## DENVER MAY BUILD; BYERS TO WAURIKA

RECENT VISIT OF VICE-PRES-  
IDENT PARKER TO BYERS HAS  
STARTED SOME RUMORS.

### CANNOT BE CONFIRMED

It is Known, However, That Denver  
System Has Its Eyes On This  
Stretch of Road.

The visit of Vice-President A. D. Parker of the Colorado & Southern, to Byers and Petrolia while stopping in this city on Saturday afternoon, has given rise to a rumor in local railroad circles that this road intends to build across the "gap" between Byers and Waurika. This report has gained considerable credence locally and while it can neither be confirmed nor denied, there are many who believe that the powers that be are contemplating a move of this kind.

While the building of this line by the Denver would not be as beneficial to Wichita Falls as its construction by the Rock Island would be, still it would be quite a valuable railroad acquisition. The building of the gap by the Rock Island would benefit this city only slightly unless through trains could be operated by a trackage agreement with the Wichita Valley. The Byers line, while officially styled the "Wichita Falls and Oklahoma," is a part of the Wichita Valley, which, in turn, is subsidiary to the Fort Worth and Denver, and any extension move would have to come from the officials of the latter road.

The principal objection to the filling in of the gap would be the heavy cost of bridging the Ber River, but should some large system like the Denver, take this matter in hand, it is believed the matter could be successfully financed. Mr. Parker had no comment to make upon the matter while in this city, saying he was merely on an inspection tour.

### PINCHOT YET ON STAND

Cross Examination by Attorney Ver-  
tress Proceeds Slowly—Large  
Crowd Attending.

By Associated Press.  
Washington, Feb. 15.—Interest in the Congressional inquiry into the Ballinger-Pinchot controversy was greatly heightened as a result of yesterday's cross examination of Louis Glavis, who is chief accountant of Secretary Ballinger in the affair. The crowd is even greater than that of yesterday and a record breaking attendance is present today.

In order to ascertain whether or not Louis Glavis is the victim of a "frame-up" in connection with the various official papers, Attorney Vertress, counsel for Ballinger, has requested that subpoenas be issued for a Christianson, successor to Glavis and G. O'Neill, of Seattle. Later he also asked subpoenas for Ella Shartell of Seattle, special agent Spalding of Cheyenne, and W. W. Barr of Seattle.

Vertress this afternoon is proceeding slowly with the examination of Glavis. In order to frame some of his questions it is necessary to wade through a mass of documentary evidence which is consuming much time. The list of prospective witnesses is increasing, indicating that the inquiry will be an extensive one.

### INCREASES ITS STOCK.

## CAMPAIGN STARTED FOR BETTER ROADS

CHAMBER OF COMMERCE HAS  
MATTER UNDER CONSIDERA-  
TION AND IS MAKING PLANS.

### WILL MAKE INSPECTION

County Commissioners to Look at  
Roads in Other Counties—Other  
Matters Considered.

A Plan for better county roads into Wichita Falls is being formulated and was one of the chief topics of discussion at this morning's meeting of the Chamber of Commerce and as a result it was recommended to the county commissioners that they send a committee to San Antonio and to other places where the good roads problem has been solved, to see what Wichita county will need.

County Commissioner Dave Thomas of this precinct, was present and said that at present, it was impossible to do any permanent work and that the same work was done over and over year after year. Mr. Orth suggested that the good roads in other counties be inspected and upon motion this was recommended to the county commissioners.

Directors Marlow and Tandy were appointed an advisory committee in connection with the legislative work to be done. The requests of the Odd Fellows and Firemen, for assistance in landing the 1911 conventions, were granted, \$150 being appropriated in each case.

A large committee was appointed to work for the carrying of the paving bonds at next Friday's election and it was urged upon all present that a large vote must be gotten out. Inquiry failed to develop any opposition, but it was felt that the bonds ought to carry by a substantial majority.

Mr. Tandy called attention to the fact that Walters, Oklahoma, was taking active steps to build a railroad from there to Wichita Falls and he spoke upon the necessity of extending them all possible encouragement. This road, it is learned, is now being surveyed. Several other matters of lesser importance were given attention by the directors.

