MAY HAVE MET DEATH WHEN SLIDE STRUCK MINING SET-TLEMENT.

Some Were Gotten Out Alive, But Many Will Not Be Recovered For Several Weeks.

By Associated Press. Waliace, Idaho, Feb. 28.—An ava lanche descended on the mining town of Mace, near here, last night with a roar that was audible five miles away and buried in its path twenty-five families or about one hundred persons.

How many of these were killed has not yet been learned and perhaps will not be for many days, as the snow is reported to be from fifteen to seventyfive feet deep in the canon. Twelve dead boides are reported recovered and twenty-five people have been taken out alive and others may be res

cued in time. It is feared, from the latest reports, that the number of buried will run as high as three hundred. Fifteen houses are reported to have been swept away complete and three box containing fifty section hands of the Northern Pacific Railway, which were standing on the track when the slide occurred, are also said to have een submerged in the drifts.

By Associated Press.
Spokane, Feb. 28.—At five-thirty o'clock this morning another terrific landslide rushed down on the village of Burke, a town of nine hundred inhabitants, crushing a score of houses under earth and snow and killing and mangling many people. Up to noon today fourteen bodies had been recovered from the ruins at Mace, and sixteen dead were found at Burke. The total dead at the two places is conservatively placed at between fifty and sixty people.

By Associated Press. Spokane, Feb. 28.—There are now fifty known dead caused by the landslide at Burke and Mace, Idaho, which

took place early this morning.

"IN GOD'S NAME, STOP" WIRES NEILL TO THE FARMERS OF TEXAS 100 1.

By Associated Press. Washington, Feb. 28.—D. J. Neill, former president of the Texas Farmers' Union who is here, fighting for the law knocking out cotton exchanges, today wired Taylor McRae of Fort Worth as follows: "If the Texas Farmers' Union recedes from the National Union it will destroy all hope of legislative reform. In God's name stop and think before the fatal step is taken. Stop secession. D. J. Neill." The plan to withdraw from the National 'association is now being voted on by the local unions throughout the state and Neill believes no National legislation can be secured for farmers if the proposition wins.

INCREASE PROSPERITY OF CITY IS SUBMITTED.

Second Monthly "Brag" Finds Many Additions to Wichita Falls' Civic Greatness.

On the 31st of January, the Times printed a list of the "good things" that had come to Wichita Falls since the first of the year and the showing was considered an excellent one. February ends today and the fact that it was the shortest month of the year did not prevent there being many new material evidences of progress since the last of January. The list which is sub-mitted below is one of which every Wichitan may be proud and when it is coupled with what was gained during January, the total for the two months of 1910 that have elapsed makes a splendid showing. The list follows: Carroll Brough and Gates wholesale

Wapples-Platter wholesale grocery. Election ordered for \$40,000 in school bonds.

Company formed for cheaper manufacturing gas. Real Estate Men's organization per-

ected.

Moore-Richolt planing mill, \$25,000. Company formed for Northwestern extension to Hollis. Morgan and Sons packery, about

Contract closed for boys' school. Election ordered for new paving law,

Live stock farm at Lake Wichita. Extension of Wichita Falls and Northwestern to Lawton, giving direct onnection with St. Louis, assured. Nearly \$200,000 subscribed for di-

ect line to Oklahoma City. Local stock company organized to drill for oil in immediate vicinity of Wichita Falls.

Swift & Co, branch poultry house. To this list might be appropriately added the fact that Wichita county led the state in poll tax payments increase. This list includes only the acquisitions up to noon today and something new might be added during the few hours of the month remaining.

The Times will state, upon good authority, that it will be able to record on March 31st, one of the best "good things" that has ever come this way. The announcement of this will probably be made very shortly and it will be a big one.

LOOKS LIKE GERMANY IS GETTING READY FOR FIGHT WITH ENGLAND

Texas News Service Special.
Fort Worth, Feb. 28.—Whether or not she is preparing for war with England, Germany is apperently serving notice on all her available citizens in the United States to report for examination to decide if they are still fit for military duty. In view of that fact that this order was never before is-sued and considering the strained relations between these countries, this development is full of significance and shows that Germany is getting all her forces lined up in case a conflict comes. At least one hundred German citizens in Fort Worth who failed to serve the allotted time in the German army have been called upon to submit to an examination. A number of unnaturalized citizens have also been requested to report to the German Consol at Galveston and have transportation to the Fatherland supplied.

