WICHITA FALLS, TEXAS, MONDAY, MAY 30, 1910

NUMBER 14

BASEBALL PARK AT LAKE IS OPEN

IRISH LADS WIN TWO OPENING GAMES DEFEATING ALTUS TEAM.

LARGE CROWDS PRESENT

About Fifteen Hundred People Present at Yesterday's Game at New Park.

The big new baseball park at Lake Wichita was thrown open Saturday afternoon to the fandom of Wichita Falls and of this section. The first game was won, appropriately enough, by the Lake Wichita team, which defeated the Altus nine by the score of 6 to 2.

The second game was played yesterday afternoon and was also won by the locals by the score of 9 to 3.

About eight hundred witnessed the opening game. The big grandstand was not finished, only half of the seats being in, but there were sufficient accommodations for the crowd. Fully fifteen hundred people witnessed yesterday's game, and there was a very large percentage of ladies among the spectators.

The park is being conducted along the cleanest possible lines and there is not a single disagreeable element. Rowdism is lacking and the spectator who is detected betting will learn to his sorrow that he has gone too far.

Altus started out in yesterday's game as if she was going to win and up to the fourth inning things were going her way. In the last half of the fourth, however, Wichita Falls opened up and had chased five tallies across the plate before the inning was over. Three more were added in the seventh when, with two men on bases, Wichita's lanky first baseman hit to right field for a home run. Bunch pitched for the locals and kept the hits well scattered. Neither team played a good fielding game, errors being numerous and costly.

The grandstand is completed now and will be ready for a capacity crowd this afternoon.

BODY OF ALMA KELLNER IS FOUND IN BASEMENT OF LOUISVILLE SCHOOL

Louisville, Ky., May 30.—A body believed to be that of Alma Kellner, the eight-year-old daughter of Fred Kellner, who disappeared last December when found in the sub-basement of St. John's Catholic School this morning, the condition of the body indicating that it had been in hiding for several months. The decaying corpse, with one limb, missing, was wrapped in a piece of carpet.

The missing limb was found in another part of the cellar, and the police believe the girl was murdered.

Further investigations developed a rude attempt at burying the body. The body was positively identified as that of Alma Kellner by her uncle, Frank Fehr, the millionaire brewer of Louisville.

An examination of the body by the coroner showed six bones and the elbow broken and there is possibility of a fracture of the vertebrae.

MINERS BACK TO WORK.

Advanced Wage Scale Contract Signed Today.

Fort Worth, May 30.—Five thousand men will return to work in the coal mines of Texas as the result of the contract signed today between the Mine Workers and the Texas and Pacific Coal Co., and other Texas operators. The men get an increase of 5.55 cents per ton, the same as demanded by the Cincinnati International convention. This ends two months' suspension of work in Texas and comes at a time when railways are just beginning to feel the effects of the coal shortage.

HAEBAS CORPUS WRIT IS REFUSED MEISTER—HEARING HELD THIS MORNING

The attempt of Fred Meister, who is wanted in Los Angeles on a charge of deserting his children, to obtain his liberty by means of a habeas corpus writ, was unsuccessful, the writ being denied by Judge Carrigan at a special hearing this morning. If the requisition formalities can be gone through with, Meister will be returned to California to stand trial. Chief Detective Holmes of the Los Angeles police force, arrived this morning and was a witness against Meister at the habeas corpus hearing. He will probably remain in Texas until the requisition papers are issued and honored.

Meister was arrested here last week and lodged in the county jail. The charge against him is that of deserting his two children in Los Angeles, Cal-

California, which is a felony under the statutes of that state. The first application for a writ was granted, being on the complaint by City Marshal Gwin. Immediately upon Meister's release he was re-arrested on a new complaint by Mr. Holmes and his application for another writ was denied. Chief Gwin's complaint was "on information and belief," which was held to be insufficient.

NEWSPAPER MAN SUICIDES.

Fort Worth Reporter Drinks Acid and Kills Self. Texas News Service Special. Fort Worth, Tex., May 30.—Edward Hames Robinson, aged thirty, a well known newspaper man and political writer of New Orleans, committed suicide here this morning in the Killingly apartment. He swallowed a third of a pound of potassium, then fired two bullets into his brain, dying almost instantly.

Robinson came here recently and was a reporter on the Star-Telegram. He is a brother of H. W. Robinson, a prominent attorney of New Orleans, and leaves a wife and children.

He became despondent through domestic troubles.

IN NEW YORK.

March of Veterans is Feature of Celebration There. Texas News Service Special. New York, May 30.—President Taft reviewed the Memorial Day parade here today. Ideal weather prevailed.

Enormous crowds were drawn to the streets and avenues through which marched rapidly the thinning ranks of Blue and Grays. A host massed about the stand at the Soldiers' and Sailors' Memorial where the President watched Grand Army men and kindred organizations pass in review. Numerous other ceremonies of a patriotic nature featured the day in this city. The president planned to return to Washington this afternoon.

IS NOT POISONING.

Cacodylate Sedition Figures in Erder Murder Trial. By Associated Press. St. Louis, Mo., May 30.—The trial of Mrs. Dorey, charged with the murder of William Erder, while she was his bigamous wife, was resumed today. The defendant's attorney says experts will testify that cacodylate sodium, with which it is alleged Erder was poisoned, was fed to a dog, and the animal is now fat and healthy. The animal is said to have eaten four hundred grains of the drug.

BRADERICK IS MISSING.

Indicted State Senator is Not Yet Located. By Associated Press. Chicago, Ill., May 30.—State Senator Broderick, who was indicted on a charge of bribery in the election of Senator Lorimer, by the Springfield grand jury Saturday, is still missing.

TRAGEDY AT TULSA.

Young Woman is Killed While Playing With Pistol. Tulsa, Okla., May 30.—Mrs. Dot Wells, aged twenty-three, was killed by the accidental discharge of a pistol here this morning, while scuffling with a young man for possession of the weapon.

