WICHITA FALLS, TEXAS, FRIDAY, MARCH 11, 1910

NUMBER 258

ASSOCIATION IS BEING ORGANIZED

COMMITTEES ARE AT WORK SECURING MEMBERS AND HOPE TO GET TWO HUNDRED.

IN SESSION LAST NIGHT

Preliminary Steps Have Been Taken and Organization Will Be Perfected Shortly.

Preliminary steps looking to the organization of a Young Men's Christian Association were taken at a meeting of young men at the Chamber of Commerce rooms last night and the permanent organization has been practically effected. A large membership committee has been appointed and will start at once soliciting members, of whom it is hoped to secure two hundred for charter members. The meeting was attended by representatives from several denominations.

Work is already under way on the gymnasium in the basement of the First Methodist Church, which was constructed with a view to its use by the association. Some big plans for the organization are being formulated and if they are carried out, the association will be well equipped from the very start. The annual dues will be ten dollars and the control of the organization will be vested in a board of directors to be selected from the several churches of the city.

Rev. R. E. Farley is temporarily in charge of the movement, being assisted by the general committee, which consists of T. J. Northern, J. McConnell, A. H. Jermyn, J. C. Mytinger, W. F. Weeks, H. H. Guist, W. C. Barrickman, J. T. Gibson, A. E. Anderson, Ambrose Yeager and C. J. Pate. Until the committee in charge of the membership have completed their canvass, no further action will be taken. It is expected to have two hundred members within a very short time and a permanent organization will then be formed. If possible, the association year will begin on May 1, earlier if possible.

It is felt that this city is too large to be without an organization of this kind and that the effort is one that will in the end amply repay whatever it costs. All men, young and old, are eligible, and those whom the committee does not reach may hand their names to any one of the membership solicitors.

The following note is self-explanatory:

The following persons are announced as members of the membership committee of the temporary organization of the Y. M. C. A., in compliance with the action taken at last night's meeting and are requested to meet in the library of the association, corner 7th street and Lamar avenue, next Monday evening at 8 o'clock:

J. C. Mytinger, W. F. Weeks, H. H. Guist, F. P. Avis, J. T. Gibson, A. E. Anderson, G. A. Smoot, C. J. Pate, P. H. Pennington, Ambrose Yeager, C. S. Hine, John Gould, William Huff, R. E. Nelson, A. H. Graves, J. N. Prothro, Lamar Fain, Houston Simmons, Tracy Cook, Harry Thornberry, W. M. Householder, Walter Reid, L. D. Rhodes, Geo. Corkhill, B. V. Sparks, Mark Walker, Frank Collier, Dr. Wade Walker, R. P. Northern, T. M. Sims, and Messrs. Jermyn and McConnell.

Copies of the constitution may be found at the Chamber of Commerce rooms, and all persons who have received names for membership previous to this date, are requested to phone or mail the same to either the chairman of this committee or J. C. Mytinger, the secretary.

R. E. FARLEY, Chairman.

By Associated Press. Washington, D. C., March 11.—With the testimony of Glavis, Pinchot and Garfield all in, the prosecution at the Ballinger-Pinchot hearing today began the introduction of evidence intended to be corroborative of the three principal witnesses. Interest began to lag and the attendance today is much smaller than usual.

He also declared that Ballinger directed that the lists be prepared slowly so as to not attract public attention.

WELLINGTON ROAD IS NOW ASSURED

NORTHWESTERN'S PROPOSITION ACCEPTED TODAY BY BUSINESS MEN THERE.

TO EXTEND FROM ALTUS

Laying of Steel On First Part of This Extension is to be Started at Once.

The Wichita Falls and Northwestern will extend its line out of Altus to Wellington, Texas, as originally contemplated, according to an announcement by eGeneral Manager Kell this morning. Mr. Kell received a message from Wellington this morning stating that the business men of that city had met the road's requirements and were ready to sign a contract for the extension.

A few days ago a committee from Wellington called on the Northwestern officials, who submitted them a final proposition for the construction of the line. A previous effort at Wellington to meet the road's demands had failed, but the second attempt was successful, and the road will be built. It will extend from Altus through the towns of Duke and Hollis into Wellington, following what is known as the Kennedy survey.

