Wichita Falls, Texas, March 30, 1911.

A MODEL BRICK PLANT.

Wichita Falls has many industries of which she is proud but none that is calculated to bring her more fame and fortune than her three splendid brick plants with a combined capacity of something like 300,000 brick per day and every since the first plant started, more than two years ago, there has been a demand for the product. In fact, the demand was so great that some difficulty was experienced in meeting it.

The last of the three industries of this nature to begin operations was that of the Northwestern Brick Co., located on a tract of 40 acres of ground on the north side of the river. This model plant steamed up for the first time on February 14th and since that time North Wichita has taken on new life.

The plant has a daily capacity of 100,000 brick. Since starting the machinery for brick making, four kilns of 350,000 each have been burned, and the brick are of as fine and superior quality of building brick than can be manufactured anywhere.

Mr. O. A. Kentner, the general manager of the plant in this city, together with Dr. Paul, are also the principal owners of three or four other large plants. The plant here is equipped throughout with the best and most thoroughly tested brick-making machinery and devices known, and they are thoroughly convinced that the Northwestern Brick plant not only has an abundant supply of clay for brick-making purposes, but that the quality is far superior to any with which they have ever before handled, and the plant, being equipped with the best machinery they are not only convinced that it is turning out a very superior brick, but is doing it at least one dollar per thousand less cost than some other very large and well equipped brick plants.

At the present time the plant is not being run at its full capacity, as only about 80,000 brick per day are being manufactured. This is probably due to the fact that only two of the permanent kilns have as yet been constructed. A large force of brick masons are at work now constructing these kilns and will not stop until at least six more have been built.

There are on the pay-roll about sixty men. This will be increased later on.

While the brick industry is not altogether a new one in Wichita Falls, there are many of our own citizens who have never yet visited either one of the three plants, and to such the Times will suggest, that they take a look through the plant of the Northwestern. In Mr. Kentner, the general manager, they will find a gentleman who, while he has made considerable money out of the brick manufacturing business, it has not had a bad effect on him, and he will extend to you a cordial welcome and take great pleasure in showing you through what he, at the beginning, will tell you is one of the most modern brick plants in the United States, and by the time you have made the rounds with him you will be convinced that he has not only not exaggerated or become too enthusiastic, but did not make it strong enough.

In Oregon, after years of agitation and study of the question, the final vote on the initiative and referendum was 62,025 for to 5,668 against it. Any proposition that could win by such an overwhelming majority is not to be permanently dismissed by merely holding "populism" or "socialism" at it, especially when it is the truth that the little Republic of Switzerland, which is neither socialist nor populist, originated the idea in the effort to put the mass of the people in absolute control of their own government.—Denton Record and Chronicle.

The mayoralty contest in San Antonio is a very warm affair, but here's a guess that old man Bryan Callahan will win again for the "tenth time."

It is said that more than twenty farm and garden implement dealers have formed a combination at Moline, Illinois, to raise the prices on their goods. Here's an excellent excuse for the lazy man to refuse to do any gardening this year.

Ex-Gov. Campbell has announced positively that he is not a candidate for the United States Senate or any other political office. This still leaves the field open for Randall and Bailey, and if no others butt in it will be a good one. Let the scrap proceed.

By grasping the opportunity beneath her very feet, Potter County can be made to blossom as a rose of prosperity. Let's irrigate. Now's the time to begin.—Amarillo News. It requires just such weather conditions as now to wake people up to the importance of irrigation. Dam the creeks and save the flood waters. It may not rain a sufficient amount to fill the lakes thus made, but it is a good idea to be prepared for the future. Wichita Falls solved that irrigation proposition several years ago and the lands subject to irrigation are worth and sell for at least three times that of just as fine quality but not irrigated lands are bringing.

It appears, if we may believe the government's report of the matter, that beef cattle are worth considerably more in Canada than they are in the United States. The range of value is, in the United States, from \$14.20 to \$27.40 a head, and, in Canada, from \$31 to \$34 per head. If that is so, we should think there is considerably more likelihood that the American cattle raiser will capture the Canadian market than there is that the Canadian cattle raiser will capture the American market, and that instead of complaining against this Canadian reciprocity agreement the Texas Cattle Raisers' Association ought to be clamoring for the ratification of it. The further notion intrudes itself that all the Canadian cattle that are left, after supplying the Canadian demand would not make even the proverbial drop in the bucket, if shipped to the Chicago or any other market in the country. Senator Hudspeth, who frankly declares himself to be a protectionist, wants such a duty on cattle as will equal the difference in cost of production. Does it cost more to produce a beef steer in Canada, with its short summers, than it costs in Texas with its short winters? There is very good reason to suspect that, if the cattlemen of Texas had given a little more thought to the general subject of this reciprocity agree-

