, becoming frightened at what she had done, she called one of the chamber maids and told her what had happened. The chamber maid at once notified the hotel authorities and medical aid was quickly summoned. Dr. Yantis responded and gave the woman medical attention.

Her mouth and lips were badly burned by the acid and her sufferings were rather severe, but there is little doubt that she will recover from the effects of the poison. Had she swallowed the entire contents of the bottle, death would almost certainly have ensued and the small dose would doubtless have brought fatal results had medical aid not been summoned so promptly. The girl had no explanation to offer for her deed, but did not want to die, apparently, after she realized what she had done.

It is believed that financial difficulties led the young woman to take the step she did, but this is not known. The affair created a great deal of excitement in the hotel at the time and several rather wild reports regarding the affair were circulated.

The fighting lasted two hours, but the casualties are not known here. The town was defended by seventy-five government troops, led by Col. Barquero. The insurgents are advancing in three columns with an aggregate of one thousand men.

## LAWTON-EXTENSION IS STILL BEING DISCUSSED

The proposition submitted the Lawton Chamber of Commerce by the officials of the Wichita Falls and Northwestern railway calls for a bonus subscription of forty thousand dollars and right of way for thirty miles. This proposition is still being considered by Lawton and the organization there will probably give the officials an answer very shortly.

The proposed line does not pass through the town of Randlett, Oklahoma, missing it by about two miles, and Lawton's principal objection to the proposition is based on this fact. It is believed, however that the proposition will be accepted.

Morgan Jones, the well known capitalist of Abilene, was in Wichita Falls yesterday on business. He declined to be interviewed regarding the suits recently brought against him at Abilene for his failure to build the "Abilene Central."

## BURGESS WANTS HARDY'S CAMERON TALK EXPUNGED

Texas News Service Special. Washington, Feb. 4.—Representative Burgess in the House today offered a resolution withdrawing Hardy's anti-Bailey speech at Cameron from the Congressional Record and referring to the Judiciary committee to report whether Hardy violated the House rules in inserting his speech in the record. Burgess claims the speech reflected on the senate and the senators, and is, therefore a violation. Hardy responded declaring the speech was not a reflection. He was willing to submit it to the Judiciary committee and said that "If one syllable reflects upon the senate I am willing the speech should be expunged, but I insist it should first be shown where I transgressed." The resolution was referred to the Judiciary committee.

## ASKS FOR \$40,000 IN SCHOOL BONDS

SCHOOL BOARD ORDERS ELECTION TO DETERMINE THEIR ISSUANCE AT ONCE.

## ERECT TWO BUILDINGS

Believed Will Have to Provide for Two Thousand Pupils When Next Session Begins.

At a meeting of the school board held yesterday, it was decided to ask the people of Wichita Falls to vote additional school bonds to the extent of forty thousand dollars, for the erection of new school houses. The date of the election has not yet been determined, but it will be held as early as possible.

The schools are now very much crowded and not less than seven rooms are needed at the present time to accommodate the children. It is thought there will be more than two thousand children of scholastic age in the district at the beginning of next session and the school board believes that two more ward buildings will be necessary by that time. They expect to put up substantial brick structures and the locations will hereafter be determined if the bonds are voted.

It will probably not be necessary to use all of the forty thousand dollar issue requested, and if it should not take the full amount, just as much of it will be sold as is required. Some money will be needed to provide equipment for the high school building.

It is believed that forty thousand dollars in bonds will be sufficient to take care of the schools for the next two or three years. The necessary order for the election will be prepared at once.

About four thousand dollars of the present bonded indebtedness will be retired this year, there being about that much available in the sinking fund for this purpose. It is the purpose of the board to equip the high school for manual training, which is now a feature of every up-to-date high school in the state. A business department is also contemplated and several courses of study may be added.

This additional forty thousand dollars is absolutely necessary if the public schools of Wichita Falls are to be maintained at a standard of efficiency commensurate with the city at large. Two new buildings will give the children sufficient equipment until the city is much larger and it is not believed that there will be any opposition to the issuance of the bonds.

By Associated Press. Washington, D. ## INSURANCE BOARD DELAYS HEARING

WILL NOT BE ABLE TO GET TO WICHITA FALLS BEFORE SOME TIME NEXE WEEK.

## IS BUSY IN FORT WORTH

Very Interesting Sessions Are Being Held There and Are Not Yet Finished.

Owing to its being tied up in Fort Worth, the fire rating board was unable to reach Wichita Falls this morning and a telegram received by Mayor Noble says:

"Because its work here is unfinished, State Fire Rating Board reluctantly postpones the Wichita Falls meeting until further notice."