It was stated this morning that he laying of steel on this extension will commence within ten days, the grade being about completed. Hollis will be reached about July 1, and the first of September will probably see the line into Wellington. Wellington is in Collingsworth county, Texas and is at present without railroad connection, so that the building of this extension will open up a new and fruitful country for the trade interests of Wichita Falls.

MILLION DOLLARS GANGS RECEIPTS

MABRAY AND HIS ASSOCIATES BELIEVED TO HAVE CLEARED UP THAT MUCH.

MANY WITNESSES READY

Long String of Victims and Others Will Testify in the Swindling Cases.

By Associated Press. Council Bluffs, Iowa, Mar. 11.—That by means of fixer races and fake contests of other kinds, Mabray and his associates cleaned up over a million dollars from gullible ones, was the statement of Postoffice Inspector Swenson today, when the Mabray case came up.

United States District Attorney had one hundred and twenty-seven witnesses on hand when the case of Mabray and his eighteen alleged associates came up this morning. It is learned that the gang operated "stores" in New Orleans, Little Rock, Denver, Council Bluffs, Davenport and South Bend, which did a thriving business and contributed largely to the gross receipts of the gang. Seattle and other northwestern towns were also the scene of other operations. It is not believed that Mabray himself will take the stand today.

A feature of the trial today was the action of Zachariah Pierpont of Maryville, Missouri, who pointed out a group of reporters at the press table as members of a "millionaire club" who bet forty-eight thousand on a fixed horse race in Council Bluffs a year ago.

WILL PROBABLY HOLD SCHOOL BOND ELECTION ON 5TH OF NEXT MONTH

April 5th, the date of the city election will probably be fixed by the school board as the date for the school bond election. The board will meet this afternoon to fix the date and there is little doubt that April 5 will be accepted as the most suitable date. Forty thousand dollars in bonds will be asked for to be used for the erection of at least two brick buildings. No opposition to the issuing of these bonds has manifested itself and it is believed that they will be easily carried. It is hoped to have these buildings erected in time for the opening of school next fall.

It is stated that the new high school building will be completed within 30 days. It is planned to have a public opening when the structure is ready for and dedicate it with formal ceremonies.

KEMP PARK OFFER TO BE DECLINED

CITY ATTORNEY RULES THAT IT CANNOT BE LEGALLY ACCEPTED BY CITY.

BY PRIVATE DONATIONS

This Method May Be Adopted For Securing Funds Needed to Make Park of Tract.

That the city cannot legally accept the park tendered it by J. A. Kemp with the agreement to spend money for improvements there, is the ruling of the city attorney. This park is outside of the city limits and the ruling is to the effect that the city corporation cannot make improvements outside its boundaries save where the public necessity demands it. In the opinion of the city attorney, a park is not a public necessity and cannot come under this head.

It was feared, when the offer was first made, that this objectionable feature could not be obviated and as matters now stand, it will be impossible for the city to accept the park.

It is planned, however, that the money needed for improvements can be raised by private subscription and spent on these improvements, without any official action by the city and this plan will probably be agreed upon. The tract is so desirable as a park that it is felt that an opportunity of this kind is too great to be passed up in this manner. The matter will probably be brought up before the Chamber of Commerce and some action taken by that body looking to the permanent improvement of the tract. The city officials are regretful of the fact that the city cannot legally improve the tract, but are confident that some method can be devised whereby the tract will not be lost to the city altogether.

Mortuary

Death of T. O. Springer. The following clipping from a Compton, (Cal.) paper, tells of the sudden death of Mr. T. O. Springer, who for years resided at Thornberry, in Clay County:

Last Tuesday morning word was received of the sudden death of Thomas O. Springer, brother of Mrs. L. S. Irwin, which occurred at her home on East Orange street about 10:30 o'clock.

Mr. Springer, who was in his usual health, went into the garden to get some vegetables for dinner. A little later Mrs. Irwin heard the bucket fall and turning around saw her brother fall to the ground; she ran to him, calling for help. They picked him up to take him into the house, but he was dead before they reached the house, his death being due to heart trouble.

Mr. Springer was born in Madison County, Illinois, March 2, 1827, making him about 83 years of age at the time of his sudden passing away. He came to Compton in December, 1906, and has been living with his sister ever since that time.

Undertaker Bise took charge of the remains and telephoned the Coroner who came down on Wednesday morning, rendering a verdict in accordance with the facts above mentioned.