ment before resolving on it, they would have denounced it at least less dogmatically. The likelihood is that, under normal conditions, the Canadian stock grower will not find the American market a very profitable one. About the most to be hoped from this

agreement is that a free access to the limited Canadian supply will operate to prevent the advance of prices to an extortionate level. Canadian cattle will be imported to this country only when, because of limited supply or other reason, the price here is excessive. That is the chief virtue of free trade, or rather revenue tariff, since, unhappily free trade is an iridescent dream—the opportunity it affords to hold in check those who would practice extortion on the consumer. The trouble with the cattlemen is that they have looked at this matter solely from the standpoint of their own exclusive interest. They want protection, but the man who takes 20 cents to the butcher shop is as much entitled to protection as they are. The pity of it is that the Canadian reciprocity agreement does not afford that man as much protection as he is entitled to.—Dallas News.

The rumors of Diaz's resignation are growing stronger and the denial weaker, which indicates that there is something to them, and the probability is that these rumors will be fully confirmed within the next two weeks. If they are the Mexican revolution will be brought to an end, which will mean that Madero and the insurgents have won a victory.

EVEN HAREM SKIRT NOT NEW.
Brought to London surreptitiously in 1909 by "The Dollar Princess."
(From the Standard, London)
Amid all the entertaining and, at times, arid discussion evoked by the attempt to force the harem skirt into popularity, ladies who regard it as the dernier cri will learn, may be with something of a shock, that it was introduced into London considerably more than a year ago. The craze was, however, so unobtrusive and so carefully hidden by gracefully draped skirts that it escaped notice. It is only during the last few weeks, owing to the conspicuous way in which, in the very latest designs, the existence of the trousers is disclosed, that public feeling has been excited.
As a matter of fact, when "The Dollar Princess" opened at Daly's in 1909 this much-discussed change in feminine attire was paraded on the stage. The ladies who wore the culottes were dressed in white, but the designs were not recognized by the audience as different from the undivided skirts of the day, and the innovation escaped notice. Further evidence of the harem skirt worn to be seen at the Gaiety Theater on Saturday, the opening day of the new play "Leggy." The costumes were designed in this case, as in that of "The Dollar Princess," by M. Comell, who has just returned from Paris, where he conspired with Mme. Zimmerman, the well known Parisian dressmaker, in whose workrooms the new skirt was made. "The harem skirt," he said, "had been tried for a caprice, by several Parisian ladies before it was introduced by M. Poiret. It is really an old fashion revived. Some of the actors who played in the time of the first Napoleon wore harem skirts in taking the role of women in one of the plays of the period."
MAGAZINES TO GO BY FREIGHT.
After July 1 Postmaster General Hitchcock will inaugurate a New Plan.
Washington, March 29.—Magazines and other bulky periodicals, after July 1, next, will be transported by the Postoffice Department in carloads free of freight. Postmaster General Hitchcock is developing as rapidly as possible plans which he decided upon last December to utilize fast freight in the transportation of magazines when practicable, and in instances where a saving to the government in transportation charges may be effected.
"The plans I have decided upon," said Mr. Hitchcock tonight, "are not proposed as a solution of the pending controversy over the suggested increase of the second class mail rates on the advertising sections of magazines, but they probably will tend to bring about a solution of that question the more easily."
The quadrangle weighing of the mails in the third contract section of the country, comprising the states of Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa and Missouri, now is in progress. By direction of the Postmaster General, given in accordance with his plans for transporting periodicals used by freight, the weights of monthly and semi-monthly periodicals mail matter originating in large publishing centers are being taken and kept separate from the weights of other mails. The publishing centers for periodicals are Boston, Springfield, Mass.; New York, Philadelphia and Chicago.

