WICHITA FALLS, TEXAS, FRIDAY, MAY 6, 1910

NUMBER 306

## PAVING COMMITTEE FILES ITS REPORT

IT IS FAVORABLE TO PETROLITHIC PAVING, WHICH IS RECOMMENDED.

### QUESTION OF FINANCING

Committee in Charge of This Feature Has Not Yet Reported Its Findings.

The report of the council committee appointed to go to El Paso to investigate the merits of the petrolithic material was filed yesterday afternoon and is favorable to the above mentioned material. It is as follows:

To the Honorable Mayor and City Council of Wichita Falls, Tex.

Gentlemen:—We, your committee appointed to investigate the merits of different paving and more particularly the petrolithic paving, beg to submit the following:

In reference to the petrolithic paving, will say that after careful investigation at El Paso, where this paving has been in use for from one to two years, it was found to be in good condition and the people in general were well pleased with it as a paving for their residence districts.

We also found other paving in that city, which, in the judgment of these same people, as well as ourselves, was equally as good.

After investigation with reference to the city doing its own paving or letting same to contract, we are of the opinion that the city should do its own paving. However, we would desire that the council investigate this matter thoroughly before making final decision.

Respectfully submitted,  
J. F. REED,  
J. A. RICHOLT.

The committee appointed to devise some means of financing the city's part of the expenditure has not yet reported. It is understood that the matter hinges upon the ability to finance the work in the same manner that the fire engine was purchased.

If this plan can be adopted, there is every reason to believe that the paving will be put down with little further delay. The above report, while not unqualified in its recommendations of the petrolithic system, is favorable to it. Action will be taken on the matter at the next regular meeting of the council.

### DANVILLE TROUBLED.

Grave Fears Entertained Over Mine Situation.

By Associated Press.  
Danville, Ill., May 6.—Two companies of militia and the sheriff, with a number of deputies, are at Westville, where several hundred miners have been troublesome for the past few days.

Grave fears are entertained as to the outcome of the day. There was no demonstration when the troops arrived. The miners declare that during the day they will march in a body to Catlin, five miles from Westville.

### MAKES GOOD SHOWING.

Jeffries Rapidly Getting into Trim for Fight.

By Associated Press.  
Ben Lomond, Cal., May 6.—The ease with which Jeffries toyed and trifled with Choyinski in the first bout, yesterday made a remarkable impression on the latter. "I stake my judgment that Jeffries will be in shape for his fight with Johnson inside of a week," said Choyinski.

### LANDSCAPE LECTURER IS HERE; WILL SPEAK AT THE THEATRE TONIGHT

Howard Everts Weed, who is to lecture at the Wichita Theatre tonight on civic matters, arrived in the city this afternoon on the southbound Denver. He will spend the afternoon riding over the city and will speak at the opera house tonight.

All the city and county officials, members of the Chamber of Commerce and everyone else interested in the making beautiful of Wichita Falls, are expected to attend tonight's lecture. Mr. Weed will not only discuss the question of civic beauty from a general standpoint, but will make some observations that particularly apply to local conditions. The lecture will be open to the public and the subject to be discussed is one of the most vital interests to every citizen.

### BREWERY WORKERS' STRIKE.

Two Hundred and Fifty Men Out at San Antonio.

Texas News Service Special.  
San Antonio, Tex., May 6.—With two hundred and fifty brewery workers out on strike here, the plants are all closed this morning.

The men demand an increase of two dollars a week, the brewers offering a compromise of one dollar. Louis Kemp, international secretary of the union is here conducting the strike. All brewery workers, except the cooperers, are affected.

The men decline to accept the compromise and say they will fight to a finish.

### NO AGREEMENT REACHED.

No Result From Conference of Miners and Operators.

Texas News Service Special.  
Fort Worth, Tex., May 6.—The scale committee for the miners met the operators of the Texas filed in conference here today and adjournment was taken at noon until tomorrow. No agreement was reached. The men demand an increase of five cents a ton.

### TWO CHILDREN BITTEN BY DOG; CONSIDERABLE EXCITEMENT FOLLOWS

A small white dog created considerable excitement on 7th street near the Wichita Falls Sanitarium, by biting two little girls, Hazel Thornton, aged 9, the daughter of Mr. and Mrs. J. A. Thornton, and her companion, a little girl, the daughter of Mr. and Mrs. Morgan.

Attracted by the screams of the two children, some men chased the dog away, but not before both children had been bitten, the Thornton child on one of her fingers and one leg and the Morgan child on one of her arms.

The cry of "mad dog!" was immediately started, and it was finally killed by Mr. J. A. Thornton, who, on the advice of the family physician, cut the dog's head off and expressed it to the Pasteur Institute to be examined by those in charge of the institution, to determine if possible as to whether the dog had rabies.

It is not believed by those who have some knowledge of such matters that the dog had rabies, but that it was of none too playful disposition, and it is not thought that the bites inflicted on the two little girls will result seriously. However, the dog law, which requires all dogs to wear muzzles, is likely to be enforced for a few weeks.

The dog was the property of Frank McGlasson.

### SUNDAY SCHOOL MEETING CONVENED YESTERDAY AFTERNOON—MANY PRESENT

The Wichita County Sunday School convention met at the First Presbyterian church yesterday afternoon, with a large number of delegates, mostly from local schools, in attendance. Yesterday afternoon was devoted to the opening exercises, which consisted of appropriate music and the welcoming address to the visitors. W. E. Hawkins of Dallas addressed the convention at 4 o'clock, speaking on Sunday school ideas and methods. Another interesting session was held last night.

The following program was carried out by the delegates this morning:

9:00—Song Service, led by Mr. Hawkins.

9:10—Devotional; Leader, Rev. R. E. Farley.

9:25—Teachers' Conference; Led by Mr. W. E. Hawkins.

9:55—Report of the Home Department Superintendent of the Wichita County Sunday School Association; Mrs. E. J. Clasbey.

Reports of Home Department; Superintendent from each Sunday School in Wichita County.

10:15—What Have We Been Doing Since the last Convention?—by the Delegates.

