EMERSON IS TO BE HERE NEXT SUNDAY

PACKING HOUSE PROMOTER COM- ING BACK, ACCORDING TO ANNOUNCEMENT.

IS BRINGING ARCHITECT

Believed That Deal Will Be Closed For Immediate Erection of Plant.

President H. A. Emerson of the United States Packing Company will return to this city next Sunday, accompanied by architects, to prepare plans for the packing plant, according to advices received by J. A. Kemp this morning. Mr. Emerson will come prepared to close the deal, it is believed. Accompanying Mr. Emerson will be one of the leading architects of packing plants in the country, L. A. Davis of Chicago. Mr. Davis was the author of the plans for the plant now under construction at Sioux Falls, South Dakota and is one of the best authorities on packing house construction in the United States. The Sioux Falls plant is reputed the most up-to-date packery in existence.

The return of Mr. Emerson at this time is believed to indicate that matters are in shape for the final closing of the contract for the plant and the coming of the architect shows that Mr. Emerson considers that matters are in shape for definite steps to be taken looking to the consummation of the property.

IS FINED \$500.

Norwegian Captain Had Violated Nav- igation Provisions.

Texas News Service Special.
Galveston, June 2.—Capt. C. Peterson of the Norwegian S. S. Dronning Olga, was today fined \$500 by the Collector of the Port for alleged violation of the navigation laws in failing to declare a woman passenger taken aboard at Newport News. Peterson appealed to the Washington authorities. That is the heaviest fine for the offense ever imposed here.

GLIDDEN TOUR WILL NOT REACH WICHITA FALLS; TO CROSS AT TERRAL

It is at last definitely determined that the Glidden automobile tour will not come through Wichita Falls this month. A telegram was received from the officials this morning stating that the tourists would cross at Terral crossing near the Rock Island crossing north of Ringgold, instead of coming by way of this city. When it was decided to change the route to Lawton from Dallas, it was thought that it would surely come by way of this city, but it seems not. The lack of a suitable crossing at Burkburnett is believed to be the cause for the failure to make this city. Local automobilists had already made tentative plans for entertaining the tourists upon their arrival here.

TO ADDRESS GRADUATES.

President Taft Will Speak at Bryn Mawr Exercises.

By Associated Press.
Washington, D. C., June 2.—President Taft left this morning for Philadelphia. He addresses the graduating class of Bryn Mawr College today.

CECIL LYON WILL MEET ROOSEVELT IN MID-OCEAN, WILL REPAIR FENCES

Texas News Service Special.
Sherman, June 2.—Advices received today from Cecil Lyon, chairman of the Texas Republican Executive Committee, now in Mexico, report that he will meet Theodore Roosevelt in mid-ocean when the latter returns from Europe.

Lyon says arrangements are already completed with the steamship line, but he will not charter a vessel as reported as the cost would be ten thousand dollars. Lyon fears the Taft administration is not favorably disposed to him and desires Roosevelt's co-operation.

WANTS BAILEY TO PROTEST.

Allison Mayfield Asks Him to Act On Rate Matter.

Texas News Service Special.
Austin, June 2.—Allison Mayfield, chairman of the State Railroad Commission today wrote Senator Bailey requesting him to vigorously protest against the alleged discrimination by Federal Government for failure to act on the complaints filed by the Texas Commission before the Interstate Commerce Commission in 1909. These complaints declared that southwestern railroads violated the Sherman anti-trust law by combining to increase rates. Mayfield's letter is the result of an announcement by President Taft directing the proceedings for injunctions against the roads leading west from St. Louis for violation of the rate law similar to those the Texas Commission alleges.

SUICIDE AT ABILENE.

Aged Citizen Ends Life By Drinking Carbolic Acid.

Abilene, June 2.—W. B. Bower, aged 70, a pioneer citizen of Abilene, committed suicide here late last night by swallowing two ounces of carbolic acid. His wife heard him struggling and called a physician but he lived only a few minutes after drinking the poison. No cause is assigned.

NEW TIME CARD ON THE FORT WORTH AND DENVER IS EFFECTIVE SUNDAY

A new time card will go into effect on the Fort Worth and Denver on next Sunday, June 5. The night through northbound, which now leaves Fort Worth at 9:30, will leave after that date at 10:15, reaching this city at 3 a. m., and arriving at Denver at 7 a. m. on the second morning out. The day local, known as the Childrens local will leave Fort Worth twenty minutes earlier and will probably reach this city about noon. The southbound trains will also change time, but the hours of passing through this city will probably be very slightly changed.

ARRESTS ARE EXPECTED.

Authorities Are Active in Case of Boeh- ringer at Marshall.

Texas News Service Special.
Marshall, Tex., June 2.—Sensational arrests are expected this afternoon in connection with the murder of Gottlieb Boehringer here Thursday night. The grand jury is now in session and a number of witnesses have been examined. The authorities say they have discovered important clues.

Earnest Boehringer, brother of the victim, arrived from Baton Rouge today. Boehringer was a prominent German farmer who resided at Caddo Lake and was shot down by an unknown assassin.

HURRICANE IN MARCH.

Belated News of Holocaust in East Indies Received.

By Associated Press.
Victoria, B. C., June 2.—Many lives were lost and several ships wrecked in a hurricane which swept Loyalty islands in March, according to belated advices brought by the steamship Manuka from Australia yesterday. All houses on the islands were demolished.

WOUNDS ARE FATAL.

Man Who Was Shot Saturday Night Died Today.

Texas News Service Special.
Jacksonville, Tex., June 2.—James Weatherby, who was shot by Alex Parr here on Saturday night, died from his wounds late yesterday and Parr was re-arrested and charged with killing Weatherby. Parr gave bond in the sum of two thousand dollars.

EIGHTY-TWO PER CENT.

Government Reports Cotton Ahead of This Time Last Year.

By Associated Press.
Washington, June 2.—The first cotton report of the season issued today shows the condition of the crop on May twenty-fifth to be eighty-two per cent of normal, as compared with eighty-one per cent last year.

Crawford Proviso Is Defeated in the Senate Today.

By Associated Press.
Washington, D. C., June 2.—The Crawford amendment to the railway bill modifying the commodities clause of the Hepburn rate act was rejected by the senate today by a viva-voce vote.

ASSOCIATION ROOMS OPENED TONIGHT

Y. M. C. A. WILL TENDER RECEP- TION TO MEMBERS AND FRIENDS.

EQUIPMENT IS INSTALLED

Association Begins Its Work in Splen- did Quarters and Excellent Circumstances.

The rooms of the Young Men's Christian Association, in the First Methodist Church, at 7th street and Lamar avenue, will be formally opened to the public with a reception tonight, at 8:30. The directors have extended an invitation to the general public to attend this function and the presence of everyone, whether members of the association or not, is desired.

The fitting up of the association's rooms has just been completed and there are very few, if any, associations in the state that start out with better equipment. In the west end of the basement is the library, a large and well lighted room, which will have a large assortment of all the leading periodicals. The central part is occupied by the gymnasium. The equipment has not yet arrived and, consequently, will not be on display tonight. Above the gymnasium is a wide gallery, which will be used for a game room, where dominoes and similar diversions will be provided.

In the east end are the secretary's office and the bath rooms. Shower baths are provided for the gymnasium classes, but the principal feature is the big swimming pool. This was filled with water today for the first time. It is large enough and deep enough for adults to swim in and will probably prove a very valuable feature of the equipment.

At the reception tonight addresses will be delivered by J. T. Gibson, president of the association; Secretary J. T. Webster, W. A. Barrickman, J. of the Chamber of Commerce; Rev. J. L. McKee and Mrs. T. L. Toland. These addresses are limited to four minutes and musical features will be heard in between, so that there will be no danger of a surplus of oratory. Refreshments will be served and a large number of Wichita's matrons and young ladies have agreed to be present and assist the members of the association in entertaining. A cordial invitation is extended the public to be present.