WAR DEPARTMENT
TO TRAIN AVIATORS
GOVERNMENT WILL LEND EVERY POSSIBLE AID TO YOUNG FLYERS AND INVENTORS.
SELECT SAN ANTONIO SITE
Large Aerodrome Will Be Built There and Six or Seven Machines Assembled.
By Associated Press.
New York, March 30.—An outline of the war department's plans for training aviators and making the aeroplane a practicable auxiliary, have been submitted to the Aero Club of America by Gen. James Allen of the signal corps. He says
"The department's connection with aviation dates from 1907, when the department issued specifications for aeroplanes for which there were three bidders. The money appropriated by Congress for this purpose was soon exhausted and it was not until recently that the department was able to make any real progress in the science, which came about as the result of an appropriation of \$125,000 by Congress.
"It is the desire of the government to build as many machines as possible. These machines will be selected as best suited for military work, while every effort will be made to advance aviation throughout the country with the available funds.
"An aerodrome will be established at San Antonio, where six or seven machines will shortly be assembled. Considerable difficulty has been experienced in training officers and men, but the plans of the government will change this in the near future. Aerodromes will be built on the government reservations at Fort Riley, Fort Leavenworth, West Point, Governors Island and a location near the capitol. Every person who owns an aeroplane will be invited to occupy a hangar on the government reservations and thereby assist in training the officers selected by the war department for instruction.
"The government will send officers for observation to the coming Belmont Park meets and others of importance throughout the country. About thirty officers will be detailed for aviation duty this year and this number will be increased next year. The government will promote the science by providing suitable places for experiments and lend all possible aid to young flyers and inventors which will serve to promote the cause of aviation and prove of incalculable benefit to the nation from a military and naval standpoint."

It is such men as that out of which good aldermanic material should be selected. Wichita Falls has reached that state where the greatest care should be exercised in the selection of those of her officials who will have more to do with the future prosperity than any other one body. A city council either retard the growth of the city, or it can do a wonderful amount of good-work that will cause the city to grow and prosper. Those who are
Candidate Scott to the Voters.
I am very thankful to The Times for the courtesy extended to those who are and may be candidates for Aldermen at the election to be held Tuesday, April 4, and wish to say that the city government should be strictly guarded at all times so when any law or ordinance is passed to try to do the greatest good to the greatest number of our citizens. I am a firm believer in equal rights to all and special privileges to none. I furthermore favor any honest movement that will help to make a greater, cleaner, and more beautiful Wichita Falls.
I further believe that when any ordinance is being considered that the possibilities and probabilities of same being enforced should be very thoroughly investigated as any law or ordinance is not worth anything if it is not enforced.
Thanking you again for courtesies extended.

DOBSON SAYS LIGHT PLANT "IS A GO"

Interested Man Says All Preliminary Details of Organization Have Been Arranged.

T. E. Dobson, who with M. A. Marcus, has been granted a franchise for a light and power plant, returned this morning from Dallas, where he had gone on business connected with the new enterprise. To a Times reporter Mr. Dobson stated this afternoon that all the necessary details incident to establishing the plant had now been closed and that they would proceed at once to secure material for construction purposes. To use Mr. Dobson's own words, the plant "is a go" and will be rushed to completion as fast as the material can be secured.

Discussing the matter further, Mr. Dobson stated that they would first put in the conduits, as heretofore announced, and that this work would be done prior to the completion of the paving. An order will be placed for the conduit material within the next day or two, as announced this afternoon. In the meantime other material will be ordered and this will be installed as fast as received. They expect to be able to furnish lights and power in the business section of the city within a reasonably short time.

PAGE ADVERTISEMENT IN CHICAGO PAPER

Chamber of Commerce Contracts for Space in The Record-Herald.

The Chamber of Commerce, through Secretary Day and the advertising committee of that organization today entered into a contract with a representative of the Chicago Record-Herald for a page advertisement of Wichita Falls in the issue of that publication of Sunday, April 8, at a consideration of \$500. In addition to the ad and in a subsequent issue, a write-up of the city will also be given. An attractive design for the ad was prepared by Secretary Day, the matrix of which will be sent to the Chamber of Commerce for further use if desired in connection with the advertising campaign.

The advertising committee of the Chamber of Commerce held a short session this morning, at which the question of a publicity campaign was gone over, with the conclusion that money spent in northern and eastern papers at this time, other than calling attention to general industrial conditions, would be ill-advised. It was the opinion of the committee that home-seekers and prospectors could not be attracted to a successful extent at this time of the year, that advertising with this object in view should be postponed until late summer or early fall.

A general campaign of industrial advertising for the purpose of keeping Wichita Falls prominently before the country, will be kept up, however, in connection with which a large contract was made this morning.

Another industry has been added to Texas' list of accomplishments in the Sugarland Pulp mills in Brazoria county which opened up a plant in that section last week for the purpose of manufacturing wrapping paper out of sugar cane stalks.

Sugar cane is one of the staple crops of the state and furnishes food for both man and beast, but the making of paper from the discarded stalks after the sugar making properties had been deducted, is a new industry and one which will add its pro rata to the wealth of the state.

Farming is becoming a science in Texas. It is being conducted on a business basis for the purpose of making money, not purely for scratching from the soil a bare existence. As a result the percentage of agricultural failures are becoming less and the proportion of success is taking rank with other lines of industry.

MRS. BROOK'S TRIAL SET FOR MONDAY

IT IS PROBABLE DEFENSE WILL ASK CHANGE OF VENUE FROM TARRANT COUNTY.