The bunch is here—fifteen hundred visitors—from points on the Wichita Falls & Northwestern and the Wichita Falls & Southern, are in town this afternoon to help Wichita Falls celebrate.

The crowd has been coming in in bunches since yesterday morning, but the greater portion arrived at 12:45 today from points on the Northwestern. A Northwestern special of eleven cars, every one of which was loaded to the guards, brought them here, there being about eleven hundred people on this train, alone.

They swarmed out of the cars and set about getting dinner. The local restaurants were prepared for the big crowd, but the bunch that charged down upon them was about all that could be handled. The Elk City crowd had its band along and this and the local band dispensed music. Soon after 1 o'clock the train went on to the lake, where the big time is on this afternoon.

The principal characteristic of the crowd, judging from a few minutes view of it, is its boostability. There is not a man or woman in the crowd, hardly, that is not decorated with a badge telling just where they are from and how glad they are of it. Many were armed with literature which they did not hesitate to hand to everyone who seemed to be in a receptive mood.

Elk City sends the best representation, there being between three and four hundred from that city. Tipton sends the biggest crowd of all, in proportion to its size, the town being almost totally depopulated today. Fredrick, Altus, Mangum, Grandfield and all the other good towns up and down the line are represented in the bunch.

F. E. Herring of Elk City, candidate for governor, was one of the crowd. He was accompanied by a large number of friends, including a loyal college yell that wound up with a boost for the candidate. Herring badges are in such strong evidence among the crowd that one would think that Wichita Falls had some say in his election. Calvin Kossler, a leading capitalist of Elk City, is also one of the bunch.

The visitors were met at Burkburnett by a committee from Wichita Falls, which greeted them and saw that a Wichita Falls barge decorated every shirt. These badges contain the words: "Wichita Falls welcomes her Guests from Oklahoma." The reception committee consisted of Messrs. John Tandy, Otis Bacon, Brooks Tingle, Christensen, J. T. Young and W. A. Smith.

Neither time nor space will permit a detailed account, in this issue of the Times, of the happenings at Lake Wichita this afternoon. The visitors took possession of that resort upon their arrival there and it was completely turned over for their entertainment. Every feature of the amusements was placed at their disposal.

A large percentage of the visitors are ladies and these have been enjoying themselves no less than the men. Many words of admiration for Wichita Falls were to be heard, and even the Elk Citizens stopped to pause and look at more than one point.

The special train carried most of the visitors to the lake, but the street cars have made steady trips and all were loaded to their capacity. The crowd is being handled with all possible dispatch and there have been few complaints along that line.

While the bulk of the crowd is from Northwestern points, the Wichita Falls & Southern is also represented, there being about two hundred from that section. A large representation from Olney is here, each with a white cap

bearing the words: "Olney Commercial Club."

The occasion promises to be an enjoyable one for all concerned and when the special train pulls out this afternoon, it is safe to predict that there will be few who have not enjoyed the hospitality of Wichita Falls to the uttermost.

CURTIS BEATS WORLD'S RECORD

Flies From Albany to New York in Two Hours and Thirty Minutes.

New York, May 30.—For a prize of \$10,000, Glenn H. Curtiss the daring aviator, on yesterday flew from Albany to New York, a distance of 137 miles in two hours and thirty-two minutes, beating the world's record for speed in a heavier-than-air machine. His average speed for the distance was 54.06 miles per hour. The start was made from Albany at 7:09 a. m. under weather conditions as near perfect as could be wished for, and made his first and only stop at Poughkeepsie one hour and thirty minutes later, where there was an hour's intermission, resuming his flight at 9:30 a. m., and landed within the boundary of Manhattan island at 10:35.

FOUR INDIANS KILLED.

Meet Death Today in Hotel Fire at Muskogee.

Texas News Service Special. Muskogee, Okla., May 30.—Four Indians perished in a hotel fire at Eufaula early this morning. The dead are Peter Beaver, Mrs. Beaver, their child and A. John Puckajba. The Indians came to Eufaula from their home at Neeleka yesterday to attend the commencement exercises at the Creek school. The fire broke out in a store occupying the ground floor of the hotel and the victims were suffocated with smoke.

KILLED IN DOUGH MIXER.

Houston Baker Meets Death in Bread Machine.

Texas News Service Special. Houston, Tex., May 30.—While cleaning machinery, Augustus Richards' arms were caught by the revolving dough mixer in the Fischer Bakery here this morning, and he was so badly crushed when his body was dragged into the rollers that he lived but a few minutes. Richards was twenty-five years of age, came from Jeanette, La., and was unmarried.

PURE FOOD ARRESTS.

Eight Butchers and Three Dairymen in Limb at San Antonio.

By Associated Press. San Antonio, May 30.—Eight butchers and three dairymen are defendants to charges filed here this morning by Assistant State Food Inspector Hoffman. The hearing is set for Wednesday. It is charged that sausage sold contained an injurious preservative and that the milk was adulterated with water.

WASHINGTON CELEBRATES.

Senator Bradley of Kentucky is Orator of the Day.

Texas News Service Special. Washington, May 30.—The Halls of Congress and all executive departments are closed today and the stationery participated in the commemoration of Memorial Day. The orator of the day at Arlington Cemetery was Senator Bradley of Kentucky.

SUNDAY EXCURSIONS ARE PLANNED BY ROADS—WILL BE STARTED DURING JUNE.

Wichita Falls is soon to become very much of a Sunday excursion point if the railroads carry out their present plans. The Wichita Valley is contemplating the running of a Sunday excursion train from all points on its line as far as Abilene, the rate to be slightly over one fare for the round trip. The Denver is also planning special rates from points one hundred miles distant. The Lake attractions and the baseball games will be the features and will doubtless serve to bring hundreds of out-of-town people to Wichita Falls to spend their Sundays.

TOWN TEAM MAY YET BE KEPT HERE—LOCAL FANS MAY ORGANIZE COMPANY.

