## STRAW VOTES SHOW HOW WIND BLOWS

### COLQUITT GETS PLURALITY IN BALLOT TAKEN ON PASSENGER TRAIN.

### VOTING BY GRAND JURY

Johnson Leads on Straw Ballot Taken at the Court House Yesterday Afternoon.

As the end of the Texas gubernatorial campaign draws near, straw votes are being taken in numerous parts of the state and the results are widely varied. A vote of this kind was taken on the southbound Fort Worth and Denver passenger train Thursday afternoon by some of the passengers and resulted as follows:

Colquitt	38
Johnson	18
Davidson	13
Poindexter	6

Fourteen of the passengers declined to express any preference. A straw vote was taken on the same train for the lieutenant governor's race and resulted as follows:

Davidson	34
Thomas	21
Hawkins	11
Webster	2

The efficiency of the straw ballot in determining what the real vote will be is doubtful, especially when taken on passenger trains. During the Clark-Hogg campaign, hundreds of straw ballots gave Clark a majority for the simple reason that the farmer vote, which was almost solid for Hogg, was not usually represented on these ballots. Many straw ballots, two years ago, gave R. R. Williams a lead over Campbell, which the primaries failed to sustain. The figures of the Denver train ballot are practically reversed by the straw vote taken by the grand jury as indicated below.

Yesterday afternoon the grand jury, including the district attorney and the doorkeeper, took a straw vote on the governor's race, there being a total of 14 votes, with the following result:

Johnson	6
Poindexter	5
Davidson	2
Colquitt	1

They also voted on the various county offices, but decided that it would be unfair to the candidates to make the result known.

### FUNDS TO BE RAISED TO EMPLOY A CITY FORESTER.

#### \$100 PER MONTH NEEDED

Canvass of the city is to be made shortly for the purpose of obtaining funds to employ a city forester to direct and assist in the planting and care of trees along Wichita Falls' streets. Pledges totalling one hundred dollars monthly are desired. The following has been handed the Times for publication:  
A few days ago the idea of having a city forester was placed before several representative organizations of the city and was received with most earnest expressions of approval by all. The position is one which the city needs very much to have filled

and the sooner such an official begins work the better for us all. It is to be expected that the planting of the thousands of street trees will have some effect on increasing rainfall. It certainly will have a marked effect in reducing the high winds and preventing to a large extent the disagreeable sand clouds which rise in our streets as a result of the unchecked winds. But though nearly everyone wants this work to go on in a wise and systematic way, nothing can be done as yet, because money is lacking which can be used for this purpose. The plan now proposed is to raise the necessary money by popular subscription. We hope every person in the city will take a personal interest in making this fund as large as possible. It is expected that every man will subscribe something and it is hoped that many women and even the boys and girls will subscribe, if only a little. If all of us do our best the city will, in a few years, be the proud possessor of a fine system of shaded streets, beautiful parks and helpful playgrounds. Let each give a liberal subscription. The request for a subscription will be made next week at every home in the city by an agent of the fund, when the opportunity to subscribe will be given.

### WILL BRING INDIANS HERE TO SETTLE ON THE SPCHT RANCH PROPERTY

S. S. Michner of Noblesville, Indiana, is in the city today perfecting the plans for the cutting up and colonizing of the Spcht ranch property in this county. Mr. Michner recently purchased this ranch and he intends to cut it into small tracts to be settled by Indiana farmers. The Spcht ranch is located north of Iowa Park and includes about thirty-three hundred acres. It was bought by Mr. Michner for one hundred and fifty thousand dollars. Mr. Michner expects to interest a number of Indians in his property and will doubtless be instrumental in inducing a large number of Hoosiers to settle in Wichita county.