FIRST DEGREE MURDER

First Time in Many Years Woman Will Be Tried On Indictment of That Kind.

Fort Worth, Texas, March 30.—For the first time in many years a woman charged with murder in the first degree is to be placed on trial in this city next Monday. The defendant in the case is Mrs. T. M. Brooks, wife of a prominent attorney, and her trial, upon the charge of having shot and killed Mrs. Mary Binford, department manager of a local dry goods store, is to begin next Monday in the Sixty-Seventh District Court.

The crime with which Mrs. Brooks is charged, was committed on January 16 of this year and is believed to have been prompted by jealousy. Neither Mrs. Brooks nor her husband have shown any inclination to make a statement that would indicate the cause of the tragedy, but for some time there have been rumors strongly hinting that Mrs. Brooks did not live happily with her husband and that she believed her husband's affection had been alienated by Mrs. Binford, who was divorced about two years ago and considered a rather fascinating and handsome woman. It is expected that at the coming trial some light will be thrown upon the relations between the defendant and her husband and between the latter and the victim of the tragedy and this prospect has greatly intensified the public interest in the case.

Whatever may have been the marital complications, whether Mrs. Brooks' jealousy was well founded or based merely upon a tenuous of her own imagination, is still a mystery. At all events, however, it seemed rare enough to the defendant at the time of her desperate deed. Armed with a big, old-fashioned revolver, Mrs. Brooks, on the afternoon of January 16, made her way to the dry goods store where Mrs. Binford was employed. While she passed through the whole length of the lower floor on her way to the elevator, Mrs. Brooks met many acquaintances. Smilingly she bowed and stopped several times to chat pleasantly with her friends, not one of whom suspected for a moment the few minutes later Mrs. Brooks would be the chief actor in a tragedy.

Mrs. Brooks took the elevator to the second floor of the establishment, where Mrs. Binford was employed. As she stepped from the elevator Mrs. Brooks inquired where she could find Mrs. Binford, and as the latter approached, Mrs. Brooks without saying a single word or giving any warning, pulled her big revolver from her muff. Mrs. Binford, realizing her danger, grappled with Mrs. Brooks and tried to wrest the weapon from her. Her strength was no match, however, for that of Mrs. Brooks, and the latter quickly freed herself and forced the other woman against the wall. In the scuffle the weapon was discharged, the bullet plowing its way through Mrs. Binford's head.

With her the girl at bay, Mrs. Brooks stepped back and fired four times. The second ball struck Mrs. Binford in the left shoulder, the third one inch higher, and the fourth entered the base of the neck, shattering the spinal vertebra. Just before her victim sank to the floor, Mrs. Brooks fired again, the bullet striking Mrs. Binford behind the ear, coming out through the top of the head.

There were probably a hundred or more witnesses to the tragedy. Shoppers and clerks alike seemed to be paralyzed by hysterical fright and without hindrance Mrs. Brooks passed through the crowd and reached the office of her husband, two blocks distant. She handed the revolver to her husband and with the murmured words "I am sorry," she sank to the floor unconscious. Later she was arrested and after waiving a preliminary trial, was released under \$10,000 bail.

A Tough Legal Problem.
The largest problem legal authorities have had to solve in years has resulted from the brief imprisonment of the Sisters Blazek, who are joined like the famous Siamese twins.

A warrant for alleged breach of contract was issued for one of the sisters, who were appearing at a Berlin music hall. The court officer wasted no time in the embarrassing situation that confronted him, but took both girls to jail. A few hours later the music hall manager made the necessary deposit and secured the girl's liberty.

Now the sister against whom there is a warrant is suing for illegal imprisonment. Legal experts agree that unless the court decides that the two girls are in reality only one somebody will have to pay dearly. One sister is married and the mother of a baby 2 years old.—New York World.

Special to The Times.
Spokane, Wash., March 30.—When Marie E. Gray, of Akron, O., and J. E. Guy of Potlatch, Idaho, were married in Spokane yesterday, there came to a happy culmination a modern romance that had its origin in the advertising columns of an eastern newspaper, six months ago. The ceremony was performed by Rev. Dr. S. Willis McFadden, pastor of the First Presbyterian Church, in the parlors of a local hotel.

Guy, who is an expert machinist in the employ of the Potlatch Lumber company in northern Idaho, said that when he read the advertisement announcing that the advertiser, widowed and lonely, was tired of owing her self and wanted a manly and respectable mate, he realized his own position and lost no time in answering the appeal. After six months' correspondence Mr. Gray came to Spokane, where the bridegroom met her, and the wedding followed. They will make their home in the town of Potlatch.