Further investigation today developed the fact that a number of English men here who belong to the British Naval Reserves were ordered to report to the English Consul at Galveston, and that they have gone there.

More Arrests Expected. By Associated Press. New York, Feb. 28.—Capiases for the

arrest of the indicted meat packers and summonses for six indicted meat corporations were ordered today by cutor Garvan of New Jersey.

For something better than ordinary

Enthusiastic Mass Meeting Appoints Committee to Take Charge—Oklahoma Towns are Ready.

A strong impetus was given the di-rect to Oklahoma City railroad propo-follows: sition at a well-attended mass meeting at the court house this afternoon and ready to put the matter through from Red River to Oklahoma City, if Wichita Falls would attend to matters on this side of the river.

A committee consisting of twenty of the leading stockholders in the company was appointed to act as an informal board of directors and this committee is in session this afternoon. The total stock subscriptions now totals \$167,500, with about sixty thousand more that has been promised, but not signed up for.

The meeting was called to order by President R. E. Huff of the Chamber of Commerce, who asked Judge A. H. Carrigan to explain the purpose of the meeting. Judge Carrigan in a short and stirring speech stated that it was felt that the time had come for concerted action for a direct line to Oklaoma City by the nearest route. He called attention to the fact that Wichita Falls got only the over flow homeseekers by reason of her not being on a trunk line and that this feature made the proposed line a desirable one. He expressed confidence in the ability of Wichita Falls to put the proposition through.

It was necessary, he continued, to have sound men at the head of the enterprise and he nominated R. E. Huff, who was elected by a rising vote.

Mr. Huff stated that while it was very gratifying to see such an expression of confidence, he did not wish to say that he would serve until matters were gotten on a more substantial business footing. He thought the proposition practical, he said.

Jim Marlow moved that a committe Texas News Service \$17.500 additional paving bonds and of seven be appointed to take tempor-\$4000 city hall bonds carried, about 10 ary charge of the matter, but at the suggestion of John Tandy this number was increased to twenty.

Job Barnett took the floor for a short but spirited talk, in which he called attention to the fact that this was to be a road for the less wealthy class of citizens, where every stockholder would have equal protection. He predicted that it would be a grand success from the start and, citing the names of those who have subscribed, he said it ought to inspire anyone to 'get in with that kind of a gang." Mr. Barnett's remarks were very favorably

A committee consisting of Messrs, was appointed to solicit subscriptions in cooking the noon meal. from those present. Chairman Huff announced the per-

The feature of the C. W. Bean, T. B. Noble, J. D. Avis, meeting was the announcement of Job Barnett, Wiley Wyatt, N. C. McIn-Dr. Green of Walters, Oklahoma, that tyre, Myles O'Reilly, J. W. Roling, H Oklahoma parties were practically B. Hines, T. J. Taylor and T. J. Wag-

> Dr. Green of Walters, Oklahoma, was called upon and he said that he with several others had come to Wichfta Falls today to get acquainted and to see if some plan could not be reach ed whereby the Texas and Oklahoma plans could not be united. He had been working for eighteen months upon a proposition for a road from Oklahoma to Southwest Oklahoma, the chief objection being to the Oklahoma constitution's anti-railroad provisions. These, he explained, had been practically overcome by securing the charters of some old proposed roads that taken out before Oklahoma became a state and which were therefore not enbject to the constitutional provisions. He and his associates, he continued, were about ready to take care of the road from Oklahoma City

to Red River. The meeting then adjourned the ommitte remaining in session.

'The First State Bank at Burkburnett, has filed its charter of dissolu-tion with the secretary of state at Austin. '

WICHITA FALLS TO BECOME STILL MORE OF A POULTRY SHIPPING POINT.

Branch Will Be Installed Here Within the Next Few Weeks By the Company.

Swift and Company of Fort Worth will shortly establish a branch house in this city for the handling of poultry, according to W. B. Henderson, head of the produce department of the great TWO FATALITIES TODAY AND INCREASING LIST OF INJURED

Dacking company, who was here yesterday. Mr. Henderson came to Wichita Falls to look into the matter and was not long in deciding that this was the best location for the branch. He has already been able to secure a building.

The purpose of the branch is to more expeditiously handle crickens, turkeys, and poultry, which will be received here and shipped to the Fort. Worth plant to be killed and dressed and packed. It is believed that if the Wichita country raises enough poultry. to keep the branch going, it will be gradually enlarged until there is a large house here. Wichita Falls shipped thousands of chickens and turkeys poultry raised in this section to justify

The fact that Wichita Falls is rebona fide effort to arbitrate the strike. along this line if the branch makes

ADAMS APPOINTED.