Tonight's program follows:
Invocation—Rev. Hamlin.
Solo—Mrs. Roberts.
Address—Mr. Gibson.
Address—Mrs. Toland.
Solo—Mr. Bradley.
Address—Rev. McKee.
Address—Mr. Barrickman.
Address—Mr. Webster.
Solo—Mrs. Week.
Benediction—Rev. Farley.

English Aviator, Chas. Rolls, Gets Safely Across.

By Associated Press.
Dover, June 2.—Charles Rolls, an English aviator, who started a flight across the English Channel at six o'clock tonight, was later reported landed at Saragatte, France.

NEW STREET CARS HAVE NOW ARRIVED

HANDSOME AND UP-TO-DATE ROL- LING STOCK REACHED HERE YESTERDAY.

COST IS FORTY THOUSAND

Are Equipped With Pay-As-You-Enter Feature and Modern in Every Detail.

The new rolling stock for the Wichita Traction Company arrived yesterday afternoon and the four cars will be put on the tracks for service at an early date. When they are put in use the Wichita Falls car line will be as well equipped as any traction system in the state, with the exception of the Dallas-Fort Worth Interurban.

The new cars are fifty-five feet in length and will seat forty passengers. There is an unusually ample amount of standing space and the interior is roomy and conveniently arranged.

They are supplied with the most modern street car features, the pay-as-you-enter arrangement. Dallas, Fort Worth and Houston are the only other cities in the state with this sort of cars.

Powerful motors will drive these cars, each being capable of generating one hundred and sixty horse-power.

The total cost of the new equipment including the new cars and trailers, is about forty thousand dollars. The cars will probably not be put into daily use for some time and at first will only be run when there is an unusually large crowd to be handled. They were built by the American Car Company of St. Louis.

One has to see and ride in these new cars to appreciate their general up-to-dateness. They are dark green in color, the same as the present cars, and the interior equipment is comfortable and spacious, special attention being given the ventilating and lighting features. It is estimated that one hundred and fifty passengers can be carried on each of these cars without undue crowding. The cars were switched on to the traction line this afternoon and placed in the car barns.

MRS. DOXEY ON STAND.

She Protests Her Innocence of Murder of Erder.

By Associated Press.
St. Louis, Mo., June 2.—Mrs. Doxe, accused of poisoning Wm. Erder, took the witness stand in her own defense today. She denied all connection with the death of Erder, even remotely, and excused her other acts on the ground that she was a victim to the morphine habit. The case will probably go to the jury by Saturday.

COMMODITY RATE ADVANCED.

Tariffs from Chicago and Milwaukee Are Increased.

By Associated Press.
Washington, D. C., June 2.—Advances in the commodity freight rate averaging twelve and a half per cent were made by the Chicago and Ohio River Commission, an organization within the central freight association territory from Chicago and Milwaukee to Indianapolis and Ohio river points.

IN PERFECT CONDITION.

Government Physician Passed Judg- ment on Pugilist Jeffries.

By Associated Press.
San Francisco, June 2.—According to a statement by Dr. Cross, United States examining physician at San Francisco, who yesterday made a complete examination of Jeffries, he is in perfect physical condition. The doctor says he has examined fifteen or twenty thousand men and has never seen anything so wonderful as the strength, power and perfect condition of the pugilist. As to a comparison of Johnson and Jeffries, he says there is not a large margin of difference, that both men are in fine bodily trim and they will go into the ring evenly matched as to condition.

\$10,000 REWARD.

Big Sum Offered for Slayer of Little Alma Kellner.

By Associated Press.
Louisville, June 2.—It is expected that the reward for the arrest and conviction of the murderer of Alma Kellner will reach ten thousand dollars by night. Chief of Police Lindsay says he has received information which leads him to believe Janitor Wendling, to whom suspicion strongly points as the murderer, remained there as late as March first.

ESTRADA PLANS CAPTURE OF GOVERNMENT WARSHIP; U. S. NOT TO INTERVENE

Texas News Service Special.
New Orleans, La., June 2.—A wireless message to the Texas News Service Bureau from Bluefields, via Colon, this morning, says that Estrada's forces are now preparing to capture the government warship Venus, completing the rout of Madriz's forces.

General Laras' defeat by the insurgents yesterday caused him a loss of four hundred killed and wounded yesterday and the remnant under his leadership is fleeing to escape on the Venus.

Estrada has sent the steamer Ometepe to intercept the Venus and capture Laras. Another wing of Estrada's army is today proceeding up the Escondido river to capture General Chavarris' army who was reported defeated by revolutionists at Rama.

President Madriz is preparing for flight in case both Lara and Chivarris are captured.

Texas News Service Special.
New Orleans, June 2.—Consul Sussman, representing the Estrada forces this afternoon received the following cablegram from Bluefields signed by Estrada:

"Our armies are now pursuing fragments of forces under Lara at Bluefields and Chalverre at Rama. We expect to recapture Bluefields this afternoon, hence send a commission to Washington asking the United States to recognize us as the Madriz army is now a memory. Madriz today prohibited ships from entering the port of Bluefields without permission, but the American gun boat Paducah entered anyway."

By Associated Press.
Washington, D. C., June 2.—The decree issued by Dr. Irias that no vessel shall enter the port of Bluefields after June 1st, without permission of the Madriz government, will be disregarded by Captain Gilmer of the gunboat Paducah. Any attempt by Irias to prevent American vessels from entering the port will promptly be opposed by Gilmer.

By Associated Press.
Washington, D. C., June 2.—The United States, it was officially declared today, has no intention of in any way intervening in Nicaragua or recognizing either party to the controversy until one faction or other has obtained full control of the government by the consent of the people.

By Associated Press.
Bluefields, June 2.—Dr. Irias, representative on the Atlantic Coast of President Madriz, has issued a decree that vessels cleared for Bluefields, on or after June 1, may not enter this port without permission of the Madriz government. The gunboat Paducah will not permit the government vessel Venus to bombard the trenches of the revolutionists.

IRISH LADS STILL LEADING LEAGUE

DEFEATED HENRIETTA YESTER- DAY AND NOW HAVE FOUR STRAIGHT VICTORIES.

ALTUS DEFEATED QUANAH

Letter Team's Winning Streak Broken By Oklahoma Nine—Same Teams Today.

Club	Pld.	Won.	Lost.	Pct.
Irish Lads	3	3	0	1.000
Quanah	4	3	1	.750
Altus	3	1	2	.333
Henrietta	4	0	4	.000

By defeating Henrietta yesterday afternoon, the Irish Lads retained their position at the head of the Northwest Texas League and now occupy that eminence uncontested, as Quanah's winning streak was broken by Altus.

Wichita Falls defeated Henrietta by superior hitting, landing on Lawson for a total of seven hits, the score being 3 to 1. Myers pitched for the Lads and held the home team down to two hits, which netted the Henrietta boys their single tally. The same teams play again this afternoon and Henrietta promises that the Lads' string of victories will be broken by the time the game is ended.

Quanah suffered her first defeat yesterday, losing to Altus on the home lot by a score of 7 to 3. This was Quanah's first defeat, she having taken the first three games of the season from Henrietta.

ATTACKED BY HIGHWAYMEN.

Motorcyclist Is Badly Beaten and Ma- chine Wrecked.

Texas News Service Special.
Delton, June 2.—While riding a motorcycle three miles from here late yesterday Tate Counts was attacked and beaten up by three highwaymen. Counts was badly injured and his machine ruined.