Those present were: President Huff, Secretary Mytinger, directors, Kemp, Kell, Tandy, Orth, Taylor, Henderson, Hickman, Marlow, O'Reilly, Richolt, Anderson, Moore, Noble.

The \$26,000 accounts dropped from Rusk came under the administration of the present board, and are of the same character as those dropped at Huntsville under John M. Wortham's administration. Evidence shows the accounts were dropped to prevent further confusion of the books.

## WANT CONVENTIONS HERE DURING 1911

STEPS BEING TAKEN TO BRING  
FIREMEN AND ODD FELLOWS  
MEETINGS HERE.

### LOCAL MEMBERS AT WORK

Chamber of Commerce Helps Each by  
Appropriating \$180 to Help Secure  
Gatherings.

Wichita Falls will add to her fame as a convention year during the next year or two, if present plans can be carried out and steps are already under way to secure two big state meetings in 1911, the Odd Fellows' and the State Firemen's Association.

The local members of both of these organizations are determined to bring the state gatherings here and are already actively at work. The Odd Fellows meet at Austin next month and the local chapter will send six delegates down there to invite the meeting here in 1911. The Odd Fellows have never met west of Fort Worth and as the last two meetings were held in South Texas, it is thought Wichita Falls would be able to pull the 1911 meeting to North Texas. This convention would bring three or four thousand of the very best people in Texas to this city and its value to the city would be hard to estimate. The Chamber of Commerce has appropriated one hundred and fifty dollars to land this convention, and it is hoped that the delegation from this city will be successful.

The local firemen are already planning a determined campaign for the 1911 meeting of firemen and the Chamber of Commerce has appropriated one hundred and fifty dollars to assist them also. This convention would bring about three thousand visitors to this city and the local firemen, armed with appropriate badges and other advertising material, will go to Temple in May to put forth every effort to land the 1911 meeting.

It is believed that Wichita Falls will have sufficient hotel accommodations by next year to take care of all the visitors and that no difficulty will be experienced along this line.

Four conventions will be held in Wichita Falls this year. The district bankers meet here next week, the county judges and county commissioners meet here in August, the district medical association meets here in April and the North Texas Methodist Conference will meet here next December. With these conventions already assured and with the prospective meetings that are almost certain to be landed, Wichita Falls is gradually establishing herself as a convention city of no small note.

**ARE GETTING BUSY.**

Texas Republicans May Become Active During This Year.

'The republican party has practically been driven out of existence since 1896, its voting strength having been reduced from more than 167,000 for McKinley in that year to the paltry number of 65,000 for Taft in 1908, and this notwithstanding more than 200,000 republicans have come to Texas within the time named.'

This is the principal indictment in a call issued by the republicans of San Antonio for a state republican conference February 22, 23 and 24.

The purpose of the conference, the call recites, is 'to investigate this alarming decrease in the republican voting strength in Texas.'

A temporary organization has been formed with Duncan Mackay, president; W. S. Messmer, secretary; B. F. Kingsley, treasurer, and George J. McManus, chairman of the ways and means committee.

The call is being circulated here and elsewhere for signatures. Among those signing the one issued yesterday were Joe Block, Jay E. Adams, P. C. Woods, Duncan Mackay, John Richey, J. E. Elgin, W. S. Messmer, B. F. Dittmar, John D. Strohm, C. S. Fowler, James G. Fowler and George J. McManus, all of San Antonio. It was stated that it was hoped to secure several thousand signatures to the call in various portions of the state.

The call reads as follows: Republicans of Texas are greatly concerned at the rapid falling off in the party voting strength, even in the face of bitter factional differences in the democratic party in the past ten years, and the vicious democratic administration of the state institutions where inhuman, barbaric and revolting conditions are most appalling.

The republican party has practically been driven out of existence since 1896, its voting strength having been reduced from more than 167,000 for McKinley in that year to the paltry number of 65,000 for Taft in 1908, and this notwithstanding more than 200,000 republicans have come to Texas within the time named.