There is still a strong possibility that Wichita Falls will not lose the town baseball team which was disbanded last week and efforts are being made to reorganize it under new management. There is some talk of organizing a stock company to take charge of the nine and this plan may be decided upon. Several of the players have already joined the Lake Wichita and Altus teams, but little difficulty would be experienced in filling out the team. Sentiment among the fans is very strong against letting the team go and it is very likely that some feasible plan will be agreed upon to keep the nine here throughout the season.

SUBSTANTIAL GAIN IN SCHOOL CENSUS

NEARLY FIVE HUNDRED MORE CHILDREN THAN AT THIS TIME LAST YEAR.

OVER EIGHTEEN HUNDRED

Completion of enumeration Gives Result That Was Ahead of Expectations.

1910	1873
1909	1382
Gain	491

There are eighteen hundred and seventy-three school children in the Wichita Falls Independent School District, according to the school census which is now about completed by the enumerator, V. G. Skeen. It is believed that the enumeration has been complete, but those whose children have not been enumerated are expected to notify either Mr. Skeen or the Chamber of Commerce, so that the additional names will have been secured. This showing compares with that of last year as indicated above.

The increase of nearly five hundred indicates a very healthy gain in the population of the city. The state estimates population on the basis of six inhabitants to every school-child, which would give the district a population of 11,235 this year as compared with a similar estimate of 8292 last year. Allowance must be made, however, for the people in the "shes-string," which is that part of the district outside the city limits. Allowing for this, this year's school census would give this city a population of about 10,400.

The district will get six dollars from the school fund for every child enumerated, making a total of \$11,238 this district will receive from this source for the support of the schools.

ATTACK ON BLUEFIELDS APPARENTLY FAILURE; DEFENDERS KILL MANY

Texas News Service Special.

New Orleans, La., May 30.—A special cablegram to the Texas News Service Bureau received here this morning from Bluefields, Nicaragua, says:

"Hurling his troops time and again against Estrada's trench yesterday, only to be repulsed by a terrific machine gun fire. Gen. Arias, commanding the Madriz forces besieging Bluefields, suffered heavy losses, while the defenders of the city suffered comparatively small losses."

Rumors of peace negotiations were renewed this morning, the latest report being that the United States naval commanders is one of the mediators.

The government forces renewed the attack on the city this morning carrying the outposts, but were repulsed by the Estrada forces in a sanguinary conflict. The Madriz army was thoroughly routed and fled in every direction. Three hundred prisoners were captured and brought here. This was one of the most decisive battles won by the revolutionists and makes the rumor of peace circulated here this morning before the attack probably without foundation as Estrada appears more confident than ever of sweeping the country in two weeks.

KEMP BACK FROM CHICAGO; IS OPTIMISTIC REGARDING THE PACKERY PROSPECTS

J. A. Kemp returned yesterday from Chicago, where he went partly on private business and partly in the interest of the packing house proposition. While in that city he saw Mr. Emerson of the United States Packing Company and in company with him visited several other plants in that section.

—Mr. Emerson will return here in the course of a few weeks, said Mr. Kemp, and will have plans and specifications for the buildings ready for the contractors when he gets here. The plant to be built here will be similar to the one at Austin, Minnesota, which Mr. Kemp visited, and which has a capacity of two thousand head of hogs and one thousand head of cattle daily. Mr. Kemp is very optimistic on the packing house outlook.

\$150,000.00

WORTH OF STOCK FOR SALE IN THE
Highland Irrigation & Land Co.
BEAN & HUEY, Agents

The Stock in the Highland Irrigation & Land Company is now for sale by Bean & Huey and is selling rapidly. This proposition affords another opportunity of making 400 per cent on money invested in twelve month's time.

**This Company Is Capitalized at
\$325,000.00**

and owns 1870 acres of beautiful land lying on both sides of the street railway between Floral Heights and Lake Wichita; 850 acres of which will have a permanent water right. A part of this land adjoins

**FLORAL HEIGHTS ON THE EAST, SOUTH AND WEST AND IS
EASILY WORTH \$500.00 PER ACRE**

Stock can be had for par, on terms of one-third cash, balance in one and two years time. It is the candid opinion of conservative business men who are at the head of this company that the land can all be sold before the first note of the stockholder comes due at double the cost of the land, in which event, the stockholder would get back \$4.00 for every dollar invested.

This proposition should appeal to every man with a few dollars to invest as it is entirely new, and, unlike other propositions it is not worked to death.

Irrigated lands for truck growing should attract farmers from all sections of the country—especially land so well located as this company controls, close to one of the best markets in the State and accessible to both the City and Lake by 12 minute car service which is to be afforded.

One year ago we sold stock in the Floral Heights Realty Company, and told our purchasers that they would double their money inside a year. How far we were wrong, can better be explained to you by the stockholders in that company, any of whom can today cash out for four times what they paid in.

Messrs. Kemp, Kell and Perkins, the gentlemen at the head of the company, and who control all the stock, have consented to allow us to sell a limited amount of this stock, and we would like to place some of it in the hands of small investors before the capitalists purchase it all. Phone us or call at our office today, before it is too late, as you will regret it if you pass up this proposition.

MOORE & RICHOLT, Lumber and Building Material

The Newspaper's Side.

An Address Delivered Saturday Before the New York Press Club

I was born next door to a print shop and grew up in a newspaper office. First and last I have filled every newspaper function from galley boy to leader-writer. I am proud of my calling and jealous of its good name. Until I gave up all-round, all-night work, I was never so happy as toward the wee "ama" hours when, the boys about me, wires were flashing and feet hurrying and the presses were beginning to thunder below. Now that I no longer see the paper, to press, it rejoices me to find myself still surrounded by the boys—the boys in the trenches—and to recall the old days and nights and in fancy to believe that there's life in the old man yet.