"Mn. E. Hawkins, Chairman." It is believed that the rating board will be able to complete its work at Fort Worth by the end of this week and that it will be able to conduct the hearing in this city on Monday. The Fort Worth hearing taking a great deal more time than was at first anticipated and the board is unable to leave with only part of the property-owners heard from.

The Fort Worth hearing has been fraught with considerable interest. A feature of yesterday's hearing was the statement of Commissioner Mulkey, who delivered himself as follows:

"I have hate in my heart like hell for such things. And you fellows needn't think this thing is going to stand."

"Why, I haven't been stirred up so since I was a boy. I believe that the legislature was—what do you call it—'hoodooed.' I won't say it today, but I almost think they sold out the state of Texas."

"One member of the board was selected because he had five years' experience as an insurance man. The law required that, but he is made of different material than I am if he is not prejudiced in their favor. Another was selected by the fire insurance companies, but who would they select but a man in their favor."

"Now, I do not want you gentlemen to take anything I say as personal or as suggestive of any partiality you might show in deciding this question, but it is just the way I feel, I have never been so doggoned mad—that isn't swearing—since I can remember. These charges are outrageous."

#### VIOLENT DEATHS.

Record of Accidents in Texas During Month of January.

As a result of keeping a record of the deaths by violence and of the accidents wholly within the State from various causes, whether terminating fatally or otherwise, reported in its news columns during the month of January, The Post is enabled to make a showing of figures which afford food for serious reflection.

The total number of recorded accidents during the period named was 169, of which 53 resulted fatally. These accidents were distributed throughout the state, no one particular section having a monopoly of them, and they resulted from numerous causes. For instance, 14 deaths and 68 injuries resulted from railway accidents and street car accidents, a large proportion of the fatalities being caused by falling from trains while in motion, 5 deaths resulted from drowning, 1 death and 6 injuries from explosions, 2 deaths and 1 injury from kicks by horses, 6 deaths from accidental gunshot wounds, one of these being caused by a toy pistol; 5 deaths and 2 injuries from run-ways, 8 deaths and 5 injuries from burns, 1 death and 7 injuries from auto, 2 deaths and 10 injuries from falls from buildings, on ice or in other ways, 2 injuries from machinery, 4 injuries from falling timbers, 4 deaths from accidental poisoning, 1 death from mine cave-in, 1 death from smothering under cotton seed.

The total number of homicides reported during the month was 34. In this connection it is but fair to state that there were personal difficulties in which serious injuries were inflicted either by shooting or cutting, and some of these may yet terminate fatally.

Of known suicides 15 were reported though it is possible that all the deaths thus occurring were not reported as suicides.—Houston Post.

#### DISCOVERIES CHANGE HISTORY.

National Centennial Committee Discredits Historian Zarate.

Important points in Mexican history regarding facts hitherto supposed to have been established are being radically shaken, is not thrown down, through the original research which has been inaugurated by the National Centennial committee.

Beginning merely with the end in view of reproducing in carnival pageant the epoch-making scenes of the history of Mexico from the entrance of Cortes into Tenochtitlan down to the events in the memory of living men, Jose Casarin, secretary of the committee, has already carried the work up to the importance of original historic research and brought into question several events believed to have been beyond refutation.

What he considers the most important revision that will now have to be made in accepted Mexican history is the account in Mexico a Traves de los Siglos, by the historian, Zarate, of the strike for independence in San Luis Potosi under Fray Gregorio de la Concepcion.

Evidence is now claimed to have been uncovered through Manuel Muro of San Luis Potosi, showing the story as told by Zarate to be unfounded, and the scene will be omitted from the parade.

A further enrichment to Mexico's knowledge of her remarkable past is the collection of pictures being compiled by Mr. Casarin of types of all ages and epochs of Mexico, dressed in costumes true to the times and customs. These pictures are accurate to the minutest detail.—Mexico Daily Record.

And the way we are doing it is keeping the best wire fencing in stock.

Before deciding on the wire fencing most suitable to our particular trade, we investigated all the leading makes. The fencing that we found to most nearly combine all these desirable qualities was the Pittsburg Perfect Welded Wire Fencing. So this is the fence we not only offer you, but advise you to take. It costs no more than other fencing of inferior quality.

## Amusements

Scene in Act 4, Wichita Theatre, Monday, Feb. 7.

