VOLUME 3

WICHITA FALLS, TEXAS, WEDNESDAY, MARCH 2, 1910

NUMBER 250

## WEEKLY SESSION OF THE REAL ESTATE ASSOCIATION

### COMMITTEE APPOINTED TO TAKE GOOD ROADS QUESTION UP WITHOUT DELAY.

### SEND CROWD TO CHARLIE

County Fair Proposition Is Endorsed and Action Taken on Other Pending Matters.

The usual interest and enthusiasm prevailed at the weekly meeting of the Real Estate Association yesterday afternoon and several matters of importance were given attention. The meeting was held at the office of Stehlik & Johrendt and was attended by about twenty-five real estate men. President Marlow, in calling the meeting to order, brought attention to the fact that the association had already accomplished something and that by concerted and consistent effort more could be done. The direct-to-Oklahoma-City proposition, he said, would never have received attention had it not been for this organization.

Judge A. H. Carrigan, who was present, was called upon for a talk and he spoke briefly, commending the work of the organization and emphasizing the need of organized effort. It argued well for the future of Wichita Falls, he said, when the real estate men got together in such a movement. The committee to solicit for those to send the local papers to prospective settlers here reported that several hundred copies had already been contracted for.

The county road question was brought up and discussed at some length and the need of some effort for improvement along this line was emphasized. A committee to consist of Messrs. C. W. Bean, R. M. Moore and Job Barnett was appointed to take this matter up with the directors of the Chamber of Commerce on next Tuesday. A precinct bond election was the method favored by those present.

A resolution endorsing the plan to hold a county fair and promising all necessary co-operation and support was adopted. It was decided to call upon all who could possibly get away to attend the meeting at Charlie tomorrow and Jim Marlow was appointed to see that Wichita Falls was well represented. The question of having new and accurate maps of the city and county made was discussed and the need for them dwelt upon, but no action has been taken as yet.

### TO ESTABLISH SCHOOL.

'Disciples of Christ' Are at Thorp Springs Today.

Texas News Service Special. Granbury, Tex., Mch. 2.—The 'Disciples of Christ' held a state meeting at Thorp Springs today and took over the property of the Add Ran College, which they recently purchased. The name was changed to the Thorp Springs Christian College and it was decided to raise an endowment fund of one hundred thousand dollars.

### STEAMER CREWS STRIKE.

Service Is Blocked and Mails Are Tied Up.

By Associated Press. Manila, Mch. 2.—Following the refusal of the owners to grant a series of demands the crews of the inter-land steamers struck today, tying up the vessels and holding back the mails.

## CHARLIE RIVER ROAD NOW ONE OF THE BEST IN NORTHWEST TEXAS

If the Charlie river road, which was recently graded and improved for a large part of its length, can be duplicated in other parts of the county, the good roads question in Wichita county is solved. The county judge, under the direction of Ed Gardner, recently completed the improvements on this road and it is pronounced one of the finest country thoroughfares in the state. It was given a liberal coating of gravel and the farmers residing in that direction are more than pleased with the results. It is believed that the construction of this road will materially facilitate the carrying on of the good roads movement which is to be inaugurated soon.

### PEARY WILL NOT GO.

Declines Fielding's Invitation For Another Trip.

Texas News Service Special. Washington, D. C., March 2.—Lieut. Robert E. Peary, when asked by a Texas News Service correspondent today if he would accept the urgent invitation extended him by Dr. Fielding of San Antonio to accompany him in a balloon to the north pole, declared he would not go. Fielding is serious in his plans and wanted Peary to accompany him for the double purpose of proving that Peary reached the pole and to prove that the balloon reached there. Peary said that he may make a dash to the south pole.

### SERGEANT PROMOTED.

Will Succeed Tom Ross as Captain of Rangers.

Texas News Service Special. Austin, Tex., March 2.—M. E. Bailey, a sergeant in Captain Rogers' Company has been appointed to succeed Tom Ross as captain of the Rangers at Yuletta. Bailey was promoted to sergeant ten months ago.

## TOWN OF CHARLIE WILL CONSIDER RAILROAD MATTER AT MEETING

In telephone conversation with parties at Charlie this morning, Jim Marlow was informed that the citizens of that community would be ready for the Wichita Falls delegation at the mass meeting there tomorrow. This meeting will be held at 2 o'clock in the afternoon and will be attended by the residents and farmers of the Charlie community, as well as by a number from this city. The Wichita Falls delegation will probably number fifteen, who will leave here about 12:30 making the trip in automobiles.

While it is not known what Charlie is prepared to do to secure the Oklahoma City railroad, it is believed that she will do her part at the meeting tomorrow. The residents there seem enthused over the matter and are determined to land the road.

### FATAL MISTAKE.

Farmer Thought Employee Was a Chicken Thief.

Dallas, Mch. 2.—M. Brown, a farmer near Hutchins late last night mistook a young man named Lucas his employee for a chicken thief and fired, probably fatally wounding him.

## LIQUOR FELONY LAW IS PARTLY KNOCKED OUT IN THE HIGHER COURT

Texas News Service Special. Austin, Mch. 2.—An opinion handed down by Judge Ramsey of the Court of Criminal Appeals today partially knocked out the law passed by the last legislature making the sale of liquor in local option districts a felony. Ramsey in reversing and remanding the case of Love Lewis from McLennan county, held that the law is ineffective except in territory which adopted local option since the law was passed. This makes the felony law inoperative except in the few counties which became local option districts since the early months of 1909. Ramsey holds that where local option was adopted before the felony law was enacted, it is doubtful if such districts would have adopted local option. Lewis was convicted and sentenced to serve a year of his former trial.

### NEW HIGH RECORD.

Fort Worth Hogs Getting Nearer Ten Dollar Mark.

Texas News Service Special. Fort Worth, Tex., March 2.—Prices of hogs again broke all previous records today, bringing \$9.70 per hundred weight on the local market. It is predicted that the ten dollar hog will be seen before the week ends. Hogs also broke the record in Chicago today, where they brought \$10.65 and in Louisville, where they brought \$10.10. This is the eighth time the record has been broken in this city within the past few weeks.

By Associated Press. Chicago, Mch. 2.—Three car loads of hogs here today sold for ten dollars and ten cents a hundred.

By Associated Press. Louisville, Ky., March 2.—Hogs sold for ten dollars a hundred here today.

## SCURRY CALLS ON CITIZENS TO HELP

ASKS THEM TO LAY ASIDE ALL PREJUDICE TO ASSIST IN ENTERTAINING COLQUITT.

### WILL BE GUEST OF ALL

Requests Them to Help to Make March 17 an Occasion That Will Do City Credit.

Judge Edgar Scurry, who has charge of the Colquitt campaign for Wichita County, has issued a call to the citizens to help in the entertainment of O. B. Colquitt, when the distinguished candidate opens his campaign for governor in this city on March 17. Judge Scurry believes that partisanship should be shelved while Mr. Colquitt is in the city and that all should unite to make the occasion one that will do Wichita Falls credit.

To the Citizens of Wichita Falls and County:

There are four distinguished citizens of Texas, who are candidates for governor.