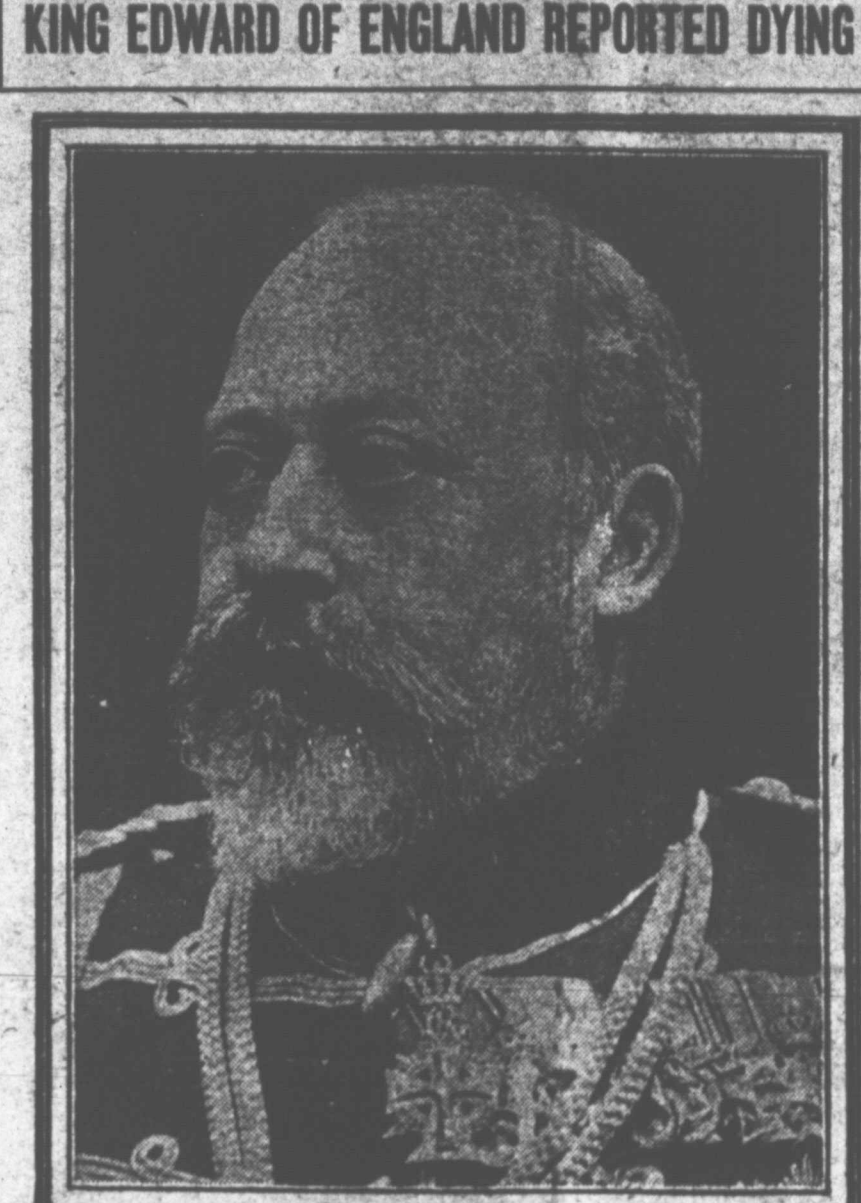

10:30—Special Days in the Sunday School; Their Importance and How to Observe Them.

10:50—The Present Day Demand for Trained Teachers; Rev. J. L. McKee.

Discussion.

11:15—The Relation of the Pastor to the Sunday School; Mr. W. E. Hawkins.

### KING EDWARD OF ENGLAND REPORTED DYING

By Associated Press.

London, May 6.—It is reported among the Palace attendants, but not confirmed, that King Edward is sinking rapidly and is not expected to survive more than two or three hours. Home Secretary Churchill has been summoned to his bedside.

### FATAL EARTHQUAKE WILL CLOSE BRICK WEDNESDAY NIGHT PLANT DEAL SOON

AT LEAST FIVE HUNDRED WERE KILLED AT CARTAGO, IN COSTA RICA.

Every Structure in City Razed By the Shock—Fatalities May Reach Into Thousands.

By Associated Press.  
San Juan del Sur, Nicaragua, May 6.—Reports received today from San Jose, Costa Rica state that there are no habitable houses remaining in Cartago, which was visited by a series of earthquake shocks on Wednesday night. Three hundred and fifty bodies have been removed from the ruins.

Martial law has been declared to prevent disorders and looting. The authorities are making an effort toward the relief of the wounded and destitute.

It is generally agreed that the first report of five hundred fatalities was conservative. The finest structures in the city, including the Palace of Justice erected by Carnegie, are in ruins. Some four hundred bodies have been taken from the ruins and the list of injured will add several hundred to the casualties.

Earthquake in California.

By Associated Press.  
Fresno, California, May 6.—A sharp earthquake was felt here today. The vibrations lasted more than a minute and shook the windows and made dishes rattle.

Contingent only upon the raising of the ten thousand dollars needed to purchase the site which is to be donated, the new brick plant to be erected by O. H. Kentner is now a certainty. The papers of the agreement between Mr. Kentner and the Chamber of Commerce were drawn up this morning and the deal will be formally closed as soon as the money for the site is raised.

The site consists of fifty acres across the river on the west side of the railroad tracks. The owners of this property have placed the very reasonable valuation of two hundred dollars per acre upon it. Little difficulty is anticipated in raising the amount needed and the deal is to be closed at the earliest possible date.

For some time, Mr. Kentner's coming to this city hinged upon the ability to obtain cheaper gas, but in view of the fact that this is now considered a certainty, he decided to take "pot-luck" and proceed with the erection of his plant. By the terms of the agreement he is to begin work within 120 days and complete the plant within six months from the date of beginning work.

This means that the plant is to be in operation by March 6, 1911. The plant will cost about one hundred thousand dollars and will give permanent employment to about one hundred hands. Mr. Kentner will make this city his home and devote his personal attention to the operation of the plant. He has already joined the Chamber of Commerce and promises to interest other concerns on his trip east, which he will take shortly. This will make the fourth brick plant erected by him, the other three being in successful operation.

A committee consisting of T. C. Thatcher, Myles O'Reilly, J. A. Kemp, and J. B. Marlow has been appointed to raise the amount needed and it will proceed to work at once.

Mr. Kentner selected Wichita Falls over a large number of other cities as the site for his plant. He chooses this city because of its natural gas and railroad facilities and because of the immense amount of building that is being done and that will continue to be done. Wichita Falls secures the factory by donating a fifty-acre site and promising a three-cent rate on natural gas.

### FEDERATION OF NORTHERN AND SOUTHERN CHURCHES RECOMMENDED BY BISHOP

By Associated Press.  
Asheville, N. C., May 6.—After the devotional exercises a roll call of the conference resulted in a flood of memorials and petitions. Arkansas presented twenty petitions from women for laymen's rights. These petitions caused laughter and a delegate from Arkansas protested against the "unseemly levity." This protest brought more laughter.

A resolution was adopted setting aside Sunday as a day of prayer for divine guidance in the selection of bishops. Dr. Haven, General Secretary of the American Bible Society, announced in the course of his address that Mrs. Russell Sage had sent the Society a check for half a million dollars, the Society having arranged the same amount as stipulated.

### SCHOOL CENSUS TO BE TAKEN AT ONCE

VIRGIL SKEEN APPOINTED BY TRUSTEES AS ENUMERATOR FOR THIS YEAR.

TOTAL OF 1800 EXPECTED

Present School Enrollment is 1669, Being Far Ahead of Last Session.

At a meeting of the school board yesterday afternoon it was decided to proceed at once with the taking of the annual school census and V. G. Skeen was elected enumerator by the trustees. Mr. Skeen will proceed to work at once and it is hoped to get a complete and exhaustive census made this year.

In the opinion of those qualified to judge, the school census this year should at least give at least eighteen hundred children of scholastic age in the city. The enrollment for this session reached almost to the seventeen hundred mark and there are a number of others attending private schools or not attending at all, who are to be enumerated. The school district gets six dollars from the state for each child, or scholastic age, whether that child is attending the public schools or not. If the district can show scholastic population of eighteen hundred, it will receive nearly eleven thousand dollars from the state.

The report of attendance and enrollment for last month by Superintendent Toland shows a total enrollment of 1669 pupils as follows:

High school, 194; Central Grammar school, 605; San Jacinto school, 216; Alamo school, 308; Lakewood school, 127; Washington school (colored) 119.

For the same month last year the enrollment was 1240, there being an increase of 429 pupils or about thirty-five per cent gain. The tardiness record is considered excellent; there being only 96 cases during last month, as compared with 185 during the same month last year. There were no spankings administered among the white pupils and only two were meted out to the Ethiopian contingent.

### BUSINESS AGENT ENJOINED.

Unions Apply to Courts to Stop Walking Delegate.

Texas News Service Special.  
Fort Worth, Tex., May 6.—For the first time in local union labor history an injunction was invoked in behalf of the union when a temporary injunction was granted this morning by District Judge Swayne restraining John Hawkeye, business agent of the Plasterers' Union, from interfering with the lathers' working. The order was issued on petition by representatives of the wood, fire and lathers' union.

### NEW FIRE RATES.

Keys Are Received Today For Many Cities.

Texas News Service Special.  
Austin, Tex., May 6.—The state fire rating board today received key rates from the following towns:

Ballerig, 57; Brenham, 77; Hallettsville, 61; Longview, 56; Mineola, 82; Nacogdoches, 72; Mart, 63; Wharton, 74.

Amendments affecting Dallas show a further slight reduction of mercantile risks.

### CHAMBER OF COMMERCE DIRECTORS WILL MAKE ANOTHER CENSUS EFFORT

The Chamber of Commerce directors will meet tomorrow morning to take further steps to see that the census is completed before May 15. It is believed that, in spite of the efforts which have already been put forth, many inhabitants of this city are still uncounted and that a determined effort will have to be put forth in the remaining nine days if all of them are to be properly enumerated. The census enumerators for this city have been requested to meet with the directors tomorrow morning.