Succeeds Holton as District Attorney for North Carolina.

By Associated Press.
Washington, Feb. 28,—It was announced at the White House today that Spencer Adams a republican state chairman of North Carolina will be appointed district attorney for the Western district of that state succeeding Alfred Holton.

SUBJECT OF INITIAL LEGTURE LAST NIGHT

The First Presbyterian church was packed to its capacity last evening for the first of the series of the lectures on the Ten Commandments, given by the pastor, Rev. J. L. McKee. The first lecture dealt with the First Commandment.

There were four classes of men, con-B. F. Teague as chief clerk of the comptroller's department.

There were four classes of men, counting to their ideas of divinity. The first was the atheist, who denied the existence of a God at all; the second was the deist, who acknowledged God's part in the creation of the universe, but disowned Him as a factor in our lives today; the third was the agnostic, who admit-ted the possibility of there being a God, but did not know Him; the fourth was the thiest, entertaining the Christian conception of God. Dr. McKee discussed each of these classes at some

Cor. Ind.

Wichita Falls Texas

OKLAHOMA CITY READER SAYS IT IS BEST TO MAKE A SMALL BEGINNING.

That Was the Way St. Joseph, Mis souri First Secured Her Pack-Ing Plant.

The streets are going to be paved in Wichita Falls whether Poindexter is elected governor or not. Cone Johnson may be the successful man, but we are going to work for that packing plant just the same. We are going to keep the fair in mind, even if Davidson should win. Colquitt's election won't interfere with the erection of that five-story office building-don't talk politics to us; we are busy.—Wichita Falls Times. Mr! Editor:

I see by the above article that your town is boosting for a packing plant. A small packing plant in your town with a capital of from seventy-five to one hundred thousand dollars would greatly help make a city out of your town. I have been in and spent the best part of my life in a city, boosting for the upbuilding of her town. The city of St. Joseph, Mo., when she began in the packing business, first located a small house, known as the Morran Plant, and then another, until there was three, then the large packers, such as Swift and Company, the Hammon Packing Company and Morris and Company began to take notice and come to her rescue and she is now one of the greatest packing towns in the United States of America.

First, do not reach beyond your limit. I would say that as I know Wichita Falls would be the location for a plant the size I mentioned. You could not locate a packing plant in your town such as I named in St. Joseph, Mo.; not until you show them that your country around would sup-port a smaller house now, for the good of the town.

A packing plant would employ from seevnty-five to one hundred men, with an average wage of from \$15 to \$20 per week. What a working man earns, that he also spends. These men are not men that you have in your city at the present time; they will be skilled laborers with years' of practice. That means more real estate sold or rented. It also means a ten to fifteen per cent increase in trade; also, a greater bank clearing than your city has ever seen. A plant the size of the one I mentioned would mean from eight to twelve cars of hogs per week and thirty to forty cars of cattle per day; would save shipping meats from other towns. Another important side of the local packing business means government inspection. Government inspection means sanitation; sanitation means health. Look at the government report and you see the tuber culosis condemned hogs and cattle; ask local physicians ons on same.

Please pardon me for writing this, but I like to see any city prosper. Get the plant or break the yoke. Oklahoma City, Feb, 25, 1910.

Terrible Croup

My little boy who is four years old, has suffered a lot with croup. On several occasions we thought he was gone.

After trying all the old time remedies and most of the new, I came home one night at midnight and my wife said: "The boy has croup againsuppose you get a bottle of Hyomei." 'More junk,' I said, 'but we will circulate our money so they all will get some."

I hastened to an all night drug store, brought it home. In five minutes he was breathing easier. In fifteen minutes he was sound asleep. It broke the croup so quickly it scared me.

Anyone wishing to cure the croup of a child I hope will give Hyomei a

Thrift and Economy Go Together.

Wherever you see things about a farm that indicate thrift, you may be positively certain that the owner of that farm practices economy. He knows it is cheaper to have good, comfortable barns, sheds, pens, chicken houses and other outbuildings than it is not to have them. The cost may be a little burdensome at the time, but he knows that they are a mighty good investment, and he has them, whatever the cost.

Possibly YOU need more buildings, but fear the cost is too great. Don't you believe it would be a good idea to come in and let us tell you exactly what the cost would be? The chances are that they won't cost as much as you imagine. We are offering especially low prices at the present time.