In order to investigate the cause for this alarming decrease in republican voting strength in Texas leading republicans of the state have effected a temporary organization at San Antonio for the purpose of calling a conference of all republicans and independent voters of Texas who desire clean politics, a reform in the state affairs and the establishment of a 'party of the people, by the people, for the people.'

In conformity, therefore, with the order of the organization, we, the executive committee, hereby make this call for a conference of republicans of Texas to be held in San Antonio on February 22, 23 and 24, 1916.—San Antonio Express.

**NOT TOO OLD AT FORTY**

English Business Men Agree That Middle Age is Best For Work

The question at what age a man is best fitted for close mental and physical work has been raised by the wonderful endurance of Commander Peary, who, at the age of 53, has discovered the North Pole.

Some interesting opinions have been advanced by the heads of large business firms, medical men, and others on the subject.

'Commander Peary's achievement has exploded the 'too old at forty' bubble,' the manager of a famous engineering firm told a representative of the Daily Mail.

'It has been my experience that mechanical engineers, so long as they keep in good health, are much better and more useful workers at 50 than are young men at 25.

'In our employ we have many engineers doing hard manual work whose ages are between 60 and 70. They are thoroughly experienced workmen, who do not make mistakes, like young men.

'Of course, with consulting engineers their value increases as they get older, provided, of course, they retain their health and mental powers.'

The manager of a big business said that in his opinion a man was fitted for mental work from the age of 30 to have acquired sufficient experience to superintend his juniors and to be a valuable asset to his employers,' he said.

An experienced Harley Street physician said that the average man was the fittest, mentally and physically, between the ages of 35 and 45.

'By that age a man should thoroughly understand himself—not only his mind, but his body,' he said. 'He knows, or should know, how to diet himself, how to keep an even level of good health and well-being. With a sound constitution a man can retain his mental powers until he is 65 to 70.'—London Mail.

### The Coffee You've Always Longed For

There is a difference between good coffee and coffee that really satisfies. Satisfactory coffee must have flavor; it must be uniform in quality, and be properly roasted and blended. These merits are found in all the coffees of the Chase and Sanborn line. Seal Brand, the highest grade, is a blend of the finest coffees the world's market affords. Q. Blend is the best twenty-five-cent value you can get, and the 20-cent and 33 1-3-cent grades are worth the price and then some.

We also handle Chase and Sanborn's high grade teas. If you wish to look through our line of teas and coffees, phone 56 and we will send a man to your house to show you samples.

### WE ARE LAYING FOR YOU

And the way we are doing it is keeping the best wire fencing in stock.

Before deciding on the wire fencing most suitable to our particular trade, we investigated all the leading makes. Our object was to get the strongest fencing; fencing that would stretch up the easiest; would not sag when run over uneven ground; was animal proof and so constructed as to best withstand the ravages of time.

The fencing that we found to most nearly combine all these desirable qualities was the Pittsburg Perfect Welded Wire Fencing. So this is the fence we not only offer you, but advise you to take. It costs no more than other fencing of inferior quality.

## Amusements

WRIGHT LORIMER, As "David," the Shepherd King.

### The Shepherd King.

Wright Lorimer, who comes to the Wichita Theatre tonight, although a young man, has in "The Shepherd King" accomplished a very great work for the American stage.

When this wonderful biblical romance was first presented at one of the leading New York theatres, New York sat up and rubbed its jaded eyes. No such production, not even excepting "Ben Hur," has ever been seen on Broadway, even Alen Dale remarking it "the most handsome and aesthetic production of the season." But, aside from the critics and the regular theatre goers, the clergymen and the great mass of non-theatre going people attached to the churches flocked to see "The Shepherd King." Here was a play that took them back to that period when the young shepherd lad, David, achieved the wonderful feat of killing the giant, Goliath, and became the favorite of Israel. Young David became to them no longer a dim personage of history, but a living human being in the flush of his youth, and in the full bloom of his lofty aspirations. Mr. Lorimer has perfected a wonderful organization. Every department is in the hands of the ablest men that money can secure, but the controlling genius, the man who has made possible the wonderful lights and shades of this great stage picture is Wright Lorimer.