Work was started this morning by a large force of workmen tearing down the Wilson hardware building which is to be removed to make room for the City National Bank building.

### CONDITION OF KING OF ENGLAND VERY CRITICAL; GRAVE ANXIETY IS FELT

By Associated Press.  
London, May 6.—A bulletin issued late today says the King's condition is critical.

By Associated Press.  
London, May 6.—In an official bulletin issued today, King Edward is reported as passing a comparatively quiet night. The symptoms are not improved and His Majesty's condition gives rise to grave anxiety.

At three o'clock this afternoon the court officials stated that as far as may be judged, without expert examination, the King's condition is a shade better than during the night.

Archbishop Canterbury when questioned regarding the king's condition, said with a solemn shake of his head as he emerged from the gate, "Very bad." Consols have dropped from eighty-one and eleven-sixteenths, the close yesterday, to eighty-one at noon.

By Associated Press.  
London, May 6.—All members of the royal family in London are now coming to the palace.

### ATTEMPTED ASSASSINATION.

Man Fired Upon Through Door of His Home.

Mt. Pleasant, Tex., May 6.—While Zeke Calloway was making his bed on the floor at his home last night, he was fired upon at close range through the door. The powder burned his face and he narrowly escaped death. The shot was intended in the floor. No arrest has been made.

## You Are a Dead One

If you fail to be counted by the census enumerator before May 15. For ten long years you will be a nonentity, and officially you won't exist.

Get yourself counted. Get counted today. If the census enumerator hasn't seen you, notify the Chamber of Commerce, telephone 399, without delaying any longer.

Wichita Falls will be judged by your work within the next few days.

**Early Morning View of Halley's Comet As It Appears in the Eastern Sky.**

The illustration was prepared under the direction of Professor Henry Norris Russell of Princeton University at the request of the Scientific American. Halley's comet is shown as it will appear in New York on May 2 at 5 o'clock in the morning. The comet's closest approach to us comes on May 20, when it is but 14,000,000 miles away. For a few days following this it will be splendidly visible in the evening sky, and then it will fade gradually as it recedes from us. The illustration shows better than any verbal description where to look for the comet in the sky compared with the moon and Venus are shown in the positions which they will occupy about May 2, when, on the whole, the comet can be seen to the best advantage. At an earlier date Venus was higher in the sky—about 2 a. m., on April 15, as against 3 a. m., on the later date. The comet's brightness when it appears in the evening sky about May 20, will be sufficient to render any finding diagram unnecessary. It will only be needful to look toward the west half an hour or more before the comet sets, which it does at 8:30 p. m., on the 20th, 9:15 on the 21st and 9:55 on the 22nd, after which it will be clearly visible until after 10 p. m.

**ARE MISSIONS WORTH WHILE.**

A New Society in This City Meets to Discuss the Question.

Do mission work and mission study pay? Opinions differ widely; but those who participated in the initial meeting of the "Wichita Falls Missionary Union," at the First Baptist church yesterday, are of the opinion that they do, and the meeting has confirmed them in that opinion.

What is the "Missionary Union?" It is an organization—perhaps society would be better—of women workers representing nearly all of the religious denominations in Wichita Falls, and those which are not represented may become so if they wish, for the invitation has been extended to all. It ought to be a popular society, for it has no dues. All it asks, and seeks to gain, is the sympathetic consideration and co-operation, by all religious workers, in the various missionary problems which confront them all. Its founder is Mrs. J. L. McKee, who, bringing the idea from her former home at Kansas City, has developed it here, and to whose efforts the success of yesterday's meeting is largely due. The meeting began in the morning and lasted all day. But then it meets only twice a year, so the time is evened up all 'round.

The fact is, however, that there wasn't a dull minute during the whole time. If any one doubts the ability of the ladies of Wichita Falls to express interesting ideas in an interesting way, let him go to the next meeting. It will not be 'till next November, probably, and he may have the fact proved to him before then, but it will not hurt him to go, just the same. Those who were present yesterday could not but have been gratified at the intelligent way in which our ladies handled the questions before them. This was brought out in the answers returned off-hand, to the questions propounded by Mrs. I. A. Farris during "question hour." The addresses at the morning session were "The Ideal Worker," by Mrs. McKee, "The Ideal Giver," by Mrs. J. T. Roberts, and "How Can We Interest our Young People in Missions," by Mrs. B. T. Benningfield. In the afternoon, the Rev. R. E. Hamlin delivered an address on "The Heroism of Missionary Work," which was both eloquent and inspiring. The program of addresses was interspersed with music, rendered by Mrs. J. T. Roberts and Messrs.

Kennedy and Bradley; and at the noon hour a delightful lunch was served in the church parlors.

In all, the meeting brought together over one hundred workers, representing seven congregations. The promoters of the movement for co-operative study are much encouraged over the results of the new society's maiden effort.

**The Cream Bakery**

Uses Calumet Baking Powder and it gives us the best satisfaction of any baking powder that we ever used. We have used Calumet Baking Powder in all of our baking and can recommend Calumet Baking Powder to any one as being the best made. When you use Calumet Baking Powder you are sure of having success with your baking. Our object is to always use the best of everything. We figure that it is not how cheap we can make our foods, but it is how good we can make them. We can say Calumet Baking Powder makes the lightest and sweetest food of any baking powder on the market and another thing we want to say to the consumers of Wichita Falls is this, Calumet Baking Powder never leaves a taste or smell of a baking powder in the food, which you will find in so many baking powders of today. We have used Calumet Baking Powder for the past two years.

Yours truly,

**Alleged Vendors of Fatal Drink.**

Westerly, R. I., May 6.—John Cisco, an Italian, and his wife were given a preliminary hearing today on the charge of manslaughter in selling whisky containing wood alcohol to Daniel T. Sullivan on April 12, last, from the alleged effects of which Sullivan died the following day. Cisco is alleged to have conducted a kitchen barroom for some time past in his home at White Rock, an Italian settlement near here, and it is suspected that the whisky he sold was responsible for the deaths of fourteen victims or wood alcohol poisoning in this vicinity in the month of April.

**A Twenty-two Story Building  
Grown Old Fashioned in Ten Years**

[Arrow indicates building being torn down. Roof of J. P. Morgan's office in foreground.]  
The Gillenger building, Wall and Nassau streets, New York City, was built some ten years ago and was considered a model twenty-two story office structure. But the owners of the ground decided the building was old-fashioned—grown old in ten years—and now an army of workmen are busy tearing it down to make room for a building forty-two stories high. The new skyscraper will be the tallest in the country.

**HOLLAND'S CLINIC FOR ANIMALS**

Hospitals Where Operations Are Performed Under Anaesthetics.  
The Hague, Holland—The Hague is the first town in Holland to possess a clinic for animals, where operations are performed under anaesthetics. Some time ago there was quite a discussion in the press whether it was possible to administer anaesthetics to animals. Several specialists averred that in every case it had been tried the creatures died. At The Hague three veterinary surgeons were, however, repeatedly successful in their attempts and this year a special clinic has been opened here in connection with the "home for waifs and strays," where dogs and cats find shelter and care. The operating room looks much like that in a hospital for "humans," only on a smaller scale. There is the operating table and the surgical instruments neatly laid away on glass shelves behind glass doors. There is hot and cold water, packages of sterilized cotton, wool, bandages, medicaments, and, last, but not least, the appliances for the administration of anaesthetics. Near the operating room is the consulting and waiting room. There, there is the hospital proper, a large, well warmed room, with large, comfortably arranged cages and kennels all around it. Next comes a small kitchen. Then there is a spacious yard, in and around which are built "apartment houses" for the paying guests. Needless to say, all the boarders are dogs and cats. On the ground floor are the dog kennels, arranged much like the animal cages in the zoological gardens, having an inner kennel with "straw nest" within the building and an outer kennel or little sand strewn garden patch. About 350 dogs are cared for in a year. —W. J. L. Kiehl, in the Chicago News.