Not one of you has walked these streets in search of work more wistfully, and sometimes, more despairingly than I have. I remember once seeing young James Gordon Bennett through a window of the old Herald office down about the corner of Broadway and Fulton streets, and of murmuring, with John Leech's ragged urching, looking upon a little boy in a London home, eating plum pudding, "wouldn't it be bully to be him?" Just fifty-two years ago Mr. Dana, then on the Tribune, paid me five dollars for a bit of what would be called space-writing now, and ten years later, when we had come to be as it were, professional colleagues, he was pleased to be reminded of the circumstance, and from that hour to the day of his death, was my most excellent friend and comrade.

I beg you not to be alarmed. I am not going to weary you with the reminiscences, nor set up for a school master. I think I know what news is and how to prepare it. Like victuals it may be served hot or raw and un-savory, be brought on plain or be dressed and decorated, to suit the ever-varying public tastes. There is in this, as in cooking, an art.

A fine, ruddy murder, flek a fair round of beef may be ruined in the roasting, and a scandal, fat and juicy, blonde and frowy, wholly spoiled by a figurative excess of oil and garlic. A skilful chef can take a few scraps and fabricate a dish to delight a gourmet. So a deft reporter can put this and that together and piece a story to set the town a-talking. In both cases, however, there must be a basis of essential facts. It is given to no man to make a silk purse out of a sow's ear; to no cook to render a suet out of sawdust and boot-heels; to no reporter to turn a scoop out of a lie.

Here Col. Watterson digressed for a moment and told of his earlier experiences on a Washington afternoon paper, compiled from the pages of the New York papers, and how these same papers often copied these articles, so well was the work disguised. He declared that he could still hold his own with any of his young hosts. Then he added:

"I draw the line at straight lying and the station house. The City Editor should never consider himself a brevet Chief of Police, the reporter a semi-professional detective. The newspaper with the law should assume the accused innocent until proven guilty; should be the friend, not the enemy of the general public; the defender, not the invader, of private life and the assailant of personal character.

The newspaper is not a commodity to be sold over the counter like dry goods and groceries. It should be, as it were, a keeper of the public conscience; its rating professional, like the ministry and the law; not commercial-like the department store and the bucket shop. Its workers should be gentlemen, not scavengers and scavengers, developing a spy system pecuniarily their own, not caring for the popular respect and esteem.

Mr. Watterson compared the profession of the journalistic with the other learned professions and said there would always be the syster journalists just as there would always be syster lawyers and quack doctors. He declared, however, that as in all other professions, the rule was bound to be otherwise and those who sought the

imprint of the higher could always find it.

In short, my dear young friends, I stand for the manhood, for the gentlemanhood, of our guild, a profession and not a trade, and I believe that in the long run, the owners of newspaper properties will learn that integrity and cleanliness pay the best dividends and that good faith and good humor are positive assets.

I hope there is no one of you here tonight who will not be one day a managing editor, at least a city editor, and whenever one of you finds himself in a position of authority, let him carry these few precepts in his mind and in his heart; to print nothing of a man which he would not say to his face; to print nothing of a man in malice; to look well and think twice before consigning a suspect to the ruin of printer's ink; to respect the old and defend the weak, and, lastly, at work and at play, day time and night time—to be good to the girls and square with the boys, for hath it not been written, "Of Such is the Kingdom of Heaven."

To Protect the Birds.
Berlin, May 30.—Eighteen countries among them the United States, are represented in the fifth quinquennial convention of the International Ornithological Congress which opened here today. The problem of preventing the extermination of birds the bodies, wings or plumage of which is employed for millinery purposes, is one of the most important matters to be considered by the Congress. The American representative from the national association of Audubon societies has been instructed to submit to the Congress a plan for uniform protection against the army of poachers that scour the earth to supply the millinery markets with the plumage of billions of birds. An effort will be made to bring about an agreement between Canada, the United States and Mexico for the protection of the migratory birds of the North American continent.

Illinois Letter Carriers Meet.
Bloomington, Ill., May 30.—The State Letter Carriers associations of Illinois met here today for its annual convention, with an unusually large attendance from all parts of the State. The members were welcomed by Mayor R. L. Carlock and the response was delivered by Charles Haungs, president of the state association. The morning session was followed by a short executive session. At the afternoon session several interesting addresses were delivered and after adjournment the members took an auto-ride for an hour. At the banquet this evening William E. Melley, president of the national association of Letter Carriers, and two members of Congress, Hon. John A. Sterling and William B. McKinley, will deliver addresses.

Notable Revival of the "Mikado."
New York, May 30.—A notable revival of the "Mikado" was given its first performance this afternoon at the Casino, where a large audience gathered to laugh again over the antics and witticisms of Pook-Bah and to enjoy the songs of the "Three Little Maids From School" and other characters in the famous Gilbert and Sullivan masterpiece. The opera has been revived with an all-star cast which includes Jefferson De Angelis, Andrew Mack, William Pruetts, Fritz Schoff, Christie MacDonald, Christine Neilson and Josephine Jacoby.

Bishop Lawrence 69 Years Old.
Boston, Mass., May 30.—Rt. Rev. William Lawrence, bishop of the Episcopal diocese of Massachusetts, celebrated his sixtieth birthday today. Bishop Lawrence is a native of Boston and a graduate of the Episcopal theological seminary at Cambridge, of which institution he served as dean for five years previous to his election as a bishop in 1892.

WEATHER FORECAST.

For Wichita Falls and Vicinity.
Tonight and Tuesday—Generally fair.

The scholastic census for the Wichita Falls Independent school district up to Saturday shows a total of 1873 children in the district of scholastic age—between 7 and 17 years. This is a gain over last year of 491. The taking of the scholastic census will be completed within the next few days, when the exact figures can be given.