### Primrose Minstrels.

While the chief aim of the Primrose minstrels has always been to furnish a diversified entertainment of the highest possible note, Manager Primrose has never lost sight of the picturesque interest with which this famous attraction is identified, and it is, therefore, not to be wondered at that the first part settings are planned on such a massively elegant white and gold scale.

This immensely pleasing stage spectacle, styled "Palace of Art," and which contains reproductions from sculptural art, was designed after a noted Italian palatial interior, and aside from its value as a genuine reminder of bygone achievements, there is an effectiveness about the carving and scroll conceptions that lend a peculiar charm to the background quite in touch with the costuming.

The scenic arrangements thus referred to are but a genuine indication of the generosity that appears to have guided the spirit of the management, so in every direction there is unmistakable evidence of a desire to excel in those peculiar points so essential toward minstrelsy.

The coming to the Wichita Theatre on next Thursday of this reputable organization of burnt cork merry-makers is naturally regarded in the light of a real amusement event of signal importance and is anticipated accordingly.

### WEATHER FORECAST.

For Wichita Falls and vicinity.  
Tonight, generally cloudy weather; colder; cold wave. Temperature will be eighteen to twenty degrees. Wednesday, generally fair and colder.

The Times learns, on what is deemed most excellent authority, that the casing is being drawn out of at least three oil or gas wells in the Henrietta oil or gas fields, viz.: the Halsell well, 2900 feet, six miles southwest of Henrietta; the well on the Myers block of land, 2600 feet deep, 1 1/2 miles of Henrietta, and the Huggins well, and also a well eight miles north of Henrietta. Mind you, this is the Henrietta oil and gas field of which the above has reference, and not the Clay County oil and gas field, located at Petrolia, and between that town and Byers.

There is nothing to get excited over about Wichita leading the state for poll tax increase. We led the state in nearly every other particular and this was just an incidental.

Viewing the political situation from our standpoint, Hon. Cone Johnson looms up as the logical standard of the prohibition element for governor, and, with half a dozen other candidates in the field for the same office, the anti vote will be so badly split as to enable Cone to pass under the wire at the home stretch an easy winner.—Brenham Banner.

What few votes the anti's candidate for governor will miss getting will not amount to a great deal. We all know who the anti's candidate is. They have decided to support him almost to a man, and through fear that they have not sufficient strength to elect him, the anti papers, notably the Fort Worth Record and Houston Post, are busy tossing out bouquets to the weakest pro candidate in the race, not with the hope of electing him, but merely to give him some encouragement to stay in the fight in order to weaken the real sure enough candidates they have come to fear will poll more votes than their candidates. This is the game of politics, and the anti's are playing it for all it is worth.

A party of Fort Worth officials went to San Antonio to study the irrigation system near that city. They could have learned just as much by coming to Wichita Falls, where the biggest irrigated truck patch in the state is being laid out.

Tom Jones of Tyler has announced that he will support Poindexter. In spite of this, however, there are many features of Poindexter's candidacy that should appeal to the voter.

While the penitentiary financial shortage is a very regrettable affair, we would be glad to report that this feature was the worst defect in the system—but, it isn't.

John W. Gates is being boomed for the republican gubernatorial nomination, but he will hardly be willing to bet a million that he will be elected.

Dr. Cook is now in Chile. It would seem that he had gotten enough of chilly regions by this time.

The president's Lincoln Day address was about one-fifth Lincoln and four-fifths Taft.

### LOADED WITH FETISHES.

Indian Arrested at Tulsa Had Full Line of Conjurers.  
Tulsa, Feb. 15.—Waschitantete, which interpreted means Ralph One Hand, a full-blood Osage medicine man was arrested in this city today upon being found in a helpless state of intoxication. Among a motley list of articles found by the police in his clothes were three pairs of rabbit ears, six tallow candles, a miniature tom-tom, string of rattles from a rattle snake, two wishbones, pipe made from a human bone, tail of a black cat, canoe whittled out of pine and three packages of Indian herbs.

