VOLUME 3

WICHITA FALLS, TEXAS, FRIDAY, APRIL 15, 1910

NUMBER 288

## TAKING OF CENSUS IS BEGUN TODAY

THIRTEEN ENUMERATORS START TO WORK THIS MORNING IN THIS COUNTY.

### MANY QUESTIONS ASKED

Work Will Continue Several Weeks. Result is Awaited With Much Interest.

Thirteen census enumerators began work in Wichita county this morning and some thousands of them began work in other parts of the country. These are now plying everyone with questions regarding his ancestry, marital condition, employment, number of children, if any, age, sex, and other sociological and genealogical details that Uncle Sam requires. Uncle Sam also wants to know about any lunatics there may be in the family and a host of other facts about you that you didn't realize before were anybody's business.

The results of the local census will be awaited with a great deal of interest. Wichita Falls claims ten thousand population, and while this is a conservative claim as compared with those of some other cities of this size, are making it felt that the census figures should not fall very much short of the ten thousand mark. Amarillo and Abilene are claiming fifteen thousand and San Angelo claims eighteen thousand, although to the visitor none of these appear to be any larger than Wichita Falls.

S. J. Lindsay of Gainesville is census supervisor for this district and the Wichita county enumerators are: F. T. Jenne, John Moore, P. C. Maricle, H. T. Canfield, Lewis B. Jenne, Miss Hazel Brightwell, Charles E. Carter, Thomas E. Hale, Edward P. Napier, Wilkey Ashworth, Charles W. McHugh, Lee W. Proctor, Charles A. Nieman. Of this number, P. C. Maricle, Lewis B. Jenne and Miss Brightwell, are engaged in taking the Wichita Falls census, the others being engaged in the country outside of the city. It will require several weeks to complete the census and it will be a number of months after its completion before the figures can be announced.

## THIRTY DAY EXTENSION IS GIVEN BY PROMOTER ON BRICK PLANT OFFER

A letter was received this morning by the chamber of Commerce from I. H. Kentner, head of the concern which intends to put in the new brick plant here, granting the thirty-day extension requested by the directors. This extension was asked on account of the fact that the well which is being sunk for cheaper gas in the Petrolia field has not yet gone deep enough. Mr. Kentner stated in his letter that the Sapulpa plant would be formally opened on April 27, and he extended an invitation to the citizens here to come up and participate. He will be here, he says as soon as cheaper gas is assured and he indicated that he favored Wichita Falls in preference to other cities which have made him propositions.

### COMPLETE ARRANGEMENTS.

## IMPROVEMENTS AT BURYING GROUND

CEMETERY ASSOCIATION HAS INSTALLED HANDSOME GATE AT ENTRANCE.

### TRACT MADE ATTRACTIVE

Considerable Money and Effort Expended in Making of Improvements.

Due to the efforts of the ladies of the Cemetery Association, Riverside Cemetery, the burial ground for all of Wichita's departed, has been made as attractive and clean as a place of that kind should be. The ladies have just viewed the completion of their labors and they are well pleased with the result of their work.

A handsome entrance has been constructed at the main gate. It consists of four large granite uprights, with stout iron gates and the name "Riverside Cemetery" above. The old fence around the tract has been replaced with an iron one, donated by the city, and the cemetery is now much more free from depredations of any kind. The new gate was erected by the Wichita Marble company at a cost of about five hundred dollars, and A. G. Desbarrage, manager of the company, was of great assistance to the ladies in getting the gate erected. It is felt that a city of the size and importance of Wichita Falls should be more particular in the care of the graves of the dead and a great deal of good has been accomplished by the association.

### TROUBLE IN CHINA.

Rioting in Hunan—Missionaries Forced to Flee.

By Associated Press. Hankow, April 15.—The situation at Changsha, the capital of Hunan, where rioting occurred yesterday, during which the Wesleyan Church Inland Mission was burned, is grave. The rioting was caused by the government's cornering and controlling the rice export. The governor's house in Yamen, in which the missionaries took refuge was burned. The missionaries and other foreigners fled and were taken aboard a merchant steamer in the harbor. British gun boats are hurrying to the scene. No fatalities are reported.

## ALLEGED ROBBERS ARE NOW IN JAIL

THREE MEN WERE ARRESTED ON YESTERDAY AFTERNOON AT OKLAHOMA POINTS.

### PART OF MONEY SECURED

About Sixteen Hundred Dollars Found on Men—Were Taken From Train.

Three men who are believed to have perpetrated the robbery of the bank at Harrold early Wednesday morning, are in jail at Vernon today and will shortly face the serious charge. They were arrested in Oklahoma late yesterday afternoon and were brought to Vernon last night. Their names are Allen Hinds, G. A. Warner and Robert Huntley. The arrests were effected by Oklahoma officers who were watching every train. Two of the men were taken from the Wichita Falls and Northwesters at Humphries and one at Tipton. A total of about sixteen hundred dollars was found on them, with the bank's wrappers on it undisturbed.

