VOLUME 3

WICHITA FALLS, TEXAS, MONDAY, MARCH 28, 1910

NUMBER 272

ALL IN READINESS TO CLEAN WICHITA

ARRANGEMENTS FOR SUCCESS-
FUL CLEAN-UP DAY HAVE
BEEN COMPLETED.

ALL STORES TO CLOSE

All Business Men Who Leave the City
Will be Assessed Fine of Twenty-
Five Dollars.

With every class of citizenship in line and every arrangement for the day perfected, "Clean-Up Day" promises to be as successful an affair of the kind as has ever been held in Texas. The city has been thoroughly organized for the occasion and each of the captains for each section has his forces lined up for the work.

With practically no exceptions, the stores will remain closed during the morning, so as to give all their employees an opportunity to do their share of the work. Business is expected to be at a standstill during the morning while the work is in progress and everyone is expected to take part in the work for his part of the city.

The ladies of the Civic League will serve dinner to the workers at the Chamber of Commerce rooms during the noon hour and all who have done their part will receive tickets from their captain. The ladies have prepared a sumptuous repast to refresh the workers and the Wichita Theatre Orchestra will furnish music while they eat.

Frank Kell, who had intended to be here and take an active part in the work, was called out of the city yesterday and will be unable to work. He at once assessed himself the twenty-five dollar fine which was ordered and sent General Bean a check for that amount. All who are unable to be in the city and take part will be subject to this fine. Gen. Bean states, however, that the presence and active operation of every business man is greatly preferred to the twenty-five dollar fine and he hopes that none will take advantage of this, except where it is unavoidable.

All the arrangements have been completed for the day and the success now depends solely upon the active, earnest co-operation of every citizen. There is every reason to believe that the day will be a success.

LEAVES FOR NEW YORK.

President Taft off for Visit to the
Metropolis.

Washington, Mar. 28.—Accompanied by the usual White House staff, President Taft left for New York at 12:30 today over the Pennsylvania railway.