SHOOTING AT FREDERICK; SHERIFF FRANK CARTER KILLS CONSTABLE THERE

News has been received here of the shooting of Constable F. R. Rodgers at Frederick on Tuesday evening by Sheriff Frank C. Carter of Tillman county. Sheriff Carter is well known in Wichita Falls and has many friends here, being a frequent visitor to this city. The shooting took place in a livery barn in Frederick, and, according to the sheriff's version, was done in self defense. Rodgers having made an attempt to draw his gun when the other shot him. Three bullets took effect and death ensued in about twenty minutes. After the shooting Carter surrendered to one of his deputies. The shooting is understood to have grown out of the charge made by Rodgers that Carter was not favoring him enough in giving out the official commissions.

WICHITA FALLS BOY IS MARRIED IN ARKANSAS; SURPRISE TO FRIENDS

R. M. Moore, Jr., and Miss Fannie Hill were married at Hamburg, Ark., on Monday of this week, and Mr. Moore and his bride arrived here yesterday afternoon and will make this city their home. The announcement of this wedding was quite a surprise to the friends of the groom in this city. He had been attending Peacock's Military school at San Antonio, and his bride at Ward's Seminary, Nashville. At the end of the school the young people met by agreement at Little Rock, Ark., and there arranged for the wedding, which took place at the bride's home in Hamburg.

STEEL HULLS AN SAFETY.
Terrible Accident Near St. Louis Was Unnecessary.
The appalling disaster to the city of Saultillo by which twelve persons lost their lives has one lesson which should be taken to heart by all owners and patrons of steamboats—the lesson of the incalculable value of the steel hull to the safety of river transportation. With the highest appreciation of the heroism of the efforts and crew of the ill-fated boat, and the deepest sympathy with those who lose friends and relatives in those moments of darkness and confusion on Wednesday night, the Republic desires to point out the entire preventability of such accidents. Leaving out of the question all such matters as piloting and channel lights, the fact remains that the catastrophe which has cast a gloom over our city should have been forestalled before ever the City of Saultillo left the ways in the yard in which she was built. The shock when the boat struck was not extreme. The boat's chimneys were old—in fact, new ones had been built and awaited installation—yet they kept their place; nor was furniture upset. Such a blow is sufficient, however, to tear through the planking and frames of a wooden hull, and once an opening is made in such a structure the water has free course everywhere. Had the steamer a steel hull, it is probable that her bow plates would have shown a dent and nothing more. But even if they had been a little "down by the head" from the filling of a compartment or two with water. She would not have become unmanageable, nor would there have been any occasion of fear among her passengers. A steel hull is made of a number of parallel steel trusses, like the trusses of a bridge. These run the length of the boat, and are crossed by trusses transverse to them. The compartments thus formed are lined with steel walls; a boat the size of the City of Saultillo would have some sixteen of them. The outerplates of such a hull are simply a steel skin stretched over the mighty framework within; it is that framework that gives the boat her strength, and guarantees the integrity of her compartments. When a steel boat is pushed up on the ice, as was the City of Providence, she takes no harm. Such a hull is as rigid as a steel bridge; for such, in fact it is. Two steel hulled passenger boats are now running out of St. Louis—the Ferd Herold and the Rees Lee. It will not be many years until the wooden hull will be as completely obsolete as the keelboat, and danger from snags and rocks will be practically eliminated.—St. Louis Republic

WHEN THE BABIES DIE.
This is Season of Year for Using Care.
"This summer, when the thermometer goes up to 80, 90 and 100, the death rate among the babies in your town will go up with the mercury, unless you women and mothers do something to prevent it," says Robert W. Bruere in Woman's Home Companion for June. "When the hot weather comes, you will find, if you have eyes to see as a good physician once put it, the babies will die off like flies."
"You belong to a ladies' committee in your church? Consult your pastor and see if you cannot get a room in the church or Sunday school in which to hold a mothers' class at least once a week from June 1 to middle of September. If the church does not seem the fitting place use a room in the public free school. Why should our splendid school buildings be idle all summer when there are mothers to teach and babies' lives to be saved? Any room more than ten by ten feet with lots of air and sunshine will do."
"Then get your city health officer or your good family physician to meet the mothers regularly at least once a week. If you can afford it employ a trained nurse to help organize the class and to follow the mothers into their homes with her practical knowledge and deserved authority. But if this is out of the question, volunteer your own services."
"Then invite the mothers in your town to come to your class. If at first they are shy, visit them in their homes and explain what you have to offer. And if they are still unwilling to come, give them home instruction, teach them how to ventilate the room where the baby sleeps, teach them under the guidance of your physician how to dress the baby appropriately, urge them to feed their infants naturally and never to wean them while the weather is very hot."
"And if they have bottle babies, stimulate their interest in the purity of the milk, lead them in an investigation of the farms whence the milk comes and teach them—always under the guidance of your physician or in co-operation with their physician—how to modify the milk for the babies' use."

AVERY IS UP FOR TRIAL.
Contractor on K. L. & G. Road Has Preliminary Hearing in Justice Court.
On charge, brought by members of the Walters Industrial Association, alleging fraudulent padding of time on a marriage license of the railroad morning to Mark D. Jones, Kansas, La. Mary Louise Anderson and extending upward to 11 days.
Avery, contractor, is standing preliminary examination this afternoon before Justice of the Peace S. Armstrong. The sittings are being held in the district court room.
Up to the time of going to press very little progress had been made in the hearing.
Avery, who was arrested at Oklahoma City last week and brought here and released on \$500 bond, alleges that the charges filed are only the attempt of the Walters business men to escape from contract in which they gave bond in the sum of \$75,000 for the construction of the proposed road, signing over to him also fifty-one per cent of the stock in the proposed railroad. He threatens to bring suits for damages against the accusers.
The Walters men claim that the contract is void in that only a part of the men named in the caption have signed up and declare that the remainder have refused to sign because since the drawing up of the contract it has been found to have been unjust to them in its terms. They are bringing the present charges against the contractor in an attempt to convict him of fraudulent intent and thus nullify the entire contract.—Lawton Constitution-Democrat.

Seventy-Fifth Birthday of the Pope.
Rome, June 2.—There was no formal celebration of the seventy-fifth birthday anniversary of the Pope today, as it is customary among Italians to celebrate the name day rather than the birthday anniversary. Nevertheless many of the cardinals, Vatican officials and other churchmen called upon the Pontiff and offered their congratulations. The two sisters of his Holiness passed the greater part of the day with him.
Plus X. has now occupied the chair of St. Peter for nearly seven years, having been elected to succeed the late Pope Leo XIII. on August 4, 1903. In origin Plus X. is in many respects the opposite of his predecessor, who was of aristocratic birth and a deep scholar. The parents of the present Pontiff were humble peasant folk, but deeply religious. The Pope retains much of the peasant spirit. During his administration he has displayed great zeal in all his work and has shown rare ability as an organizer. He is an eloquent preacher and an able diplomatist, but has never aimed to excel in purely scholarly attainments. Unlike the most of those who have risen to eminence in the Catholic church he has but slight acquaintance with foreign languages. In fact, his native tongue is the only one which he has mastered, though he has a slight knowledge of French and German.

PREACHER OF VIRILITY.

German Emperor and Roosevelt Could Change Places.

The inexhaustible human instinct which insists on personifying a nationality is seen daily at work in the great world tour of Mr. Roosevelt. Here in Europe the institution of royalty fulfills the demand for the representative figure of a man, and there is nothing left over for the most eminent of private citizens. We can not even dimly imagine the late Mr. Gladstone or the late Lord Salisbury proceeding from one capital to another to receive the plaudits of the crowd and the hospitality of successive courts and sovereigns. Mr. Roosevelt, to do him justice, is making the best of a rather difficult business. Never before have we seen anything quite like the genial heartiness, the imperviousness to fatigue or boredom, the capacity for energetic commonplace which are possessed by this remarkable man. Between lions in Africa and lions in Europe one would have supposed that the human faculty for receiving impressions of sensations would long ago have been exhausted, but we see him still with his unquestionable American spirit bringing mes-

sages and gospels, and discoursing to each country in turn about the importance of being earnest. His meeting at Berlin with the German Emperor is precisely one of those things which an inventor of imaginary conversations would have devised as the artistic climax of these proceedings. One feels that if the two men had changed parts not much would have been altered in the course of affairs. Imagine Mr. Roosevelt brought up at Potsdam, and he would have been as nearly as possible the Emperor William; imagine Emperor William brought up in New York, and we would have been as nearly as possible Mr. Roosevelt. Both have the same shining honesty, the same sense of their mission, the same dramatic and rhetorical faculty, the same curious blend in their dispositions of ancient hero and modern hustler. The reporters hint in their courtly way that the address delivered at the University of Berlin was, owing to one circumstance or another, a trifle prolonged, but they add that his royal and imperial auditor listened to the last word with the utmost attention. —Westminster Gazette.