### REPORTS RECEIVED.

Suffragetes Are in Session in Washington Today.

By Associated Press. Washington, April 15.—At the convention of the National American Suffrage association today reports were read from South Dakota, Oregon, Washington and Oklahoma in which the state association campaigns are pending. Reports from committees occupied most of the day.

### W. S. Hannon, president of Lodge 499 B. R. T., Wichita Falls, in Galveston, where on yesterday he addressed the State Federation of Labor.

Work will be started Monday in the laying of steel on the Wellington extension of the line and it is hoped to reach Hollis by June 1. Work on both extensions is being pushed as rapidly as possible and consistent progress is being made.

### They refused to give their names until this morning.

The men were brought to Vernon by Sheriff Williams of Wilbarger County and Deputy Sheriff John Carrington. The jail there is being closely guarded to prevent any further trouble, though there is no indication of any difficulty. The credit for the capture of the men is due largely to the Oklahoma officers, who zealously searched every train and watched every road. The men are believed to have gone north to Frederick either on horseback or by the Frisco and to have taken the Northwesters at Frederick. It is not thought that they came through Wichita Falls at all.

The money taken from the robbers was still in the unbroken bank packages and a division of the spoils had evidently not taken place. Just what has become of the other nine hundred dollars believed to have been secured, cannot be learned. The examining trial of the three men will probably be held at an early date.

## BILBO STAYS IN SEAT; PERCY ARRAIGNS MEN WHO STARTED TROUBLE

By Associated Press.

Jackson, Miss., April 15.—Notwithstanding that the senate last night adopted a resolution demanding the resignation of Senator Bilbo, he is in his seat today and voted on several measures and declared no intention of resigning. President pro-tem Hebron, who led the march of insurgents from the senate last night, when the resolution denouncing Bilbo was offered, announced that he did not intend to resign and that he would be permitted to resume the chair.

In an address before a joint session of the legislature today Senator Percy today gave a terrific arraignment of the persons who charged or insinuated that his election was accomplished by fraud or corruption. The senator declared he would resign rather than hold a commission, that in the opinion of the members of the legislature was obtained by fraud or corruption.

It is understood today that resolutions will be introduced in both houses tomorrow providing for a special primary, "submitting the validity of Percy's election to a vote of the people. In his speech, when Percy declared the state of Mississippi would not have a greater disaster befall it than the election of Vardaman, a great wave of applause swept over the hall.

### WRITES LITTLE FRIENDS.

Senator Gore Sends Greeting to Blind Pupils in New York.

New York, April 15.—The following letter from Senator Thomas P. Gore, of Oklahoma to the blind pupils in New York public schools was read to them by their teacher today:

If you are undismayed by difficulties and triumph over them your victory will be enhanced both in its worth and in its memory. Sincerely your friend, THOMAS P. GORE.

Accompanying the letter, which will be printed for the pupils in raised letters, with an embossed fac simile of the senator's signature at the bottom, was a brief note of explanation from the superintendent of schools.

"Senator Gore lost the use of his eyes when he was a child," said Superintendent Maxwell, "but in spite of this misfortune has made of himself a man of culture and a power in his state. He is a member of the senate of the United States and is justly regarded as one of the most capable members of that great deliberative body."

1910—90,000,000 (?)	

Washington, D. C., April 15.—Today marks the real beginning of Uncle Sam's great decennial task of counting noses and taking stock, a task imposed upon him by the Constitution of the United States. This morning, in every nook and corner of the country, the 75,000 enumerators took to the field with pencil and pad in hand. When their work is completed and the results tabulated by the wonderful electric devices now in use in the census office in this city Uncle Sam will know to what extent his family has increased during the past ten years. He will know also how rich he is, how prosperous he is, and how his farms, manufactures, mines and quarries are faring and everything else worth knowing about himself.

The actual collection of data will continue fifteen days in the cities and thirty days in the country districts. Each enumerator is assigned a certain area to cover. First, the location of the house, the street and the city or town will be taken. Then will come the full name of the person, his or her relationship to the head of the family, sex, color or race, age at last birthday, whether single, married, widowed or divorced, and number of years of present marriage. Then will be chronicled the place of birth, trade or profession, general nature of industry, whether employer or employee, ability to read and write, physical defects, whether the home is owned or mortgaged and whether the person is a survivor of the Union, or Confederate army or navy.

Statistics will be taken in respect to all lines of industry, but of greatest importance of all is the farm census. New industries in the general agricultural schedule are expected to develop important data on the questions, whether the American farmer is holding his own against the foreign-born homeseeker in this country; the age period when the "hired farmhand" becomes an independent farmer himself; the age when the tenant farmer ceases to be a "renter" and becomes an owner, and also other vital facts relative to the social and industrial tendencies among the millions of tillers of the soil. The farmer will be questioned in regard to his mortgage indebtedness, the acreage to be planted to crops in 1910, breed of pure-bred animals, and acreage of mixed, timothy and clover hay. He will be asked to tell also the amount of food purchased for live stock, the amount and value of live stock, the value of eggs sold, the amount of pasture land under irrigation and numerous other things of interest and value to the student of farm conditions. The new inquiries concerning wheat are expected to reveal the immense progress made in this crop. In the inquiries concerning woodland may be directly traced the agitation during the last few years in favor of forest extension and conservation.