BATTLESHIP ACCIDENT RESULTS FATALLY FOR FIFTEEN U. S. SAILORS

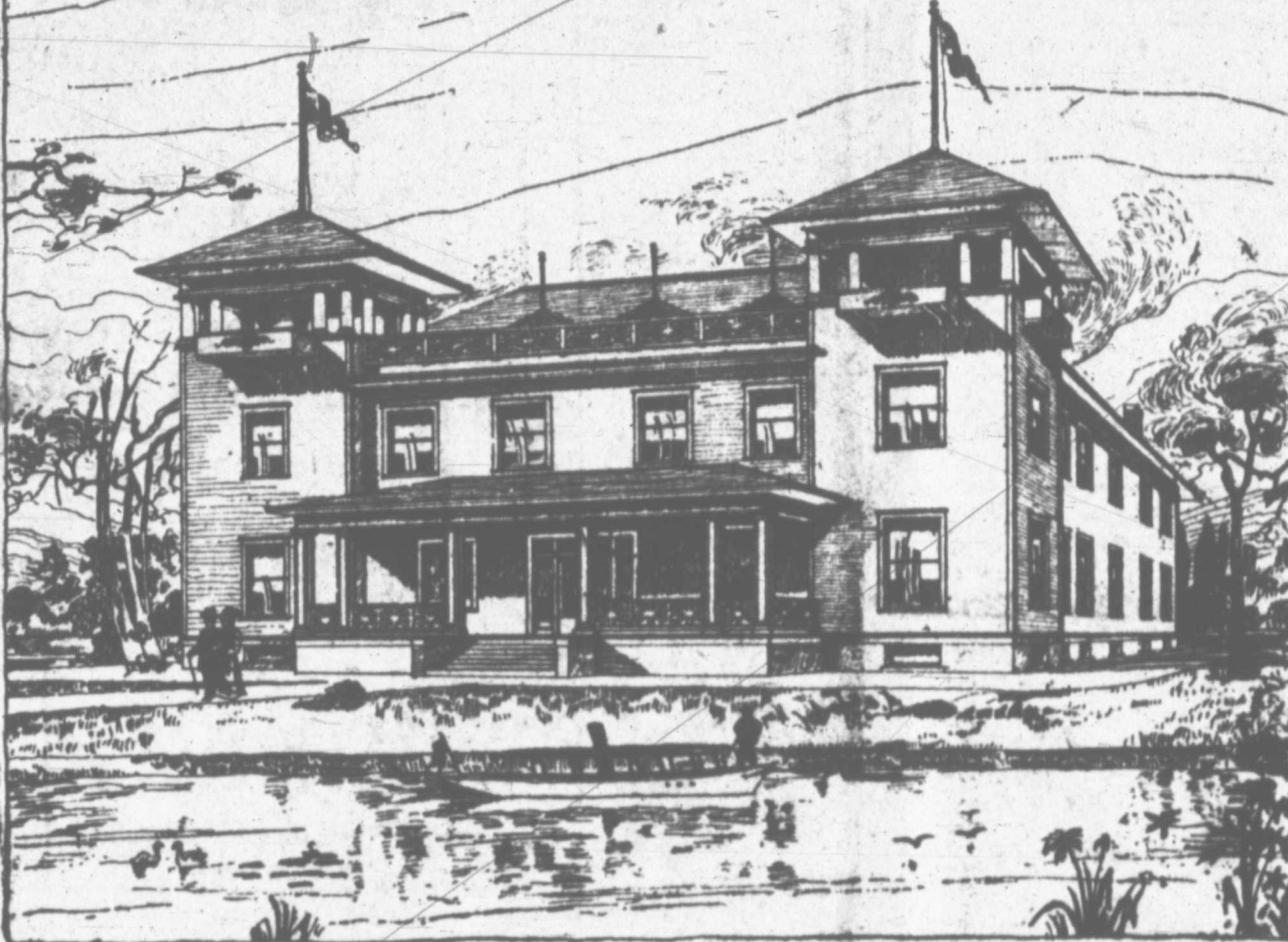

Manilla, Mar. 28.—The report that a fatal accident occurred on the United States cruiser Charleston, was confirmed today. Eight men were killed and several others slightly injured. During the practice off Olongapo, the breech-block of a three-inch gun blew off, flying across the deck and mowing down the men. Seven were instantly killed and eight died shortly afterwards. The cause of the explosion is not known. The dead: Master-at-arms, McKee, and Seaman Anatedet, Heater, Rummello, Graden, Barkman, Barnerd, and a private marine, Moline.

SAYS HE RECEIVED \$645 TO VOTE FOR PERCY FOR SENATOR IN CONTEST

Jackson, Miss., Mar. 28.—The sensational testimony given by State Senator Bibb before the Hinds county grand jury, that he accepted \$645 from L. C. Dulanoy, to vote for Percy in the recent senatorial contest is the sole topic of conversation here today. Dulanoy bitterly denounces the testimony as false. Personal difficulties are feared. Gov. Noel has been subpoenaed and it is stated his testimony will be very sensational.

Work is Started on the New Summer Hotel to Be Con- structed Near Lake Wichita at Cost of About \$15,000

HOTEL FOR THE WICHITA FALLS
TRACTION CO. LAKE WICHITA.
JAMES SCOTLAPPE ARCHT.
WICHITA FALLS, TEX.

Ground has been broken for the building depicted here and a force of men is at work, rushing it to completion. The building will be located about seventy-five yards south of the pavilion, immediately facing the lake and getting the benefit of the breeze that sweep across it.

The hotel will have sleeping accommodations for about fifty people. The dining room, however, will be able to seat three or four times that number and an excellent cuisine will be provided. The building will cost about fifteen thousand dollars and will be a very handsome structure, in keeping with the other buildings at Lake Wichita. It is to be modernly appointed throughout.

Charles A. Nieman of Wichita Falls, for part of justice precinct No. 5, outside of Burkburnett.

It is expected that these enumerators will begin work within a short time and continue for about thirty days.

One of the largest crowds of the season attended the band concert at Lake Wichita yesterday afternoon and the evening was very pleasantly spent.

Big Postoffice Robbery.

By Associated Press.
Richmond, Va., March 28.—Professional cracksmen rifled the postoffice safe last night, taking, it is said, thirty thousand dollars in cash and stamps. The yegmen backed up a wagon to the postoffice, either on Saturday or Sunday night, pierced the vault with steel drills and secured thirty thousand dollars in stamps and \$160 in cash. The watchman of the building was undisturbed while the robbers entered through a street window. The authorities are at work on the case, but the robbers have a good start.