One of them the Hon. O. B. Colquitt, has done our city and county the honor of selecting Wichita Falls as the place in which to make the formal opening speech of his campaign.

He will open his campaign here on "St. Patrick's Day, March the 17th, 1910. On that day Mr. Colquitt will be the guest of Wichita Falls and Wichita county; and Wichita Falls and Wichita County know and always do their duty by her guests as they do in all other matters.

He is not the guest of any one man or set of men, but the guest of the entire city and county, and all citizens will be asked to help entertain him; democrats, republicans, prohibition democrats and anti-prohibition democrats. The fact that you are asked to act on committees or to sit on the platform with Mr. Colquitt, will in no wise commit you to Mr. Colquitt in his race for governor. But on "St. Patrick's Day" we will all be for Mr. Colquitt, our guest.

Afterwards, each of us, as all good citizens should, will decide for himself, who in his opinion, it will be to the best interest of Texas to elect governor, and then go ahead and work and vote for that man, and when the fight is over, we will have the best man for our governor.

Come and help entertain Mr. Colquitt and if you like us afterwards that will be all right—we will be good friends and continue to build Wichita Falls and Wichita County, the best city and county in Texas.

Yours truly,

EDGAR SCURRY.

### REPORTED FAVORABLY.

Inauguration Date May Be Changed to April.

Texas News Service Special. Washington, Mch. 2.—The House Judiciary Committee today decided to unanimously report Representative Henry's resolution changing the date of the presidential inauguration from March Fourth to the last Thursday in April. The resolution also provides for the discharge of presidential duties when the executive is disabled. Congress to appoint a person for such duty.

## DENVER GETTING READY FOR IMPROVEMENTS; RIGHT OF WAY HAS BEEN ORDERED CLEARED NORTH OF SIXTH STREET WITHIN THIRTY DAYS

If any further evidence that the Fort Worth and Denver is planning some big improvements in Wichita Falls were required, it could be supplied today, when it was learned that all the property owners on the Denver's right of way north of Sixth street had been ordered to move of at once.

The concerns affected by this order include the J. G. Jones Grain Company the Maricle Coal Company, the Waters-Pierce warehouse and tanks and several other small concerns. They are to be moved off within the next thirty days, if possible.

It is no longer a secret that the Denver has something big in store for Wichita Falls and the announcement of just what this city is going to be awaited with much interest. While

## GROCERY COMPANY INCREASES STOCK

AMENDS CHARTER, INCREASING CAPITAL STOCK TO SIX HUNDRED THOUSAND.

### FIRM NAME IS CHANGED

Will Hereafter Be Known as Blair & Hughes Company—Local Men Own Stock.

At a meeting of the stockholders of the Coleman-Lysaght-Blair Grocery Company yesterday afternoon the capital stock of the company was increased from two hundred thousand to six hundred thousand and the name of the concern was changed to hereafter read "Blair & Hughes Company."

It is announced that Messrs. Wiley Blair, J. A. Kemp and Frank Kell of this city have acquired the holdings of George Ashwander and Ed H. Lysaght in the company. These gentlemen now own all the stock of the company, except that which is in the hands of trusted employees. The stockholders at their meeting yesterday elected the following directors: Wiley Blair, Frank Kell, J. A. Kemp, Herbert Hughes and Frank Blair. The directors then elected the following officers: President, Wiley Blair; Vice-Presidents, J. A. Kemp and Frank Kell; Secretary, Herbert Hughes; Treasurer, Frank Blair, and D. P. Woodward, assistant secretary and treasurer.

The entire business of the company at Wichita Falls, Dallas, Quanah, Amarillo, Plainview, Seymour and Altus will be transacted as one corporation under the name of the Blair & Hughes Company. The headquarters will continue in Wichita Falls.

As stated above the charter of the company was amended so as to permit its capital stock to be increased from one hundred thousand to six hundred thousand dollars.

The taking of this step is an evidence of confidence in the future of Wichita Falls that is unmistakable and carries out the policy of these gentlemen in standing for Wichita Falls at all times. To be the headquarters of a concern of the magnitude of this one is an honor that does not often fall upon a city of this size, but by the consistent support of this company the people of Wichita Falls have an opportunity to show this city's worthiness in that respect.

The tremendous volume of business transacted by this concern for the past few years, with strong competition in every part of its territory competing for business, can be imagined from the fact that during its existence and up to the present time its surplus fund had grown to the extent that it was equal to the capital stock. The people of Wichita Falls and of this section of the state have stood by this company nobly, and the company has always appreciated this fact, and for that reason, perhaps as much as for any other, it shows fresh evidence of this appreciation by continuing to hold its principal offices in this city.

### FIRE COMPANIES WIN.

Supreme Court Says They Have to Make Only One Bond.

Texas News Service Special. Austin, Mch. 2.—The Fire Insurance companies won a victory today when the Texas Supreme Court overruled the motion of Insurance Commissioner W. E. Hawkins for a rehearing in mandamus case in which the Aetna Insurance Company resisted the commissioners ruling requiring two bonds from the companies instead of one as heretofore.

### MOB AFTER PRISONER.

Tries to Lynch Alleged Murderer of Chauffeur.

Texas News Service Special. Oklahoma City, Okla., March 2.—A party of the chauffeur friends of Arthur Ross, who was murdered recently, formed a mob early this morning and went to the jail at Norman, where they demanded the prisoner, L. Fries, who is accused of the crime. The authorities had anticipated the visit and when the men arrived Fries had been spirited away.

## THIS IS ANNIVERSARY OF DECLARATION OF TEXAS INDEPENDENCE

Today is the seventy-fourth anniversary of the declaration of Texas independence and is a legal holiday in this state. It is being observed locally by holiday hours at the postoffice and by the closing of the banks. The schools are holding classes as usual and the occasion is not being observed by them. In some parts of Texas the day is being observed with completeness, patriotic exercises being a feature.

The occasion marks the anniversary of the formal freeing of Texas from Mexican rule and bears the same relation to the history of the Republic of Texas that the Fourth of July bears to the United States.

Texas News Service Special. Austin, Tex., March 2.—All the state departments are closed today in honor of Texas Independence Day, it being the seventy-fourth anniversary of the state's declaration of independence. The students of the Texas University fired a salute of 21 guns from the old cannon on the capitol grounds. Patriotic exercises will be held this afternoon. Lieutenant Governor Davidson will speak.

## MUCH SUFFERING FROM FLOODS IN NEW YORK AND OHIO AT PRESENT

By Associated Press. Cleveland, Mch. 2.—Fully one thousand persons are homeless and other thousands are living on the second floors of homes, traffic is impeded and business is demoralized in many places, is the situation in Ohio today is a result of the recent floods. While the water has receded somewhat, most of the River Valleys are in danger from the ice gorges that still remain.

By Associated Press. Columbus, Ohio, Mch. 2.—Fifty families were driven from their homes at Coshocton today by the Muskingum river. The flood has broken into the pumping station of the water works.