Dr. E. Dana Durand, the chief of the census bureau, hopes to be able by June 1st to report the number of in-

habitants in the United States, probably between 88,000,000 and 91,000,000. It will take four months to cover the manufacturing interests and probably three years to tabulate and study the vast undertaking. The completed task will represent the labors of 75,000 men and women enumerators and 750 regulars and 5,000 temporary clerks in the census bureau. The census will cover not only the United States, but Hawaii, Porto Rico and Alaska. Nothing will be left undone to make the enumeration as correct and as complete as possible. A total of \$14,000,000 is to be expended in the work. In this connection it is interesting to note that the sum of \$44,000 was thought to be sufficient to cover the cost of the first general census in 1790. This census covered the original thirteen states and showed a population of 3,200,000 whites and 700,000 slaves.

### "THIS IS MY 62nd BIRTHDAY."

Charles H. Allen.  
Charles Herbert Allen, who was the first civil governor of Porto Rico under American rule, was born in Lowell, Mass., April 15, 1848, and received his education at Amherst College. After his graduation from college he engaged in the lumber business in Lowell. In 1881 he was elected to the Massachusetts legislature and three years later he was elected to congress, where he served two terms. Mr. Allen was the republican candidate for governor of Massachusetts in 1891, but was defeated by a small majority by Governor Russell. He succeeded Theodore Roosevelt as assistant secretary of the navy in 1898, and served in that position during the war with Spain. In 1900 he was appointed governor of Porto Rico by President McKinley. Two years later he decided to retire to private life and has since been engaged in the banking business in New York City.

The pardon of Colonel D. B. Cooper, charged with the murder of Senator Carmack, has aroused a storm of indignation against the governor of Tennessee which is said to surpass anything of recent years in that state. And they have had some political storms in Tennessee. In fact, it is almost a continuous performance.

What the Dallas News says about the cities and towns in Texas being "shockingly lacking in sanitary provisions" has no reference to Wichita Falls. It is a well known fact that this city is the cleanest in the country. The News did not mention this, because it is generally well known.

It is a pretty safe bet that if Senator Bilbo of Mississippi or any other member of the legislature of that state ever sells out again, whatever his motive may be, he will be careful not to tell it.

## "HE SCANDALIZES THE INSTITUTIONS OF THE STATE."

The Times reproduces from today's Dallas News the following editorial under the above caption, with its full and hearty endorsement of same:

"In assuming authority to pardon Col. Cooper out of hand, Gov. Patterson of Tennessee arrogated to himself the prerogative of the witnesses who testified, of the jurors who brought in the verdict, of the judge who tried the case, of the supreme court by which the case was affirmed, of the people of Tennessee whose institutions he has discredited and scandalized. It will be noted that he does not base his pardon upon the usual petition, signed by the jury, the prosecuting attorney, the trial judge and thousands of influential citizens. He does not pardon Col. Cooper on the ground that he is an invalid, or because of the 'unwritten law,' or because he is needed as a witness in some other case and must be pardoned in order to enable him to testify, or because of newly discovered evidence. None of the usual grounds are set forth. He proceeds immediately to thrust aside the evidence of the witnesses who testified against the defendant, to set aside the verdict of a jury cautiously selected to try the case, to reverse the judgment of the trial court and to overrule the supreme court of the state, by declaring in so many words that, 'in my opinion neither have had a fair and impartial trial, but were convicted contrary to the law and evidence.'

"He thus sets up his own opinion, in a case in which he is known to be prejudiced, biased and interested, against the deliberate verdict of twelve good and lawful men, selected by the accused himself and duly sworn to a true verdict render according to the law and the evidence. The judge of the circuit court, known to be a very able and honorable official, held, after a most patient hearing, that the defendant had had a fair and impartial trial and refused to grant a new trial. Gov. Patterson contradicts this court, assuming that he and he alone is able to deal impartially and fairly with his bosom friend and heroic campaign manager. Even this is not all. On appeal, the supreme court of the state affirms the case, holding that the accused was convicted according to the law and the evidence; but this one man, of all the men who had to do with the case—the least qualified to consider it impartially, actually thrusts aside the judgment of the supreme court and enlarges his friend, the defendant!

"As this action of Gov. Patterson is certainly not based upon any of the usual reasons or grounds for pardon, it is quite natural to expect his critics to assume that personal and political reasons and obligations were at the bottom of it. If this is true, then regardless of his political views and of the political views of his opponents, there is all the less excuse for this high-handed abuse of the pardoning power.