AUTOMOBILISTS HERE TO FORM ORGANIZATION FOR THE GLIDDEN TOURISTS

In view of the opportunity that Wichita Falls has to secure the Glidden tour, local automobilists are considering the organization of an automobile club, so as to be better able to work for this event and for similar affairs. The matter is being discussed and it is probable that a meeting will be called for one day this week to get the matter started. When the official "pathfinder" car visits this city, which will be some time in April, it will be in order to entertain the visitors and act as escorts for them, and if Wichita Falls is fortunate enough to land the tour itself, still more elaborate plans will have to be made.

A meeting of the local automobile owners will probably be held this week to get action on the matter, as it is felt that it is too important to be further overlooked.

CLARKSVILLE GIN BURNS.

Loss is Six Thousand—May Be of Incendiarious Origin.
Texas News Service Special.
Clarksville, Mar. 28.—A cotton gin belonging to J. H. Roberts & Co., four miles south of town was destroyed by fire early today, causing a loss of six thousand. The building and machinery were lost. The plant was considered one of the best in north Texas. An investigation to determine the cause is in progress as it is believed to have been incendiary.

WAGGONER TRACT LEASED FOR OIL

TEXAS CO. ACQUIRES CONTROL
OF HOLDINGS IN ELECTRA
NEIGHBORHOOD.

TERMS ARE GIVEN OUT

Mr. Waggoner to Receive \$100,000 in
Cash, in Addition to Extensive
Royalties.

The terms of the lease by which the Texas Company acquires control of the Waggoner properties in Wichita, Wilbarger, Baylor and Archer Counties have been made public. The lease includes practically all of the holdings of W. T. Waggoner, the senior member of the family and include about two hundred and seventy thousand acres. The tract is located in the above counties, most of it being in Wilbarger County, just across the county line. As yet, however, no oil or gas has been struck at any point save near Electra, in Wichita County, and the original well is included in the tract.

The Texas Company acquires control by the payment of twenty-five thousand dollars down, and seventy-five thousand by the first of next year.

In addition, Mr. Waggoner is to receive a royalty of one-eighth on the oil, four cents per ton on coal, two hundred dollars a year on each gas well and one-eighth on the proceeds from any other mineral products that may be discovered.

The lease does not include the holdings of Mr. Waggoner's three children, although it is understood that negotiations are under way by the Texas Company to secure the mineral rights on the properties, also.

The Texas Company has a number of rigs at work in the immediate vicinity of the Electra strike and under the terms of the agreement with Mr. Waggoner, other wells are to be put down at once. It is believed in oil and gas circles that extensive developments are to be put under way on the Waggoner tract at once and the fact that the Texas Company is interested there is considered good evidence that the prospects are material.

The baseball game which was to have taken place yesterday afternoon was called off on account of the failure of the Fort Worth crowd to catch its train.

Panic Kills 250.

By Associated Press.
Mateszatzka, Hun., March 28.—Two hundred and fifty people were killed and many other injured in the village of Oekoerten, when fire broke out in a hotel where a ball was being held. The flames were first noticed when a woman's gown caught fire. A panic followed, and in the mad rush to the exits many were trodden to death. During the panic the roof caved in and injured many persons, and those who, because of the rush at the doors were prevented from escaping, were buried with the dead in the ruins.

NORTHWESTERN TIME SHORTENED—IMPROVED ROAD BED IS FINISHED

Superintendent J. J. Cotter of the Wichita Falls and Northwestern has completed the task of improving the roadbed and track of the system and it is now in so much better condition than formerly that trains are enabled to make much better time. As a result, a new time card has been arranged, and will be effective on Sunday, April 3.

There are now one hundred and seventy-four miles of road completed on the Kemp and Kell lines, which include the Wichita Falls and Northwestern, the Wichita Falls and Southern and when the 28-mile section from Devol to Lawton is finished, there will be a total of two hundred and twelve miles.

Two new stations on the north end of the Wichita Falls and Northwestern have just been opened—one at Kempton, twenty-four miles north of Mangum on the Elk City line, and the other at Brinkman, ten miles north of Mangum. Both promise to become thriving communities.

TO HELP INSURGENTS.

Company of Americans Gathering at
New Orleans.

Texas News Service Special.
New Orleans, Mar. 28.—A company composed of former Texas Rangers, Rough Riders and United States Army Regulars is here preparing to go to Nicaragua, under General Gordon, according to reports, although their movements are kept secret to prevent interference. No names of the members of the company are so far learned, but they have been arriving for over a week. The company intends aiding the insurgents cause and many of them are well known.