**Aims and Purposes of "Mothers' Day."**

To raise the standards of home life. To develop wiser, better trained parenthood.  
To give young people ignorant of the proper care and training of children, opportunities to learn this, that they may better perform the duties of parenthood.  
To bring into closer relations the home and the school that parent and teacher may co-operate intelligently in the education of the child.  
To surround the childhood of the whole world with that loving, wise care in the impressionable years of life, that will develop good citizens, instead of law breakers and criminals.  
To use sympathetic, earnest effort to this end, through the formation of Mothers' Clubs in every public school and elsewhere; the establishment of kindergartens, and laws which will adequately care for neglected and dependent children, in the firm belief that united concerted work for little children will pay better than any other philanthropic work that can be done.  
To carry the mother-love and mother-thought into all that concerns or touches childhood in home, school, church, state and legislation.  
To interest men and women to co-operate in the work for purer, truer homes, in the belief that to accomplish the best results, men and women must work together.  
To secure such legislation as will insure that children of tender years may not be tried in ordinary courts, but that each town shall establish juvenile courts and special officers, whose business it shall be to look out for that care which will rescue, instead of confirm, the child in evil ways.  
To work for such prohibitory care in individual homes rather than institutions.  
To rouse the whole community to a sense of its duty and responsibility to the blameless, dependent and neglected children, because there is no philanthropy which will so speedily reduce our taxes, reduce our prison expenses, reduce the expense of institutions for corrections and reform.  
The work of the Congress is civic work in its broadest and highest sense, and every man and woman who is interested in the aims of the Congress is cordially invited to become a member and aid in the organized effort for a higher, nobler national life, which can only be attained through the individual homes.

\*\*\*\*\*  
WEATHER FORECAST.  
\*\*\*\*\*  
For Wichita Falls and vicinity  
◆ —Tonight unsettled; cloudy.  
◆ Saturday, generally cloudy and colder.  
\*\*\*\*\*

Hetty Green's only son, E. H. R., is no doubt sorry now that he admitted in an interview that he had never married because he had never met a woman willing to marry except for his money. It is said that in less than two weeks he received more than 150 letters from women, young, old and middle-aged, maids and widows, all expressing willingness to wed himself alone and with no mercenary motives whatever.

Senator Jeff Davis of Arkansas has introduced a bill in the senate to prohibit the granting of government liquor license in territory prohibited by local option or state laws. The senator himself used to do his share of drinking booze, but he declared last year, soon after the death of his wife, that he was done, and his friends declare that he has kept his word.

### FOUR-SIDED DEBATE.

Candidates May Get Together at Austin in June.  
Texas News Service Special.  
Austin, May 5.—An announcement was made here today that plans are being formed for a joint debate between the four gubernatorial candidates Johnson, Potndexter, Colquitt, and Davidson, here in June. The announcement created a stir in political circles here and if the debate materializes thousands will come from all parts of the state. Several challenges have been heretofore hurled by the various candidates but not accepted.

For lunches try a Casino lunch turkey, lunch chicken at Shorred & Co. 301-c

**Stockholders Meeting.**  
At the third annual meeting of the stockholders of the Times Publishing Company held yesterday afternoon at the office of Anderson & Patterson, the report of the manager was submitted and found to be satisfactory in every respect, which showed a substantial increase in business over the previous year. Owing to the fact that improvements are being made in the plant, calling for the expenditure of several thousand dollars, and a building is now under construction, to be owned and used by the Times as its permanent home, it was deemed advisable not to declare a dividend.

Since its organization, May 1st, 1907, a cash dividend of 50 per cent of the capital stock of \$12,525 had already been paid and it was found necessary to increase this to \$20,000.

All the old board of directors, consisting of Frank Kell, R. E. Huff, J. A. Kemp, T. C. Thatcher, G. D. Anderson and Wiley Blair, were re-elected, and by a resolution the membership of the board of directors was increased from seven to nine, and Messrs. Geo. H. Trevathan and W. L. Robertson were added.

At the conclusion of the stockholders' meeting, a directors' meeting was immediately called, and the same officers who have served the company since its organization, were re-elected.

### TO IRRIGATION CONGRESS.

Governor Campbell Announces Texas Delegates Today.

Texas News Service Special.  
Austin, Tex., May 5.—Delegates named by the governor to attend the Irrigation Congress at Pueblo, Colorado in September, are:

M. L. Swinehart, Pecos; E. W. Griffin, Toyahvale; J. T. Kalckbeker and Avery Turner, Amarillo; W. L. Sargent, Fort Worth; Alva Heywood, San Benito; W. S. Fitch, Mercedes; Lon C. Hill, Harlingen; G. A. Dobbins, Galveston; J. H. Kirkpatrick, San Antonio; W. M. Hamilton, Palestine; R. N. McGill, Brownsville; J. E. Kerr, Sherman; Wm. Carroll, Beaumont; Judge Jesse Matthews, Glendale; Jno. Rayson, Eagle Lake; A. P. Broden, Pierce and E. F. Booty, Georgetown.

### "THIS IS MY 48th BIRTHDAY."

Jeff Davis.  
Jeff Davis, United States senator from Arkansas, was born near Richmond, in Little River county, Arkansas, May 6, 1862. After receiving his preliminary education at Russellville, Arkansas, he studied law at Vanderbilt University, and was admitted to the bar at the age of nineteen. He rapidly rose to prominence as a lawyer and speaker, and in 1892 was elected prosecuting attorney for the fifth judicial district. After serving two terms as prosecuting attorney he was elected attorney-general of Arkansas. In 1900, following a picturesque and exciting campaign, he was elected governor. He was re-elected twice, and has the distinction of being the first governor of Arkansas, to be three times elected to that office. In 1907 he was elected to the United States senate to succeed Senator James H. Berry.

### T. P. A. ELECTS.

Beaumont Man Chosen President of Traveling Men.

Texas News Service Special.  
Galveston, Tex., May 6.—The Travelers' Protective Association of the Texas division elected officers as follows this morning:

President—David R. Snodgrass of Beaumont.

First Vice President—R. L. Burnett of San Antonio.

Second Vice President—A. Dinkelspell of Dallas.

Secretary-Treasurer—Fred Palmer of Dallas.

### NEW COMPLAINT FILED.

The Troubles of W. J. Fitch Not Yet Over.

Texas News Service Special.  
Waco, Tex., May 6.—County Attorney Neff filed a new complaint this afternoon against W. J. Fitch, charging Fitch with selling liquor in local option territory. The court of criminal appeals a week ago reversed and dismissed similar cases against Fitch, in which the court at McGregor had convicted him and assessed three years in the penitentiary.

### CONSIDERING PRIMARY.

Mississippi Democratic Committee in Session Today.

By Associated Press.  
Jackson, Miss., May 6.—The democratic state executive committee is in session here to consider the proposition of a special primary proposed by Percy and Vardaman. Twenty-four members, in person or by proxy, are present. It is not believed that the committee will order the primary.

### REAR ADMIRAL McALLA.

U. S. Navy Official Died in California Today.

By Associated Press.  
Santa Barbara, Cal., May 6.—Rear Admiral McCalla, of the United States Navy, died this morning of apoplexy.

## NERVOUS DYSPEPSIA.

If You Have It, Read This Letter.

MI-ONA is Guaranteed.  
"I was taken last August with a severe stomach trouble. The doctor said it was nervous dyspepsia. I took his treatment four weeks, but did not feel any better. I took everything I heard of. The first day of December, 1908 I got a box of MI-ONA. I took them that afternoon and the next day and haven't had one bit of pain in my stomach since the 2nd day of December. I took five boxes. Feel well now, and sleep good—Mrs. M. E. Maxfield, R. F. D. 2, Avoca, N. Y.

MI-ONA is surely the best prescription for indigestion ever written. It relieves after dinner distress, belching of gas, heartburn, etc. in five minutes.

It is guaranteed to permanently cure indigestion, acute or chronic, or any disease of the stomach or money back.

MI-ONA stomach tablets are sold by Week's Drug Co. and leading druggists everywhere at 50 cents a large box.