By Associated Press. Little Falls, New York, Mch. 2.—The waters of the Mohawk river which inundated the streets of Herkimer two days have today fallen a foot, but are still deep in the principal streets now. Dynamite will be used today in an effort to blow up the gorge in the Mohawk river. The Mohawk division of the New York Central between Utica and Albany is temporarily abandoned.

By Associated Press. Seattle, Mch. 2.—Water from melting snow in the mountains augmented by rains had made torrents of all the streams in central and western Washington. Today the towns in the lowlands are facing serious floods. Many streams are out of their banks and have inundated the lower portions of towns.

By Associated Press. Wellington, N. Z.—The snow slide at Wellington on the Great Northern road is about a mile wide. A rotary plow with a full crew all of whom slept in the bunk house aboard the huge machine were carried down the slope.

## TRAINS ARE HURLED INTO DEEP CANYON

SIXTY-PASSENGERS BELIEVED TO HAVE LOST LIVES WHEN AVALANCHE STRUCK.

### BLOW WITHOUT WARNING

Part of Town of Wellington Also Carried Away by Slide and Horror is Growing.

By Associated Press. Everett, Wash., March 2.—It is feared that fifty lives were lost in the avalanche which carried two Great Northern trains into the canyon near Wellington yesterday. The cars fell one hundred and fifty feet and were buried by the debris. The town of Wellington and the Great Northern power house were not destroyed.

As further details of the disaster that overwhelmed the Great Northern trains, when an avalanche struck them and a portion of the town of Wellington, sweeping them down the mountain side are received here, the horrors continue to grow.

Twenty-three lives are known to have been lost when a mass of snow, loose stones and uprooted trees hurled cars containing seventy sleeping passengers to the bottom of the canyon nearly two hundred feet below. When the last reports were received, twenty-five more of the passengers were missing. Besides these, a score were seriously injured. The lists available at present contain only the names of the trainmen killed and injured.

Superintendent O'Neill of the Great Northern, who is directing the relief work in the mountains, telegraphs that fully sixty lives were lost in yesterday's avalanche. It is believed that this number includes the total list of those who were killed.

### STAYS IN RECORD.

Jeff Davis Failed to Secure Expunging of Testimony. Texas News Service Special. Washington, D. C., March 2.—Senator Davis of Arkansas, was today denied the privilege of striking from the record a statement in his testimony before the house committee of public lands on the advocacy of the Arkansas "stink lands" bill—that he would receive a large legal fee if the bill passed.

### TWO FLIGHTS.

Aeroplane Test at San Antonio is Successful.

Texas News Service Special. San Antonio, Mch. 2.—Lieut. D. B. Foubols of the United States Army made two successful flights with a bi-plane at Fort Sam Houston today. He ascended two hundred feet and attained a speed of forty miles an hour against an eight mile wind. He flew all over the army grounds.

### SENTENCED TO HANG.

Death Penalty for Rape Fiend in Arkansas.

By Associated Press. Hot Springs, Ark., Mch. 2.—Harry Poe, the negro, who was yesterday convicted of assaulting a ten-year-old white girl in this city was today sentenced to be hanged on April first. A motion for a new trial was overruled, and an appeal was taken to the supreme court.

### THIRTEEN ARRESTED.

Poker Game in Temple Hotel Rudely Interrupted.

Special to the Times.

Lawton, Mich. 2.—Passing on through Temple on the last southbound Rock Island Saturday night as a ruse, a flying squadron of deputies from the office of Sheriff Rufe LeFors, composed of J. L. Jackson, W. T. Herring, Will Wilkerson, W. B. Todd, and J. B. Hill, stepped from the train four miles south of Comanche, and, returning shortly before midnight, made an unsuspected raid on the Brick hotel at that place, the best hotel in the town, and finding thirteen men engaged in a fascinating game of poker, arrested all of the "bakers' dozen" and took them before Justice of the Peace Bales to answer to charges of gambling, three of them standing under the additional charge of carrying concealed weapons, two revolvers and a pair of brass knucks found in the crowd.

Seven pleaded guilty and paid fines in the sum of \$25 and costs each, a total of \$30, two of them were released after an examination, and the remaining four were released on bond to appear for trial Friday of this week.

The list of those arrested includes: Jess Cain, Ross Austin, L. D. Heath, S. B. Thompson, Walter Gray, S. O. Graham, John Norman, Charles Hutchinson, B. F. Graham, C. D. Smith, and Thomas Austin. The first seven plead guilty. The last four are out on bond. The two Austin brothers are proprietors of the hotel.

For some time past, County Attorney J. A. Fain and Sheriff LeFors have been receiving reports of gambling going on in the hotel. The raid of Saturday night was the result of these reports. Besides the men arrested, the officers found and confiscated poker chips and gambling apparatus.

### ALL A FRAUD.

Halley's Comet Will Not Annihilate Earthly Mankind.

Spokane, Wash., March 2.—'Forecasts by so-called scientists in various parts of the country that the gases in the trail of Halley's comet will presently poison mankind or cause other calamities may properly be termed "high pressure hot air currents."

Father Adams, S. J., Professor of Astronomy at Gonzales College of Spokane, made the foregoing observation in referring to statements attributed to observers in California and elsewhere.

'Halley's comet has been sizzling around its ordained orbit century after century, just as its creator designed it to do," said Father Adams, adding: "Were there any devastating elements in the appendage of the visitor, humanity would have been exterminated regularly every seventy-six years."

'It seems that such incidents in earthly affairs would naturally attract some attention. They might even have a slight tendency to affect the increase of population and check the progress of human events generally. Very little suspicion along this line is sufficient antidote for sensational predictions as to Halley's comet, even though they are made by alleged scientists.'

Father Adams claims he has definitely located the comet, having seen it through a telescope the night of Feb. 22, saying:

'The moon is so bright just now that it is difficult to catch the light from anything else, but the comet showed fairly well. There were little streaks out from the edges that I judge to be evidence of the tail. The comet may be visible to the naked eye early in March at the speed it is traveling, but not sooner. To locate it, take the line formed by the two lower stars of the constellation Orion and follow it north to a point just above the planet Saturn. On that line above and slightly west of Saturn the comet shall be found, but not without at least four-inch glasses.'

### Music and Health.

(Gordon A. Fory in the March Nautilus.)

'Music washes away from the soul the dust of everyday life," by luring the thoughts away from such cares. In really listening to music we cease to think conscious thoughts, and the subconscious mind reigns, giving rest and asserting its recuperative powers as in sleep. Too much of music, active or passive, results in mental unbalance even as too much of sleep results in abnormality. Musical biography presents very many instances of mental unbalance—a usurpation of power by the subconscious and overthrow of reason which resides in the conscious. Here is the old problem of the mystic in another guise, and as in his case so here; judgment must prevail and reason must not be dethroned, however far intuition may be developed.

For most of us, however, no such dangers lurk in the development of our musical abilities, and we shall find ourselves better physically, more acutely mentally, more elevated spiritually for having studied and listened.

May we have the pleasure of serving you during the month of March? Phones 433 and 232. 248-11 HARDEMAN & ROBERTS.