Funeral services will be held in the Methodist Church Friday afternoon at 2 o'clock.

Mr. Springer came to Texas in 1890, and settled in the Thornberry community, where he resided until he moved to California. He was one of the early settlers of the Thornberry country, and honored and respected by all who knew him.

Death of Mrs. Hadley.

Mrs. Carrie Hadley died very suddenly at her home on Travis Avenue, between 10th and 11th streets, at 3:30 o'clock this morning. Heart failure is supposed to have caused her death.

Deceased was the wife of M. L. Hadley, and at her death was nearly sixty-six years of age. She was a Quaker, and she was a devoted Christian woman. Her maiden name was Cassie Jackson and she was married to Mr. Hadley in 1871. No children were born to the couple, and she leaves no children except an adopted daughter, a Mrs. Ivey, who was at Cleburne on a visit at the time of her foster mother's death. She was wired the sad news and will arrive here today, pending which no definite time has been set for the funeral to take place, but will be conducted by Rev. Morrow, whose church the deceased affiliated with during her residence in this city.

Guard Against Stoopng.

Miss Margaret Drew with Henry B. Harris' "The Third Degree" company which comes to the Wichita Theatre Thursday, March 17, is quite a beauty specialist and practices her art, (personal beauty) even while traveling over the country with the Klein play. Miss Drew thinks that American women have a tendency to stoop and warns them that stooping is anything but a first aid to physical beauty. She offers a few suggestions that will remedy such a defect if properly carried out.

"To avoid the disfigurement of round shoulders the head must be thrown well back and held up; many times during the day you should stretch your arms out to full length, tensing the muscles according to your strength." She explains, "endeavor to clasp your hands behind your back. This is hard to accomplish and will take considerable time and effort, but the effect is excellent. Raise your arms up, first one and then the other. Place the hands on the chest and breathe slowly until the expansion forces the hands to separate. They will only do this when you are standing erect. The least bend in your anatomy will exclude the air. Place your feet, (the heels) together and throw your head and shoulders back and take as many deep breaths as you can without tiring yourself. Deep breathing is the prime essential to keeping the figure erect. Always sit well back in your chair and you will be compelled to sit erect.

Baron Sonnino.

Baron Sidney Sonnino, the present Italian premier and one of the greatest authorities in Europe on all economic questions, was born at Pisa, March 11, 1847. After his university career he entered the diplomatic service and served successively as a secretary of the Italian legations in Madrid, Vienna, Berlin and Versailles. He then took up the study of the condition of the working classes in various parts of Italy and wrote a book, dealing with the labor and grain questions, which brought him prominently before the public. His parliamentary career, which began in 1880, gave him further opportunities for studying all questions pertaining to matters of public interest. In 1893 he became minister of finance and a year later was appointed minister of the treasury, a post which he retained until 1896. Last December, upon the resignation of the Giolitti cabinet, Baron Sonnino was again entrusted with the formation of a new cabinet. It has been said that to Baron Sonnino, more than to any other statesman, Italy is indebted for the revival of her prosperity and for the restoration of her credit.

IMPORTANT CASE UP

Saylor Murder Trial to Begin Next Monday

Watska, Ill., Mar. 11.—Public interest in the Saylor murder trial is growing more intense as the time for the opening of the trial approaches, which is set for next Monday. The case, undoubtedly, the most sensational ever known in this section of the state, will be heard before the District Court and promises to be the "cause celebre" of Iroquois county. The intensity of the interest taken by the community in the case is due not only to the sensational details of the crime and of the conditions which led to it, but also to the fact that the murdered man and those accused of being his slayers and their respective relatives are known to everybody throughout the county and even beyond its limits.

Immediately after the crime was committed, on July 11, 1909, popular feeling in the county was so strong, that it would have been practically impossible to obtain a jury of twelve unbiased men to try the three persons charged with the murder. But since then the excitement has cooled down considerably and it is believed that the selection of the jury will not be exceedingly difficult. The accused, having wealthy family connections, will be represented by the ablest counsel that money could procure and no effort will be spared to save them from conviction, which would mean hanging or lifelong imprisonment.

The persons to be tried for the murder of John Byron Saylor, the Crescent City banker and live stock broker, are Dr. William F. Miller, Mrs. Lucy Saylor, the widow of the murdered man and her father, John Grunder. Ira Grunder, a brother of Mrs. Saylor is also under indictment but merely as an accessory after the fact. The state's attorney John C. Pailissard will conduct the prosecution and he professes to feel sure of the conviction of the accused.