### An Explanation.

Over the sad and lamentable accident in which our esteemed fellow citizen, T. W. Delaney, lost his life, occurred a little mistake which would cause hard feelings in some quarters if it were not explained.

The Rev. J. Dolje was summoned to the bedside of the dying man. He answered the call just after the doctors had placed the patient under the influence of an anesthetic to relieve him from his intense suffering, and who had, as any doctor will do, given strict orders to the nurses to allow no one to disturb the patient.

Father Dolje understood the situation and called at the doctor's office. He received the reply that not only would he have free access to the Sanitarium, but that they would call him as soon as possible.

But, the facts of the case are this: Mr. T. W. Delaney was a Methodist, as the Rev. Faculty testifies. The call to Father Dolje was the mistake of some well meaning Catholic, who believed that he belonged to that church.

Furthermore, Dr. Miller and Father Dolje are warm personal friends.

Clean rags wanted at this office.

### EIGHT BODIES RECOVERED.

Little Hope of Finding Any Miners Alive is Held Out.

By Associated Press.  
Palos, Ala., May 6.—Eight bodies were removed shortly before daylight today from the ill-fated mine of the Palos Coal and Coke Company, where between one hundred and one hundred and fifty miners are entrapped by an explosion yesterday. The condition of the bodies indicated that death was instantaneous, and little hope was expressed of finding any others alive.

### NEGRESS ARRESTED.

Is Accused of Crime Committed in 1901 at Lufkin.

Texas News Service Special.  
Austin, May 6.—The state Rangers today arrested a half-breed Indian negress accused of being Ada Neill, who has been wanted at Lufkin for murder since 1901. Capt. Rogers will communicate with Lufkin officials. The woman asserts her innocence and says she has lived here since her childhood and knows nothing of the crime.

### To Compete at Bisley.

Montreal, May 6.—The four cadets who are to represent Canada in the Empire Day Shoot at Bisley on May 24, sailed for England today on the All-India line steamship Corsican. The team is made up of Cadet Bates of Hamilton, Cadet Liddy of Dundas, Cadet Crawford of Quebec and Cadet Tidswell of Hamilton. At Bisley the Canadian boys will test their skill at marksmanship against teams representing the United Kingdom, Australia and South Africa. Upon their arrival in England the Canadians will spend a week in practice on the Bisley ranges before the matches begin.

### WANTS GAS WASTE STOPPED.

Attorney General of Louisiana Wants Wild Well Capped.

Texas News Service Special.  
Shreveport, La., May 6.—Attorney General Guion filed an injunction suit this morning restraining the Caddo Gas and Oil Company from permitting a gas well to run wild, to test the state law of conservation. If successful, it will stop other waste and possibly prevent the piping of gas out of the state. Millions of feet of gas have been lost daily at this well.

### RETURNS HOME.

President Taft Completes His Tour in West.

By Associated Press.  
Washington, D. C., May 6.—President Taft arrived in Washington from his western tour early today.

PENNINGTON'S

The Cheapest STORE

### What Are You Willing to Pay for Coffee

20, 25, 35, 40c per lb.—you, of course, don't want anything cheaper than 20c and in the range quoted we have the very best coffee that can be produced for the price.

Continental at 20c and Concord at 25c are, of course, the most popular, because of the price.

"Lexington" is a new grade we have just added; it is 35c, while "Revere" is the top notch of coffee perfection, at 40c.

Now let us give you a coffee secret: When you pay 25, 35 or 40c per lb. for either Concord, Lexington or Revere you are not extravagant in the least, for you get enough additional strength for each 5c extra that you pay to make that many more cups of better coffee in each case for each step up in price you naturally get better flavor and more of it.

Give Lexington or Revere a try out on our recommendation.

### The Direct Action Gas Range IS BEST

**BECAUSE:**

- It has no oven bottom to burn out.
- No dangerous pilot lights to cause explosions.
- Enameled steel walls which do not rust.
- 5 feet of gas will finish biscuits on both racks starting with cold oven.
- Burner caps not connected, but loose; easy to clean.
- Does not heat the boiler when you bake or roast.

**Knoxville Greets Travelers.**  
Knoxville, Tenn., May 6.—Tastefully decorated in honor of the occasion, Knoxville extended a cordial greeting today to the annual convention of the Tennessee division of the Travelers' Protective Association. President A. J. Price called the gathering to order this morning and Mayor A. G. Heiskell welcomed the visitors. After a brief business session this afternoon the delegates were taken on an automobile trip to the Apalachian Exposition grounds. The convention will continue over tomorrow. Numerous social functions have been prepared for the delegates and their families.

**New Jersey Club Women.**  
Eaglewood, N. J., May 6.—Conservation of human life, housing and safety devices, bill boards and the conservation of natural beauty and problems of household economy are slated for discussion by experts at the annual convention begun here today by the New Jersey State Federation of Women's Clubs. The large attendance at the opening of the gathering indicated an unusual degree of interest. In addition to several hundred delegates from all over the state there were present a number of men and women of national reputation which are to address the convention.

Better buy one of these nice fire-escape blocks near the car line; it will make you some money. Easy terms. 305-6t F. W. TIBBETTS

## ASTOR SUES NEW YORK.

Expatriate Owner of Realty Cities Constitution in Losing Battle.

William Waldorf Astor, a subject of King Edward and one of the richest expatriate property owners in New York has appealed to the Constitution of the United States, which he spurned when he renounced his allegiance to his country, in order to get about \$40,000 from the city government.

Twice a commission has decided in favor of dismissing Astor's claim on the ground that to allow it would be handing him a gratuitous sum of money, but notwithstanding their decision, he yesterday applied to Supreme Court Justice Greenbaum for a writ of certiorari to have the Supreme Court review the latest determination of the commissioners.

In his plea for a review Astor says that he claims the protection of the fourteenth amendment of the United States Constitution, which guarantees that no property owner may be deprived of his property without due process of law. He claims that he has not yet had his "day in court."

For five years Astor has been fighting to get back the amount of money, that he says his property, between River avenue and Cromwell avenue, near One Hundred and Fifty-third street, depreciated in value by reason of a change in grade ordered by the city. The change was made in 1893, and Astor made no claim for twelve years.

Then some one had passed by the legislature at Albany a bill which gave delinquent property owners the right to prefer outlawed claims against the city if they related to change of grade. Astor put in his claim for \$100,000 damages under this new law.

When the matter came before William E. Stilling, George C. Norton and Lewis A. Abram, the commissioners appointed to pass upon such claims, the Astor claim was thrown out as unjust to the city. The corporation counsel contended that the new law was unconstitutional, and that Astor, if he intended to protest, had no right to wait twelve years. Any damage he had sustained would have been assessed against the property owners benefited by the change in grade if proved at the proper time.

The multimillionaire expatriate appealed, and the appellate division ordered a new hearing before the commissioners. In the meantime, Astor had reduced his claim to \$40,500. Upon the second hearing, the result of which was announced yesterday, the majority of the commissioners again decided in favor of dismissing the claim.—New York American.

## NO WIT IN WOMEN'S TALK?

Dr. Helen Kellogg Says All the Bright Conversations Are Sold.

"Is conversation as a fine art among women dying out? Or is the comparative lack of it due to the fact that witty dialogue may best be expressed through typewritten copy at so much per word?"

Such was the dire suggestion conveyed by Dr. Helen Reynolds Kellogg when she discussed before the Kilo Association the subject, "Women Talk Too Little."

Dr. Kellogg did not mean that the words of her topic should be taken literally. She interpolated a limiting phrase, "on certain topics." The first part of her address seemed to emphasize the old saying that "generally speaking, a woman is generally speaking." Nor did Dr. Kellogg hesitate to criticize women who can find nothing better to discuss than the hats and gowns they are going to wear.

From the general nature of conversation heard by Dr. Kellogg in street cars and trains, absent clothing, tribulations of the "boss" of the kitchen, gossip of all kinds, she voiced the opinion that such women must endure terribly lonely lives if they come to the time when they have an automobile of their own and sometimes travel alone with no one to talk to.