WATER AND LIGHT CO. PLANS NEW STANDPIPE TO SUPPLY THIS CITY

The old standpipe which now stands at the corner of Burnett and Eleventh streets, is to be moved in the near future to some point in Floral Heights, and a new and larger standpipe will replace it at its present location, it is learned.

The new standpipe will be much larger than the old one and will be much higher in the air, giving greater pressure to the force of the water. The Floral Heights standpipe is to be used to supply the western section of the city and will be a valuable improvement in that part of town. The change is to be made in the near future and will materially increase the efficiency of Wichita Falls' water system.

The western part of the city is too much higher than the point where the standpipe is located at present to be advantageously used and it will be moved to the highest point in the city.

INJURED IN RUNAWAY.

Chicago Parties are Badly Hurt at
Fort Worth.

Texas News Service Special.
Fort Worth, Mar. 28.—Miss Ella Griffith, Miss M. Smith, C. S. Conner and Ross Hamilton of Chicago were seriously injured late yesterday when a team drawing a carriage in which the party was riding ran away. Miss Griffith jumped, her foot catching in the wheel. She was dragged half a block before being rescued.

PAY-AS-YOU-ENTER CARS ARE COMING

TRACTION CO.'S NEW ROLLING
STOCK TO HAVE THIS MOD-
ERN EQUIPMENT.

FOURTH CITY IN STATE

Only Dallas, Fort Worth and Houston
Will Have Equipment as Up-to-
Date.

As soon as the new street cars which have been ordered for the local traction system have arrived, Wichita Falls will have as up-to-date equipment, in this connection, as any city in the state. "Pay-as-you-enter" cars, which are considered the last word in up-to-date traction service, have been ordered and the eight new cars enroute will have this feature.

At present only three cities in Texas—Dallas, Fort Worth and Houston, have cars with this modern equipment, and Wichita Falls will be the fourth city in the state to secure them. Their installation here will put the local traction system on a plane with those of the largest cities in the Southwest.

When it is remembered that the Wichita car line has been in operation less than eight months and that there are very few car lines in cities of 15,000 population in Texas that are even close to being on a paying basis, some idea of the completeness of the local system may be obtained.

The new cars, eight in number, will run on two trucks, instead of one, as the present cars do, and will have a seating capacity of about twice that of the present cars.

They are due to arrive here some time in May and will be here in time to handle the heavy summer traffic to Lake Wichita.

CONFEDERATE VETERANS PROTEST AGAINST PLAN TO EXCLUDE SOLDIERS

Texas News Service Special.
Austin, Tex., March 28.—The John B. Hood camp of Confederate Veterans yesterday afternoon voted down the resolution to indorse the action of the Confederate Home board, which decided to remove about thirty veterans from the home. The board took this action to make room for applicants more decrepit than those about to be turned away.

The many indignant expressions regarding the board's action will result, it is believed, in the enlargement of the home at once, making the withdrawal of the thirty veterans only temporary. Governor Campbell says he has received no report from the board and will not discuss its affairs at this time.

SHARPSHOOTERS REPORT.

Americans Volunteer to Fight Against
Madrid in Nicaragua.

By Associated Press.
New Orleans, Mar. 28.—A company of sharpshooters arrived here today and reported to Gen. Gordon of the insurgent forces and is expected to proceed to Nicaragua and engage in the warfare against Madrid. It is said that a majority of the men have seen service in the United States army or as members of the Texas Rangers.

The Worley Company, publishers of the Wichita Falls city directory, announces that the 1910 books are to be delivered some time this week.

Its subscription books and press room records are open for inspection to those who have a right to such information, and who want evidence of the above statement.

THE TIMES PUBLISHING CO.,
—253-tfc ED HOWARD, Manager.

One year from now the visitor to this city will get off his train in the \$100,000 station depot, ride over paved streets or walk over 15-foot sidewalks to a \$125,000 hotel, make a meal of vegetables raised by the \$50,000 irrigation system and meat from the \$100,000 packing plant, take a ride over car line to the \$150,000 lake amusements, stop on the way back at the \$40,000 opera house, and then go to bed, secure in the thought that if the hotel catches fire the automobile engine will put it out before he wakes up—and that ain't no idle dream, either.

We content that, even if the glory of Wichita's Easter hats and the radiance of her Easter gowns were not ahead of every other city in the world, the occupants of the aforesaid hats and gowns were far enough ahead of the rest of creation to make up for it.