MODEST DESIRES.

I wish I had an income which would set me free from every care; I have no yearning to be rich—To be a burdened millionaire; I merely want enough to make Me independent all my days. To leave me free when I'm inclined To put my work away and find Enjoyment where my fancy strays.

I wish I might have youth and health And liberty to come and go; I do not ask for boundless wealth; I'd like a settled income, though; I merely want to have the right To claim the things my tastes demand.

To travel when and where I please. To live a life of careless ease, But modestly, please understand.

I wish that I had talents which would cause the world to grant me fame; I have no longing to be rich, Great wealth is often tinged with shame;

I merely want to go my way, Unhindered by a single care, To never have an ache or pain Or be expected to explain—To be applauded everywhere.

Looping the Loop.

Years ago, when there were only wooden sidewalks in the city of Winnipeg, Canada, holes were bored in the planks to let the water run through. In the morning twilight a policeman found a man with the tip of his wooden leg in one of these holes and hurriedly walking around it.

"What are you doing here?" asked the policeman.

"G'way, offsher," said the man. "Got to get home before ol' lady wakes up." —Everybody's Magazine.

Their Fingers Were Sticky.

Commenting on the comparatively small salaries allowed by congress for services rendered in the executive branch of the government and the more liberal pay of some of the officials, a man in public life said:

"It reminds me of the way a gang of laborers used to be paid down my way. The money was thrown at a ladder and what stuck to the rungs went to the workers, while that which fell through went to the bosses." —Everybody's.

Plays and Players.

Charles Bigelow is to join the vaudeville stars.

John Mason is to return to "The Witching Hour."

Ralph Stuart is heading a stock company in Paterson, N. J.

Charlotte Walker will play a short summer season in St. Louis.

Joseph Cawthorne has just been engaged for "The Comic Supplement."

The Shuberts will produce Laura Nelson Hall's play, "The Dreamers."

H. G. Wells' famous book, "When the Sleeper Awakes," has been dramatized.

When Rose Stahl has her new play Edna Aug will go out in "The Chorus Lady."

The new play which J. Hartley Manners has written for Miss Blanche Walsh is entitled "Barbarea."

Hilda Spong, who has been playing the lead with Arnold Daly in "The Penalty," has sailed for England.

Daniel V. Arthur lately offered a prize of \$500 for a song to be used by Louise Dresser in "A Matinee Idol."

The Liebler Company will produce a dramatization of Hall Caine's last novel, "The White Prophet," in the fall.

Edith Ellis' dramatization of E. P. Roe's novel, "He Fell in Love With His Wife," is to be produced in New York next season.

Miss Margaret Mayo, author of "Polly of the Circus," has written a farce called "Baby Mine," which William A. Brady will shortly produce.

The recent marriage of William Collier and Paline Marr in Davenport, Ia., brought out the fact that the comedian's real name is William Morenus.

Florence Reed has been engaged by Wagenhals & Kempner to appear under their management next season in a new play by the author of "Seven Days."

Marie Tempest is to star next season in a new play by an American author. It will be a new experience for her as she won her fame as an exponent of English types.

Edith Ellis, author of "Mary Jane's Pa," is to dramatize a novelette which lately appeared in a popular magazine under the name of "The Quality of Mercy." The Shuberts may produce the piece.

"John Arrowsmith, Planter," a novel of the civil war, by Mrs. Bell Bushnell, is to be dramatized for production by James M. Hackett. If the title role is a strong one, he will probably play it himself.

Margaret Anglin is to make a tour to the Coast this summer. On or about July 4 at the Greek Theatre of the University of California at Berkeley, she and a specially selected company of players will present the Edward Hayes Plumptre version of Sophocles' great tragedy "Antigone," for a single performance.

WEATHER FORECAST.

For Wichita Falls and Vicinity.
Tonight and Friday—Increasing cloudiness.

The warm time in the gubernatorial campaign is just fairly beginning. That real Wilson letter, much more than the fake Russel letter, is calculated to act as fire to a live fuse. In that letter Senator Bailey charges Davidson and Johnson with having tried to destroy him "by infamous slanders." In his speech at San Antonio Tuesday Mr. Davidson said: "I have never originated nor circulated a slander about Bailey personally nor officially, nor have I ever given circulation to, nor caused to be spread, any falsehood about him personally or officially, and I denounce his statements as wholly untrue in every particular, and I call upon him to state the slanders and falsehoods which he says I have uttered and circulated concerning him. And I will meet his charge at the proper time and the proper place." Now that sounds like a warlike acceptance of a beligerent challenge, and, it can safely be assumed that the smell of powder and the roar of cannonading will soon announce the beginning of a battle that has been imminent for a long time. When it commences prohibition will be a side issue, and the war will be fought and between the Bailey and anti-Bailey factions. The prohibitionists will be between the firing lines, and will suffer no matter which side of the controversy wins.—Bonham News.

The tax records of the various counties of the state, with two or three counties missing, show that \$51,488 poll taxes have been issued. This includes all exemption certificates issued to voters within the poll tax age limit, but does not include "overs" and "unders." In politics about three-fourths of these voters are democrats and it is safe to say that 90 per cent of them will participate in the primary

election to be held on July 23rd. If all four candidates for governor received their proportionate share, each would get about 100,000 votes. But, what is the use of figuring, when some of the candidates are charging that their opponents will not even carry their home counties, and this may be true, for it has not been so very long ago that an incident like that did actually occur in Texas, and yet that man today is conceded to be the strongest candidate of the four now running for governor.

Hon. C. E. Gilmore, in declining to make the race for congress to fill the vacancy in the Third Congressional District, caused by the appointment of Congressman Gordon Russell as Judge of the United States Court for the Eastern District of Texas, says:

"Since the report has gone to some sections that I would be a candidate for congress, I feel that it is proper to make this statement.

"While I have been solicited by ardent friends in the district to make the race for congress at this time, I have declined to do so and this statement is made that there may be no doubt as to my intentions.

"I feel that the work of the penitentiary investigating committee, of which I was a member, will not have been finished until our laws are so amended that the penitentiary system of the state will serve the prime purposes of its existence—the reformation of those convicted of crime and sentenced to a term of imprisonment there. To this end I shall continue to work with all the ability I possess until it is accomplished."

Mr. Gilmore has many friends in this city who will learn with regret that he has declined to make the race for congress. He is an able man and could be elected with little or no opposition; but his reasons for not doing so are that he believes he can be of greater service, not only to the people of his representative district, but of the entire state, by continuing to hold his present position until such a time as he can be assured that the reform movement in the penitentiary system, which he is largely responsible for, shall be put into effect. This is commendable. He is, comparatively speaking, a young man yet, and doubtless the sacrifice he is now making will be rewarded later on.

For the information of the candidates the Times will say that in order to have their names on the ticket to be voted at the July primaries those who are candidates for district offices must file their applications with the district chairman of the party to which they belong by Saturday, June 6, and those who are running for county and precinct offices must file their applications with the county chairman of the party to which they belong not later than Saturday, June 20th.

