#### Napoleon and His Wonderful Family Will Soon Be Here.

Men, women and children alike testified to the comedy appeal and immense success last season of "The Newlyweds and Their Baby," the big musical show that will be seen here for the first time for two performances Saturday matinee and night. The stage version of George McManus' famous cartoons makes a hit well worthy of the newspaper success already scored by the Newlyweds the most popular of all cartoon or creations.  
Diminutive Earl Knapp, the midget comedian who plays the diverting role of little Napoleon Newlywed, and also that of Major Knott Much, who is substituted for little Napoleon at a certain critical moment in the

play's story, is the leader in assuring success for the "Newlyweds and Their Baby." He so completely realized the renowned and beloved Napoleon to the eye that it is as if this entertaining infant had literally crawled out from his pages of the comic supplements and made his way to the stage in his own proper person, there to live in the flesh the joyous life with which newspaper readers are already familiar through many hours of wholesome laughter. Midget Knapp is an excellent comedian, not only giving to the stage its funniest baby in the person of little Napoleon Newlywed, but also making a side-splitting figure of the troublesome and maliciously mischievous Major Knott Much, the side-show prodigy who makes hopeless love to a well-grown woman from the top of a ladder braced against her own shoulder, and who does his utmost to bewilder the dotting Mr. and Mrs. Newlywed during their frantic search for the missing Napoleon.

The sure proof of the likeness of little Napoleon as played by the clever little Knapp is that he sets women and children wild with delight. Woman or a child would instantly present a stage Newlywed baby not faithful to the original cartoon presentation. George McManus has sounded the keynote of laughter compelling babyhood, and his conception of little Napoleon has been so deeply etched into the popular mind that a ridge counterfeit needs be the breathing double of the newspaper Napoleon to escape condemnation as a disappointing duplicate.

From the moment of his first entrance, crawling on his knees, backward with his little skirts all awry, just as in the McManus pictures, his pink legs showing bewitchingly under the curtain from behind which he emerges into view, the Napoleon Newlywed of Midget Knapp is the Napoleon Newlywed of cartoonist McManus. This instantaneous truth becomes undeniable to the tune of a vast shout of laughter from the audience when, suddenly, little Napoleon turns his familiar visage to the footlights and costantly crows "Da-da-da-da!" in precisely the baby tones that you'd expect from the McManus kid.

#### "Paid in Full."

"Paid in Full," the United Play Company's new production, will be seen at the Wichita Theatre, Wednesday, Feb. 3. Actor Davies, the well known writer, says of the play:

"After all, if the play is really the thing then there's a new 'thing' in town. It's called 'Paid in Full' by Eugene Walter; it has taken anchor at the Astor Theatre and there it is going to remain for an indefinite period. 'Paid in Full' scored an immense success last night—one of the sensational successes of the season. Its boldness, its simplicity and its originality in handling a subject that at last was a young American playwright brave enough to dramatize a Harlem flat and its occupants; he had his theme taken right out of every day life on the upper west side and played his dramatic cards so well that he held his bliss first night audience in hand and not only interested them intensely, but gave them in one act both a great surprise and a real thrill. Young Mr. Walter arrived last night and the management, the Wagenfels and Kemper Company, is to be congratulated upon the 'Paid in Full' to its great success. 'Paid in Full' can speak for itself, and more than that, it is one of those plays which pays its audience with full measure."

#### At the Ruby.

The Ruby attraction last night and for the remainder of the week is one of the best yet offered by Manager Smith. Burton & Sae render a splendid sketch in "A Country Boy's Luck," while Dalroy & Lee have a pleasing playlet, "A Newboy's Parting." Both attractions were well received last night by a large audience.

A new program and new pictures will be presented tonight.

#### The Gem Pictures.

A variety of subjects were embodied in the picture program at the popular Gem Theatre last night, and the feature number was enjoyed by the many who attended. The pictures shown included "Incidents," "Little Frogsman," "A Cold Storage Business," and "My Friend the Doctor." A new program including an illustrated song by Mr. Gilman will be presented today and tonight.

National Corn Day Celebrated, Columbus, O., Feb. 3.—This was "National Corn Day" on the calendar of the National Corn Exposition and it was made notable by an attractive program of exercises. Speakers from all the leading corn-growing states were heard this afternoon, while at the great corn banquet closing the celebration tonight the speakers include Secretary of Agriculture Wilson, Senator Clark of Minnesota, Senator Burton of Ohio and other men of national reputation.