"In view of the governor's assumption, wholly without excuse, of all power in this case, one is unable to understand just why the people of Tennessee should longer go to the trouble and expense of maintaining any courts or any legislatures. At all events, it is safe to assert that there is not in Europe a single monarch who would dare assume the extraordinary power which the governor of the democratic state of Tennessee has assumed in this case, and the Czar of Russia is not excepted. In this daring usurpation of power he has abused and scandalized the institutions of the great state by which he has been so signally honored."

The proposition to pave Tenth street a meeting with favor with the property owners residing on that street, and up to yesterday the petition asking the city council to pave the street and alley crossings in the event the property owners would pave the street, had the endorsement of about 85 per cent of the property owners. It is understood that the petition will be presented to the city council within the next few days, and that if there is any way possible by which the city can finance its part of the deal, the contract for the paving of this street will be let. No part of the fund to be realized from the \$40,000 worth of paving bonds is to be used to pave Tenth street, as this money will go towards the paving of the streets in the main or recognized business section of the city. As Tenth is the main and most traveled resident street in the city, it is the opinion of a great majority of our citizens that there should be at least one resident street paved, and if the property owners along that street are willing to put up all the cost of such paving and wait until the city is financial-

ly able to refund to them one-third of the cost, they should be encouraged to proceed with the work. After Tenth street is paved the same sort of a proposition can be made by the property owners on some other street, and there is no doubt but that the proposition will be acted upon favorably by the city council.

A Chicago man has asked for a divorce on the ground that his wife persists in leaving him at home with the kids while she goes out and gets drunk. Some men are certainly peculiar and hard to please.

The Dallas News says that when a woman doesn't want to vote it is a sign that she can make her husband mad some other way. The other way will hardly prove as successful.

President Taft expresses himself as satisfied with the probe into the alleged customs frauds of the sugar trust. The president is easily pleased.

## BIG SECRET BALLOT.

Labor Delegates Will Elect Officers That Way.  
Texas News Service Special.  
Galveston, Tex., April 15.—Today's session of the Texas Federation of Labor was enlivened by a spirited fight over the adoption of the secret ballot for the election of officers. M. E. Shay of Galveston, led the fight on the floor for the secret ballot and won. President Fricke of Galveston, opposed the measure, but all of his efforts were futile.

This action indicates that William L. Hoefger of San Antonio, stands a good chance of being elected president as it eliminates the possibility of a stampede to Fricke as was the case last year. It is believed that John B. Spencer will be re-elected secretary and M. E. Shay chairman of the legislative board.

G. B. Allagier of Fort Worth, is also a candidate for the presidency. When the resolutions come up this afternoon for adoption a tilt is anticipated over the suffrage problem, although it is conceded that the convention will refuse to take any stand. Miss Eva Goldsmith of Houston, delivered a spirited address this morning, following which a committee was appointed to draft a resolution censuring Taft for his speech before the suffrage convention yesterday in Washington.

The proposed anti-prohibition resolution, supported by the Texas Liberty League, was introduced at this afternoon's session, but before being debated upon was withdrawn. It cannot now be re-introduced. The election of officers is expected this afternoon.

### TENTH CARTER HANDICAP.

Eastern Racing Season Opens Today For 1916 Season.

New York, April 15.—The Metropolitan racing season of 1916 opens today with the running of the tenth Carter handicap for three-year-olds and up, at seven furlongs, at Aqueduct, L. I., the home course of the Queens County Jockey Club. From this time on the interest of the lovers of sport will be divided between baseball diamonds and the race track.

A splendid season on the turf is expected. All the New York tracks have had dates assigned them, and all of the classics will be run, including the Futurity, the Brooklyn handicap, the Suburban, the Brighton handicap, the Belmont stakes and the Empire City handicap. Much money is in sight for the horse owners. At Saratoga alone it is expected that a quarter of a million dollars will be hung up for competition. At Belmont Park, Gravesend, Sheepshead Bay, Brighton Beach and Empire City there will be offered for competition more than \$600,000. Thus nearly one million dollars is in sight for horse owners, so that they do not feel as depressed as was the case in 1905, when the Agnew-Hart anti-betting laws took effect.

The Aqueduct meeting which opened today will run until May 12, after which the racing will shift to Belmont Park, with the juveniles for two-year-olds and the national steeplechase as the big features. Gravesend, Sheepshead Bay, Brighton Beach, Yorkers and Saratoga will then, in turn, complete the round. Both the spring and fall meetings at Aqueduct have been extended to include the dates originally assigned to the Jamaica track. Altogether there will be one hundred and nineteen days of racing in New York and vicinity—a sort of rejuvenation of the turf since the blight which overtook it two years ago.

Try a Time and it will be yours.

## MONSTER CROWDS

### WITNESSED THE FREE CONCERT LAST EVENING.

Mr. Morrison the Great Irish Singer Charmed the Audience With Sweet Songs.

Last night again there was a monster crowd out to hear the lectures and enjoy one of the best shows ever witnessed in this city.