### PHYSICIAN SAYS PELLAGRA DOES NOT COME FROM CORN.

Washington, June 11.—Dr. C. H. Lavinder of the United States Public Health and Marine Hospital Service, in an interview here today expressed the opinion that cause of pellagra is more likely to be found to be from some blood sucking insect than from moulded corn. This is the result of an investigation of the theory first advanced by Camborn the noted scientist, at the meeting of the British Medical Association in London in 1905. He says it has been proven persons had the disease who never tasted corn.

### EIGHTEEN HUNDRED SCHOOL CHILDREN

#### THE COMPLETED CENSUS SHOWS SLIGHTLY LESS THAN HAD BEEN EXPECTED.

### TOTAL IN CITY IS 1670

Former Figures Found to be Erroneous on Account of Several Duplications.

The taking of the school census for the Wichita Falls Independent School District has been completed by V. G. Skeen and the total is less than was at first anticipated, owing to the fact that a number of the children were inadvertently counted twice. The total for the district is 1820, an increase of nearly five hundred—496 to be exact—over last year's showing.

Of this number 1670 reside in the city limits and 150 in the "shoestring." The children are divided as follows: Americans, 1623; Germans, 72; Bohemians, 5, and negroes, 111. Estimating the population of this city on the basis adopted by the state—that is, six inhabitants to every child, Wichita Falls has a population of 10,020. Her population estimated on the same basis last year was less than eight thousand.

Of the 1820 children of scholastic age in this district, it is thought that all, save about one hundred, attend school. About sixteen hundred are enrolled in the city's public schools and fifty or sixty more attend St. Mary's Academy, in addition to those whose homes are here, but who attend out-of-town institutions.

The letter received last night after several paragraphs of abuse, concluded: "Now you have ample time to consider the warning in this letter, and if your efforts against racing do not cease, you must prepare for the inevitable as your doom is sealed." It is probable that the letters will be given attention by the postoffice officials.

### WICHITANS ARE TO VISIT PACKERIES

#### WILL MAKE INSPECTION TOUR OF PLANTS IN THE NORTHERN STATES.

### LEAVE NEXT SATURDAY

Will Spend Ten Days Looking at Plants Under Construction and in Operation.

Several local business men will leave on June 18 (next Saturday) to inspect the packing plants in the north, with a view to familiarizing themselves with the packing business to some extent, and also with the idea of seeing the possibilities of this branch of industry. The party will include Frank Kell, J. A. Kemp, Wiley Blair, R. E. Huff and others.

It is the intention to visit the plants in operation and under construction at Sioux Falls, South Dakota; Austin, Minnesota; Detroit and at other points. The party will spend about ten days inspecting these plants, returning to this city by May 28. Mr. Emerson will join the party in Chicago and will probably act as its escort on the inspection trip.

Now that the deal has been closed, save for the formalities, considerable speculation is being indulged in as to its probable location. Some seem to think that it will be built east of the city near the old baseball park, while North Wichita and the southeastern portion of the city near Holiday Creek, are also thought by some to have been decided upon. Mr. Emerson and his associates have already secured options upon the land they desire, but are not yet willing to divulge the exact location. Nothing definite is known further than, as Mr. Emerson said, it will be within one mile of the freight depots, which requirements either of the three sites above suggested would fulfill.

IN SOCIETY'S REALM

HER NEW SPRING HAT.

Her new spring hat is big and large, and tall, and high, and long, and wide. To get it through a street car door she has to cock her head one side. And yet she wears the dazzling mass with such an air of dainty grace, it somehow seems but to enhance the piquant beauty of her face.

Beneath the brim her gay eyes flash, to mortal man a constant lure. A feature of bewitching charm in one with manner so demure. And then that saucy little nose, with just the slightest upward twist, Above the sweet lips of a mouth designed by Nature to be kissed.

Her new spring hat is big, and large, and long, and wide, and tall, and high. But oh, it caps a vision that is most delightful to the eye.

I wonder sometimes what it cost; I shouldn't like to pay the bill, But when she wears it, every man she meets must feel a sudden thrill! —Somerville (Mass.) Journal.

Bernard Shaw on "The Ladies."