There is some talk of Governor Campbell calling an extra or special session of the legislature for the purpose of amending or repealing the present outrageous fire insurance law in this state, which gives to the companies the privilege of more than doubling their former rates, and it is needless to say they are taking advantage of the law, and in many instances have fixed the rate for fire insurance at rates that are exorbitant and prohibitive. There can be no mistake in saying the legislature made a blunder when it enacted that law, and now that it is apparent to nearly every sane person that the insurance companies are taking advantage of every technicality or loop-hole to raise the insurance rates, the mistake should be corrected at the earliest possible moment.

Hon. John W. Veale, candidate for Congress for this, the 13th district, was in the city Saturday and Sunday and speaks very hopefully of his chances of winning the race against the present incumbent, Hon. John H. Stephens, who has represented the district for the past fourteen years. Mr. Veale argues that fourteen years is long enough for any one man to hold a good office, and thinks that there are plenty of other people in the district who are just as competent and just as able to represent the district in congress as Mr. Stephens. He is making a straight, clean campaign along that line.

WHAT OF 1912?

From the Washington Post.
It has been the rule for the g. o. p. to give its presidents a renomination. Lincoln, Grant, Harrison and McKinley were all renominated; and for practical purposes, and he so considered it, the candidacy of Roosevelt in 1904 was a renomination. Thus Hayes and Garfield were the only republican presidents not put forth for a second term; and in the case of Hayes it would have been suicide because of the disputed succession of 1876-77. And yet the administration of that same Hayes was the most tranquil and one of the most successful in fifty years.

Now is the time for making presidents, or soon it will be. We all know that Taft will be renominated. That is inevitable. When the republican party puts a man at the helm it says, "You navigate the ship," and that is the end of it.

On the other side of the hedge there is but one announced democratic candidate—Folk, a former governor of Missouri. David Francis of that State is a receptive candidate, and so is Champ Clark. The fate of the last named depends on the political complexion of the Sixty-second congress and the degree he shall "make good" as speaker of that body, if it should expectantly turn up democratic.

But to be perfectly frank, if Harmon is re-elected governor of Ohio this fall, competition will flee from him. His may be the one and only name presented. In this connection it should not be forgotten that Ohio is the mother of some States and of several presidents. And there is something in that.

Marshall of Indiana is a formidable man; and should the democrats name Gaynor for governor of New York, and the result should transfer him from the city hall of the metropolis to the mansion house of the Empire State, then look out for a tremendous contest in the democratic National convention in 1912.

The press dispatches say that startling developments are expected this week in the bribery charge brought against Senator Lorimer of Illinois, who, it is said, purchased outright a sufficient number of the members of the Illinois legislature to vote for him for the United States senate. One bribe-taker has already made a full confession, stating that he received \$2500 for his vote, and it is said there are six others under indictment who will do the same thing. Senator Lorimer denounces as liars those who accuse him of giving bribes. It is a

case of bribe-taker against bribe-giver and it is difficult for a jury to decide which to believe. Like the Mississippi case, it may not be a difficult matter to prove that bribes were given, but it may prove more difficult to show positive evidence that Lorimer furnished the money. His friends may have done that much for him.

Memorial to Gen. Draper.
Hopdale, Mass., May 29.—Hopdale paid a tribute to one of her most distinguished sons today when a handsome bronze statue of Gen. William F. Draper, soldier, statesman and diplomat, was unveiled with interesting exercises. The local posts of the G. A. R. had charge of the ceremonies. Miss Margaret Draper, daughter of the late Gen. Draper, unveiled the memorial, and Congressman John W. Weeks delivered the oration. The statue is of heroic size and was designed by Courtenay Pollock, a New York sculptor.

TRAGEDY IN ELLIS.
Farmer is Shot by Husband of His Housekeeper.

Waxahachie, Tex., May 30.—Richard Lee, a farmer living ten miles south of this city, was shot and killed by Joseph Walters this morning. Walters was arrested and placed in the county jail. He asserts Lee was cursing Mrs. Walters, who, with her husband, were keeping house for Lee, who was a widower. A shotgun was the weapon used.

Big Sale of Pattern Coins.
London, May 30.—A notable sale of pattern coins belonging to the famous Stroehlin collection began at Sotheby's today, attracting a large number of collectors, dealers and numismatic experts. The collection includes coins made for all the Continents, Asiatic, African and South American countries, and presents a bewildering variety in all kinds of metals, from gold to tin. The sale is regarded as probably the most important of its kind ever held.

CURTISS RESTS TODAY.
Says He Believes Still Greater Feats Possible.

New York, May 30.—Glenn Curtiss' feat in flying from Albany to New York yesterday, 137 miles in 152 minutes, compelled the attention of the entire world today. Curtiss rested quietly at his hotel today. He made it clear that he believed still greater feats in flying may be accomplished.

MORE POWDER.
Capacity of Government Factory to Be Doubled.

Washington, D. C., May 30.—The output of the government smokeless powder factory at Pocatello, N. J., is to be doubled. The factory will be able to turn out three thousands pounds daily.

Wisconsin Letter Carriers.
Baraboo, Wis., May 30.—About two hundred delegates are attending the annual meeting of the Rural Letter Carriers' Association of Wisconsin, which began a two days' session here today. President R. M. Kerney of Milwaukee presided at the opening meeting.

Mrs. J. F. Turner, state secretary of the Teachers' and Mothers' Clubs, will deliver a lecture in this city at the new high school building on Thursday afternoon at 8 o'clock, and the public is cordially invited to attend, and by their presence encourage this worthy cause.

Notice.
A special meeting of the Floral Club will be held at Lake Wichita Tuesday at 3:00 o'clock and every member is requested to be present. Roll call; miscellaneous.

Attention Lady Maccabees.
Don't fail to be present at the special meeting to be held Tuesday at 2:30 p. m. The purpose of the meeting is to make arrangements and prepare for the district convention.

A Sad Death.

Cassie, the eldest child of Mr. and Mrs. Ed Foster died Wednesday morning, May 25th, at their home near Clara.