Mr. Morrison sang several beautiful songs, which greatly pleased the people. Mr. LaVerne in blackface kept the audience convulsed with his comedy. Mr. and Mrs. Chick pleased the audience immensely with their usual high class work. Mr. Roxey Meser-smith presided at the piano, showing his powers as a master of that instrument. This aggregation of entertainers stand far above the average; in fact, they are high classed and have no superiors. All are versatile and change their work every night, so there is a new show every day. Tonight there will be given another high class entertainment and an evening spent with them will be exceedingly enjoyed by all who care for superior work.

The work of the medical expert, Dr. J. LaFayette Berry, has been so successful that the skeptics have disappeared almost entirely. The public removal of the tumors from Mrs. Eason and Mr. Jackson and the unstopping of the deaf ears of many have won the confidence of many who were at first disposed to doubt the ability of anyone to do the marvelous work that the people have witnessed. Bloodless surgery is marching on to victory and the knife is being discarded that has so long been a menace to the afflicted. Dr. Berry will soon close his work in this city and all those desirous of consulting him had better call soon. Hours, 10 to 12 and 2 to 4, at the Brown Palace Hotel. Adv.

### STATE POLITICS.

Colquitt got to Gainesville first, but Poindexter received the blessing.—Annona News.

The gubernatorial race is getting warmer every day and Cone Johnson is gaining a few laps every time he goes around the track.—Bullard Herald.

Poindexter will probably carry Denton county by a majority over all his opponents. He is growing stronger every day throughout all the state.—Sanger Courier.

Hon. A. B. Davidson has formally announced for re-election as lieutenant governor and in our humble opinion the next occupant of that office is not known.—Olney Oracle.

Lieutenant Governor Davidson has announced for re-election to the place of lieutenant governor of Texas. He makes a good lieutenant governor and we have an idea that he will get a fine vote in Randall county.—Randall County News.

A prominent state-wide writing to Senator Cofer on the prohibition mess speaks of Senator Bailey as an "anti-prohibitionist." Senator Bailey is a local option pro, and opposing state-wide, votes for local option prohibition every time he gets a chance. Why distort the record?—Paris Advocate.

Cone Johnson, one of the Demolition candidates for governor says it's a crime to bolt. Since when, Cone? How about that Hogg-Clark controversy? Then there is that little Bryan episode? Did you figure in that? You may not remember, but we do. Keep the record straight.—Corrigan Index.

Cone Johnson is making a very strong presentation of his case before the people and would make a great race if it wasn't for the name of Joe Bailey rising up to haunt him and his unparalleled record of vacillation upon every public question that has come up for solution in Texas in the past twenty years. Texas must have a governor who is not changed by every passing breeze.—Abilene News.

Colquitt was in Itasca on Good Friday and when the votes are counted in Itasca on the night of the 23rd of July, present year of grace, it will be shown that the day was a propitious one for him indeed. Colquitt stands as an embodiment of the idea of political amity and neighborly good will this broad state over. He is proclaiming that doctrine from every platform in Texas.—Itasca Item.

Poindexter shows up like the views in a kaleidoscope—and one never knows where he will be nor what he will say the morrow. When he first took the stump it was either "vote for me or Cone Johnson," and a little later it was "vote for me or stay at home and pray." Now he is putting in his time taking the political hide from Colquitt, candidate for the wet wing of the anti-forests, endeavoring to peel the cuticle where it is most tender.—Nacogdoches Sentinel.

Judge Poindexter and Cone Johnson present a little contrast in their campaigning. In that Mr. Poindexter says: "There are two pros and two antis. If you are a pro and do not want to vote for me, vote for Cone Johnson." Mr. Johnson says: "If you can't vote for me, vote for Davidson, an anti from principle."—Millsap News.

Last Friday Hon. O. B. Colquitt honored Estelina by stopping over for a short address en route to Childress from Memphis. As in his former talks throughout the state, Mr. Colquitt told the people just where he was on the questions at issue. He is a Democrat and an upholder of the constitution of the state of Texas, not merely an "anti-opponent" man, as some of the other candidates seem to be.—Estelina News.

Some of the pros are having severe spasms because a Catholic priest at Muenster, Cooke county, occupied the rostrum with and made a short speech for Colquitt. What a terrible sin this was, to be sure, but these self-righteous partisans overlook the fact that a large majority of the Protestant ministers of Texas are preaching politics continually and from the pulpits on Sunday.—Baird Star.

There is only one way for the submissionists and state-wide prohibitionists to win in the coming primaries, and that is to organize and concentrate their energies on one man for the office they wish to have filled. The whisky people are well organized and you will find them all, to a man for Colquitt for governor. There are two prohibition candidates in the field opposing him—Poindexter and Johnson. One or the other of these candidates must step down and out if we hope to win.—Kirbyville Banner.