"The Flower of the Ranch," "The Flower of the Ranch," which comes to the Wichita Theatre tonight, is another one of Joseph E. Howard's dozen or more musical successes and is one of the most unique things yet given to the public by this prolific music writer. "The Flower of the Ranch" is a musical melo-drama, filled with a lot of rattling good musical numbers, and the novelty of the piece lies in the fact that it is as closely worked out, in the minutest detail, as any of the highest class dramatic productions. There are nearly twenty of the catchiest musical numbers and a big chorus, both of which could be removed and then would still be a corking good play of the western kind.

The plot tells the story of the life of a little girl, the only survivor of a stage coach wreck, who is taken to the home of a warm hearted old rancher and made one of the family. She is too young when the accident occurs to know her name, and there is no evidence left to tell who she is. Her romping, bright nature furnished a lot of sunshine for the ranchers who dub her the "Flower." Sixteen years on the ranch brings her into young womanhood, and then the love affair follows in which a young rancher, a scheming sheriff and a villainous Mexican and others, including the foster father, are the principals.

During the action and development of the story, in which there are a lot of strenuous melo-dramatic situations, Mr. Howard has very cleverly introduced some of his very best music, which makes it surprisingly pleasing and interesting. The "Pajama and the Nighties," a pretty duet, backed up by a bevy of girls clad in shimmering nighties and pink pajamas; "Claremont" and "The Days of '49," in which a real stage coach is introduced, are three musical numbers sufficiently clever and pleasing to hold up any musical attraction, even at two dollar prices.

The production is gorgeous and complete in every detail, while the company, numbering fifty odd, includes Jesse Harris, John E. Frank, J. M. Clayton, Chas. T. Mast, Harry Nelson, Alva D. Simms, John Sampson, Mark Reede, Miss Nellie Watters and Adelaide O'Brien.

Tim Murphy.

Tim Murphy, under the management of Louis F. Werba, is to present his success, "Cupid and the Dollar," at the Wichita Theatre, Saturday night. To quote the old printer's saying—the granddaddy of phonetic spelling—"Nuff Cud," Mr. Murphy is sure of a good house. The principal reason is his own merry personality so happily projected into the roles he creates, and this is fortified by his always giving comedies which are essentially self-respecting, as they are highly diverting and amusing. Mr. Murphy has paid his public all over the land the compliment of being as shrewd as our friend from Missouri. He has "shown them" on repeated visits that he is our best living comedian and that his tact and taste insure an evening with him as the most delightful of the year.

In "Cupid and the Dollar" he has a strong role and is supported by a cast of superior players. It would be a poor fool who would go through life on laughter only, and it's a poor role that hasn't something solid behind it. This comedian always sees to this. His first effort is to depict the character, then grip the audience, and while he holds them in the vice of his art, moves them at his magic will to tears or laughter. Mr. Murphy's leading woman is again Miss Dorothy Sherrod. The press of other cities are noting, with significant emphasis, the

beauty of the ladies' gowns in "Cupid and the Dollar."

"The Little Homestead." The blind infatuation which turns a wife from her fireside beside her loving husband, to go forth to misery and abuse with an unscrupulous scoundrel, brings about all the sorrow and happiness in the magnetic story, "The Little Homestead," which will be the attraction at the Wichita Theatre on Monday night, February 7th.

All the repentance and remorse of a woman who has sinned once against her home, her husband and herself, is shown in the simple character of the wife, who sees through her blinded eyes when too late to atone. The dying pleas for forgiveness and the unselfish response of the husband strike to the heart. The just retribution for his sins which fall upon the destroyer of the home is a fitting climax to a malignant life. Throughout "The Little Homestead" is of intense interest and appeals to the finer sensibilities. The play is from the pen of W. B. Patton. William MacCauley, who is starring in the leading part of Roy Carroll, the husband, is well remembered for his excellent acting in "When We Were Friends," last season. Mr. MacCauley is a handsome young actor of great ability and is exceptionally clever in this part. Seats on sale today. Prices, 25c to \$1.00.

### WEATHER FORECAST.

For Wichita Falls and vicinity.  
\*—Tonight and Saturday, fair.  
\*Frost on the Coast Saturday morning.

There are good times ahead for Texas. The Cleburne Enterprise figures it out that the candidates for governor will put in circulation \$100,000 for campaign expenses. There will be at least 3,000 candidates for other offices and they will average at least \$100 each, aggregating \$300,000 besides the gubernatorial candidates. Add to this amount the cost of primary elections and other incidental expenses and you will have at least \$1,000,000 in circulation that would have been kept in darkness all this year. Now add \$21,000,000 for the cotton crop this year, \$12,000,000 for corn—but why enumerate further? The statelans of Texas have figured out that the total income of the state this year will be one billion, five hundred million dollars. Anyway, everybody is looking for good times and what every is looking for and working for usually comes. So get ready to ride the prosperity wagon to a fare-you-well—McGregor Mirror.