Wichita Falls will be the fourth city in the state to have pay-as-you-enter cars, and it takes such live ones as Fort Worth, Dallas and Houston to get ahead of her, even then.

Our idea of diplomat is a man who can talk politely and coherently to his ear trumpet.

While it may be true that in the spring a man's fancy turns to thoughts of love, we notice that varicolored socks also demand a share of his affections.

In spite of the alleged scarcity of eggs, we notice that the Easter rabbit performed his traditional avidepository duties in Wichita Falls yesterday.

Interior rumblings and hot air spoutings from the Times' spring post are in evidence and it is feared that another eruption is imminent.

No man ever comes into a full realization of his own importance until some fond mother asks him what to name the new baby.

When a man with a new spring suit goes out in a row boat on a windy day, we fancy the angels weep.

Your true citizenship will be put to the test tomorrow. Join the cleanup gang and do your part.

Make Yourselves Loveable.
Girls and married women: This should appeal to you. It will make a hit with husband, father, brother or sweetheart. Cottonseed meal bread, cake, pies, puddings, etc., are far more delicious, nutritious, lighter and superior in every way to the old wheat flour preparations. They are now being served to the president and the Kings of England and Spain every day. We furnished the recipes. These recipes cost us \$10,000. We will send you booklet copies for 25 cents, postage order preferred. Wheat flour costs \$3.75 a hundred pounds; cottonseed meal costs only \$1.50 a hundred. You will never go back to the wheat flour and you will be more satisfied and will save from \$50 to \$100 a year by the change.

Jim Barry vs. Jack Burns.
San Francisco, Cal., March 23.—The heavyweight battle between Jim Barry of Chicago and Jack Burns of Salinas, which is to be decided before the Metropolitan Club tomorrow night, is attracting considerable attention in the sporting circles. The two fighters have finished active training and both appear to be in excellent condition for the bout. The articles call for a twenty-round contest for 50 per cent of the gate receipts and a side bet of \$1,000.

Davenport-Aldrich Wedding.
Boston, Mass., March 23.—The marriage of Miss Dorothy Davenport, the daughter of Mr. and Mrs. George H. Davenport of Boston, to William T. Aldrich, son of Senator Aldrich of Rhode Island, took place at the home of the bride's parents on Beacon street today. Miss Davenport's father is a wealthy lumber merchant and his family is quite prominent in Boston social circles. The young couple will reside in New York, where Mr. Aldrich is employed as an architect with the firm of Carrere and Hastings.

Championship Golf at Pinehurst.
Pinehurst, N. C., March 23.—There was a great outpouring of golf players and devotees of the game at the opening here today of the annual United North and South championship tournament. More than ordinary interest centers in the event this year through the entry of the national amateur champion, Robert A. Gardner of Chicago.

Des Moines Tries Initiative.
Des Moines, Ia., March 23.—A proposition for the municipal ownership of the street car system is up for decision at the city election in this city today. It is the first time that the initiative and referendum, as provided under the commission plan of government, has been invoked in Des Moines and as a consequence, the result is awaited with much interest.

Cheap Corn vs. Good Corn

Now, it's true that all canned corn has some value, but the best is worth a great deal more than the cheapest and this is why The Cheapest Corn is usually dark colored and inclined to be watery. The kernels are tough and rather tasteless and there is more or less silk, pieces of cob and husk mixed in with it. We have this if you want it at 3 1-3c a can. The best corn, such as our PET Brand, is light colored, rich sweet, creamy and good. It will keep longer after being opened and will be thoroughly enjoyed by all the family. "BY THEIR FRUITS YE SHALL KNOW THEM"

BLOODLESS SURGERY TRIUMPHANT OVER DISEASE.

Many Lives Saved By Modern Medicine and Surgery.

If there such a thing as the truth demonstrated in hundreds of instances required to convince the skeptical, it certainly has been done in Texas in the last few years by Dr. J. LaFayette Berry.

Several years ago his demonstrations in this state along the line of bloodless surgery, the syarthagil cure and other perfected methods in the treatment of chronic diseases. A degree of skepticism pervaded the different communities where the work was done, until after hundreds of our best known citizens were cured of what has often been classed as incurable troubles. Colonel J. L. S. Travis of the Austin Statesman, was given up to die with a cancer invading his eye. Many doctors had failed to relieve him. He applied to Dr. Berry and was quickly cured. Col. Travis, after he was well, appeared on Dr. Berry's stage and told seven thousand people there assembled that the doctor had saved his life. He was grateful enough to write many articles and publish the same in the great newspapers of the state. He said:

"I believe it is my duty to let the world know that I have been cured, and who cured me, for there are many suffering as I had suffered."