If it were possible—note the "if"—to take Colquitt, Poindexter, Davidson, Johnson—and, what's his name?—Cun-yu—and scrub 'em absolutely clean of the isms, and the antis, and the pros, and its enshrouding their real selves; if it were possible—keep in mind the "if"—to remove these clinging, closely clutched garments of political policy, and we could view the real men as man for man, we are inclined to believe that the best fundamental, primeval qualities and fitness for the exalted position of governor of Texas would be found in Judge William Poindexter of Cleburne.—Taylor Democrat.

While the prohibitionists of Texas are worrying themselves down trying to elect a governor the ants will be busy along the line of putting their men into the legislature. It's all right to have a prohibitionist governor, but it is a great deal more important for the cause of prohibition that prohibitionists be selected for senators and representatives. Dr. Rankin has made an egregious ass of himself and his following.—Brady Standard.

The exact time of the conversion of Cone Johnson to prohibition is greatly worrying both his enemies and his friends, or some of the latter, and Jim Edwards, Cone's partner, thinks it dates from the time of his conversion to Christianity, seven years ago, but Cone's letter to the Dallas News of about a year ago, just before the gubernatorial bee began to buzz in his bonnet, said in effect that he had experienced no change of heart up to that time. His conversion is, no doubt, all right, but Cone should give the time of his change of heart and stop this quibbling.—Abilene News.

### TO DEVELOP TEXAS RESOURCES.

Eastern Capitalists and Western Railroad Men Looking Over Iron and Mineral Resources.

Special to The Times. Dallas, Tex., April 15.—Eastern capitalists and western railroad men have been looking over Texas in reference to its coal and iron mineral-resources and their availability for affording necessary foundry and railroad supplies in the near future, as well as for commercial development and marine supply through the gulf ports.

President Hawley of the M. K. & T., who has just been on a tour of inspection through Texas, expressed himself as having been very favorably impressed with the remarkable building up of Texas towns, and believes the time is now ripe for the development of these natural resources of the state and propagation of the good roads movements as the necessary links for the attraction and location of great manufacturing industries. At the recent meeting of the conservation and irrigation congress at Fort Worth, the attention of a large number of delegates was called by the state geologist, who had made very careful research into the undeveloped mineral resources of the state, to the large deposits of coal, iron and other metals

### STAGE IS WICKED, HE SAYS.

It is a Freak Institution, Thinks This Pastor.

"The theatre and the stage are freak institutions that breed immorality, licentiousness, vice and crime, and actors and actresses are, with but very rare exceptions, people of dissolute and immoral lives."

This is the opinion of the stage and actors of today expressed recently by Rev. Peter Ainslie, pastor of Christian Temple, North Fulton Avenue, who will preach in the temple tonight on "Is the Theatre a Help or a Hindrance?" Mr. Ainslie, who is one of the best known ministers of the Christian Church in the east, believes that the stage of the present time is as bad, if not worse, than at any time in the history of the world.

"The stage and theatre are purely freak institutions," said Mr. Ainslie, "born twenty-five centuries ago in the lap of licentiousness. It arose to a degree of purity at the time of Aeschylus, but by the year of the first Olympiad it sunk to the level of its birth, not only in Greece, but in Rome, where it had been carried.

"Plato, Aristotle, Aristophanes, Sophocles and other sages of antiquity and ancient literature were its bitter opponents. In the Twelfth Century the stage flourished as the adopted daughter of the Church. Churches and cathedrals were transformed into theatres. Biblical history and the lives of the saints were dramatized. Monks first acted the parts in the plays. The remnants of some of these plays are still staged by peasants in some of the remote parts of Switzerland and Germany.

By the time of the immortal Shakespeare and Marlowe the theatre, by hasty steps, as water down a hillside, had again reached the pool of licentiousness. Dr. Johnson deplored the growth of the immorality of the stage in England, and Lord Macaulay is bitter in denouncing it. Thomas Shaw, the author of the 'History of English Literature,' says that while most of the actors of his time were liberally educated, they were men of dissolute lives, and at the end of the Sixteenth Century were scarcely a shade removed from rogues and vagabonds.

"Of course there have been exceptions, as there are to all rules. Garrick and Emma Abbott stand out boldly among those of the histrionic type as people of good morals. The celebrated actor Macready never allowed his daughter to attend the theatre, and when Mary Anderson left the stage she forbade her children to ever attend any kind of plays.

"The stage is a hindrance to good morals, as history shows. The famous Edwin Booth, in a letter to a friend characterizes the stage as an immoral institution. The stage is bad in all forms, and there is no such thing as good plays and bad plays. All are bad, and do not contribute anything to morality."—Baltimore News.

New Hampshire Grange Converted to Woman's Suffrage.

By Associated Press.  
Washington, D. C., April 15.—Mary N. Chase, president of the New Hampshire Woman's Suffrage Association, presented a report showing the chief effort of the year in New Hampshire, in addition to securing names to the National petition, had been the practical conversion of the state grange to woman's suffrage.