John Byron Saylor was killed in his own house by Dr. William R. Miller about ten o'clock on the night of July 11, 1909. The defence will claim that the deed was an act of self-defence and that Dr. Miller did not fire the fatal shots until after Saylor had attacked him with a hatchet. The prosecution, however, will try to prove that the act was premeditated murder and was the result of a conspiracy between Dr. Miller, Mrs. Saylor and her father. It appears that for many years Dr. Miller and Mrs. Saylor entertained intimate relations which were the talk of the town and caused the community socially to ostracize both the doctor and his affinity. It is known that Saylor, the victim of the murder, had knowledge of the relations existing between his wife and Dr. Miller for many years, but that for the sake of his daughter he refrained from taking legal steps to obtain a divorce. Dr. Miller's wife, a lovable and highly respected woman, also knew of the scandalous relations of her husband, but would not seek separation, fearing that the scandal connected with a divorce suit would blight the life of her boy.

It is said that Dr. Miller and his affinity made several attempts to rig themselves of their respective legal papers and even tried to inveigle Saylor into the appearance of an entanglement with Mrs. Miller, but failed in every instance. It is believed and will be charged by the prosecution that becoming desperate the doctor and his affinity resorted to the extreme remedy of killing the man who stood in their way. What happened at the Saylor residence on the night of the murder only the persons charged with the murder know. They claim that Saylor came into the room in which Mrs. Saylor, her father and Dr. Miller were about to play a game of cards, that they urged him to join the game, but that he refused and, without further provocation attacked Dr. Miller with a hatchet. They insist that Dr. Miller merely acted in self defense when he shot Saylor. Witnesses who entered the room of the murder shortly after the shooting assert that there was no hatchet in the room at that time and if one was found there, it must have been placed there later in an attempt to manufacture evidence.

WEATHER FORECAST.

For Wichita Falls and Vicinity.
*—Tonight and Saturday, fair and warmer.

Just to give an idea of how much profit the insurance companies are realizing from their business in Wichita Falls, the books of one of the local agencies show that during the past four years he has collected and forwarded to the insurance companies in premiums the neat little sum of \$25,000, and during the same period the same companies who took these premiums have paid out in losses in the city the measly sum of \$4,000. The Times has not been furnished with the figures from the other agencies, but understands that all of them, with possibly two exceptions, show that they have collected about \$5 premium money for every \$1 loss the companies sustained. As a whole, the premiums paid for fire insurance during the past four years will show fully \$4 for every \$1 that has been paid out for losses. With such a showing as this, there is no justice whatever in more than doubling the fire insurance rates for Wichita Falls.

G. J. Gibbs, secretary of the Texas Grain Dealers Association, is authority for the statement that the state of Texas has now nearly five million people and consumes annually about 25,000,000 bushels of wheat, 250,000,000 bushels of corn and 30,000,000 bushels of oats.

The Wichita Falls Times predicts that Dallas will always be the largest city and commercial center of Texas, but that Wichita Falls is destined to be the metropolis of the universe. When a prophet is half right, he is entitled to honor in his own country.—Dallas News.

The first hogs that ever brought above the ten-cent mark in the southwest were from Wichita County. We won't insult the intelligence of our readers by pointing out the moral of this.

Disregarding the many requests for it to name the next governor of Texas, the Waco Times-Herald, with customary incorrigibility, picks Teddy for the next president.

CORPORATIONS—AND CORPORATIONS.

If we should name the greatest enemy of the people we should call him demagogue. He seeks office for his own good, regardless of competency, and without conscience as to means of accomplishing purposes. The end justifies the means—with him.

These creatures have been going over the land denouncing corporations. They yell out the word, and linger upon it with malvolent emphasis. They appeal to the worst and seek to array men against each other, to serve themselves.

Corporations are good, bad and indifferent. It may be worth while to see what a corporation is.

A corporation may be defined as a partnership, with limited liability, organized under law, and with powers and limitations provided by law. For practical purposes they are limited partnerships. They are organized by good men, by bad men and by men too weak to be either.