Frank Everett, a rancher, at Chester, Wash., had a different experience with a mail order bride. Following an interview with the Spokane agent of an transcontinental railroad, three weeks ago, he dispatched a fat envelope, containing among other things the price of a first-class ticket and sleeping car accommodations, also \$25 for meals and extras, to a woman in Kansas City, Mo. The bride-to-be was due in Spokane on March 15 but Everett did not lose faith until after waiting five days, when he admitted being stung.

"The girl, whose name I shall not make public, described herself as 24 years of age, fairly good looking and a first-class cook," Everett said. "She wanted to come west and marry a rancher, but I guess she changed her mind after getting my money. I've been 'bunked' and I'm going back to the ranch, but before I promise again to marry I am going to see the other party on the ground."

MEN:

For tender face and neck after shaving for pimples, black heads and dandruff or any skin or scalp disease use ZEMO and ZEMO SOAP. ZEMO is guaranteed to relieve all soreness and itching. The soap is part of the treatment—best for all toilet purposes. Sold by druggists everywhere and in Wichita Falls by Miller Drug Co.

Like His Father.
From Norman E. Mack's National Monthly.

Jim Halting had just returned from college. He wore a pair of light trousers, which came half way up to his knees, a dark coat, large bow-tie, soft hat, low shoes and brightly colored socks.

When his father saw him, he gave one gasp and said: "Jim, you look like a damn fool." Jim told him it must be true if he said so, and left him to visit his friend Nellie's house.

When she saw him she cried out in joy: you look just like your father did when he came home from college. "So he just told me a little while ago," said Jimmy.

Here's the List of Nominations in the Times' Gold Giving Contest

Below we are pleased to publish the first list of nominations in our great voting contest. On account of the rush incident to preparing this list we have been unable to include the votes so far cast for the different candidates. The 1,000 votes credited to each name are those called for on the nomination blanks. In the list next Saturday we will include all those votes polled up to the present time together with any that may be cast previous to 8 o'clock Friday evening, March 31st. **DO YOU SEE YOUR FAVORITE NAME AMONG THE NUMBER?** Are you helping him or her? If you are not you should be. It won't take much help from you and will undoubtedly be greatly appreciated by the ambitious candidate. Give him or her your subscription to THE TIMES and help the good cause along. Don't forget that what helps THE TIMES helps the whole community. If you haven't written in the list nominate one. Or you can do better than that. Get in yourself. Win the \$500 in Gold for yourself. We want to see your name in the list before those already entered have received so many votes that it may scare you away. We wouldn't have that occur you know. We know what you would like to do. You'd like to win that \$500 in Gold. Wouldn't you? Why don't you? We are not going to retain possession of it a moment longer than it will take us to turn it over to the winner April 29th. It's up to you to be that winner. Study this list. Don't you think you can do as well as anyone here? Of course you do. Getting votes and subscriptions for THE TIMES is not like pulling hairs. You know you will find it the easiest work you ever undertook. You won't have to talk very long to a prospective subscriber before you have him convinced that he needs just such a paper as THE TIMES in his business. All the arguments we might put on this page will not be as convincing as an hour's work getting subscriptions on your part. You'll find all the conviction you are looking for if you will give it a fair trial. That's what we want you to do. That's what all this argument is about. If you'll just interest yourself long enough to find out all about this contest, you'll be quick enough to see the advantage of filling out a nomination blank with your name and sending it to the contest manager. We're ready if you are. How long now are you going to keep up waiting? Remember the first period closes a week from next Saturday night. And the more contestants there are in the race the easier it will be to win our prizes. **NOW IS YOUR GOLDEN OPPORTUNITY.**