Montgomery. of it, we aer prepared to believe that your town certainly deesrve much credit for the way in which they hanand bread, but that you have enough died the crowds of visitors and for the gas to furnish us light and heat for pleasant time they all had. It was certainly hard work for you and the others of the entertainment committee and I trust that you have taken a good rest since it was over. I think it will be a big advertisement for Wichita Falls, as a great many of the visitors did not really understand how

bright your prospects were. Yours truly, HENRY JAMES,

Fort Worth, Tex., Feb. 25, 1910. Mr. W. M. McGregor, Cashier,

Wichita Falls, Texas. Friend McGregor:-We take this oc casion to express our high appreciaeion of the courtesies received at your executed with remarkable ease and hands at the recent meeting in your precision; not a single 'hitch,' so You and your associates cercity. tainly entertained your guests in a royal manner, and you are to be congratulated for the very progressive spirit that exists in your city. Every body enjoyed themselves, and they all went home feeling that they had visited a live town and that they had been

entertained by a live crowd. vone matters Hoping that gressing to your entire satisfaction, we are, with kindest personal regards,

Very truly yours, BEN O. SMITH, Cashier.

AMUSEMENTS

"St. Elmo." Dramatizing a popular novel results either in a marked success of pronounced failure, according to the merit of the dramatist and the spirit in which he approaches his work. Some

masters of technique regard the book merely as an inspiration and disregarding the sentiments of the author, place their own valuation upon character and influences with the result that a play is produced which antagonizes the admirers of the novel.

It was with no such purpose that Neil Twomey approached the dramatization of Augusta J. Evans' 'St Elmo." He saw in the book a story of life in the south, told as only a southern writer could tell it. He perceived in the character of 'St Elmo a complex psychology that would tax to the utmost his technical resource and literary skill. Thoroughly imbued with the vast possibilities of his hero from a dramatic point of view, he has carefully refrained from altering the type as drawn by the au thor and has labored earnestly and with excellent results to reproduce exactly the character as originally drawn. It was impossible to improve upon the work of the creator of 'St. Elmo' and his effort has been directed toward reproduction and realization of this most fascinating central figure. A unique dramatic type which gains in power through contrast with others in

It is a difficult task to reproduce exactly in dramatic form the narrative of a novel where the author unhampered by the limitations of the stage is permitted a diversity of scene complexity of detail denied the dramatist. But Mr. Twomey has succeeded in retaining all of the central incidents without material change, while he has preserved the exact note of realty, the simplicity and charm of the

The character of 'St .Elmo'' offers rich possibilities and the chief aim of the dramatist has been to preserve the charm of this man turned against the world and himself by early disappointment. He has drawn with loving and sympathetic care a life-like por-trait of the author's creation and surrounded him with the leading characters of the book interpreted with the same careful adherence to the original Even the atmosphere of the south has been rigidly preserved and Mr. Twomey's 'St. Elmo' stands one of the most sympathetic and acceptable to the latset methods of the scientific treatment of horses, dogs. curate realizations of any popular cattle and livestock of any kind. Of-novel, and "St. Elmo" is popular in a greater and more lasting sense than any of the six best sellers of the current day. It is a book that has en

dured for years, finding favor with each new generation of readers, be-cause 'St. Elmo' is something more than merely a novel. It is a study of the people of the south where romance reigned untainted in the days before the war, when Chattanooga was a village and before the influx of northern capital had entirely changed the complexion of the country.

In selecting the cast for this play, Mr. Twomey, under whose personal supervision the production has been made, exercised the same care in engaging the various players as he used in reproducing the types, with the result that author and actor alike, contribute to an accurate preservation of the atmosphere of the book. It is not the dramatization of a novel-it is the transfer of the personages from the page to the stage.

Mr. Twomey's 'St. Elmo' will be seen at the Wichita Theatre for a re turn engagement on tomorrow night.

CITY OF MONTGOMERY" ENTERS WATER AT HAMPTON ROADS

Special Cooling and Heating Devices Prepared for Comfort of Pas-

By Associated Press. Newport News, Va., Feb. 28.—This city was enlivened today by the presence of numerous guests from the south and north, gathered to witness the ceremonies attendant upon the launching of the handsome new passenger steamer, ''City of Montgom-ery,'' for the Ocean Steamship Com-pany of Savannah. As the vessel rose gracefully down the ways and into he historic waters of Hampton Roads from the yards of the Newport News Ship Building and Dry Dock Company, the time-honored ceremony of break-ing a bottle of champagne over her prow was performed by Miss Helen Camp Steiner of Montgomery, Ala., danughter of Major R. E. Steiner and the ship christened in honor of the capital city of Alabama.