### Georgia's State Chemist Praised.

Mr. J. H. McCandless, State Chemist of Georgia, before a recent gathering gave emphatic testimony to the high quality of Cottolene. He said:  
"The sale of this product, and the proclamation that it is made from cotton seed oil, have done more to bring cotton seed oil truthfully and favorably before the public than anything else in recent history."  
Mr. McCandless then pointed out why a pure refined vegetable oil base, such as is used in Cottolene, is the only assurance a woman has of a clean, digestible cooking product.

Remember, we have a nice line of candies, fruits and nuts. Phone 261. KING'S. 222-tfc

### SPIRIT OF THE TEXAS PRESS

The beautiful City of the Alamo is getting a bad name abroad because of the numerous robberies and burglaries and attempted murders committed there.—Floresville Chronicle.

Uncle Sam says to the beef trust: 'I am camping on your trail,' and the boycotters say 'we are running from your trail.' It seems that everybody is 'beefing now.'—Gainesville Register.

The members of the Lamar County Boys Corn Club seem to be in earnest, and those who keep up the fight and follow the Government methods will get results next fall.—Paris News.

From all sections of the country comes inquiries about Texas, and people are interested to the extent that thousands of them are coming here to look about and to eventually make their homes.—Palestine Herald.

The McKinney creamery holds great possibility in store for our farmers. That fact is gradually dawning upon them and every week brings new patrons for this important McKinney manufacturing enterprise.—McKinney Courier-Gazette.

Having voted for good roads the people of Grayson county want them immediately, if not sooner, and the Denison Herald is obliged to warn them that there is some detail work to be done before work can begin, and they should have brought their hurry forward a year or so ago if in haste.—Beaumont Enterprise.

At last something has come from the work of the penitentiary investigating committee that is definite and tangible. The number of blows that can be struck a state convict has been reduced from thirty-nine to twenty. Who will say now that the legislative committee accomplished nothing as a result of their labors?—Denison Herald.

There are fourteen lunatics in Bexar County jail. This is horrible, but there is no room for them in the asylums and it is dangerous for them to run at large. If some of our statesmen would turn their attention to solving such problems as this instead of quarrelling over Baileyism and prohibition some good might result.—Wilson County Journal.

The State Penitentiary Board recently adopted a resolution reducing the maximum number of blows that may be inflicted upon a convict from thirty-nine to twenty. How tenderly humane! One to whom the tingle left by peach limb or birch upon his boyish anatomy is yet a poignant memory can detect small mercy in this slight reduction of nineteen strokes with a thick, leather strap. For after the administration of a score of blows the recipient is likely to have become callous to all pain.—Amarillo Panhandle.

And now 'frivolity of the press' is 'viewed with alarm' by our own State Board of Health. To such levity is attributed the present shortage in hookworm and pellagra statistics. How sad. If a few editorial lyrics of the light opera sort can run the hookworm to cover and chase the pellagra bug after the retreating boll weevil, what boots it? The spirit of hustle is plumb rampant in Texas, and cold water cornbread is just as popular as ever. Hookworm—pellagra—not a chance!—Fort Worth Star-Telegram.

**PRO ELECTION CALLED.**

Bowie County Prohibition Question to Be Voted March 5.

Texarkana, Feb. 15.—A prohibition election for Bowie county was ordered held March 5 at a meeting of the commissioner's court today. The petition was filed several weeks ago and an effort made to secure a special term of court to have the election ordered prior to Feb. 1 in order that poll tax receipts of 1908 might govern the election, but this effort was unsuccessful, as the county judge declined to order the court together for this purpose. Plans have been laid for one of the hottest fights in the history of the county. The only places in Bowie county where liquor is now sold are Texarkana, New Boston and DeKalb.