Regret was expressed by Memorial Day orators in Chicago that the day is coming to be regarded as one of festivity and amusement. On the other hand it may be inspired by a sincere realization that the Civil War is ended.—San Antonio Express.

The Tent Theatre.
"Woman Against Woman" attracted another large crowd to the tent theatre last night and the Hollingsworth Twins' Company pleased, as usual. The crowds are getting larger every night, proving that this company is more than giving the money's worth.
"Wanted: A wife," is the bill for tonight. This is a farce comedy in three acts and was written for laughing purposes, only.

WALKER-ANDERSON.

Well Known Young Couple United in Marriage Last Night.

In the presence of a large throng of friends, Mark D. Walker and Miss Mary Louise Anderson were united in marriage at the First Presbyterian Church last night at 9 o'clock. The prominence and popularity of the contracting parties made the event one of unusual interest and it was given an added charm by several very pretty features.

The church decorations were elaborate, being a tasteful combination of palms, ferns and flowers. Festoons of ferns were hung from the chandelier to the altar and the altar itself was a mass of white. The church was filled to its capacity long before the ceremony, attesting the popularity of the young people whose lives were to be united.

The ceremony was opened with the Tannhauser wedding march, played by Mrs. O. E. Maer. Mrs. McKee of Grandfield, then sang "O, Perfect Love" very beautifully and this was followed by the bridal chorus. Lohengrin's melodious composition was rendered by a chorus of sixteen ladies, all arrayed in white with pink garlands. Those rendering this selection were Mesdames, McKee, Woodward, Fitzpatrick, Carrigan, Darnell, Smith, McCune, Montgomery, Beaver, Patterson, Burnside and Misses Ingram, Smith, Kemp and Haynes.

The entrance of the bridal party was preceded by the two little ribbon bearers, Master Anderson Kemp and Miss Katherine Lynch, who were followed by little Miss Mary Francis Collier, bearing the wedding ring in a white rose. Mrs. P. P. Langford, matron of honor, preceded the bride. She was attired in white lace over satin and carried a bouquet of white roses. The bride then entered on the arm of her mother.

Eight of the bride's friends attended her as maids, marching down the other aisle. They were Misses Lucile Brooks, Sibyl Kemp, Thompson, Willie Mae Kell, Charlie May Scott, Flora and Jewel Kemp and Esther Gorsline.

The groom was attended by Lamar Fain as best man and by the ushers, Messrs. Fred Barron, Harley Heath, Newton Maer and F. P. Avis.

The beautiful Presbyterian ceremony was then pronounced at the altar by Rev. J. L. McKee. The march down the aisle following the ceremony was over white flowers, strewn by the little flower girls.

Following the ceremony the guests repaired to the home of the bride's mother, where an elaborate wedding reception was held. Congratulations were heaped upon the happy couple and they were the recipients of countless handsome presents.

The bride is a Wichita girl, having spent the greater part of her life in this city. One of Wichita Falls' prettiest and most accomplished young ladies, she has that charm of personality that has endeared her to all who know her and made her one of this city's most generally loved girls.

The groom has also been a Wichitan for many years and comes of one of this city's most prominent families. He is connected with the First National Bank of this city in the capacity of paying teller. He enjoys the friendship of a large circle and their best wishes go with him.

Mr. and Mrs. Walker will be at home to their friends at 1106 Austin.

TO COLONIZE JEWS.

Wealthy Texas Hebrews May Co-operate With Schiff.
 Texas News Service Special.
 Galveston, June 2.—It was announced here today that the wealthy Jews of Texas will co-operate with Jacob Schiff of New York, to purchase large tracts of land between Galveston and Houston for colonization. The purpose of the project is to divert the immigration of the race from New York to Texas. Settlers will be given land at a low price and on long terms.

Don't You Like to Trade

at a store where you see something fresh and new every time you enter? Don't you like to trade where the clerk hands an article over the counter and frankly looks you in the eye and says, "Mr. F., try this article, if it isn't absolutely first class you may return it and same will be exchanged for another or your money refunded." Don't you like to trade at a store where the clerk answers "yes we have it."

This is just the kind of a store we are conducting. We are receiving new goods every day and we exercise the greatest care in selecting goods that meet the ever increasing demand. Then why not trade at the right place.

ENGLAND'S NAVY LEADS.
List Shows Germany Second, United States Third.
A dispatch from London says the admiralty's second annual return of the fleets of the world, omitting battleships and armored cruisers over 20 years old from the date of launch, and distinguishing between the various types of vessels, shows that Great Britain easily heads the list in effective battle ships, of which type she has fifty-six, including the monster Dreadnoughts. Next comes Germany with thirty-three, the United States thirty, France seventeen, Japan fourteen, Italy ten and Russia seven. Great Britain has nine vessels building, Russia and Germany eight each, France six, the United States four, Japan three and Italy two.
Neither Great Britain, Italy nor Japan has any war vessels known as the armored coast defense type, but the United States has ten, France eight, Germany seven and Russian two. Apparently these numbers are considered adequate, for there are no more such vessels building.