No woman looks her best after sitting up all night.

A lady who is invariably exceedingly disagreeable is, in consequence, held to be exceedingly good

"Mrs. Tanqueray" was received with delight by the public; St. Teresa would have been hissed off the same stage for her contempt for the ideal represented by a carriage, a fashionable dressmaker and a dozen servants.

In the past women have rather liked being worshiped on false pretenses. In America they still do.

Women spend half their lives telling little lies for men, and sometimes big ones.

A man who discusses his conscience is much like a woman who discusses her modesty.

If women were as fastidious as men, morally or physically, there would be an end of the race.

When a lady, because she is a lady, will face and extremity of parasitic dependence rather than take a situation as cook or parlor-maid, we make large allowances for her.

"I cannot understand why she is so unlucky; she is such a nice woman." That is the formula. As if women with any force in them ever were altogether nice.

Meeting of Civic League.

The Civic League met with Mrs. Adickes Tuesday, June 7th. Several matters of importance were discussed. Making the park more beautiful was one of most importance matters. A city forester was heartily indorsed,

but they do not intend to devote all their time to parks and trees. A "Cleaner City" was taken up, and a committee was appointed to see that the laws of cleanliness were enforced. Such as clean meat markets, vegetables protected from flies, etc. Also expectorating on sidewalks. What good does the sign "\$5.00 Reward" tacked on side of store or elsewhere do, when sitting beneath or standing around are half dozen men expectorating in all directions; the officer passing by turns his head and goes on to attend to other business. A brick furnace for burning papers and other trash for every back yard was thought to be a good work. The ladies do not intend to idle this summer and hope to see a good result in next few months. Bixby Now Chief of Engineers. Washington, D. C., June 11.—Brig. Gen. William L. Marshall, who has been chief of engineers of the army since July, 1908, was placed on the retired list today on account of age. General Marshall leaves behind him a brilliant record in the service. Born in Kentucky in 1846, he served through the civil war as a private and after the close of the war attended the West Point Academy, graduating in 1868. After serving as an instructor at West Point for two years he had charge of various explorations and engineering projects in the west. On one of his expeditions, in 1873, he discovered "Marshall's Pass" across the Rocky Mountains, and two-years later he discovered the gold placers of Marshall Basin, San Miguel River, Colorado. In later years General Marshall was in charge of the construction of levees along the Mississippi and of harbor and river-improvements in various sections of the country. He is also known as the inventor of the moveable dam, lock gates and valves.

General Marshall is succeeded in the office of chief of engineers by Colonel William B. Bixby, the senior colonel of the corps of engineers, recently stationed at St. Louis as president of the Mississippi River Committee. Col. Bixby comes from Massachusetts and was educated at the Massachusetts Institute of Technology. From 1875 to 1879 he was a teacher at the military academy at West Point. In 1879 he was sent to France, where he took a course of instruction in the French national school of bridges, highways and river and harbor improvement work. He has been an officer of the army engineering corps for thirty-seven years and his eminence as an engineer is recognized throughout the profession.

Roosevelt Homeward Bound. Southampton, June 11.—Theodore Roosevelt today concluded his memorable tour of Europe. With the members of his family he boarded the steamship Kaiser Auguste Victoria here this afternoon and by tomorrow morning the party will be far out on the homeward voyage.

The steamship promises to make a quick passage if her commander, Captain Hans Ruser, has his way and nothing prevents. Her machinery is in perfect condition and her bunkers filled with the choicest coal. The confident expectation is that the boat will reach quarantine in New York harbor at an early hour next Saturday morning.