The Times is authorized to announce G. C. Rhodes as a candidate for the office of sheriff and tax collector of Wichita county, subject to the action of the democratic primary. Mr. Rhodes is a farmer, residing 9 miles north of Wichita Falls and has been an honored and respected citizen of Wichita county for the past ten years, coming to Texas from the good old state of North Carolina. He has always been a democrat and voted the ticket straight. As to other questions, such as local option, or prohibition, he lines up on the "dry" side of that question, but as that is not an issue in this campaign, he hopes to get the support of all fair-minded citizens who believe in the enforcement of the law, whether they be pro or anti. Mr. Rhodes is qualified for the office to which he aspires, and should he secure the nomination, which is equivalent to an election, will make Wichita county a faithful and efficient officer. The Times takes pleasure in presenting Mr. Rhodes' claims for this office before the people.

By Honest Treatment—We Make No False Promise—Hold Out No False Hopes, But Do More Than I Promise. Investigate Our Blood Cell Remedies—This Will Interest You and If You Are Interested Sufficiently to Call on Us, I Can Convince You By Our Methods, and If I Accept Your Case for Treatment You Can Be Assured of a Safe, Sure and Speedy Cure. Reasonable Fees—I Charge Nothing to Prove That Our Methods Will Cure You—No Patient Charged More Than He Is Glad and Willing to Pay.

The wonderful growth of my business is the result of clean business methods. HONESTY and FAIRNESS are the cornerstones to which I can point with pride in my success, and the solid rock of TRUTH is the foundation upon which my business is built.

After giving you a careful and thorough examination, should I find your case to be incurable, I will not accept it for a cure at any price, and if I tell you you can be cured you may be assured that you will be CURED if you will be as honest with my treatment as they will be with you, for I have had years of special training and experience that many other physicians have not had. I have the ability, and that is what counts. Today the oxcart is laid aside; and instead we have the automobile and trolley cars speeding across the country at a speed that was never dreamed of a few years ago. The courier on horseback is replaced by wireless telegraph. The candle gives place to the electric light, and diseases which meant death a few years ago are now handled with comparative ease. So if the old methods of treatment have led you to believe that nothing can be done for you, it will pay you to investigate the new. We never get too old to learn and you may be surprised at the quickness of your cure.

I want every man to know he is right before he pays a dollar. MY BLOOD CELL REMEDIES have stood the most scientific tests for many years. Weak and Debilitated men can only be made strong by filtering the BLOOD STREAM and nourishing the nerve centers.

Have you Blood Poison, Skin Diseases, Lupus, Rheumatism, Sores, Nervous Disorders, Wasted Vitality, Bladder, Stomach and Kidney Troubles, Varicose or Weak Blood Vessels.

I will cure any case I accept or will make no charge. Scores of Cured Patients my best advertisement, and keep me busy.

### Great is Texas.

The concise estimate of Texas by the editor of Bonds and Mortgages, is worth passing along:

Do you ever stop and think what an empire is Texas? The Lone Star state is bigger than the British Isles, Greece, Denmark, Turkey in Asia, Holland and Switzerland combined; its agricultural endowments are ten times greater than the total areas of those countries; its native mineral and fuel is equal to the whole of Europe's put together, excepting Russia, and it is capable of sustaining a population of more than ninety millions upon its 265,780 square miles of "room."

It has over 400 miles of coast line, and at Galveston a deep water harbor great and safe enough to ride the anchored navies of the world. From Texas to El Paso as the crow flies is further than from Chicago to the Atlantic ocean, and the land that lies between is not surpassed in natural resources and fertility by any equal area in the world. Every flower, fruit, cereal, timber and timber knows to the temperate and semi-tropic latitudes

will flourish upon the broad bosom of this wondrous state.

Texas is not only first in area, but first in the production of cotton, cattle, horses, peaches, pecans, and honey; second in the production of hogs, fourth in railroad mileage, fourth in per capita wealth, fifth in poultry and eggs, and sixth in population. Texas produces over one-third of the cotton crop of the United States and over one-fourth of the cotton crop of the world.