Rohatch's Mineral Well.  
This is to certify that I have been drinking Rohatch's Mineral water for months. I have suffered with stomach trouble for about eight years, indigestion causing severe pains to shoot through the lungs, which continued to get worse. I had been sick all summer and was a walking drug store. The last severe attack I had my husband called to Dr. W. H. Walker, and he prescribed Rohatch's Mineral water as the best remedy he knew of. I had very little faith in it, but was determined to give it a fair trial. Before I had used one case I knew it was helping me. I have taken less strong medicine since I have used this water than I have taken in fifteen years. It has been of great benefit to our son. I heartily recommend this water to those who suffer with stomach or liver trouble.

Respectfully,  
MRS. J. W. WILSON,  
705 Travis St., Wichita Falls, Tex.

# WHITE GOODS SALE

OF UNUSUAL INTEREST

**Sale Opens Saturday Morning Feb. 4th**  
**Closes Saturday Night February 11th**

**We Never Inaugerated A White Sale**

More fully prepared to fill the wants of everyone. Not only have we bought in larger quantities than ever before but we have bought at the very lowest prices, picking up lots from importers' remainders of stocks, practically complete assortments from manufacturers' countermanded orders, and getting price concessions by the taking of large lines for spot cash. All these advantages are given to buyers in this WHITE SALE, beginning Saturday morning on the opening of the store.

**There Are Two Ways of Making Undermuslin Bargains**

One of them is by skimping the materials, "shortening" the sizes, sturring the workmanship. Such practices are unworthy the avocation of merchandising as conceived and carried out by Pennington's. There is no sordidness here. We do not measure success by money made. We'd rather have your good opinion, we prefer to build for permanence—the years to come. We want you here for the next undermuslin sale—and this one is an earnest for that. Our bargains are encompassed another way. We first see that the garments are right and then we buy in quantities. Next, in February we skim our profits, depending upon volume of business for net returns in money. The plans works like a charm—therefore the economies presented by the Pennington sale of undermuslins are intrinsic and genuine.

**The Money you save is safely saved**

We are specially proud of our showing of ready-to-wear undergarments for women, but we also wish to impress upon buyers, the excellence of the offerings in Linen Piece Goods, Table Linen and Napkins, Towels, Domestic, Sheeting, Cam bric, Counterpanes, Ladies ready-to-wear, Waists, Lace and Embroidery and etc. These are bargains in truth, such as were never before seen in Wichita Falls.

## THE ELECTRA OIL FIELD.

It grows amusing sometimes to see the measures taken by some of the Texas people to boost their particular communities. As an example of this, there appeared in the papers of Wichita Falls this week a long communication in reference to the Electra Oil and Gas Fields, stating that the wells at that place show Wichita County to be one of the richest in the State in the popular lubricant. Now, the Record is compelled to admit that Wichita Falls is probably the fastest growing and most enterprising town in the entire State of Texas, and that she is very rich when it comes to agricultural possibilities, but we do not propose to allow the glory of the Electra oil field to be taken from Wilbarger County, and given to one in which the wells are not located.

The fact of the matter is that of the 42 or 45 wells that have been put down by the Texas Company only one is in Wichita County, all the rest being well over the line in old Wilbarger county, that has made the record as the home of natural resources. The writer was in Electra last week and were told by a number of Electra-people that this was the case, and as the wells now being drilled are all going to the north, it is likely that all that will hereafter be brought in by that company will be located in Wilbarger County.

We admit that the Electra field, from what we can gather, promises to be one of the "best" in the State, but we believe the Wichita papers should certainly be fair enough to give honor to whom honor is due. We notice the Times has a large circulation in Vernon, and these will all naturally expect the proper correction to be made.—Vernon Record.