There was a gala crowd at the docks in honor of Mr. Roosevelt's leave-taking. Many American were among the hundreds of men and women who gathered to give the former president and his party an enthusiastic au revoir. As Mr. Roosevelt went aboard the ship's band began to play "The Star Spangled Banner." As the first notes reached the ears of the crowd on the pier, a hearty cheer went up. All the shipping in the harbor flew the American and British flags, and the picture presented as the big liner slowly drew away was impressive. The Kaiserin Auguste Victoria is one of the finest ships afloat, and is really an ocean "skyscraper," with every luxury and safety device the twentieth century can suggest. The Roosevelt party occupy one of the Imperial suites consisting of drawingroom, bedroom, dressing or breakfast room and bath.

# The "JUST OVER SUNDAY" DRESS PROBLEM

A Sweater for Golf Links or Tennis Courts

JANE

A Pretty Pink Chambray for Morning Wear

A Week-end Suit Case Properly Filled is too Heavy to Carry--the Kimono Can Hardly be too Pretty--Morning Costumes Should Suggest Freshness--Smart Accessories.

LIKE planning for a suit-case tour through Europe, packing the week-end suit case requires a deal of contriving. In fact, one might travel all across Europe and take in Spain besides, with less of a wardrobe than would be needed for just a little over-Sunday stop at a friend's country house.

A tailored suit, two changes of underwear, a couple of silk blouses and a sewing kit fulfill all European requirements very comfortably, and if there be, besides an extra smart bodice for occasional theatres or dinners, nothing further in the way of luxury could be desired. But what must a poor woman take for a little week-end visit at Lenox, or Tuxedo, or up at Westchester? Besides her traveling suit and fresh blouses for going and coming, there must be a morning frock, a smart afternoon driving costume, two dinner gowns, a dancing frock, at least one lingerie dress in case the weather is sultry, not to speak of petticoats to go with all these costumes and a negligee for bedroom wear. In addition, motoring togs, a bathing suit, a shooting suit, riding habit or some similar outfit for athletic wear may have to be taken along.

Send the Suit Case by Express. At the very least estimate of indispensable the week-end suit case will be too heavy for any woman to tackle, and it is much wiser to send on the filled suit case a day ahead by express, arriving one's self on the Friday evening, cool, collected and untroubled with a parasol and a smart traveling bag. In the latter may be carried the various toilet articles, the night dress and pretty negligee; leaving more room thus in the suit case for frocks and shoes and allowing the competent express company to wrestle on a hot day with the transportation of so much weight.

The Negligee a Most Important Item. An altogether charming negligee is a most important detail of the week-end wardrobe. Into it, after a refreshing bath, one slips upon arrival for a cozy before-dinner chat with one's hostess. It comes in again at the midnight hour, when the men safely below stairs taking a convivial nightcap, feminine folk flit about the halls and in and out of the bedrooms in bewilderingly lovely garments. And, if by inadvertence, a masculine somebody, coming up stairs, should catch a feminine somebody in the hall, clad in a distractingly pretty pink silk kimono, what matters indeed--so long as the kimono is sufficiently becoming?

And then--as one woman says--there is always the possibility of fire in the night. So, by all means let the negligee be included as an indispensable in over-Sunday suit case.

A Distracting Negligee for Bedroom Gossip

A Bathing Suit a Most Important Item

Smart Linen Suit and Hat for Country Club Wear

Summer negligees are protection against drafts--not cold--and do not need to be heavy in weight. Thin china silk, crepe de chine, accordion pleated silk muslin or very thin albatross make up charmingly into gowns should be fine, rather than plentiful, of this character, and trimmings if economy is a consideration. Figured dimity, dotted swiss and batiste, while making dainty sacques for morning and room wear, are not suitable for negligees, like the soft, limp, silky stuffs which conceal any lack in the costume beneath.

What to Wear in the Mornings. One may wear anything one pleases at a country house in the morning. In the big house breakfast is served individually to guests in their rooms, the first formal meeting of hostess and guests taking place at luncheon. Appointments are made during the evening for the next morning's occupations, and while some meet on the tennis courts or golf links, and others start out for a dip in the surf or a ramble in the woods, there are always those who like best to dawdle through the morning hours in hammock or piazza chair with a book or a bit of needlework.