"There are women who talk from sheer passion of talking," said Dr. Kellogg. "There are others who continually talk about their ills; there are some who are gifted to talk; some who impart information, or criticisms; some who talk to conceal thought; some whose talk is pungently despotic."

Dr. Kellogg bemoaned the fact that there is no Mme. de Staël, no Marie Antoinette, today, and suggested that the reason why witty conversations among women is not overpowering in its volume is because the newspapers and magazines are willing to pay for it, and it is, therefore, withheld from the public ear, and offered instead to the public eye.—Chicago Examiner.

The Knocker.  
"Put the hammer in the locker,  
Hide the sounding board likewise,  
Anyone can be a knocker,  
Anyone can criticize,  
Cultivate a manner winning,  
Though it hurts your face to smile,  
And seems awkward in beginning,  
Be a knocker for a while."

## ERRONEOUS PRESCRIPTION.

Young Women Who Will Not Act on Her Own Initiative.

"You and I have known each other a long time," he said, with a note of eagerness in his tones.

"Yes," she replied, cautiously, refraining from committing herself. "In fact, a good many people have begun to wonder whether—whether—that is they think we must like each other a good deal."

"Oh, they do?"

"I have heard certain remarks which lead me to believe they do."

"I hope it hasn't distressed you."

"Oh, no—no—not in the least, I assure you."

"I don't believe in paying any attention to what other people say. If we find it agreeable to be in each other's company, it is our own affair, isn't it?"

"Certainly, I didn't mean to give you to understand that I cared in the least what other people might or might not say. But I came here this evening with—with—what I might call a definite purpose."

"Did you. Let's not be serious. It's such a splendid thing to be independent in the world."

"Do you think so?"

"I wouldn't give up my independence for anything—now."

"Not to be happily married?"

"There will be plenty of time for that later. Why do men always want to get around to that subject?"

"You have not made up your mind to remain single forever, have you?"

"Oh, no, I haven't any such idea as that, but I don't want to be tied down just yet."

"But you wouldn't mind being engaged, would you?"

"What's the use of being engaged? To have thoughts and looks and words for the man she is engaged to?"

"Well, if she cared for him I should think she would be glad to have thoughts and looks and words only for him."

"Oh, pahaw, no man's worth all that."

"Do you really mean that, Helen?"

"Of course I mean it."

"Then I suppose it would be useless for me to ask if you care for me?"

"You wouldn't be disappointed if you didn't ask it, you know," she replied, with a provoking smile.

"Then I shall go ahead with the purpose I had in mind when I came here."

"Don't be silly."

"I'm not. What I wanted to ask you was this: Would you mind letting me propose to you just for practice? I'm going to call on Dorothy Westwood pretty soon, and I want to ask her to be my wife. If I can rehearse the act with you I'll be able to impress her more favorably, I think, than I might otherwise."

After he had hastily departed she sat down and fiddled her hands in her lap and remained thus for a long time. At last she said:

"That fool who writes the 'Hints to Lovers' didn't know what she was talking about when she answered my query by saying that the quickest way to get a fellow was to make him think you didn't care for him."—Chicago Record-Herald.

## HOW SHOULD WOMEN RIDE?

Mme. Maranette Gives Reasons for Preferring the Side Saddle.

Notwithstanding the snow-white hair of Mme. Maranette, she sits and rides her horses in the Barnum and Bailey circus performance with the grace and figure of a woman of 20, all of which is due to madam's training upon her father's farm in Michigan where she would break and ride the wildest colts. Training hunters was her favorite occupation. Filemaker, with a record of 7 feet 4 1/2 inches, over the bars and later St. Patrick, who gracefully leaps a rail 7 feet 10 1/2 inches in height, are developments of Mme. Maranette.

"Ride astride? Well, I should say not. Never in my tomboy days out on the farm did I ride that way. Really, I think it is awfully uncomfortable for a woman, and no one would try to contend that it is pretty. You'll notice that all the girls who ride astride sit forward in their saddles, not back and free like the men. I'm just as comfortable and feel at ease, and when you think of the high jumping I've done and the trick riding, you must know I have to be at ease."

"They say it makes you lopsided if sit sideways. Am I lopsided? Look at me," and madam stood up, displaying a form straight and rounded. "No woman ever sat more in the saddle than I have. I have medals and cups and honors from sovereigns all over the world. I've had accidents that were bad enough to end all the aspirations of the strongest woman. I've been plucked up for dead, but I've never known illness, and I don't believe I could say that if I had ridden astride all these years."—New York Evening Telegram.

## Christian Science.

Authorized literature freely loaned upon request at 407 Travis avenue.

## The Source of Cottolene Is Pleasing

From the snowy tufts of the cotton plant, the seed is removed, crushed, and the oil extracted. This in turn is refined by our own special process and the oil made odorless and neutral in taste.

Being a vegetable product, cottonseed oil is free from any possible taint of animal infection. You cannot be absolutely sure of this when buying hog lard, for fats of animal origin are, of necessity, not as healthful as fats obtained from vegetable sources. Right there is the difference between lard and Cottolene from the standpoint of health.

If every housewife would but stop to think of the difference in purity, cleanliness and healthfulness of hog lard and Cottolene, lard would never again be used in any home.

**COTTOLENE is Guaranteed** Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

**Never Sold in Bulk** Cottolene is packed in pails with an air-tight top so keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

Made only by THE N. K. FAIRBANK COMPANY

## LONG HOURS IN A CHIMNEY.

The Experiences of Suffragette Guy Fawkes.

Miss Emily Wilding Davison, a member of the Women's Social and Political Union, who was discovered hidden in a hot-air flue in the Houses of Parliament on Sunday evening, gave the following account of her experiences to a representative of this journal yesterday:

"I went to Westminster on Saturday afternoon as one of the crowd. I bought a sixpenny guide-book, and appeared intensely interested in everything, although, all the time, I was planning how I might hide until Monday, when I proposed to reveal myself suddenly and tell Mr. Osquith to set his own house in order by giving votes to women instead of bothering with the House of Lords.

"About half past three visitors were becoming scarce, and I was in the central lobby between the House of Lords and the House of Commons. I went into the corridor which leads to the members' diningroom, and seeing only a policeman, who was not watching me, I darted through a door which had 'Private' marked on it. The room was empty. There was a small glass door in the wall about two feet from the floor. I opened it and saw a sort of chimney with an iron ladder let into the wall.

"I clamored in, and mounted the ladder for about thirty steps and came upon a narrow platform. There was a little window opposite, which looked out on to the Victoria Tower.

"Here I remained hidden. My small stock of provisions consisted of two bananas, a little chocolate and a few lozenges to prevent coughing. I was soon distressed with a terrible thirst. I discovered that I was in a hot-air flue and the heat began to get oppressive. I was absolutely begrimed with soot and my position was desperately uncomfortable.

"For twenty-four hours I remained on the little platform, until at last I could endure the intense thirst no longer, so I descended the ladder in search of water. On re-entering the room by the glass door, I found a water tap and drank copiously. Then I returned to the platform, and after four more hours descended for more water.

"In my haste I spilled some on the floor, and this led to my discovery, for I had no sooner bundled into the chimney again than a policeman hauled me out and saw me off the premises."—London Daily Mail.

## Traveling Men in Session.

Winston-Salem, N. C., May 6.—The freedom of the city has been turned over to the traveling men for today and tomorrow, who are holding the state-convention of the T. R. A. This morning was devoted to the reception of the members and their wives. This afternoon the first business session was called to order by State President Frank R. Hewitt of Asheville. Mayor O. B. Eaton extended a cordial greeting and Charles G. Lee of Asheville responded for the visitors.

## Neties.

I would like to have some information which will lead to the recovery of a white Llewellyn setter dog. Fine, large fellow with black spot on hip and one black ear. When last seen had "L. G. Ray, Wichita" printed on collar.

R. V. GUINN, Chief of Police 106120c.

# OLD MEXICO

## The Coming Great Mining District of this Continent

It is known that for centuries before the advent of the white man into Mexico, the natives gathered from the surface or gleaned from the river beds, great quantities of the precious metals, which they cast into bars or skillfully wrought into useful and ornamental forms.