## MR. WILLIAMS IN ERROR.

Commissioner Williams informed the Interstate Commerce Commission that the Katy of Texas is forced to buy the east of rolling stock of the Katy of Kansas at any price the Katy of Kansas is disposed to ask. The Herald respectfully requests Railroad Commissioner Williams to take a day off and perch himself in a tree somewhere near the Katy right-of-way and watch the trains go by, thereby getting first-hand information on this subject. We think he will see finer engines on the Katy of Texas than he ever saw on the Texas Central; that he will see finer passenger coaches than he ever saw on the Texas Central; that he will see hand-

somer cabooses and freight cars than he ever saw on the Texas Central. Then, if he will take a ride over both roads, he will find the Katy roadbed in better shape than the roadbed of the Texas Central. We use the Texas Central for comparison because Mr. Williams recently gave out a statement in which he excused his opposition to the Katy's taking over the Texas Central would be treated as the Katy of Texas is treated. We believe if Mr. Williams will do as suggested he will be ready to eat the remarks he made at Chicago. We haven't any objection to his taking a look at the million-dollar improvements made by the Katy of Texas in Denison either. —Denison Herald.

What the Herald says in regard to rolling stock and engines on the "Katy" in Texas is meant to apply to what is termed the main line. The editor of the Herald should take a trip over the Katy from his town to Wichita Falls, and make a few observations as to condition of road-bed, coaches and engines. He will then be convinced that there is more to what Railroad Commissioner Williams remarked at Chicago regarding equipments and condition of road bed than he seems disposed to give credit. The "Katy" should be treated fairly and just by the State, but that does not necessarily mean that the road shall not be expected to furnish its patrons first-class service. The roads from here to Denison and Dallas are well patronized by the thriving cities and towns through which it passes, and many of the towns have but the one road to patronize and have no immediate prospect of securing another railroad. Therefore the only protection the people of these one-railroad towns have is the State of Texas. They pay for first-class railroad service and are by no means getting what they pay for.

## THOSE SUITS AGAINST THE RAILROADS.

The Texas Commercial Secretaries Association says:

The scare headlines which have been running in the press of the State announcing that the railroads are being sued by the State of Texas for running late trains and various other causes may, as a spectacular event, have in it all the colors of the rainbow, but as a business proposition, it is as unwise as a farmer plowing up his cotton crop because the plants don't grow according to his dictation. "Theoretical" railroading is worse than book farming and the State can very easily plow up a few railroads in learning the business. Our Railroad Commission, like our agricultural department, is a great institution and of great service to the State, but it is equally as incumbent upon it, that it encourage railroad development as it is that our agricultural department encourage farming. How long would our agricultural department last if the Commissioner of Agriculture used his appropriations in filing law suits against farmers.

"But we are making progress and these twisters are merely the tail end of a cyclone which has been raging in Texas for some time but is passing on to other States, leaving the Texas atmosphere as pure and inviting as the morning of creation."

The Chronicle has received a copy of the Textile Manufacturers' Journal, being a special annual review number, and has read with keen enjoyment an article by Hugh F. McElroy, of the New York Cotton Exchange, entitled "Cotton and Phases of Its Relation to Manufacturers." The article is quite interesting and is handled in a convincing manner.—Houston Chronicle.

The Alabama supreme court in a recent decision holds that a man can have a flask of whiskey in his pocket and not violate any local option law in that state. That's a most inconvenient way of taking liquor, and it ought not to be necessary in a civilized country.—Gundalup Gazette.

**Safety Devices for Hatpins.**  
New York, Feb. 3.—Woman has at last awakened to the dangers of the deadly hatpin. At any rate she has manifested a disposition to accept a less dangerous substitute, providing it answers her purpose equally well and—most important of all—does not mar the beauty of her headgear. As a result of the public agitation which has been going on for some time the City Federation of Women's Clubs made special provision for an exhibition of safety hatpin devices at its convention held today at the Hotel Astor. Several ingenious inventions were shown, ranging from tips of various kinds to be placed on the ordinary hatpins to complicated devices resembling wire cages. All were examined with critical interest by the club women present. And judging from their comments the present style of hatpins of a foot or more in length is not likely to be abolished very soon.

### CASUAL LABORERS FAIL TO SHOW UP

National Convention of Hoboes at Milwaukee Wis., Fails to Materialize.

Milwaukee, Wis., Feb. 3.—Though this was the date fixed for the meeting in this city of the national convention of "hoboes," there was no outward evidence to show that any considerable number of delegates had arrived to attend the gathering. The convention was called by J. Edas How, the so-called "millionaire tramp," who is president of the Bight Hood Welfare Association. The announced purpose of the convention was to discuss the momentous problem, "Does it Pay to Work?"