The hostess is rarely visible before noon. She sips her coffee in her own boudoir and plans with her secretary for the day's menu and entertainment and for the week-end parties which are to follow in succession all summer, long after the present handful of guests have gone their several ways.

The morning costume will, of course, be very simply made and will be of linen in Russian style, with a short skirt and a chic leather belt, or of one of the attractive ginghams or chambrays, trimmed with braid or a little very fine embroidery. Dimity makes an ideal frock for very warm summer mornings, and the dotted lawns are pretty when smartly made up. The main consideration of the morning costume is immaculate freshness. If the frock is also daintily pretty and becoming and girlishly simple in style it will be a relief to jaded

eyes that have bent too long above a bridge table in the wee sma' hours.

Charming morning frocks of candy striped linen lawn were shown early in the season at one of the big houses on the Rue de la Paix. These frocks were ostentatiously simple, being laid in small side pleats from neck to hem, the waist and skirt, though separate, having the effect of being all in one, though a black patent leather belt confined the waistline. There was absolutely no trimming, but with the frock was worn a broad, Dutch collar of batiste embroidery and the elbow sleeves were finished with frills, which are having a tremendous vogue this summer, are particularly charming with morning dresses of dimity or lawn.

The morning frock illustrated is of peach pink silk chambray and has a short tunic overskirt above a scantily pleated skirt. A bold eket pattern in white embroidery makes an effective trimming in combination with round, white crochet buttons.

Carry the Bathing Suit in a Rubber Case.

There are so many new and attractive bathing suit models this season that the subject demands a page all to itself; but a very pretty little suit of dotted-mohair is illustrated, and the woman who carries her bathing suit on a week-end visit dispenses with bloomers and takes along instead knitted silk tights, which occupy very little space in the suit case. The bathing togs should be carried in a water proof case, for they may have to be brought home wet or a final dip omitted.

Parasol, Gloves and Hat With the Afternoon Costumes.

The simplest linen suit will answer for afternoon wear, provided all the accessories in the way of chic hat, smart parasol and correct gloves are added. This should be taken into consideration in selecting the hat and parasol for wear on the train. In all probability there will be a country club event, yacht races or some similar entertainment where a smart driving costume will be required and for this the linen or mohair-tailored suit will be especially appropriate, unless the

day is a very sultry one, when a dressy lingerie frock will be in best taste.

The lingerie frock may be extravagantly elaborate or quite simple in design, but it must be daintily fine in material and trimming and hat and gloves must add to its dressy character. A very pretty white marquisette lingerie frock is illustrated, the trimmings being of fine quality but in simple good taste, and the material being sheer white batiste mull. This frock is worn over a featherboned slip of thin Chinese silk in rose plak, but the silk slip could be dispensed with on another occasion, making the frock do duty as two costumes.

For the afternoon costume long silk gloves should be provided, though gloves will not be required with the evening frocks in the country house. White silk gloves are to be had with lovely white embroideries on wrists and hands, and these embroidered gloves come in various delicate color effects to match summery costumes.

The Evening Costume May Be Elaborate or Simple.

Great latitude is allowed in the matter of dress in the country, and while some women will appear at dinner in the simplest frocks of thin mull and batiste, others will be decked out in décollete gowns and chiffon and satin. The summery type of gown is, however, much the prettiest for country house wear, and these frocks are usually cut short enough to serve as dancing frocks during the evening. Young girls almost invariably wear these short frocks of lingerie type, while the older women who purpose to spend the evening hours at the bridge table appear at dinner in trailing dinner gowns of a more sumptuous nature.

The lingerie frock for evening wear will, of course, be cut out at the neck in Dutch or V shape and will have a rather shorter sleeve than the costume for afternoon use. Lovely evening lingerie frocks are of pintucked silk muslin with insertions of Irish and cluny lace intermingled with the finest vals. These cobwebby frocks can scarcely be too diaphanous and some women, knowing the becoming-

ness of the lingerie dresses, own a dozen or more, keeping part of the supply always at the cleaners.