A paper or discussion on the subject was required in every local body by order of the lecturers and in that way the movement was brought to the attention of 30,000 members of the grange. Some fifty or more Grangers competed for prizes for the best essay on woman's suffrage.

Governor and Mrs. Quinby are members of the state association, Mrs. Chase reported, and their names head the petition.

Valuable notes and papers were stolen from me on the night of April 8th, 1916. All parties are hereby notified not to trade for any papers payable to me without my genuine signature. DAVID ROGERS, Jolly, Texas. —255-6tp

### WHAT TRUCK WILL DO.

Rio Grande Valley is Setting an Example.

The lower Rio Grande Valley in Texas has shipped this year 120 cars of cabbage, an increase of sixty-seven cars over last year, and it is estimated that 1,600 cars of other vegetables will be sent out of that section, exclusive of onions, which are always listed as a separate product, like melons. The annual shipment of melons and onions have been so large from season to season that they have to be accepted as staple crops of that region. The fact that Texas is producing and selling in the outside markets these large money crops is not of itself wonderful, for the coast country climate is ideal for them. Rather the astonishing thing is that this revolution in agricultural production has been accomplished in so short a time. To these results a number of influences have contributed—the press of the state in urging diversification, the railroads in spending money for experiments, and expending both money and energy in promoting immigration and home building. Individual and corporate capital have pushed the doctrine that was long regarded as wholly unsuited to farm pursuits and there are potential factors in a great victory for progress in Southwest Texas. What they have done for Southwest Texas they will do for any section of the state.—Citizen-Star of Fort Worth.

### Women Are Making Determined Fight For Suffrage There.

By Associated Press. Washington, D. C., April 15.—To report of the Oklahoma Women's Suffrage Association presented to the National Convention today by President Kate H. Biggers, shows that the women of the state are leading a determined fight. A petition bearing nearly 40,000 signatures to strike the word "male" from the state constitution has been prepared and asks that the question be submitted to the voters at the next special or regular election in Oklahoma in 1916.

Mrs. Biggers reported that one of the surprises in store came when they presented the petition to the secretary of state. The women, being political non entities, could not take the receipt. The secretary of the Oklahoma Federation of Labor consented to stand as guardian for the sex, minors and the receipt was made in his name.

"The anomaly of these women, many of them middle aged and gray haired, requiring a young man to act as guardian was a surprise, as well as an object lesson in the injustice perpetrated on women," declared Mrs. Biggers.

"So quietly had the names to the petition been secured that it caused consternation among politicians when the women presented the completed petition with 33,586 signatures, to the secretary of state. The aspirants for political berths whose records might not stand the test of women voters, immediately conferred with a view to preventing the petition from being presented to the people. This anxiety to attack the petition was one of the strong proofs of the general prophecy that the vote on our amendment would surely carry. If those who manipulate our politics had not been confirmed in this opinion they would have permitted the question to be voted upon. They dared not take this risk. Immediately the plan of suspending action on the petition was suggested, on the absurd charge that 5,000 of the signatures were fraudulent. A hearing was granted by the secretary of state, January 25th. The Suffrage Association was ably defended by three of Oklahoma's eminent lawyers, Judge J. L. Brown, J. B. Robertson and P. Nagle, these men being prominent in the republican, democratic and socialist parties. The secretary of state sustained the petition, whereupon the remonstrant appealed to the supreme court. He was allowed forty days in which to file his brief. At the expiration of the time, he was unable to sustain his charges, and prayed for a further extension, which the court granted. He was given until April 1st to produce proofs of his allegations. Meanwhile, we are losing no time in working for our campaign."

#### OPEN AIR MEETINGS.

They Are of Great Help to the Suffragette Movement.

By Associated Press. Washington, D. C., April 15.—A symposium on open air meetings was one of the features of the afternoon session, at which some of the open air workers exchanged their experiences and gave ideas for the best success of open air gatherings.

Susan W. Fitzgerald of Boston, declared three things essential to the successful out-of-door speaker in the cause of equal franchise. They were, she said, a dogged determination to make good, no matter what occurs; voices of good carrying power; an understanding of the audience; power of mental adjustment, and a sense of humor.

"Some people stop from curiosity when they see a woman speaking," said Miss Fitzgerald. "Many people stop because they think it is a Salvation Army meeting, or some one advertising patent medicines; others stop because it is warm and they are lazy and it is easier to stand still than to move on."

"You've got to go where the people are," counseled the speaker. "It is absolutely useless to expect them to come to you. The audience not only will not come off the thoroughfare to a quiet spot, but wont cross the street."

"This means you have got to face the question of noise, and we found that a trolley transfer point or some equally busy place was about the best place for the meetings. It is hard to have to talk down the noise of cars, but it is a lot more encouraging than to talk to nobody."

"There's no use having a pre-arranged subject. If you find they do not respond to your points, drop them and take up something that does hit them. The plea of democracy, the need of the working woman and the tax paying argument tell best," said the speaker.