Pop-Pop-Pop-corn at Sherrill & Co., only 5c per pound. 233-110

### New York's Republican Scandal.

Some of the gentlemen who are calling for reorganization of the Republican party in New York are clever; others, we do not question, are sincere.

But there is in common between the exponents of ingeniousness and ingeniousness—consciousness or unconsciousness each class is seeking to divert attention from the main point.

The New York Republican party does need reorganization—in fact, we don't recollect any party, in any phase of this country's history which ever needed it worse. The New York Sun announced no novel discovery, no daring invasion of unknown Polar regions when it declared the necessity of Republican reorganization. The mistake lies, not in admitting the need of reorganization, but in the assumption that reorganization can afford either a remedy or an excuse for the conditions prevailing in New York Republicanism today.

The Lieutenant-Governor of New York had just emerged safely from a scandal, badly tainted by a grand jury although charged with no crime, when State Senator Conger boited his party caucus to declare his unwillingness to vote for Senator Jotham P. Allds for the post of floor leader. To his associates he alleged that he had personal knowledge of Senator Allds' acceptance of a bribe for the purpose of influencing legislation. The subsequent investigation ordered by the Senate brought forth testimony to the effect that this bribe was "but a flea bite" in the corruption going on and the accusing Senator has already produced a witness on the stand who swears that he gave Mr. Allds an envelope containing \$1,000; that he gave another legislator another envelope, this one containing \$4,000; and to a third he gave another envelope containing \$1,000. That was the "flea bite." What an infinitesimal part!

We beg to assure the organs and the men who are advertising reorganization as a panacea for the disease which has struck to the vitals of the Republican party in New York State, that the emalady is too profound and of too long standing for reorganization to be more than incidental and distant value. A party which was reinoculated with the virus of bribery and corruption nearly a decade ago, and has made no endeavor to get rid of the poison working in its system, can't simply reorganize and then come to the electors for a clean bill of health.

But those who have been blind enough to imagine that by placing in the limelight the political absurdity of Mr. Woodruff, the political immobility of Mr. Wadsworth, the political hollowness of Mr. Root, the aloofness of Governor Hughes, the impossibility of the half dozen or more other men who are being vaguely canvassed as pilots, they can befool the people of New York into mistaking the fact of colossal corruption for the fact of defective organization, to them we say—

Are the cataracts cut from your eyeballs now?

"After the sworn statement of Benn Conger, tracing that corruption fund of 1902 to the hands of the Republican State Committee of that year—after the main corruption issue has been directed from Jotham P. Allds to the Republican State machine—does anyone still dream the electorate can be hoodwinked into believing that if the State Republican party is reorganized, the past shall be as if it had never been, and the present, with its desperate attempts to suppress the facts, its bluff at willingness to hear them when it was too late for any apparent readiness to be anything but a sham—does anyone think the sponge of sophistry shall blot all that from the ballot of public memory?—National Monthly.

### Catarrh Quickly Cured by a Pleasant Germ-Killing Antiseptic

The little Hyomel (pronounced High o-me) Inhaler is made of hard rubber and can easily be carried in pocket or purse. It will last a life-time.

Into this inhaler you pour a few drops of magical Hyomel.

This is absorbed by the antiseptic gauze within and now you are ready to breathe it in over the germ infested membrane where it will speedily begin its work of killing catarrh germs. Hyomel is made of Australian eucalyptol combined with other antiseptics and is very pleasant to breathe.

It is guaranteed to cure catarrh, bronchitis, croup, sore throat, coughs and colds or money back. It cleans out a stuffed up head in two minutes.

Sold by druggists everywhere and by The Week's Drug Co.. A complete outfit including inhaler and one bottle of Hyomel, \$1.00. And remember that extra bottles if afterwards needed cost only 50c.

Thrift and Economy Go Together.

Wherever you see things about a farm that indicate thrift, you may be positively certain that the owner of that farm practices economy. He knows it is cheaper to have good, comfortable barns, sheds, pens, chicken houses and other outbuildings than it is not to have them. The cost may be a little burdensome at the time, but he knows that they are a mighty good investment, and he has them, whatever the cost.

Possibly YOU need more buildings, but fear the cost is too great. Don't you believe it would be a good idea to come in and let us tell you exactly what the cost would be? The chances are that they won't cost as much as you imagine. We are offering especially low prices at the present time.

## A Small and Complete Dwelling.

Design 821, by Glenn L. Saxton, Architect.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

FIRST FLOOR PLAN.

SECOND FLOOR PLAN.

In this small design of a cottage everything is incorporated that goes to make a home complete. The first story has the reception hall opening together with the living room and has a coat closet in passageway between reception hall and kitchen; also a combination stairway leading to the second story from hall and kitchen, with outside grade doors underneath same. Dining room has a projecting bay window. In the second story there are three good sized chambers, besides a large bathroom, good closet space and large linen closet in the bathroom. Balcony over the kitchen extension.

First story nine feet and second story eight feet. Birch floors throughout. Washington fir or birch finish throughout first story and pine to paint in second story. Cost to build, exclusive of plumbing and heating, \$2,175. Size, 24 by 26. If one desires the cottage could be built 26 by 28 feet, keeping the rooms in the same proportions, for about \$350 additional.

By special arrangement with me the editor of this paper will furnish one complete set of plans and specifications of design No. 821 for \$15.

GLENN L. SAXTON.

### Property and Debt in New York.

Students of municipal problems everywhere must be interested in the return of the tax assessments in New York. The total valuation of real estate for this year is given at the stupendous figure of \$6,000,000,000, of which \$4,430,000,000 is in the borough of Manhattan and \$1,565,000,000 in Brooklyn. The increase in valuation over the previous year is \$267,000,000, and there is much rejoicing in New York that this will add \$26,700,000 to the borrowing capacity of the city. The limit of indebtedness in New York is 10 per cent upon real estate valuation, which makes it possible to extend the debt to some \$660,000,000. It is already considerably in excess of half a billion dollars.

The indebtedness of Philadelphia is limited to 7 per cent on valuation amounting to \$1,358,075,000, which makes an outside figure of \$95,000,000, the net funded debt being last year about \$78,000,000. In making comparisons between the municipal activities of the two cities, it is necessary to bear this contrast in mind. The annual appropriation on account of the debt in New York is now \$47,000,000, or more than one-half of Philadelphia's principal. The corresponding item here is \$5,736,000.

The total annual appropriation in New York is \$163,000,000, as compared with \$53,000,000 for all purposes in Philadelphia. It is well to remark also that the rate of taxation in the borough of Manhattan last year was \$1.63 and \$1.74 in Brooklyn, against \$1.50 upon the smaller valuation of Philadelphia.

The assessment for taxation in New York also includes personal property to the amount of \$1,275,000,000. For this there is no corresponding item in the municipal taxation of Philadelphia. It is evidently a very imperfect approximation, but it is sufficient to suggest something of the great accumulation of wealth within a limited area in the greater city. It is not wonderful that New York, which never stops to count the cost, can meet a great many emergencies with an energy that leaves us envious—Philadelphia Ledger.