Net insertions are also used this year instead of lace, and some French-built lingerie dresses for evening wear are so honeycombed with insertions and motifs of coarse net that there

seems no substance to the dress whatever.

There is a fancy for airy black frocks this summer, and the black swisses with trimmings of chantilly lace are especially charming. These black swisses, like all the summer frocks, are kept soft and limp as to the skirt lines and the material is held trimly in place with shirrings overcoats.

Some sort of light wrap should be tucked into the suit case, for there will be much wandering on piazzas and terraces after dark and a gauzy scarf or light silk cape will be a necessity. Lace scarfs are now used as dancing and piazza wraps by women of all ages, and the floating lace scarf which may be wrapped around the shoulders, draped over the arm or allowed to trail gracefully from the fingers, is a most attractive dress adjunct now.

WEATHER FORECAST.

For Wichita Falls and Vicinity. Tonight and Sunday, fair.

Tomorrow is Sunday; go to church. Straw votes, like straw men, do not amount to much.

Mr. Emerson, president of the U. S. Packing Co., is authority for the statement that the deal for the Wichita Falls packing house has been closed.

Colquitt has promised, if elected governor, to swat that infernal fire insurance trust, and if he keeps his word, which no one who knows him will doubt, even some of those who will be forced to vote against him on the prohibition issue will have cause to do a little shouting.

The county campaign is beginning to warm up some. There are two candidates for county judge, two for county attorney, four for sheriff and tax collector, and two for county assessor. The candidates for county and district clerk, treasurer and county school superintendent have no opposition. Those who have opposition have from now until July 23 to round up the votes, and they are getting busy.

Now that the deal has been closed for the packing house, the next thing in order is to build three or four hundred houses for the employees to live in.

Features in Fireworks.

Martin's Fireworks will put on some very fine features during their engagement at the lake, among which may be mentioned the following. Monster star, emblem of Texas; immense fan, Aladin's fabled jeweled tree, Maltese cross, Mosiac design, mystic wheel, wheels on wheels. These pieces will be about thirty feet high when in action. You will see Happy Hooligan, performing on the horizontal bar; kicking mule Maud, the climbing monkey, all in fireworks, and also two of the most dazzling creations of the pyrotechnic art—Niagara Falls and the Star of Bethlehem.

The program will be changed each night with selections of several pieces from the above list and others. There will be given all the elaborate effects in enormous rockets, mines, batteries, fountains, shells and startling novelties. There will be all the noise and action of battle and a torrent of seething, sibilant flame, making a veritable fiery furnace of the most dazzling brilliancy and majestic splendor conceivable by man. At lake ball park four nights, commencing Thursday, June 16th.

Skat Players Invade Detroit.

Detroit, Mich., June 11.—A card party with over 5,000 players at the tables is to be one of the big features of the twelfth annual congress of the North American Skat League, which will hold forth here during the next two days. Over 500 devotees of the great German game are here from Chicago, alone, and Milwaukee, New York, Buffalo, Cleveland, Kansas City, Indianapolis and numerous other cities of the country are represented by large delegations.

The contests are to be played at the Wayne Pavilion, where a reception for the visitors was held this morning, followed by the draw for seats. Late this afternoon the league holds its annual business meeting for the election of officers and the choice of a meeting place for the congress of 1911. Minneapolis, Kansas City and Pittsburg are applicants for the next congress. The tournament proper begins this evening and will continue over Sunday and Monday.

NEWS FORECAST FOR THE COMING WEEK.

Washington, D. C., June 11.—The arrival home of former President Roosevelt will rivet the eyes of the nation on New York City next Saturday. The celebration is expected to eclipse all demonstrations of its kind since the memorable return of Admiral Dewey after the victory of Manila Bay. The metropolis will be filled with thousands of visitors who are going to the metropolis to join in the general acclaim in honor of the ex-President after his absence of fifteen months.