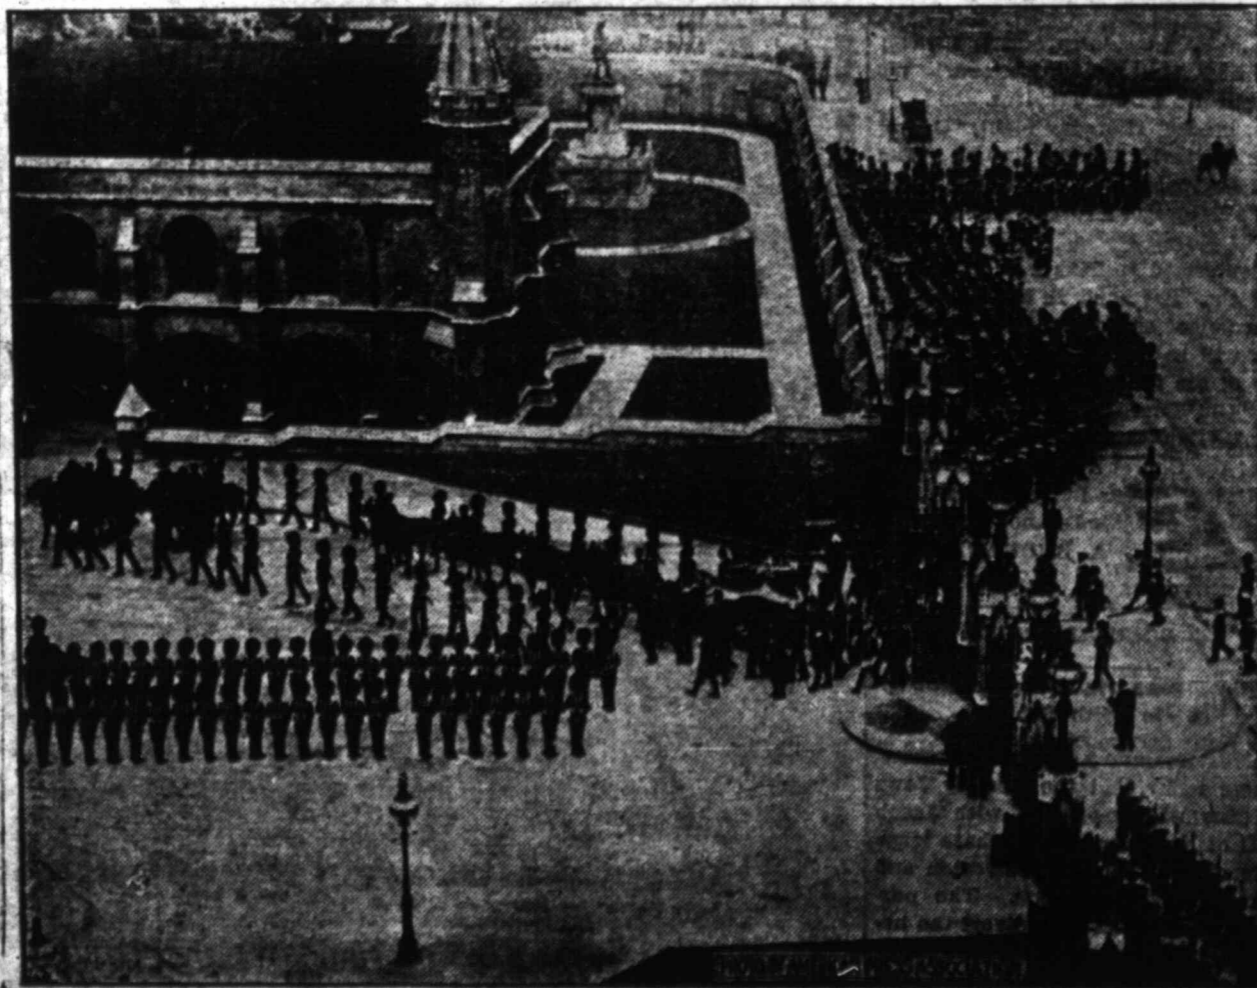

In the matter of cruisers, Great Britain again is well ahead of her rivals, having thirty-three armored eighteen first class, thirty-five second class, sixteen third class and two unprotected. France possesses twenty armored cruisers, five first class nine second class, eight third class. In the Russian navy there are four armored cruisers, seven first class, two second class and a similar number of third class. Germany numbers nine armored cruisers, twenty-two second class, twelve third class and ten unprotected. Italy has built eight armored cruisers, three second class and eleven third class.
Of the armored class Great Britain and Germany each have three building and France, Russia and Italy two each.
At present there are very few of the larger variety of destroyers known as scouts, Great Britain owning eight and the United States three, while Italy has one building.
Great Britain has eighteen torpedo vessels, France nine, Russia six, Italy five, the United States two, and Germany and Japan one each. Under the same heading are classed two British vessels and one Japanese, described as depot ships for submarines, three British vessels as depot ships for torpedo boat destroyers and the French Fourde entered as a special vessel.
As regards torpedo boat destroyers, Great Britain is far away and ahead of all the other countries, but she has not quite got a two-power standard. Of vessels already commissioned she has one hundred and fifty. Next in order is Russia with ninety-seven, then Germany with eighty-six. France sixty, Japan fifty-eight, the United States twenty-five and Italy twenty-one. The British fleet will be increased to thirty-seven destroyers now building, while France has in contemplation seventeen, the United States fifteen, Germany twelve and Italy and Japan two each. Russia is not building any new destroyers.—New York American.

TRIALS OF THE ACTOR.
His Bill of Complaints is Rather Lengthy.
"A Week of 'One Night Stands,'" is the title of an amusing article in the June American Magazine. It relates the trials and tribulations of an actor on the road, and some of them are extremely laughable. The author evidently speaks from personal experience. He writes:
"Of the many ways, in which two hours can be passed, in a one night stand, we will say that you wish to read, write or sleep, and you go to your room. You find that it is not 'done up,' so you return to the office and wait for that process. Then one or all the following things may prevent you from reading or writing:
"The room is too dark.
"The room is too cold.
"The room is too warm.
"The window will not close.
"The window is broken.
"There is no comfortable chair.
"Now you turn your attention to sleep. If one of the foregoing discomforts prevents this, there are others:
"There is no window shade.
"The steam rattles in the pipe.
"The steam escapes from the radiator.
"The bed is too hard.
"The bed sags in the middle.
"The bed sags on one side.
"The chambermaid sings in the hall.
"Children play in the hall.
"The porter moves trunks or hammers.
"The elevator next to your room is very noisy.
"Persons in the next room talk loudly.
"If you wish to prolong the list, sit in your comfortable room at home, look at each article in it, and imagine what could be the matter with it, or how you could get along without it."

THE HIGHLY BRED STALLION

ASHLAND R. 44423
SIRE OF
Peter McGregor (4 years) 2.21 1-4

HIS FIRST COLT TO START IN RACES

ASHLAND R. is by Ashland Wilkes, 2.17 1/4 the sire of John R. Gentry 2.00 1/4 and 140 others with records better than 2.30. His dam Wilkie McGregor is a great brood mare by the greatest stallion of his day, Robert McGregor, 2.17 1/4. His second dam Virtie Wilkes is also a great brood mare and is by Red Wilkes, sire of 177 standard performers.

HERE IS ONE OF THE BEST BRED STALLIONS IN AMERICA, and if you will send for his tabulated pedigree and study it you will find that he traces to George Wilkes, Hambletonian 10, American Star, Pilot Jr., and other great sires through producing and performing lines that prove the above statement beyond all doubt.

He is one of the BEST LOOKING STALLIONS and best dispositioned horses in the country as you can see by calling at the stables.

Bred in Kentucky, Ashland R. is now nine years old, stands nearly 16 hands high, weighs over 1,100. His colts are larger than he is even from small mares, are the same rich bay with black points, heavy manes and tails, round full made bodies on good legs with plenty of bone and muscle and sell for fancy prices on account of their style, action and speed.

Messrs. Kemp and Kell asked Mr. Palmer L. Clark, President of the Chicago Horse Sale Co. and former owner of Clark's Horse Review, one of the leading turf papers, to select a horse that would do the breeding interests of this section the most good, and his choice as a result of thirty years experience is in keeping with the many solid improvements and expensive advantages Wichita Falls has been favored with by these gentlemen.

Ashland R. will make the season at the low fee of \$15.00 cash. For years past he has commanded the best mares in Ohio at \$50.00. NO OWNER INTENDING TO BRED A MARE THIS SUMMER CAN AFFORD TO MISS THIS CHANCE.

SHIP IN RAIN OF METEORS.
Crew Tells Weird Tale of Experience in Mediterranean.
Midway in the Mediterranean, between Algiers and Gibraltar, the tramp steamer St. Patrick, which arrived in South Boston, ran full into a terrific rain of meteorites on April 2, which a hundred times threatened the ship and the lives of her crew.
The sky was swept as by myriads of huge rockets. Great flaming bodies, whose tails hissed over the seas for

leagues from all points of the compass, fell into the sea and lashed the waters to a fury.
Strange currents of air rushed hither and thither from all points of the compass. The air was filled with a deadly chill; the barometer rushed up and down inconspicuously.
Men shivered as perspiration broke from their bodies. They muttered and prayed and crossed themselves.
From time to time some of the crew fell silently to the deck. Some say it

was from fear, but those who dropped said later that a strange gas had choked them.
Halley's comet is the reason ascribed by all for the miraculous phenomenon.
A report of the ship's cruise, during which the comet had been sighted, will be sent to the department at Washington. Already the ship's story has attracted great attention.—Boston Post.

Kentucky Has New Capitol.

Frankfort, Ky., June 2.—The new capitol was dedicated at noon today with imposing ceremonies. This quaint old city was thronged with 20,000 visitors from all parts of the state, including large delegations who came by special trains from Louisville, Lexington and other leading cities. The capitol was elaborately decorated with flags and bunting.

A military and civil parade, reviewed by Governor Willson and other dignitaries of state, preceded the dedication ceremonies. The formal exercises were held on the terrace in front of the main entrance to the capitol. The program began with the firing of the governor's salute and the raising of a monster flag on the capitol dome. Governor Willson made the introductory address and Senator W. O. Bradley delivered the oration of the day. On the speakers' stand were Lieutenant Governor Cox, former Governor Beckham and many other prominent men of Kentucky. The exercises were in charge of General D. W. Lindsay, chairman of the capitol committee.