Plans for the convention have been going forward for some time and considerable disappointment was expressed over the failure of the delegates to show up. Various reasons for the lack of attendance were advanced. It was generally agreed that President How made a mistake in calling the convention for this time of year. It is a well known fact that the "casual laborers," with which official appellations they have been dignified by the American Federation of Labor strike fast to the large cities during the winter months. Then, again, the call for the gathering was not issued far enough ahead of time. With walking practically impossible and freight trains stalled in the snow it is hardly to be expected that the delegates from distant parts of the country would arrive in the convention city on time.

The reason Milwaukee was chosen for the convention city was because of "hoboes" believed socialist Mayor Seidel would prove more sympathetic than the mayor of Kansas City, where the last convention was held. He placed the delegates in the "undesirable citizen" class, and opened the police stations for their reception instead of the hotels.

### THIS IS MY 48TH BIRTHDAY.

James White, secretary of the Conservation Commission of Canada, was born in Ingersoll, Ont., Feb. 3, 1862, and graduated from the Royal Military College at Kingston when twenty years of age. Soon after leaving college he joined the staff of the Geological Survey of Canada and made surveys on the Rocky Mountains in 1884 and 1885. Later he was engaged in making surveys in the various mining regions of Canada. From 1884 to 1889 he was geographer and chief draughtsman to the Geological Survey. In 1893 he was sent to London with the Alaska Boundary Commission, and a few years later he made important investigations respecting fast trans-Atlantic steamship service for Canada. On the formation of the Commission of Conservation in 1909 Mr. White became its secretary and since that time he has been one of the leaders in the movement looking to the conservation of the natural resources of the Dominion.

### L. C. SMITH & BROS. Typewriters

ALL THE WRITING ALWAYS IN SIGHT

(The biggest order ever placed by any firm or corporation for typewriters for their own use) because their own mechanical experts, sitting as a jury, said it was unquestionably the best.

They examined all competing makes, tested them under every condition of stress and strain, and voted unanimously in favor of the L. C. Smith & Bros. The DuPonts thus rendered you an invaluable service. Lacking mechanical experts of your own you can safely rely upon the decision of these five engineers, at the height of their calling, who were willing to stake their professional reputation on the L. C. Smith & Bros. Typewriter.

on the way working for a few weeks at a time on different newspapers. After a few months he made his way to New York. He arrived there with but a few cents in his pockets, no other clothes except those he wore, but eager and ambitious to become a great journalist.

It would be difficult to overestimate the influence which was wielded by the pen of Horace Greeley. He had courage and he had an honest conscience and these were backed by a mastery of incisive clear English.

FIRST NATIONAL BANK.

In order to get you to try "Red Ball" oranges and "Red Ball" lemons and thus learn their excellent quality, we will send you free the beautiful Rogers Orange Spoon here pictured on receipt of 12 "Red Ball" wrappers and 12c to cover charges, packing, etc.

"Red Ball" Oranges—Choicest Fruit
"Red Ball" oranges are California's firm and solid. All are hand-picked. No own delicious fruit—the inspected, bruised or over-ripe oranges.

Buy "Red Ball" Lemons which are of the same high quality as "Red Ball" oranges—solid and sound. "Red Ball" lemons are so juicy that two of them go further than three of the ordinary kind.

Save the Wrappers and secure a complete set of beautiful, useful orange spoons. In returning, please send one-cent stamps when the amount is less than 25c; on amounts above 25c, we prefer money order, express order or bank draft.

Mr. Fairchild reports that ground was broken there this week for the new school building which when completed and equipped will cost \$16,000 or more.

LOCAL NEWS BREVITIES

The front of the Congress Barber Shop is being treated to a fresh coat of paint. Leo, the twenty-month old son of Mr. and Mrs. Burk Williams, who lives on the north side of the river, died Wednesday night and the remains were interred in Riverside cemetery yesterday afternoon. F. L. Rhodes and wife with a party of friends enjoyed a delightful quiet supper at the St. James hotel last evening, at which the birds secured the final day of the season were served and enjoyed more so when it was remembered that the feast was to be the last of the kind for several months to come. To raise money to buy apparatus for outdoor games and physical exercise for the school children, the Mothers' Club of the Stephen F. Austin school will serve tea tomorrow afternoon at the home of Mrs. Frank Kell between the hours of 3:30 and 5:30 o'clock. Fifteen cents will be charged. All members of the Mothers' Club and others are invited to attend. Judge T. A. Donnell, one of the pioneer citizens of Seymour died yesterday as the result of a stroke of paralysis. He was the father of Mrs. Dickson, wife of Judge J. A. P. Dickson, who was called from the district bench here last Monday on account of Judge Donnell's illness.