Their conquerors found walks paved with silver; temples lined with gold, and gold and silver articles of great variety and beauty for personal adornment and other purposes, but the treasures which they received as gifts or took by force, gave them only a hint of the marvelous mineral wealth of the country they had captured. However, the passion for gold has been ever strong in the human race, and the adventurous prospector and industrious miner were soon abroad seeking the hidden source of Mother Earth from which the filmy flakes, and tiny grains and shining nuggets of the Aztecs had come.

They found them, too, and since the day when Montezuma, under stress of circumstances, surrendered up the golden treasures of his people in the tribute of the invaders, the Empire over which he ruled has yielded many billion dollars worth of new mineral wealth, and Mexico now stands as the greatest producer of silver, the second greatest producer of copper, and one of the leading producers of gold in the world.

Mining goes steadily on and the industry is in a more active and flourishing condition in Mexico than it ever was before. The mineral production of the country now amounts to many million dollars per month in value. The government is doing every thing it can to popularize the mining business and as a result, signs of substantial progress are to be found on every side.

It is evident that an era of great prosperity and wide-spread development of the rich mineral resources of the country is now starting on its way. Extensive mineral grants, long inactively held, and rich old mines, heretofore unpurchasable at any price, and for generations worked merely enough to meet family expenses, are opening to persistent efforts of foreign capital, courage and energy, for commercial operation.

**Mining**

**Progressing**

Modern methods are superseding the crude and primitive ones that have prevailed for hundreds of years. Machinery is supplanting and supplementing human muscle and animal power, and science is solving difficult problems in the treatment of ores. Mills and smelters are getting more numerous and are affording greater accommodations and conveniences than have heretofore existed.

Native mining labor is cheap and plentiful, mining supplies are conveniently obtainable, and the laws, have been liberalized so as to foster and protect the mining business, means of transportation and communication are being constantly extended; money has been placed on a gold basis, exchange is stable and commercial facilities with other countries are good.

With this great record of the past with thousands of tons of ore cropping out in its mineral sections everywhere and with its large area of virgin mineral ground still remaining untouched, and unexplored, Mexico today, offers opportunities for successful mining ventures not surpassed in any country in the world.

**Investment**

Investments are as safe as in any of the mining sections of this country, and already immense amounts of American and European capital are going into every line of business there.

The Rothschilds, and other leading bankers of Paris, Berlin and London, the Guggenheims, Green, Lewisohns, Schwab, Hearst, and others of New York. M. W. Gates and associates of Chicago, Lawson and others of Boston, and many prominent people of Philadelphia and elsewhere are some of the well known capitalists who are largely interested in mining enterprises there.

**The Mining Industry of Mexico**

The first mining boom to affect this continent concerned the deposits of Mexico, and although mining has been carried on actively for nearly four centuries, and the production of silver exceeds that of the United States, it is believed that the development of the mineral resources of the republic has been only begun.

The extension of railroad lines throughout the republic is certain to prove a great stimulus to mining in the territory affected. The development of water power also promises to be a great benefit to the industry. Movements are on foot to supply several of the historic camps with electric current from power stations upon neighboring streams.

Mexico deserves all the attention which it is receiving from mining men, and will continue to be of especial interest for years to come.—Engineering and Mining Journal.

**MAKING CLEAN MONEY**

Rev. Robert McIntyre, a noted divine, in a sermon some few years ago, said "I admire a miner's wealth. It is clean. There is neither blood nor tears on it. It is acquired away from the cut throat competition that characterizes ordinary ventures, nobody has been pinched; nobody has been wronged. The miner who digs a fortune out of the ground has the satisfaction of knowing that he hasn't robbed a soul, even though he becomes a thousand times a millionaire. The man who makes a fortune on the Board of Trade or the Stock Exchange, or in building up a gigantic business house, adds nothing to the world's store of available wealth, in other words, the world is no richer because he is richer, but he is richer rather because someone is poorer. The miner, whether he digs out \$10 or \$10,000, adds that much to the world's wealth and with the added wealth he contributes just that much to the possible amount of the world's comforts and pleasures. The miner is today the king of wealth producers of the country, and I honor him above all others. It needs no apology to emulate his example or assist him in his efforts.

**Mining Investments Pay Largely.**

The Daily Mining Record says:—It is an undeni-

able fact that the most influential business men of the world have turned their attention to mining, the source of nearly all wealth; for persons who have been enslaved to the idea that the only safe proposition was a five per cent, or six per cent security, now realize that many millions of interest have been lost to them through heeding the advice of those interested in cheap

The Board of Directors of this company decided at their meeting yesterday to place 100,000 shares only of this stock on the market at the price of

**30c**

par value being \$1.00. The money derived from the sale of the first 100,000 shares is to be used for immediate development. This is all that will be placed on the market at this price.

money, and that among the banking institutions of the west, eight and twenty per cent per annum is not considered a hazardous western profit. Excessive dividend on the great majority of our guilt-edged mining securities, and further, the richest men in the world are mining kings, many of whom have grown powerful enough through the proper application of originally a moderate capital and it is proven that while millions of dollars have been lost in railroads, farm mortgages,

eastern industrial and building associations, the mining industry steadily advances, making enormous profits for its supporters, building great states and cities, and points with pride to the American possession of 253 mines that have paid dividends over \$625,000,000.

U. S. Government reports show that the mines of the United States produced \$1,092,224,380 in 1901, which exceeds the total combined value of the wheat and cotton crops.

The mineral resources of the United States show a greater ratio of increase than any other industry.

The annual dividends of the mines are greater than those paid by all the railroad interests in the country.

The profits of the mines exceed the profit of all the banks of the country.

Mining is one of the most certain and profitable of all pursuits, and when conducted under proper conditions may be considered as safe as the most conservatively managed manufacturing business.

The products of the mines represent the basis of all prosperity and wealth. The miner is in reality the only permanent wealth producer. Wealth taken from the ground is new wealth that is actually created, and no one is wronged or made poorer through its creation. It belonged to no other man, and it does not lessen the value of the property that any man possesses.

**PROFIT IN MINING**

Comstock sold one-quarter interest in his mine for \$6000. The mine produced afterwards \$600,000,000 and shares sold at \$1875 each. Calumet and Hecla paid its early investors \$1500 on each \$1 invested, and shares went from \$1 to \$840 each. United Verde sold for 50 cents a share and is now paying \$700 per cent dividends at that price. This mine went begging for \$30,000 fifteen years ago, until it was purchased by Senator Clark, who recently refused a \$100,000,000 offer for it made by a Belgian syndicate. The Le Roy mine was sold entire in 1890 for \$12.50. Its market value is now \$10,000,000, and its stock has gone from 2 cents a share to \$50 a share, and paid 6000 per cent on first cost. One hundred dollars invested a few years ago in it is now worth \$250,000 and has paid \$35,000 in dividends. Gold coin sold at 1 cent a share, is now worth \$5.50 and has paid 4800 per cent on first cost. One hundred dollars invested in it in 1896 is now worth \$55,000, and has paid over \$11,000 in dividends. Home Mining Company stock advanced in seven months from 30 cents to \$25 per share. Granite Mountain advanced in two years from 10 cents to \$75 per share. The Copper Queen was once offered for \$2000 and refused. It pays now millions every year. The Bonanza Mine, of Eastern Oregon was offered for \$500 in 1896, with no takers. It is now producing \$1,000,000 a year. The Independence Mine, at Cripple Creek, was located as a prospect. A few years later it was sold to an English syndicate for \$10,000,000. Two hundred and fifty dollars invested in Silver King in 1893 is now worth \$9000, and paid over \$4000 in dividends. Ten dollars invested in Swansea in 1895 is now worth \$4500, and has paid \$3100 in dividends. The Homestead Mine, in Dakota has paid \$12,000,000 in dividends, and its stock advanced 5000 per cent. Alaska Treadwell has paid \$5,000,000 in dividends, and its stock has advanced 3200 per cent. Anaconda has paid \$22,000,000 in dividends and was recently sold to Rothschild for \$40,000,000.