The new capitol building takes rank among the finest structures of its kind in the country. The main edifice is four stories in height and is flanked by spacious wings. Surmounting the structure is a large and graceful dome. Among the chief features of the building from the architectural viewpoint are the artistic entrances and the spacious rotunda. In addition to the large assembly and senate chambers and the court rooms the building contains accommodations for the governor and other officials of the state, lecture and memorial rooms, library and a number of minor offices.

Thomas Hardy 70 Years Old.

London, June 2.—Thomas Hardy, the celebrated novelist, had a quiet celebration of his seventieth birthday today at his quaint old home at Max Gate, near Dorchester, in the very heart of the country which he has made familiar to readers the world over. Much has been said and written about Mr. Hardy's works, but very little is known generally of the man himself. He is said to be a most difficult man to approach, and the story is told of how a pertinacious American autograph-seeker who visited Max Gate in quest of an addition to his collection was almost overcome by the shock when the famous novelist received his visitor most graciously and presented him with several autograph copies of his best-known works. One of Mr. Hardy's eccentricities is his habit of invariably wearing two waistcoats. In severe weather, it is said, the famous author has been known to don as many as four, but even on the hottest summer day he sticks to his two, the outside one generally being of the old-fashioned knitted sort.

Alliance of Prominent Families.

Richmond, Va., June 2.—Two families that have figured prominently in American affairs of the past and present, were united today through the marriage of Miss Page Aylett Royall, daughter of Mr. and Mrs. William Laurence Royall, of this city, and Mr. Barker G. Hamill, of Trenton, N. J. The bride is a great-granddaughter of Patrick Henry and a great-niece of Chief Justice Marshall, while the bridegroom is a nephew of Chief Justice Gummere of the Supreme Court of New Jersey and of Samuel Gummere, United States Minister to Morocco. The wedding was celebrated in St. Paul's Cathedral in the presence of a large and fashionable assemblage.

THE WONDERS OF PITCHING.

Mordécal Brown, Premier Pitcher of the "Curve" Ball.

Hught S. Fullerton, writing in the June American Magazine about the "Wonders of Pitching," says of Three-Fingered Brown, the star twirler of the Cubs:

"Beyond doubt, Mordécal Brown's 'hook' curve is the highest development of the fast overhand ball which curves down and out, as all good curves do. Brown has but two entire fingers on his right hand, and only fractions of the others. His first finger is cut off short and the middle finger is wrecked so that the first joint turns almost at right angles toward his thumb. Perhaps this mutilated hand is the secret of his marvelous curves. Brown pitches the 'hook' overhand, releasing the ball at graduated points after the hand passes the line of the center of the body in swinging. Upon the point at which the ball is released by the fingers, the place of the 'break' depends, and Brown can, by regulating the point of release, make it either describe a wide, fast arc, or, after traveling fifty feet, break suddenly at a sharp angle from its original course. If the batter retires to the back of the back of the batter's box, Brown, by releasing the ball a flash sooner, can make it break in front of the batter, almost over the plate. If the batter moves to the front of the box, to meet the curve before it breaks, a sudden jerk of the pitcher's wrist makes the ball break several feet in front of the plate. He controls the point of the break or curve at will, except when the ball slips, as it sometimes will do even with the greatest of pitchers. Most players who faced him in duels between batter and pitcher concede Brown's curve to be the greatest of all, but no member of the Detroit team who batted against Overall in the world's championship series of 1908 will acknowledge that Brown is better in the game that Overall pitched, the final one of the series, his curve broke in such astonishing manner as to surprise even himself. Overall pitches his curve with a wide, sweeping overhand swing, releasing the ball over the side of his index finger just as his hand turns downward."

Big Area Involved in Land Suit.

Los Angeles, Cal., June 2.—A big land dispute resulting from a trick practiced upon the government thirty-five years ago by a wealthy San Franciscan, now dead, came up for hearing today before United States Surveyor General Archer. Palo Verde Valley lands, valued at \$2,500,000, are involved in the controversy, which, it is believed, jeopardizes the rights of many settlers. Suit has been brought attacking the validity of the title to the lands acquired by the San Franciscan thirty-five years ago. It is charged that this man had a boat loaded on a wagon, and after it had been hauled over a prescribed area, claimed 44,000 acres of rich land, under the Swamp and Overflow act, following his attesting to the fact that he had made the trip by boat.

Celebration at Bryn Mawr.

Bryn Mawr, Pa., June 2.—This has been a red-letter day in the history of the town and school of Bryn Mawr. With President Taft as the guest of honor and with hundreds of women graduates in attendance from all parts of the country, the famous school for girls held its annual commencement exercises, which were accompanied by the usual brilliant outdoor festivities. In addition to the visit of the president the occasion was notable as marking the twenty-fifth anniversary of the college and also the completion of a \$500,000 endowment.

House For Lakeside or Knoll Site.

Design 929, by Glenn L. Saxton, Architect.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

FIRST FLOOR PLAN.

SECOND FLOOR PLAN.

This design is especially suited for a site on a knoll or by a lake—in fact, any location where it will be viewed from all sides. The main approach can be from the rear. The exterior is very fitting for that of a lake home, having all the appearances of being cool and airy, although the house is finished complete for the coldest of weathers. Across the front end of the house is a wide piazza with entrances to both the living and dining rooms. These rooms are connected by sliding doors, and the dining room has a built in buffet with three windows above it, and the living room has a comfortable open fireplace. There are one bedroom and a bath on the first story and two chambers and a dressing room on the second story. Size thirty-two feet wide and twenty-nine and a half feet deep over the main part. Can be built complete, exclusive of heating and plumbing, for \$3,500.

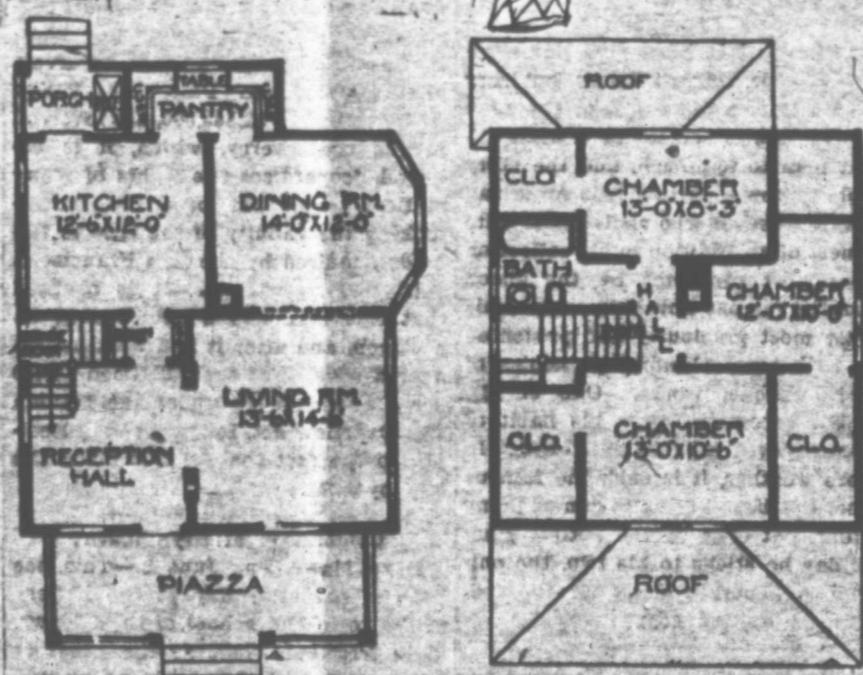

By special arrangement with me the editor of this paper will furnish one complete set of plans and specifications of design No. 929 for \$25.
 GLENN L. SAXTON.

A Well Arranged Cottage.