If you happen to want any globes, just phone 515—you won't have to wait. Don't forget the number. Just south of the Light office.

### Treasury Department.

Office of the Comptroller of the Currency,

Washington, February 26, 1930.

Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear that the City National Bank of Wichita Falls, in the County of Wichita and State of Texas, has complied with all the provisions of the "Act of Congress to enable National Banking Associations to extend their corporate existence and for other purposes," approved July 12th, 1852.

Now, Therefore, I, Lawrence Murray, Comptroller of the Currency, do hereby certify that the City National Bank of Wichita Falls, in the County of Wichita and State of Texas, is authorized to have succession for the period specified in its amended articles of association, namely until close of business on February 26, 1930.

In testimony whereof, witness my hand and seal of office this 26th day of February, 1930.

(Seal) LAWRENCE MURRAY, Comptroller of the Currency. 250-1tc No. 4248.

### BLACKLISTING STATUTE CONSTITUTIONAL

Hon. B. Q. Evans received notice Thursday that the case of the St. Louis Southwestern Railway Company of Texas, vs. S. J. Hixon, on appeal to the court of civil appeals at Dallas, had been affirmed Saturday.

Hixon brought suit against the defendant railway company for damages growing out of an alleged violation of the "Blacklisting Statute" and recovered judgment in the lower court which was appealed by the defendant, and the principal question involved was the constitutionality of the statute passed by the Thirtieth legislature, prohibiting railway and other corporations from blacklisting their employees.

Mr. Evans, on being requested, gave the following statement and explanation of the case:

"The evil that was sought to be remedied by the blacklisting statute has long existed in this state and the various organizations of railway employees have been demanding a statute to prohibit railroad companies from blacklisting their employees. Twelve years ago, when I was a member of the Twenty-fourth and Twenty-fifth legislatures, I introduced a bill to prohibit blacklisting. This bill, however, was defeated. I was a member of the democratic convention and used my influence to secure the demand in the platform which resulted in the enactment by the Thirtieth legislature of the blacklisting statute.

"Hixon brought the first suit under this statute and this case was the first case to be decided arising under the statute. A crew of trainmen in charge of a freight train consisting of engine and eleven coal cars, were operating the same from Sherman to Commerce over the Sherman branch of the Cotton Belt Railway, and when the train reached Tom Bean, the air appliance broke and Hixon refused to operate the train as brakeman by hand, to Commerce, owing to the bad condition of the track and the defective condition of the hand brakes, and demanded of the company to detach the engine and return to Sherman and have their air appliance fixed, and the railroad company refused to do so, but demanded that he operate the train to

Commerce by hand, and when he refused the superintendent of the railway company discharged Hixon and instructed the conductor not to take him out of Tom Bean. Later Hixon demanded of the railway company in writing, as provided by this law, that they give him a service letter, stating the true cause of his discharge. The railway company gave him a service letter that stated that he had been discharged on account of insubordination.

"The issue in the case was as to whether Hixon was guilty of insubordination. He claimed that the rules of the company did not require him to assume an extra danger or hazards in the performance of his duties. This ruling of the court is a declaration of independence to all railway employees and especially to an army of blacklist ex-employees. This law puts it beyond the power of a railway company to hold over their employes the power to blacklist them, and thereby put it beyond their power to secure employment from any other railway company.

"There are many so-called offenses where, if an employe is discharged on account thereof, by an implied agreement among all railway companies, it prevents such employe from securing employment from any other corporation. In the absence of this law, railway companies, in many instances, take advantage of their power and brand their employes by giving them service letters, stating that they have been guilty of certain offenses, and the employe was powerless to protect himself. Under this law, when railway companies charged one of its employes with an offense, they do it all at their peril, because the law requires that they shall state the true facts concerning the discharge."—Greenville Banner.

### FACTS AND FIGURES.

The following profitably interesting statistics are taken from the Wichita Falls Times, a paper that has a lot of good things in it:

There are 225 producing wells in the Clay County oil field and twelve big gas wells, one of which is the largest producer of natural gas in the United States. It is estimated that these twelve gas wells are capable of producing 200,000,000 cubic feet of gas per day—a sufficient amount to furnish several cities like Wichita Falls, Fort Worth, Dallas and all other cities through which the line passes. This oil and gas field is now giving employment to over 100 men, at an average wage of \$4.50 per day. As yet, expert oil and gas men give it as their opinion that the development of the field is only in its infancy. This oil and gas field is only sixteen miles from Wichita Falls, and the fact that practically all of our manufacturing enterprises are now using the natural gas as a fuel, for which they are paying 9c per 1,000 cubic feet and find it is a saving of 100 per cent or more over coal or fuel oil, should be an inducement to those seeking locations for factory sites at Wichita Falls.

Gas at 9c a thousand looks like giving it away. Such cheap fuel will be of great advantage to all the Texas towns where it may be had. Dallas and Fort Worth are willing to pay 45c for it. There are some who say that gas and talk are both cheaper at Wichita Falls than anywhere else in Texas.—Dallas News.

It's a mistake; talk is not so cheap as gas in Wichita Falls. In fact, a fellow has to be mighty careful what he says for fear the other fellow will call on him to back up his talk. For that reason, the ordinary Wichita Falls booster is careful—always confining his remarks to facts, and even when he has made predictions for the future of his town in the past, which at the time might have been considered exaggerations, time has proven that they did not make it strong enough. The Times, itself, has engaged in some predictions in the past, and has invariably "hit below the mark." It is going to make another now, which is that Dallas will always be the largest city and the commercial center of Texas, but that if things continue as now, Wichita Falls is destined to be the metropolis of the universe.

It is strange that men of brains will spend three or four times the salary of an office which they seek in order to secure the honor. Just the other day, reading over the speech of a candidate for governor, the Times noticed that he charged his opponent with having held office for over thirty years and during a greater portion of the time had not paid his taxes, and the question naturally arises: "Is this an indication that the man was dishonest—a tax-dodger, or was he unable to live on the salary of his office?" The record of that man will show that had he been dishonest, he was also a fool; because those who have had an eye on Texas affairs during the past few years can readily see where, that had he been so disposed, he could have "feathered his nest" at the expense of the public and had plenty of money, not only to pay his just taxes, but to make investments of a character that would have made people wonder how it was possible for a man to have accumulated so much on a state salary in so short a time. Let's not be too quick to say a man is dishonest because he has failed to pay his taxes. There may be other reasons.

### STRENGTH OF THE CATHOLICS.

More than 22,000,000 Under the American Flag.

From the advance sheets of the Official Catholic Directory, published by the M. H. Wiltzine Company of New York and Milwaukee, is learned that there are 14,347,027 Catholics in continental United States. In the Hawaiian Islands, Porto Rico and the Philippines the same authority numbers the Catholic population at 8,240,052, or a total of 22,587,079 Catholics under the protection of the American flag.

The German empire is credited with 20,327,913 Catholics, the Austro-Hungarian monarchy with 35,570,873, and the British flag protects 12,053,418 Catholic communicants.