Chickens--Ailments and Cures It has been said that 90 per cent of the ailments that attack chickens are directly due to either the carelessness or ignorance of the attendant, especially where fowls are confined in close quarters. There are many causes for the diseases of fowls, among which are: Too close inbreeding (no new outside stock introduced into the flock); impairing the stamina and vitality of the fowls; the presence of filth in or around the poultry house; stagnant and filthy drinking water; improper ventilation; direct drafts in the roosting house; allowing access to decaying vegetables or flesh; lack of good, sharp grit, and lice. The worst disease is undoubtedly roup. The first symptoms are sneezing and a slight running at the nose; the appetite falls, the comb begins to turn black, and unless relieved the chicken dies in a few days. It is contagious to the rest of the flock, so separate them at once. Excellent remedies are on the market. A few drops of tincture of muriate of iron and a small piece of gum camphor in the drinking water will cure any but the very severe cases. A chicken that gets a very severe case might as well be killed; its carcass should be burned. Next to roup, cholera is most to be dreaded. The symptoms are drowsiness and a diarrhea, the excrement being of a greenish yellow color. Cholera is highly contagious. Feed lightly with a warm mash of ground oats, wheat, bran and middlings, with a little flour mixed in. Mix with scalding hot water and season with a little red pepper. Get one-quarter of a pound each of powdered sulphur, copperas, capsicum and alum, mix thoroughly and add a tablespoonful for each dozen chickens added to the mash three times a day. Supply clean water and writ, and those that don't improve in two days kill and burn. Keep them separate until well. Small worms—sometimes lodge in the windpipes of chicks, making them cough and in time choke them to death. One of the best ways to treat tapeworms is to place the chicks in a box covered over with cheesecloth and dust air-slacked lime through to make the chicks sneeze, and thus expel the worms. Don't overdo this. A good way to prevent tapeworms is to sprinkle air-slacked lime in house and run. Dysentery is caused by overheating, chilling and improper feeding. Feed sparingly for a few days, no corn at all, and they will usually recover. Limberneck is caused by fowls eating decaying animal or vegetable matter, which is filled with worms or maggots. A few drops of turpentine or kerosene poured down the throat will effect a cure. Be regular in the matter of feeding. Don't keep a flock on a single grain diet. Don't allow manure to collect. Clean up daily. Before you buy new stock be sure they are well. Introduce new blood either by stock of eggs every year or two.—San Antonio Light.

BASEBALL NOTES. "Rube" Waddell has reported at the Minneapolis training camp at Hickman, Ky., and all is well. In the twentythree "Old Pop" Anson was in the National League he hit below .300 only two seasons. Addie Joss' arm must be all right. Cy Young says that Addie will be just as good as ever this season. "Gabby" Street of the Washington team looks in tip-top condition this spring and will no doubt have a good season. Billy Sullivan's arm is O. K., this spring, and he says that he will catch at least 125 games for the White Sox. The Yankees have a great lot of colts working in Georgia. They say they have been showing up the regulars is brutal. Beals Becker is doing great stick work with the Giants and looks good for the regular berth in center field. Manager Frank Chance of the Cubs believes he has picked up a wonder in Pitcher Toney who comes from the Nashville City League. One of Charlie Dryden's Doc White of the White Sox is threatened with housemaid's knee from playing on a SCRUB team. Steve Kane, who was a member of the National League staff last season, has accepted a position to umpire in the Northwestern League. "Pug" Bennett the former St. Louis player has signed with the Vancouver Northwestern League Club. Scout Fred Lake of the Browns says that Bobby Wallace's team looks a hundred per cent stronger than last year. The scribes traveling with the Athletics have a team, I. e. they call it a team, but it's a piece of cheese. Lord, McConnell, Dougherty and Melvire of the White Sox are all stinging the ball fair in the practice games. Pitcher Ables, six feet three inches tall and Catcher, Williams, who stands six feet one inch, form a battery for the New York Americans. The Cincinnati Reds have scheduled exhibition games with the New York Detroit and Cleveland teams of the American League. Catcher "Peaches" Graham is holding out for more money. There is talk that one National League club that would like to sign the Boston star. President Tearney of the Three-league and Owner Kinsella, of the Springfield Club seem to be in bad. Under a promise made by Tearney and Kinsella, that it would be given a franchise in the Three-l circuit, the Quincy Club purchased its release from the Central Association, and now the above named gentlemen are unable to make good. Mrs. John Drew Better, McLeanboro, Ill.—"About five years ago, says Mrs. John L. Drew, of this place, "I was afflicted with pains and irregularity every month, suffered continually, was weak and despondent, and unable to do my household work. I took Cardui, and in one month I felt like a new woman and worked hard all summer. I am now in perfect health, and recommend Cardui to all suffering women. Every day, during the past 50 years, Cardui has been steadily forging ahead as a result of its proven value in female troubles. It relieves headache, backache, womanly misery and puts fresh strength into weary bodies, try it.