The Memphis Herald is getting quite a few call-downs for the roast it published on the Fort Worth and Denver. Like all roads, the Denver has its little imperfections, but it has been a powerful factor in Northwest Texas development and it is ill-mannered, to say the least, to hammer on it.

In the north two-people have been choked to death recently by eating meat. Justice attains her ends in her own peculiar way, it seems.

### ATTORNEY GENERAL'S RULING.

Attorney General Lightfoot, in an opinion to the Fire Rating Board held that if a fire insurance company provides that the terms of a policy shall be cash, the agents are required to collect upon the issuance of the policy, and the term "cash" precludes all idea of credit and deferred premiums. The opinion further declares that a fire insurance company or its agents are not permitted by law, after having specified in such schedule that policies are issued for cash, to discriminate among any of its policyholders, granting credit to some and requiring cash from others, but must treat all alike. The opinion recites that "If a company or its agents desire to issue policies upon which thirty, sixty, ninety days or greater length of time shall be allowed for the payment of the premium, either with or without interest, they have the legal right to do so, but such company must so provide in the schedule filed with the board, and in such a case it will be compelled to extend the same credit, privileges, concessions or favors to all its policyholders who desire to avail themselves of such provisions." Going further, the opinion is to the effect that the agent of a fire insurance company would not have the authority to individually extend credit to any insured beyond the term of credit provided for in its basis schedule. In conclusion, Judge Lightfoot says: "If a company desires to transact its business on a credit basis, it may do so. "If it desires to extend credit, it may do so. "If it desires to take notes in settlement of premiums, it may do so. "If it decides to charge no interest on deferred payments, it can do so. "Terms, conditions, privileges, favors or concessions are all within the discretion of the company, but the law compels it to decide such questions, to file same with the board and thereafter the company and its agents must live up to such schedule and accord all the same treatment thereunder."

The Quanah Observer says that "Wichita Falls hasn't built any roads that anyone knows of." My child, if ignorance were ham and civic jealousy were eggs, you could hold the meat trust at bay for the remainder of your existence.

Also, my child, let not your heart be troubled regarding the "hysterics" you say prevail in these parts. Wichita Falls is getting bigger and busier every day as a result of those same hysterics. In fact when it comes to growing and boosting we are past the stage of hysteria; it amounts to a paroxysm by this time.

The following from the Crowed Index is not exactly polite, but it doesn't miss the facts so awful far:

The Vernon Record has sprung the Hall boom for governor. Mr. Hall has made a pretty good reputation as a prohibition advocate and no doubt would get a good following among them in the Panhandle, but we judge that he will have to take on some more growth before he can fill the gubernatorial chair.

If Peary offers himself for congress he will have to show his records to the same tribunal that adjudged Dr. Cook's, or he will never find an "open lead" to the capital—Memphis Commercial-Appeal.

Of course, those two new wholesale groceries are to be welcome as the flowers in May, but wouldn't it be a good idea to build a few more houses here for their employees to live in?

It wasn't really necessary for Gov. Campbell to endorse Love for the latter's boom to fall flat. It would have done that, in any event.

### REPUBLICAN TROUBLES MULTIPLYING

In spite of his tact, amiability and good-humor, the president is not having things his own way. The spirit of faction so rife among the republican members of congress is embarrassing him at every turn and his policies are not commanding the united support he anticipated. So manifest are the differences and so bitter the quarrels that doubt is expressed that the administration will be able to get through such measures as provide for postal savings banks, the granting of National charters to incorporations doing an interstate business and the creation of a court of commerce.

The republican quarrels in the house are not however, due to any personal antipathy to the president. They are merely a reflection of the discontent existing among republicans throughout the country. The member is quick to learn of dissatisfaction among his constituents and he is certain to reflect it, even though it disturbs his relations with higher party authorities in Washington. He wants a re-election and his sympathies are with the voters and he will not be slow to raise a howl when the voters begin to show signs of displeasure.

These conditions are playing havoc with the Taft administration, however, and the inability of the president to reconcile party differences is rapidly affecting his popularity. His inability to "do things" has already started Mr. Roosevelt's clackers and they are beginning to agitate that third term business on the ground that the republican party needs a man who can "do things."