Mayor James B. Bolar of Waco, said: "I cannot say too much in praise of Dr. J. LaFayette Berry, as he saved my life and cured me after many of the greatest specialists of the country had failed."

Mr. C. W. Moore, ex-alderman of Austin, says: "My wife had suffered as no one knows for fifteen years from a nervous trouble and gallstones. I spent all I had and all I could make to get relief for her. I had her try all the great specialists and watering places. She had not slept one minute in five months without morphine or opium, when I took her to Dr. Berry. In less than one week, under his treatment, she slept nearly all night, and in three months was perfectly well. We owe our everlasting gratitude to Dr. Berry; he saved my wife from a fate worse than death; he saved the mother of my children when all others said there was not such a thing as a cure."

Something for Lunches

The woman who prepares lunches every day has troubles and difficulties of her own. It is anything but easy to keep on hand suitable lunch foods, especially in warm weather. Many things that are palatable hot, are flat and tasteless cold, so there is little chance for variety.

It is just here that Heinz's Mince Meat helps. Mince pie is fine for lunches, because it doesn't "run"—then it is so good.

"Heinz-Made" Mince Meat is just what the home-made article would be if the housekeeper had the Heinz materials and facilities for making it. The person who eats the lunch will enjoy a change from canned fruit pies, jams or preserves. Incidentally, a mince pie might taste good on the home table.

We have Heinz's Mince Meat in two style packages.

STRAY TOPICS FROM LITTLE OLD NEW YORK.

New York, March 26.—For many years Gotham has been in ill repute throughout the country. By those who publicly spoke about the great metropolis on the Hudson and by those who wrote books or articles upon the subject, New York was always represented as a cesspool of iniquity, thoroughly corrupt religiously, morally, domestically, financially, politically and every other way. Once upon a time there may have been good reason for such an estimate, but conditions must have changed a great deal since then. Now the city has a reform mayor at the head of its government, who even frowns upon policeman who indulge in too vigorous exercise with their clubs and who was chosen at an election over which Purity herself, in the shape of a heroic-sized statute on Times Square, presided. From time to time there have been other evidences of ethical regeneration and reform in Gotham, but all of them were insignificant compared with the latest proof. One of the leaders of the select circles of society has actually started a Bible class for women and, according to trustworthy reports, these meetings are patronized by about fifty of the most prominent society women of the city. The leader of the movement has engaged a minister to instruct the Bible class and, to make things pleasant she has tea served to the members of the class after meetings. If that does not convince the world that New York has been slandered, nothing will.

Now that New York has become engulfed by a wave of reform, profanity has become an expensive luxury. It costs more than coal, ice, or even beer. The other day some reform advocates had a man arrested for swearing on a subway train. The offender was arraigned in court and upon the testimony of the reform advocates, that he had sworn four times between two stations and had become "sassy" when rebuked, he was fined \$10, which he paid without a murmur. That makes \$2.50 a "swear," a price high enough to discourage the practice.

A young Yale student, the son of a prominent business man in Brooklyn, slipped away to Saugatuck, Conn., the other day and was married to his best girl by the town clerk. Of course, the young man and the girl wished the marriage to remain a profound secret, at least for some time to come. Their dismay was great, therefore, when they found an account of their marriage in every newspaper published in the east. At first they could not understand how the matter had leaked out, but upon inquiry the young man ascertained that the premature publication of his marriage was due to his own lack of circumspection. When the town clerk informed him that a witness had to be present at the ceremony, the groom picked up the first stranger he met in the corridor of the Saugatuck city hall. As it happened, the man selected was a reporter and newspaper correspondent. The stranger, naturally, gave no hint of his profession and, immediately after the wedding made the wires hum, sending an account of the wedding, names and all, to every paper within a radius of three hundred miles.

It has long been accepted as a fact that hunger, craving for liquor or certain drugs and animal passions respect no law or rule of ethics. It seems, however, that the list of irresistible impulses to law-breaking is not complete, without adding to it feminine vanity. A woman was arrested the other day on the charge of having stolen funeral crepe from the doors of houses in which death had occurred. At the preliminary hearing before the magistrate the woman admitted her guilt and explained that she had used the crepe to make for herself automobile veils after the latest fashion. The fact that the woman is extremely poor and has not even a faint prospect of riding in an automobile, did not seem to disturb her or abate her insane craving for the useless finery.