WITH THE BOXERS. Gus Besenah and Kid Barrish, the Boston featherweight, will clash in Cincinnati, April 3. Manager Jim Clark is going to bring Johnny Curran, the bantam champion of Ireland, to Boston. Johnny Conlon can have a match with Jimmy Walsh, if he will consent to allow Walsh to weigh in at 115 pounds. Ad Wolgast's next big battle will be his bout with Packer McFarland, which is scheduled to take place in New York next month. Tale of Two Brothers. When the civil war broke out John T. Markam of Clarksville, Tenn., was among those who enlisted on the side of the Confederacy. He was born in Ireland, but in his boyhood his parents came to this country and settled in the sunny south. He was 20 years old when "he marched off to the war" in 1861, leaving behind him an invalid father and a mother with a baby in her arms. The baby was christened Charles H. Markham, but the family always called him "Chuck." John Markham was captured and brought to Chicago in 1862. For seven months he was held a prisoner of war at Camp Douglas. Then he was exchanged. Friendless and penniless it took him many weary weeks to work his way back to the little home town in Tennessee. When he did reach there it was only to find that his father had died during his absence and that his mother had married again and had moved away, taking little "Chuck" with her. "They've gone north somewhere, but just where nobody seems to know." The towns people told John Markham. And all his efforts to find his mother and little brother were futile. Finally he gave up the search for them and went to Mississippi. He worked there and in other southern states as a well digger, bricklayer and plasterer. For several years he was an employe of the Illinois Central railroad at Hopkinsville, Ky. Such has been the life of John T. Markham. In 1881 a boy of 20 asked for and got a job as a section laborer on the Santa Fe in Kansas. He did not stay long in that job, for a chance came to do the rough work at a station on the Southern Pacific line. He had brains and ambition and they kept him moving right up the railway ladder. In 1887 he became a station agent at Birmingham, Ala. Three years later he was district freight and passenger agent of the Southern Pacific at Fresno, Cal. In just ten years more he was made general freight and passenger agent of that company's lines in Oregon. In 1891 he became vice-president of the Houston and Texas Central railroad. Three years later he succeeded Julius Kruttschnitt as vice president and general manager of the Southern Pacific. Last December he was elected President of the Illinois Central railroad. His name? Well he was christened Charles H. Markham, but when a baby his family called him "Chuck." The other day an old well digger and plasterer working for the Illinois Central railroad chanced to see the name of Charles H. Markham on an order issued from the office of the president of the company. That may be my brother "Chuck," the old man said to his fellow workers. "Your brother president of the road. You're crazy," they jeered. But the old man clung to the idea and finally mustered up courage to go to the telephone office in Hopkinsville and over the long distance wire he talked to the brother from whom he had been parted for half a century. Yesterday the private cab of Charles H. Markham, of the Illinois Central railroad, arrived at Hopkinsville, Ky., and awaiting the coming of "Little Chuck" was John T. Markham, well digger and plasterer. TEXAS IN THE LIMELIGHT. Colonel Roosevelt has not yet started to write that promised history of Texas. Doubtless he is wondering what on earth there is in Texas to write about, anyway, now that he has seen it at close quarters.—Los Angeles Express. Texas is to vote on Statewide prohibition next July. What's the use? Texas is a dry enough State by nature; her people won't be likely to try to improve upon her aridity.—Boston Globe.

HAVE WE HAD YOUR ORDER FOR BISMARK OLIVES? If you have had one jar we are sure you want some more and this is just to remind you that our second shipment is now here—same quality, same quantity per jar and same price. If you haven't had any you are missing a rare treat in olives. Never was there a better olive offered in Wichita Falls at this price. The Bismark label always means your money's worth no matter what you buy with that label on it, and these Bismark Olives at 50c per quart are not only no exception to the rule, but are really extra value. You can't get anything equal to Bismark Olives at this price. Have a jar now.

AUTO REPAIRS LIVERY. Have You Tried Stenciling with E-Z-DYE. The latest and most up-to-date and only cold water dye on the market. Far superior to the old fashioned. Will dye a garment in cold water in a few minutes' time, when a half day's boiling with any other dye would be required. Always ready for use without mixing with oil, turpentine, vinegar or salt. Put up in collapsible lead tubes and any of the dye not required may be saved for future use. One tube dyes all fabrics. Has thirty-two different uses and you get them all for fifteen cents. Does not contain any odors of poisonous lead and whether used for dyeing, stenciling or any of its numerous uses is absolutely fast to washing and is the only dye that can be used for such delicate fabrics as chiffons and laces. This dye can be had in twenty different colors. In connection with above we also carry stencils of various exclusive patterns and brushes which can be had very reasonable. Will appreciate having you call and look at line.

Condition of the Contest

Any person, man or woman, married or single, girl or boy, is eligible, providing the conditions set forth are complied with:
 THE TIMES reserves the right to reject any nominations.
 Every candidate must be regularly nominated in writing on the blank printed in this paper or a similar blank furnished by THE TIMES.
 Candidates must reside in the District or Territory from which nominated. No candidate will be permitted to transfer votes to another after receiving them for themselves.
 Ballot sent in for names not properly nominated will be destroyed uncounted.
 A ballot will be printed in THE TIMES from time to time, and when properly filled out and mailed to the Contest Department, will be good for the number of votes printed thereon, provided they are sent in before the expiration date.
 All ballots must be neatly trimmed or they will be rejected as informal. Postage must be fully prepaid or they will be rejected at the postoffice, hence not counted.
 No employe of THE TIMES can be a contestant in this contest.
 Any question that may arise will be determined by the Contest Manager of THE TIMES, and his decision will be final and conclusive.