The directory gives the United States 16,550 Catholic priests, of whom 4276 are members of religious orders and 12,274 are secular priests, all exclusive of those in the possessions or engaged in missionary work or studying in foreign lands. The United States is credited with 8849 Catholic churches with resident priests and 4365 missions. The number of Catholic seminaries is given as 83, with a total of 6182 seminarians preparing for the priesthood.

Of Catholic colleges for boys in America the directory says there are 217, and there are 709 academies for young women. The number of parochial schools in the United States is placed at 4845, and the attendance at these schools at 1,237,251. The total number of children now being educated in Catholic institutions in the United States is given as 1,450,448. The directory shows that the Catholic orphan asylums in the United States number 289, with a total of 61,541 inmates. These asylums, together with other charitable institutions in America supported and managed by Catholics, aggregate 1125.

Among the states of the Union New York has first place in the matter of Catholic population. New York is credited with 2,732,047; Pennsylvania, 1,491,766; Illinois, 1,443,752; Massachusetts, 1,273,772; Ohio, 619,265; Louisiana, 557,431; Wisconsin, 532,217; New Jersey, 496,000; Michigan, 489,451; Missouri, 452,703; Minnesota, 427,627; California, 391,500; Connecticut, 379,000; Texas, 283,919; Iowa, 242,099; Rhode Island, 242,000; Indiana, 218,578; Kentucky, 194,296.

Chicago is placed at the head of the cities in Catholic churches. The directory says it has 187 churches, but if the directory credited New York City with all the Catholic churches in the five boroughs, New York would be credited with almost twice as many as Chicago. New York (Manhattan and the Bronx) is put down as having 183 Catholic churches; the "city of Brooklyn," 110 churches. Philadelphia comes next, with 99; St. Louis, 83; Pittsburg, 68; Boston and Cleveland score 61 each; Buffalo, 56; Baltimore, 47; Cincinnati, 46.

The directory says that the hierarchy of the United States is composed of 1 apostolic delegate, 1 cardinal, 13 archbishops, and 88 bishops. The directory also says that there are eighteen vacancies in the sacred college cardinals, the full quota being placed at 70. At present it is declared that there are 6 cardinal bishops, 41 cardinal priests, and 5 cardinal deacons. Having been created a cardinal on June 7, 1886, Cardinal Gibbons ranks fifth. Those who precede him are Cardinals Moran, Stefano, Neto and Capeclatro.

The statements and figures compiled by the publishing concern are furnished by the chancellor of each diocese in America and are accepted by the clergy as official and correct.—New York Sun.

### PROBING POULTRY MEN.

New York Grand Jury Begins Investigation of Poultry Trade.

New York, March 2.—While Pierre Garvan, the public prosecutor of Hudson county, New Jersey, is trying to get hold of the books of the six big packing companies recently indicted with their officials and directors, a grand jury in New York today began an investigation of the poultry trade in the greater city. The same jurors, who recently indicted eight directors of the Consolidated Milk Exchange,

have charge of this new inquiry, and the assumption is that it is a preliminary investigation of the cold storage business in New York, as the investigations by the grand jury have to do with live poultry rather than storage fowls. Allegations have been made that members of the New York Live Poultry Commission, Merchants' Protective Association have been bringing live poultry into the city and holding it for a rise in the market. George G. Brown, secretary of the association, was a witness today, and other poultry men will be examined.

### FATAL MINE ACCIDENT.

Details of Yesterday's Occurrence at McAlester.

Special to The Times. McAlester, Mo., Feb. 2.—An accident at the mine of the McAlester Coal and Mining company at Buck at 6 o'clock yesterday resulted in the death of two men, the serious injury of two others and a large property loss.

William Douglas was the engineer and at the time of the occurrence there were three other men in the engine room with him. They were Phil Tinchner and Arthur Oliver, fire bosses, and another employe, Carl Manuel.

Just how the accident happened the survivors hardly know. The fact is potent, though, that the engineer lost control of the engine while a mule was being lowered in to the mine the shaft of which is about 500 feet deep, and it is probable that after the cages passed, with the rope weight added something happened to the engine control, the cage shot to the top of the shaft, to the top of the tippie, breaking over the shieve wheel, pulling over the top of the tippie, and wrenching large timbers in two and the cage and the top work falling on the engine room.

The engineer, William Douglas, was killed instantly, his skull being cut in two. Phil Tinchner's body was not badly bruised, the most apparent injury being a blow on the temple where he had been struck by something. He lived about an hour after the accident.

### ORDERS NEW EQUIPMENT.

Denver Gets Ready to Handle Increased Traffic.

To provide facilities for handling the increasing traffic the Fort Worth & Denver will expend a considerable sum during 1916 in the purchase of new equipment. It was announced Tuesday from the office of the vice president and general manager that the following equipment would be purchased during the year: Five large Pacific type locomotives for passenger service; two switching locomotives of the Fort Worth & Denver standard; eight passenger coaches; four baggage cars, and 200 standard stock cars.

All the new equipment is to be up-to-date and of the latest standards and design. The five locomotives for passenger use will be much larger, more powerful and will be built for higher speed than any now in use on the Denver, and will be as up-to-date as any in use by any railroad. The Ft. Worth & Denver will begin placing orders for this equipment immediately.—Fort Worth Record.

### Mortuary.

Miss May Long, aged 23 years, a waitress at the St. James, died at the Wichita Sanitarium yesterday and the remains were embalmed and prepared for burial by the North Texas Undertaking establishment and shipped to Fort Worth this morning, where they will be interred. A brother of the deceased girl accompanied the remains. The beautiful floral offering, which occupied a place on the casket, was a loving tribute of sympathy from her co-workers in the dining room at the St. James.

The fourteen-year-old son of Cam Dunn, residing at Jolly, died yesterday of pneumonia. Mr. Dunn has another son lying at the point of death with the same disease.

### Too Busy.

Great Author—Did you tell that magazine editor that I was too busy to see him?

Boy—Yes, sir; but he says he can't understand it; that you have written for his magazine for years.

"Well, I may write for a magazine, but that's no reason why I have to associate with the editors of it."

### BILL IS PASSED.

Bridge Will Be Constructed Across Aransas Pass Channel.

Washington, Mo., Feb. 2.—The House today passed Representative Garner's bill authorizing the Aransas Pass Channel and Dock Company to construct a bridge across Morris and Cummin Channel.

No matter what the weather may be you can have drug store goods at any time by taking advantage of our free delivery service. Do not hesitate to call us up by phone.

# Delightful Food

## DR. PRICE'S ALGRAIN FOOD

is not only a delightful breakfast food, but ranks high in nutritive qualities, compounded so skillfully of WHEAT, OATS, RICE and BARLEY, that it contributes more nourishment than any food made from a single one of these staple cereals. If you have never tried this food, do so, and you will find it in every respect one of the best breakfast foods upon the market. Ask your Grocer.