The little girl was born near Charlie, Texas, July 25, 1897. She had reached the tender age of 12 years and 10 months, when she was suddenly called away. From infancy she suffered intense agony with each attack, but in spite of all, she wore a smile on her face. She was always hopeful and her one thought was to get well and strong.

She had taken treatment from a number of physicians who pronounced her case as one unknown and incurable.

The day before her death she was in town shopping with her mother. After arriving home, she seemed tired and worn. The next morning Dr. Dice and Dr. Pickle of Burk Burnett were summoned, but both arrived too late.

On Thursday, the remains were followed by a large number of friends to the cemetery at Clara, where she was beautifully laid away to rest. Rev. C. C. Davis of Iowa Park conducted the service. The old familiar songs, "O, Think of the Home Over There," and "Shall We Gather at the River," were sung.

Grieve not dear mother and father, dear brothers and sisters, but so live that when your summons comes, you may join your little Cassie in her heavenly home above.

Mrs. J. F. Turner, state secretary of the Teachers' and Mothers' Clubs, will deliver a lecture in this city at the new high school building on Thursday afternoon at 3 o'clock, and the public is cordially invited to attend, and by their presence encourage this worthy cause.

Notice.

There will be a prohibition conference held at the auditorium of the city hall Tuesday night at 8:00 p. m. All prohibitionists are cordially invited to attend. W. R. OWENS, Acting Chairman.

to be completed at once would please us just now, as we are better equipped than ever to turn out plumbing and gas work. Contractors of today want quick service. The prevailing high rents deems it necessary to engage the fastest workmen. Ladies Free Tonight.
Franklin Tent Theatre will admit ladies free tonight under the usual conditions; that is two ladies or lady and escort will be admitted on one paid 50c ticket. This is done as an advertising feature and is for tonight only. The Hollingsworth Twins and company of players have appeared in Wichita Falls before, in fact, this is their third time to play here and they always had a good clean show and the management promises the same good plays during their engagement this time.

The opening play is "La Belle Marie," an American comedy drama in 5 acts with specialties between acts. The admission price is: children 10c, adults 25c, chairs 10c extra. Franklin Tent Theatre is located at corner of 10th and Ohio streets.

Mrs. J. F. Turner, state secretary of the Teachers' and Mothers' Clubs, will deliver a lecture in this city at the new high school building on Thursday afternoon at 3 o'clock, and the public is cordially invited to attend, and by their presence encourage this worthy cause.

Children should have praise when they accomplish the work they have been assigned. It is human to like compliments. Adults work better and do more when they know their efforts are appreciated. Children are especially pleased when their parents compliment what they do. Do not neglect this. Your kind appreciation will lighten their tasks and increase their usefulness as men and women.

FADS AND FASHIONS.

By Florence Fairbanks.

New York, May 30.—The fashionable shops are filled with a wonderful variety of the most delightful materials for women's wear. New things, each more beautiful than the other, are constantly coming in and there seems to be no limit to the novelties coming in from all parts of the globe.

Cachemire designs run riot in all kinds of materials and are particularly good in the chiffons and mousselines and in the foulards. These cachemire designs are what on this side of the water are generally called Persian, and have supplied the designers with opportunity for wonderfully beautiful color effects, but they need to be becomingly handled and cleverly veiled or combined with one-tone materials.

When the colorings are not the genuine Oriental tones, but are subdued and exquisitely bleached shades of the season's modish colors the problem is less difficult than when the color scheme is more intense, and the entire frock may be of printed chiffon without veiling. Some beautiful chiffons and mousselines in burdure design have inch-wide stripes of white and color, with a deep floral border in shades of the color or in harmonizing colors. One such chiffon seen recently was in alternating stripes of white and the deep reddish California violet tone, and the border was in violet shading from deep to pale. Another chiffon, in lavender blue and white, had a deep border of lilacs in natural colors, from the deep bluish purple to light pinkish blue.

Some of the changeable gauzes, chiffons, mousselines, etc., are very lovely and lend themselves to delightful color schemes, whether made over plain color or chameleon silk. When hot weather brings foulards into more general wear we shall probably see much of mousseline and chiffon in combination with this silk, for all Paris letters tell of many such models in the work rooms. Foulard will be combined with one-tone silks, too, and also with plain satins.

Blue is very prominent among the foulards, as it is everywhere throughout Fashion's realm. Never has there been such a season of blue, and the list of modish blues is long, though, for that matter, there seems to be no shade of blue which is not worn. Navy and kindred shades are much worn for tailored costumes of the more severe sort, but the blues most peculiarly of this season are the brilliant, glowing shades, such as Bleriot, Radium, King's blue, Flag blue, etc.

Perwinkle is immensely popular, and the Nattler, canard and sea blues are much used; but it is the brilliant blue, of which radium is perhaps the latest and most vivid example, that is the prominently smart shade of the day in Paris. Though so vivid, it is not crude, but, none the less, it is trying to many complexions and, like all the brilliant blues, will be still more unbecoming as summer heat brings flushed faces. These blues are usually toned down by black and are at their best when so used.

Blue and white foulards in a host of designs are much favored, and almost every house worth mentioning has turned out good looking models in this coloring, though the dotted foulard has lost caste, and little cubes, squares, octagons, etc., with an occasional striped design are preferred. Attractive foulard models are also shown in the popular black and white coloring, the foulard often combined more or less freely with plain black satin. A black satin coat and skirt band with bodice and upper skirt of foulard make a practical and modish trotting suit, and there numerous models on the same general lines shown by prominent designers.

The lovely golden yellows are considered particularly good in foulard, and, though combined with white, they are cool and pretty. The yellow and black foulards are newer and have been exploited by several of the most famous makers, the foulard being combined with plain black satin, or in some cases veiled in black chiffon or mousseline.

Linen frocks and coat and skirt suits are selling briskly, despite the fact that the weather is still too cool to wear them. A majority are built up on very simple lines with dainty lingerie trills and collars and smart belts to supply the needed touch of elaboration. Of course, there are elaborate embroidered linens, too, superb frocks, inset with heavy real lace and lavishly hand-embroidered, but even among the models from the most distinguished makers are many little frocks of the chic simplicity type.