The newspapers contained the interesting bit of news the other day that a certain famous Hungarian artist was now on his way to the United States and that the principal object of his visit to this country was to paint Mr. John D. Rockefeller, the great oil king. The articles did not state what color the famous Hungarian intends to paint Mr. Rockefeller, but, in view of the pending oil trust investigation, it has been suggested that a nice thick coat of white would probably be most opportune just now.

Apr6pos Mr. Rockefeller, it may be interesting to learn that he has made his debut in a new role recently. He has tampered with congress, with legislatures and public officials all over the country, has corrupted railroads and many other public institutions, has meddled with financial and industrial corporations and has made

Wall Street dance to his music. Quite recently, however, he has tried himself in a new role, by espousing the cause of the village president of North Tarrytown, N. Y., who was a candidate for re-election at the recent village election. The citizens did not wish to re-elect the village president, but Mr. Rockefeller wanted him re-elected for some reason or other, and, of course, re-elected the man, by making the hundreds of Italian laborers employed on his estate cast their vote for his candidate. The citizens of North Tarrytown evidently did not know how futile it was to oppose Mr. Rockefeller when he has once set his mind upon a certain matter.

The city intends to establish a system of free baths, patterned after the free municipal baths maintained at Revere Beach by the City of Boston, in Coney Island. This should cause rejoicing among the many thousands who daily visit Coney Island during the bathing season to seek refreshment in the briny surf. The owners of the resorts along the Coney Island water front, who monopolized the greater part of the available bathing beach, charged such exorbitant prices for the use of the bath houses and bathing beaches that only wealthy persons could afford a dip. Fifty cents, and even one dollar, were considered reasonable charges by these highway robbers during the busy season. Adding to this the cost of a single surf bath to from 70 cents to \$1.20.

EGG ROLLING AT WHITE HOUSE.

Custom Originated By President Lincoln, Takes Place Today. Washington, D. C., March 28.—In accordance with the custom originated by President Lincoln, the grounds of the White House were thrown open today for the annual Easter Monday egg-rolling festival. To give the children as much room as possible for their sport, adults, unaccompanied by children, were not admitted to the grounds.

Several thousand children of all ages and colors availed themselves of the opportunity to roll their eggs on the lawns around the White House and play all kinds of delightful games.

In the most democratic fashion, the children of millionaires mingled in their joyful sport with the children of the poor and for once all distinctions of wealth, station or race were wiped out.

President and Mrs. Taft took great interest in the frolics of the children and frequently watched them from the windows of the White House. In the afternoon there was a band concert in the Ellipse, south of the White House grounds, which attracted a large number of persons.

NEW BATTLESHIP.

Florida to Have Brilliant Launching on May 12.

New York, March 28.—The constructors and men building the battleship Florida at the Brooklyn Navy Yard are jubilant over the progress being made and are anxiously awaiting May 12th, when the big battleship will glide into the East River on her maiden plunge.

Barring a few minor details, the vessel is now ready.

The launching of the Florida will be one of the greatest events in the history of the navy yard, if the plans of the commandant and Naval Constructor Baxter, in charge of the building work, are carried out.

Invitations have been sent to President Taft, his cabinet and nearly every naval officer of prominence. The governor of Florida, his staff and the members of the Florida delega-

tion in congress will be on hand. Miss Helen Gould and Miss Anna Morgan, who have been liberal in their benefactions to the naval Y. M. C. A., are expected to be present as special guests of honor.

The naval yard officials believe the launching should be as elaborate as possible on account of the Florida being the largest American battleship, except the Utah, her sister ship. When she is finished and placed in commission she will be 1,000 tons larger than any battleship in service, and until the 26,000-ton Arkansas and Wyoming are completed, the Florida will be the queen of the ocean.

The Florida is the first battleship to be constructed in a government navy yard since the Connecticut was completed at the Brooklyn yard nearly a decade ago. The navy yard officials are in hopes that when the Florida is finished and placed in commission

they will be given the contract to build even a larger battleship than the Florida or her successors of the 28,000-ton class.

The affair was held at the Lawyers' Club and was attended by many men of distinction. Tomorrow night Sir Ernest will deliver his first public lecture in the United States at Carnegie Hall. Joseph H. Choate will preside and Commander Peary will make the address of welcome.