And in the midst of the disturbance there is some talk of "traitors" in the Taft camp, the traitors being men in office who are awaiting a favorable opportunity to give impetus to the Roosevelt movement. Of course, there is not really any substance in the republican dissatisfaction with Taft. There is no reason to believe that Roosevelt under existing conditions could conciliate the warring factions in his party to dominate the present congress as he tried to dominate those which formed a part of his own administration. The president, however, is essentially unlike his with the patience, repose and dignity of his judicial training, he is trying to conciliate his fractious associates, whereas the Roosevelt plan was to bully and threaten them.

When Mr. Roosevelt returns, it need not be doubted that he will get into the game in a most emphatic manner, either as a dissenter or as one of the president's allies. If the third term bee is pestering him, Taft is not likely to have much peace during the rest of his term: if he remains loyal to his sebaceous friend, then the insurgents in congress will get a shaking up they will not soon forget.

In any event, the republican party seems to have strenuous times ahead.—Houston Post.

Ed Kennedy, promoter of the Altus, Roswell and El Paso railroad, ought to be in Wall street. He is not exactly wasting his sweetness on the desert air, for he is doing pretty well selling six hundred dollar a mile grade to such towns as Wellington at five thousand dollars a mile. The report of the railroad committees of that town states that Kennedy has been paid \$4000 in cash, out of a total of \$5,147.95 collected and that the further sum of \$16,115.25 in notes payable to Kennedy or his order which was held in escrow between Wellington and Hollis, had been returned to the railroad committee, making a total of \$22,549.75 that Kennedy did not get hold of. Wellington is to be congratulated on saving what the figures indicate she has, and the money paid to Kennedy can be charged up to "experience."—Quanah Observer.

Mr. A. A. Hughes has been mentioned as a good man for councilman. In the opinion of the Times, if Mr. Hughes could be induced to accept the place, the citizens of Wichita Falls could not do better than to elect him. He is a man of splendid character; honest and conscientious, independent, thoughtful and a lawyer of splendid attainments and ability. As a business man in his own affairs, he has proven himself safe and capable. With him in the city council the legal business of the city would at all times be fully protected.

We wish to call attention to the world to the fact that although Wichita Falls is full of insurance men today, none of them have been pushed in front of any street cars.

There is nothing to be surprised at in Wichita county's making the largest proportionate poll tax gain in the state—it was more to be expected than not.

Before Peary starts out to discover the south end of the earth, we would like to have some proof a la Coppenhagen that he really found the north pole.

A good New Year resolution will be to resolve to let us furnish all your drugs this year.

### In Sin-Soaked Paris.

Is the destruction of Paris a heavenly retribution of sin?

Paris is the great white-way city of the world, it is the wickedest city in the world.

San Francisco was the wickedest city on the western hemisphere, and it was destroyed by earthquake and fire.

And now Paris has practically been ruined by flood.

The residents of Paris are the most degenerate of any people on earth. Things are done and permitted in Paris that would not be done nor permitted in any other community in the world.

The standard of morality in Paris is the lowest standard in the world. There is more crime, more suicides, more broken homes in Paris than any city in the world.

It is the hub around which revolves the free and easy gaiety that sends men's and women's souls to hell.

Did God Almighty send the flood as a penalty for the sins of the people?

And now one will hear: "Well, why make innocent people suffer for the sins of the bad?"

The wicked only suffer—they will go to hell for eternal damnation; the innocent will go to Haven for eternal paradise.

It is not in keeping with the teachings of Christ that death is welcomed by the innocent.

It is not in the teachings that God would permit an innocent Christian man, woman or an innocent babe to suffer in death. The wicked only suffer.

True, in catastrophes of this character, the lives of innocent ones are sacrificed, but they do not suffer.

"The way of the transgressor is hard," but not so with the innocent. Galveston was wicked, and it was destroyed.

San Francisco was wicked and it was buried.

Paris was wretchedly wicked, and it was ruined. And—

There are other cities that are wicked.

Wait the results.—Oklahoma Times.

### GIRL ASSAULTED

Posses Scouring Country Around Rogers, Ark., for Vol Johns

Rogers, Ark., Feb. 3.—Posses are scouring the country in this vicinity for Vol Johns, who is charged with having criminally assaulted Miss Ella Hitchcock, a 16-year-old girl, near here yesterday. It is alleged that a sister of the girl heard her screams and rushing to the scene, saw Johns escaping to nearby woods.