President Taft will not be able to attend the welcome of Mr. Roosevelt, for, on the day of the home-coming celebration, the president will be at Villa Nova, Pa., receiving the degree of doctor of jurisprudence from St. Thomas' College, the noted Catholic institution at that place.

The one hundred and thirty-third anniversary of the adoption of the Stars and Stripes as the flag of the United States, known as Flag Day, is to be celebrated Tuesday throughout the United States. Governors of many of the states have by proclamation ordered that flags be displayed on all public buildings. The day will also be observed with special exercises in the schools throughout the country.

The chief political news of the week will be furnished by the democratic state conventions in Pennsylvania and Maine, the former meeting in Allentown, and the latter at Augusta.

The two hundred and thirty-seventh anniversary of the exploration of the Mississippi River by Pere Marquette is to be celebrated at Prairie du Chien, Wis. By the dedication of a magnificent new building erected for St. Mary's Academy and the unveiling of a base for a statue of Marquette, soon to be placed in the academy grounds.

The Glidden tour will absorb the attention of automobile enthusiasts, while the interest of all followers of aeronautics will be centered in like manner on Indianapolis, where the first big aviation meet under the Wright license is to be held.

Big and little colleges and universities throughout the country will hold their commencement exercises. The commencement at the University of Chicago will be given additional note by the laying of the corner stone of the great library building which is being erected as a memorial to the university's first president, William Rainey Harper.

Both the United States and Canada will be well represented by delegates at the great World's Missionary Conference, which is to assemble in Edinburgh Tuesday for a session of ten days.

**TIMELY SUCCOR.**

From Norman E. Mack's National Monthly.

An itinerant Methodist minister in the Tennessee mountains was beloved by his people, and they decided to make him a gift of money. The deacons collecting reported on the Saturday before the Sunday on which the gift was to be presented that they had \$50 for the pastor, a munificent sum in that poor community. They were congratulating each other when up came another deacon and announced that the preacher's wife had presented him with a fine baby boy. They were all rejoiced, and one of the deacons wagered that the minister would speak of the baby first in his sermon the next day. There was an immediate division in the forces, one faction maintaining that he would speak of the great gift first, and the other that it would be the boy.

The controversy took the form of a wager and they lined up the next morning on the front seats waiting anxiously for the minister to speak. The preacher came out upon the platform and at once began to pray, saying: "O Lord, we thank Thee for this timely succor."

It was decided that it was a draw bet.

**Auld Brig of Ayr Restored.**

Glasgow, June 10.—The restored Auld Brig of Ayr, which was made immortal by Robert Burns in his famous poem of "Tam O'Shanter," was formally opened today with interesting ceremonies. The Earl of Rosebery was the principal speaker. The event was attended by representatives of historical and literary societies throughout Scotland.

It is already evident that the gathering will be one of the largest and most notable of its kind ever held. The attendance will include eminent Presbyterian divines, missionaries, educators and laymen from many parts of the world. Both the United States and Canada will be well represented, the Canadian delegation alone numbering twenty-five members.