The Full Rendition Law. To the People of Wichita County —Greeting: Doubtless you have, ere this, noticed that Wichita Falls has had the good fortune to secure in August next, the County Judges' and County Commissioners' Association.

That you may share the honor and participate in the welcome, I desire to tell you that they will discuss matters that are of vital interest to you. I do this on my own responsibility, not being authorized by the association to do so.

I think they will try to formulate a plan to prevent future legislation from laying down rules of guidance to county officials that are largely experimental in their nature. The recent past has been prolific in such legislation, and which legislation is not looked upon by county officials with favor, because it does not allow them to treat you with that dignity that your position justifies. I refer to the full rendition law. That you may not be robbed, you list your property at as low valuation as your conscience will allow, and we suffer them to pass by giving your lists the benefit of every doubt, and in some cases, I fear, whether reasonable or not. Thus treating you in effect as the law treats criminals. You take an oath and we take an iron clad one, and notwithstanding this the result is: Listed at \$20.00, selling at \$40.00; listed at 20, selling at 40; listed at 20, selling at 40, in such regularity of recurrence and brain racking monotony as to create a chant most conducive to sleep. If this thing continues a Rip Van Winkle slumber may be in store for some of us. This law should be repealed for your benefit, as well as ours, and especially ours.

A new diagnostician will soon have a chance to prescribe anew for the tax evil, and lest his prescription be worse than former ones, it may be well for us to look after the state of our health in the meantime. I think our association propose to do so. I think they have come to the conclusion that the old remedy is worse than the disease. Anyway, we have in the old remedy an example of history repeating itself; to cure the Confederate soldier or sympathizer an oath of allegiance was prescribed, which oaths they denominated a "Dam nasty one," but most of them took it, and we have taken ours. It may be that theirs, too, was placed on cold storage in some temple of justice for preservation. If not, then ours is worse than theirs, and to describe it needs another "dam" or two added to make the definition accurate.

Even now, with our inflated consciences, the thing is most hideous to us, and is a racking torment. Listed at 20, selling at 40; listed at 20, selling at 40; listed at 20, selling at 40—produces an incongruity of motion that is akin to that of a certain wild beast that walks, first with both feet on its right and then with both feet on its left; both feet on its right, both feet on its left; both feet on its right, both feet on its left, and thus we cross the great desert of experimentation in Texas. M. F. YEAGER, County Judge.

### THE DINING CAR ABROAD

What an American Thinks About the Service in England

A prominent American railroad man who prefers not to have his name published, although he readily vouches for the accuracy of the facts recited, gives the following account of his experience in a table d'hote dining car in Europe some two years ago:

"Dinner was served table d'hote by two waiters in blue cutaway coats, covered with large brass buttons, and whether because of the presence of an unusual number of diners, or for some other reasons (although I am under the impression the conditions were normal), no greater confusion can be imagined than that which followed the efforts of these two men to serve dinner to thirtythree or thirtyfour persons. "The two waiters ran headlong from one end of the car to the other, passengers shouting orders to them, and at times attempting to detain them by clutching at their coat-tails. The courses, while in some cases palatable, were often cold, and always served on cold plates, and because of the haste necessary under the circumstances, and the motion of the car upon its rigid wheels, were served both on the plates and on the tablecloth.

"The bread—the long French roll—was served in sealed paper cases, to insure a measure of cleanliness, but that served to us had been burned in the baking. The same thick lined cups in which the portage was served were later introduced as the demi-tasses with which this extraordinary meal closed, while the warm champagne afforded the waiter an opportunity of giving us a partial bath and receiving our benedictions at the same time. Enough of the wine, however, was served to partially fill three of the heavy tumblers which were provided, but it was tasteless by the time the waiter had returned many minutes later with some ice and extra napkins to repair damages.