# Cottolene

Shortens your food—Lengthens your life

Physicians today are recommending Cottolene for consumptives, dyspeptics, and others in a "run-down" condition. Never heard of them recommending lard for such a purpose, did you? Cottolene is a product of Nature, clean in source, making and manner of marketing. It makes food which the most delicate stomach can digest.

Cottolene is far superior to lard or cooking butter for all frying and shortening purposes.

Made only by THE N. K. FAIRBANK COMPANY, New Orleans, Atlanta, New York.

**The Union Printers' Home.**  
The library addition to the Union Printers' Home at Colorado Springs, Colo., was erected at a cost of \$24,000. This money was voluntarily contributed by the membership of the International Typographical Union. The library houses 10,000 volumes, gifts of union printers and employers throughout the country. The new building contains an up-to-date kitchen, with modern utensils, serving room, refrigeration plant, bakery, store room, servants' dining room, etc. The Union Printers' Home is located at Colorado Springs, was erected and is maintained by the International Typographical Union, and its present physical value is, by competent real estate men, placed at one million dollars. The home is maintained by a per capita tax of fifteen cents per month of the union printers of the United States and Canada.

**STATUS OF SCHOOLMARS.**

**Pittsburg Women Teachers Claim they Are Professional People.**

Pittsburg, Feb. 2.—Where does the "schoolmarm" belong—in the professional class, or that of wage earners? That is the question which is agitating the trainers of youthful minds here. An attempt is being made to form a union for the teachers, but Emma Jane Williams of the Pittsburg Teachers' association; Clara McMillan, vice president of that organization; Emma Hood, president of the North Side Teachers' association, and Mary Lang of the executive committee of the latter organization insist that they are in the professional class and therefore should not be unionized.

**POLL TAX IRREGULARITIES**

**Judge Browning Reconvenes Grand Jury to Investigate**

Amarillo, Texas, Feb. 2.—Judge J. N. Browning has reconvened the grand jury, having been presented with a petition intimating that there had been irregularities in connection with the payment of poll tax. The evidence will be gone into thoroughly, and it is not improbable that both city and county collectors will be given an opportunity to testify. The action has awakened deep interest in Amarillo and Potter county.

**MATRIMONIAL TANGLE**

**Takes Wife No. 2 to Home of Wife No. 1's Mother**

Atlanta, Ga., Feb. 3.—An unusual tangle in matrimonial affairs was revealed here yesterday when E. L. Tyus, a bridegroom of but a few hours, was arrested on a charge of bigamy.

According to Tyus, he was married to a Miss Tatum six years ago and they lived together until he discovered his wife had another husband. A separation followed, he returning to the home of his mother-in-law, while his wife returned to her first husband.

Following a rather romantic courtship, Tyus was married to Miss Pearl

Reeve Sunday, and he took Mrs. Tyus No. 2 to the home of the mother of Mrs. Tyus No. 1 to live. The father of the latest Mrs. Tyus caused his arrest, and Tyus is held for trial.

**LAVISH CHICAGO GRAFT.**

\$227,500 Wasted in the Bureau of Sewers.

Chicago, Feb. 2.—The Merriam commission, which has been investigating charges of graft in the city administration last night, reported that during 1909 from \$150,000 to \$227,000 was

wasted in extravagant salaries in the bureau of sewers. It was asserted that horses "fit only for the bonnyard" were used through political influence and that city employes spent more time in drinking than in earning their salaries. The report was sent to the city council.

NATURE'S GIFT FROM THE SUN'S SOUTH
During the Civil War, cotton growing was so profitable that it is said the natives of India purchased silver plow-shares with which to till the cotton fields. Yet, under the stimulus of highest prices, India could raise only three million bales; the South produces over twelve million bales each year. It will be seen therefore that in this product of nature, the South stands supreme. Not less important is the oil of the Cotton seed which, when refined, ranks in purity and wholesomeness with the choicest olive-oil and, in the form of Cottolene, yields a cooking fat superior to lard. Cottolene is vegetable—so pure, wholesome, economical and efficient, that it is truly one of Nature's best gifts from the South.

You may discontinue the classified ad-house and lot for sale—as we sold it the next day after the ad appeared, and would have ordered it discontinued sooner, but wanted to test the Times as an advertising medium, and during the five days the little ad ran we had, by actual count, forty applicants for the place and have made three other sales on the strength of that one little ad. It is what Mr. G. D. Anderson said to the Times management this afternoon. If you want to get results for your money, place your ads with the paper that reaches the people—The Daily Times.