Never has the unlined one-piece tub frocks of the lingerie type been prettier than this season, but the most attractive of the models are somewhat youthful in character, the necks cut low and finished with plaited trills or flat lace and embroidery trimming, sleeves just below the elbow, skirt short and but slightly full. High collars are a rarity in these as in all of the French frocks, and the woman to

whom a bare throat is unbecoming, must go in bleaching and massage or be content to feel herself out of it this summer.

Although pongee does not dominate fashion to the extent to which it did last summer, it is still quite popular.

Pongee of various kinds is combined with other silks, notably foulards, as well as with sheer material and there are delightful printed pongees in cachemire, cretonne and other quaint designs and colorings which are effectively combined with one-tone pongee or are used in combination with other materials. These figured pongees make very charming blouses, relieved by touches of some one color predominating in the design or veiled in mousseline or chiffon.

There is no sign of a wane in the popularity of changeable silks. They are used for the street or house gowns, and, with the figured foulards, have come under the sway of the veiling edict, being frequently combined with chiffon, marquisette or open meshed voile. This idea is pleasing, for, in many cases, an obtrusive, striking design of a foulard that has been consigned to darkness can be used as a foundation for a delightful creation. Blue and violet, in combination, or in the clever alliance of different materials, are the colors that appear again and again on the promenades.

Hotifs of net, rich in bead embroidery are to be found in the shops in a wide range of colorings. These make decidedly smart trimming for a handsome gown.

Tailor-made gowns of silk are more in evidence than ever before. Several strikingly handsome weaves in heavy silk, especially designed for these suits, have been brought out recently.

There has been a tendency recently to raise the waistline a trifle at the bust, but it is hard to tell whether it will become general.

"THIS IS MY 66th BIRTHDAY."

Herbert L. Bridgman.

Herbert L. Bridgman, the journalist and explorer to whom Commander Peary sent first word of his discovery of the north pole, was born in Amherst, Mass., May 30, 1854, and was educated at Amherst College. Since 1864 he has been engaged in newspaper work, and has taken part in a number of exploring expeditions. He accompanied the Peary auxiliary expeditions of 1899 and 1901, and was the historian of the expedition of 1894. In 1897 he was assistant to Professor Libbey in the scaling of the Mesa Encantada, New Mexico, and he is the author of "The Sudan—Africa from Sea to Center," which was published in 1905. Mr. Bridgman was one of the founders of the American Alpine Club and for several years he has been secretary of the Arctic Club of America.

McFarland-Welsh Bout.

Loudon, May 30.—Freddy Welsh, the champion lightweight fighter of England, and Packy McFarland, the Chicagoan who is recognized as one of the foremost American pugilists in the lightweight division, will fight twenty rounds or less for the English championship at the National Sporting Club of this city tonight. The match has attracted an unusual amount of attention here.

The English champion will enter the ring a heavy favorite, unless there is a sudden and unwarranted switching of the odds before night, at odds of almost two to one.

Both men are in the pink of condition. At his quarters at Hampstead, Heath McFarland has trained with his usual care and energy, and Welsh has trained as he never trained before, with the memory of the hard twenty-five-round battle McFarland gave him when they met in Los Angeles more than a year ago.

The purse for which Welsh and McFarland will contend exceeds every sum ever offered by the National Sporting Club, except that given for the Jackson-Slavin fight nearly twenty years ago. It is by far the biggest prize ever held up for lightweights to fight for on this side of the water. The membership of the National Sporting Club is limited to 1,000, but it is certain that the limit will be greatly stretched to accommodate "guests."

One of our friends suggests that we give our mistakes for the benefit of others. This is a splendid suggestion, and if followed would be a help to others. There is no disgrace in an honest mistake. There is profit provided we do not repeat it. It is often advisable to tell others what they should not do, as well as to tell them what to do. Few successes have been made without some failures. Tell your failures and thereby help others to avoid them.

NASAL CATARRH.

Henry L. Britton Says It is Easy to Get Rid of.

"My head, nose and glands leading to my eyes and nose were stopped up and swollen, I tried several so-called catarrh cures but Hyomei, used thoughtfully did the curing. There is nothing too good to say in favor of Hyomei. It cured my nasal catarrh."—Henry L. Britton, Frost St., Easton Rapids, Mich.

Hyomei (pronounced High-o-me) cures catarrh, because it gets where the germs are, and destroys them. It is made of Australian eucalyptus, mixed with other healing antiseptics. When breathed over the irritated and inflamed membrane, it gives relief in two minutes.

Used regularly for a few weeks it will build up and heal the germ-infested membrane and drive out catarrh.

If you own a small Hyomei pocket inhaler, you can get a bottle of Hyomei at druggists everywhere, or at Weeks' Drug Co. for only 50 cents. If you do not own a Hyomei Inhaler, ask for a complete outfit, the price is \$1.00. It is guaranteed to cure, catarrh, coughs, colds, croup or sore throat or money back.

Notice.
 There will be an ice cream and cake social given at the home of Mrs. J. W. Bowersock, 409 9th street for the benefit of the G. I. A. to the B. of L. All are cordially invited to attend.