**The Wise Elephant.**

The elephant is unique among the beasts of great bulk, in the fact that his growth in size has been accompanied by growth in brain power. With other beasts growth in bulk of body has not been accompanied by similar growth of mind. Indeed, sometimes there seems to have been mental retrogression. The rhinoceros, in several different forms, is found in the same regions as the elephant, and in one of its forms it is, in point of size, second only to the elephant among terrestrial animals. Seemingly, the ancestors of the two creatures, in that period, separated from us by uncounted hundreds of thousands of years, which we may conveniently designate as late miocene or early pliocene, were substantially equal in brain development. But in one case increase in bulk seems to have induced lethargy and atrophy of brain power, while in the other case brain and body have both grown. At any rate, the elephant is now one of the wisest and the rhinoceros one of the stupidest of big mammals. In consequence the elephant outlasts the rhino, although he is the largest, carries infinitely more valuable spoils, and is far more eagerly and persistently hunted. Both animals wandered freely over the open country of East Africa thirty years ago. But the elephant learns by experience infinitely more readily than the rhinoceros. The former no longer lies in the open plains, and now even crosses them if possible at night. But those rhinoceros which formerly dwelt in the plains for the most part continue to dwell there until killed out. Not the most foolish elephant would under similar conditions behave as the rhinos that we studied and hunted by Killmakiu and in the Stolk behaved. No elephant, in regions which have been hunted, would habitually spend its days lying or standing in the open plain; nor would it, in such places, repeatedly, and in fact uniformly, permit men to walk boldly up to it without heeding them until in its immediate neighborhood.—From "African Game Trails," by Theodore Roosevelt, in the June Scribner.

**A Home for "Broken Rails."**

A doctor, who had formerly been a member of the Brotherhood of Railway Trainmen, found one of his old railway comrades in the Cook county (Ill.) poorhouse. He resented the stigma cast upon the brotherhood by having one of its members in a public poorhouse. This was in 1890. He appealed to the several railway brotherhoods and after twenty years of effort the Home for the Aged and Disabled Railroad Employees at Highland Park, Ill., near Chicago, is the result and the most recent evidence of the self-sacrifice for their disabled members. Such is a brief summary of a story told by Graham Taylor in the Survey of the creation of a home for "broken rails," as with him, laughterless, humor they call themselves. Upon most of them the shadows of a broken life, of days cut short or lingering too long, of separation from family, the awful quiet after the rush and roar of their work-a-day life, and of disappointed hopes, deeply overcast the blue in their eyes and the sunshine of their smile. For this injury to the spirit and this loss of life while living this world has no 'compensation.'

**"THE VANPIRE."**

(With kind regards to Rudyard Kipling.)

A fool there was and he said his say,  
Even as you and I.  
To a Klem or a Kane or a flank O'Day,  
Or any other old judge of the play,  
And he said it all in a nasty way,  
Even as you and I.

Oh, the howls we waste and the growls  
we waste—  
And the hit that inspired the howl  
Belongs to the ump who called it  
wrong.  
Oh, yes, I know that he called it wrong,  
For he said the ball was foul.

A fool there was and he got the can,  
Even as you and I.  
"You're out of the game," said the umpire man,  
And amid the jeers of each hostile fan,  
Down to the club house the fool he ran,  
Even as you and I.

But it isn't the shame of quitting the game  
That makes it so hard to bear.  
It's the thought of the hit that you'll  
never get—  
The thought of the hit that you would  
have got.  
If the umpire had called it fair.

**The Black Flag.**

The Hollingsworth Twins Co. will present "The Black Flag" tonight at the tent theatre. This is one of the best and most popular melo-dramas bill with most of the stock companies for the past ten years.

"St. Elmo" attracted another big house last night and agreeably surprised the large audience, as it was a production of this popular play that was worth much more than the admission price, and was as clever a tent production as has ever been given here.

The Franklin is playing at popular prices of 10 and 25 cents.

To Whom It May Concern:—

I wish to state that Moore, Jackson & Perkins, who wrote my insurance policy with the Commonwealth Insurance Company, have promptly paid my claim, and it was entirely due to Mr. Jackson that my policy was in force, since I had requested that it be cancelled some time ago. I thank these gentlemen for their fair treatment, accompanied by an early settlement.

**Dear Bill:-**

Get wise to that fussy pill plant on 8th street; those temperance toddy tossers were mixing summer joy juice way back when Methuselah was too young to vote, and say, don't try to stand them up by asking for any fancy foam, unless you want it, for they have all the information that goes with the job—none of that refined Hungarian fuss coming, but music by the cash register from six-thirty a. m., till street lights get peevish from working overtime. With best wishes, I am,  
 Yours when you come after me,  
 JASPER.