That one may take stock and become a partner, without risking all his property and his name, has been found conducive to the development of business. The man willing to invest and take chances as to \$1,000 may not be willing to do so with \$1,000, and to become liable for the debts the company may incur. There is no injustice to those who deal with corporations, since they may know every fact necessary.

Through corporations persons of small means may undertake enterprises for which it would be impracticable to organize partnerships with their risks. In many corporations the stockholders are all poor people; and, in many, poor people hold the larger part of the stock. One who has a few hundreds may buy shares or stock, or join in the organization, when he would not be admitted as partner.

Then the great enterprises of the world, the railway companies, the steamship and many others, would be impossible without corporations.

Through them men of wealth may combine to build railroads, to establish steamship lines, to operate great manufacturing enterprises.

The corporation offers opportunity for strong men who have no capital to put brains against capital of other men, and to build up business enterprises. In this way many poor men get opportunities otherwise impossible.

In some ways the corporation is the poor man's partnership. If we had less animosity to legitimate business enterprises we should have more of them. Men hesitate to invest when they incur usual risks of loss, and, besides, are treated as public enemies. We need enterprises; we need investments in many ways, and, instead of discouraging, we had best encourage them.

It is not the honest people who have brought the sentiment against legitimate investment. This is the work of demagogues. They are in the field for official position, or for other positions, where money is to be had, and they wreck associations, for gain. For gain they disrupt churches, and bring confusion in schools.

Legitimate investments should be accorded hearty welcome. We need them, and we want them, and we want them NOW.

A corporation is not necessarily a trust. A man may become part of a trust, as easily as may a corporation, and the result of the crusade against corporations is that trusts are now composed often of partnerships, and of individuals, rather than of corporations.

The Southwest needs justice, fair dealing, and the protection and encouragement and the protection of every legitimate investment.—Farm and Ranch.

EXCHANGE INTERVIEWS.

On account of the high price of food the Liquor Dealers Association of Illinois has decided to cut out the "free lunch" feature at saloons. The saloon bum is strictly up against it.—Yokum Times.

It is said keepers of "fences buy plunder from boy thieves. Why not smash the "fences" and put away their keepers. If there were no buyers of stolen goods there would be fewer boy thieves.—Dallas News.

Astronomers say that Halley's comet will sweep the earth with its tail some time in May, but that should not be used as an excuse for failing to observe March 10th, as clean-up day.—Brownwood Bulletin.

Somebody wants the automobile people to be compelled to put a split log drag behind their machines when they drive in the country. They would at least have a good road back to town, anyway.—Beaumont Journal.

For the purpose of promoting manufacturing, commerce and the material interests of Texas, there is to be a meeting of citizens from all over the state beginning April 19, at San Antonio.—Sherman Democrat.

The loss of the fall oat crop will discourage a few farmers temporarily, but many of them will find a way to get a spring crop in the ground with as little delay as possible. You can't keep a good man down.—Weatherford Herald.

The state mine inspector says that he has taken eighty boys under 16 years of age out of the coal mines in Texas during the past year. The child labor law prohibits the employment of children under 16 years.—Guadalupe Gazette.

Henry Clay Pierce may be able to keep Engineer Pearson from landing a seat in the English Peerage, but with General Davidson as Governor of Texas he can't do business in the state and maintain his Standard Oil affiliations.—Houston Chronicle.

The state and county taxes the farmer pays does not begin to reach the mud tax he pays all the year round. The land owner pays the state and county taxes, but the poorest renter in the realm pays his mud tax regularly.—Taylor Democrat.

The prime reason why farming interests have made such remarkable advances in late years is that more brains has been applied to farm work and there is no vocation in which brain work will bring better returns than when applied to farm work.—Wills Point Chronicle.

The South is enjoying a reign of peace and quietude, while the people further north are wrestling with mobs and strikes and disorders of all kinds. The present experience may lead them to be more tolerant and charitable toward other sections when similarly afflicted.—Waxahachie Light.

It is announced that Mr. Roosevelt is to come to Texas for the purpose of gathering data for a biography of Gen. Sam Houston. There is one thing certain, and that is that Mr. Roosevelt's stay in Texas will be more interesting that he will regret the necessity for leaving.—Beaumont Enterprise.

Interest in the pending application for the restoration of citizenship to Joe Lovell, in order that he may give testimony in the trial of Major Durham at Hillsboro, is intensified by the action of 163 Ellis County citizens, among whom he has lived since completing his prison term, in endorsing his worthiness.—Houston Chronicle.