**AVIATORS WILL FLY.**  
American Made Bi-Planes and American Driver Substituted for Frenchman at Dallas Exhibition.

Special to The Times.  
Dallas, Tex., March 1.—The erroneous impression has gained credence that on account of the injunction proceedings which have been instituted by the Wright brothers against Louis Paulhan and his associates that the aviation meet at Dallas would be called off. Unfortunately the action of the New York judge in enforcing the temporary injunction against Paulhan has stopped that aviator from flying in the United States until the matter is permanently adjudicated, but arrangements were closed Monday between the Dallas Chamber of Commerce and the Herring-Curtiss Aeroplane Company, builders of all the Curtiss bi-planes, by which agreement Aviator Brodie, who has been astonishing the people in and around Chicago by his

dare-devil exploits with the Curtiss machine, will be sent to Dallas to fill the dates.

Brodie is a capable aerialist in every respect and in Dallas will make an endeavor to lower the record for speed established by Curtiss at Los Angeles with the same type of machine used in Texas, an eight cycle, American made. He will also make every effort to exceed the altitude made by Paulhan on the Pacific coast.

Among the features included on the program will be a race between Brodie in his speedy Curtiss and Geo. DeWitt, in his Buick racing automobile, the "White Streak," which made such a good record at the Texas State Fair last year. In fact, the entire program will be carried out with Brodie taking the place of Paulhan.

# Amusements

**"The Girl and the Gaww."**  
The struggles, trial and disappointments that have been meted out to the author of many a fine play were amply accorded to William H. Locke when he sought to find a producer for his pathetic comedy, "The Girl and the Gaww." One after another of New York's great managers read his manuscript and with a polite "sorry, but can't use it," turned him away. He had had years of experience as an actor, but as a playwright he was unknown. They could not afford to take the risk of producing his play. Like many another of his ilk, he had only his weekly salary to maintain him, but by much self-denial and economy he managed to save enough money to organize a company and present his play in the small towns. Mr. Locke himself played the part of the "Gaww." The result was remarkable. From the very start the play made a "hit." It's success spread and soon it was given a hearing in one of the large cities and it "made good." That was three years ago and the play has been running successfully ever since and has brought its author splendid returns. The same managers who had "turned it down," have since ac-

free. They learn to dance and sing; they are free to go anywhere they wish after they are through; I give them my confidence and they appreciate it; I pay them more money than they make anywhere else. If a girl runs short of funds, I never turn her down. This year if all our attractions are successful financially, or any one individually, the girls never lose anything by it. We "cut a watermelon" what I mean is: they come in for a good time. If a girl is sick or gets hurt, I look after her. If anything happens to any of their kin, I am here to assist them in all possible ways. I have chaperones back with the show looking after them. That is the secret—treat your employees nicely and they will always reciprocate.

In "A Stubborn Cinderella" company are fifty show girls, the pick of the metropolis. Over 5000 applicants wanted to join this aggregation.

**Disinfect Your Homes.**  
One of the commonest sources for the spread of contagious diseases is the carelessness manifested by the average family in the lack of proper disinfection of the house where there has occurred a case of dangerously communicable disease, such as small-pox, typhoid and scarlet fever, tuberculosis, or measles. The family usually fails to use even the common precautions toward preventing the further spread of the infection and as it happens in many cases, vacates the house sooner or later, which is again occupied unsuspecting renters who never think to make any inquiry regarding such things and who in a short time may develop the disease which always causes much trouble to the family as well as to the community at large, and not seldom, ends in the death of one or more members of the family.

Ignorance of what is necessary to be done after a case of contagion or infectious disease is usually the cause of much of this unnecessary trouble. The state board of health in each state prescribes under the laws certain rules for scientific disinfection, which, though simple, are so thorough as to practically insure immunity from further contagion from the house thus disinfected. The most effective part of house disinfection is accomplished by the liberation of large quantities of disinfecting and germicidal cases, which impregnate the air, saturate the softer fabrics and invade the most inaccessible and remote parts of the room. For this aerial disinfection formaldehyde gas has been used with the best results and greatest success. No small quantities of this gas, however, will suffice to do the work thoroughly and the rooms must first be made tight.

For the protection of innocent parties, all infected households should be promptly disinfected at the termination of the quarantine and the work done in accordance with the requirements and laws of the state board of health. By methods of thorough disinfection, the work of stamping out the disease and preventing its spreading to uninfected districts is greatly simplified.

—A READER.

Scene from the "Girl and the Gaww" knowledgeed their mistake and have made Mr. Locke flattering offers, but he is satisfied with letting good enough alone and is still causing his audiences to blend their tears with their laughter. The original company producing this play will be seen at Wichita Theatre Saturday, March 5th. Seats on sale Thursday.

**"A Stubborn Cinderella."**  
Mort H. Singer, the manager of "A Stubborn Cinderella" company, which will be seen next week at the Wichita Theatre, tell the secret of how they secure the prettiest and brightest chorus girls of any aggregation on the road.

At the beginning of the season there were over 200 applicants for the chorus and a well known New York manager asked Mr. Singer one day why the girls preferred to go with his, attractions than with any other.

"Well," said Mr. Singer, "it's just like this: I give them more salary than any other producing manager. In the summer time I have a school for acting at Chicago and New York and the girls come there absolutely

### LIBERTY OF CHILDREN.

By Robert Ingersoll.

If women have been slaves, what shall I say of children in alleys and subcellars; the little children who turn pale when they hear their fathers' footsteps; little children who run away when they only hear their names called by the lips of a mother; little children—the children of poverty, the children of crime, the children of brutality, wherever they are—flotsam and jetsam upon the wild, mad sea of life?—my heart goes out to them, one and all!

Children have the same rights that we have, and we ought to treat them as though they were human beings. They should be reared with love, with kindness, with tenderness, and not with brutality.

When your little child tells a lie, do not rush at him as though the world were about to go into bankruptcy. Be honest with him. A tyrant father will have liars for his children; do you know that? A lie is born of tyranny upon the one hand and weakness upon the other and when you rush at a poor little boy with a club in your hand, of course he lies.

When your child commits a wrong, take it in your arms; let the child know that you really and truly and sincerely love it. Yet some Christians, good Christians, when a child commits a fault drive it from the door and say: "Never do you darken this house again." Think of that! And then these same people will get down on their knees and ask God to take care of the child they have driven from home. I will never ask God to take care of my children until I am doing my level best in that same direction.

But I will tell you what I say to my children: "Go where you will; commit what crime you may; fall to what depth of degradation you may; you can never commit any crime that will shut my door, my arms, or my heart to you. As long as I live you shall have one sincere friend."

Do you know that I have seen some people who acted as though they thought that when the Savior said: "Suffer little children to come unto Me for such is the kingdom of heaven" He had a rawhide under his mantle and made the remark simply to get the children within striking distance?

I do not believe in the government of the lash. If any one of you expects to whip your children again, I want you to have a photograph taken of yourself when you are in the act, with your face red with vulgar anger, and the face of the little child, with eyes swimming in tears and the little chin dimpled with fear, like a piece of water struck by a sudden cold wind. Have the picture taken. If that child should die I cannot think of a sweeter way to spend an autumn afternoon than to go out to the cemetery, when the maples are clad in tender gold, and little scarlet runners are coming, like poems of regret, from the sad heart of the earth—and sit down upon the grave and look at that photograph, and think of the flesh, now dust; that you beat. I tell you it is wrong; it is no way to raise children! Maybe your home is happy. Be honest with them; divide fairly with them in everything.

