BUILDING WAS LAND MARK AND FIRST STRUCTURE ERECT-ED IN LAWTON.

Spemial to the Times. Lawton, Okia., March 22.-The old Land Office Building, the site of the first wooden structure on the townsite of Lawton, built nine years ago, and the last of the many old land marks of the early days of Lawton, which have really become eyesores, is being removed to make room for a fine three-story brick hotel building. Worknen, removed the building yesterday t will be taken to E avenue, where it will be repaired and put in shape for some kind of a store house.

F. M. English owns the building, having rented it to the government all of the time the land office was situated there in, and later to Sid's restaurant.

At the opening of the country, Major H. D. McKnight was Register of the office and continued in that capacity until he died, when he was succeeded in office by the present Regis ter G. B. He was absent for a short time at Woodward,

Okla., and at Springfield, Mo. Receivers McGuire and Maxwell have handled more than five million dollars of government money since the opening of the office and much of the history of Lawton is closely woy en about the old land office now being taken from off the site to make room for a strictly modern structure.

When the building was erected, Mr English had a contract with Ringer Herman, then Commissioner of the General Land office for a rental of \$50.00 per month for a period of years The tumber in the building was dray ed to Lawton from Marlow, there be ture is fixed in such a way that his ing no railway here at that time. er the rental was reduced to \$35.00

ENTER THIS CONTEST AT ONCE---"DO IT NOW"

Opportunity Knocks But Once at Each Man's Door - Do Not Prove Heedless to Her Call

Someone will Get \$500.00 for Six Weeks Work-Are You Going to Be That One?

Nothing could be more applicable to the nomination question than that trite saying: "Do it Now." This expresses in a few words what we want to impress upon your mind the necessity of taking immediate advantage of the liberal offer held out to you.

There is nothing more appreciated by a person in this world of

ours than something they have acquired through their own efforts. What you have gained yourself has a value in your eyes that no mere gift can ever attain.

The small effort you put forth in going after one of our prizes

is nothing when compared with the reward in sight for you, and you will surely appreciate this if you stop to think what \$596 in Gold implies. In addition to this, the experience to be gained in a contest of this high character will prove of value to a contestant in whatever walk of life he or she may be. you are still deliberating over the question of entering, stop

in at THE TIMES office and see the Contest Manager and talk over your case with him. He will no doubt be able to suggest to you a way that will help you to win.
Opportunity beckens to you. Do not let her nod go unheeded.

Enter now as time is valuable and much can be done during the hours that you are considering.

If you have not already sent in your name or that of the friend you would like to see win; do so at once. Then stop at the office and secure all the information you need about the contest, its conditions and other details. If you prefer we will have a lady or gentleman call on you with this data.

At the present writing we have more prizes than workers in the contest. You will regret this when too late, as the larger the number of workers the less each one will have to do in order to The division of votes, where many are contesting, leaves but little effort for each one to put forth. This should be borne in mind by those who hear so and so have entered. After you have entered make the fact known to your friends

and acquaintances, and ask their help in winning the Grand Prize. Impress it upon them that you do not expect to lose, but need their help in order to win. Have them save the daily coupon that appears in each issue of the paper, These are each small in themselves but many of them mean a whole lot. Then go after the subscriptions. All these, new or old, arrears or advance, have the same vote value, and are the principal things

that will land you in the front. If a person has already paid his or her subscription, have them subscribe for another period to commence when the former one terminates. This helps you and causes no loss to the subscriber. Go after the votes as though you meant to win. Communicate

your never-say-die spirit to all those with whom you come in contact * and impress them with your spirit of determination. Be persevering, energetic and pleasing. Never let the demon, discouragement, get hold of you. It is only by these means that you can hope to ac complish anything in this contest or in anything you undertake. Make up your mind today that you are going to win that \$500

in Gold and stick to it until the finish. It is surely worth the small amount of effort and will be of lasting benefit to you. Familiarze yourself with the vote schedule and learn the value of each subscription. Then go after them with your whole soul

FOR A SMALL EFFORT.

Contestants should remember these facts. In each of the three lutely free one one \$25.00 award, one \$10,00 award and one \$5.00 award. Then there are the two Grand Awards, \$500.00 and \$250.00, respectively. All that is necessary to win is to receive the largest number of votes, according to the conditions in THE TIMES.

GET FULL INFORMATION.

If there is one single point in connection with this contest that you do not understand get in communication with the Contest Manager at once, either by phone, 167, or by mail, and have your doubtful points cleared at once. Then when you clearly understand everything lose no time in getting started

THEREASON WHY!

It has always been our policy to give our customers THE VERY BEST in everything --- As COFFEE is probably the most important article handled in the grocery trade we have given it a great deal of attention, and in order that we might supply the very best, we have taken up the roasting of coffee in connection with our grocery business.

We have installed the very best roasting machinery to be had in the world and are roasting the very finest marks of well aged coffees which by our process are perfectly cleaned and roasted in electrically turned direct flame gas roasters--The coffee coming in direct contact with the flame which has been proved to be the best method of roasting coffee---We use no water nor dope of any kind -- The best coffee, well aged, perfectly bended, cleaned and roasted and delivered FRESH--- This should get your business.