Design 832, by Glenn L. Saxton, Architect.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

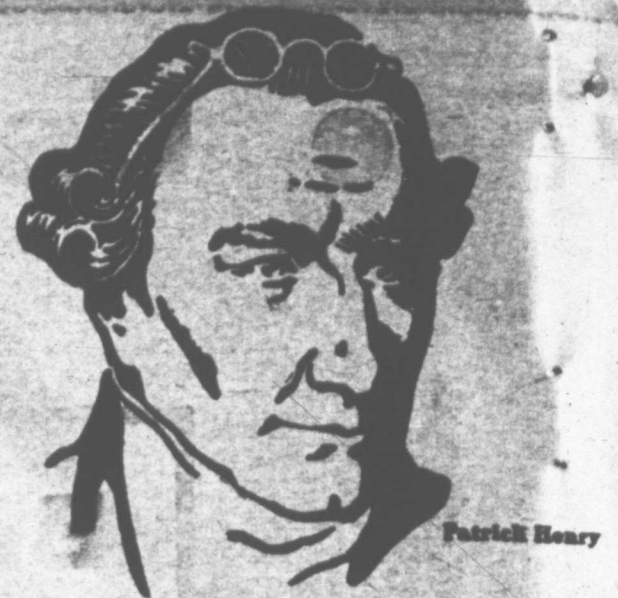

FIRST FLOOR PLAN.

SECOND FLOOR PLAN.

In this small cottage are all the requirements that are found in a much more expensive dwelling. The arrangement of the first floor plan is ideal, with its large reception room opening into the living room by a wide columned archway. The dining room and kitchen are connected by a large pantry with abundance of cupboard space. There is a refrigerator on the rear porch so that the housewife does not have to enter the house. The stairways are a combination, the cellar flight leading from the passageway between the kitchen and reception room. There is a grade side door. The second story contains three good sized chambers, all well lighted, and a large closet space. The size is twenty-six feet wide by twenty-eight feet deep. Full basement; first story nine feet, second story eight feet. Hardwood finish in first story, with pine to paint in second story. Cost to build, exclusive of heating and plumbing, \$1,975.

By special arrangement with me the editor of this paper will furnish one complete set of plans and specifications of design No. 832 for \$15.

"THIS IS MY 50th BIRTHDAY."
 Bishop Heffron.
 Rt. Rev. Patrick Richard Heffron, recently consecrated as Catholic bishop of Winona, was born in New York City, June 1, 1860. In his youth he emigrated to the West with his parents and received his education in public schools in Wisconsin and Minnesota. He was connected with St. John's College, Minnesota, in 1878, and then studied for six years at the Grand seminary in Montreal. He was ordained a priest in 1884, and then spent two years in Rome. On his return to America he succeeded Bishop Shanley as pastor of the Cathedral parish in St. Paul. He was made vice rector of the St. Paul seminary in 1896, and the next year became rector of that institution, in which position he remained until he was made a bishop in the early part of this year.

General MacArthur. Lieut. Gen. MacArthur, U. S. A., retired, the twelfth and last American officer to reach the rank of lieutenant general, was born in Massachusetts, June 2, 1845. He was still an infant when his parents removed to Wisconsin and settled in Milwaukee. His father, the late Judge Arthur MacArthur, who served as lieutenant governor of Wisconsin. In 1862, when seventeen years old, young MacArthur

was commissioned first lieutenant and adjutant of the Twenty-fourth Wisconsin Regiment. He received his baptism of fire at the battle of Perryville. Later, he took part in the great battles of Stone River, Chickamauga and Missionary Ridge. When he was mustered out at the close of the war he had not yet attained his majority. After a few months' rest at home he reentered the military service as a captain in the regular army. Through regular promotions he had reached the

rank of lieutenant colonel at the beginning of the Spanish war. He distinguished himself at the battle of Manila, August 13, 1898, and was made major general. In 1900 he succeeded Gen. Otis as Governor-General of the Philippines. After his return home he commanded at various times the Department of the Lakes, the Department of the East, and the Department of the Pacific. He became lieutenant general in 1906 and was retired for age three years later.

PATHOS IN LAUNCHING.

Christening of Florida Fulfills Promise to Late Senator Bryan.

Apart from the popular interest that always attaches to the launching of war craft for the United States Navy a measure of pathetic interest surrounds the slipping from her cradle of the big battleship Florida at the Brooklyn navy yard tomorrow. She gets the name of a great and growing State from the fact that President Roosevelt in an informal way had assured the late United States Senator W. J. Bryan, of that State, that one of the two "dreadnaughts" at that time only recently authorized for construction should be christened, in so far as his authority or influence in the matter was concerned; and after Senator Bryan's death he asked the Navy Department that the dead statesman's desire be carried out—and it will be. Senator Bryan was appointed by Governor Broward to fill out the unexpired term of Senator Stephen R. Mallory of Pensacola, following the death of that able Floridan, whose father had been secretary of the Confederate navy by appointment of President Jefferson Davis; and when he took his seat in the Senate he was the youngest member of that body and with every promise that he would acquire himself most creditably there and add materially to the prestige of the Peninsula State. Death overtook him before he had learned the faces of his fellow Senators and only a few days after his talk with the President. Governor Gilchrist, who attends the launching of the Florida in an official capacity is one of the youngest chief executives that the state has had, and a product of the new order of things—the era of "hustle" and upbuilding and wealth-getting and the burial of Democratic factionalism. Miss Elizabeth Fleming, who breaks the bottle of wine over the battleship's bow is the daughter of the late Francis P. Fleming, who served from 1889 to 1893, the family being one of the oldest and most distinguished in the state. So, altogether, and despite the fact "matters of legislation" have forced President Taft to cancel his engagement to see the Florida take her first water, she will slide overboard "in the house of her friends" and in the presence of thousands of well-wishers who will rejoice with her own people to see a great State thus honored.—New York Commercial.

ACOMIA.

Many Men Have It and Most of Them Worry About It.

ACOMIA—It's a magic word—what does it mean? Simply absence of hair. A baldheaded man has ACOMIA—A million more men will have ACOMIA a year from now if they do not get rid of disgusting dandruff.

Dandruff is caused by a germ. This germ is a persistent sort of germ. He lives on the vitality stored in the hair roots, and the longer you tolerate his presence the surer you are of growing bald.

Kill the dandruff germs; that's the only way to keep from growing bald. Any capable doctor will tell you.

Parolan Sage is the most pleasant and invigorating dressing and dandruff remover in the world. It is not sticky, or greasy, it will make women's hair soft, silky, and luxuriant in a few days. The girl with the Auburn hair is on every bottle. Fifty cents a large bottle at druggists everywhere and at Week's Drug Co., who guarantee it. Mail orders filled, all charges prepaid. By Giroux Mfg. Co., Buffalo, N. Y.

President Off for Short Trip.

Washington, D. C., June 2.—President Taft, accompanied by his military aide, secretary and four secret service officers, left the capitol today to fulfill several out-of-town engagements he entered into several months ago. His trip will occupy three days, during which time he will travel approximately 1,500 miles. His first stopping point is Bryn Mawr, Pa., where he is to attend the commencement exercises this afternoon of Bryn Mawr College, where Miss Helen Taft is a student. From Bryn Mawr the president will proceed to Ada, Ohio, to attend another college commencement, that of the Northern Ohio University. Tomorrow evening will find Mr. Taft in Detroit to deliver an evening address, and the whole of the following day will be devoted to Michigan. He will pay a short visit to Jackson and will then go to Monroe to be present at the unveiling of the General Custer monument. From the latter point the presidential party will return direct to Washington.

"Cutting Out" the Slang.
"Say," said Rose Stahl, star of the perennially popular "Chorus Lady," "ain't slang the limit? Last week I had dinner with some friends who won't stand for it at all."

"The little girl started the conversation. 'I'm not stuck on this bread,' she remarked.

"'Margarie,' said the mother, 'you want to cut that slang out.'

"That's a peach of a way of correcting the child," commented the father.

"I know," replied the mother, 'but I just wanted to put her wise.'—June Young's Magazine.