Give them a little liberty and love, and you cannot drive them out your house. They will want to stay there. Make home pleasant. Let them play any game they wish.

"Bob" and "Charlie,"  
Current Literature.

1877, two young men stood up with the rest of their class at Bowdoin university to receive diplomas. One was called Bob, the other was called Charlie. They were Maine boys, both of them, and of about the same age. Within the last few weeks these two boys, now grown into grizzled men in the early fifties, have been conspicuous in the news of the day.

One of them, Bob, went in for fame, and after devoting the best years of his life to wrestling with Arctic storms throwing dice with death, enduring the very limits of privation and hardships, more than once glad to chew tanned leather or bite into rancid blubber, he emerged the other day with a story of discovery that thrilled the whole world and will send his name, Robert E. Peary, sounding down the ages to the end of time.

The other boy, Charlie, went in for fortune. He had already developed the knack of the money maker, and he did not tie up his talent in a napkin. He sold candy. He sold ice. He sold lumber. He acquired banks and trust companies and juggled stocks and bonds until he amassed a fortune of \$22,000,000. Then something happened. On the day after New Year's Day of this year, his money gone, his reputation destroyed, his liberty lost, he took the 10:43 train on the Southern Limited, escorted by a United States Marshal and two deputies on the way to the federal prison at Atlanta, Ga., to which he had been sentenced for a term of 15 years. Every legal device to save him had been tried and had failed, and Charlie Wyman Morse has now become convict No. 2814—that is all.

## Complete and Inexpensive.

Design 844, by Glenn L. Saxton, Architect.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

FIRST FLOOR PLAN. SECOND FLOOR PLAN.

A very popular house plan because it furnishes all the requirements of a complete home. A special feature is the arrangement of the stairs. A combination stairs leads from both the living room and kitchen. There is also a combination underneath, an entrance to the kitchen and cellar stairway. The living room is large, and adjoining is the library or den. The dining room is placed in the most pleasant part of the house, the front, where one can view the street. Access to the kitchen is through the butler's pantry. Size twenty-eight feet wide and thirty-two feet deep. Cost to build, exclusive of heating and plumbing, \$2,400.

By special arrangement with me the editor of this paper will furnish one complete set of plans and specifications of design No. 844 for \$16.  
GLENN L. SAXTON.

### CONFINED AT DENTON.

Alleged Dallas Rape Fiend Has Been  
In Jail There.

Denton, Mch. 2.—The negro Allen Brooks of Dallas county, who is charged with criminal assault upon a little white girl two and one-half years of age, has been in the Denton county jail for several days unknown to all but the county officials. The negro was brought here Thursday morning for safe keeping and as shown by results in Dallas that night when a large crowd of men stormed the jail and demanded the negro, the move was a wise one.

Sheriff Orr stated Tuesday morning that the negro was moved from here after a conference with the Dallas county sheriff on Sunday morning, and that he does not know where he is now. Intimation was received here Saturday that the friends of the father of the assaulted child had learned that the negro was in jail here, so it was thought best to move him again.

The negro's trial is set for next Thursday and the Dallas county officials promise that speedy justice shall be rendered.

You will have the best when you get your garden and flower seed from King. 250-4tc—

Notice.  
Dr. E. M. Wiggs, who has been attending the Chicago Veterinary college for the past six months, desires to announce that he will be back in Wichita Falls about the 20th of March and again engage in the practice of his profession. He will be located at 808 Lamar. 249-4tc—

Wants To Make You That

## Easter Suit

Remember Collier makes the Clothes to fit. You do not have to take them unless they do. He employs none but first-class workmen, and is a firm believer in patronizing home industry—thereby helping to build Wichita Falls by spending Wichita Falls money at home. Call and let him show you his

## New Spring Line of Goods

His stock is complete, and you can find what you want. Then let him take your measure and build you a suit, which he guarantees to fit you and give perfect satisfaction in every way.

**LOCAL NEWS BREVITIES**

J. D. Avis is being earnestly solicited to make the race for alderman. There are three councilmen to be elected on the first Tuesday in April, and the people of Wichita Falls could not do better than elect Mr. Avis as one of them. He has served in that capacity before, and every citizen and well-wisher of Wichita Falls who was here during that time, will attest that he made a most excellent councilman.

At the meeting of the local lodge of Elks last night, a class of ten candidates were led across the burning sands and through the boiling waters to the pastures of Elkdorn. The initiates were: T. B. Greenwood, W. N. Bonner, Wm. E. Huff, B. F. Terry, P. B. Mueller, John W. Thomas, E. R. Stanforth, P. R. Winn, F. V. Collier, C. S. Kerr.

Geo. H. Trevathan of Batesville, Ark., is in the city for a visit to his mother, brothers and sisters. Mr. Trevathan is a newspaper man and is seeking a location in some good town in Texas. Hearing that "the water was fine" in Wichita Falls, he came to mix pleasure with business and look over the situation.

Brooks Tingle, who has been connected with the trainmaster's office on the Denver, has been appointed stenographer to Secretary Barrickmann of the Chamber of Commerce and will enter upon his duties shortly.

The High School track team is planning a competitive meet with some other schools in this section and it will probably be held at Iowa Park the latter part of this month.

Mr. R. B. Spangie, has let the contract to contractor T. J. Boyd, for the erection of a neat five-room cottage between Grace and Holliday streets.

The condition of Attorney L. H. Mathis continues to improve, although he is still confined to his bed and is not considered out of danger.

Holiday hours were observed at the postoffice today and the banks were all closed, in observance of Texas Independence Day.

The Mothers' Club will meet at the Central Grammar school on Friday afternoon from 3:30 to 5.

Call up 33 when you want coal or feed. WICHITA GRAIN & COAL CO. —232-tfc

July	44½	44½	44½

**FIRE AT ALLENDALE.**  
Corn and Hogs Burned in Early Morning Blaze.  
This morning at 4 o'clock fire destroyed a crib of corn on the farm of Wm. Gwinn at Allendale, and burned two large hogs so badly that Mr. Gwinn fears they will die from their injuries.

Mr. Gwinn was in town this afternoon, and said he could not account for the fire, unless it was caused by a mouse scratching a match. Had the wind been from a different direction, it would have destroyed all his barns and machinery, including a threshing machine. As it was only one crib or bin of corn holding 100 bushels, was destroyed, but this was all the corn he had and its loss leaves him without feed of that kind for his stock.

**Home of Good CLOTHES**

YOU don't have to enter into any competition to win a good clothes price in this town. The question is settled for you and there's no doubt the results, if you come here and ask for our Hart, Schaffner & Mark fine suits. There's a thoroughbred quality and style about them which makes the wearer completely at ease, every fabric is strictly all wool and all the tailoring is perfectly done. These are such clothes as the most critical of you can wear without any doubts correct in style: The best clothes made.