"Our daily other experiences with a dining car was on the Italian railroads, where lunch was served. The familiar

One day I read your ad in the Bangor Daily News and I got a box and before it was gone I could sit down to the table and eat anything, thanks to MI-O-NA."—Herbert L. ### MUST WITHHOLD JUDGMENT

President Taft Has Not Yet Had a Full Hearing

Thousands of friends of William H. Taft the country over will include in their New Year's wishes the hope that 1916 will give more power to his elbow. We are not among those ready now to pass finally upon the success or failure of his administration; time will tell that story. We feel strongly too, that sufficient credit has not been given the President for many genuine achievements—the high character of his appointments to office, as a whole; the purifying and elevating of the census; the return to Government by law; his earnest and sincere insistence upon economy in National expenditure. These and other matters will more and more rebound to his credit as the time passes. Yet chroniclers of public opinion must record the widespread disappointment in Mr. Taft's administration to date; the belief in many circles that it lacks vigor and administrative force. People would like to see more of the qualities not of Roosevelt so much as Cleveland; a little less good nature and kindness; and a deal more strength in dealing with situations.—New York Post.

### LET MAUD ALLAN TAKE CARE

Schoolboy Does an Impromptu Salome Stunt

When mischievous little Johnny stuck a pin with its business end pointing skyward in the chair of the lad just opposite and with the control of an Ed Walsh threw a spitball into the eye of little Edna across the room, the pretty teacher in the Gloucester City Schools placed Johnny in a dark closet and kept him there for an hour.

But that's all stopped now. And thereby hangs a tale. One of the youthful pupils in the Hunter Street school cracked a plate over the head of another, and whiff! he was shut in the closet in a minute. It was dark in the closet, but nary a whimper from within its inky patch all the time that the lad was imprisoned there.

Everything must end sometime, so it came the time for the school to close. Johnny went into the closet quite a strapping, but he came out like a roly-poly. He was as fat as a butterball, and his legs had the shape of a Coney Island Camel.

The teacher couldn't account for the mysterious change that had taken place, but she had her suspicions, likewise her curiosity. Also plenty of stationery, lead pencils and various other helpmates to the curriculum, on the shelf, but they were gone.

She called another teacher in the conference and after a little judicious questioning Johnny looked like Salome just before she removes the seventh veil. His excessive girth came from a bunch of stationery that he had hidden within his shirt. The acute angles that he possessed under his stockings came from a couple of gross of lead pencils.

As each garment came off more supplies came out. The teachers made Johnny dress again, and asked the questions that brought a change in the place of punishment.

The reason why the school was so unruly is declared to have been because the boys wanted to go into the black hole in order to get the stationery to sell and buy cigarettes with the photos of diamond heroes thereon.

Now the unruly children go home to father and the strap.—Brooklyn Times.

Now, just a moment—it is not my intention to be disagreeable, but I believe that I can cause it to be much more satisfactory. How would you like to have twice as much light or the same amount of light, twice the number of hours, or twice the number of lights the same hours, at less than the present cost? Isn't that fair enough? Make a suggestion.

**FUNERAL ON A SLED.**  
Many Suburban Trains Literally Dug Out of the Snow.  
Pittsburg, Feb. 15.—Suburban roads and communities are being literally dug out of the snow drifts and the traction company's snow plows are disclosing many thrilling experiences. Between Etna and this city five cars were stalled in 12-foot drifts, many of the passengers being Saturday shoppers on their way home with baskets of provisions for Sunday dinner. In two of the cars the passengers spent Sunday, supplied coffee and lunches by the company. Many churches in the surrounding communities abandoned attempts to hold services. For a time it was thought the funeral of John Koenig of Indiana township would have to be suspended as the undertaker was unable to reach the house, but the casket was finally borne away on a sled.

Huff the property on the northwest corner of 6th street and Indiana avenue, now occupied as a wagon yard, for a consideration of \$7000. The purchaser will erect on this property at once a modern brick livery stable, which will be leased by John G. Gilbert, who will vacate the site where his barn now stands in order to make room for other property, the nature of which is not yet known to the public.

Yesterday's issue of the Fort Worth Star-Telegram contains an interesting article about Wichita Falls, special attention being paid to the diversified farming in this section. The article was written by Carl Crow who has been here securing data for a series of articles about this city.