Poet Laureate 75 Years Old.
 London, May 20.—Alfred Austin, England's Poet Laureate, celebrated his seventy-fifth birthday today, unostentatiously and quietly amid the familiar scenes of his charming country seat at Swinford Old Manor, Ashford, Kent. He received many letters and telegrams of congratulations and tokens of esteem from all parts of the United Kingdom, but received but a few visitors, mostly neighbors and personal friends, and spent the day in his beloved garden. In spite of his advanced age Mr. Austin enjoys remarkably good health and every fair day he takes long rides on horseback and

spends many hours working in his garden.
 Mr. Austin was born at Headingley, Leeds, May 30, 1835, the second son of Joseph Austin, merchant and Magistrate of the borough of Leeds, and Mary Locke, sister of Joseph Locke, C. E., member of Parliament for Hoxton. He received his education at Stonyhurst and St. Mary's College, Oscott and later graduated from London University in 1853. He became a Barrister of the Inner Temple in 1857 and attended the York Assizes and West Riding Sessions for three years, but with no intention of remaining at the Bar. When his father died in 1861

Alfred Austin retired from the Bar and devoted himself to travel and literary pursuits. For a few years he did journalistic work, representing the London Standard at the Ecumenical Council at Rome in 1870 and in the Franco-Prussian war. Then he became editor of the National Review, a Conservative journal, founded in the 80's. He published his first poem in 1854 and since then has written several volumes of poems, some of a lyrical, others of a narrative character, "The Human Tragedy" a story in poetical form and probably his most prominent work, "The Garden That I Love" and its continuation, "Veronica's Garden," and a number of novels, descriptive books and essays. He was appointed Poet Laureate, to succeed Lord Tennyson, by Queen Victoria in 1896, upon the suggestion of Lord Salisbury.

GRAVES DECORATED.

Memorial Day Observed Throughout Country Today.

Washington, D. C., May 20.—Senator Bradley of Kentucky was the orator at the Memorial Day exercises at the Arlington National Cemetery today. This morning there was a big parade of the Grand Army, the Army and Navy Union, Spanish War Veterans, Sons of Union Veterans and other organizations.

New York, May 20.—The Memorial Day parade of war veterans, militia and regular soldiers was reviewed by the president and other notables at the Soldiers' and Sailors' monument on the Riverside Drive. This afternoon memorial exercises were held in nearly all of the cemeteries in Greater New York.

Cambridge, Mass., May 20.—A bronze memorial tablet to the Harvard men who died in the Spanish War was unveiled in the Harvard Union today. The Memorial Day oration at the university was delivered by Major E. M. Harrod of New Orleans, a veteran of the Confederate States Army.

Paris, May 20.—The Americans in Paris today held their annual observance of Memorial Day. Many of them, including the staffs of the American embassy and consulate, went to Flepne Cemetery of the customary ceremony of decorating with flowers the graves of LaFayette.

San Francisco, Cal., May 20.—Memorial Day was observed in this city by a parade of the veterans' organizations and the decoration of the soldiers' graves in the National and Odd Fellows' cemeteries.

Vicksburg, Miss., May 20.—The graves of the soldiers who fought and fell in the siege of Vicksburg and who lie buried in the National Cemetery here were decorated today by the members of the local post of the G. A. R.

City of Mexico, May 20.—The American colony here, including the members of the local G. A. R. post, today decorated the graves of the American soldiers in the United States National Cemetery and also the monument to the Mexican cadets killed in resisting the storming of Chapultepec.

LOCAL NEWS BREVITIES

The Lake Wichita Company under the general management of Mr. Palmer Clark tendered to Miss Sibyl Kemp and party a boat ride in the elegant and speedy launch "Sibyl" on Sunday afternoon, May 29th at 5:00 o'clock. This pleasant and long to be remembered affair marked the formal launching and initial trip of this beautiful and graceful motor boat "Sibyl" which is appropriately named after Miss Kemp. About twenty guests were included in the personnel and it was a pleasing sight to see such a happy and joyous crowd, representing as they did, the elite of Wichita Falls, gathered together on such a nobby craft as she swung out from port under the skillful management of Mr. Van Brust she seemed a thing of life. Several snafus were taken as she left the pier and many were the admiring glances and compliments placed on her as she gracefully skimmed over the water. The party aboard included the following: Miss Sibyl Kemp, Mr. Newton Maer, Miss Sadie Kell, Miss Flora Kemp, Mr. Claude Maer, Mr. W. M. Priddy, Miss Jewel Kemp, Miss Charlie May Scott, Mr. Frank McGlasson, Miss Lullie Orth, Miss Emma O'Neil, Mr. Frank Terry, Mr. Miss Brittain, Miss Esther Gorsline, Miss Willie Mae Kell, Mr. Lamar Fain, Mr. Wittman, Miss Mary Anderson, Mr. Mark Walker, Miss Vivian Mathis, Mr. Orville Bullington, Miss Carrie Kell, Mr. Wm. Bonner.

Herbert Moss, the ten-year-old son of Mr. T. N. Moss, a carpenter, residing at 303 Adams street, this city, disappeared from his home last Saturday morning, and up to this morning had not been heard from, although Mr. Moss and Officer Pickett have made a diligent search in different parts of the city without finding any clue whatever, except that the boy was seen in the Denver switch yards at noon Saturday.

Any information that will lead to the recovery of the boy will be thankfully received and duly appreciated by Mr. Moss.

Mrs. H. A. Fairchild met with quite a painful accident this morning while doing some sewing on her machine. By some means or other which she cannot explain, she allowed the forefinger on her right hand to slip under the needle and as it came down striking the finger just at the back of the nail and was forced almost through the finger. She was alone and does not exactly know how she released her finger from the needle. Her hand was bent in two or three different shapes. She is suffering considerable pain from the wound.

Mr. and Mrs. T. H. Cardin were thrown from their buggy yesterday while returning from the Lake, their horse becoming frightened. Both escaped without sustaining any serious injuries.

Charles Riggs, who up to a few weeks ago, drove a mineral wagon in this city, has disappeared and his wife who recently returned from a visit to California is anxious to secure information regarding him.

Owing to the attractions in town, the Chamber of Commerce director's meeting to consider the steel plant proposition was postponed to tomorrow.

The Elk City delegation here is accompanied by its band, which vies with the local musicians in dispensing harmony this afternoon.

Do You Like Bitter Sweets?

Nothing quite as good as a tickler for a jaded appetite as something bitter. We have Bishop's Orange Marmalade and Grape Frutate. Very appetizing themselves and imparts a zest to what follows.