Nearby in the stocks of the ship ouilders rested the vessel's sister ship, which on March 15th will be given her initial dip and chirstened 'City of St. Louis.' These two vessels will be notable additions to the Atlantic coastwise fleet when they are commissioned early this summer in the service of the Savannah Line between Boston, New York and Savannah. It was a realization of the gradually increasing industrial development of the south and the need of better transportation facilities for its growing coastwise trade that brought about the building of these two fine steamers.

In point of comfort for passengers and in cargo-carrying capacity the City of Montgomery and her sister ship will equal any steamer in the coastwise service. Both will be equipped with every useful appliance known o present-day marine architecture, in luding the wireless telegraph.

One pleasing feature in the new hip is the arrangement of the dining saloon. This is located at the forward end of the hurricane deck-house and will afford every passenger while at meals an unobstructed view of the ocean and large air ports will insure every diner a good view and plenty of fresh air.

With their twin screws these two new ships are expected to be able to set a pace which their coastwise companions will find it difficult to attain. They are spacious vessels of 6,200 tons each, 404 feet in length, beam of nearly 50 feet and draft line of 18½ feet when loaded. Water-tight compart-ments with bulkheads closed at an instant's notice make the vessels practically unsinkable.

Accommodations are spacious cabins for 136 first-class, 36 intermediate and 57 steerage passengers. Hot and cold fresh and sea water baths are provided in ten suits while throughout the ship are conveniently located dozens of other baths. In the cabins will be found ceilings so high as to surprise the seasoned traveler.

Problems of their own had the de signers of the City of Montgomery and City of St. Louis. For the Savannah Line, being in the north-south trade, must face unusual conditions. At no time in the year do these vessels enter or leave the port of Savannah in the same temperature that they do in that of New York. Therefore, in the building of these ocean-going hotels it was necessary to provide for the winter frigidity of New York, as well as for the warm breezes of the south-ern pert. Electricity will cool and ventilate the state rooms in the summer and the heating and ventilating systems for the winter will be com

L.H. LAWIER PROP

Navy Men Roused by Explosions on the Hopkins and Other Vessels.

Sensational revelations in the navy department are predicted as one result of the explosion on the torpedo boat destroyer Hopkins at San Diego, in which one sailor was killed and seven badly injured. It is asserted that the explosion on the Hopkins, numbering four in the past ten months, and similar occurrences on the armored cruiser West Virginia and the monitor Cheyenne have been the result not of accident, but of design. The old dispute between the line and the staff officers of the navy is said to be at the bottom of the mishaps. Enmity toward Naval Constructor Evans, who holds the rank of lieutenant commander and who fitted out the Hopkins at the Mare Island navy yard, San Francisco, is also mentioned in connection with the disaster to the little craft. When the Hopkins was over hauled some time ago it was found that some of her bailer tubes were plugged, either through accident or design. The explosion that killed and injured the sailors was attributed to ''defects in a boiler tube.' Naval Constructor Evans, who designed the Prometheus, one of the navy's two biggest colliers, now nearing completition, came into the public notice a year ago when he obtained a divorce from his wife, naming Lieutenant Franklin W. Osburn, Jr., another naval officer

SNAPSHOT OF DR. HYDE, CENTRAL FIGURE IN SWOPE CASE, WITH HIS ATTORNEYS.

Pending the deliberations of the special grand jury called in Kansas City, Mo., to consider the case of the death of Colonel Thomas H. Swope, the attorneys of Dr. B. C. Hyde, accused by the coroner's jury of causing the aged millionaires death by means of strychine, administered either with intent or without, took steps to safeguard the interests of their client. After the coroner's jury declared their belief that the demise of the philanthropist was brought about by the husband of his niece Dr. Hyde was arrested and released on \$50,000 bail. The picture is a snapshot taken immediately after the \$50,000 bail was deposited. It shows the following, from left to right; Attorney Frank P. Walsh, chief counsel for Dr. Hyde; Colonel Johnson, Mrs. Hyde's lawyer; Dr. B. C. Hyde (marked with an arraw) and attorney Cleary, one of Dr. Ryde's lawyers. Soon after Colonel Swope's death, which occurred Oct. 3, 1900, several relatives fell ill of typhoid fever. One of them died. Dr. Hyde attended Swope in his last illiness and experts have reported that strychine was found in his liver.