HOW THE PRIZES WILL BE DISTRIBUTED.

The City of Wichita Falls and surrounding territory have been divided into three districts as follows:

One district in the City of Wichita Falls and two districts outside.

The Grand Capital Prize—\$500 in Gold—will be awarded to the contestant who secures the largest number of votes in the entire contest, irrespective of district.

The Second Grand Prize—\$250 in Gold—will be awarded to the contestant receiving the second largest number of votes in the entire contest, irrespective of district.

The three \$50 Gold Prizes will be awarded to the three contestants having the greatest number of votes, following the two Grand Prize Winners. One in each district.

The contestants receiving the next largest number of votes in their respective districts, will each receive \$25.00 in Gold, plus in each district.

The contestants receiving the next largest number of votes will receive \$10.00 in Gold; one in each district.

The contestants receiving the next largest number of votes will each receive \$5.00 in Gold; one in each district.

Any contestant winning one of the Two Grand Prizes cannot win any of the district prizes.

The fact that there are four prizes for each district besides the two other prizes, makes it a certainty that there will be at least four winners in each district, and should one of the Capital Prizes be won by you or any other candidate in your district, there will be five or more prizes awarded in your district.

OTHER PRIZES WILL BE ANNOUNCED FROM TIME TO TIME.

HOW TO SECURE SPECIAL VOTES.

Votes are secured in this contest by paying subscriptions to THE DAILY TIMES in advance for three months or longer; the WEEKLY TIMES for one year or longer, and buying classified advertising books. Contestants are not restricted to getting subscriptions or votes in their own district BUT MAY SECURE SUBSCRIPTIONS IN ANY PART OF THE UNITED STATES, and if cash accompanies the order special votes will be issued. Contestants in one district are not competing with contestants in other districts except for the Capital Prizes. The division of districts so equalizes competition that every contestant has an equal chance to win the prize of his or her choice.

Besides the votes allowed on prepaid subscriptions, a coupon will be published in THE DAILY TIMES every day during the first two periods of the contest, good for the number of votes printed thereon. These coupons must be neatly trimmed around the border, properly filled out, and brought or mailed to the Contest Department of THE DAILY TIMES before the expiration date printed thereon.

BALLOTS CANNOT BE BOUGHT. THEY CAN ONLY BE OBTAINED BY SUBSCRIBING AND PREPAYING A SUBSCRIPTION TO THE TIMES, BY PURCHASING A CLASSIFIED BOOK OR BY CUTTING THEM FROM THE PAPER.

All paid-in-advance subscriptions, must be sent direct to the Contest Department of THE TIMES, and on receipt of remittance special ballots will be issued.

Special ballots are provided to carry with them additional voting value, according to the amount paid by a subscriber, and the length of the subscription.

No contestant will be permitted to vote—or have voted—more than ten thousand of the special votes at any one counting during the first two periods of the contest.

THE TIMES ALWAYS RESERVES THE RIGHT TO MAKE CORRECTIONS IN SCORES WHEN A MISTAKE HAS BEEN MADE. If too many votes have been credited they can be deducted either from the printed score or special vote slips.

Each published score is accepted as final by all contestants unless objection is made within one week from date of publication.

No protest as to the eligibility of any candidate will be considered if votes have been cast for said candidate for a period of ten days.

THE TIMES reserves the right to alter any conditions pertaining to this contest if so desires other than reducing the prizes that are to be given away, and the order in which they will be won.

The contest will be open Thursday morning at 9 a. m., March 16th, and will close at 11 o'clock p. m. Saturday, April 29th, 1911.

In case of a tie for any of the prizes offered by THE TIMES, the prize will be equally divided.

Contestants that live in one district are not prevented from securing subscriptions or votes in any other districts as votes will be allowed on any prepaid subscription secured anywhere in the United States. If an order for a subscription or classified book is sent with the money, votes will be issued in favor of any contestant that the writer may designate and returned to the subscriber or mailed to the contestant if so desired.

To secure the special vote ballots, all money must be sent direct to THE TIMES Contest Department by the contestants or their friends, as votes will only be issued at THE TIMES office.

Any person wishing to withdraw from the contest must write us personally, as no telephone message will be considered.

In accepting nominations all candidates must accept and agree to abide by the above conditions.