Governor Campbell's pardon board condemns Governor Campbell's critics and applauds the Governor's acts for his refusal to make witnesses for the state in the Durham case. Governor Campbell named the pardon board. He is their boss. A wise servant never slaps his boss on the wrist.—Dallas Times-Herald.

If it is illegal for a body of workmen to boycott a corporation, why is it not illegal for a corporation to boycott a workman? But this is done every day in the year. Let a workman be fired and the next corporation he seeks employment from will not accept his services if the cause of his former discharge is for reasons they have on their death list.—Yokum Herald.

It is announced that Dr. G. C. Rankin of Dallas, editor of the Texas Christian Advocate, and well known over the state as the leader of the prohibition movement, stands a splendid chance to be made a bishop at the meeting of the general conference of the Methodist Church in the spring. If the good doctor is elevated to the episcopacy there will be plenty doing in the college of bishops.—Terrell Transcript.

Tree Ripened PEACHES For Sauce

There is nothing so good as tree-ripened fruit for any purpose.

There is no way in which the real peach flavor, tenderness and sweetness can be put into a peach except by the tree, the sun and the air.

Nature has not yet been duplicated, and that is why our evaporated peaches at 15c per pound are really more desirable than most of the fresh peaches that you buy during the summer for most of them were picked green and artificially ripened.

We have two grades of evaporated peaches, one at 15c and the other at 12½c per pound.

They are about the same in quality, about the only difference being in size, and our 15c quality are real 'peaches'—if you will pardon the slang.

We know they will give you perfect satisfaction.

The others are good, too, but not quite so good as the 15c kind.

Miss Fernanda Eliscu leading lady in "The Third Degree."

The forthcoming production of Charles Klein's latest successful play "The Third Degree," which Henry B. Harris will present at the Wichita Theatre Thursday, March 17 fresh from a run of seven months at the Hudson Theatre, New York, should arouse the interest of every theatre goer in this city, who was fortunate enough to witness Mr. Klein's "Lion and the Mouse."

In his latest play, "The Third Degree," the author has seen fit to change the locale to New York City, and taken for his central characters, members of the old Knickerbocker set and police officials. The story deals with a young man of good parentage, who is under suspicion of having occasioned the murder of a man found dead under the most peculiar circumstances. The police in their stupidity, seeking to unravel the mystery, and anxious to fasten the guilt on someone, seize upon the boy as their natural victim and bend their every effort to convict him. The young man's wife, seeking the aid and assistance of his father, and being refused, sets herself to defeat the minions of the law in their efforts to miscarry justice with no other resources save her woman's intuition, ingenuity, courage and cunning she fights them single-handed.

If Mr. Klein had never written anything else other than to create these situations he would be recognized as one of the greatest dramatists of the

day. With clearness and perspicacity, he unfolds this absorbing story in a way most alluring. If forceful demonstration of the power of a woman's love and devotion to the man she marries, is of interest to playgoers, then "The Third Degree" is bound to touch a responsive chord.

Prominent in the cast are Paul Evertson, Fernanda Eliscu, T. L. Coleman, A. H. Symmons, Margaret Drew, Francis Bonn, E. A. Eberle, Alfred Moore, H. H. Forseman and Ralph Ramsay.

DISPUTED REQUESTS

Spreckels Will Contest to Begin Very Shortly

San Francisco, Mar. 11.—With the filing in court today of a petition for the admission to probate of the will of the late Mrs. Anna C. Spreckels, a widow of Claus Spreckels, the sugar magnate, there was begun what promises to develop into one of the biggest will contests the West has ever witnessed. The contest will be coincident with a similar contest over the will of Claus Spreckels, who died last December. In the will of both Mr. Spreckels and his widow, the elder sons of the sugar king, John D. and Adolph Spreckels, were cut off without a cent. The vast estates were left to the other children, Claus A. Spreckels, Rudolph Spreckels and Mrs. Emma C. Ferris.

The will contests it is expected, will lay bare the skeleton of the Spreckels family and the bitter war between the brothers and their father. The family troubles had their beginning more than fifteen years ago and since that time have received frequent airings in the newspapers.