LATE NOTES FROM THE LABOR WORLD

Spokane, Wash., ten owners recently formed a union. A co-operative store has been formed by the unions of Waterloo, Ia. About 85 per cent of the building trades at Fort Worth, ex., are unionized. The coal miners of Nova Scotia in 1909 gave employment to 12,082 persons. Efforts are being made to organize the Italian freight handlers at Portland, Me. A metal trades council has been organized at Quincy, Mass., with thirteen unions affiliated. Madras, Visalia, Exeter, Hanford and Fresno, Calif., are building up strong labor union organizations. Spanish coal mines steadily employ more than 1100 workmen in labor that has to be done above ground. A child labor law will be one of the measures which the labor unions will urge the Tennessee legislature to pass. San Mateo, Calif., Building Trades Council has settled its differences with the contractors after months of dispute. Action to organize the workers in dyeing establishments probably will be taken shortly by the Trades' Hall Council at Sidney, Australia. The National Association of Pharmacologists has taken up the matter

of establishing shorter hours for drug clerks and proposes to do it by legislation. The American Federation of Labor has instructed labor in various states to exert influence to secure legislation forbidding the alleged use by police authorities of the "third degree" to secure confession from prisoners. A strike of the clerks in twenty east side (New York City) banks, according to the organizers of the newly formed East Side Bank Clerks' Union, is threatened if demands to be made in their behalf for higher wages and shorter work day are not granted. The last report of the Amalgamated Society of Engineers, of Great Britain, states that the membership is now 110,847, as compared with 109,281 in October. The general fund now stands at \$899,850, as compared with \$967,220 at the end of June, the superannuation reserve fund also showing a marked increase.

CATARH GOES.

So Does Sore Throat, Bronchitis, Croup and Asthma. You can easily tell by reading the symptoms below, whether you have catarrh or not: Offensive breath, frequent sneezing, discharge from the nose, stoppage of the nose, huskiness of the voice, tickling in throat, droppings in the throat, a cough, pain in the chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucus, difficulty in breathing, loss of vital force. O. F. Marchman has a sensible remedy (money back if it fails) for catarrh, called HYOMEI (pronounced High-o-mei) which is a vaporized air, so antiseptic that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life, gives relief in two minutes and cures catarrh. The price, including hard rubber pocket inhaler, is only \$1.00. The inhaler will last a lifetime so that should you need a second bottle of HYOMEI, you can get it for 50 cents.

SUPERIOR VALENTINES

You will always appreciate an expression of good will from your friends, or a pretty bit of sentiment, and they appreciate it from you the same way. It's one of the things that makes life worth living, and even a simple reminder now means more than all the flowers you can send or the tributes you can pay after they are gone. The custom of remembering your friends on St. Valentine's Day is growing more popular each year. This season we have carefully selected an elaborate stock of valentines at a wide range of prices and if you will only inspect them you will participate in observing the occasion.

ONE TIME

There was a child of simplicity, of the masculine gender whose honest forehead, closely resembled a place to slide down hill, and whose address was bald-head row any time a Ten-Twent-Third aggregation of theatrical cut ups blew into town, he always soaked up all tragic or melodramatic brain handed out by millions of the peroxide locks and Ferdinand Helligton, the hero, and believed everything he saw in the Sunday papers. He worried along and was careful not to let the earth get wobbly until he got his tender affection all snarled up with a wassy waist-ed Netty who was doing a flick and scream act in refined V-A-U-D-E-V-I-L-L-E, but somehow Net noted that he had Y-A-P stenciled all over him in letters a foot long, and when he made his proposition on his knees he got the can after which he ducked for a drug store and asked for that old reliable suicide requisite, carbolic acid, and a bungling pestler of pills handed him alongside and the self-destructive stunt was not a very brilliant affair. Motto: Buy your earthly "Get away goods" where you get what you ask for. We never substitute. That Fussy Pill Plant at the corner of Eighth & Wall Streets, is where.