Boston & Montana has paid \$26,000,000 in dividends. Quincy has paid \$13,000,000 in dividends. United Verde has paid \$17,000,000 in dividends. Calumet & Hecla has paid \$80,000,000 in dividends. Ontario has paid \$14,000,000 in dividends. Con. Cal. & Virginia has paid \$77,500,000 in dividends. Homestake has paid \$12,000,000 in dividends. Granite Mountain has paid \$12,120,000 in dividends. St. John del Rey has paid \$13,736,000 in dividends. Tamarack has paid \$8,500,000 in dividends. Parrott has paid \$6,750,000 in dividends.

Fifty other mines have paid from \$1,000,000 to \$5,000,000 in dividends. No commercial business can begin to compare with mining as a profitable pursuit.

That carefully selected mining investments are safer, more permanent and more profitable than any other, there can be no question. The Comstock Lode of Virginia City, Nevada, has produced in twenty years the enormous sum of \$316,690,486, while it is estimated that there is yet \$35,000,000 in the tailings; and the output of the Witwatersrand district in South Africa for ten years previous to the Boer war was more than \$400,000,000. And mining is yet in its infancy.

Anaconda paid a profit of \$6,000,000 in 1901; Calumet and Hecla has paid \$88,000,000 in dividends; Crown Point stock advanced from \$274 to \$1825 in one year; Consolidated Virginia stock sold 1895 at 11 cents a share, in 1896 at \$45; Best & Belcher advanced from 60 cents to \$23.50 in one year; Belcher sold at \$6.50 per share in 1871 and \$1550 in 1872, and the mine has paid \$15,379,300 in dividends; the Idaho Gold Mining Company has paid its stockholders in dividends seventeen and one-half times more than its entire capital stock, 1750 per cent profit.

We cannot impress too strongly upon those desirous of taking advantage of the opportunities offered for large returns upon investments, that it is at the initial stage—when most investors are timid—that decision and action should be made.

In all the millions made out of mining—and they are larger than all other business of a commercial character combined—by far the greater part has been made by early and decisive action. Hundreds of cases can be cited where the investor looked into the prospects of large returns with the same care as he would in any other investment—and every investor should exercise this caution—and considering the well known fact that over 50 per cent of mining businesses are large successes, as against 5 per cent in ordinary businesses—was rewarded with returns that no other business could possibly yield.

In a report made on these properties, the Santa Rosa, Roberta and Nevada Mines, the firm of Place Elton, Mining Engineers of Oaxaca, say: "The three properties together form a good basis for a strong mining company and the very fact that they have been chosen from among the best available properties in each district of the gold belt makes failure impossible, provided the mines are developed in a rational and scientific way, and by men competent to handle them. By having sufficient capital ready to gain each point of the development scheme in turn, and using everything to best advantage, there is no failure possible, and it can be expected that the three mines will in time become one of the largest gold producers in Oaxaca and the world."

### IN THE WORLD OF LABOR.

The Big Four station in Springfield, Ohio, will be erected by union labor.

There are two hundred women barbers among the 7,000 barbers in the state of Massachusetts.

Chicago iron workers have a scale of 62 1/2 cents an hour and are now asking for 65 cents.

Children under sixteen years cannot be employed in New Jersey factories according to a law just passed.

Two of the Winnipeg, Manitoba, seats, and perhaps three, will be contested by the labor party in the next provincial election.

In order to hold their flitting boy employes, three glass factory proprietors at Fassetum, Pa., propose to erect a hotel just for such lads.

The first national labor congress was held at Baltimore on August 20, 1866. This body met annually in different cities for several years thereafter.

In Rhode Island a new law provides that no child under sixteen years of age shall work after 3 p. m. Nearly one thousand children in the state are affected.

Organized labor throughout Western Canada is having a busy time of it endeavoring to keep pace with the phenomenal industrial development and capitalist expansion.

The executive of the Labor Educational Association of Ontario, Canada, is making arrangements for the holding of mass meetings in various centers throughout the Dominion.

The United Garment Workers of America have been great sufferers as a result of the prison output of shirts, overalls, trousers and the like, used by workmen in their trade.

The State Federation of Labor of Texas has decided by a large majority vote that hereafter all officers of the federation are to be elected by secret ballot and in that way all politics may be eliminated.

The question of establishing an old age pension fund is being considered by several of the big international unions. The old age pension fund of the International Typographical Union has been raised to \$218,000.

Four hundred and fifty thousand wage earners in Greater New York are receiving wages smaller than \$500 a year, the "minimum of decency" fixed by the annual report recently given out by the committee on congestion of the population.

The Central Federated Union of New York City has issued an appeal to Samuel Compers and other national labor leaders demanding the organization of a national labor party in this country, modeled on the lines of the British Labor Party.

The giving of a commission or bonus to domestic servants or others making purchases for their employers is made an offense in New Jersey and Washington. The receiving of tips by waiters in hotels and restaurants and the giving of such tips is also prohibited in those states.

Thomas Van Lear is on the Pacific coast in the interest of the machinist at present. He will interest himself in all of the railroad crafts in line with the policy of the railway department of the American Federation of Labor, and the idea of bringing about a better understanding between the trades.

Call service at Lake Wichita is suspended.

### Northern Oratorical League Contest.

Minneapolis, Minn., May 6.—Before a representative college audience in the auditorium of the University of Minnesota tonight the seven chosen orators of as many great western institutions are to contest for supremacy in the Northern Oratorical League. The contestants and their subjects are as follows: Paul S. Collier, University of Iowa, "The American Navy and the World's Peace"; Miss Irma E. Voight, University of Illinois, "The Status of Women"; Maurice M. Thomas, University of Michigan, "Our African Esquimaux"; Jesse E. Rubie, University of Wisconsin, "For the Common Good"; Goldwin Lee Buck, Oberlin College, "Dynamic Democracy"; Edwin W. McKeen, University of Minnesota, "Property vs. Humanity"; and Glenn N. Perry, Northwestern University, "A National Opportunity."

## Some Men Can't See Straight

A board may be half an inch wider or quarter of an inch thicker at one end than at the other, yet they can't see the difference. They discover the difference, however, when they come to use the lumber. Then they kick.

If you would avoid lumber of this kind, buy from us. We are the most particular people in the country about good mill work. We do all the kicking that is necessary, to the manufacturer. The result is, that we get the best lumber, and so do you when you buy here.

Let us make you an estimate on whatever you want.

CARPENTER CO. 611 Eighth Street.

LOCAL NEWS BREVITIES

J. W. Balch, one of the substantial farmers in the Burkburnett community was in the city today, and says that while the prospects for the wheat and oat crops in his section were not very flattering, that corn and cotton of which there was a large acreage, was all right, and that farmers generally were not discouraged—that even if they made no wheat or oats, they would be all right.

County Superintendent of Public Schools, H. A. Fairchild, is conducting the May examination of teachers at the court house today, and there were nine applicants for certificates, five for county and four for state certificates. The examination will be continued tomorrow.

The Christian church Sunday school will have a picnic tomorrow at Haynes Grove across Holliday Creek. Come to the church at 9 o'clock with your basket.

etc. Transportation will be furnished those who have no conveyances.

The Retail Merchants met at the Chamber of Commerce last night to discuss the Trades Day and trade excursion matters. A committee was appointed to see that the Trades Day is given sufficient publicity in this and neighboring counties. The excursion matter was discussed favorably, but no action was taken.

There will be a free illustrated lecture under the auspices of the ladies of the Civic League at the Wichita Theatre, Friday night, May 6, "A more Beautiful Wichita Falls," by Howard Everts Weed. Stereopticon views. You are invited to be present.

Horace, the little son of Judge and Mrs. C. B. Felder, died this afternoon at 2:30 of inflammation of the bowels, aged 20 months and three days. Arrangements for the funeral had not been made at the time this paper goes to press, but will take place from the family residence, 804 Fifth street, tomorrow afternoon.