One of the peculiar features of the case is that at the beginning of the family feud the line-up of the so-called loyal and disloyal sons of the sugar magnate was exactly the reverse of what it was at the time of Mr. Spreckels' death. In 1894 Claus A. Spreckels sued his father to recover stock in the Hawaii Commercial Company. This suit was compromised, and then Rudolph followed with a suit to prevent the transfer of \$700,000 worth of stock held by his father as security to the Nevada Bank. Both sons declared that their father and brothers were attempting to freeze them out of the family enterprises. Finally Claus A. Spreckels sued his father for slander on account of a newspaper interview, in which the father said his son had wasted his money and would soon be bankrupt.

These troubles, however, were apparently patched up, and then personal misunderstandings arose, which resulted in John D. and Adolph Spreckels incurring the parental displeasure. The animosity between these two sons and their father continued until the latter's death, as is evidenced by the will of the sugar king, which left the millions accumulated in the sugar industry to the widow in trust for Claus A. and Rudolph Spreckels and their sister, Mrs. Emma C. Ferris.

Food Fermenting Causes Indigestion

"I got a box of Mi-o-na tablets for a distress in my stomach, and the first dose relieved me, and after I took the fourth I have not felt any more of it. I think it is a wonderful medicine."—Hiran Shultz, Watseka, Ill., July 27, 1909.

If your stomach is out of order or distressed, no matter from what cause, Mi-o-na tablets will give instant relief, and if taken regularly, will cure indigestion, acute or chronic, or money back.

Every sufferer from stomach trouble gas, belching, sour stomach, nervousness, dizziness and biliousness, should get a fifty-cent box of Mi-o-na stomach tablets today and start a treatment.

MONUMENT DEDICATED.

Memorial to "Women of South" is Unveiled Today.

Rome, Ga., March 9.—An everlasting memorial to the women of the Confederacy was unveiled here today with interesting exercises in which every veteran in gray who was physically able, and many a one who was not, participated with an energy and enthusiasm which defied the life-sapping years that have gone since they bore arms for the south. Prominent members of the United Confederate Veterans, the Daughters of the Confederacy and kindred organizations came from all parts of Georgia and from neighboring states to attend the unveiling. Touching sentiment was heard on every side and the thanks of the entire south were offered by the orators of the occasion to the local camp of the Sons of Confederate Veterans, who originated and carried to a successful conclusion this first memorial of the southland to the women of war times. The ceremonies were presided over by Dr. C. J. Owens, former president of Anniston College.

Dr. E. M. Wiggs, who has been attending the Chicago Veterinary college for the past six months, desires to announce that he will be back in Wichita Falls about the 20th of March and again engage in the practice of his profession. He will be located at 808 Lamar. 249-4fc—

LONDON CELEBRATES.

Forty-Seventh Royal Wedding Anniversary Observed Today.

London, March 10.—The royal standard floated over Windsor Castle today, reminding the inhabitants of the royal borough that this was the forty-seventh wedding anniversary of King Edward and Queen Alexandra. During the day numerous messages of congratulations were received from friends and relatives in the United Kingdom and the continent.

King Edward and Queen Alexandra have been wedded longer than any other royal couple of Europe. The king and queen of Roumania are, of course, older in years, but they married late in life.

King Edward has been the head of the empire since January 22nd, 1901,

when he succeeded his mother, Queen Victoria. He is now in his sixty-ninth year, having been born at Buckingham palace November 9th, 1841. Queen Alexandra is three years younger. She is the eldest daughter of the late King Christian IX, of Denmark. The royal pair have had six children, of whom four are living, and are grandparents to nine princes and princesses.

New Yorker Has Only Confederate Coin in Existence.

New York, Mar. 11.—A silver half dollar of the Confederate States, believed to be the only extant metallic coin of the lost cause, was offered for sale at public auction in this city today by its owner, Edgar Adams of Brooklyn. The coin was struck at the New Orleans mint soon after the beginning of the war. For a time it was in the possession of President Jefferson Davis, from whom it is said to have been stolen at the time of his arrest. Subsequently it changed hands several times, and for the past twenty-eight years it has rested in a safety deposit vault in this city.

The design on the obverse of the coin is exactly like that of the United States half dollar of 1861, and as a matter of fact one of the regular obverse dies was used in making the coin. The reverse design is distinctly original and emblematic of the Confederacy. Numismatic experts estimate the present value of the coin at \$5,000.