#### Roosevelt in Vienna.

Vienna, April 15.—The popular welcome accorded Colonel Roosevelt by the Viennese has eclipsed all expectations. No event in a long time has attracted so much attention in the Austrian capital as the visit of the former President of the United States. The entertainment program, arranged in his honor, begins tonight with a dinner to be given by Count Von Aehrenthal, the foreign minister. Tomorrow Colonel Roosevelt will be formally presented to the Emperor by the new American Ambassador, Richard C. Kerens.

#### Jeffries Has a Birthday.

Ben Lomond, Cal., April 15.—James J. Jeffries, who is training here for his coming fight with Jack Johnson, received congratulations today on the occasion of his thirty-fifth birthday anniversary. The big fellow celebrated the day by taking a ten-mile run along country roads, working in the handball court for an hour or so and engaging in several brief sessions at wrestling and boxing with Farmer Burns, Bob Armstrong and Sam Berger.

#### TREASURER'S REPORT.

Nineteen Thousand Spent By Suffragettes During Year.

By Associated Press. Washington, D. C., April 15.—Harriet Taylor Upton, treasurer of the National Association, presented her report, showing the total receipts of the year 1909 to have been \$21,466.08. The disbursements were \$19,814.50.

During the year the association spent about \$6,000 on organization and sent to South Dakota, alone, where a campaign is on, \$2,600. The treasurer's report in part, was as follows:

"Miss Emily Howland of Sherwood, N. Y., was the largest individual contributor during the year. The five states having the largest membership are, in their order, New York, Massachusetts, College League, Maryland and Pennsylvania. The five states contributing the largest amounts of money, in their order, are, New York, Massachusetts, Pennsylvania, Louisiana and Ohio.

"The auxiliary associations showing the greatest gain in membership are College League, Maryland, Illinois, Kentucky and Connecticut.

"Virginia has organized a promising society during the year, and is, therefore, admitted into the fold.

"States showing gain in membership are: California, Connecticut, Delaware, District of Columbia, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Minnesota, Mississippi, New York, Rhode Island, Texas, Tennessee, Virginia College League."

#### A DEAD STOMACH.

Of What Use is it?

Thousands? Yes, hundreds of thousands of people throughout America are taking the slow death treatment daily.

They are murdering their own stomach, the best friend they have, and in their sublime ignorance they think they are putting aside the law of nature.

This is no sensational statement; it is a startling fact, the truth of which any honorable physician will not deny.

These thousands of people are swallowing daily huge quantities of pepsin and other strong digesters, made especially to digest the food of the stomach without any aid at all from the digestive membrane of the stomach.

Mi-o-na stomach tablets relieve distressed stomachs in five minutes; they do more. Taken regularly for a few weeks they build up the run-down stomach and make it strong enough to digest its own food. Then indigestion, belching, sour stomach and headache will go.

Mi-o-na stomach tablets are sold by druggists every where and by Weeks Drug Company, who guarantee them. 50 cents a box.

GOSS PLEADS GUILTY.

Defendant's Sentence Fixed at Imprisonment for Life. Denton, April 14.—At 3 o'clock this afternoon Ed Goss withdrew his plea of not guilty and entered a plea of guilty to the charge of murder. The state withdrew its request for the death penalty and the jury, after being charged by the court to either assess the death penalty or life imprisonment returned a verdict assessing his punishment at confinement in the penitentiary for life. Some fear was expressed that the large crowd of Cooke county people on hand might take the law into their own hands and attempt to hang the defendant, but most of the out of county witnesses left on the 4:25 train and no trouble is anticipated. The attorney for the defense asked that the prisoner be closely guarded in the court room and on the way to the jail.

TABERNACLE SERVICES MEETING WITH SUCCESS; ATTENDANCE IS LARGE

At the conclusion of the song services last night, a report of the cottage prayer meetings was made, and the announcement for today's program of the services. Evangelist Finny announced that he would take his text from Proverbs, 8th chapter and 36th verse, "He That Sinneth Against Me, Wrongeth His Own Soul." He handled his subject in a very able manner, reciting many instances of what sin would do for mankind, and the effect of sin upon the human soul.

At the conclusion of his sermon the usual invitation to those who wished to quit their sinful lives was extended and several passed to the front and were converted.

A list of twenty-five or thirty names had been handed in to the evangelist by friends, asking the Christian people to pray for them. These names were read.

After dismissing the congregation, the Christians were invited to remain for an after meeting to arrange plans for the further advancement of the interest of the meetings.

Today's program consisted of a sermon at 10 a. m., by Evangelist Finny, his subject being, "The Body as the Temple of the Holy Ghost; a prayer meeting at the office of the Wichita Grain and Coal Co. a 3 p. m.; a children's rally at the tabernacle at 4 p. m., and the usual cottage prayer meetings, to be conducted at homes in eight different portions of the city.

Tonight at the tabernacle the evangelist will preach on "The Final Judgment."
